AUTHORIZATION:

OBJECTIVES:

To provide direct financial assistance to Eligible Metropolitan Areas (EMAs) and Transitional Grant Areas (TGAs) that have been the most severely affected by the Human Immunodeficiency Virus (HIV) epidemic to enhance access to a comprehensive, effective and cost efficient continuum of high quality, community-based care for low-income individuals and families with HIV and to strengthen strategies to reach minority populations. A comprehensive continuum of care includes the 13 core medical services specified in legislation and appropriate support services that assist People Living With HIV/AIDS (PLWH/A) in accessing treatment for HIV/AIDS infection that is consistent with the Department of Health and Human Service (HHS) Treatment Guidelines. Comprehensive HIV/AIDS care beyond these core medical services may include supportive services that meet the criteria of enabling individuals and families living with HIV/AIDS to access and remain in primary medical care to improve their medical outcomes.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Funds received under a grant are to be used to fund not less than 75 percent core medical services and 25 percent support services, unless a waiver request related to this requirement is submitted and approved. Core medical services include: outpatient and ambulatory health services, AIDS Drug Assistance Program, AIDS pharmaceutical assistance, oral health care, early intervention services, health insurance premium and cost-sharing for low-income individuals, home health care, medical nutritional therapy, hospice services, home and community-based health services as defined under Section 2614 (c), mental health services, substance abuse outpatient care, and medical case management, including treatment adherence services. Support services are for individuals with HIV/AIDS to achieve medical outcomes and may include respite care for persons caring for individuals with HIV/AIDS, outreach services, medical transportation, linguistic services and referral for health care and support services, and others. A percentage of the grant, determined by the percentage of women, infants, children and youth in the area with HIV/AIDS, will be used to provide health and support services to women, infants, children, and youth with HIV disease, including treatment measures to prevent the perinatal transmission of HIV. No more than 10 percent of amounts received under a grant may be used to fund the recipients grant administration and monitoring activities, program support activities and all activities associated with recipient contract award procedures. In addition, sub-recipient level administrative expenses may not exceed 10 percent of aggregate expenditures (without regard to whether particular entities expend more than 10 percent for such administrative expenses). Recipients may use up to 5 percent of funds or \$3 million, whichever is less, for clinical quality management activities to assess the extent to which HIV health services provided to patients under the grant are consistent with the most recent Department of Health and Human Services guidelines for the treatment of HIV/AIDS. Funds may not be used to

make payments for any item or service to the extent that payment has been made, or can reasonably be expected to be made, with respect to that item or service by other public or private insurance programs, or any entity that provides health services on a prepaid basis (except for a program administered by or providing the services to the Indian Health Service). Funds may not be used to purchase or improve land, or to purchase, construct or make permanent improvement to any building except for minor remodeling. Formula and Matching Requirements:

Statutory Formula: Part A grants to EMAs and TGAs include formula and supplemental components as well as Minority AIDS Initiative (MAI) funds, which supports access to services targeting minority populations.

93.926 HEALTHY START INITIATIVE

Healthy Start

FEDERAL AGENCY:

Health Resources and Services Administration, Department of Health and Human Services

AUTHORIZATION:

Title III, Part D, Section 330H of the Public Health Service Act, (42 U.S.C.254c-8).

OBJECTIVES:

To eliminate disparities in perinatal infant and maternal health by: enhancing a community's health care infrastructure and service system and a State's infrastructure; and directing resources and interventions to improve access to, utilization of, and full participation in comprehensive perinatal and women's health services, particularly for women and infants at higher risk for poor health outcomes.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Every Healthy Start project implements community-driven approaches to address infant mortality rates by reducing maternal behavioral and medical risk factors and promoting healthy outcomes for women and their families.

Beginning with prenatal care and continuing through the infant's second year of life, each community awarded funds assures the availability of a core set of services and activities for the perinatal population in their project area. These services include case management, home visiting and links to health care and other needed services for mothers and their infants; direct outreach and peer mentoring by trained community members; screening and referral for perinatal/postpartum depression; and strong coordination with and access to substance abuse, domestic violence, mental health, early intervention, parenting and other critical services for high-risk women and families. In addition, each Healthy Start project is required to have a community-based consortium composed of individuals and organizations and that includes women and families served by their project, to collaborate with their State Title V (MCH) Agency, and to implement a local health system action plan to improve the quality, cultural competence of and access to services and/or to address other problems in the local system of care. Funds may not be used to supplant currently funded activities/services.

Applicant Eligibility:

Eligible Project Area

All applicants applying for funding under this grant announcement must identify themselves as serving an urban, rural, or border community project area. A project area is defined as a geographic community in which the proposed services are to be implemented. A project area must represent a reasonable and logical catchment area, but the defined areas do not have to be contiguous. A map of the proposed project area must be included in the application.

Urban Territory, population, and housing units located within an urbanized area (UA) or an urban cluster (UC), which has:

- o a population density of at least 1,000 people per square mile; and
- o surrounding census blocks with an overall density of at least 500 people per square mile.

Rural To determine whether the Census tract or County for your proposed project area is defined as a rural area (RA), visit the webpage Rural Health Grants Eligibility Analyzer (<http://datawarehouse.hrsa.gov/RuralAdvisor/ruralhealthadvisor.aspx?ruralByAddr=1>) and enter the project area address.

US/Mexico Border Border communities are those communities located within 62 miles/100 kilometers of the U.S./Mexico border. In order to be considered for Border Community funding, the project area and the target population to be served both have to reside within 62 miles/100 kilometers of the U.S./Mexico border.

Eligible Target Population

The target population is the population that the applicant will serve within their geographic project area and will determine their eligibility. The target population may range from a single racial/ethnic group to the entire project area population. The project area for which the applicant is applying and the proposed target population within that project area must be clearly identified to confirm eligibility.

Eligibility Factors Demonstrating Need

HRSA/MCHB must be able to verify submitted data with the appropriate state/local government agency responsible for vital statistics. Border community applicants that cannot provide this verifiable data may use the other indicators specified in the second section below. Project data for the eligibility factors for all applicants must be included in the applications transmittal letter and in the needs assessment section of the submitted application. The existing racial/ethnic disparities in these or other perinatal indicators should also be described in the needs assessment section of the application. Applications that do not provide this information, in the manner described within this Funding Opportunity Announcement (FOA), will be considered ineligible and the application will be returned without review.

An applicants target population within their proposed project area must meet the following verifiable criteria using the smallest statistical level of verifiable data available -- not to be any larger than a combination of counties (e.g. a city project should not report county-level data).HRSA-14-020, Urban and Rural Communities

Using verifiable three-year average data for calendar years 2007 through 2009, the proposed project area for communities which meet the urban or rural community definition must meet the following indicators from the list below.

The 2007-2009 combined three-year infant mortality rate (IMR, infant deaths per 1,000 live births over three years) must be equal to or more than 9.9 deaths per 1,000 live births (1.5 times the national average) AND there must be 20 or more infant deaths over the three years for the targeted population.

If the combined 2007-2009 number of infant deaths are less than (<)20, then to be eligible the following must be met: o The 2007-2009 three-year average low birthweight (LBW) is equal to or more than 12.3% (1.5 times the national average) AND there must be 100 or more LBW births in the targeted population for the three-year period, 2007 to 2009

OR

The 2007-2009 preterm births (PTB) is equal to or more than 18.6% (1.5 times the national average) AND there must be 100 or more PTB births in the targeted population for the period, 2007 to 2009

For Levels 2 and 3, if the combined 2007-2009 IMR is less than 9.9 deaths per 1,000 live births, then to be eligible the following must be met: o The applicant must demonstrate a 20% decrease in IMR in their target population for 2005-2009 (five-year combined average) and discuss how they were a significant contributor to this reduction

AND meet at least one of the following criteria:

The 2007-2009 three-year average low birthweight (LBW) is equal to or more than 12.3% (1.5 times the national average) AND there must be 100 or more LBW births in the targeted population for the three-year period, 2007 to 2009

OR

The 2007-2009 preterm births (PTB) is equal to or more than 18.6% (1.5 times the national average) AND there must be 100 or more PTB births in the targeted population for the period, 2007 to 2009

US/Mexico Border Communities

Using verifiable three-year average data for 2007 through 2009, the proposed target population for project areas which meet the border community definition (i.e., within 62 miles of the U.S./Mexico border) must have at least 1,000 births for the three year period and meet at least three (3) indicators from the list below. If vital statistics are not available from state/local government agencies, border community applicants can use other verifiable data.

- Percentage of women of childbearing age with diabetes is 3.1% or more;
- Percentage of women of childbearing age who are obese is 31.8% or more;
- Percentage of pregnant women entering prenatal care in the first trimester is less than 80%;
- Percentage of births to women who had no prenatal care is greater than 2%;
- Percentage of births to women who smoke is greater than 20%;
- Percentage of children 0-2 years old with a completed schedule of immunization is less than 60%;
- Percentage of children under 18 years of age with family incomes below the Federal Poverty Level exceeded 25% for 2010. If more recent verifiable poverty data is available, please provide this data and identify year and source;
- Percent of infants born large for gestational age (LGA) is 9.4 or greater.

Beneficiary Eligibility:

Service area residents, particularly women and infants in areas with significant perinatal health disparities.

Credentials/Documentation:

Applicants should review the individual HRSA funding opportunity

announcement issued under this CFDA program for any required proof or certifications which must be submitted prior to or simultaneous with submission of an application package. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO). In accordance with 45 Code of Federal Regulations, Part 74.26, for-profit (commercial) organizations are subject to

audit requirements for a non-Federal audit if, during its fiscal year, it expended \$500,000 or more under HHS awards and at least one award is a HHS grant or subgrant. The regulation incorporates the thresholds and deadlines of OMB Circular No. A-133, but provides for profit organizations with two options for the type of audit that will satisfy the audit requirement: 1. a financial related audit of the HHS awards in accordance with Government Auditing Standards, or 2. an audit that meets the requirements of OMB Circular No. A-133. In accordance with NIH grants policy, Foreign grantees are subject to the same audit requirements as for-profit (commercial) organizations.

Records:

The NIH will maintain applicant records for 3 years after rejection and participant records for 6 years after completion of final service obligation. Grantees generally must retain financial and programmatic records, supporting documents, statistical records, and all other records that are required by the terms of a grant, or may reasonably be considered pertinent to a grant, for a period of 3 years from the date the annual FSR is submitted. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FSR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FSR is submitted to NIH. Foreign organizations and Federal institutions must retain records for 3 years from the date of submission of the annual FSR to NIH. See 45 CFR 74.53 and 92.42 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 74.48 and 92.36 for record retention and access requirements for contracts under grants. In accordance with 45 Code of Federal Regulations, Part 74.53(e), the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents.

This right also includes timely and reasonable access to a recipients personnel for the purpose of interview and discussion related to such documents. The rights of access are not limited to the required retention period, but shall last as long as records are retained.

93.938 COOPERATIVE AGREEMENTS TO SUPPORT COMPREHENSIVE SCHOOL HEALTH PROGRAMS TO PREVENT THE SPREAD OF HIV AND OTHER IMPORTANT HEALTH PROBLEMS

(SHEPSA)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act, 42 U.S.C 241(a) & 243(b).

OBJECTIVES:

To improve the health and well-being of youth and prepare them to be healthy adults.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Cooperative Agreement funds may be used to support personnel, purchase equipment, supplies, services, and travel directly related to the program activities and consistent with the scope of this program. Cooperative agreement funds are used to help schools prevent sexual risk behaviors that result in HIV infection, especially among youth who are at highest risk. For example, cooperative agreement recipients implement and integrate effective policies and educational strategies to reduce risk behaviors that lead to HIV infection among youth; implement strategies to reduce disparities among sub-populations of youth disproportionately affected by HIV infection and other health problems related to sexual risk behaviors; evaluate the implementation and effectiveness of strategies to reduce risks for HIV infection among youth in schools for the purposes of programmatic improvement and long-range planning. CDC believes that the specific scope and content of HIV education programs in schools should be locally determined and should be consistent with parental and community values. CDC supports local decision-making by providing sound scientific information to grantees who work directly with schools, communities, and parents. Funds may be expended for written materials, pictorials,

audiovisuals, questionnaires or survey instruments, and educational group sessions related to HIV education for youth, school, and college populations if approved in accordance with the document "Content of AIDS-Related Written Materials, Pictorials, Audiovisuals, Questionnaires, Survey Instruments, and Educational Sessions in Centers for Disease Control Assistance Programs." Cooperative agreement funds are also used to build state education and state health agency partnership and capacity to implement and coordinate school health programs across agencies and within schools. The expected outcome of this effort is to help schools reduce chronic disease risk factors, including tobacco use, poor nutrition, and physical inactivity. For example, cooperative agreement recipients implement and integrate effective policies, environmental changes, and educational strategies to reduce unhealthy behaviors; leverage resources to avoid duplication at the state and local levels; evaluate school health capacity-building efforts while implementing effective strategies to reduce priority health risks. Funds may not be used to conduct research projects, provide direct delivery of patient care or treatment services, and purchase or disseminate condoms. Although public health may have an assurance role in clinical testing and screening, funds are not to be used to provide clinical testing or screening services. Funds may not be used for purchasing computer equipment, office equipment or furnishing, renting or leasing office space, or to support construction or renovation unless specifically approved.

93.945 ASSISTANCE PROGRAMS FOR CHRONIC DISEASE PREVENTION AND CONTROL

(State Cardiovascular Health Programs (CVH); and Racial and Ethnic Approaches to Community Health (REACH)); State Public Health Approaches to Improving Arthritis Outcomes, State Nutrition, Physical Activity and Obesity Programs.

State Public Health Actions to Prevent and Control Diabetes, Heart Disease Obesity and Associated Risk Factors and Promote School Health.

Using Traditional Foods and Sustainable Ecological Approaches for Health Promotion and Diabetes Prevention in American Indian/Alaska Native Communities.

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act., Title 42, Section 301(a) and 317.

OBJECTIVES:

To work with State health agencies and other public and private nonprofit organizations in planning, developing, integrating, coordinating, or evaluating programs to prevent and control chronic diseases; assist in monitoring the major behavioral risks associated with the 10 leading causes of premature death and disability in the United States including cardiovascular diseases; and, establish new chronic disease prevention programs like Racial and Ethnic Approaches to Community Health (REACH), State Nutrition, Physical Activity and Obesity Programs (NPAO)

DP08-819/DP13-1317: Purpose - The purpose of the program is to 1) support community use of traditional foods and sustainable ecological approaches for diabetes prevention and health promotion in American Indian and Alaska Native communities; and 2) engage communities in identifying and sharing the stories of healthy traditional ways of eating, being active, and communicating

health information and support for diabetes prevention and wellness.

CDC-RFA-DP13-1305, State Public Health Actions to Prevent and Control Diabetes, Heart Disease, Obesity and Associated Risk Factors and Promote School Health, supports statewide implementation of cross-cutting approaches to promote health and prevent and control chronic diseases and their risk factors. Four chronic disease prevention programs (Diabetes; Heart Disease and Stroke Prevention; Nutrition, Physical Activity, and Obesity; and School Health) are included in this FOA. State Health Departments are funded under this FOA to address the following goals:

Short/Intermediate Term Goals:

Improve state, community, worksite, school, and early childhood environments to promote and reinforce healthful behaviors across the lifespan related to diabetes, cardiovascular health, physical activity, healthful foods and beverages, obesity, and breastfeeding;

Improve effective delivery and use of quality clinical and other preventive services aimed at preventing and managing diabetes and hypertension; and

Increase community-clinical linkages to support prevention, self-management, and control of diabetes, hypertension, and obesity.

Long Term Goals:

Improved prevention and control of hypertension

Improved prevention and control of diabetes

Improved prevention and control of overweight and obesity

The FOA has two components: 1) A basic non-competitive component to support health promotion, epidemiology, and surveillance activities and targeted strategies that will result in measurable impacts to address school health, nutrition and physical activity risk factors, obesity, diabetes, and heart disease and stroke prevention in all 50 states and the District of Columbia. These efforts will be supported by core public health activities such as partnership engagement, workforce development, guidance and support for programmatic efforts, strategic communication, surveillance and epidemiology, and evaluation; and 2) A competitive enhanced component to build on and extend the activities supported with basic funding to achieve even greater reach and impact. Thirty-two states were funded under the enhanced Component to implement evidence and practice-based interventions to improve physical activity and nutrition, reduce obesity, and prevent and control diabetes, heart disease, and stroke with a focus on high blood pressure. The enhanced component includes implementation of evidence-based strategies that are more extensive and wider-reaching than those implemented in the basic component. States funded for this enhanced component must implement interventions at scale in order to reach large segments of the population in the state (e.g., through school districts, early care and education (ECEs), worksites, and state and local governmental agencies) and in partnership with organizations that may or may not have worked with state departments of health in the past (e.g., large employers, public housing, the education sector, health insurers, and large health systems).

93.946 COOPERATIVE AGREEMENTS TO SUPPORT STATE-BASED SAFE MOTHERHOOD AND INFANT HEALTH INITIATIVE PROGRAMS

Safe Motherhood and Infant Health (Reproductive Health)

FEDERAL AGENCY:

Centers for Disease Control and Prevention, Department of Health and Human Services

AUTHORIZATION:

Public Health Service Act; Safe Motherhood, Section 317K; Prenatal and Postnatal Health, Section 317L, 42 U.S.C 247b-12 and 13.

OBJECTIVES:

To promote optimal and equitable health in women and infants through public health surveillance, research, leadership, and partnership to move science to practice. In carrying out this mission, the Division of Reproductive Health: 1) Enhances the ability of others to identify and address male and female reproductive issues and infant health issues by providing technical assistance, consultation, and training worldwide; 2) supports national and state-based surveillance systems to monitor trends and investigate health issues; 3) conducts epidemiologic, behavioral, demographic and health services research; and 4) works with partners to translate research findings into health care practice, public health policy, and health promotion strategies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

PRAMS:

The Pregnancy Risk Assessment Monitoring System, is a surveillance project of the Centers for Disease Control and Prevention (CDC) and state health departments. PRAMS collects state-specific, population-based data on maternal attitudes and experiences before, during, and shortly after pregnancy.

PRAMS provides data for state health officials to use to improve the health of mothers and infants; allows CDC and the states to monitor changes in maternal and child health indicators (e.g., unintended pregnancy, prenatal care, breastfeeding, smoking, drinking, infant health); and enhances information from birth certificates used to plan and review state maternal and infant health programs. The PRAMS sample is chosen from all women who had a live birth recently, so findings can be applied to the state's entire population of women who have recently delivered a live-born infant. PRAMS not only provides state-specific data but also allows comparisons among participating states because the same data collection methods are used in all states.

SID/SUID (Sudden infant Death/Sudden Unexplained Infant Death):

The SUID Case Registry aims to generate public health surveillance information about SUID at the national, state, and local levels that is more detailed than what is currently available. Instead of creating an entirely new system, the SUID Case Registry enhances the National Center for Child Death Review program and their Case Reporting System.

The SUID Case Registry generates public health surveillance information that can comprehensively describe the circumstances and events surrounding SUID cases. This will allow researchers, medicolegal investigators, and program prevention planners to better understand characteristics associated with SUID, evaluate case investigation practices, and ultimately prevent infant deaths.

Validation of Prenatal Substance Use Screening Tools:

The purpose of this research is to validate and compare the performance of the most promising substance abuse screening tools that are already available in the literature (for example, the 4Ps-plus, the 5Ps, the Substance Use Risk Profile Pregnancy Scale (SURP-P), the CRAFFT, the NIDA Quick Screen) and can be used among pregnant women seeking medical services (e.g. antenatal or delivery care) in clinical settings in the United States.

Medicaid Expansion and Reproductive Health Care for Women: The intent of this FOA is to study the use of medical services and health outcomes among low-income women of reproductive age (15-44 years), before and after expansion of Medicaid eligibility. This research will require linkage of state Medicaid data with other key maternal and child health datasets including, but not limited to, birth certificates, death certificates, and hospital discharge data.

Perinatal Quality Collaboratives:

This FOA will support states to enhance the capabilities of state-based perinatal quality collaboratives to improve the quality of perinatal care in their states, including but not limited to: reducing early elective deliveries, increasing use and documentation of use of antenatal steroids, increasing breastfeeding rates, and reducing central line-associated blood stream infections in neonates. Module B will continue to support the work of the 3 states that have successfully expanded their Perinatal Quality Collaborative through an existing FOA, CDC-RFA- DP11-1110, that ends September 29, 2014, and will support expansion of PQC projects and formal mentoring and capacity building for Module A awardees.

Maternal and Child Health Capacity Building:

The program promotes and improves the health and well-being of women, children, and families by building capacity at state, local, and tribal levels and to use and apply sound epidemiologic research and scientific information to maternal and child health programs and policies through collaborations with partners.

Special Interest Project (SIP)/Progesterin contraception and HIV risk: Clinical and laboratory follow-up of a cohort of HIV-infected and uninfected women: The purpose of this SIP is to establish a cohort of HIV-infected and HIV-uninfected women on different types of progesterin-containing contraception to assess differences in women's continuation with a given

method and the effects of long-term progestin use on markers of HIV risk and efficacy of ART. Also the project will support laboratory studies to analyze the effects of progestin on HIV shedding, inflammatory/immune markers in the genital tract, and the interaction of progestin with antiretroviral therapy on contraceptive and ART efficacy. Objectives in the topic area of Family Planning and HIV Prevention intend to Increase the proportion of pregnancies that are intended; increase the proportion of sexually experienced persons who received reproductive health services; reduce pregnancy rates among adolescent females; and reduce the rate of HIV transmission among adolescents and adults.

Teen Pregnancy Prevention:

The program is supporting public and private entities to fund medically accurate and age appropriate evidence-based or innovative program models to reduce teen pregnancy. The purpose of the program is to reduce teen pregnancy by working directly with publicly funded clinics to increase access to and use of reproductive health services among vulnerable youth. Activities include building the capacity of staff and clinical providers, establishing partnerships with youth-serving systems, and developing communication efforts. The primary target population is 15- to 19-year-olds, the age group among whom the majority of teen births occur; however, since the Society of Adolescent Health and Medicine and the United Nations Family Planning Association define adolescents as 15-24, the target age group may be expanded.

Development and Testing of a Clinic-Based Intervention to Increase Dual Protection against Unintended Pregnancy and STDs among High Risk Female Teens: The purpose of this funding opportunity is to develop and evaluate a clinic-based intervention addressing access to, motivation for, and adherence to dual protection strategies that concurrently protect against unintended pregnancies and sexually transmitted diseases (STDs), including human immunodeficiency virus (HIV) among high risk 15-19 year old females.

OBJECTIVES:

GWEP: The purpose of this cooperative agreement program is to establish and operate geriatric education centers that will implement the Geriatric Workforce Enhancement Program (GWEP) to develop a health care workforce that maximizes patient and family engagement and improves health outcomes for older adults by integrating geriatrics with primary care. A GWEP a) improves the training of health professionals and individuals in geriatrics, including geriatric residencies, traineeships, or fellowships; b) develops and disseminates curricula relating to the treatment of the health problems of elderly individuals; c) supports the training and retraining of faculty to provide instruction in geriatrics; d) supports continuing education of health professionals who provide geriatric care; e) provides students with clinical training in geriatrics in nursing homes, chronic and acute disease hospitals, ambulatory care centers, and senior centers; or f) establishes traineeships for individuals who are preparing for advanced education nursing degrees in geriatric nursing, long-term care, gero-psychiatric nursing or other nursing areas that specialize in the care of the elderly population. Special emphasis is on providing the primary care workforce with the knowledge and skills to care for older adults and on collaborating with community partners to address gaps in health care for older adults through individual, system, community, and population level changes. Interprofessional collaboration is an essential component of all project activities, and medicine must be one of the professions included in all interprofessional activities.

GECs: Grants are awarded to establish or operate Geriatric Education Centers to provide interdisciplinary training of health professions faculty, students, and

practitioners in the diagnosis, treatment and prevention of disease, disability, and other health problems of the elderly. Health professionals include allopathic physicians, osteopathic physicians, dentists, optometrists, podiatrists, pharmacists, nurse practitioners, physician assistants, chiropractors, clinical psychologists, social workers, health administrators, and other allied health professionals. In FY14 supplemental HRSA Funds grants were awarded to currently funded Geriatric Education Centers (GEC) Program grantees to provide interprofessional continuing education to healthcare providers, patients, families, and caregivers on Alzheimers disease and related dementias (AD). The goal of this training is to improve detection and early intervention of AD and ultimately improve care for patients and their families.

For most projects, Federal Financial Reports (FFR), Form SF425, must be filed 90 days after each competitive segment is completed. Reports must be provided to FIC staff in accordance with the CFR Title 42 Part 52 - Grants for Research Projects and the CFR Title 45 Part 75 - Uniform Administrative Requirements for grants and cooperative agreements. Cash reports are not applicable. The grantee is responsible for annual progress reports. These reports are required for program analysis as part of all continuation applications. In addition, a final report must be filed within 120 days of the termination of the grant. The final report includes an account of progress made toward achievement of the originally stated aims; a list of the significant results; and a list of publications and inventions resulting from the projects. All grantees should use the Research Performance Progress Reporting (RPPR) forms to submit the annual progress report. For the final projects report and the final FFR at the end of the project period, the RPPR format is highly recommended, but the older 2590 form may be used for all grants and cooperative agreements. For awards under SNAP (other than those to foreign organizations and Federal institutions), the 3-year retention period will be calculated from the date the FFR for the entire competitive segment is submitted. Those grantees must retain the records pertinent to the entire competitive segment for 3 years from the date the FFR is submitted to NIH. See 45 CFR 75 for exceptions and qualifications to the 3-year retention requirement (e.g., if any litigation, claim, financial management review, or audit is started before the expiration of the 3-year period, the records must be retained until all litigation, claims, or audit findings involving the records have been resolved and final action taken). Those sections also specify the retention period for other types of grant-related records, including F&A cost proposals and property records. See 45 CFR 75 for record retention and access requirements for contracts under grants.

In accordance with 45 Code of Federal Regulations, Part 75, the HHS Inspector General, the U.S. Comptroller General, or any of their duly authorized representatives have the right of timely and unrestricted access to any books, documents, papers, or other records of recipients that are pertinent to awards in order to make audits, examinations, excerpts, transcripts, and copies of such documents. CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

94.013 VOLUNTEERS IN SERVICE TO AMERICA

(AmeriCorps VISTA)
(VISTA)

FEDERAL AGENCY:

Corporation for National and Community Service

AUTHORIZATION:

Domestic Volunteer Service Act of 1973, as amended, Public Law 93-113, , Title I, Part A, Public Law 93-113, 87 Stat. 394, 42 U.S.C 4951-49600.

OBJECTIVES:

AmeriCorps VISTA is the national service program of the Corporation for National and Community Service (CNCS) designed specifically to fight poverty. VISTA supports efforts to alleviate poverty by engaging individuals, 18 years and older, from all walks of life, in a year of full-time service with a sponsoring organization (sponsor) to create or expand programs designed to bring individuals and communities out of poverty.

TYPES OF ASSISTANCE:

Provision of Specialized Services

USES AND USE RESTRICTIONS:

See program's Notice of Funding Opportunity. This is not a grant-based program. Restrictions on use of funds are described in programs Notice of Funding Availability/Opportunity. Use of funds must be consistent with awarded application, and are subject to the Corporation for National and Community Services administration laws, regulations and policies. All appropriated funds awarded under this program are discretionary.

Applicant Eligibility:

The proposed project must have a clear anti-poverty focus, include the involvement of the low-income community and the activities must lead towards sustainability of the project. The activities of the VISTA members may not supplant staff or current volunteers. See program's Notice of Funding Opportunity for more information.

Beneficiary Eligibility:

VISTA activities must benefit low-income persons and communities by building the capacity of the sponsoring organization to find permanent solutions to poverty.

VISTAs live and serve in some of our nations poorest areas. They receive a modest living allowance and other benefits during their service. After successfully completing a term of service, VISTAs and Summer Associates may receive a Segal AmeriCorps Education Award, which can be used to pay for college or student loans, or an end-of-service cash stipend. Sponsors may contribute to the cost of a VISTA through "cost share", but are under no obligation to do so.

Credentials/Documentation:

Various records and forms are required for first time applicants, as well as a copy of last audit may be requested. First time applicants must certify financial systems. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." Appeals:

No formal appeals for denial of initial project application; however, regulations provide for hearings on terminations and suspensions, and opportunity to show cause in cases of denial of refunding.

Renewals:

From 120 to 180 days. Renewal applications are required annually at least 120 days prior to the end of the project period. Renewals are subject to the same review procedures as new projects.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. The VISTA program does not, as a rule, provide assistance through cash grants, and, thus has no matching requirements. In the case of those projects that receive small grants to offset costs, there are no matching requirements. VISTA does operate a voluntary cost share program where sponsoring organizations can pay living allowance

costs for one or more VISTA members, allowing the program to maximize its reach. Sponsors also provide equipment, work space and other in-kind support of the VISTA members assigned to ensure overall project success. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

VISTA Volunteers are assigned to a project for a given length of time, generally 3-4 years, as designated in a Memorandum of Agreement between Corporation for National and Community Service (CNCS) and the sponsor. Individual volunteers commit themselves to an one year term of service which may be extended with sponsor and CNCS approval. Note that, with certain small exceptions, the VISTA program does not grant financial resources to organizations, but rather provides the resource through the placement of a VISTA member. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. In the case of VISTA projects that receive cash grants, cash management reports are required. The Corporation for National and Community Service uses the US HHS Payment Management System for payments and cash management reporting. Progress reporting requirements are described in the Memorandum of Agreement and reporting forms. In the case of VISTA projects that receive small cash grants, Federal Financial Reports are required as specified in the grant award provisions. The Corporation for National and Community Service and its VISTA sponsors are required to practice risk-based monitoring and routine field and desk-based oversight of all project/grant awards and expenditures.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Audits are required only for those projects receiving cash grants. Corporation for National and Community Service grants are subject to audit by Corporation for National and Community Service employees, the CNCS Inspector General, the Government Accountability Office, and auditors contracted by the CNCS.

Records:

Sponsors are expected to maintain records pertaining to volunteer assignments and training activities for 3 years after the end of the project year. Grant recipients must maintain all grant financial and program records for a period of three years from date of submission of the final Federal Financial Report for the award. This includes but is not limited to all financial records including receipts, disbursements, and vouchers for Federal and nonfederal costs, timecards, copies of all contracts, personnel records, and job descriptions, program execution and performance records, criminal history checks, and similar records to reflect all activities and spending performed under the award. Note that all individuals receiving a salary, living allowance, stipend, National Trust Education Award or similar compensation through a national service program funded by the Corporation for National and Community Service must first clear a National Service Criminal History Check and check records must be maintained within project records.

community organizations working to address priority issues. To be awarded funding, intermediaries will need to demonstrate:
the ability to identify innovative solutions and successfully invest in growth and replication;

FEDERAL AGENCY:

Executive Office of the President

The Administration supports a combined public health and public safety approach to reducing drug use and its consequences. Three facts guide our drug policy: (1) addiction is a disease that can be treated; (2) people can recover; and, (3) we cannot arrest our way out of the drug problem. The National Drug Control Strategy recognizes that for individuals who come into contact with the justice system, substance use disorders must be identified and treated as early in the justice process as possible, and incarceration cannot be the only (or even the primary) response to people with substance use disorders. Drug courts and other evidence-based diversion programs are key to the success of this approach. TYPES OF ASSISTANCE:

DEPARTMENT OF HOMELAND SECURITY

97.005 STATE AND LOCAL HOMELAND SECURITY NATIONAL TRAINING PROGRAM

FY 2014 Homeland Security National Training Program National Domestic Preparedness Consortium (NDPC) and Continuing Training Grants (CTG)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Section 1204 of the Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, 6 U.S.C 1102.

OBJECTIVES:

The Homeland Security National Training Program (HSNTP), National Domestic Preparedness Consortium (NDPC) plays an important role in the

implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. (<http://www.fema.gov/national-preparedness-goal>)

The objective of the HSNTF is to support nationwide training initiatives and further the mission of FEMA. In order to achieve the intended objective of the HSNTF, all training developed with HSNTF funds must support FEMA's all-hazards mission and reflect the following key priority areas: use of existing training mechanisms; linking training to exercise activities; incorporating the core capabilities identified in the National Preparedness Goal and the National Preparedness System components; and utilizing an adult learning and national delivery approach whereby curriculum is delivered via an integrated, collaborative approach.

Where possible, efforts will be made in the development and delivery of training programs to support the implementation of risk driven, capabilities-based State Homeland Security Strategies to address capability targets set in urban area, state, and regional Threat and Hazard Identification and Risk Assessments (THIRAs). The capability levels assessed in the State Preparedness Report (SPR) should be used to inform planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.

The Continuing Training Grant (CTG) program develops and delivers innovative training programs that are national in scope and have an important role in the implementation of the National Preparedness System by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation (<http://www.fema.gov/national-preparedness-goal>). Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. OBJECTIVES:

The Homeland Security Technical Assistance Program (HSPTAP) is established to build State, local, tribal and territorial (SLTT) capabilities to prevent, protect against, respond to, and recover from major events, including threats or acts of terrorism.

This overarching programmatic goal of building state and local capabilities will be achieved through various means and methods, each one aimed at making achieving the National Preparedness Goal and furthering our collective efforts to remain a safe and secure nation.

Specific program activities anticipated for achieving this goal will include, but will not be limited to:

- production and dissemination of written products relating to emerging homeland security issues and established or model state homeland security efforts;

- providing educational seminars for apprising newly appointed Governors Homeland Security Advisors of federal homeland security doctrine, best-practices and established principles;

- facilitating calls, meetings, or discussions amongst representatives from key stakeholder groups on a regular basis which serve to share information, knowledge, experiences, and practices relating to current and emerging homeland security issues; and,

- convening trainings, workshops, and other meeting opportunities designed to bring together in a common forum nationwide HSAs, state, local and tribal Emergency Management Directors, as well as other professional organizations in the public and private sectors and to inform partners on the impacts of federal homeland security legislation, regulations and policies on the states.

Each recipient will conduct these specific activities to support either State Emergency Management Directors, Homeland Security Advisors to further build State, local, tribal and territorial (SLTT) capabilities.

An additional key purpose for the HSPTAP is that the program also furthers the building of a national system of emergency management capabilities that can effectively and efficiently utilize the full measure of the Nation's resources to respond to catastrophic incidents, including natural disasters, acts of terrorism, and other man-made emergencies or events. HSPTAP recipients will conduct activities that bring together the collective perspectives of state and local elected officials and the private sector to provide a broad-based sounding board on homeland security issues for all national stakeholders. The program will serve to establish, provide, and maintain a forum for organizations to exchange ideas, conduct targeted discussions, as well as to provide technical assistance to governors offices, associations and organizations on all relevant homeland security policy areas.

Finally, HSPTAP will engage the recipient organizations which can work closely with FEMA to develop, transfer, and institutionalize pertinent knowledge at the State and local level for addressing current public policy challenges facing State EM Directors, HSAs and other state and local emergency management officials. HSPTAP recipients, through collaboration with FEMA and other national, regional, state and local entities, will facilitate focused and enhanced communication and coordination among all disciplines and levels of government to address the complex challenges of developing and implementing homeland security policies and practices including: intelligence sharing; State homeland security organization, structure and governance; communications interoperability; critical infrastructure protection; and all hazards disaster prevention, protection, mitigation, preparedness, response and recovery to include areas of emergency management, homeland security, fire, law enforcement, Emergency Management Services (EMS), agriculture, National Guard, emergency communications, and public works.

In sum, in addition to building state and local capabilities, the activities conducted under the HSPTAP are structured to address the full spectrum of mission areas, national priorities, and core capabilities outlined in the National Preparedness System and are critical to achieving the National Preparedness Goal.

97.008 NON-PROFIT SECURITY PROGRAM

NSGP

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Section 2003 of the Homeland Security Act of 2002, as amended (Pub. L. No. 107-296), (6 U.S.C. 604), Public Law 107-296, 6 U.S.C 604; Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53.

OBJECTIVES:

The Non-Profit Security Grant Program (NSGP) provides funding support for hardening and other physical security enhancements to non-profit organizations that are at high risk of a terrorist attack and located within one of the specific Urban Area Security Initiative (UASI)-eligible Urban Areas. The program seeks to integrate the preparedness activities of non-profit organizations that are at high risk of a terrorist attack with broader state and local preparedness efforts. The NSGP also serves to promote coordination and collaboration in emergency preparedness activities among public and private community representatives as well as state and local government agencies.

The FY 2015 NSGP plays an important role in the implementation of the National Preparedness System by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (the Goal). Building and sustaining core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2015 NSGPs allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

The Non-Profit Homeland Security Grant Program objective is to support efforts that:

Build and sustain core capabilities

Strengthen governance integration

Encourage a whole community approach to security and emergency management.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The FY 2015 NSGP provides funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. The intent of the FY 2015 NSGP is to competitively award grant funding to assist nonprofit organizations in obtaining the resources required to support the NPG associated mission areas and core capabilities. While funding is provided specifically to high-risk nonprofit organizations, the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies. NSGP grant recipients and sub-recipients may only use NSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity.

Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In FY 2015, the total amount of funds distributed under this grant program will be \$10,000,000. Each nonprofit organization must apply through their State Administrative Agency (SAA) for up to a \$75,000 grant award. The FY 2015 NSGP funds will be allocated to organizations characterized as Section 501(c)(3) organizations under the Internal Revenue Code of 1986 (26 U.S.C.) and deemed at high risk by the Secretary of the Department of Homeland Security. Such nonprofit organizations must be located within one of the designated FY 2015 UASI-eligible Urban Areas.

Applicant Eligibility:

The SAA is the only entity eligible to apply for FY 2015 NSGP funds on behalf of eligible nonprofit organizations (as described under section 501(c)(3) of the Internal Revenue Code of 1986) determined to be at high risk of terrorist attack and are located within one of the designated FY 2015 UASI-eligible Urban

Areas. Eligible nonprofit organizations must provide their applications to their respective SAA in order to be considered for FY 2015 NSGP funding. SAAs, in coordination with the Urban Area Working Groups (UAWGs), are encouraged to notify and actively inform eligible nonprofit organizations of the availability of the FY 2015 NSGP especially organizations that have not previously applied for or received NSGP funding. It is important to ensure that ALL eligible nonprofit organizations are afforded an opportunity to seek funding. Criteria for determining eligible applicants that are at high risk of terrorist attack include, but are not limited to:

Identification and substantiation (e.g., police reports or insurance claims) of prior threats or attacks against the nonprofit organization or closely related organizations (within or outside the U.S.) by a terrorist organization, network, or cell.

Symbolic value of the site(s) as a highly recognized national or historical institution that renders the site as possible target of terrorism.

Role of the applicant nonprofit organization in responding to or recovering from terrorist attacks.

Findings from previously conducted risk assessments including threat or vulnerability.

Beneficiary Eligibility:

Local governments and private nonprofit institutions/organizations.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For more information, refer to the FY 2015 NSGP Notice of Funding Opportunity (NOFO).

Award Procedure:

Applications will be reviewed in two phases to leverage local knowledge and understanding of the applicants risk of a terrorist attack, while also ensuring coordination and alignment with Federal, State, and local preparedness efforts.

State Review: Applications must be submitted by the nonprofit organization to the SAA/UAWG (if they are separate entities), no later than 11:59 p.m. EDT, May 19, 2015 to ensure adequate time for a State review of nonprofit applications. The SAA, in coordination with the UAWG, is encouraged to conduct an initial review of all submitted applications from nonprofit organizations to first determine eligibility based on the established criteria.

Once eligibility has been determined, the SAA will review and score compliant IJs using the FY 2015 NSGP Scoring Worksheet (see Appendix D- Investment Justification Scoring Worksheet of the FY 2015 NSGP Full Notice of Funding Opportunity and FY 2015 Prioritization of Investment Justifications Template (Office of Management and Budget Number 1660-0110/FEMA Form 089-24). The SAA should provide the scores from the State Review along with a prioritized list of NSGP projects. Each application should receive a unique rank. Rankings should be developed based on these two factors:

Need The relative need for the nonprofit organization compared to the other applicants.

Impact The potential impact of the nonprofit organization in achieving maximum prevention and/or protection results at minimal cost.

The SAA should ensure that information noted in the Prioritization of Investment Justifications accurately reflects the data noted in each organizations IJ. While completing the Prioritization of Investment Justifications, the SAA should verify the Dun and Bradstreet Data Universal Numbering System (DUNS) Number, Central Contractor Registration (CRR), 501(c)(3) Number, and legal organization name. Tracker information submitted by the SAA pertaining to a nonprofit(s) Organization Type and Total Project Cost will be considered during FEMA's review and scoring process.

Federal Review: The highest-scoring IJs from each submitting Urban Area will be reviewed by a panel of Federal evaluators. In order to determine the number of applications that will advance to the Federal Review, FEMA will multiply the available FY 2015 NSGP funding by 1.5 (150%). Applicants will then be selected from each submitting Urban Area, based on their State scores, using a top-down approach until the cumulative funding amount requested has reached 150 percent (150%).

Final Score: To calculate the final score, the sum of each applicants Federal and State scores will be multiplied by a factor of three (3) for non-profit groups that are at a high risk of terrorist attacks due to their ideology, beliefs and mission, by a factor of two (2) for medical and educational institutions, and by a factor of one (1) for all others. All final application scores will then be sorted in descending order and awardees will be selected for funding from highest to lowest until the available FY 2015 NSGP funding has been exhausted. In the event of a tie during the funding determination process, priority will be given to nonprofit organizations that have not received prior year funding and those ranked highest by their SAA. FEMA will use the final results to make funding recommendations to the Secretary of Homeland Security.

NOTE: Upon award, recipients may only fund Investments that were included within the FY 2015 IJs that were submitted to FEMA and evaluated through the Federal review process.

Length and Time Phasing of Assistance:

Projected Award Start Date(s): 09/01/2015

Projected Award End Date(s): 08/31/2018

Period of Performance: 36 months

The periods of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. Agencies should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. For example, SAAs may request waivers from the deadlines outlined above for discretionary grant funds where adjusting the timeline for spending will constitute a verifiable legal breach of contract by the grantee with vendors or sub-recipients, or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other exceptional circumstances warrant a discrete waiver. For more information, refer to the FY 2015 NSGP Notice of Funding Opportunity (NOFO). See the following for information on how assistance is awarded/released: Based on program need. Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence, e.g., written, electronic signature, signed letter or fax to GPD, and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

Reports:

All successful applicants for all DHS grant and cooperative agreements are required to comply with DHS Standard Administrative Terms and Conditions available within Section 6.1.1 of <http://www.dhs.gov/xlibrary/assets/cfo-financial-management-policy-manual.pdf>.

Upon approval of an application, the award will be made in the form of a grant. The date the approval of award is entered in the system is the award date. Notification of award approval is made through the ND Grants system through an automatic e-mail to the grantee point of contact listed in the initial application. Once an award has been approved and recorded in the system, a notice is sent to the authorized grant official. Follow the directions in the notification to accept your award documents. The authorized grant official should carefully read the award package for instructions on administering the grant and to learn more about the terms and conditions associated with responsibilities under Federal awards.

State Preparedness Report (SPR) Submittal. Section 652(c) of the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), 6 U.S.C. 752(c), requires any State that receives Federal preparedness assistance to submit an SPR to FEMA. States submitted the most recent SPR in December 2011 thus satisfying this requirement in order to receive funding under the FY 2012 NSGP.

Biannual Strategy Implementation Reports (BSIR). Grantees are responsible for completing and submitting the BSIR reports, as a complement to the programmatic performance report/SF-PPR. The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives. The first BSIR is not due until at least six months after the award notice has been received by the grantee.

For more information, refer to the FY 2015 NSGP Notice of Funding Opportunity (NOFO). Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from

the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. For more information, refer to the FY 2015 NSGP Notice of Funding Opportunity (NOFO). Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Grantees should submit the SF-PPR as an attachment to the ND Grants system. The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf.

For more information, refer to the FY 2015 NSGP Notice of Funding Opportunity (NOFO). Grantees are obligated to submit various financial and programmatic reports as a condition of their award acceptance. Please see below for a summary of financial and/or programmatic reports as required. Future awards and funds drawdown may be withheld if these reports are delinquent.

Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS. Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

97.022 FLOOD INSURANCE

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

The National Flood Insurance Act of 1968, 42 U.S.C. 4001 et seq. authorized the National Flood Insurance Program (NFIP), Title 13, Public Law 90-448, 44CFR U.S.C Subchapter B.

OBJECTIVES:

To enable personal and business property owners and renters to purchase flood insurance coverage for buildings and/or contents in low-to-moderate flood risk areas, as well as in high-risk flood zones to reduce taxpayer provided federal disaster assistance and to promote wise floodplain management practices in the Nation's high-risk flood zones.

TYPES OF ASSISTANCE:

INSURANCE

USES AND USE RESTRICTIONS:

The maximum limits of flood insurance coverage for a building and/or personal property, eligible building types, and more detailed additional flood insurance information is contained in the Flood Insurance Manual available online at <http://www.fema.gov/business/nfip/manual.shtm>. In a Regular Program Community the residential building limit is \$250,000 and non-residential building limit is \$500,000. The residential contents limit is \$100,000 and the non-residential contents limit is \$500,000. Lower limits apply to a limited number of Emergency Program buildings and buildings in Alaska, Guam, Hawaii and U.S. Virgin Islands and are listed in the Flood Insurance Manual. The Flood Disaster Protection Act of 1973, as amended by the Flood Insurance Reform Act of 1994, requires flood insurance purchased as a condition of any form of Federal or federally-related financial assistance, including Federal grants, disaster assistance, SBA low-interest disaster assistance loans, and mortgage loans from federally regulated lending institutions and FHA, Farm Credit Administration, VA or guaranteed mortgages secured by buildings in high-risk flood zones, which are called the Special Flood Hazard Areas (SFHAs). Communities having one or more identified SFHAs must enter into the NFIP within 1 year of the official identification of the SFHAs or be denied Federal financial assistance for acquisition or construction purposes within those areas. Federally regulated conventional sources (i.e., banks, savings and loan associations, or similar lending institutions) are permitted to make conventional loans secured by improved real estate or Manufactured Housing

located or to be located in SFHAs of a nonparticipating community which has been formally identified as flood-prone for more than 1 year, but Federal disaster assistance for acquisition or construction purposes will not be available in the event of flood or flood-related property damage. The conventional lender is statutorily required to notify the borrower, before making a loan in such an area, that Federal flood insurance and disaster assistance will not be available to the property. The Coastal Barrier Improvement Act of 1990 amended the Coastal Barrier Resources Act of 1982 by greatly enlarging the acreage included in the designated coastal barrier resources system unit. The 1990 Act also added "otherwise protected areas." "Otherwise protected areas" are defined as an undeveloped coastal barrier within the boundaries of an area established under Federal, State, or local law, or held by a qualified organization, primarily for wildlife refuge, sanctuary, recreational or natural resource conservation purposes. The 1982 Act prohibits the sale of new flood insurance on or after October 1, 1983 for new construction or substantial improvements of structures located on any coastal barrier with the Coastal Barrier Resources System designated by this Act. The 1990 Act prohibits the sale of new flood insurance on or after November 16, 1990 for new construction or substantial improvements of structures located on any new coastal barrier within the Coastal Barrier Resources System designated or modified by this Act. It also prohibits the sale of new flood insurance on or after November 16, 1991 for new construction or substantial improvements of structures located in an otherwise protected area that are not used in a manner consistent with the purpose of the otherwise protected area. Subsequent pieces of legislation have added or deleted areas. Also, the Secretary of the Interior is authorized to make technical revisions and modifications to the boundaries of such units as may be necessary.

Applicant Eligibility:

Federal flood insurance can be made available in any community (a State or political subdivision thereof with authority to adopt and enforce floodplain management measures for the areas within its jurisdiction) that adopts and enforces floodplain management measures consistent with the National Flood Insurance Program regulations.

Beneficiary Eligibility:

Residential and business property owners, renters and state owned property.

Credentials/Documentation:

Same as Applicant Eligibility. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Community officials must submit an NFIP eligibility application form, which is available from the FEMA, together with: copies of adopted floodplain management measures meeting the minimum standards of 44 CFR Section 60.3(a), 60.3(b), 60.3(c), 60.3(d), and/or 60.3(e), as appropriate for the type of flood hazards identified; a list of any incorporated communities within the applicant's boundaries; and estimates of population and, by kind, of buildings situated in the known flood-prone areas of the community. Such Applications should be submitted to the Mitigation Directorate, FEMA, Washington, DC 20472.

Award Procedure:

FEMA reviews the application and if complete, designates the community as participating. The community is informed of its admission, and notice is published in the Federal Register. Residents and property owners may then purchase flood insurance through any property insurance agent or broker.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For complete applications, a maximum of 10 working days is allowed for review and notification.

Communities with one or more identified special flood hazard areas must enter the program within 1 year after the identification of those areas or else prohibitions against Federally related financial assistance for acquisition or construction purposes in identified special flood hazard areas take force. Once the community does qualify, after the prescribed date, these prohibitions are removed. Adequate floodplain management measures must be in effect within 6 months of the date that the special flood hazard area is identified and within 6 months of the date flood water surface elevations are provided.

Appeals:

Communities are allowed to appeal flood-prone identification and are also given an opportunity to appeal proposed flood elevation determinations for new construction and substantial improvement of existing structures in the special flood hazard areas. Notice of the proposed elevations is published in the Federal Register and is sent directly to the local governments. Following notification to the local government, the notice of proposed flood elevation determinations is published twice during a 10-day period in a prominent newspaper. The local community and its individual residents then have 90 days following the second newspaper notice to submit any scientific or technical data that tend to negate or contradict FEMA's findings. If a conflict in data exists and cannot be resolved at the community level, the community consolidates all individual appeals for review by FEMA. FEMA shall resolve the appeals by consultation with officials of the local government, or by submission of conflicting data to an independent scientific body, or by administrative hearings.

97.023 COMMUNITY ASSISTANCE PROGRAM STATE SUPPORT SERVICES ELEMENT (CAP-SSSE)

(CAP-SSSE)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

The National Flood Insurance Act of 1968 , Public Law 90-448, 42 U.S.C 4001 et seq.

OBJECTIVES:

To provide, through a Cooperative Agreement , a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. CAP-SSSE funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity.

The CAP-SSSE program supports the Mitigation Mission Area Capabilities and Targets described in the National Preparedness Goal (NPG) under Planning and Risk and Disaster Resilience Assessment.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CAP-SSSE funds are used for activities that support the NFIP. Such activities include the fostering of effective floodplain management programs in participating communities and assisting non-participating communities in

enrolling in the NFIP. CAP-SSSE funds cannot be used for conducting floodplain studies developing floodplain maps or supporting web-based digital mapping platforms. Further, if a State does not have the necessary expertise and capability to conduct CAP-SSSE activities, the Region and State must develop a remedial plan. If the necessary expertise and capability does not develop in accordance with the remedial plan, the following year's CAP-SSSE funding may be reduced or withheld. For complete information on Uses and Restrictions, refer to program guidance. Applicants must be a qualified State that intends to provide technical assistance to NFIP communities. Refer to program guidance for complete information on applicant eligibility.

Applicant Eligibility:

FEMA's ten Regional Offices will provide each State Governor's Office with the grant application package. The Cooperative Agreement is only available to that state or territorial agency so designated by the Governor, as the state or territorial National Flood Insurance Program State Coordinating Agency. The CAP-SSSE is administered through the Mitigation Division of each FEMA Regional Office. FEMA's Regional Offices will contact eligible States to negotiate a mutually acceptable grant agreement. Funding is made available when the grant agreement is negotiated and agreed upon. Continued participation in the CAP-SSSE is dependent upon completing activities described in the grant agreement. The SSSE is designed to utilize the floodplain management capabilities of individual States in a cost effective cooperative agreement with FEMA. A State's participation in the SSSE is voluntary and is contingent upon need and skill level capability.

Beneficiary Eligibility:

The direct beneficiary of the CAP-SSSE is the individual State receiving financial assistance. In addition, participating NFIP communities and local governments which receive flood plain management and flood loss reduction assistance provided by the State are also (indirect) beneficiaries as a consequence of the services they receive.

Credentials/Documentation:

A State's participation in the CAP-SSSE is voluntary and is contingent upon need and skill level capability as determined by FEMA. In addition, applicant states are required to provide any relevant documentation contained in the grant agreement package provided by FEMA. 2 CFR 200, Subpart E - Cost Principles applies to this program.

97.024 EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM

(EFSP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title 3, Section 301, Public Law 100-77, 42 U.S.C 11331-11346.

OBJECTIVES:

Program funds support the National Preparedness Goal (NPG) by complementing actions undertaken to achieve an all-of-Nation preparedness approach that optimizes the use of available resources. When a disaster strikes, it is often the poor or those with economic vulnerabilities who suffer the most. By providing emergency economic assistance that keeps people off the streets, from being evicted from their homes, or with groceries to prevent hunger, the EFSP prepares a population that could otherwise be even more adversely impacted by a disaster situation and mitigates potential burdens imposed on recovery efforts to assist such people.

For additional details on the NPG, please refer to

<http://www.fema.gov/pdf/prepared/npg.pdf>.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one month. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year): Responsibilities and Requirements document, issued by the Emergency Food and Shelter Program National Board. Emergency Food and Shelter National Board Program (EFSP) funds cannot be used for: security deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award where provided by Local Boards), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the Responsibilities and Requirements Manual of the current Phase (fiscal year) issued by the Emergency Food and Shelter Program National Board.

Applicant Eligibility:

Since funds are initially distributed to jurisdictions based on either a National Board formula or recommendations from State Set-Aside Committees, there is

no application process for jurisdictions. All jurisdictions are considered within the National Board formula and all jurisdictions in an individual State may be considered by the State Set-Aside Committee for either initial or additional (if the jurisdiction had previously been selected by the National Board) funding.

At the local level, following award notification by the National Board to the jurisdiction, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which local nonprofit and governmental organizations are to receive funding and submits their selections via a Local Board Plan to the National Board.

Beneficiary Eligibility:

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, The Jewish Federations of North America, National Council of Churches of Christ in the USA, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are thousands of independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

Credentials/Documentation:

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) and that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. There is no application process for local jurisdictions since the award notification to local jurisdictions is based on either a National Board formula or recommendations from State Set-Aside Committees. The local jurisdiction (i.e., Local Board) must conduct a local application process for local agencies to apply for funding.

Award Procedure:

At the local level, following award notification by the National Board, a Local Board is formed. The Local Board then advertises the availability of the funds to local nonprofit agencies and governments. The Local Board must conduct a local application process for agencies to apply for funding. The Local Board selects which agencies are to receive funding and submits their selections via a Local Board Plan to the National Board. The National Board confirms all pertinent information has been submitted and disburses funds directly to the awarded local agencies.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Refer to announcement or application guidance for further information.

Appeals:

Refer to the Phase 30 (fiscal year 2012) Responsibilities and Requirements Manual issued by the Emergency Food and Shelter Program National Board for information on the appeal process. Those cases that cannot be handled locally should be referred to the National Board giving details on action that has been taken up to that point. Any allegations regarding fraud or the misuse of funds should be referred directly to the DHS Office of Inspector General.

See the following for information on how assistance is awarded/released: Payment based on project need.

Reports:

Grantees are responsible for completing and submitting the BSIR reports, as a compliment to the Quarterly Progress Report (programmatic performance report/SF-PPR). The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives. The first BSIR is not due until at least six months after the award notice has been received by the grantee. For more information, please see the FY2015 EMPG Program Notice of Funding Opportunity (NOFO). Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every

The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. For more information, please see the FY2015 EMPG Program Notice of Funding Opportunity (NOFO). EMPG Program Quarterly Performance Progress Reports must be submitted to the EMPG Program Regional Program Analyst located at the FEMA regional office on a quarterly basis through the ND Grants System. If other formats are used at least equivalent information to that contained in the SF-Performance Progress Report has to be submitted. See FY 2015 EMPG Program Notice of Funding Opportunity (NOFO). Appendix B FY 2015 EMPG Program Priorities and Appendix D - FY 2015 EMPG Program Work Plan. Grantees are required to report on progress towards implementing plans described in their application. Additionally, as part of the SF-PPR, grantees are required to report on progress made towards implementing the following performance measures as described in Appendix B FY 2015 EMPG Program Priorities:

Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. Applicants who protect a population of less than 20,000 are required to provide a nonfederal cost-share of not less than 5 percent of the total award. No waivers of this requirement will be granted except for fire departments of Insular Areas as provided for in 48 U.S.C. 1469a.

This program has MOE requirements, see funding agency for further details. This program also has a Maintenance of Effort (MOE) in that grantees are required to maintain operating expenditures during the grants period of performance in the areas funded by a grant at a level equal to or greater than the average of their operating expenditures in the 2 years preceding the year in which the grant is received. This requirement is intended to ensure that the Federal funds are used to supplement, not supplant, existing resources. In addition, this program will allocate more than \$100 million in grants during the current fiscal year.

Length and Time Phasing of Assistance:

Grants are available during the period of performance, which is 1 year. Refer to the FOA for specific details. See the following for information on how assistance is awarded/released: Electronic funds transfer.

Reports:

Grantees are required to submit semiannual financial and performance reports. The "Progress Reports" must include a narrative statement that details the progress of each award. Reports are due 30 days after the end of the sixth month of the performance period. Final financial and performance reports are due 90 days after the expiration or termination of grant award. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grantees are required to maintain and retain backup documentation such as bids, quotes, and cost/price analyses on file for Federal auditors. The required documentation for federally funded purchases should include specifications, solicitations, purchase orders, invoices, cancelled checks, copies of competitive quotes or proposals, and basis for selection.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

97.045 COOPERATING TECHNICAL PARTNERS

(CTP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Flood Disaster Protection Act of 1973 ; National Flood Insurance Reform Act of 1994 ; Flood Insurance Act of 1968 , 42 U.S.C 4101; Biggert-Waters Flood Insurance Reform Act of 2012.

OBJECTIVES:

The Cooperating Technical Partners Program was developed to supplement and expand the on-going efforts of participating National Flood Insurance Program (NFIP) communities, Tribes, and States (and the agencies and organizations who support them, such as regional agencies, Universities and Non-profits) who perform certain functions in the flood risk analysis, flood hazard identification, flood risk communication and mitigation processes to reduce flood losses and protect life and property from the risk of future flood damage. The Cooperating Technical Partners Program seeks to: increase local involvement in, and ownership of, the development and maintenance of Flood Insurance Rate Maps (FIRMS) and risk related products produced for the NFIP; increase quantity and quality of communication and collaboration with local communities about risk and options to reduce it; build and maintain partner capabilities; continue to increase local ownership of data and processes; and establish sound performance criteria for current Cooperating Technical Partners.

In FY 2009, FEMA transitioned from its Map Modernization (Map Mod) program to Risk MAP (Mapping, Assessment, and Planning). The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk

MAP builds on flood hazard data and maps produced during the Map Mod program. FEMA collaborates with a variety of stakeholders and coordinates with Cooperating Technical Partners to help achieve the following goals under Risk MAP:

1. Flood Hazard Data. Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.
2. Public Awareness/Outreach. Ensure that a measurable increase of the public awareness and understanding of risk results in a measurable reduction of current and future vulnerability.
3. Hazard Mitigation Planning. Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.
4. Enhanced Digital Platform. Provide an enhanced digital platform that improves management of Risk MAP, stewards information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.
5. Alignment and Synergies. Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.

Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance may be used for costs associated with Community Engagement and Risk Communication, Program Management, Technical Risk Analysis and Mapping, Letter of Map Revision (LOMR) Delegation and Special Project activities as delineated in the FY 5 Notice of Funding Opportunity. Allowable costs are determined by reference to the OMB Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Use of funds must be consistent with the statutory authority for the award. Restrictions: The recipient must have in-house staff capabilities in the appropriate technical area for the activity approved in the award. If the work for any portion of a mapping activity is contracted, the recipient of the award must have in-house staff with the technical capability to monitor the contractor(s) and approve the product(s) developed by the contractor(s). Applicants must meet the eligibility criteria outlined in the FY 2015 Notice of Funding Opportunity. This criteria includes (but is not limited to) the requirement that potential partners have existing processes and/or systems in place to support mapping or data collection activities that contribute to flood hazard identification and that potential partners have the demonstrated capability and capacity to implement, or contract, the activities for which funding is being sought. Yes, all funds are discretionary.

Applicant Eligibility:

Only qualified CTPs are eligible for federal assistance awards through this program. Eligible recipients generally include entities who already perform certain functions in flood risk analysis, flood hazard identification, flood risk communication and mitigation processes in States and local communities to reduce flood losses and protect life and property from the risk of future flood damage. Specifically, eligible CTPs include three main groups: (1) NFIP-participating communities, as defined in 44 CFR 59 (typically this includes State, Tribal and local governments), who are in good standing with the NFIP (i.e., not on probation or suspended); (2) State, local and regional governmental agencies, such as water management districts, river authorities, municipal utility districts, State Universities, etc., whose activities support floodplain management and flood mitigation actions within the NFIP communities they serve; and (3) non-profit organizations whose primary mission is to support the ability of NFIP communities to more effectively understand and manage their flood risk. In accordance with Section 1361 of the National Flood Insurance Act of 1968 (42 U.S.C. 4102), these entities and organizations must have existing facilities and services to carry out studies and investigations with respect to land management and use, flood control, flood zoning and flood damage prevention in flood-prone areas, floodways, building

codes and permits, and associated laws, regulations and ordinances. For additional information, see the Eligibility Criteria in the Funding Opportunity Announcement.

Beneficiary Eligibility:

97.046 FIRE MANAGEMENT ASSISTANCE GRANT

(FMAG)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Robert T. Stafford Disaster Relief and Emergency Act, Section 420, Public Law 93-288, 42 U.S.C 5187.

OBJECTIVES:

The Fire Management Assistance Grant Program is authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000. Grants are provided to States, Indian tribal and local governments for the mitigation, management and control of any fire burning on publicly (non-federal) or privately owned forest or grassland that threatens such destruction as would constitute a major disaster. The funds are primarily used for fire suppression services (response) but also for essential assistance (emergency protective measures) as described in Section 403 (42 U.S.C 5170b) of the Stafford Act. This includes, but is not limited to evacuation and sheltering, police barricading, equipment and supplies, and other costs related to fire suppression operations and administration in support of these operations. Of the 31 core capabilities, this program fits into several including the Public Information and Warning, Infrastructure Systems, Environmental Response/Health and Safety, and Natural and Cultural Resources categories.

TYPES OF ASSISTANCE:

PROJECT GRANTS; PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

Fire Management Assistance Grants are made in the form of cost-sharing grants for the mitigation, management, and control of any fire on publicly (nonfederal) or privately owned forestland or grassland that threatens such destruction as would constitute a major disaster. The Fire Management Assistance Grant Program, authorized by the Stafford Act and amended by the Disaster Mitigation Act of 2000, provides for the mitigation, management and control of fires that threaten such destruction as would constitute a major disaster.

Applicant Eligibility:

State governments and Indian tribal governments are eligible for fire management assistance grants. The State or Indian tribal government may be the Grantee. The Grantee is the government to which a grant is awarded, and is accountable for the use of funds provided.

Beneficiary Eligibility:

The State Government and/or Indian tribal government, acting as the Grantee, is the government to which the grant is awarded and which is accountable for the use of the funds provided. Other State entities, Indian tribal governments and local governments are eligible to apply for subgrants.

Credentials/Documentation:

Costs will be determined in accordance with FEMA Regulations, 44 CFR Part 204. Federal funds will be awarded to subgrantees in accordance with State law and procedure and in compliance with 44 CFR Part 13 and 204. Grant awards will be determined in accordance with OMB Circulars No. A-87 and No. A-102 for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

A FEMA-State Agreement and/or Indian tribal Agreement for the Fire Management Assistance Grant Program (the agreement) is signed by the Governor/Indian tribal government and the Regional Administrator at the beginning of the calendar year or after a State's first fire management assistance grant declaration in a calendar year. The agreement is amended for subsequent approvals of assistance for the remainder of the year. This agreement outlines the level of fire management assistance to be provided for all fires declared during the calendar year, and contains the necessary terms and conditions for requesting and receiving assistance. An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A State Governor, or Governor's Authorized Representative, may request a fire management assistance declaration from the FEMA Regional Administrator. To expedite the request, the State may submit a telephone request to the Regional Administrator, promptly followed by a confirming message or letter. The FEMA Regional Administrator will render a decision on the State's request and notify the State and FEMA Headquarters of this decision. This decision may be relayed by telephone, to be followed by a written determination.

Award Procedure:

Requests for fire management assistance declarations must be submitted while a fire is burning uncontrolled and threatens such destruction as would constitute a major disaster. The State should submit its grant application within nine (9) months of the declaration. Upon receipt of a written request from the State, the Regional Administrator may grant an extension for up to three (3) months.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 1 hour to 72 hours.

Appeals:

States have the recourse to two types of appeals under the Fire Management Assistance Grant Program. Under the first type of appeal, a Governor, Governor's Authorized Representative, may appeal a denial of its request for a fire management assistance declaration. The State should submit this one-time request for reconsideration in writing, with additional information, to the Deputy Associate Administrator of the Response and Recovery Directorate through the Regional Administrator. The appeal must be submitted within 30 days of the date of the letter denying the State's request. The Deputy Associate Administrator will render the final determination on this type of appeal within 90 days of receipt of the appeal or receipt of the additional information requested. The Deputy Associate Administrator may extend the 30-day period provided that the Governor, or the Governor's Authorized Representative, submits a written request for a time extension within the 30-day period. The Deputy Associate Administrator will evaluate the need for an extension based on the reasons cited in the request and either approve or deny the request for an extension. Under the second type of appeal, an applicant or subgrantee may appeal any determination FEMA makes under an approved fire management assistance declaration through a two level appeal process. Appellants must file appeals within 60 days after receipt of a notice of the action that is being appealed. The Grantee will review and forward appeals from an applicant or subgrantee, with a written recommendation, to the Regional Administrator within 60 days of receipt. The Regional Administrator will render a determination on first appeals for fire management assistance grant-related decisions within 90 days following receipt of the appeal or requested additional information. In the event the Regional Administrator denies the appeal, the

applicant may submit a second-level appeal to the Deputy Associate Administrator of the Office of Response and Recovery (formerly the Assistant Administrator for the Recovery Directorate) at FEMA Headquarter Office (for second appeals). Within 90 days following receipt of a second appeal, the Deputy Associate Administrator, will notify the grantee in writing of the disposition of the appeal or of the need for additional information. If the decision is to grant the appeal, the Regional Administrator will take appropriate implementing action. The decision of the Deputy Associate Administrator at the second appeal level is the final administrative decision of FEMA.

Renewals:

None.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Fire Management Assistance Grants may be available to States on a 75 percent Federal/25 percent nonfederal cost-sharing basis when the State's application demonstrates either of the following: total eligible costs for the declared fire meet or exceed the individual fire cost threshold or total costs of all declared and non-declared fires in a given calendar year meet the cumulative fire cost threshold. The individual fire cost threshold for a State for FY 2013 is the greater of \$100,000 or five percent x \$1.37 x state population. The cumulative fire cost threshold for a State FY 2013 is the greater of \$500,000 or three times the five percent x \$1.37 x State population. Both formulas are adjusted annually for inflation using the Consumer Price Index for All Urban Consumers published annually by the Department of Labor. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The time interval during which a declared fire occurs is the incident period. Generally costs must be incurred during the incident period to be considered eligible. Pre-positioning of resources may be approved for Federal funding up to a maximum of 21 days before a declared fire. Mobilization and demobilization also occur outside the incident period and are eligible for Federal funding. Temporary repair work must be completed within 30 days of the close of the incident period for the declared fire. See the following for information on how assistance is awarded/released: Payment based on Project need.

Reports:

Within 90 days of the Performance Period expiration date, the State must submit a Financial Status Report (FEMA Form 425) which reports all costs incurred within the incident period and all administrative costs incurred within the performance period. The performance period, defined on the SF-424, may be 9 months from the close of the incident period and may be extended for an additional 3 months by the Regional Administrator. During the performance period the Grantee will submit the subgrants, which document eligible costs; FEMA will review the eligibility of costs, and process, obligate, and close-out the grant. Refer to program guidance. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records must be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. 97.056 PORT SECURITY GRANT PROGRAM

(PSGP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Maritime Transportation Security Act of 2002, Section 102, Public Law 107-295, 46 U.S.C 70107.

OBJECTIVES:

Recipients under the FY 2015 PSGP are encouraged to build and sustain core capabilities through activities such as:

- Strengthening governance integration;
- Enhancing Maritime Domain Awareness (MDA);
- Enhancing Improvised Explosive Device (IED) and Chemical, Biological, Radiological, Nuclear, Explosive (CBRNE) prevention, protection, response and supporting recovery capabilities within the maritime domain;
- Enhancing cybersecurity capabilities;
- Maritime security risk mitigation projects that support port resilience and recovery capabilities;
- Training and exercises; and
- Transportation Worker Identification Credential (TWIC) implementation.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The FY 2015 PSGP is one of the Departments FY 2015 grant programs that directly support maritime transportation infrastructure security activities. PSGP is one tool in the comprehensive set of measures authorized by Congress and implemented by the Administration to strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks.

The vast majority of U.S. maritime critical infrastructure is owned and/or operated by State, local, and private sector maritime industry partners. PSGP funds available to these entities are intended to improve port-wide maritime security risk management; enhance maritime domain awareness; support maritime security training and exercises; and to maintain or reestablish maritime security mitigation protocols that support port recovery and resiliency capabilities. PSGP investments must address U.S. Coast Guard identified vulnerabilities in port security and support the prevention, detection, response, and/or recovery from attacks involving improvised explosive devices (IED) and other non-conventional weapons. PSGP grant recipients and sub-recipients may only use PSGP grant funds for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity.

Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement.

Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In FY 2015, the total amount of funds distributed under this grant program will be \$100,000,000. The FY 2015 PSGP funds will be allocated based on the funding priorities outlined in FY 2015 PSGP Notice of Funding Opportunity (NOFO).

Applicant Eligibility:

Pursuant to the Maritime Transportation Security Act of 2002, as amended (MTSA), DHS established a risk based grant program to support maritime security risk management. Eligible applicants under the FY 2015 PSGP are listed in Appendix A FY 2015 PSGP Allocations. Funding is directed towards the implementation of Area Maritime Security Plans (AMSP) and Facility Security Plans (FSP) among port authorities, facility operators, and State and local government agencies that are required to provide port security services. In administering the grant program, national, economic, energy, and strategic defense concerns based upon the most current risk assessments available shall be taken into account.

Certain ferry systems are eligible to apply for FY 2015 PSGP funds. However, any ferry system receiving funds under the FY 2015 PSGP will not be eligible to participate under the FY 2015 Transit Security Grant Program (TSGP) and will not be considered for funding under the FY 2015 TSGP. Likewise, any ferry system that participates in the TSGP will not be eligible for funding under the PSGP.

By law, DHS must direct these funds to the Nations highest risk ports. DHS has identified 145 critical ports. Based upon United States Coast Guard (USCG) recommendations, these ports are aggregated into 90 port funding areas. Eligible entities within other Port Areas covered by an AMSP may also apply for PSGP funds.

Within the PSGP, the following entities are encouraged to apply:

Owners or operators of Federally regulated terminals, facilities, U.S. inspected passenger vessels or ferries as defined in the MTSA and 33 CFR Parts 101, 104, 105, and 106
Members of an Area Maritime Security Committee, per 33 CFR Part 103, who are recognized as such by the Captain of the Port (COTP) and are required to provide port security services. Specifically, eligible applicants include port authorities, port police, local law enforcement agencies, port and local fire departments, and facility fire brigades that have jurisdictional authority to

respond to incidents in the port

As a condition of eligibility, all PSGP applicants are required to be fully compliant with relevant Maritime Security Regulations (33 CFR Parts 101-106). Any applicant with an open or outstanding Notice of Violation (NOV), as of the grant application submission deadline date, which has been issued to an applicant, and the applicant has (1) failed to pay within 45 days of receipt; (2) failed to decline the NOV within 45 days of receipt (in which case a finding of default will be entered by the Coast Guard in accordance with 33 CFR 1.07-11[f][2]); or (3) the applicant has appealed the NOV as provided for in 33 CFR 1.07-70 and is in receipt of a final appeal decision from Commandant, U.S. Coast Guard, as described in 33 CFR 1.07-75, and has failed to come into compliance with the final adjudication within the timelines noted therein, will not be allowed to make application for a Port Security Grant. COTP will verify security compliance eligibility during the field review process.

For a listing of eligible Port Areas, please refer to Appendix A FY 2015 PSGP Allocations. Eligibility does not guarantee grant funding.

Beneficiary Eligibility:

Critical national seaports and terminals.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

For more information, refer to the FY 2015 PSGP Notice of Funding Opportunity (NOFO). An environmental impact statement is required for this program. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Content and Form of Application

1. Application via Grants.gov. All applicants must file their applications using the Administrations common electronic storefront <http://www.grants.gov>. Eligible grantees must apply for funding through this portal, accessible on the Internet at <http://www.grants.gov>.

The application must be started and submitted using Grants.gov after registration in the System for Award Management (SAM) is confirmed. The on-line application includes the following required form:

Standard Form 424, Application for Federal Assistance

Applying for FY 2015 PSGP funds requires a two-step process. Step One: initial submission to determine eligibility and Step Two: full application. Applicants are encouraged to initiate Step One as soon after the Notice of Funding Opportunity (NOFO) is published but no later than April 2, 2015. This involves submitting a complete Standard Form 424 to <http://www.grants.gov>. The Standard Form 424 will be retrieved by ND Grants and the system will automatically populate the relevant data fields in the application. Successful

completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions to Grants.gov to complete Step One could result in applicants missing the application deadline in Step Two. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step Two which involves submitting the full application package via the ND Grants system. The submission deadline for the full application package is May 19, 2015 at 11:59 PM EDT.

The application must be completed and final submission made through the ND Grants system located at <https://portal.fema.gov>. If you need assistance registering for the ND Grants system, please contact ndgrants@fema.gov or (800) 865-4076. Applicants are encouraged to begin their ND Grants registration at the time of solicitation to ensure they have adequate time to start and complete their application submission. Unless otherwise referenced, the ND Grants system includes the following required forms and submissions:

The applicant must provide a DUNS number with their application. This number is a required field within <http://www.grants.gov> and for SAM. Organizations should verify that they have a DUNS number, or take the steps necessary to obtain one, as soon as possible. Applicants can receive a DUNS number at no cost by calling the dedicated toll-free DUNS Number request line at (866) 705-5711.

3. System for Award Management (SAM). The application process also involves an updated and current SAM registration by the applicant at <http://www.sam.gov>. Please ensure that your organizations name, address, DUNS number and EIN are up to date in SAM and that the DUNS number used in SAM is the same one used to apply for all FEMA awards. Future payments will be contingent on the information provided in SAM; therefore it is imperative that the information is correct.

Applicants will obtain FOA Overviews and Full Announcement information from the Grants.gov website where the full FOA is posted.

In addition, the following Telephone Device for the Deaf (TDD) and/or Federal Information Relay Service (FIRS) number available for this Announcement is: (800) 462-7585.

Applications will be processed through the Grants.gov portal and the ND Grants system.

Hard copies of the application will not be accepted.

Award Procedure:

Initial Screening. FEMA will conduct an initial review of all FY 2015 PSGP applications to ensure each application is complete. All complete applications will be provided to the applicable COTP for further review.

Field Review. Field-level reviews will be managed by the applicable COTP in coordination with the Gateway Directors of the U.S. Department of Transportation (DOTs) Maritime Administration (MARAD) and appropriate

personnel from the AMSC, to include owner/operators of MTSA regulated facilities and vessels, as well as Federal, State, and local agencies, as identified by the COTP. To support coordination of and regionalization of maritime security grant application projects with State and Urban Area homeland security strategies, as well as other State and local security plans, AMSC members representing State and local agencies should coordinate the results with the applicable State administrative agency or agencies and State homeland security advisor(s).

Field reviews for all Groups occur immediately following the initial screening. Each specific project is scored for compliance with criteria enumerated in the previous section and the COTP/MARAD provides a prioritized list of eligible maritime security risk mitigation projects for funding within each port area. The COTP will use the COTP Field Review Form to review all projects.

After completing field reviews, COTPs will submit the field review project scores, any associated comments, and prioritized lists to FEMA who will begin coordination of the national review process.

Deadlines:

Apr 02, 2015 to May 19, 2015 Applying for FY 2015 PSGP funds requires a two-step process. Step One: initial submission to determine eligibility and Step Two: full application. Applicants are encouraged to initiate Step One immediately after the Notice of Funding Opportunity; (NOFO) is published but no later than April 2, 2015. This involves submitting a complete Standard Form 424 to Grants.gov. Successful completion of this step is necessary for FEMA to determine eligibility of the applicant. Late submissions of Step One to Grants.gov could result in applicants missing the application deadline in Step Two. Once FEMA has determined an applicant to be eligible, applicants can proceed to Step Two which involves submitting the full application package via the Non Disaster (ND) Grants system. The submission deadline for the full application package is May 19, 2015 at 11:59:59 PM EDT. For additional details see Section X of the full Notice of Funding Opportunity (NOFO).

Range of Approval/Disapproval Time:

Following the field review, a National Review Panel (NRP), comprised of subject matter experts drawn from DHS and DOT, will convene and conduct a national level review. The purpose of the National Review is to identify a final, prioritized list of eligible projects for funding. The NRP will conduct an initial review of the prioritized project listings for each port area submitted by the USCGs COTP to ensure that the proposed projects will accomplish intended risk mitigation goals. The NRP will validate and normalize the COTP Field Review Project Priority List and provide a master list of prioritized projects by port area.

The NRP will have the ability to recommend partial funding for individual projects and eliminate others that are determined to be duplicative or require a sustained Federal commitment to fully realize the intended risk mitigation. The NRP will also validate proposed project costs. Decisions to reduce requested funding amounts or eliminate requested items deemed inappropriate under the scope of the FY 2015 PSGP will take into consideration the ability of the revised project to address the intended national port security priorities and achieve the intended risk mitigation goal. Historically, PSGP has placed a high priority on providing full project funding rather than partial funding.

A risk-based analysis will then be applied to the NRPs prioritized list for each port area in all groups. This analysis considers the following factors to produce a comprehensive national priority ranking of port security proposals:

- Relationship of the project to one or more of the national port security priorities
- Relationship of the project to the local port security priorities
- COTP ranking (based on each COTPs prioritized list of projects)
- Risk level of the port area in which the project would be located (based on a comprehensive risk analysis performed by DHS)
- Effectiveness and feasibility of project to be completed in support of above priorities during the period of performance

The NRP will be asked to evaluate and validate the consolidated and ranked project list and submit their recommendations to FEMA. The NRP may request

additional information or clarification from applicants. The Secretary of Homeland Security will have the final approval authority on all projects.

FEMA may place minimum project effectiveness limit on all projects submitted. Projects failing to meet the minimum level of effectiveness may not be considered for funding.

Funds will not be made available for obligation, expenditure, or drawdown until the applicants detailed budget and budget narrative have been approved by FEMA.

The applicant must provide a detailed budget for the funds requested. The detailed budget must be submitted with the grant application as a file attachment within ND Grants. The budget must be complete, reasonable, and cost-effective in relation to the proposed project. The budget must provide the basis of computation of all project-related costs, any appropriate narrative, and a detailed justification of M&A costs.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The following match requirements apply for the FY 2015 PSGP (including ferry systems):

Public Sector. Public sector applicants must provide a non-Federal match (cash or in-kind) supporting at least 25 percent (25%) of the total project cost for each proposed project.

Private Sector. Private sector applicants must provide a non-Federal match (cash or in-kind) supporting at least 50 percent (50%) of the total project cost for each proposed project.

Other Matching Requirements Information:

Exceptions. The following exceptions to the cost-match requirement may apply:

There is no matching requirement for grant awards where the total award is \$25,000 or less (with the exception of national and/or regional corporations submitting 11 or more projects throughout their system[s]).

There is no matching requirement for grants to train law enforcement agency personnel in the enforcement of security zones as defined by 46 U.S.C. 70132, 70107(c)(2)(C) or in assisting in the enforcement of such security zones.

If the Secretary of Homeland Security determines that a proposed project merits support and cannot be undertaken without a higher rate of Federal support, the Secretary may approve grants with a matching requirement other than that specified above in accordance with Title 46, Section 70107 of the United States Code of Federal Regulations (46 U.S.C. 70107(c)(2)(B)). Cost match waivers under 46 U.S.C. 70107(c)(2)(B) may be granted only if the Secretary of DHS determines that (1) a proposed project merits support in light of the overall grant purpose and mission goals; and (2) the Secretary of DHS determines that the meritorious project cannot be undertaken without a higher rate of Federal support. See FEMA Grant Programs Directorate (GPD) Information Bulletin (IB) 376, dated January 4, 2012 for further information on the PSGP cost match waiver process (<http://www.fema.gov/pdf/government/grant/bulletins/info376.pdf>).

Cash and in-kind matches must consist of eligible costs (i.e., purchase price of allowable contracts, equipment). A cash match includes cash spent for project-related costs while an in-kind match includes the valuation of in-kind services. The cost-match requirement for the PSGP award may not be met by costs borne by another Federal grant or assistance program. Likewise, in-kind matches used to meet the matching requirement for the PSGP award may not be used to meet matching requirements for any other Federal grant program (e.g., FY 2015 funds are used to purchase a mobile command center from a vendor,

the vendor contributes or donates communications equipment associated with the mobile command center, the value of the donated equipment may be considered as an in-kind match for the PSGP award only). Please see Title 44, Part 13, Section 24 of the Code of Federal Regulations (44 CFR 13.24) for further guidance regarding in-kind matches. (<http://ecfr.gpoaccess.gov/cgi/t/text/text-idx?type=simple;c=ecfr;cc=ecfr;sid=183d717ad04a78067db6a831421874ea;idno=44;region=DIV1;q1=13;rgn=div5;vi ew=text;node=44%3A1.0.1.1.14>).

The cost match requirement must be included in the applicant's detailed budget. The applicant must demonstrate that sufficient funds are available for the recipients share of the project at the time of the application (46 U.S.C. 70107(e)(4)(B)). Projects without a detailed budget demonstrating the required cost match will not be considered for funding.

The non-Federal share can be cash or in-kind, with the exception of construction activities, which must be a cash-match (hard). This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The period of performance is 36 months. For more information, refer to the FY 2015 PSGP Notice of Funding Opportunity (NOFO). Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. See the following for information on how assistance is awarded/released: Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence (e.g., written, electronic signature, signed letter or fax to GPD) and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

Reports:

Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Grant recipients will be monitored on an annual and as needed basis by recipients will be monitored on an annual and as needed basis by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met.

Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

97.067 HOMELAND SECURITY GRANT PROGRAM

(HSGP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Homeland Security Act of 2002 , Public Law 107-296; Department of Homeland Security Appropriations Act of 2015, Public Law 114-4.

OBJECTIVES:

FY 2015 HSGP provides grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goals (NPGs) associated mission areas and core capabilities. FY 2015 HSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2015 HSGP is comprised of four interconnected grant programs:

State Homeland Security Program (SHSP):

Tribal Homeland Security Grant Program (THSGP):

Urban Areas Security Initiative (UASI):

Operation Stonegarden (OPSG):

State Homeland Security Program (SHSP): The SHSP assists state, Tribal and local preparedness activities that address high-priority preparedness gaps across all core capabilities where a nexus to terrorism exists. All supported investments are based on capability targets and gaps identified during the Threat and Hazard Identification and Risk Assessment (THIRA) process, and assessed in the State Preparedness Report (SPR).

Tribal Homeland Security Grant Program (THSGP): The Fiscal Year (FY) 2015 THSGP plays an important role in the implementation of the National Preparedness System by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (the Goal) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2015 THSGPs allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Urban Areas Security Initiative (UASI): The UASI Program assists high-threat, high-density Urban Areas in efforts to build and sustain the capabilities necessary to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.

Operation Stonegarden (OPSG): The OPSG Program supports enhanced cooperation and coordination among Customs and Border Protection (CBP), United States Border Patrol (USBP), and local, Tribal, territorial, state, and Federal law enforcement agencies. The OPSG Program funds investments in joint efforts to secure the United States borders along routes of ingress from international borders to include travel corridors in states bordering Mexico and Canada, as well as states and territories with international water borders.

All four programs are based on risk-driven, capabilities-based strategic plans that outline high-priority needs relating to terrorism preparedness. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels, while also addressing potential gaps.

The National Preparedness System is the instrument the Nation employs to build, sustain, and deliver core capabilities in order to achieve the Goal of a secure and resilient Nation. Complex and far-reaching threats and hazards require a collaborative and whole community approach to national preparedness that engages individuals, families, communities, private and nonprofit sectors, faith-based organizations, and all levels of government. The guidance, programs, processes, and systems that support each component of the National Preparedness System allows for the integration of preparedness efforts that build, sustain, and deliver core capabilities and achieve the desired outcomes identified in the Goal.

DHS/FEMA annually publishes the National Preparedness Report (NPR) to evaluate National progress in building, sustaining, and delivering the core capabilities outlined in the Goal. This analysis provides a National perspective on critical preparedness trends for whole community partners to use to inform program priorities, allocate resources, and communicate with stakeholders about issues of shared concern.

Recipients are required to consider national areas for improvement identified in the 2014 NPR, which include the following core capabilities:

- Cybersecurity;
- Infrastructure Systems;
- Health and Social Services;
- Housing; and
- Long-term Vulnerability Reduction.

In addition, the Department of Homeland Security requires recipients to prioritize investments that address capability targets and gaps identified through the annual THIRA and SPR process. These assessments set capability targets and measure current ability to meet those targets.

Minimum funding amounts are not prescribed by the Department for these priorities; however, recipients must support state, local, regional, and national efforts in achieving the desired outcomes of these priorities.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

DHS grant funds may only be used for the purpose set forth in the grant, and

must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Although no longer funded as discrete grant programs, all activities and costs allowed under the FY 2010 Buffer Zone Protection Program (BZPP), FY 2010 Interoperable Emergency Communications Grant Program (IECGP), FY 2011 Citizen Corps Program (CCP), FY 2011 Drivers License Security Grant Program (DLSGP), and FY 2011 Metropolitan Medical Response System (MMRS) grant program are allowable and encouraged activities and costs under the FY 2015 HSGP. For additional information on allowable activities, please refer to <http://www.fema.gov/grants>.

Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. There may be limitations on the use of HSGP and THSGP funds for the following categories of costs:

- Management and Administration
- Planning
- Organization
- Equipment
- Training
- Exercises
- Maintenance and Sustainment
- Critical Emergency Supplies
- Construction and Renovation

For additional details on restrictions on the use of funds, please refer to the FY 2015 HSGP and THSGP Notice of Funding Opportunity. THSGP grantees may only fund investments that were included in the FY 2012 Investment Justifications (IJs) that were submitted to FEMA and evaluated through the peer review process. Funds Transfer Restriction: The recipient is prohibited from transferring funds between programs (includes SHSP, UASI, and OPSG). Recipients are allowed to submit an investment/project where funds come from multiple funding sources (i.e., SHSP/UASI); however, recipients are not allowed to divert funding from one program to another due to the risk-based funding allocations, which were made at the discretion of DHS/FEMA.

Awards made to the SAA for HSGP carry additional pass-through requirements. Pass through is defined as an obligation on the part of the SAA to make funds available to local units of government, combinations of local units, tribal governments, or other specific groups or organizations. The SAAs pass through requirement must be met within 45 days of the award date. Four requirements must be met to pass through grant funds:

There must be some action to establish a firm commitment on the part of the SAA;

The action must be unconditional on the part of the awarding entity (i.e., no contingencies for availability of SAA funds);

There must be documentary evidence (i.e., award document, terms and conditions) of the commitment; and

The award terms must be communicated to the official recipient. The SAA must obligate at least 80 percent (80%) of the funds awarded under SHSP and UASI to local or Tribal units of government within 45 days of receipt of the funds. Receipt of funds occurs when the recipient accepts the award or 15 days after the recipient is notified of the award, whichever comes first. The signatory authority of the SAA must certify in writing to DHS/FEMA that pass-through requirements have been met. A letter of intent (or equivalent) to distribute funds is not considered sufficient. The pass through requirement does not apply to SHSP awards made to the District of Columbia, Guam, American Samoa, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands. The Commonwealth of Puerto Rico is required to comply with the pass-through requirement and its SAA must also obligate at least 80 percent (80%) of the funds to local units of government within 45 days of receipt of the funds. Any UASI funds retained by the SAA must be used to directly support the designated Urban Areas in the state. The SAA must propose an investment describing how such UASI funds it retains will be used to directly support the Urban Area.

Under SHSP, the SAA may retain more than 20 percent (20%) of SHSP

funding for expenditure made by the state on behalf of the local unit(s) of government. This may occur only with the written consent of the local unit of government, specifying the amount of funds to be retained and the intended use of funds. If a written consent agreement is already in place from previous fiscal years, DHS/FEMA will continue to recognize it for FY 2015. If modifications to the existing agreement are necessary, the SAA should contact their assigned Headquarters Program Analyst.

Per section 2006 of the Homeland Security Act of 2002, as amended, (6 U.S.C. 607), DHS/FEMA is required to ensure that at least 25 percent (25%) of grant funding appropriated for the Homeland Security Grant Program and Tribal Homeland Security Grant Program are used for law enforcement terrorism prevention activities. DHS/FEMA meets this requirement, in part, by requiring all SHSP and UASI recipients to ensure that at least 25 percent (25%) of the combined HSGP funds allocated under SHSP and UASI are dedicated towards law enforcement terrorism prevention activities, as defined in 6 U.S.C. 607. The LETPA allocation can be from SHSP, UASI or both. This requirement does not include award funds from OPSG. The 25% LETPA allocation is in addition to the 80% pass through requirement to local units of government and Tribes.

The recipient must pass through 100 percent (100%) of OPSG allocations to eligible jurisdictions. The recipient is prohibited from obligating or expending funds provided through this award until each unique and specific county-level or equivalent Operational Order/Fragmentary Operations Order budget has been reviewed and approved through an official electronic mail notice issued by DHS/FEMA removing this special programmatic condition. Eligible sub-recipients under the FY 2015 OPSG Program are local units of government at the county level and Federally-recognized Tribal governments in states bordering Canada, states bordering Mexico, and states and territories with international water borders. All applicants must have active ongoing USBP operations coordinated through a CBP sector office to be eligible for OPSG funding.

As part of the FY 2015 OPSG application process, each eligible local unit of government at the county or Federally-recognized Tribal government level must develop their Operations Order in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. Operations Orders that are developed at the county level should be inclusive of city, county, Tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities. The Operations Order should address this in the Executive Summary. Operations Order details should include the names of the agencies, points of contact, and individual funding requests. All applications must be developed in collaboration with the local USBP sector office, the SAA and the local unit of government. The sector office will then forward the application to the SAA for final review before submission to DHS/FEMA.

Applications will be reviewed by the SAA and USBP Sector Headquarters for completeness and adherence to programmatic guidelines and evaluated for anticipated feasibility, need, and impact of the Operations Orders.

DHS/FEMA will verify compliance with all administrative and eligibility criteria identified in the NOFO and required submission of Operations Orders and Inventory of Operations Orders by the established due dates. DHS/FEMA and USBP will use the results of both the risk analysis and the Federal review by DHS/FEMA to make recommendations for funding to the Secretary of Homeland Security.

FY 2015 OPSG funds will be allocated competitively based on risk-based prioritization using the USBP Sector-specific border risk methodology described above. Final funding allocations are determined by the Secretary, who may consider information and input from various law enforcement offices or subject matter experts within the Department. Factors considered include, but are not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence, as well as feasibility of FY 2015 Operation Orders to designated localities within the United States Border States and territories.

Applicant Eligibility:

All 56 States, which includes any state of the United States, the District of

Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, are eligible to apply for SHSP funds. For those states that are eligible for UASI and OPSG funding, the State Administrative Agency (SAA) is the only entity eligible to submit applications to DHS/FEMA on behalf of UASI and OPSG applicants.

Instructions for SHSP

Applicants must propose at least one and include up to 10 projects within each investment in their IJ to describe the activities they would plan to implement with SHSP funds.

Any projects not included in the application must be included in the first BSIR.

Of the proposed 10 investments, recipients using SHSP funds are required to propose at least one investment in support of a designated fusion center that will be funded by SHSP funds. Recipients must coordinate with the fusion center when developing a fusion center investment prior to submission.

Recipients investing in emergency communications must describe how activities align to their statewide Communication Interoperable Plan (SCIP). Recipients must coordinate with their statewide Interoperability Coordinator (SWIC) and/or statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems.

Instructions for UASI

Urban Areas must propose at least one and up to 10 projects within each investment in their IJ to describe the activities they are planning to implement with UASI funds.

Any projects not included in the application must be included in the first BSIR.

If applicable, Urban Areas are required to propose at least one investment in support of a designated fusion center within the Urban Area. Recipients must coordinate with the fusion center when developing a fusion center investment prior to submission.

If UASI funds are used by the SAA in support of the Urban Area, the SAA must, as part of the up to 10 investments, propose an investment describing how UASI funds will be used by the SAA to directly support the Urban Area.

Recipients investing in emergency communications must describe how activities align to the SCIP. Recipients must coordinate with the statewide Interoperability Coordinator (SWIC) and/or statewide Interoperability Governance Body (SIGB) when developing an emergency communications investment prior to submission to ensure the project supports the statewide strategy to improve emergency communications and is compatible and interoperable with surrounding systems.

Instructions for OPSG

As part of the FY 2015 OPSG application process, each eligible local unit of government at the county or Federally-recognized Tribal government level must develop their Operations Order in coordination with state and Federal law enforcement agencies, to include, but not limited to CBP/USBP. Operations Orders that are developed at the county level should be inclusive of city, county, Tribal, and other local law enforcement agencies that are eligible to participate in OPSG operational activities. The Operations Order should address this in the Executive Summary. Operations Order details should include the names of the agencies, points of contact, and individual funding requests. All applications must be developed in collaboration with the local USBP sector office, the SAA and the local unit of government. The sector office will then forward the application to the SAA for final review before submission to DHS/FEMA. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. All applications must be received by the established deadline. The Non-Disaster (ND) Grants System has a date stamp that indicates when an application is submitted. Applicants will receive an electronic message confirming receipt of the full application. In general, DHS/FEMA will not review applications that are not received by the deadline or consider them for funding. DHS/FEMA may, however, extend the application deadline on request for any applicant who can demonstrate that good cause exists to justify extending the deadline. Good cause for an extension may include technical problems outside of the applicants control that prevent submission of the application by the deadline, or other exigent or emergency circumstances. If you experience technical issues, you must notify

the respective Headquarters Program Analyst as soon as possible.

Application forms and instructions are available at Grants.gov. To access these materials, go to <http://www.grants.gov>, select Applicants then Apply for Grants, read the registration requirements and register if necessary (Allow up to 7-10 business days after you submit before your registration is active in SAM, then an additional 24 hours for Grants.gov to recognize your information). In order to obtain the application package select Download a Grant Application Package, enter the CFDA and/or the funding opportunity number located on the cover of this NOFO, select Download Package, and then follow the prompts to download the application package.

Award Procedure:

In FY 2015, the total amount of funds distributed under this grant program will be \$1,044,000,000. The specific information regarding funding allocations for the three HSGP programs are detailed below:

SHSP Allocations: FY 2015 SHSP funds will be allocated based on three factors: minimum amounts as legislatively mandated, DHS/FEMAs risk methodology, and anticipated effectiveness of proposed projects. Anticipated effectiveness is assessed based on the applicants description of how proposed projects, as outlined in the investment Justifications (IJs), align with state THIRA and SPR results.

Each state and territory will receive a minimum allocation under SHSP using thresholds established in the Homeland Security Act of 2002, as amended. All 50 States, the District of Columbia, and the Commonwealth of Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended. Four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total funds allocated for grants under Section 2003 and 2004 of the Homeland Security Act of 2002, as amended.

UASI Allocations: FY 2015 UASI funds will be allocated based on DHS/FEMAs risk methodology and anticipated effectiveness of proposed projects. Anticipated effectiveness is assessed based on the applicants description of how proposed projects, as outlined in the IJs, align with the Urban Area THIRA. Eligible candidates for the FY 2015 UASI program have been determined through an analysis of relative risk of terrorism faced by the 100 most populous Metropolitan Statistical Areas (MSAs) in the United States, in accordance with the Homeland Security Act of 2002, as amended. Detailed information on MSAs is publicly available from the United States Census Bureau at <http://www.census.gov/population/www/metroareas/metrodef.html>. OPSG Allocations: The FY 2015 OPSG Risk Assessment is designed to identify the risk to border security and to assist with the distribution of funds for the grant program. Funding under OPSG is distributed based on the risk to the security of the border. Entities eligible for funding are the state, local and Tribal law enforcement agencies that are located along the border of the United States.

For the purposes of OPSG, risk is defined as the potential for an adverse outcome assessed as a function of threats, vulnerabilities, and consequences associated with an incident, event, or occurrence.

Based upon ongoing intelligence analysis and extensive security reviews, DHS/FEMA continues to focus the bulk of OPSG funds based upon risk analyses. The risk model used to allocate OPSG funds considers the potential risk that certain threats pose to border security and estimate the relative risk faced by a given area. In evaluating risk, DHS/FEMA considers the populations in a particular area that could be at risk, the concentration of people in the area, and specific characteristics of their location that might contribute to risk, such as Intelligence Community assessments of threat and the potential impacts that the threats pose to the security of the border area. For vulnerability and consequence, DHS/FEMA considers the expected impact and consequences of successful border events occurring in specific areas.

To determine the level of risk, two primary components are considered:

Threat: natural or man-made occurrence, individual, entity, or action that has or indicates the potential to harm life, information, operations, the environment, and/or property. OPSG uses the effect of the threat to the border to evaluate

consequence.

Vulnerability: characteristic of design, location, security posture, operation, or any combination thereof, that renders an asset, system, network, or entity susceptible to disruption, destruction, or exploitation.

Threat and vulnerability are evaluated by assigning each factor a value based on specific operational data from CBP Components. Threat components present in each of the Sectors are used to determine the overall threat score.

These components are:

Terrorism Criminal Aliens

Drug Trafficking Organizations Alien Smuggling Organizations.

Deadlines:

Apr 02, 2015 to May 19, 2015 Application Start Date: 04/02/2015

Application Submission Deadline Date: 05/19/2015 at 11:59:59 PM EDT

Anticipated Funding Selection Date: 07/23/2015

Anticipated Award Date: 09/01/2015.

Range of Approval/Disapproval Time:

Refer to FY 2015 HSGP and THSGP Funding Opportunity Announcement Notice of Funding Opportunity. Anticipated Funding Selection Date is 07/23/2015. FY 2015 SHSP and UASI are non-competitive programs. Funds for FY 2015 OPSG will be allocated competitively. This includes the use of risk-based prioritization using CBP Sector-specific border risk to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence. Each applicant's final funding allocation will be determined by using a combination of the results of the risk analysis and feasibility of the Operations Orders. The following process will be used to make awards under FY 2012 THSGP:

Applicants will self-certify as to tribal eligibility per the 9/11 Act;

FEMA will verify compliance with all administrative and eligibility criteria identified in the application kit, to include the required submission of an IJ by the established due dates;

Eligible applications will be reviewed and scored through a peer review process to analyze the anticipated effectiveness of proposed Investments; and FEMA will use the results of the peer review effectiveness scores to make recommendations for funding to the Secretary of Homeland Security.

Formula and Matching Requirements:

Statutory Formula: FY 2012 SHSP funds will be allocated based on three factors: minimum amounts as legislatively mandated, DHS risk methodology, and anticipated effectiveness based on the strength of the Investment Justification (IJ). All 50 States, the District of Columbia, and Puerto Rico will receive 0.35 percent of the total funds allocated for grants under Section 2003 and Section 2004 of the Homeland Security Act of 2002, as amended by the 9/11 Act, for SHSP. Four territories (American Samoa, Guam, the Northern Mariana Islands, and the U.S. Virgin Islands) will receive a minimum allocation of 0.08 percent of the total funds allocated for grants under Section 2003 and 2004 of the Homeland Security Act of 2002, as amended by the 9/11 Act, for SHSP.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The Period of Performance is 36 months. For more information, refer to the FY 2015 HSGP and THSGP Funding Opportunity Announcement Notice of Funding Opportunity. Awards are subject to the Cash Management Act for payment and/or reimbursement of expenditures.

The period of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. Agencies should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. See the following for information on how assistance is awarded/released: Based on project need.

Reports:

All successful applicants for all DHS grant and cooperative agreements are

required to comply with DHS Standard Administrative Terms and Conditions available within Section 6.1.1 of

<http://www.dhs.gov/xlibrary/assets/cfo-financial-management-policy-manual.pdf>. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund drawdowns may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. DHS/FEMA will close out the grant award when it determines that all applicable administrative actions and all required work of the HSGP award have been completed by the recipient. This section summarizes the actions that the recipient must take to complete the closeout process in accordance with 2 C.F.R. 200.343 at the end of the grants period of performance or the issuance of a Grant Amendment Notice issued to close out the grant.

Within 90 days after the end of the period of performance, or after an amendment has been issued to close out a grant, whichever comes first, recipients must submit a final FFR and final progress report detailing all accomplishments and a qualitative summary of the impact of those accomplishments throughout the period of performance, as well as the following documentation:

- 1) Final request for payment, if applicable;
- 2) SF-425 Final Federal Financial Report;
- 3) SF-PPR Final Performance Progress Report;
- 4) A qualitative narrative summary on the impact of those accomplishments throughout the entire period of performance submitted to the respective Grant Programs Directorate (GPD) HQ Program Analyst in a Word document;
- 5) SF-428 Tangible Personal Property Report Inventory of all tangible personal property acquired using funds from this award.
- 6) Other documents required by program guidance or terms and conditions of the award.

If applicable, an inventory of all construction projects that used funds from this program has to be reported using the Real Property Status Report (Standard Form SF 429) available at

http://www.whitehouse.gov/sites/default/files/omb/grants/approved_forms/sf-429.pdf.

Additionally, the recipient must liquidate all obligations incurred under the HSGP award no later than 90 calendar days after the end date of the period of performance or issuance of a Grant Amendment Notice that closes out the award, whichever comes first. Recipients who do not liquidate their obligations within this time period may have the costs of their unliquidated obligations disallowed. Recipients are also responsible for promptly returning to DHS/FEMA the balance of any funds that have been drawn down, but remain unliquidated.

After these reports have been reviewed and approved by DHS/FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds the recipient has not drawn down that will be deobligated, and address requirements for record retention, and disposition and reporting requirements for any equipment or real property purchased using THSGP grant funding.

In addition, any HSGP recipient that issues subawards to any subrecipient is responsible for closing out those subawards as described in 2 C.F.R. 200.343. HSGP recipients must ensure that they complete the closeout of their subawards in time to submit all necessary documentation and information to DHS/FEMA during the closeout of their own grant award. Recipients are responsible for providing updated performance reports using the SF-PPR on a biannual basis. Recipients must submit the cover page of the SF-PPR as an attachment to the ND Grants system. The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf. As part of the SF-PPR, recipients will be required to report on progress towards implementing

the following performance measures:

For fusion centers, the achievement of capabilities and compliance with measurement requirements within the Maturation and Enhancement of State and Major Urban Area Fusion Centers priority through the annual Fusion Center Assessment Program managed by the DHS Office of Intelligence and Analysis (I&A) and reported to DHS/FEMA.State Preparedness Report (SPR) Submittal. The SPR is an annual capability assessment. The Post-Katrina Emergency Management Reform Act of 2006 (PKEMRA) requires an SPR from any state/territory receiving Federal preparedness assistance administered by DHS/FEMA. Each state submits an annual SPR to DHS/FEMA. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. DHS/FEMA will close out the grant award when it determines that all applicable administrative actions and all required work of the HSGP award have been completed by the recipient. This section summarizes the actions that the recipient must take to complete the closeout process in accordance with 2 C.F.R. 200.343 at the end of the grants period of performance or the issuance of a Grant Amendment Notice issued to close out the grant.

Within 90 days after the end of the period of performance, or after an amendment has been issued to close out a grant, whichever comes first, recipients must submit a final FFR and final progress report detailing all accomplishments and a qualitative summary of the impact of those accomplishments throughout the period of performance, as well as the following documentation:

- 1) Final request for payment, if applicable;
- 2) SF-425 Final Federal Financial Report;
- 3) SF-PPR Final Performance Progress Report;
- 4) A qualitative narrative summary on the impact of those accomplishments throughout the entire period of performance submitted to the respective Grant Programs Directorate (GPD) HQ Program Analyst in a Word document;
- 5) SF-428 Tangible Personal Property Report Inventory of all tangible personal property acquired using funds from this award.
- 6) Other documents required by program guidance or terms and conditions of the award.

If applicable, an inventory of all construction projects that used funds from this program has to be reported using the Real Property Status Report (Standard Form SF 429) available at http://www.whitehouse.gov/sites/default/files/omb/grants/approved_forms/sf-429.pdf.

Additionally, the recipient must liquidate all obligations incurred under the HSGP award no later than 90 calendar days after the end date of the period of performance or issuance of a Grant Amendment Notice that closes out the award, whichever comes first. Recipients who do not liquidate their obligations within this time period may have the costs of their unliquidated obligations disallowed. Recipients are also responsible for promptly returning to DHS/FEMA the balance of any funds that have been drawn down, but remain unliquidated.

After these reports have been reviewed and approved by DHS/FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds the recipient has not drawn down that will be deobligated, and address requirements for record retention, and disposition and reporting requirements for any equipment or real property purchased using THSGP grant funding.

In addition, any HSGP recipient that issues subawards to any subrecipient is responsible for closing out those subawards as described in 2 C.F.R. 200.343. HSGP recipients must ensure that they complete the closeout of their subawards

in time to submit all necessary documentation and information to DHS/FEMA during the closeout of their own grant award. Recipients will be monitored on an annual and as needed basis by DHS/FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met.

Monitoring may be accomplished through desk-based reviews on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. These audits are due to the cognizant Federal agency, submitted through the Federal Audit Clearinghouse, not later than 9 months after the end of the grantees fiscal year.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

CRITERIA FOR SELECTING PROPOSALS:

FY 2015 SHSP and UASI are non-competitive programs. For additional information on FY 2015 SHSP and UASI allocations, refer to the FY 2015 HSGP Notice of Funding Opportunity. Funds for FY 2015 OPSG will be allocated competitively. This includes the use of risk-based prioritization using CBP Sector-specific border risk to include, but not limited to: threat, vulnerability, miles of border, and other border-specific law enforcement intelligence. Each applicants final funding allocation will be determined by using a combination of the results of the risk analysis and feasibility of the Operations Orders. In order to be eligible to receive THSGP funding, grantees must be considered directly eligible Tribes. Per the 9/11 Act, the term directly eligible Tribe means

(A) any Indian Tribe

- (i) that is located in the continental United States;
- (ii) that operates a law enforcement or emergency response agency with the capacity to respond to calls for law enforcement or emergency services;
- (iii)
 - a. that is located on or near (50 miles) an international border or a coastline bordering an ocean (including the Gulf of Mexico) or international waters (excluding shoreline border around the Great Lakes);
 - b. that is located within 10 miles of a system or asset included on the prioritized critical infrastructure list established under section 210E(a)(2) [please refer to section 1001 of the 9/11 Act] or has such a system or asset within its territory;
 - c. that is located within or contiguous to one of the 50 most populous metropolitan statistical areas in the United States; or
 - d. the jurisdiction of which includes not less than 1,000 square miles of Indian country, as that term is defined in section 1151 of title 18, United States Code; and
- (iv) that certifies to the Secretary that a State has not provided funds under section 2003 [UASI] or 2004 [SHSP] to the Indian Tribe or consortium of Indian Tribes for the purpose for which direct funding is sought; and

(B) a consortium of Indian Tribes, if each Tribe satisfies the requirements of subparagraph (A).

In summary, eligible Tribes must meet the requirements set forth in (A) (i), and (A) (ii), and (A) (iv). Tribes must also meet one of the requirements set forth in (A) (iii); either (A) (iii) (a), or (A) (iii) (b), or (A) (iii) (c), or (A) (iii) (d). Finally, (B) may also be satisfied, if each Tribe satisfies the requirements of subparagraph (A).

In FY 2015, applicants must self-certify as to whether they meet the eligibility requirements. Self-certification will be provided on the THSGP Eligibility Certification Form as part of Application Investment Justification. Any questions regarding an applicants proximity to a Critical Infrastructure and Key Structures (CI/KR) site, as described in the eligibility criteria, may be directed to the State Administrative Agency (SAA). Any additional questions regarding the overall self-certification of eligibility process may be directed to the CSID.

97.075 RAIL AND TRANSIT SECURITY GRANT PROGRAM

TSGP/IPR

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Implementing Recommendations of the 9/11 Commission Act of 2007, Section 1406, Public Law 110-53.

OBJECTIVES:

The FY 2015 TSGP and IPR Program play an important role in the implementation of Presidential Policy Directive 8 (PPD-8) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). The development and sustainment of these core capabilities are not exclusive to any single level of government or organization, but rather require the combined effort of the whole community. The FY 2015 TSGP and IPR Program support all core capabilities in the Prevention, Protection, Mitigation, Response, and Recovery mission areas based on allowable costs. Examples of tangible outcomes from the TSGP and IPR Program include building and sustaining emergency management capabilities through operational activities, operational packages (OPacks), Top Transit Asset List (TTAL) remediation; protection of high risk/high consequence underwater and underground rail assets; planning; use of visible, unpredictable deterrence; emergency preparedness drills and exercises; public awareness and preparedness campaigns; and protection of other high risk, high consequences areas or systems that have been identified through system wide risk assessments.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The TSGP and IPR Program are two of the Department of Homeland Securitys FY 2015 grant programs which directly support transportation infrastructure security activities. These grant programs are part of a comprehensive set of measures authorized by Congress and implemented by the Department of Homeland Security to strengthen the Nations critical infrastructure against risks associated with potential terrorist attacks. TSGP provides funds to the Nations High-Threat Urban Areas for enhancement of security measures at critical transit infrastructure including bus, ferry, and rail systems. The intent of the FY 2015 TSGP is to competitively award grant funding to assist transit systems in obtaining the resources required to support the NPGs associated mission areas and core capabilities. IPR Program provides funds to Amtrak to develop security enhancements for eligible intercity passenger rail operations. The intent of the FY 2015 IPR is to grant funding to assist the Amtrak rail system in obtaining the resources required to support the NPGs associated mission areas and core capabilities. DHS grant funds may only be used for the purpose set forth in the grant, and must be consistent with the statutory authority for the award. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, Federal funds may not be used to sue the Federal government or any other government entity. Pre-award costs are allowable only with the written consent of DHS and if they are included in the award agreement. Federal employees are prohibited from serving in any capacity (paid or unpaid) on any proposal submitted under this program. Federal employees may not receive funds under this award. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Federal NIMS implementation must be considered prior to allocation of any Federal preparedness awards in FY 2015. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.htm#item2>. The primary grantee/administrator of FY 2015 TSGP award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards. Yes, in TSGP. Refer to the FY 2015 TSGP Notice of Funding Opportunity (NOFO) for more information.

Applicant Eligibility:

Agencies eligible for FY 2015 TSGP are determined based upon daily unlinked passenger trips (ridership) and transit systems that serve historically eligible Urban Area Security Initiative (UASI) jurisdictions. Certain ferry systems are eligible to participate in the FY 2015 TSGP and receive funds. However, any ferry system electing to participate and receive funds under the FY 2015 TSGP will not be eligible to participate under the FY 2015 Port Security Grant Program (PSGP) and will not be considered for funding under the FY 2015 PSGP. Likewise, any ferry system that participates in the PSGP will not be

eligible for funding under the TSGP. The 9/11 Act requires that high risk public transportation agencies, including those that receive grant funding, must develop a security plan based on a security assessment. Additionally, the legislation directs that grant funds be used to address items in the security assessment or the security plan. In order to be eligible for the FY 2015 TSGP, transit agencies must have developed and/or updated their security plan, which must be based on a security assessment such as the Baseline Assessment and Security Enhancement (BASE) performed by Transportation Security Inspectors-Surface from the Transportation Security Administration (TSA), within the last three years. A copy of the Security Plan and security assessment must be available for DHS review upon request. Entities providing transit security (e.g., city/county police department, transit agencies own police department) for a transit agency must approve the security plan. The signature of a responsible official from the agencies transit security provider serves as this approval. If there is more than one provider in the core service area, all transit security providers must review and concur with the plan. Associated documentation of this approval must be provided to DHS upon request. In addition, the agencies transit security provider is encouraged to review the Investment Justifications (IJ) prior to submission. Each Regional Transit Security Working Group (RTSWG) is required to develop and update at least every three years a Regional Transit Security Strategy (RTSS). As the owners and/or operators of infrastructure that is vital to the well being of the States and Urban Areas they serve, it is imperative that transit systems be incorporated into regional preparedness planning efforts. A copy of the Security Plan or security assessment must be available for DHS review upon request. The National Passenger Railroad Corporation (Amtrak) is the only entity eligible to apply for funding under FY 2015 IPR Program. For more information, refer to the FY 2015 TSGP and IPR Program Notice of Funding Opportunity (NOFO) National Incident Management System (NIMS) Implementation. In accordance with Homeland Security Presidential Directive (HSPD)-5, Management of Domestic Incidents, the adoption of NIMS is a requirement to receive Federal preparedness assistance, through grants, contracts, and other activities. Prior to allocation of any Federal preparedness awards in FY 2015, grantee must ensure compliance and/or alignment with the NIMS implementation plan. The list of objectives against which progress and achievement are assessed and reported can be found at <http://www.fema.gov/emergency/nims/ImplementationGuidanceStakeholders.shtm#item2>. The primary grantee/administrator of FY 2015 TSGP and IPR Program award funds is responsible for determining if sub-awardees have demonstrated sufficient progress in NIMS implementation to disburse awards.

Beneficiary Eligibility:

Specialized group; general public.

Credentials/Documentation:

In order to be eligible for the FY 2015 TSGP, transit agencies must have developed and/or updated their security plan, which must be based on a security assessment such as the Baseline Assessment and Security Enhancement (BASE) performed by Transportation Security Inspectors-Surface from the Transportation Security Administration (TSA), within the last three years. A copy of the Security Plan and security assessment must be available for DHS review upon request. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Yes for TSGP. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Agencies eligible for FY 2015 TSGP are determined based upon daily unlinked passenger trips (ridership) and transit systems that serve historically eligible Urban Area Security Initiative (UASI) jurisdictions. Certain ferry systems are eligible to participate in the FY 2015 TSGP and receive funds. However, any ferry system electing to participate and receive funds under the FY 2015 TSGP will not be eligible to participate under the FY 2015 Port Security Grant Program (PSGP)

and will not be considered for funding under the FY 2015 PSGP. Likewise, any ferry system that participates in the PSGP will not be eligible for funding under the TSGP. The 9/11 Act requires that high risk public transportation agencies, including those that receive grant funding, must develop a security plan based on a security assessment. Additionally, the legislation directs that grant funds be used to address items in the security assessment or the security plan. In order to be eligible for the FY 2015 TSGP, transit agencies must have developed and/or updated their security plan, which must be based on a security assessment such as the Baseline Assessment and Security Enhancement (BASE) performed by Transportation Security Inspectors-Surface from the Transportation Security Administration (TSA), within the last three years. A copy of the Security Plan and security assessment must be available for DHS review upon request. Entities providing transit security (e.g., city/county police department, transit agencies own police department) for a transit agency must approve the security plan. The signature of a responsible official from the agencies transit security provider serves as this approval. If there is more than one provider in the core service area, all transit security providers must review and concur with the plan. Associated documentation of this approval must be provided to DHS upon request. In addition, the agencies transit security provider is encouraged to review the Investment Justifications (IJ) prior to submission.

Each Regional Transit Security Working Group (RTSWG) is required to develop and update at least every three years a Regional Transit Security Strategy (RTSS). As the owners and/or operators of infrastructure that is vital to the well being of the States and Urban Areas they serve, it is imperative that transit systems be incorporated into regional preparedness planning efforts. A copy of the Security Plan or security assessment must be available for DHS review upon request.

The National Passenger Railroad Corporation (Amtrak) is the only entity eligible to apply for funding under FY 2015 IPR Program.

Length and Time Phasing of Assistance:

The period of performance for TSGP is 36 months. The period of performance for the IPR Program is 36 months. Refer to FY 2015 TSGP or IPR Program Notice of Funding Opportunity (NOFO) for more information. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures.

Projected Award Start Date(s): 09/01/2015

Projected Award End Date(s): 08/31/2018

Period of Performance: 36 months

The periods of performance outlined above support the effort to expedite the outlay of grant funding and provide economic stimulus. The grantee should request waivers sparingly, and they will be granted only due to compelling legal, policy, or operational challenges. For example, the grantee may request waivers from the deadlines outlined above for discretionary grant funds where adjusting the timeline for spending will constitute a verifiable legal breach of contract by the grantee with vendors or sub-recipients, or where a specific statute or regulation mandates an environmental review that cannot be completed within this timeframe or where other exceptional circumstances warrant a discrete waiver. See the following for information on how assistance is awarded/released: Grantees must accept their grant awards no later than 90 days from the award date. The grantee shall notify the awarding agency of its intent to accept and proceed with work under the award, or provide a written notice of intent to decline. Funds will remain on hold until the grantee accepts the award through official correspondence, e.g., written, electronic signature, signed letter or fax to GPD, and all other conditions of award have been satisfied, or the award is otherwise rescinded. Failure to accept the grant award within the 90 day timeframe may result in a loss of funds.

Reports:

Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Grantees should submit the SF-PPR as an attachment to the Non Disaster (ND) Grants system. The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf.

Exercise Evaluation and Improvement. Exercises implemented with grant funds should evaluate performance of the capabilities required to respond to the exercise scenario. Guidance related to exercise evaluation and the implementation of improvements is defined in the Homeland Security Exercise and Evaluation Program located at <https://hseep.dhs.gov>.

Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met.

Monitoring may be accomplished through either a desk-based review or on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed. Federal Financial Report (FFR) required quarterly. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through PARS.

Grant Close-Out Process. Within 90 days after the end of the period of performance, or after a Grant Adjustment Notice (GAN) has been issued to close out a grant, whichever comes first, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. TSGP and IPR Program awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000

or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. Grant records include financial and program/progress reports, support documents, statistical records, and other documents that support the activity and/or expenditure of the recipient or sub-recipient under the award.

CRITERIA FOR SELECTING PROPOSALS:

TSGP grantees must comply with all administrative requirements described herein including the submission of IJs, budgets, and other application materials as required. Having met all administrative requirements, the application will be scored based on a methodology that will ensure consistent and accurate evaluations of projects and proposals.

The following process will be used to make awards for the program:

DHS will verify compliance with each of the administrative and eligibility criteria identified in the application kit.

The Department will calculate a total score to aid with funding selections. The total score will consist of four individual parts: an agency-based risk score, a score associated with an applications alignment to the funding priority areas, a score based on project risk mitigation, and the degree of regional collaboration.

Eligible applications will be reviewed by a panel to determine the risk mitigation and regional collaboration scores. This panel will consist of Federal officials from multiple government agencies that will review each application and score it based on the following criteria: cost effectiveness, feasibility, timelines, and sustainability without additional Federal funds.

FEMA and TSA will make recommendations for funding to the Secretary of Homeland Security based on the funding priorities and scoring methodology.

For IPR Program, based on previously cited statutory authorities, DHS has elected to enter into a cooperative agreement with Amtrak. The nature of the Federal involvement in the execution of this program may include joint participation in a project. Other examples of prospective substantial Federal involvement include the following:

Collaboration, participation, and/or intervention in any activity covered by the cooperative agreement

Approval from DHS prior to the selection of a new project or commencement of the next phase of an approved project

Authority for DHS to halt an activity if detailed performance specifications are not met

Authority for DHS to direct or redirect the scope of work of a project based on new circumstances

Authority for DHS to create a working group of key Federal and private sector stakeholders to provide guidance and coordination for transit security activities

Funds for both programs will not be made available for obligation, expenditure, or drawdown until the applicants budget and budget narrative have been approved by FEMA. The applicant must provide a detailed budget for the funds

requested. The detailed budget must be submitted with the grant application as a file attachment within <http://www.grants.gov>. The budget must be complete, reasonable, and cost-effective in relation to the proposed project. The budget should provide the basis of computation of all project-related costs, any appropriate narrative, and a detailed justification of Management and Administration (M&A) costs.

Fiscal Year 2014: The number of reports for 2013 was 505,280 and there was a significant increase in those reports in 2014. The 2014 number of reports came to 533,120. Reports being posted to U.S. servers from overseas has dramatically increased therefore the international scope has increased to allow for a broader range of reporting for law enforcement investigations. The number of Electronic Service Providers (ESP) increased during the 2014 reporting period as well as the training offered to U.S. and International Law Enforcement to assist in using the reporting tool and analyzing the information provided in the reports. Also during the 2014 reporting period, education and demonstrations of the reporting tool was provided to the ESP community with regard to Title 18 U.S.C. 2258A and their obligation to report incidents of possible/apparent child pornography. As a result of this education, an additional 22 ESP companies began reporting. Education, presentations and demonstrations to the public with regard to reporting continues as well as with law enforcement and other members of the community continue at an increased pace to encourage reporting which will result in a rise in investigations and the ability to remove offenders from society. Fiscal Year 2015: It is estimated that

the number of reports will increase greatly and the amount of information made available to law enforcement will also increase by a high percentage. This will enable law enforcement to continue to secure the internet, protect the homeland, the people, their security and way of life. Fiscal Year 2016: No current data available.

Fiscal Year 2014: NEMA conducted a demonstration of the Mutual Aid Support System (MASS 2.0) and its integrations in to the EMAC Operations System to the National Integration Center, the Emergency Management Assessment Program (EMAP), and other FEMA National Preparedness Assessment Division (NPAD). NEMA is working with the National Alliance for Public Safety GIS (NAPSG)

Foundation on the delivery of a webinar to highlight the Mutual Aid Support System and the EMAC Operations System connectivity to accelerate the national mutual aid system.

NEMA hosted a national workshop focused on building national mutual aid capacity within the states. States worked together during the workshop to identify threats, hazards, and then the resources they have available to respond to those incidents. States also identified any unique resources they have within their state. NEMA incorporated the Resource Typing Library Tool (RTL) video into the EMAC Workshop to help states understand the relationship between the Mission Ready Package and NIMS Resource Types/Position Qualifications.

NEMA presented at the Central Gulf Hurricane Conference on the EMAC Process.

NEMA presented at the 2015 National Hurricane Conference in Austin, TX. The session focused on the Pre-Event Preparation and Activation of the EMAC Process and emphasized the development of Mission Ready Packages.

The All Hazards Incident Management Team Association (AHIMTA) Qualification Standards discussion at the NEMA Mid-Year Forum has generated discussion on state efforts to develop a national qualification system.

NEMA presented on the Mutual Aid Support System at the Florida Governors Hurricane Conference.

NEMA conducted a webinar to the Big City Emergency Managers at the request of ASTHO to highlight the development of Mission Ready Packages. NEMA met with NORTHCOM Joint Inter Agency Coordination Group on EMAC coordination with Title 32 and State Active Duty resources through NGB and Federal agencies.

NEMA presented to the National Guard Bureau on EMAC and conducted a future planning session for NGB/EMAC relationship building and training.

NEMA presented on EMAC at the Region III National Guard Senior Staff on EMACs role in Defense Support to Civil Authorities (DSCA).

NEMA presented at the FEMA Incident Management Assistance Team Academy at the Center for Domestic Preparedness on EMAC. The goal of the session was to provide attendees basic knowledge of EMAC and to point them to additional EMAC resources.

NEMA continues to work with the Association of State and Territorial Health Officials (ASTHO) and Tetra Tech to continue work on Phase II of the public health and medical project to develop Mission Ready Packages.

NEMA supported five EMAC operational activities during the first half of CY2015. Fiscal Year 2015: Maintenance and implementation of a formalized sub-grant program in coordination with FEMA.

Support for the refinement of NIMS and its national roll-out as directed by FEMA. The specific activities that EMAC will support will be determined jointly with FEMA during the development of the program management plan.

Support for the refinement and roll-out of the National Preparedness Goal and National Planning Frameworks as directed by FEMA. The specific activities that EMAC will support will be determined jointly with FEMA during the development of the program management plan.

Provide education and training to states on preparing for and deploying through EMAC.

Development, enhancement, and maintenance of EMACs information management systems for the availability, request, dispatch, use, tracking, and return of resources in all states during all-hazard incidents requiring mutual aid.

The system development will solve several barriers to interoperability that hinders expedient deployment of resources. Fiscal Year 2016: Provide education and training to states on preparing for and deploying through EMAC.

97.114 EMERGENCY FOOD AND SHELTER NATIONAL BOARD PROGRAM (ARRA)

ARRA Emergency Food and Shelter National Board Program

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Stewart B. McKinney Homeless Assistance Act of 1987, as amended, Title III, Sections 301-316, Public Law 100-77, as amended, 42 U.S.C. 11331-11346; Public Law 111-5 American Recovery and Reinvestment Act of 2009.

OBJECTIVES:

To supplement and expand ongoing efforts to provide shelter, food, and supportive services for needy families and individuals. To strengthen efforts to create more effective and innovative local programs by providing supplemental funding for them. To conduct minimum rehabilitation of existing mass shelter or mass feeding facilities, but only to the extent necessary to make facilities safe, sanitary and bring them into compliance with local building codes.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Food and related expenses (such as transporting food/food preparation and serving equipment); mass shelter; other shelter (such as hotels and motels); and rent/mortgage and/or utility assistance limited to one (1) month; and limited repairs to feeding and sheltering facilities. Emergency Food and Shelter National Board Program funds cannot be used for: rental security, deposits of any kind, cash payments of any kind, lobbying efforts, salaries (except as administrative allowance and limited to that total allowance of 2 percent of total award), purchases or improvements of an individual's private property, telephone costs, repairs to government-owned or profit-making facilities and any payments for services not incurred. For a complete listing on eligible and ineligible costs under this program, refer to the current Phase (fiscal year) manual: Responsibilities and Requirements, issued by the Emergency Food and Shelter Program National Board.

Applicant Eligibility:

Refer to program guidance.

Beneficiary Eligibility:

The law directs that the Local Boards, which manage the program at the local level, shall "determine which private nonprofit organizations or public organizations of the local government in the individual locality shall receive grants to act as service providers." The range of participant groups on the Local Boards include the affiliates of the National Board membership which consists of American Red Cross, Catholic Charities USA, National Council of Churches of Christ in the U.S.A., The Jewish Federations of North America, The Salvation Army, and United Way Worldwide, with a local government representative replacing FEMA. Also participating are independent nonprofits (such as Community Action Agencies and Food Banks and food pantries) which provide food and/or shelter services. Due to the broad category of people in need of such emergency services, the providers can include specialized groups such as domestic violence shelters, Native American organizations, and organizations providing food or shelter to: AIDS patients, handicapped individuals, the elderly, homeless veterans, non-wards of the State teenage runaways, and many other groups with emergency food and shelter needs. As noted earlier, the decisions on selections are made through the consensus of the Local Board as they have assessed their community's most urgent needs. It is important that such agencies use these funds to supplement, not replace, their

current efforts. This program is intended to supplement ongoing programs and allow them to extend and expand upon their existing services.

Credentials/Documentation:

The program employs a Local Recipient Organization Certification Form. This form certifies an applicant's status (i.e., that it is a nonprofit or government agency capable of delivering eligible services) that it will abide by the program guidelines (both on eligible spending and reporting requests), and comply with other fiscal and program rules so stipulated. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. There is no application process for local jurisdictions since the award notifications to local jurisdictions are based on either a National Board formula or recommendations from State Set-Aside Committees.

Award Procedure:

Local Board plans are submitted to the National Board and reviewed by the National Board program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Refer to the Emergency Food and Shelter National Board Program, "Phase 27: Responsibilities and Requirements" document for information on the appeal process. Those cases that cannot be handled locally should be referred to the National Board giving details on action that has been taken up to that point. Any allegations regarding fraud or the misuse of funds should be referred directly to the DHS Office of Inspector General.

Renewals:

Each phase (fiscal year) is a new program.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Refer to program guidance. Awards are subject to the Cash Management Improvement Act for payment and/or reimbursement of expenditures. See the following for information on how assistance is awarded/released: Payment based on Project need. See the following for information on how assistance is awarded/released: No information provided.

Reports:

Local Boards are expected to monitor the expenditure of funds in their respective jurisdictions. It is for that reason that requests for second checks (all awards are divided into two payments) must be authorized by the Local Boards. Along with the request for the second payment, the National Board receives an interim report on eligible spending during that phase. A Final Report also must be filed by each LRO with its Local Board. The Local Board then compiles all the Final Reports within its jurisdiction and submits them (along with any requested documentation) to the National Board. Failure of an LRO to file a Final Report will result in its award being held in escrow the succeeding year. Recovery funding reports will be submitted in the prescribed format within 10 days after the end of each calendar quarter, beginning July 10, 2009. These reports will include the following data elements, as prescribed by the Public Law 111-5, Section 1512 and OMB Memorandum M-09-10: (1) The total amount of recovery funds received from that agency; (2) The amount of recovery funds received that were obligated and expended to projects or activities. This reporting will also included unobligated Allotment balances to

facilitate reconciliations. (3) A detailed list of all projects or activities for which recovery funds were obligated and expended, including--(A) The name of the project or activity; (B) A description of the project or activity; (C) An evaluation of the completion status of the project or activity; (D) An estimate of the number of jobs created and the number of jobs retained by the project or activity (Not Applicable to Emergency Food and Shelter); and (E) For infrastructure investments made by State and local governments, the purpose, total cost, and rationale of the agency for funding the infrastructure investment with funds made available under this Act, and name of the person to contact at the agency if there are concerns with the infrastructure investment (Not Applicable to Emergency Food and Shelter). (4) Detailed information on any subcontracts or subgrants awarded by the recipient to include the data elements required to comply with the Federal Funding Accountability and Transparency Act of 2006 (Public Law 109-282), allowing aggregate reporting on awards below \$25,000 or to individuals, as prescribed by the Director of OMB. Refer to program guidance. Refer to program guidance. Refer to program guidance. Refer to program guidance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Local Boards are required to remain in operation until all program and audit requirements of the National Board have been satisfied. Grant records shall be retained for a period of 3 years from the day the recipient submits its final expenditure report. If any litigation, claim, negotiation, audit, or other action involving the records has been started before the expiration of the 3-year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular 3-year period, whichever is later. PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Established the agile development process and re-architected the system using open source software to become a functional system that has the ability to collect extensible data sets and offer deeper insight into an emerging health incident of national concern through data analytics and anomaly algorithms, rather than rearticulate already known and existing information.

Expanded geographic foot-print to include North Carolina, South Carolina, West Virginia, and Marion County, IN

NCBP utilized an array of biosurveillance information sources and applied three types of algorithms to integrate local and State data to provide early warning and enhanced situational awareness.

Established a power-user group that includes various subject matter experts in the bio-surveillance, public health, medical, and emergency management and response fields at the federal, state, and local levels. Fiscal Year 2015: Operations & Maintenance - Operate, maintain, and improve an already functional NCBP system architecture to detect and analyze private health data for rapid warning and disseminate information to federal, State, and local stakeholders for interventional decision making.

Geographic Expansion - Expand the NCBP geographic footprint toward a national biosphere surveillance capability and enhance collaboration between federal, State, local, tribal, and private sector partners using IT systems, communications, and networks that possess the required information, information policies, and governances.

Data Set Integration - Expand NCBP to include other necessary data sets for biosphere surveillance across the spectrum of human and animal health, food, and the environment.

Analytics - Develop, improve, and validate algorithms that can detect anomalies in data sets with an associated level of confidence that there is an event of interest to various user levels including local, state, federal emerging within the data.

User Interface - Enable user interaction with data in an intuitive, comprehensible, and collaborative way that empowers user participation and is commercially viable.

Information Sharing - Rapidly, in near real-time, share information, queries, searches and observations among federal, state, and local users to support early warning, situational awareness, and interventional decision-making.

Sustainability - Develop a business sustainment model for NCBP that includes a fully operational system, providing access for government (federal, state, local, and tribal territories) and private sector users. Fiscal Year 2016: Operations & Maintenance - Operate, maintain, and improve an already functional NCBP system architecture to detect and analyze private health data for rapid warning and disseminate information to federal, State, and local stakeholders for interventional decision making.

Geographic Expansion Further expand the NCBP geographic footprint toward a national biosphere surveillance capability and enhance collaboration between federal, State, local, tribal, and private sector partners using IT systems, communications, and networks that possess the required information, information policies, and governances.

Data Set Integration - Expand NCBP to include other necessary data sets for biosphere surveillance across the spectrum of human and animal health, food, and the environment.

Analytics Further refine, develop, improve, and validate algorithms that can detect anomalies in data sets with an associated level of confidence that there is an event of interest to various user levels including local, state, federal emerging within the data.

Sustainability Transition the technology out of academia and execute against a sustainable model for NCBP that includes a fully operational system, providing access for government (federal, state, local, and tribal territories) and private sector users.

Reports:

No program reports are required. No cash reports are required. Performance Progress Report (SF-PPR). Awardees are responsible for providing updated performance reports using the SF-PPR (OMB Approval Number 0970-0334) on a semi-annual basis. The SF-PPR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). The SF-PPR can be accessed online at http://www.na.fs.fed.us/fap/SF-PPR_Cover%20Sheet.pdf. Grantees will be required to report on progress towards implementing plans described in their application. State Preparedness Report (SPR) Submittal. Section 652(c) of the Post-Katrina Emergency Management Reform Act of 2006 (Public Law 109-295), 6 U.S.C. 752(c), requires any State that receives Federal preparedness assistance to submit an SPR to FEMA. States that submitted the most recent SPR in December 2011, would meet this requirement to receive funding under the FY 2012 NSSE. Biannual Strategy Implementation Reports (BSIR). Grantees are responsible for completing and submitting the BSIR reports, as a compliment to the Quarterly Progress Report (programmatic performance report/SF-PPR). The BSIR is due within 30 days after the end of the reporting period (July 30 for the reporting period of January 1 through June 30; and January 30 for the reporting period of July 1 through December 31). Updated obligations and expenditure information must be provided within the BSIR to show progress made toward meeting strategic goals and objectives. Obligations and expenditures must be reported on a quarterly basis through the FFR (SF-425). A report must be submitted for every quarter of the period of performance, including partial calendar quarters, as well as for periods where no grant activity occurs. Future awards and fund draw downs may be withheld if these reports are delinquent. The final FFR is due 90 days after the end date of the performance period. FFRs must be filed electronically through the Payment and Reporting System (PARS.)

Grant Close-Out Process. Within 90 days after the end of the period of performance, grantees must submit a final FFR and final progress report detailing all accomplishments throughout the period of performance. After these reports have been reviewed and approved by FEMA, a close-out notice will be completed to close out the grant. The notice will indicate the period of performance as closed, list any remaining funds that will be deobligated, and address the requirement of maintaining the grant records for three years from the date of the final FFR. The grantee is responsible for returning any funds that have been drawn down but remain as unliquidated on grantee financial records. Monitoring. Grant recipients will be monitored periodically by FEMA staff, both programmatically and financially, to ensure that the project goals, objectives, performance requirements, timelines, milestone completion, budgets, and other related program criteria are being met. Monitoring may be accomplished through a desk-based review, on-site monitoring visits, or both. Monitoring will involve the review and analysis of the financial, programmatic, performance, compliance and administrative processes, policies, activities, and other attributes of each Federal assistance award and will identify areas where technical assistance, corrective actions and other support may be needed.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Cyber Discovery 2.0 had teachers attending 6 professional development workshops before leading their teams in the week-long challenges. Cyber Discovery 2.0 Workshop locations included: Louisiana Tech University (Louisiana), University of Baltimore (Maryland), Portland State University (Oregon), University of Central Arkansas (Arkansas), Eastern Michigan University (Michigan), and the Colorado School of Mines (Colorado). Louisiana Tech University (Louisiana) hosted two Cyber Discovery camps as part of their role in the National Integrated Cyber Education Research Center test bed. Cyber Discovery teacher professional development impacted 132 teachers and 1,349 teachers through Teacher Curricula Professional Development. Total teacher impacted were 1,481. Through Cyber Discovery, 396 students were direct impacts and 16,104 were indirect impact. Through curricula professional development, there were 164,578 impacted indirectly, totaling 181,078 students impacted.

During the 2014-2015 academic years, the Cyber Innovations Center (CIC) team has been shifting its focus from content creation to implementation. During the summer of 2014, the team piloted several teacher workshops in Shreveport, Louisiana; Tampa, Florida; and San Antonio, Texas, in preparation of a more robust roll-out effort during the summer of 2015. These efforts coincide with the strategic planning discussions previously conducted with Department of Homeland Security (DHS) program personnel and the timing of content development and release.

December 2014, the NICERC team partnered with California State University at San Bernardino and Girls Scouts of San Gorgonio to host A Day of Cyber, a workshop designed for 300 middle and high school girls from the San Bernardino area. The workshop centered on the STEM EDA Glider module and included a drone demonstration and hacker obstacle course. The following day, the NICERC team hosted a STEM EDA professional development workshop on California State University San Bernardino's campus for thirty-three middle school teachers from the region. Teachers who attended the workshop gained access to the STEM EDA curriculum to implement in their classrooms.

In an effort to continue the rapid dissemination of its cyber curriculum and professional development offering, the NICERC team continues to submit white papers to state and national conferences that focus on K-12 teachers. Conferences attended include the following: Oregon Science Teachers Association, Louisiana Association of Teachers of Mathematics/Louisiana Science Teachers Association Joint Conference, Tennessee Science Teachers Association and the National Initiative for Cybersecurity Education (NICE) Conference.

During the annual NICE Conference, the Cyber Innovation Center was a keynote speaker and panelist during multiple presentations providing a great opportunity to showcase its cyber professional development programs and its relationship with DHS. Through this event, the CIC was able to make great

connections with fellow educators and build relationships that will prove valuable in the future. For example, the CIC will host a professional development workshop in Alabama and Oklahoma based on the relationships established at the NICE conference. Fiscal Year 2015: Following an extensive review on the four (4) pilot STEM EDA workshops, the NICERC team, subject matter experts, and university faculty have critiqued, refined, and polished the workshop for a full roll-out in December 2014. In the refining, NICERC developed multi-disciplinary, project-driven workshops aimed at not only enhancing students understanding in STEM disciplines, but also engaging more students in cyber to increase cyber awareness, expand the cyber interstate, and evolve the cyber workforce.

Spotlighted Modules

NICERC has placed a greater emphasis on cyber to engage more students in cyber awareness, expand the cyber interstate, and evolve the cyber workforce. To fully complement the multi-disciplinary, project-driven curriculum and to satisfy the need for enhancing students understanding in STEM disciplines, NICERC has strategically chosen four (4) modules to spotlight in our workshops moving forward. The result will be a greater emphasis on cyber while maintaining the framework of the engineering and design process. The following modules (number of modules chosen based on time and region) will be offered to workshop partners:

Egg Drop - The Egg Drop module introduces the engineering design process. This is a good module to start with due to the high familiarity with the egg drop concept. However, NICERCs module introduces more of a strategic approach and in-depth analysis of the parts of the engineering design process.

Electricity Electricity lessons are commonly taught in current middle school science curriculum. NICERCs Electricity module showcases how the curriculum and content can modular or stand-alone as each module can be integrated into existing classroom study very easily. The Electricity module has a primary role in STEM EDA workshop as it draws a direct connection to cyber security and cyber infrastructure.

Music This is a great module that not only highlights the integration of liberal arts but also has a strong math component. This module introduces cyber security, cyber hygiene, encryption, and classified documents.

Cyber Programming This module showcases programming and networking framework as well as introduces website design and fosters an appreciation for cyber security.

Total Impact

As illustrated in the 2015 locations table, NICERC is forecasted to offer STEM EDA professional development workshops in 10+ states: Alabama, Arkansas, California, Louisiana, Maryland, Minnesota, New York, North Carolina, and Oklahoma. Workshop dates in other states and regions continue to be scheduled. The goal is for over 1,000 teachers to go through the STEM EDA workshop this year. When achieved, NICERC will have directly influenced over 122,000 students across the country. Fiscal Year 2016: Monthly Middle School Teacher Professional Development Workshops

97.130 NATIONAL NUCLEAR FORENSICS EXPERTISE DEVELOPMENT PROGRAM

(NNFEDP)

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

Nuclear Forensics and Attribution Act (Public Law 111-140; Sec. 4(a)(12)), Public Law 111-140, U.S.C 4(a)(12).

OBJECTIVES:

The objectives of this program are: (1) to provide a stable foundation from which to develop and maintain the nuclear forensics workforce; (2) to provide an academic pathway from undergraduate to post-doctorate study in disciplines directly relevant to nuclear forensics, including but not limited to radiochemistry, geochemistry, nuclear physics, nuclear engineering, materials science, and analytical chemistry; and (3) to increase a diverse and highly talented cadre of new and emerging forensics experts who will fill specific expertise gaps in the area of nuclear forensics, an important homeland security mission. These objectives are aligned with Presidential Policy Directive (PPD)-8, National Preparedness, in that the NNFEDP aims to supply the technical expertise critical to enabling the nuclear forensics mission. This mission involves strengthening the security and resilience of the United States through systematic preparation for the threat of nuclear terrorism. Terrorism is cited among a short list of major threats in PPD-8 as posing the greatest risk to the security of the Nation. These objectives are also aligned with the DHS Quadrennial Homeland Security Review (QHSR) Mission 1: Preventing Terrorism and Enhancing Security. The NNFEDP supports the following Goals and Objectives:

Goal 1.1: Prevent Terrorist Attacks

Objective 1.1.2: Deter and Disrupt Operations

Goal 1.2: Prevent the Unauthorized Acquisition or Use of Chemical, Biological, Radiological, and Nuclear (CBRN) Materials and Capabilities

Objective 1.2.1: Anticipate Emerging Threats

Objective 1.2.2: Control Access to CBRN

Objective 1.2.4: Protection against Hostile Use of CBRN

In order to accomplish this mandate, the following goals must be met:

Implement a Nuclear Forensics Undergraduate Scholarship Program to provide outreach to the academic community, facilitate experiential learning in nuclear forensics-related research areas, and feed students into the Nuclear Forensics Graduate Fellowship Program.

Implement a Nuclear Forensics Graduate Fellowship Program to encourage students to pursue advanced degrees in radiochemistry and other nuclear forensics-related disciplines, encourage universities to invest in these types of programs, facilitate experiential learning in nuclear forensics-related research areas, and feed students into post-doctoral/permanent staff positions in nuclear forensics at the national laboratories or federal agencies.

Implement a Nuclear Forensics Education Award Program to support universities interested in developing and maintaining academic programs in nuclear forensics-related disciplines.

Implement a Nuclear Forensics Junior Faculty Award Program to provide universities with an incentive to recruit, promote, and retain highly qualified personnel to teach within nuclear forensics-related degree programs and contribute to associated research projects at universities.

Implement a Nuclear Forensics Minority Serving Institution (MSI) Collaboration Award Program to support the enhancement of undergraduate and/or graduate Chemistry, Math, Physics, and Engineering programs located at MSIs and to establish formal linkages among the universities currently participating in the Nuclear Forensics Graduate Fellowship Program, the nations MSIs, and the national laboratories.

97.131 EMERGENCY MANAGEMENT BASELINE ASSESSMENTS GRANT (EMBAG)

EMBAG

FEDERAL AGENCY:

Department of Homeland Security

AUTHORIZATION:

The Department of Homeland Security Appropriations Act, 2015 (Public Law 114-4), Public Law 114-4.

OBJECTIVES:

The FY 2015 EMBAG program will support the development updating and enhancement of a set of American National Standards Institute (ANSI)-certified standards for emergency preparedness and response as well as a related assessment methodology for the evaluation of state, local and territorial emergency management organizations. This assessment methodology should incorporate a peer review process that results in accreditation of the emergency management organization, regardless of size.

This program will also support the development of standards for Urban Search and Rescue (US&R) teams that will establish the minimum acceptable performance criteria for the management, operations and logistical readiness elements required of a US&R Resource. The program will also support building a pilot assessment methodology for evaluating the standard. The standards will be scalable and comprehensive in their construct in order for all level US&R teams to apply.

The assessment and accreditation of emergency management organizations against consensus-based and ANSI-certified national standards enables standardized benchmarking of critical functions necessary for an emergency management organization to build, sustain, and deliver the 31 core capabilities identified in the National Preparedness Goal (the Goal). The Goal defines success as a secure and resilient Nation with the capabilities required across the whole community to prevent, protect against, mitigate, respond to, and recover from the threats and hazards that pose the greatest risk. The National

Preparedness Goal is achieved by:

- Preventing, avoiding, or stopping a threatened or actual act of terrorism;
- Protecting our citizens, residents, visitors, and assets against the greatest threats and hazards in a manner that allows our interests, aspirations, and way of life to thrive;
- Mitigating the loss of life and property by lessening the impact of future disasters;
- Responding quickly to save lives, protect property and the environment, and meet basic human needs in the aftermath of a catastrophic incident; and
- Recovering through a focus on the timely restoration, strengthening, and revitalization of infrastructure, housing, and a sustainable economy, as well as the health, social, cultural, historic, and environmental fabric of communities affected by a catastrophic incident.

Accredited emergency management organizations are essential to achieving the Goal by validating the ability of jurisdictions to employ their core capabilities. Accreditation based on a national standard ensures critical emergency management functions such as planning, coordination, and communications, including benchmarks for comparative evaluation. The assessment and accreditation process empowers a jurisdiction to understand its emergency management organizations capacity and shortfalls as well as develop a path for improvement. Jurisdictions can then use the results of the assessment and accreditation process to build, sustain, and improve preparedness activities. Tracking improvements to preparedness informs and guides development of State Preparedness Reports that serve as an essential source of information in the National Preparedness Report.

The assessment and accreditation process supported by the Emergency Management Accreditation Program (EMAP) will include review of the following areas within an emergency management organization:

- Emergency Management Program Administration, to include authorities, oversight, and strategic planning
- Emergency Management Finance
- Threat, Hazard, and Risk Identification and Assessment
- Consequence Analysis
- Hazard Mitigation
- Emergency Planning, to include mutual aid
- Incident Management
- Communications and Warning
- Operations and Procedures
- Training and Exercises
- Public Affairs

Program Objectives

Overall Objectives - The Council of State Governments (CSG)/EMAP will accomplish the following:

- Complete state/territory/local/tribal assessments;
- Maintain consensus-based standards;
- Maintain a web-based portal for jurisdiction self-assessments;
- Provide peer-review and feedback on problem areas identified in the self-assessments;
- Provide access to best practices and model plans;
- Provide webinars for training on standards;
- Provide training for assessors;
- Develop additional emergency preparedness and response standards and assessment and accreditation processes if directed; and
- Validate the EMAP process against exercises and real-world events.

The FY 2015 EMBAG is to be awarded as a one year program.

CSG/EMAP will be responsible for the following outcomes:

- Maintaining and updating ANSI- certified emergency management organization standards that are consistent with consensus-based guidance aligned with the National Preparedness System;

- Providing webinars for training on the emergency management organization standards and the accreditation process;
- Implementing a strategy and process to validate assessments against real-world events and exercises; and

Appendix I: Programs Requiring Executive Order 12372 Review

This appendix lists programs requiring Executive Order 12372 review. Executive Order 12372 "Intergovernmental Review of Federal Programs," structures the Federal government's system of consultation with State and local governments on its decisions involving grants, other forms of financial assistance, and direct development. Under E.O. 12372, States, in consultation with their local governments, design their own review processes and select those Federal financial assistance and direct development activities they wish to review.

Since October 1, 1983 most States have acted to establish a review and comment system in response to E.O. 12372. In such cases, applicants for grants will need to meet the requirements of the intergovernmental consultation process established by a particular State and its local governments before Federal agencies take action on an application.

For more information on the process a particular State requires to be followed, an applicant should contact the office or official designated as the single point of contact in his or her State. Consult the individual program description in the Catalog to determine whether the programs under which he/she plans to apply is subject to E.O. 12372. Consult the Federal agency's application package for instructions on State notification.

4. OTHER EXTENSION ACTIVITIES:

(a) Renewable Resources Extension Act

The Renewable Resources Extension Act of 1978 (P.L. 95-306, 92 Stat. 349, 16 U.S.C. 1671 et seq.) provides for an expanded and comprehensive extension program for forest and rangeland renewable resources. The majority of the appropriated funds are distributed to eligible institutions based on a formula that considers the geographic extent, ecosystem productivity, economic contribution, and population for each state.

Since FY 2002, a small amount of these funds have been used to fund National Focus Fund Projects which have served to expand comprehensive extension programs for forest and rangeland renewable resources on a national, regional, or multi-institutional scale through better program coordination, innovative technologies, and extension models that can be easily duplicated.

(b) Rural Health and Safety

The authority for this program is under Section 502 (i) of Title V of the Rural Development Act of 1972, as amended (7 U.S.C. 2662). The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I. The Rural Health and Safety Education Competitive Program addresses the Individual and Family Health Education component of the authorization.

(c) Extension Services at the 1994 Institutions

This program is authorized under Section 534(b) of the Equity in Educational Land-Grant Status Act of 1994 (7 U.S.C. 201 note), as amended by the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) (7 U.S.C. 7601). This section amends Section 3 of the Act of May 8, 1914 (Smith-Lever Act) (7 U.S.C. 341 et seq.), as amended. Under this authority, appropriated funds are to be awarded to the 1994 Land-Grant Institutions (hereinafter referred to as 1994 institutions) for Extension work and funds are to be distributed on the basis of a competitive application process.

(d) Grants to Youth Serving Institutions

Title IV of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7630) authorized the Secretary of Agriculture to make grants to the Girl Scouts of the United States of America (GSUSA), the Boy Scouts of

America (BSA), the National 4-H Council (4-H Council), and the National FFA Organization (FFA). Section 7309 of the Food, Conservation, and Energy Act (FCEA) of 2008 reauthorized 7 U.S.C. 7630, which was also amended to provide additional flexibility in content delivery to each organization receiving funds and to allow recipients to redistribute all or part of the funds to individual councils or local chapters without further need of approval from the Secretary. In FY 2009, Terms and Conditions of these awards should facilitate the redistribution without further need of approval. The Omnibus Appropriations Act, 2009 (Pub. L. 111-8) appropriates funds under Division A, Title I for grants to youth organizations pursuant to 7 U.S.C. 7630.

(e) Food Animal Residue Avoidance Database Program (FARAD)

Title VI Section 604 of the Agricultural Research, Extension, and Education Reform Act of 1998 (7 U.S.C. 7642) states that -The Secretary of Agriculture shall continue operation of the Food Animal Residue Avoidance Database program (referred to in this section as the FARAD program) through contracts, grants, or cooperative agreements with appropriate colleges or universities.

Appendix III: Budget Functional Code Appendix

FINANCIAL INFORMATION

Account Identification - This 11-digit budget code identifies the account from which a program is funded as expressed in the Appendix to the Federal Budget. For identification code 75-0350-0-1-551, the first two digits represent the Federal agency code, and the third through sixth digits identify the appropriation (or fund) basic account symbol assigned by the Treasury Department. Where two or more accounts with different Treasury basic account symbols are included in a consolidated program, 99 will be the third and fourth digits, the fifth digit will be the fund type and the sixth digit will reflect the sequence of consolidated programs for that fund type within the agency. The seventh digit identifies the timing of transmittal of budget estimates:

- 0: Regular budget schedules
- 1: Supplemental appropriation
- 2: Legislative proposal, not subject to PAYGO
- 3: Appropriations language to be transmitted later
- 4: Legislative proposal, subject to PAYGO
- 5: Recission proposal
- 6: Adjustments to 1996 continuing resolution levels

The eighth digit identifies the type of government fund involved:

1: General fund - General Fund Appropriation Accounts - Accounts established to record amounts appropriated by law to be expended for the general support of the Government.

General Fund Receipt Accounts - Accounts credited with all receipts that are not earmarked by law for a specific purpose.

2: Special fund - Special Fund Appropriation Accounts - Accounts established to record appropriated amounts of special fund receipts to be expended for special programs in accordance with specific provisions of law. Special Fund Receipt Accounts - Accounts credited with receipts from specific sources that are earmarked by law for a specific purpose.

3: Public Enterprise Fund Accounts - Funds authorized by Congress to be credited with receipts primarily from the public, that are generated by, and earmarked to finance, a continuing cycle of business-type operations.

4: Intragovernmental Revolving or Management Fund Intragovernmental Fund Accounts - Accounts established to facilitate financing transactions within and between Federal agencies. These funds may be classified as intragovernmental revolving funds or management funds. Intragovernmental Revolving Fund Accounts - Funds authorized by law to carry out a cycle of intragovernmental business-type operations. These funds are credited with offsetting collections from other agencies and accounts.

7: Trust Fund (non-revolving) - Trust funds are established to account for the receipt and expenditure of monies by the Government for carrying out specific purposes and programs in accordance with the terms of a statute that designates the fund as a trust fund (such as the Highway Trust Fund) or for carrying out the stipulations of a trust agreement (such as any of several trust funds for gifts and donations for specific purposes). In a trust non-revolving fund, the receipts designated for the trust fund are in a separate account.

8: Trust Fund (revolving) - In a trust revolving fund, the fund is credited with collections earmarked by law to carry out a cycle of business-type operations.

9: For use when account consolidations cross fund types. The last three digits represent the functional classification (code) used in the latest Federal Budget document, unless noted otherwise by the Office of Management and Budget. In cases where a program is split between two or more subfunctions: (a) if all subfunctions are in the same major function, the code is the same as for the major function; or (b) if two or more major functions are involved the digits '999' are used. (Example: 75-1361-0-1-550)

Listed below are major functions and subfunctions as used in the budget document to show allocations of budget authority and outlays according to end purposes without regard to agency jurisdiction. The central nature of each major function is identified and defined. Catalog programs are listed following each applicable subfunction (or major function). Note that some subfunctions are not applicable to Catalog programs.

The alphabet(s) in parentheses following the program title, shows the type(s) of assistance available through that program. The alphabet codes with accompanying types of assistance are as follows:

- A: Formula Grants
- B: Project Grants
- C: Direct Payments for Specified Use
- D: Direct Payments with Unrestricted Use
- E: Direct Loans
- F: Guaranteed/Insured Loans
- G: Insurance
- H: Sale, Exchange, or Donation of Property and Goods
- I: Use of Property, Facilities, and Equipment
- J: Provision of Specialized Services
- K: Advisory Services and Counseling
- L: Dissemination of Technical Information
- M: Training
- N: Investigation of Complaints
- O: Federal Employment

This function includes all programs with the primary aim of providing for the transportation of the general public and/or their property, regardless of whether local or national and regardless of the particular mode of transportation. It includes the construction of facilities; purchase of equipment; research, testing, and evaluation; provision of communications directly related to transportation (for example, air traffic control by the FAA); and operating subsidies for transportation facilities (such as mass transit) and industries (such as railroads). Also excluded from transportation are research and technology activities devoted to space research, except for aeronautical technology, even though this research may eventually redound to the advantage of general transportation.

It includes grants and loans for water supply and sewer systems (except those specifically funded as environmental protection programs), urban community and economic development programs, regional economic development programs, broad-based public facility construction programs, and relief and rehabilitation of private and public facilities in the event of natural disasters. Aids to businesses such as loans, loan guarantees, and subsidies are not normally included in this function unless such aids are a means of economic development to aid restricted (generally depressed) areas and are not designed to promote particular lines of business for their own sake. Transportation facilities developed as an integral part of a community development (rather than transportation) program are also included

in this function. As a normal rule, human development and services programs are excluded from this function (and included in the education, training, employment, and social services function). This function is confined to development of physical facilities or financial infrastructures designed to promote viable community economies.

(700) VETERANS BENEFITS AND SERVICES

It includes veterans service-connected compensation; veterans non-service connected pensions; and veterans readjustment benefits, housing, and medical care programs. As a normal rule, the outlays in this function are similar to those in the broader general purpose functions (such as income security or health) but are restricted to veterans, their dependents, and their survivors. Earned rights of career military personnel that are a cost of the defense budget (such as military retired pay or medical care) are excluded from this function. This function excludes the costs of the legislative branch, the narrow-purpose police or guard activities providing protection to Federal property, or activities which are an integral part of a broader function (such as postal inspectors, tax collection agents, and Park Service Rangers). APPENDIX V: SOURCES OF ADDITIONAL INFORMATION

Additional information concerning Federal programs and services is available from the sources listed below. The information in this Appendix is in addition to that supplied in Appendix IV (Regional and Local Office Addresses) however; they are not the offices to which an applicant applies for an assistance program. If a potential applicant or information seeker is not certain which agency to contact, there are two types of organizations set up to help: The Federal Information Center Program and the Federal Executive Boards.

FEDERAL CITIZEN INFORMATION CENTER PROGRAM

The Federal Citizen Information Center Program (FCIC) is a focal point for information about the Federal government. The FCIC assists people who have questions about Federal agencies, services, and programs, but do not know where to turn for an answer. FCIC information specialists either answer an inquirer's question directly, or perform the necessary research to locate and refer the inquirer to the expert best able to help. Telephone users may call the FCIC toll-free on (800) 688-9889 workdays between 9 a.m. and 8 p.m., Eastern Time. TTY users may call toll-free to the FCIC from anywhere in the U.S. by dialing (800) 326-2996.

FEDERAL EXECUTIVE BOARDS

Federal Executive Boards (FEBs) are composed of heads of Federal field offices in the metropolitan area. The FEBs were established to improve internal Federal management practices, provide a central focus for Federal participation in civic affairs in major metropolitan centers of Federal activity, serve as a means for disseminating information within the Federal government and for promoting discussion of Federal policies and activities of importance to all Federal executives in the field. The FEBs carry out their functions under the supervision of the Office of Personnel Management (OPM). Federal Executive Associations, and Councils, have been locally organized in over 80 other metropolitan areas to perform functions similar to the Federal Executive Boards but on a lesser scale of organization and activity. For further information, contact the Assistant for Field Operations, Office of Personnel Management, Room 5524, 1900 E Street, NW., Washington, DC 20415-0001. Telephone: (202) 6061001.

REFERENCE SOURCES

The Budget of the United States Government

The Budget of the United States Government sets forth the President's comprehensive financial plan and indicates the President's priorities for the Federal government.

Information on programs by function, agency, and account, and detailed budget estimates is located in the Budget. Federal programs listed in the Catalog may be identified by the 11-digit budget account identification code listed in the Budget. These codes also appear in the Financial Information section of each Catalog program. A complete explanation of the identification code is provided in Appendix III of the Catalog (the Budget Functional Code Appendix). The Budget may be purchased from the Government Printing Office in the Washington, DC area and the U.S. Government bookstores listed in this Appendix.

The Code of Federal Regulations

The Code of Federal Regulations (CFR) is a codification of the general and permanent rules published in the Federal Register by executive departments and agencies of the Federal government. It includes all statutory regulations of Federal agencies, and is divided into 50 titles, which represent broad subject areas of Federal regulations (e.g., Housing and Urban Development, Public Health, Public Welfare, or Transportation). Each title is divided into chapters, which usually bear the name of the issuing agency. Each chapter is further subdivided into parts covering specific regulatory areas. The number preceding the CFR citation is the title or volume number. The CFR is kept up-to-date by the individual issues of the Federal Register; these two publications must be used together to determine the latest version of any given rule. Individual volumes of the CFR are revised at least once each calendar year and issued on a staggered quarterly basis. The CFR thus serves as a convenient reference for the citizen desiring a comprehensive source for general and permanent Federal regulations.

A General index to the entire Code of Federal Regulations, the CFR Index, is revised as of July 1 each year. The numerical Finding Aids, a cumulative list of CFR Sections affected is published monthly and is cumulated for 12 months, keyed to the revision dates of the various CFR volumes.

The Code of Federal Regulations is available in Federal depository libraries and most major libraries or Federal bookstores. Individual copies may be purchased from the Government Printing Office.

The Federal Register

The Federal Register, published daily, is the medium for making available to the public Federal agency regulations and other legal documents of the Executive Branch. These documents cover a wide range of government activities. Here, government requirements are published which involve environmental protection, consumer product safety, food and drug standards, occupational health and safety, and many more areas of concern to the public.

The Federal Register includes proposed changes in regulated areas. Each proposed change published carries an invitation for any citizen or group to participate in the consideration of the proposed regulation through the submission of written data, views, or arguments, and sometimes by oral presentations. Through the publication of proposed rules and notices of public meetings, citizens are given the opportunity to be informed about and participate in the workings of their government.

The Federal Register is also a vehicle for the announcement of newly authorized and/or funded programs, notifications of funding availability, (NOFAs), program application deadlines, and other important program information. The Federal Register Index is based on a consolidation of entries appearing in the issues of the Federal Register together with broad references. It is published monthly and is cumulative for 12 months. The Federal Register and the Federal Register Index are available in Federal depository libraries and most major libraries or Federal bookstores. Additional Federal Register resources include, the Statistical Abstract of the United States; Weekly Compilation of Presidential Documents; The Federal Register: What It Is and How To Use It. All Federal Register publications may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402.

APPENDIX VI: DEVELOPING AND WRITING GRANT PROPOSALS

PART ONE: DEVELOPING A GRANT PROPOSAL

Preparation

A successful grant proposal is one that is well-prepared, thoughtfully planned, and concisely packaged. The potential applicant should become familiar with all of the pertinent program criteria related to the Catalog program from which assistance is sought. Refer to the information contact person listed in the Catalog program description before developing a proposal to obtain information such as whether funding is available, when applicable deadlines occur, and the process used by the grantor agency for accepting applications. Applicants should remember that the basic requirements, application forms, information and procedures vary with the Federal agency making the grant award. Individuals without prior grant proposal writing experience may find it useful to attend a grantsmanship workshop. A workshop can amplify the basic information presented here. Applicants interested in additional readings on grantsmanship and proposal development should consult the references listed at the end of this section and explore other library resources.

INITIAL PROPOSAL DEVELOPMENT

Developing Ideas for the Proposal

When developing an idea for a proposal it is important to determine if the idea has been considered in the applicant's locality or State. A careful check should be made with legislators and area government agencies and related public and private agencies which may currently have grant awards or contracts to do similar work. If a similar program already exists, the applicant may need to reconsider submitting the proposed project, particularly if duplication of effort is perceived. If significant differences or improvements in the proposed project's goals can be clearly established, it may be worthwhile to pursue Federal assistance.

Community Support

Community support for most proposals is essential. Once proposal summary is developed, look for individuals or groups representing academic, political, professional, and lay organizations which may be willing to support the proposal in writing. The type and caliber of community support is critical in the initial and subsequent review phases. Numerous letters of support can be persuasive to a grantor agency. Do not overlook support from local government agencies and public officials. Letters of endorsement detailing exact areas of project sanction and commitment are often requested as part of a proposal to a Federal agency. Several months may be required to develop letters of endorsement since something of value (e.g., buildings, staff, services) is sometimes negotiated between the parties involved.

Many agencies require, in writing, affiliation agreements (a mutual agreement to share services between agencies) and building space commitments prior to either grant approval or award. A useful method of generating community support may be to hold meetings with the top decision makers in the community who would be concerned with the subject matter of the proposal. The forum for discussion may include a query into the merits of the proposal, development of a contract of support for the proposal, to generate data in support of the proposal, or development of a strategy to create proposal support from a large number of community groups.

Identification of a Funding Resource

A review of the Objectives and Uses and Use Restrictions sections of the Catalog program description can point out which programs might provide funding for an idea. Do not overlook the related programs as potential resources. Both the applicant and the grantor agency should have the same interests, intentions, and needs if a proposal is to be considered an acceptable candidate for funding.

Once a potential grantor agency is identified, call the contact telephone number identified in Information Contacts and ask for a grant application kit. Later, get to know some of the grantor agency personnel. Ask for suggestions, criticisms, and advice about the proposed project. In many cases, the more agency personnel know about the proposal, the better the chance of support and of an eventual favorable decision. Sometimes it is useful to send the proposal summary to a specific agency official in a separate cover letter, and ask for review and comment at the earliest possible convenience. Always check with the Federal agency to determine its preference if this approach is under consideration. If the review is unfavorable and differences cannot be resolved, ask the examining agency (official) to suggest another department or agency which may be interested in the proposal. A personal visit to the agency's regional office or headquarters is also important. A visit not only establishes face-to-face contact, but also may bring out some essential details about the proposal or help secure literature and references from the agency's library.

Federal agencies are required to report funding information as funds are approved, increased or decreased among projects within a given State depending on the type of required reporting. Also, consider reviewing the Federal Budget for the current and budget fiscal years to determine proposed dollar amounts for particular budget functions.

The applicant should carefully study the eligibility requirements for each Federal program under consideration (see the Applicant Eligibility section of the Catalog program description). The applicant may learn that he or she is required to provide services otherwise unintended such as a service to particular client groups, or involvement of specific institutions. It may necessitate the modification of the original concept in order for the project to be eligible for funding. Questions about eligibility should be discussed with the appropriate program officer.

Deadlines for submitting applications are often not negotiable. They are usually associated with strict timetables for agency review. Some programs have more than one application deadline during the fiscal year. Applicants should plan proposal development around the established deadlines.

Getting Organized to Write the Proposal

Throughout the proposal writing stage keep a notebook handy to write down ideas. Periodically, try to connect ideas by reviewing the notebook. Never throw away written ideas during the grant writing stage. Maintain a file labeled "Ideas" or by some other convenient title and review the ideas from time to time. The file should be easily accessible. The gathering of documents such as articles of incorporation, tax exemption certificates, and bylaws should be completed, if possible, before the writing begins.

REVIEW

Criticism

At some point, perhaps after the first or second draft is completed, seek out a neutral third party to review the proposal working draft for continuity, clarity and reasoning. Ask for constructive criticism at this point, rather than wait for the Federal grantor agency to volunteer this information during the review cycle. For example, has the writer made unsupported assumptions or used jargon or excessive language in the proposal?

Signature

Most proposals are made to institutions rather than individuals. Often signatures of chief administrative officials are required. Check to make sure they are included in the proposal where appropriate.

Neatness

Proposals should be typed, collated, copied, and packaged correctly and neatly (according to agency instructions, if any). Each package should be inspected to ensure uniformity from cover to cover. Binding may require either clamps or

hard covers. Check with the Federal agency to determine its preference. A neat, organized, and attractive proposal package can leave a positive impression with the reader about the proposal contents.

Mailing

A cover letter should always accompany a proposal. Standard U.S. Postal Service requirements apply unless otherwise indicated by the Federal agency. Make sure there is enough time for the proposals to reach their destinations. Otherwise, special arrangements may be necessary. Always coordinate such arrangements with the Federal grantor agency project office (the agency which will ultimately have the responsibility for the project), the grant office (the agency which will coordinate the grant review), and the contract office (the agency responsible for disbursement and grant award notices), if necessary.

PART TWO: WRITING THE GRANT PROPOSAL

The Basic Components of a Proposal

There are eight basic components to creating a solid proposal package: (1) the proposal summary; (2) introduction of organization; (3) the problem statement (or needs assessment); (4) project objectives; (5) project methods or design; (6) project evaluation; (7) future funding; and (8) the project budget. The following will provide an overview of these components.

The Proposal Summary: Outline of Project Goals

The proposal summary outlines the proposed project and should appear at the beginning of the proposal. It could be in the form of a cover letter or a separate page, but should definitely be brief --no longer than two or three paragraphs. The summary would be most useful if it were prepared after the proposal has been developed in order to encompass all the key summary points necessary to communicate the objectives of the project. It is this document that becomes the cornerstone of your proposal, and the initial impression it gives will be critical to the success of your venture. In many cases, the summary will be the first part of the proposal package seen by agency officials and very possibly could be the only part of the package that is carefully reviewed before the decision is made to consider the project any further.

The applicant must select a fundable project which can be supported in view of the local need. Alternatives, in the absence of Federal support, should be pointed out. The influence of the project both during and after the project period should be explained. The consequences of the project as a result of funding should be highlighted.

Introduction: Presenting a Credible Applicant or Organization

The applicant should gather data about its organization from all available sources. Most proposals require a description of an applicant's organization to describe its past and present operations. Some features to consider are:

- A brief biography of board members and key staff members.
- The organization's goals, philosophy, track record with other grantors, and any success stories.
- The data should be relevant to the goals of the Federal grantor agency and should establish the applicant's credibility.

The Problem Statement: Stating the Purpose at Hand

The problem statement (or needs assessment) is a key element of a proposal that makes a clear, concise, and well-supported statement of the problem to be addressed. The best way to collect information about the problem is to conduct and document both a formal and informal needs assessment for a program in the target or service area. The information provided should be both factual and directly related to the problem addressed by the proposal. Areas to document are:

- The purpose for developing the proposal.
- The beneficiaries -- who are they and how will they benefit.
- The social and economic costs to be affected.
- The nature of the problem (provide as much hard evidence as possible).

- How the applicant organization came to realize the problem exists, and what is currently being done about the problem.
- The remaining alternatives available when funding has been exhausted. Explain what will happen to the project and the impending implications.
- Most importantly, the specific manner through which problems might be solved. Review the resources needed, considering how they will be used and to what end.

There is a considerable body of literature on the exact assessment techniques to be used. Any local, regional, or State government planning office, or local university offering course work in planning and evaluation techniques should be able to provide excellent background references. Types of data that may be collected include: historical, geographic, quantitative, factual, statistical, and philosophical information, as well as studies completed by colleges, and literature searches from public or university libraries. Local colleges or universities which have a department or section related to the proposal topic may help determine if there is interest in developing a student or faculty project to conduct a needs assessment. It may be helpful to include examples of the findings for highlighting in the proposal.

Project Objectives: Goals and Desired Outcome

Program objectives refer to specific activities in a proposal. It is necessary to identify all objectives related to the goals to be reached, and the methods to be employed to achieve the stated objectives. Consider quantities or things measurable and refer to a problem statement and the outcome of proposed activities when developing a well-stated objective. The figures used should be verifiable. Remember, if the proposal is funded, the stated objectives will probably be used to evaluate program progress, so be realistic. There is literature available to help identify and write program objectives.

Program Methods and Program Design: A Plan of Action

The program design refers to how the project is expected to work and solve the stated problem. Sketch out the following:

- The activities to occur along with the related resources and staff needed to operate the project (inputs).
- A flow chart of the organizational features of the project. Describe how the parts interrelate, where personnel will be needed, and what they are expected to do. Identify the kinds of facilities, transportation, and support services required (throughputs).
- Explain what will be achieved through 1 and 2 above (outputs); i.e., plan for measurable results. Project staff may be required to produce evidence of program performance through an examination of stated objectives during either a site visit by the Federal grantor agency and or grant reviews which may involve peer review committees.
- It may be useful to devise a diagram of the program design. For example, draw a three column block. Each column is headed by one of the parts (inputs, throughputs and outputs), and on the left (next to the first column) specific program features should be identified (i.e., implementation, staffing, procurement, and systems development). In the grid, specify something about the program design, for example, assume the first column is labeled inputs and the first row is labeled staff. On the grid one might specify under inputs five nurses to operate a child care unit. The throughput might be to maintain charts, counsel the children, and set up a daily routine; outputs might be to discharge 25 healthy children per week. This type of procedure will help to conceptualize both the scope and detail of the project.
- Wherever possible, justify in the narrative the course of action taken. The most economical method should be used that does not compromise or sacrifice project quality. The financial expenses associated with performance of the project will later become points of negotiation with the Federal program staff. If everything is not carefully justified in writing in the proposal, after negotiation with the Federal grantor agencies, the approved project may resemble less of the original concept. Carefully consider the pressures of the proposed implementation, that is, the time and money needed to acquire each part of the plan. A Program Evaluation and Review Technique (PERT) chart could be useful and supportive in justifying some proposals.
- Highlight the innovative features of the proposal which could be considered distinct from other proposals under consideration.

- Whenever possible, use appendices to provide details, supplementary data, references, and information requiring in-depth analysis. These types of data, although supportive of the proposal, if included in the body of the design, could detract from its readability. Appendices provide the proposal reader with immediate access to details if and when clarification of an idea, sequence or conclusion is required. Time tables, work plans, schedules, activities, methodologies, legal papers, personal vitae, letters of support, and endorsements are examples of appendices.

Evaluation: Product and Process Analysis

The evaluation component is two-fold: (1) product evaluation; and (2) process evaluation. Product evaluation addresses results that can be attributed to the project, as well as the extent to which the project has satisfied its desired objectives. Process evaluation addresses how the project was conducted, in terms of consistency with the stated plan of action and the effectiveness of the various activities within the plan.

Most Federal agencies now require some form of program evaluation among grantees. The requirements of the proposed project should be explored carefully. Evaluations may be conducted by an internal staff member, an evaluation firm or both. The applicant should state the amount of time needed to evaluate, how the feedback will be distributed among the proposed staff, and a schedule for review and comment for this type of communication. Evaluation designs may start at the beginning, middle or end of a project, but the applicant should specify a start-up time. It is practical to submit an evaluation design at the start of a project for two reasons:

- Convincing evaluations require the collection of appropriate data before and during program operations; and,
- If the evaluation design cannot be prepared at the outset then a critical review of the program design may be advisable.

Even if the evaluation design has to be revised as the project progresses, it is much easier and cheaper to modify a good design. If the problem is not well defined and carefully analyzed for cause and effect relationships then a good evaluation design may be difficult to achieve. Sometimes a pilot study is needed to begin the identification of facts and relationships. Often a thorough literature search may be sufficient.

Evaluation requires both coordination and agreement among program decision makers (if known). Above all, the Federal grantor agency's requirements should be highlighted in the evaluation design. Also, Federal grantor agencies may require specific evaluation techniques such as designated data formats (an existing information collection system) or they may offer financial inducements for voluntary participation in a national evaluation study. The applicant should ask specifically about these points. Also, consult the Criteria For Selecting Proposals section of the Catalog program description to determine the exact evaluation methods to be required for the program if funded.

Future Funding: Long-Term Project Planning

Describe a plan for continuation beyond the grant period, and/or the availability of other resources necessary to implement the grant. Discuss maintenance and future program funding if program is for construction activity. Account for other needed expenditures if program includes purchase of equipment.

The Proposal Budget: Planning the Budget

Funding levels in Federal assistance programs change yearly. It is useful to review the appropriations over the past several years to try to project future funding levels (see Financial Information section of the Catalog program description).

However, it is safer to never anticipate that the income from the grant will be the sole support for the project. This consideration should be given to the overall budget requirements, and in particular, to budget line items most subject to inflationary pressures. Restraint is important in determining inflationary cost projections (avoid padding budget line items), but attempt to anticipate possible future increases.

Some vulnerable budget areas are: utilities, rental of buildings and equipment, salary increases, food, telephones, insurance, and transportation. Budget adjustments are sometimes made after the grant award, but this can be a lengthy process. Be certain that implementation, continuation and phase-down costs can be met. Consider costs associated with leases, evaluation systems, hard/soft match requirements, audits, development, implementation and maintenance of information and accounting systems, and other long-term financial commitments.

A well-prepared budget justifies all expenses and is consistent with the proposal narrative. Some areas in need of an evaluation for consistency are: (1) the salaries in the proposal in relation to those of the applicant organization should be similar; (2) if new staff persons are being hired, additional space and equipment should be considered, as necessary; (3) if the budget calls for an equipment purchase, it should be the type allowed by the grantor agency; (4) if additional space is rented, the increase in insurance should be supported; (5) if an indirect cost rate applies to the proposal, the division between direct and indirect costs should not be in conflict, and the aggregate budget totals should refer directly to the approved formula; and (6) if matching costs are required, the contributions to the matching fund should be taken out of the budget unless otherwise specified in the application instructions.

It is very important to become familiar with Government-wide circular requirements. The Catalog identifies in the program description section (as information is provided from the agencies) the particular circulars applicable to a Federal program, and summarizes coordination of Executive Order 12372, "Intergovernmental Review of Programs" requirements in Appendix I. The applicant should thoroughly review the appropriate circulars since they are essential in determining items such as cost principles and conforming with Government guidelines for Federal domestic assistance.

Appendix VII: Historical Profile of Catalog Programs

The following list shows all programs printed in the Catalog of Federal Domestic Assistance beginning with the 1965 edition and the subsequent action taken related to that program. For the years 1965, 1967, and 1969 the programs did not have numbers. They were identified only by their titles. Therefore, the first part of each agency listing shows programs by their title if they were in existence before 1970. The program numbering system was instituted in 1970. The first line shows the number and title of the program when it was added to the Catalog. The second and subsequent lines show the year the program was added and any additional transactions, e.g., title changes, transfers, deletes, consolidations, agency reorganizations, number changes, etc., that may have followed. The alphabet B or U that follows a given year, indicates the transaction was made either in the basic (B) or the update (U) publication of the Catalog. In some instances, there is also a U1 and U2 behind the year. The U1 and U2 are the first and second updates respectively, published that year.
