Preapplication coordination with the appropriate office is encouraged. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Completed applications should be submitted to the appropriate EPA Regional Office contact. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Applications are evaluated by the appropriate EPA office and are subject to review for technical merit, soundness of design, and reasonableness of proposed costs. Approved projects are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within five months of receipt of a complete application.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: CWPPRA projects require a 15 percent match of the State or local government of which 5% must be submitted in cash to the U.S. Army Corps of Engineers, New Orleans District. These funds are put in an escrow account for the project. Colleges or Universities awarded a grant in support of a CWPPRA project require a 5% match.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: Assistance disbursement will be determined at the time of award.

Reports:

No program reports are required. The recipient will be required to submit quarterly cash reports to the EPA Project Officer. The recipient will be required to submit quarterly progress reports to the EPA Project Officer. The recipient will be required to submit quarterly expenditure reports to the EPA Project Officer. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the

provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$2,560,119; FY 15 est \$362,801; and FY 16 Estimate Not Available - R6 made one award in January of 2014 in the amount of \$2,560,119. Estimated for FY 2015 - \$362,801 for one Phase I award to the State. The FY16 estimated obligation is two Phase I awards for a total of \$4.6M and two Phase II awards for a total of \$14.8M.

Range and Average of Financial Assistance:

\$100,000 to \$30,000,000. If a Phase I (E&D) project is selected for funding, the estimated amount could be from \$1-\$6 million. If it is a Phase II (construction) project, the estimate could be up to \$30 million.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: EPA awarded one cooperative agreement to the State during FY 2014, in the amount of \$2,560,119 for the Phase I Caminada Headlines Back Barrier Marsh Creation project. Also, Phase I of the Bayou Dupont III was completed. Phase II was approved in June and most likely will be awarded in October 2015. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Region 6 awarded one project in FY 14 for Phase I engineering and design of the Caminada Back Barrier Marsh Creation Project. The award amount was \$2,560,119. Fiscal Year 2015: Region 6 anticipates awarding one Phase I cooperative agreement to the State during FY 15 in the amount of \$362,213. This award is the for the State's participation in the engineering and design documents prepared by the COE, for the Shell Beach South Marsh Creation project. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

CWPPRA projects to be funded are selected through an annual, publicly-vetted process and ultimately approved by a multi-agency Task Force.

66.125 LAKE PONTCHARTRAIN BASIN RESTORATION PROGRAM (PRP)

FEDERAL AGENCY:

Region 6, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 121; Lake Pontchartrain Basin Restoration Act of 2000.

OBJECTIVES:

The purpose of the program shall be to restore the ecological health of the Basin by developing and funding restoration projects and related scientific and public education projects.

Funding Priority - Fiscal Year 2014: The program will continue to work to restore the ecological health of the Lake Pontchartrain Basin. In FY 2014, EPA will invest funds awarded for the Lake Pontchartrain Basin Program for the following activities:

- o Completing plans and studies as identified in the Lake Pontchartrain Basin Program Comprehensive Management Plan (LPBCMP) which supports the following goals:
 - Planning and design of consolidated wastewater treatment systems which support the Agency's Sustainable Infrastructure goal;
 - Repair and replacement studies to improve existing wastewater systems; and
 - Investigation and design of storm water management systems.
- o Conducting outreach and public education projects that address the goals of the LPBCMP, such as:
 - Improving the management of animal waste lagoons by educating and assisting the agricultural community on lagoon maintenance techniques;
 - Protecting and restoring critical habitats and encouraging sustainable growth by providing information and guidance on habitat protection and green development techniques; and
 - Reducing pollution at its source

Funding Priority - Fiscal Year 2015: The program will continue to work to restore the ecological health of the Lake Pontchartrain Basin. In FY 2013, EPA will invest funds awarded for the Lake Pontchartrain Basin Program for the following activities:

- Completing plans and studies as identified in the Lake Pontchartrain Basin Program Comprehensive Management Plan (LPBCMP) which supports the following goals:
 - Planning and design of consolidated wastewater treatment systems which support the Agency's Sustainable Infrastructure goal;
 - Repair and replacement studies to improve existing wastewater systems; and
 - Investigation and design of storm water management systems.
- Conducting outreach and public education projects that address the goals of the LPBCMP, such as:
 - Improving the management of animal waste lagoons by educating and assisting the agricultural community on lagoon maintenance techniques;
 - Protecting and restoring critical habitats and encouraging sustainable growth by providing information and guidance on habitat protection and green development techniques; and
 - Reducing pollution at its source

Funding Priority - Fiscal Year 2015: The program will continue to work to restore the ecological health of the Lake Pontchartrain Basin. In FY 2015, EPA will invest funds awarded for the Lake Pontchartrain Basin Program for the following activities:

o Completing plans and studies as identified in the Lake Pontchartrain Basin Program Comprehensive Management Plan (LPBCMP) which supports the following goals:

- Planning and design of consolidated wastewater treatment systems which support the Agency's Sustainable Infrastructure goal;

- Repair and replacement studies to improve existing wastewater systems; and

- Investigation and design of storm water management systems.

o Conducting outreach and public education projects that address the goals of the LPBCMP, such as:

- Improving the management of animal waste lagoons by educating and assisting the agricultural community on lagoon maintenance techniques;

- Protecting and restoring critical habitats and encouraging sustainable growth by providing information and guidance on habitat protection and green development techniques; and

- Reducing pollution at its source.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Administrator may make grants (1) for restoration projects and studies recommended by a management conference convened for the basin under section 320, and (2) for public education projects recommended by the management conference.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Select the eligible applicants and enter additional information on applicant eligibility into the text box below.

Local (includes State-designated Indian Tribes, excludes institutions of higher education and hospitals)

The grants for this program are awarded to the Management Conference, also known as the PRP, for restoration projects, studies and public education projects. Eligible sub-grantees for this program include the Parishes and Cities within the 16 parish area of the Lake Pontchartrain Basin Watershed and the Lake Pontchartrain Basin Foundation.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Eligible applicants for assistance include the Parishes and Cities within the Lake Pontchartrain Basin Watershed and the Lake Pontchartrain Basin Foundation.

Credentials/Documentation:

Costs will be determined in accordance 2 CFR 200 Subpart E for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program." must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit

Requirements for Federal Awards applies to this program. Completed applications should be submitted to the appropriate EPA Regional Office contact. Applicants are required to use <http://www.grants.gov> to electronically apply for grant opportunities under this CFDA.

Award Procedure:

Applications are evaluated by the appropriate EPA office and are subject to review for technical merit, soundness of design, and reasonableness of proposed costs. Approved projects are awarded by the Regional Administrator.

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are awarded within two months of receipt of a complete application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 5%. Regional policy requires a 5% match. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: Assistance disbursement will be determined at the time of award.

Reports:

Program report information is included in the semi-annual reports submitted to the Region 6 Project Officer. No cash reports are required. The recipient will be required to submit semi-annual progress reports to the EPA Region 6 Project Officer. The recipient will include expenditure reports in the semi-annual reports submitted to the EPA Region 6 Project Officer. Progress reports are submitted semi-annually and yearly program-grant reviews are conducted by EPA Region 6 for the program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$948,000; FY 15 est \$948,000; and FY 16 Estimate Not Available - Federal Funds awarded for the following Fiscal Years (FY): FY 2012 - \$1,912,000; FY 2013 - \$1,775,500; FY 2014 - \$948,000. The funds allocated for FY 2015 are \$948,000.

Range and Average of Financial Assistance:

The range of funding for the projects for FY 2012 is \$54,150 to \$590,000. The average including all twelve (12) projects is \$159,333. In FY 2013 ten (10) projects were awarded ranging from \$31,000 to \$799,500. FY 2014 funded fifteen (15) projects ranging from \$20,000 to \$335,080. For 2015, sixteen (16) projects have been recommended ranging from \$22,000 to \$246,080.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Fourteen (14) projects were funded with FY 2014 funds including the following:

Municipal Separate Storm Sewer System Program Update and Development; Grand Point Sewer Lines; Sanitary Sewer Evaluation System; River Road Wastewater Treatment Plant Effluent Force Main; N. Hullen and Veterans Forcemain Extension/Edenborn and Veterans with lift station; Evaluate Solutions to Inflow & Infiltration's(I&I) Negative Impact on Sewerage Treatment Plant Effluent Quality; Evaluation, and Design of Sewer Expansion within Newly Annexed Area; Sewer District #1 & #2 Wetlands Assimilation Study and Preliminary Design for a Wastewater Treatment Plant; Dairy Pond Cleaning for Big Creek Watershed and Tangipahoa Parish Landfill Septage Receiving Station; St. Rose Sewer Network Upgrade; Tchefuncte Marsh Assimilation Wetland Pipeline Extension; Sanitary Sewerage Improvement Program; and Ecosystem Restoration and Preservation System. Fiscal Year 2015: For 2015, sixteen (16) projects have been recommended ranging from \$22,000 to \$246,080. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

RELATED PROGRAMS:

66.437 Long Island Sound Program ; 66.456 National Estuary Program; 66.475 Gulf of Mexico Program; 66.481 Lake Champlain Basin Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Fifteen projects were funded with FY 2014 funds which include:

Municipal Separate Storm Sewer System Program Update and Development; Grand Point Sewer Lines; Sanitary Sewer Evaluation System; River Road Wastewater Treatment Plant Effluent Force Main; Force Main Extension and lift station; Evaluate Solutions to Inflow & Infiltration's(I&I) Negative Impact on Sewerage Treatment Plant Effluent Quality; Evaluation, and Design of

Sewer Expansion within Newly Annexed Area; Wetlands Assimilation Study and Preliminary Design for a Wastewater Treatment Plant; Dairy Pond Cleaning for Big Creek Watershed and Parish Landfill Septage Receiving Station; Sewer Network Upgrade; Tchfuncte Marsh Assimilation Wetland Pipeline Extension; Sanitary Sewerage Improvement Program; Ecosystem Restoration and Preservation System; and management of the grant. Fiscal Year 2015: Sixteen (16) projects have been selected for funding with FY 2015 funds. The projects include: Planning for Sewer Lines - Phase II; Plans and Design for Lift Station Rehabilitation; Sanitary Sewer Evaluation for inflow & infiltration and development of plans and specifications; Emergency Power for Main 2 Lift Stations; Green Infrastructure/Low Impact Development Program; Effluent Pump Station Control Panel, Level Controls, Processor and SCADA Replacement; Sanitary Sewer Study and Project Design for the a city; Ecosystem Restoration and Preservation Program; Prepare Guidance on Industrial and High Risk Facility Inspection for Stormwater Pollution Prevention; Tchfuncte River Lighthouse Habitat Restoration and Shoreline Protection for Education Outreach (Phase II Pier); Extension of existing sewerage collection system; Close out the two existing sewage treatment lagoons, convert the north one to commercial real estate and the south one to a cypress-tupelo swamp recreation area; Preliminary financing and design for an additional sewage treatment plant adjacent to the existing plant; Bucktown Harbor Boardwalk and Marsh Overlook; Pollution Source Tracking for Water Quality in the Bayou Liberty Watershed; And Sewer Pump Station Bypass Valve Retrofit. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

PRP projects to be funded are selected through an annual, publicly-vetted process with the selection of projects made by the PRP Executive committee and ultimately approved by an internal regional EPA review.

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.126 THE SAN FRANCISCO BAY WATER QUALITY IMPROVEMENT FUND

SF Bay Grant Program

FEDERAL AGENCY:

Region 9, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 320, 33 U.S.C 1330.

OBJECTIVES:

The goals of the SF Bay grant program are to protect and restore the water quality and aquatic habitat of the San Francisco Bay and its watersheds. Funded projects will reduce polluted run-off, restore impaired waters and enhance aquatic habitat. Achieving significant environmental results relating to water quality improvements and aquatic habitat enhancements is an overall program priority.

Funding Priority - Fiscal Year 2014: Funding priorities for FY14 were the same as FY13: to protect and restore the water quality of the San Francisco Bay and its watersheds.

Funding Priority - Fiscal Year 2015: Funding Priorities for FY15 were the same as FY14 & FY13: to protect and restore the water quality of the San Francisco Bay and its watersheds.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Projects must demonstrate consistency with the San Francisco Estuary Partnership's Comprehensive Conservation and Management Plan (CCMP).

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or

government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State, local government agencies, districts, and councils; regional water pollution control agencies and entities; State coastal zone management agencies; and public and private universities and colleges, public or private non-governmental, non-profit institutions are eligible to apply, unless restricted by the authorizing statutes. Non-profit organizations must have documentation of non-profit status from the U.S. Internal Revenue Service or their state of incorporation, except that non-profits organizations as defined in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying as defined in Section 3 of the Lobbying Disclosure Act of 1995 or superseding legislation are ineligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The outcomes from the SF Bay grant program will ultimately benefit the urban resident and business populations of nine county San Francisco Bay Area, as well as the State of California in general.

Credentials/Documentation:

Non-profit organizations must have documentation of non-profit status from the U.S. Internal Revenue Service or their state of incorporation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

The Environmental Programs and Management appropriation account for the SF Bay grant program has historically required the grants be awarded on a competitive basis (a modification of the Clean Water Section 320 grant requirements). For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days from receipt of final application, through selection and notification, and development and approval of work plan, to award of funds.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also

be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: In FY13, the SF Bay Fund RFP began requiring the CWA Section 320 match requirement of 50%.

For future appropriations, the CWA section 320 match of 50% stands unless modified by appropriations act language.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements generally fund projects for 4 years with a maximum project period of seven years. Funds are issued electronically through automated funds transfer. Method of awarding/releasing assistance: lump sum. See the following for information on how assistance is awarded/released: Funds are issued electronically through automated funds transfer. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Progress reports are required under this program. Reporting frequency may be specified in the terms and conditions of the award. EPA may include reporting requirements in the terms and conditions of the assistance agreements, which may require quarterly, semi-annual, interim, and final performance reports, and financial, equipment, and inventory reports. Quarterly and/or semi-annual progress reports are expected to be required for large-scale projects of long duration sought by this grant fund. The Federal Financial Status Reports must be submitted to EPA in accordance with 40 CFR Part 30 and 31, and terms and conditions of the award. Expenditure Reports by the grantee are required to submit for reimbursement. Performance monitoring will be required in the form of grantee reports on outputs and outcomes of their funded projects.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must demonstrate financial management capability, keep financial records including documentation for entries on accounting and for any changes in grant requirements, and make records available to personnel authorized to examine assistance recipients' records. Recipients must maintain all records for a minimum of three years from the date of submission of the final report and until all questions regarding the assistance agreement, such as those arising from audits, are resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$4,819,000; FY 15 est \$4,481,000; and FY 16 Estimate Not Available - FY 2015 obligation was authorized up to \$4,481,000

FY 2014 obligation was authorized up to \$4,819,000

FY 2013 obligation was authorized up to \$5,235,000

FY 2012 obligated \$5,494,000 in grants.

Range and Average of Financial Assistance:

Since the beginning of the program in 2008, projects have been funded from a low of \$200,000 to a high of \$5,000,000. In the last few years of the RFP, the funding range has shifted to approximately \$800,000 to \$2mil. The average amount of awards is approximately \$2,000,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Thirty two (32) proposals requesting \$39,371,913 were received.

The top 9 initial proposals with a scoring range of 78 to 85.5, requesting a total of \$14,335,375 were asked to submit full proposals. Eight of the nine proposals were selected for funding. However, with \$4,382,200 million available, only the top four (4) ranked proposals received FY14 funding.

1. Sears Point Tidal Marsh Restoration-Phase II

Applicant: Sonoma Land Trust

EPA Funds \$1,500,000 + Match \$1,500,000 = \$3,000,000

2. Napa River Restoration: Oakville to Oak Knoll

Applicant: Napa County

EPA Funds \$894,324 + Match \$894,324 = \$1,788,648

3. South Bay Salt Pond Restoration Project: Phase II Construction at Ravenswood

Applicant: California State Coastal Conservancy

EPA Funds \$1,000,000 + Match \$1,000,000 = \$2,000,000

4. Upper York Creek Dam Removal, Fish Passage, and Ecosystem Restoration Project

Applicant: City of St. Helena

EPA Funds \$987,876 + Match \$987,876 = \$1,975,752. Fiscal Year 2015: In February 2015, EPA Region 9 received an additional \$4,481,000 of San Francisco Bay Water Quality Improvement Funds with the federal FY15 budget. The remaining four projects recommended for funding under the FY14 RFP were awarded 2015 funding as specified in Section II.A of the RFP which indicates that EPA has the right to "make additional awards&if additional funding becomes available after the original selection decisions." Additional funding became available and the funding decision was made within 6 months of the original 2014 award decision (October 8, 2014) consistent with the RFP provision.

1. Urban Greening Bay Area

Applicant: Association of Bay Area Governments/San Francisco Estuary Partnership

EPA Funds \$1,730,862 + Match \$1,740,000

2. Suisun Marsh Water Quality Objectives Attainment: Source Reduction Field Testing Project

Applicant: Association of Bay Area Governments/San Francisco Estuary Partnership

EPA Funds \$843,982 + Match \$843,982

3. Hayward Youth-based Trash Capture, Reduction, and Watershed Education Project

Applicant: City of Hayward

EPA Funds \$800,000 + Match \$800,000

4. Clean Streams in Southern Sonoma County

Applicant: County of Sonoma

EPA Funds \$991,156 + Match \$991,156. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Recipients must comply with 2 CFR Part 200 and 1500 for universities and nonprofit organizations and 2 CFR 200 Subpart E for states, tribes, and local governments. The recipient must comply with the applicable cost principles under 2 CFR 200 Subpart E for state, tribal and local governments and 2 CFR 200 Subpart E for universities and 2 CFR 200 Subpart E for nonprofit organizations.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1. Sears Point Tidal Marsh Restoration-Phase II

Applicant: Sonoma Land Trust

EPA Funds \$1,500,000 + Match \$1,500,000 = \$3,000,000

2. Napa River Restoration: Oakville to Oak Knoll

Applicant: Napa County

EPA Funds \$894,324 + Match \$894,324 = \$1,788,648

3. South Bay Salt Pond Restoration Project: Phase II Construction at Ravenswood

Applicant: California State Coastal Conservancy

EPA Funds \$1,000,000 + Match \$1,000,000 = \$2,000,000

4. Upper York Creek Dam Removal, Fish Passage, and Ecosystem Restoration Project

Applicant: City of St. Helena

EPA Funds \$987,876 + Match \$987,876 = \$1,975,752. Fiscal Year 2015: 1. Urban Greening Bay Area

Applicant: Association of Bay Area Governments/San Francisco Estuary Partnership

EPA Funds \$1,730,862 + Match \$1,740,000

2. Suisun Marsh Water Quality Objectives Attainment: Source Reduction Field Testing Project

Applicant: Association of Bay Area Governments/San Francisco Estuary Partnership

EPA Funds \$843,982 + Match \$843,982

3. Hayward Youth-based Trash Capture, Reduction, and Watershed Education Project

Applicant: City of Hayward

EPA Funds \$800,000 + Match \$800,000

geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

4. Clean Streams in Southern Sonoma County

Applicant: County of Sonoma

EPA Funds \$991,156 + Match \$991,156. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.128 SOUTHEASTERN MULTI-MEDIA AND GEOGRAPHIC PRIORITY PROJECTS

FEDERAL AGENCY:

Region 4, Environmental Protection Agency

AUTHORIZATION:

National Environmental Education Act, Section 6; Clean Air Act, Section 103; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Solid Waste Disposal Act, Section 8001; Safe Drinking Water Act, Section 1442; Resource Conservation and Recovery Act, Section 8001; Pollution Prevention Act, Section 6605; Clean Water Act, Section 104; Marine Protection, Research, and Sanctuaries Act, Section 203; Comprehensive Environmental Response, Compensation, and Liability Act, Section 104&311; Toxic Substances Control Act, Section 10.

OBJECTIVES:

To fund projects, including surveys, studies, investigations, demonstrations, training, outreach, human health and the environment to (1) prevent, reduce and eliminate pollution through the promotion of environmental sustainability; (2) build capacity on environmental sustainability and public health issues; (3) support the development and implementation of sustainability strategies and enhance environmental literacy; (4) promote coordination and collaboration between and among federal, state, and local governmental and non-governmental organizations as well as build environmental education capacity at institutions of higher education.

Funding Priority 2015

There were no projects funded in FY15.

Funding Priority - Fiscal Year 2016

The projects should be centered around providing a forum for academic advisors and sustainability coordinators to collaborate with industry, college and graduate level students to establish and broaden environmental learning opportunities that promote capacity building on environmental sustainability and public health issues, including the creation of hands-on instructional learning of sustainable practices including pollution prevention, water and energy conservation, watershed protection, and environmental stewardship. The project should also serve to foster an environmental literacy plan to ensure that students have an understanding of environmental sustainability and how it interconnects with the green economy.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Projects conducted within the geographic boundaries of EPA's Region 4, which comprises the states and tribal lands of Alabama, Georgia, Florida, Kentucky, Mississippi, North Carolina, South Carolina and Tennessee, are eligible for funding when it is available. Interstate, state, tribal, intrastate, and local government agencies, districts, and councils; and public and private universities and colleges, laboratories, and research facilities; and public or private non-governmental, non-profit institutions are eligible to apply, unless restricted by the authorizing statutes. Non-profit organizations must have documentation of non-profit status from the U.S. Internal Revenue Service or their state of incorporation, except that non-profits organizations as defined in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying as defined in Section 3 of the Lobbying Disclosure Act 1995 or superseding legislation are ineligible.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Interstate, state, tribal, intrastate, and local government agencies, districts, and councils; public and private universities and colleges, laboratories, and research facilities; and public or private non-governmental, non-profit institutions are eligible to apply, unless restricted by the authorizing statutes.

Credentials/Documentation:

EPA may require applicants and principle investigators to demonstrate appropriate background, academic training, experience in the field, and necessary equipment to carry out projects, and to provide curriculum vitae and relevant publications. EPA may require nonprofit organizations to provide documentation of nonprofit status accorded by the Internal Revenue Service or their state of incorporation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional

information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms, as furnished by the Federal agency, must be used for this program. EPA requires final applications to be made on Standard Form 424, additional information on the EPA grant package can be found at http://www.epa.gov/ogd/grants/how_to_apply.htm.

For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days from receipt of final application, through selection and notification, and development and approval of work plan, to award of funds.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

EPA can fund grants and cooperative agreements for surveys, studies, investigations, demonstrations, training, education, limited research, outreach, and/or special-purpose activities incrementally. Approval of incremental funding depends on satisfactory project progress as well as continued relevance of the project and availability of funds. The application procedure is identical to applying for a new grant, with the same funds source, selection criteria, and review procedure.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

EPA may negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of the grant award. See the following for information on how assistance is awarded/released: Funds are issued electronically through automated funds

transfer. Method of awarding/releasing assistance: reimbursement.

Reports:

No program reports are required. No cash reports are required. EPA may include reporting requirements in the terms and conditions of the assistance agreements, which may require quarterly, interim, and final performance reports, and financial, equipment, and inventory reports. Progress reports are required under this program. An interim and final Federal Financial Report financial status report will be required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must demonstrate financial management capability, keep financial records including documentation for entries on accounting and for any changes in grant requirements, and make records available to personnel authorized to examine assistance recipients' records. Recipients must maintain all records for a minimum of three years from the date of submission of the final report and until all questions regarding the assistance agreement, such as those arising from audits, are resolved.

Account Identification:

86-8153-0-1-304; 68-0103-0-1-304; 68-0107-0-1-304; 68-8145-0-1-304; 68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$14,965; FY 15 est \$0; and FY 16 est \$15,000 - One assistance agreement was funded in FY14 for \$14,965. In FY 15, there were no awards made. The estimated funding for FY16 is \$15,000.

Range and Average of Financial Assistance:

In FY15, there were no awards made. In FY14, the one assistance agreement awarded was for \$14,965 with a two year budget and project period.

TAFS Codes:

68-0108; 68-8153; 68-0103; 68-8145; 68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The funded education project is developing a catalog of peer reviewed articles on pesticide exposures. Fiscal Year 2015: There were no projects funded in FY15. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Assistance agreements under this program are in accordance with the provisions of 2 CFR 200 and 2 CFR 1500.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The project funded is developing a catalog of peer reviewed articles on pesticide exposures. Fiscal Year 2015: No projects were funded during FY15. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.202 CONGRESSIONALLY MANDATED PROJECTS

(CONGRESSIONAL EARMARKS)

FEDERAL AGENCY:

Office of the Chief Financial Officer, Environmental Protection Agency

AUTHORIZATION:

Executive Order Executive Order 13457 "Protecting American Taxpayers from Government Spending of Wasteful Earmarks".

OBJECTIVES:

To implement special Congressionally directed projects or programs identified in EPA's annual appropriations act, committee reports incorporated by reference into the annual appropriation act, and other statutes mandating that EPA provide financial assistance agreements to designated recipients for projects or programs. These assistance agreements support special projects earmarked by Congress for specific recipients which are not requested by EPA in its annual budget request to Congress. The projects may be associated with: (1) various environmental requirements (e.g., wastewater treatment, drinking water treatment); (2) identifying, developing, and/or demonstrating necessary pollution control technologies and techniques to prevent, reduce, and eliminate pollution; or (3) evaluating the economic and social consequences of alternative environmental pollution strategies, technologies, or mechanisms for use by those in economic, social, governmental, and environmental management positions. Funding priorities are to award these assistance agreements to the designated recipients as quickly as possible within statutory and regulatory requirements.

Funding Priority - Fiscal Year 2014: There are no funding priorities for Fiscal 2014 since no appropriated funds were enacted for Congressionally designated projects and programs.

Funding Priority - Fiscal Year 2015: There are no funding priorities for Fiscal 2015 since no appropriated funds were enacted for Congressionally designated projects and programs.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support specific projects or programs specified by Congress for designated recipients. Allowable direct and indirect costs are included, in accordance with established EPA policies and requirements for assistance agreements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants are specified in the statute authorizing the earmark. Examples of recipients that may receive assistance under this program include local, state, intrastate, interstate, U.S. territories or possessions, public or nonprofit institutions/organizations, public/private nonprofit

institutions/organizations, quasi-public nonprofit institutions/organizations, institutions of higher education, Federally Recognized Indian Tribal Governments, Native American Organizations, and international organizations.

Beneficiary Eligibility:

Beneficiaries vary with the project Congress has directed EPA to fund. For example, an earmark for a wastewater treatment plant or sewer system would benefit the community in which the project is constructed. An earmark for a training project would benefit the individuals receiving the training under the assistance agreement.

Credentials/Documentation:

EPA may ask principle investigators for earmarked research projects to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

-Regarding pre-application/pre-proposal assistance with respect to awards under this program description, EPA will generally specify the nature of any pre-application/pre-proposal assistance. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog.

-This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her state for more information on the process the state requires to be followed in applying for assistance, if the state has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

EPA will evaluate each application to determine (a) the adequacy of the proposed project to meet the specified purpose of the Congressionally mandated project and compliance with other applicable laws. EPA's R&D Office conducts a peer review of all applications by outside experts. EPA will also review the application in relation to EPA's general grant regulations and OMB guidance.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new application which will be reviewed in the same manner as the original application. EPA may incrementally fund grants and cooperative agreements depending on the nature of the project and the terms of the earmark.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: This program has no statutory formula for distribution of Federal funds, therefore, matching requirements are defined in each Appropriations Act or other statute authorizing the earmark. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the assistance agreement shall be determined at time of award. The length and time phasing of the assistance agreement will be determined by the duration of the availability of appropriated funds. See the following for

information on how assistance is awarded/released: Assistance awards are released by letter of credit and other financial authorizations.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require annual, quarterly, interim, and/or progress reports, final results reports, expenditure/financial reports, equipment reports, and invention reports. Reporting requirements are also identified in the Grant Regulations 40 CFR Part 30 and 40 CFR Part 31. EPA assistance agreements may, in the terms and conditions, require annual, quarterly, interim, and/or final program reports. No cash reports are required. EPA assistance agreements may, in the terms and conditions, require annual, quarterly, interim, and/or final progress reports. EPA assistance agreements may, in the terms and conditions, require annual, quarterly, interim, and/or final expenditure/financial reports. Performance monitoring of Congressionally mandated special project or program assistance agreements are required per EPA administrative grant orders.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits, remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0107-0-1-304; 68-0110-0-1-304; 68-0103-0-1-304; 68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - Budget Authority:

FY 2012 - \$0

FY 2013 - \$0

FY 2014 - \$0

FY 2015 - \$0.

Range and Average of Financial Assistance:

FY 2012 - No range; since no appropriated funds were enacted for Congressionally designated projects and programs.

FY 2013 - No range; since no appropriated funds were enacted for Congressionally designated projects and programs.

FY 2014 - No range; since no appropriated funds were enacted for Congressionally designated projects and programs.

FY 2015 - No range; since no appropriated funds were enacted for Congressionally designated projects and programs.

TAFS Codes:

68-0107; 68-0103; 68-0110; 68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No program accomplishments are planned for FY 2014 since no appropriated funds were enacted for Congressionally designated projects and

programs. Fiscal Year 2015: No program accomplishments are planned for FY 2015 since no appropriated funds were enacted for Congressionally designated projects and programs. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Congressional mandated earmarks are subject to EPA's General Grant Regulations 40 CFR Part 30 and 40 CFR Part 31. Costs will be determined in accordance with OMB Circular No. A-87 for state and local governments and Indian Tribes, OMB Circular No. A-21 for educational institutions, and OMB Circular No. A-122 for nonprofit institutions.

Website Address:

<http://www.epa.gov/ocfo/budget/index.htm>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No projects have been funded to date in Fiscal 2014. Fiscal Year 2015: No projects have been funded to date in Fiscal 2015. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Addresses the specific purpose designated by the Congressional earmark in EPA's annual Appropriations Act or other statute. All Congressionally mandated earmarks must meet the following criteria: (a) address the specified Congressionally directed support or action described in the annual appropriations act or committee report incorporated by reference into the

appropriations act or other statutes mandating that EPA provide financial assistance agreements to designated recipients for projects or programs; and (b) have an approved workplan and processed assistance agreement before the appropriated funds expire.

66.203 ENVIRONMENTAL FINANCE CENTER GRANTS

(EFC Grant Program)

FEDERAL AGENCY:

Office of the Chief Financial Officer, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442(b)(3)&1420; Clean Water Act, Section 104(b)(3); Solid Waste Disposal Act, Section 8001(a); Toxics Substances Control Act, Section 10; Clean Air Act, Section 103(b)(3); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Marine Protection, Research and Sanctuaries Act, Section 203.

OBJECTIVES:

The Environmental Finance Center Grant Program provides funding to support university and non-profit organization based Environmental Finance Centers (EFCs) that provide multi-media environmental finance expertise and outreach to the regulated communities. The EFCs work with state and tribal governments, local governments, and the private sector to address the growing costs of environmental protection. The EFCs provide finance-related training, education, and analytical studies to help these regulated parties develop solutions to the difficult "how-to-pay" issues associated with meeting environmental standards.

The EFCs educate state, tribal, and local governments and businesses on lowering environmental costs, increasing environmental investments, improving financial capacity, encouraging full-cost pricing, and identifying and evaluating environmental financing options. A central goal of the EFCs is to create sustainable systems. Sustainable systems have the financial, technical, and institutional resources and capabilities to operate in compliance with environmental requirements and in conformance with accepted environmental practices over the long term. EFCs focus on helping smaller parties find ways to obtain financing for their environmental protection responsibilities.

Funding Priority - Fiscal Year 2014: Providing education, training, technical assistance, and analytic support and outreach to state, tribal and local governments as well as businesses (particularly small ones) on: (1) identifying, developing, and applying green infrastructure approaches to addressing community stormwater management challenges across the country; (2) refining and expanding community-based environmental certification programs and activities integrating planning, sustainability, citizen participation and partnerships, green design, land use and transportation, natural resources, agricultural viability, water quality, finance, health and wellness, waste reduction and management, and many other environmental areas; (3) promoting sustainable materials management through a comprehensive wide range of approaches including pollution prevention, sources reduction, energy conservation, resource recovery, reuse, and recycling; (4) developing and using rate setting, capital planning, capacity assessment, asset management, and other financial tools and analyses needed for sound environmental utility management; (5) building the capacity of communities to address urban environmental issues in areas such as land-use, housing, and transportation in ways that are environmentally and economically sustainable and promote environmental justice; (6) developing, evaluating, and providing information on financial and management planning tools that enable municipal water systems to become more resilient to climate change as well as emergency situations; (7) identifying and sharing mechanisms to support the development and implementation of state and local clean energy and energy efficiency programs; and (8) working with tribal governments to build the capacity to develop and implement financing and management strategies for environmental programs and businesses.

Funding Priority - Fiscal Year 2015: Providing education, training, technical assistance, and analytic support and outreach to state, tribal and local

governments and businesses (with a focus on smaller governments and businesses) on: (1) identifying, developing, and applying tools and strategies to determine and estimate the benefits of coastal wetlands; (2) expanding environmental education in support of community-based environmental stewardship, sustainable materials management, and green infrastructure (3) continuing to support certification programs and activities integrating planning, sustainability, citizen participation and partnerships, green design, land use and transportation, natural resources, agricultural viability, water quality, finance, health and wellness, waste reduction and management, and many other environmental areas; (4) developing, refining, updating and testing web-based analytic models used for rate setting, capital planning, capacity assessment, asset management, and other financial tools and analyses needed for sound water and wastewater utility management; (5) building the capacity of communities to address urban environmental issues in areas such as transportation, improved community design, and multifamily residential housing in ways that are environmentally and economically sustainable and promote environmental justice; (6) identifying, developing, testing, educating, and supporting the use of green infrastructure approaches in addressing stormwater management challenges in communities across the country; (7) educating municipal utility managers in areas such as finance, risk management, project management, planning, regulatory needs, customer service, personnel management and public/customer relations; and (8) working in partnership with community development/support organizations to identify, develop, and pilot marketing, finance and business plans for commercial composting operations to help cleanup neighborhoods and reduce illegal dumping.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to recipients to support their allowable direct costs incident to approved environmental financial technical assistance and outreach work plus allowable indirect costs, in accordance with established EPA policies and regulations. EPA provides incremental funding for these grants or cooperative agreements on an annual basis. As part of EPA's substantial involvement, the appropriate EPA regional and/or headquarters office reviews and approves each annual project phase consistent with the scope of work for the grant or cooperative agreement.

As provided in 2 CFR Part 220, recipients of grants or cooperative agreements under this program may not charge fundraising costs to their grants or cooperative agreements. Funding for research under this program does not include research within the purview of EPA's Office of Research and Development. Under this program, EPA does not fund research, training, and technical assistance to facilitate the inventory of brownfields sites, site assessments, the remediation of brownfields sites, community involvement, and site preparation. These activities are covered by the EPA grant program established at CFDA 66.814.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to public and private non-profit universities and colleges and to nonprofit organizations. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, tribes, local governments, businesses and community organizations and the general public are the beneficiaries of this program.

Credentials/Documentation:

Applicants must demonstrate that they meet eligibility requirements. In addition, EPA may request applicants to demonstrate that they have the appropriate background, academic training, experience in the field, and necessary staff and equipment to carry out the project work. The Agency may also ask principal analysts named in applicants' proposals to provide curriculum vitae and other documentation of relevant experience. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, announcements for competitive funding opportunities will specify application procedures.

Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Requests for application kits must be submitted to the U.S. Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460 or to the appropriate EPA Regional Office listed in Appendix IV of the Catalog.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 to 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Annually, subject to the budget and project periods specified in the awards.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program does not have a statutory or regulatory

formula or matching requirement. The Agency may, as a matter of policy, require cost sharing when such a requirement is specified in the announcement of the competitive funding opportunity.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. The project period for the grants or cooperative agreements may range up to seven years. EPA will provide incremental funding for the cooperative agreements each fiscal year (on a 12-month basis) over the duration of the grants or cooperative agreements. See the following for information on how assistance is awarded/released: Annual lump sum.

Reports:

A final program or technical report shall be completed within 90 calendar days of the completion of the period performance for each award. No cash reports are required. Quarterly Progress Reports may be required as determined by EPA after the award. Quarterly Expenditure Reports may be required as determined by EPA after the award. Quarterly Performance Monitoring may be required as determined by EPA after the award. No cash reports are required. Quarterly Progress Reports may be required as determined by EPA after the award. They may be required. Quarterly Performance Monitoring may be required as determined by EPA after the award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 200 (nonprofits and universities) apply. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those brought up in an audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$500,000; FY 15 est \$1,000,000; and FY 16 est \$2,000,000 - FY 14 \$500,000; FY 15 \$1,000,000; FY 16 \$2,000,000 (requested in the President's budget).

Range and Average of Financial Assistance:

Range: \$125,000/fiscal year (2015)

Average: \$125,000/fiscal year (2015).

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, eight university-based Environmental Finance Centers (EFCs) worked with state, tribal, and local governments as well as the private sector in developing and implementing a wide range of creative, responsible, and sustainable solutions to existing and new environmental challenges. EFC accomplishments in FY 2014 include: (1) New England EFC at the University of Southern Maine - (1) assisting coastal communities in developing coastal wetlands conservation strategies using the Marsh Adaptation Strategy Tool (MAST), an adaptation evolved from the COAST model (see FY 2013 program accomplishments) to estimate the ecological and economic benefits of coastal wetlands that will expand from sea level rise; (2) The

Syracuse University EFC - facilitating and hosting the first National Green Infrastructure Summit of EPA green infrastructure model and partner communities showcasing and sharing useful information with communities across the country to help accelerate the adoption of green infrastructure solutions; (3) University of Maryland EFC working with township government to integrate green infrastructure and stormwater compliance into existing community-based open space plans and priorities, developing partnerships with local and regional land conservation groups to reduce financial burdens, and identifying additional federal, state and local funding opportunities to leverage existing township funds; (4) University of North Carolina at Chapel Hill - producing a catalogue of publications describing the established benefits of green infrastructure, creating a series of case studies highlighting how local governments have overcome hurdles to funding and implementing green infrastructure solutions, and sharing green infrastructure project success stories with state and local environmental and financing officials at national and state water conferences; (5) University of Louisville EFC - providing technical assistance to EPA/HUD Sustainable Communities grantees, assisting a community non-profit group with green practices and design for a new building, and producing reports on sustainable urban water management and on the links between affordable housing and sustainable development practices in a large metro region; (6) Cleveland State University EFC - guiding a metropolitan area public-private partnership of local and state government, special districts, and technology leaders in creating a collaborative and strategic approach to environmentally sound economic development/capital projects by developing an Integrated Development Budget (IDB) to drive high priority investments in transportation, technology, and workforce; (7) Wichita State University EFC - collaborating with the Bureau of Reclamation in Kansas and the Department of Natural Resources and Association of Municipal Utilities in Iowa develop tools and provide training to assist municipal water systems and other water suppliers in identifying conservation planning, water loss reduction, alternative sources of water and distribution options in order to become more resilient to both short term climate-related emergencies and longer term climate variability and change; (8) Dominican University of California EFC - providing direct technical assistance to nine Tribes in California and Arizona helping them to develop greener, more sustainable economies by analyzing the feasibility of a transfer and composting station, identifying recycling commodity prices and supporting a recycling program expansion, exploring multiple financing options to support a solid waste program, preparing a capital improvement plan, and developing a financial feasibility guidebook for a composting operation. Fiscal Year 2015: In FY 2015, the eight university-based Environmental Finance Centers (EFCs) continued to work with state, tribal, and local governments and the private sector in developing and implementing a wide range of creative, responsible, and sustainable solutions to existing and new environmental challenges. EFC accomplishments in FY 2015 include: (1) University of Southern Maine EFC - continuing to assist communities in the Great Marsh area of Massachusetts in developing wetlands conservation strategies using the Marsh Adaptation Strategy Tool (MAST) and applying adaptation structure costing in coastal parts of the Great Marsh using Coastal Adaptation to Sea Level Rise Tool (COAST). Collectively, these tools will estimate the ecological and economic benefits of coastal wetlands as well as the costs that will be generated by sea level rise; (2) Syracuse University EFC working through a system of seven environmental education hubs centered at educational institutions across Puerto Rico, the EFC is implementing the Generating Replicable Environmental Education Networks in Puerto Rico (GREEN-PR) Initiative. The initiative working through an internship program (20 plus) and a mini-grants program to support environmental stewardship education and real-world projects with focuses on sustainable materials management and green infrastructure; (3) University of Maryland EFC working with communities across the state, expanded the Sustainable Maryland Program, a free and voluntary statewide certification program to help communities benchmark and prioritize their greening efforts and to provide recognition of noteworthy efforts. To date, 33% of Maryland municipalities (52 of 157) have registered with the program and 22 communities (14% of the 157) have achieved certification as sustainable communities; (4) University of North Carolina EFC continued refining and updating its web-based water and wastewater rates analyses model used by communities, specifically small ones, to help set and/or adjust rates in each of the next five years by projecting a utility's future expenses, revenues from rates, and fund balances. This valuable and easy to use tool requires minimal data

inputs, can assess up to 12 different uniform and block rate structures, tests scenarios to determine the rates needed to achieve financial sufficiency, and is free to download and use; (5) University of Louisville EFC producing best practice guides for decision-makers and community residents on the economics of urban transportation, equity concerns, and the benefits of public transit; the fundamentals of environmental psychology and the use of its principles to improve community design; and the development and implementation of recycling programs for multifamily residential units. The EFC has also conducted in depth analyses of housing markets and housing needs identifying important connections between sustainable communities, environmental justice, and environmental protection; (6) Cleveland State University EFC - facilitating and hosting the second National Green Infrastructure Summit of EPA green infrastructure model and partner communities showcasing and sharing useful information with communities across the country to help accelerate the adoption of green infrastructure solutions; (7) Wichita State University EFC in partnership with Kansas Municipal Utilities, implementing a comprehensive Municipal Utility Management skills program targeting city, county or special district managers, as well as mid-level managers. Program topics include risk management, finance, long-term planning, project management, regulatory requirements, human resources, public relations and customer service; and (8) Dominican University of California EFC identifying marketing and finance opportunities and preparing a business plan for a commercial composting operation of an urban non-profit, Calidad de Vida, in the City of Tijuana; and working with the non-profit Sonoran Institute to identify, develop, and pilot tools and approaches to help a City of Mexicali neighborhood cleanup and prevent illegal dumping along the local river that runs on the United States-Mexico border. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

These grants and cooperative agreements are subject to EPA's General Grant regulations (40 CFR Part 30, "Grants and Agreements with Institutions of Higher Education). Costs for educational institutions will be determined in accordance with 2 CFR Part 220 (OMB Circular No. A-21). Information pertinent to the EFC grant program can be found at www.epa.gov/envirofinance/efcn.html. Written materials on the program can be obtained by calling Timothy McProuty at (202) 564-4996.

Regional or Local Office:

See Regional Agency Offices. EPA encourages potential applicants to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog and the Headquarters program contacts listed below.

Headquarters Office:

Timothy McProuty,

RELATED PROGRAMS:

66.611 Environmental Policy and Innovation Grants; 66.814 Brownfields Training, Research, and Technical Assistance Grants and Cooperative Agreements

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In FY 2014, EPA funded eight university-based Environmental Finance Centers (EFCs) covering seven EPA Regions located across the nation. Each participating university operated an EFC or EFCs that provided technical assistance and outreach services to the regulated communities (State, tribal, and local governments and businesses). Fiscal Year 2015: EPA funded eight university-based Environmental Finance Centers

(EFCs) covering seven EPA Regions located across the nation. Each participating university operated an EFC that provided technical assistance and outreach services to the regulated communities (State, tribal, and local governments and businesses). Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the announcement of the competitive funding opportunity.

66.305 COMPLIANCE ASSISTANCE SUPPORT FOR SERVICES TO THE REGULATED COMMUNITY AND OTHER ASSISTANCE PROVIDERS

(Compliance Assistance Centers)

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Clean Air Act of 1970, Section 103, Public Law 91-604, 42 U.S.C 7403; Resource Conservation and Recovery Act of 1976, Section 8001, Public Law 94-580, 42 U.S.C 6981; Clean Water Act of 1972, Section 104, Public Law 92-500, 33 U.S.C 1254.

OBJECTIVES:

The EPA has sponsored partnerships with industry, academic institutions, environmental groups, and other agencies to launch sector-specific Compliance Assistance Centers. Each Compliance Assistance Center addresses real world issues in language that is used by the regulated entities.

This program's objective is to provide financial assistance to private nonprofit institutions, universities, and public agencies to develop and maintain Compliance Assistance Centers to improve environmental compliance within an identified industrial/government sector or environmental topic.

Funding Priority - Fiscal Year 2015: Funding will support the web-based Compliance Assistance Centers. Through Internet Websites, e-mail discussion groups and more, the Centers will help businesses, local governments, and federal facilities understand federal environmental requirements and save money through pollution prevention techniques.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

FY 15 funds will support ongoing Center work, with an emphasis on maintaining and updating the existing Center Websites.

It is expected that common communications channels used by the industry/government will continue to quickly distribute information to the targeted audience. The sector entry pages will serve as portals to relevant information developed by the Centers and other organizations as appropriate (e.g. EPA). Individual sector entry pages will use navigation structures specific to the sector thereby providing easy access to relevant environmental content. EPA funding must be used only for activities specified in the approved scope of work; discretionary funding will not be provided.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Applicants must be nonprofit organizations as that term is defined in Section 4(6) of the Federal Financial Assistance Management Improvement Act of

1999, Public Law 96-107, 31 U.S.C. 6101 Note. Colleges, universities, and community colleges are eligible to apply. EPA will also accept applications from state, tribal and local governments. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Additionally, for certain funding opportunities under this CFDA, applicants may have to demonstrate how they meet the following factors for threshold eligibility purposes: 1) That they have an indirect cost rate that has been approved or is pending approval by a federal agency or has a cost allocation system that meets the requirements in the applicable OMB Circular; 2) That they have had a previous working relationship(s) with experts and national organizations devoted to the relevant industrial, commercial or governmental sector, or intends to partner with an organization with such expertise; 3) An understanding of the environmental needs of the relevant industrial, commercial or governmental sector through past activities, or intends to partner with an organization with such expertise; 4) That they, or a partnering organization, has familiarity with applicable federal, state and local environmental regulations and experience in developing tools (e.g., training, plain-language guides, fact-sheets, Agency contact locators, etc.) to improve the audiences' understanding of their regulatory obligations; 5) Previous experience (or intends to partner with an organization with experience) in developing and maintaining web-based services.

Beneficiary Eligibility:

The primary beneficiaries are small businesses, local governments and colleges/universities that are being serviced by the grantees. Other beneficiaries include state, local, general public, and the regulated business community.

Credentials/Documentation:

EPA may request that applicants document their non profit status. The Agency may also request that applicants demonstrate they have appropriate background, experience in the field, organizational capacity and necessary equipment to carry out projects. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days from the date of submission of the final proposal.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Generally, cooperative agreements will be awarded for a five year project period. EPA will partially fund each budget period and will consider funding the balance of budget requests contingent upon satisfactory progress as certified by the EPA Project Officer, the availability of funds, and EPA priorities.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: EPA's Appropriation Act requires that applicants submitting unsolicited research grant proposals share in the cost of conducting research. The amount of the cost share will be based on the mutuality of interest between the Government and the applicant. Applicants will be advised of other matching requirements, if any, in Requests for Applications or Requests for Initial Proposals. Although EPA may not require matching funds, applicants may be encouraged to provide information regarding resources (cash/in-kind services) that they would commit to manage a Compliance Assistance Center. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA generally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. Incremental funding may be available. EPA generally limits project periods to 5 years. EPA will partially fund each budget period and will consider funding the balance of budget requests contingent upon satisfactory progress as certified by the EPA Project Officer, the availability of funds, and EPA priorities. See the following for information on how assistance is awarded/released: Other.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require semi-annual, annual and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. Program reports are required.

. No cash reports are required. Progress reports are required. No expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$360,000; FY 15 est \$260,000; and FY 16 est \$260,000

Range and Average of Financial Assistance:

\$5,000/year - \$110,000/year. Generally, individual Centers will receive between \$5,000 - \$10,000 this fiscal year to continue maintenance and operation of the Web site. An approximate average of the annual financial assistance awards that will be made this current fiscal year is \$27,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14 the Center Websites were visited over 4 million times. There were no new awards in FY 14. Fiscal Year 2015: Not available yet. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Compliance Assistance Centers are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Costs will be determined in accordance with 2 CFR 200 Subpart E for State and local governments and Indian Tribes and for educational institutions, 2 CFR 200 Subpart E for non-profit institutions, and FAR Part 31 for profit makers. Additional information pertinent to the Centers program can be found at www.assistancecenters.net. Centers brochures and/or fact-sheets can be obtained by calling the EPA Compliance Assistance Centers Team Leader at (202) 564-7076

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Center Website content continued to be updated. Other examples include: Construction Industry Compliance Assistance Center partnered with AGC, a redesigned; Healthcare Environmental Resource Center created content for Assisted Living facilities; Transportation Environmental Resource Center created content for the Intermodal sector. Fiscal Year 2015: Center Website content continued to be updated. Other examples include: Construction Industry Compliance Assistance Center partnered with AGC, a redesigned; Healthcare Environmental Resource Center created content for Assisted Living facilities; Transportation Environmental Resource Center created content for the Intermodal sector. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Non-competitive proposals are judged for (a) technical merit in terms of: (1) strengths and weaknesses of the project; (2) adequacy of overall project design; (3) competency of proposed staff; (4) suitability of applicant's available resources; (5) appropriateness of the proposed project period and budget; and (6) probability that the project will accomplish stated objectives; and, for (b) program interest in terms of: (1) the need for the proposed project; and (2) relationship to program objectives.

66.306 ENVIRONMENTAL JUSTICE COLLABORATIVE PROBLEM-SOLVING COOPERATIVE AGREEMENT PROGRAM

(EJCPS)

FEDERAL AGENCY:

Office of Environmental Justice, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3); Safe Drinking Water Act, Section 1442(b)(3); Solid Waste Disposal Act, Section 8001(a); Clean Air Act, Section 103(b)(3); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20(a); Marine Protection, Research, and Sanctuaries Act, Section 203; Toxic Substances Control Act, Section 10(a).

OBJECTIVES:

The program's mission/objective is to award cooperative agreements to eligible non-profit organizations to support projects which demonstrate the use of the Environmental Justice Collaborative Problem-Solving Model as they address the environmental/public health issues in their community.

Funding Priority - Fiscal Year 2014: The purpose of the EJCPS Program is for EPA to provide financial assistance to support community-based non-profit organizations as they create collaborations and partnerships with other stakeholders (e.g., industry, government, academia, etc.) to develop and implement solutions that will significantly address environmental and/or public health issues at the local level. In an effort to support sustainability, organizations are encouraged to identify connections between the proposed project activities and any neighborhood, local, city or regional land use planning efforts. The proposal should describe the degree to which the project planning process includes sustainability, livability, and/or community revitalization, if applicable.

Funding Priority - Fiscal Year 2015: Due to the limited availability of funding resulting in the inability to offer multiple assistance programs, this program was not funded in FY 2015.

Funding Priority - Fiscal Year 2016: The purpose of the EJCPS Program is for EPA to provide financial assistance to support community-based non-profit organizations as they create collaborations and partnerships with other stakeholders (e.g., industry, government, academia, etc.) to develop and implement solutions that will significantly address environmental and/or public health issues at the local level. In an effort to support sustainability and community revitalization, organizations are encouraged to identify connections between the proposed project activities and any neighborhood, local, city or regional land use planning efforts.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking blood or other information from humans).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

An eligible applicant **MUST BE**: an incorporated non-profit organization; OR a Native American tribal government (Federally recognized) (AND) located within the same territory, commonwealth, or tribe that the proposed project will be located. In addition, an eligible applicant must be able to demonstrate that it has worked directly with the affected community. An "affected community" for the purposes of this assistance agreement program is a community that is disproportionately impacted by environmental harms and risks and has a local environmental and public health issue that is identified in the proposal

INELIGIBLE: colleges and universities; hospitals; state and local governments; quasi-governmental entities (e.g., water districts, utilities)*; and non-profit organizations that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995.

*Generally, a quasi-governmental entity is one that: (1) has a close association with the government agency, but is not considered a part of the government agency; (2) was created by the government agency but is exempt from certain legal and administrative requirements imposed on government agencies; or (3) was not created by the government agency but performs a public purpose and is significantly supported financially by the government agency.

Beneficiary Eligibility:

Non-Profit Community Groups as described in 081 above.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 150 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Cooperative agreements will be awarded for a 2-3 year project period. Activities must be completed within the project timeframe, and all cooperative agreements will be fully funded at the time of award. See the following for information on how assistance is awarded/released: Grant award is fully funded at time of award and the recipient will draw down funds on an as needed basis.

Reports:

Semi-annual reports must be submitted to the Project Officer for the duration of the project period. Final reports must be submitted to the Project Officer upon completion of the project. The EPA Project Officer will determine whether additional reports are appropriate and necessary. No cash reports are required. At a minimum, semi annual progress reports are required. No expenditure reports are required. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$1,200,000; FY 15 est \$0; and FY 16 est \$1,200,000 - FY 14 \$1,200,000; FY 15 \$0; FY 16 \$1,200,000.

Range and Average of Financial Assistance:

Individual awards in the past range from \$100,000 to \$300,000; average awards in the past and current fiscal years \$120,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Each of the recipients were awarded up to \$120,000 to support two-year projects, including identifying and reducing sources of air pollution, reducing lead exposure in homes of low-income residents, and the cleanup and repurposing of community dump sites. Projects must use the Collaborative Problem Solving model, comprised of seven elements of a

successful collaborative partnership, to address local environmental and/or public health issues. Fiscal Year 2015: This program was not funded in FY 2015 due to budgetary limitations. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Collaborative Problem Solving cooperative agreements are subject to EPA's General Grant Regulations, 2 CFR 200 and any other program regulations.

Regional or Local Office:

None.

Headquarters Office:

Sheila Lewis Office of Environmental Justice, USEPA

RELATED PROGRAMS:

66.309 Surveys, Studies, Investigations and Special Purpose Activities Relating to Environmental Justice; 66.604 Environmental Justice Small Grant Program ; 66.950 Environmental Education and Training Program; 66.951 Environmental Education Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In FY 2014, ten projects were funded. Each project was for two-year projects to work on a wide range of environmental and public health issues, including identifying and reducing sources of air pollution, reducing lead exposure in homes of low-income residents, and the cleanup and repurposing of community dump sites. Projects used the Collaborative Problem Solving model, comprised of seven elements of a successful collaborative partnership, to address local environmental and/or public health issues. Fiscal Year 2015: There were no projects funded during FY 2015. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.309 SURVEYS, STUDIES, INVESTIGATIONS, TRAINING AND SPECIAL PURPOSE ACTIVITIES RELATING TO ENVIRONMENTAL JUSTICE

(EJSS)

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Toxic Substances Control Act, Section 10(a); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20(a); Marine Protection, Research, and Sanctuaries Act, Section 203; Safe Drinking Water Act, Section 1442(c)(3); Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), Section 311(c); Solid Waste Disposal Act, Section 8001(a); Clean Air Act, Section 103(b)(3); Clean Water Act, Section 104(b)(3).

OBJECTIVES:

The program's mission/objective is to provide funding in support of surveys, studies and investigations, and special purpose assistance programs as they relate to environmental and/or public health issues, with a particular emphasis on environmental justice.

This program is not being funded in FY 2014.

Funding Priorities for 2015

Activities that support community-based participatory surveys, studies and investigations, and special purpose assistance that address environmental justice concerns. EPA defines "environmental justice" as the fair treatment and meaningful involvement of all people regardless of race, color, national origin or income with respect to the development, implementation, and enforcement of

environmental laws, regulations, and policies. Fair treatment means that no one group of people, including racial, ethnic, or socioeconomic groups, should bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, local, and tribal environmental programs and policies.

Meaningful involvement means that: (1) potentially affected community residents have an appropriate opportunity to participate in decisions about a proposed activity that will affect their environment and/or health; (2) the public's contribution can influence the regulatory agency's decision; (3) the concerns of all participants involved will be considered in the decision-making process; and (4) the decision-makers seek out and facilitate the involvement of those potentially affected. Assistance agreements may be associated with air quality, safe drinking water quality, water quality, hazardous waste, toxic substances, and/or pesticides

Funding Priority - Fiscal Year 2016: Activities that support community-based participatory surveys, studies and investigations, and special purpose assistance that address environmental justice concerns. EPA defines "environmental justice" as the fair treatment and meaningful involvement of all people regardless of race, color, national origin or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. Fair treatment means that no one group of people, including racial, ethnic, or socioeconomic groups, should bear a disproportionate share of the negative environmental consequences resulting from industrial, municipal, and commercial operations or the execution of federal, state, local, and tribal environmental programs and policies.

Meaningful involvement means that: (1) potentially affected community residents have an appropriate opportunity to participate in decisions about a proposed activity that will affect their environment and/or health; (2) the public's contribution can influence the regulatory agency's decision; (3) the concerns of all participants involved will be considered in the decision-making process; and (4) the decision-makers seek out and facilitate the involvement of those potentially affected. Assistance agreements may be associated with air quality, safe drinking water quality, water quality, hazardous waste, toxic substances, and/or pesticides.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking blood or other information from humans).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, territories, Indian Tribes, intertribal consortia, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions which submit applications proposing projects concerning environmental justice issues with significant technical merit and relevance to EPA's mission. Some of EPA's statutes may limit assistance to specific types of interested applications. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, territories, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions.

Credentials/Documentation:

Costs will be determined in accordance with the provisions of 2 CFR 200 Subpart E apply for State and local governments and Indian Tribes, the provisions of 2 CFR 200 Subpart E for educational institutions, the provisions of 2 CFR 200 Subpart E for nonprofit institutions, and FAR Part 31 for profit makers. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds. Generally, EPA incrementally funds grants and cooperative agreements for surveys, studies, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants and cooperative agreements are normally funded on a 12-month basis (annual). Most of OEJ awarded grants and cooperative agreements have project periods ranging from one year to three years, and generally, grants and cooperative agreements are fully funded at the time of award. See the following for information on how assistance is awarded/released: Grant award fully funded at time of award and recipient will draw down funds on an as needed basis.

Reports:

Semi-annual reports must be submitted to the Project Officer for the duration of the project period. Final reports must be submitted to the Project Officer upon completion of the project. The EPA Project Officer will determine whether additional reports are appropriate and necessary. Program reports are required. No cash reports are required. At a minimum, semi annual progress reports are required. Expenditure Reports may be required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0103-0-1-304; 68-0107-0-1-304; 68-8145-0-7-304; 68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$0; FY 15 est \$35,000; and FY 16 Estimate Not Available - FY13 \$0; FY14 \$0; FY15 \$35,000.

Range and Average of Financial Assistance:

\$15,000 to \$45,000/fiscal year; \$25,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Not applicable. No funding anticipated in FY 14. Fiscal Year 2015: In FY 2015, two awards totaling \$35,000, were made to support the study and investigation of issues related to Environmental Justice. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, Studies, and Investigations grants and cooperative agreements are subject to EPA's General Grant Regulations 2 CFR 200 and any other program regulations.

RELATED PROGRAMS:

66.305 Compliance Assistance Support for Services to the Regulated Community and Other Assistance Providers ; 66.604 Environmental Justice Small Grant Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No projects funded in FY 2014. Fiscal Year 2015: The different types of projects funded include the following: support of a Healthy Housing summit to engage government agencies, academics and housing professionals to share their knowledge, science, best practices and interventions; Environmental Justice and Environmental Health symposium that served as a forum to exchange ideas among community members, researchers, public health practitioners, policymakers, students, and advocates on EJ and health issues, with a particular emphasis on the Chesapeake Bay watershed area. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.310 CAPACITY BUILDING GRANTS AND COOPERATIVE AGREEMENTS FOR COMPLIANCE ASSURANCE AND ENFORCEMENT ACTIVITIES IN INDIAN COUNTRY AND OTHER TRIBAL AREAS

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 8001; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Clean Water Act, Section 104; Toxic Substances Control Act, Section 10; Safe Drinking Water Act, Section 1442; Clean Air Act, Section 103; National Environmental Policy Act, Section 102(2)(F); Marine Protection, Research and Sanctuaries Act, Section 203; Indian Environmental General Assistance Program Act.

OBJECTIVES:

Providing financial resources to build and improve the compliance assurance and enforcement capacity of federally-recognized Indian tribes (tribes), inter-tribal consortia, or tribal organizations. Such capacity building efforts may include economic, social science, statistical research, development, studies, surveys, demonstrations, investigations, public education, training, and fellowships to the extent authorized under the federal environmental laws listed above. This Catalog of Federal Domestic Assistance (CFDA) number covers EPA's Environmental Programs and Management (EPM) resources targeted for compliance assurance and enforcement in Indian country and other tribal areas, including those in Alaska.

Funding Priority - Fiscal Year 2014: In fiscal year 2014, EPA's Office of Enforcement and Compliance Assurance priorities include, but are not limited to, compliance monitoring and enforcement activities under the Safe Drinking Water Act, the Clean Water Act, and the Clean Air Act.

Funding Priority - Fiscal Year 2015: In fiscal year 2015, EPA's Office of Enforcement and Compliance Assurance anticipated priorities include, but are not limited to, compliance monitoring and enforcement activities under the Safe Drinking Water Act, the Clean Water Act, and the Clean Air Act.

Funding Priority - Fiscal Year 2016: In fiscal year 2015, EPA's Office of Enforcement and Compliance Assurance anticipated priorities include, but are not limited to, compliance monitoring and enforcement activities under the Safe Drinking Water Act, the Clean Water Act, and the Clean Air Act.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The funding is for fixed or known periods associated with specific projects. Project grants can include fellowships, scholarships, research grants, training grants, traineeships, experimental and demonstration grants, evaluation grants, planning grants, technical assistance grants, survey grants, and construction grants. OECA identifies special focus areas each funding cycle (annually). Previous years have included calls for proposals focusing on conducting sanitary surveys at tribal public water systems, compliance assistance to tribal solid waste programs, and innovative enforcement and compliance assurance projects, including performance measurement, data quality, and public access to information. Consistent with existing statutory authority, the funds are used to support compliance assistance, compliance monitoring, and enforcement activities.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Tribal Organizations, Inter-tribal Consortia, Federal, and State Organizations, Colleges and Universities, and non-for-profit organizations; eligible applicants must also have enforcement and compliance assurance responsibilities in Indian country and/or other tribal areas or provide support for enforcement and compliance assurance projects in Indian country and/or other tribal areas. EPA may also limit eligibility for certain competitive funding opportunities under this CFDA to: (1) tribes and intertribal consortia located in the Region where a project is going to be performed; and/or (2) applicants that have access to Indian country or other tribal areas.

Beneficiary Eligibility:

Federally Recognized Indian Tribal Governments; Inter-tribal Consortia and Tribal Organizations; Federal, State, and Multi-jurisdictional State Organizations; colleges and universities; and non-for-profit organizations.

Credentials/Documentation:

OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency must submit all initial applications for funding through <http://www.grants.gov>

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days from the date of submission of the final proposal.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is normally provided in one lump sum. Projects may span multiple years. There is no restriction on the time permitted to spend the money awarded, although money must be spent prior to expiration associated with the specified federal fiscal year. See the following for information on how assistance is awarded/released: Other.

Reports:

Semi-annual reports must be submitted to the Project Officer for the duration of the project period. Final reports must be submitted to the Project Officer upon completion of the project. The EPA Project Officer will determine whether additional reports are appropriate and necessary. Program reports are required. No cash reports are required. Progress reports are required. Expenditure Reports may be required under this program. Performance monitoring is required by this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer

and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each cooperative agreement, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of the submission of the annual financial status report or longer if questions still remain, such as those raised as a result of audit.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 14 \$185,000; FY 15 est \$185,000; and FY 16 est \$185,000 - FY 2013 \$137,000. FY 2014: \$185,000. FY 2015: \$185,000. FY 2016 Estimate: \$185,000. If available and distributed, EPA's Office of Enforcement and Compliance Assurance uses these resources to enable the EPA Regions to fund projects that are designed to improve environmental compliance and enforcement in Indian country.

Range and Average of Financial Assistance:

\$3000 to \$40,000/fiscal year; \$40,000/fiscal year.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: FY 2014, EPA's Office of Enforcement and Compliance Assurance will provide funds to the EPA Regions to support compliance assurance and enforcement activities in Indian country. Fiscal Year 2015: FY 2015, EPA's Office of Enforcement and Compliance Assurance will provide funds to the EPA Regions to support compliance assurance and enforcement activities in Indian country. Fiscal Year 2016: No Current Data Available

If funds are made available in Fiscal Year 2013, the evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.313 INTERNATIONAL COMPLIANCE AND ENFORCEMENT PROJECTS

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Marine Protection, Research and Sanctuaries Act of 1972, Section 203; National Environmental Policy Act, Section 102(2)(F); Solid Waste Disposal Act, Section 8001; Safe Drinking Water Act, Section 1442(a)&(c), Public Law 93-523; Toxic Substances Control Act, Section 10, Public Law 94-469, 15

U.S.C 2601; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, Public Law 92-516, 7 U.S.C 136; Clean Air Act, Section 103, Public Law 95-95, 42 U.S.C 7401; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251.

OBJECTIVES:

The primary purpose of the proposed capacity building projects is to protect human health and the environment while advancing U.S. national interests through international environmental collaboration on environmental compliance and enforcement. This mission is supported by these strategic objectives: 1) Reduce Exposure to Toxic Chemicals; 2) Improve Urban Air Quality; 3) Reduce Hazardous Waste and Improve Waste Management; 4) Limit Global GHG Emissions and Other Climate-Forcing Pollutants; 5) Improve access to Clean Water; and 6) Build Strong Environmental Institutions and Legal Structures.

International capacity building plays a key role in protecting human health, communities and the environment by providing technical cooperation to help countries improve environmental compliance and enforcement in order to reduce air pollution, better manage air quality and global climates, manage drinking and surface water quality, and restore the land and mitigate sources of land pollution. OECA will work to transfer appropriate compliance and enforcement tools and techniques to key countries and regions as we collaborate with partners to improve compliance with domestic environmental laws in those countries. In addition, we will continue efforts to strengthen domestic, regional, and global networks on criminal and civil/administrative enforcement, build capacity in developing countries to monitor and enforce compliance with environmental laws, and raise awareness of the role of enforcement in ensuring sustainable development.

OECA plays a key role in ensuring trade-related activities support environmental protection, particularly related to effective enforcement of environmental laws. Initiatives relating to environmental trade and investment are carried out bilaterally, multilaterally or in connection with multilateral institutions such as the International Network for Environmental Compliance and Enforcement (INECE) and associated regional networks, INTERPOL's Environmental Crime Program, the World Trade Organization (WTO), World Bank, European Union (EU), and others. Also, OECA will support protection of human health and the ecosystem of North America through the United States participation in the North American Agreement on Environmental Cooperation and through leadership in the Enforcement Working Group of the Commission on Environmental Cooperation (CEC), the Organization for Economic Cooperation and Development (OECD), and other international entities. OECA will provide targeted capacity building support under the environmental cooperation agreements developed parallel to U.S. free trade agreements.

Funding Priority - Fiscal Year 2014: EPA expects to continue funding for ongoing activities that advance environmental compliance worldwide. Possible funding priorities include efforts to build capacity for compliance and enforcement in Africa, South America, and other parts of the world; support for international conferences on compliance and enforcement; and specific projects such as establishing a compliance and enforcement network in South America, preventing the illegal transboundary shipments of hazardous wastes and e-wastes, addressing compliance and enforcement issues in global climate change schemes, and international studies of best practices to exchange information among enforcement practitioners and policy makers.

Funding Priority - Fiscal Year 2015: EPA expects to continue funding for ongoing activities that advance environmental compliance worldwide. Possible funding priorities include efforts to build capacity for compliance and enforcement in El Salvador, South America, and other parts of the world; support for international conferences on compliance and enforcement; and specific projects such as establishing a compliance and enforcement network in South America, preventing the illegal transboundary shipments of hazardous wastes and e-wastes, addressing compliance and enforcement issues in air pollution laws that may impact global climate change, and international studies of best practices to exchange information among enforcement practitioners and policy makers.

Fiscal Year 2016: EPA expects to continue funding for ongoing activities that advance environmental compliance worldwide. Possible funding priorities include efforts to build capacity for compliance and enforcement in, South America, China and other parts of the world; support for international conferences on compliance and enforcement; and specific projects such as establishing a compliance and enforcement network in South America, preventing the illegal trans-boundary shipments of hazardous wastes and e-wastes, addressing compliance and enforcement issues in air pollution laws that may impact global climate change, and international studies of best practices to exchange information among enforcement practitioners and policy makers.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Discretionary funds are available for the awards under this program. Grants and cooperative agreements are available to support recipients' allowable direct cost expenditures associated with the approved project plus allocable portions of allowable indirect costs of the institution, in accordance with established EPA policy, 2 CFR 200. Funding awarded for international research under these projects does not include research within the purview of EPA's Office of Research and Development. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking blood or other information from humans).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, which submit applications proposing projects with significant technical merit and relevance to EPA's Office of Enforcement and Compliance Assurance's mission. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions.

Credentials/Documentation:

Office of Enforcement and Compliance Assurance (OECA) may require applicants to submit documentation of non-profit status. OECA may request applicants to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. OECA may also ask applicants or principal investigators to provide curriculum vitae and relevant publications. 2 CFR 200 and 1500 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional

information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA requires final applications to be made on Standard Form 424.

Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Under EPA Order No. 5700.5A1, Policy for Competition in Assistance Agreements (9/12/02), Assistance awards to Foreign Governments and to United Nations agencies and similar International Organizations, such as the Organization of American States and Organization for Economic Cooperation and Development (OECD), may be exempted from competition at the discretion of OECA. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. For non-competitive awards, OECA will conduct an administrative evaluation to determine the adequacy of the application in relation to grant regulations and a technical and program evaluation to determine the merit and relevance of the project. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds. Generally, EPA incrementally funds grants and cooperative agreements. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to OECA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. See the following for information on how assistance is awarded/released: Payments will be on an advance letter of credit or reimbursement basis; recipient must request the initial advance payment on SF 270, Request for Advance or Reimbursement.

Reports:

No program reports are required. No cash reports are required. Reporting requirements are identified at 40 CFR Parts 30 and 31. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Progress reports are required under this program. Expenditure Reports are required under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 Not Available; FY 15 est \$275,000; and FY 16 est \$170,000 - (Project Grants) FY 14 est. \$0, FY 15 est. \$275,000, FY 16 est. \$170,000.

Range and Average of Financial Assistance:

Range: \$30,000 - \$1,000,000; Average: FY 2010 est. \$400,000, FY 2011 est. \$300,000, FY 2012 est. \$620,000, FY 2013 est. \$150,000, FY 2014 est. \$0, FY 2015 est. \$275,000, FY 2016 est. \$170,000. Annual amounts fluctuate greatly because OECA usually issues a single large grants for multiple years with interim awards for other projects at much lower levels.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No additional awards were made in FY 2014, but incremental funding was made to awards made in previous years. In 2014, the program has completed training courses and enforcement policy development in Chile. The program expects to support inspection events in West Africa and Indonesia to curtail the illegal transport of hazardous wastes. In addition, the program established a regional enforcement network in South America and will continue to provide training and guidance as the network grows. Fiscal Year 2015: No additional awards were made in FY 2015, but incremental funding was made to awards made in previous years. In 2015, the program has completed training courses and enforcement policy development in Chile. The program supported the second meeting of the South American Network for Environmental Compliance and Enforcement. It also supported a workshop on air pollution enforcement in China. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

These grants and cooperative agreements are subject to EPA's General Grant Regulations (2 CFR 200 and 1500). Costs will be determined in accordance with 2 CFR 200 Subpart E for State and local governments and Indian Tribes, 2 CFR 200 Subpart E for educational institutions, and 2 CFR 200 Subpart E for nonprofit institutions.

Regional or Local Office:

None. All assistance agreements issued under this CFDA will originate in the Office of Enforcement and Compliance Assurance (OECA) at EPA Headquarters.

Headquarters Office:

David Swack USEPA Headquarters
Ariel Rios Building
1200 Pennsylvania Avenue, N. W.
Mail Code: 2201A, Washington, District of Columbia 20460 Email:

Website Address:

<http://www.epa.gov/enforcement/>

RELATED PROGRAMS:

66.310 Capacity Building Grants and Cooperative Agreements for Compliance Assurance and Enforcement Activities in Indian Country and Other Tribal Areas; 66.931 International Financial Assistance Projects Sponsored by the Office of International Affairs

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Projects funded in FY 2014 will include continued support for the establishment and operations of the South American Regional Compliance and Enforcement Network, including a kick-off meeting and training for member countries Chile, Peru, Colombia, and Ecuador on the collection and use of environmental forensics. Additional projects include the development of a conference and book relating global experiences with Next Generation Enforcement. The project continues to support the Seaport Environmental Enforcement Network, and continued maintenance and operation of the INECE.ORG website. Fiscal Year 2015: Projects funded in FY 2015 included continued support for the South American Regional Compliance and Enforcement Network, including the second meeting of the network in Lima, Peru. In addition, the project organized and hosted a conference in China on enforcement of air pollution laws. The project continues to support the Seaport Environmental Enforcement Network, and continued maintenance and operation of the INECE.ORG website. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.418 CONSTRUCTION GRANTS FOR WASTEWATER TREATMENT WORKS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009, Public Law 111-5; Clean Water Act, Section 101(e)&109(b), Public Law 92-500; Clean Water Act, Section 208(d)&304(d)(3), Public Law 92-500; Clean Water Act, Section 502,511,516(b), Public Law 92-500; Clean Water Act, Section 313,319,320,501, Public Law 92-500; Clean Water Act, Section 210-212&215-219, Public Law 92-500; Clean Water Act, Section 201-205, 207, Public Law 92-500; Clean Water Act, Public Law 101-144; Clean Water Act, Public Law 100-4; Clean Water Act, Public Law 95-217; Clean Water Act, Public Law 96-483; Clean Water Act, Public Law 97-117.

OBJECTIVES:

To assist and serve as an incentive in construction of municipal wastewater treatment works which are required to meet State and/or Federal water quality standards and improve the water quality in the waters of the United States. From fiscal year (FY) 2004 onwards, American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia may use up to four percent of the funds appropriated under Title VI for administration and closeout of their construction grant program.

Funding Priority - Fiscal Year 2015: Funds will be awarded to assist in construction of municipal wastewater treatment works which are required to meet state and/or federal water quality standards and improve the water quality in the waters of the United States. Annual funding priorities are determined by the state in which the grantee is located. The project must be given priority by the state water pollution control agency through its project priority system and recommended for funding for approval by the EPA Regional Office.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds are used for construction of municipal wastewater treatment works including privately owned individual treatment systems, if a municipality applies on behalf of a number of such systems. Such works may serve all or portions of individual communities, metropolitan areas, or regions. A project may include, but may not be limited to, treatment of industrial wastes. The grantee must require pretreatment of any industrial wastes which would otherwise be detrimental to efficient operation and maintenance, or the grantee must prevent the entry of such waste into the treatment plant. The grantee must have or initiate an acceptable system of user charges. From FY 2004 onwards, American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia may use up to four percent of the funds appropriated under Title VI for administration and closeout of their construction grant program. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:

<http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Any state, local, intrastate agency, or interstate agency, or Federally-Recognized Indian tribal government, having jurisdiction over waste disposal. At present, new funding for the construction grants program exists only in American Samoa, Commonwealth of Northern Mariana Islands, Guam, Virgin Islands, and the District of Columbia because they are exempt by the U.S. Congress from establishing a State Revolving Fund (SRF). Grants are awarded to only these territories and the District of Columbia from the SRF funds (Title VI grants), which are awarded as Title II grants. Funding requests for construction of wastewater treatment facilities are now to be made to the SRF representative of the State in which the construction is proposed.

Beneficiary Eligibility:

Anyone/General Public. Anyone to be served by a wastewater treatment works assisted by this program.

Credentials/Documentation:

1) Certified copy of authorization and assurances from the applicant's governing body. Authorization must be current, and must designate by name and title the individual who will represent the applicant; (2) current description of the project; (3) statement explaining exact nature of local, State, and any other Federal funds which may be used to finance the project; (4) applicant assurance (which is acceptable to the Regional Administrator) that any necessary discharge permit has been or will be obtained in accordance with Section 401, of Public Law 92-500, as amended; (5) conformance with requirements set forth in 40 CFR Part 35; Subpart I. Application may be made for grant assistance for building and erection of the treatment works with an allowance for planning and design costs at the time that the grant for construction is made. Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

This is an existing program which is winding down as the funding is now being provided under the Clean Water State Revolving Fund Program for construction of wastewater treatment facilities. An environmental assessment is required for this program, which may require the development of an environmental impact statement by EPA. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications must be

submitted through the State water pollution control agency to the appropriate EPA Regional Office. The standard application forms as furnished by the Federal agency must be used for this program. EPA requires final applications to be made on the Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at:

http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Projects considered for award must be approved by the state water pollution control agency and also certified by such agency as a priority over any other eligible projects. Award is made following such certification and approval by a Regional Office of EPA. Funds authorized by the Congress are allotted to the States in accordance with The Clean Water Act, as amended. Grant awards within individual states are limited by the funds which have been allotted to such states.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Up to 45 days, for EPA Regional Office action after certification by delegated State.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program operates under Section 202 of the Clean Water Act. This program has no statutory formula. The Federal grant may be for up to 55 percent for grants awarded after September 30, 1984 or for 75 percent of eligible project costs for grant assistance awarded before October 1, 1984. The States may lower these percentages with the concurrence of the Regional Administrator pursuant to Section 202(a)(1) of the Clean Water Act as amended by Public Law 100-4. For innovative or alternative treatment processes and techniques referred to in section 201(g)(5) the funding shall be 20 per centum greater than the above approved percentage, but in no event greater than 85 per centum of the cost of construction of the project being funded with the grant. The grantee must assure that they will provide funds for all remaining costs. Some States assist grantees in providing all or part of the non-Federal share. American Samoa, Guam, Northern Marianas Islands, and Virgin Islands will receive the funds allocated up to 100 percent of the cost of construction. Recovery Act funds allotted to the District of Columbia, American Samoa, Guam, Northern Mariana Islands, and Virgin Islands have no match requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Any Title VI sums that are allotted as Title II to the District of Columbia, American Samoa, Guam, Northern Mariana Islands, and Virgin Islands will be available for obligation for a period of one year after the close of the fiscal year for which the sums are authorized. The term of the grant shall be determined at the time of grant award. Grant payments are based on work completed, equipment delivered, or sometimes off-site manufacturing or services rendered. Final grant payment is made after construction is completed and satisfactory final inspection and performance evaluation are carried out. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Annual inspection by the State agency for compliance with permit requirements including a written report concerning operation and maintenance of waste treatment facility, and certification one year after beginning operation that the works are meeting project performance standards. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years after project closeout, and if questions still remain, such as those raised in a court appeal, related records should be retained until the matter is completely resolved.

Account Identification:

68-0102-0-1-304; 68-0103-0-1-304.

Obligations:

(Project Grants) FY 14 \$26,848,000; FY 15 est \$27,576,000; and FY 16 est \$27,000,000 - Title II obligations available for construction grants to District of Columbia, American Samoa, Guam, Northern Mariana Islands, and the Virgin Islands.

Range and Average of Financial Assistance:

CWA Title II grants Range: \$100,000 to \$10,000,000/fiscal year; Average: \$5,000,000/fiscal year.

TAFS Codes:

68-0103; 68-0102.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In Fiscal Year 2014, 12 grants for approximately \$26.8 million were awarded. Projects funded included new and expanded wastewater treatment plants, infiltration/inflow correction, stormwater projects, new collector sewers, nutrient removal, new and rehabilitated sewer lines, and green infrastructure. Fiscal Year 2015: In Fiscal Year 2015, it is anticipated that 10 grants for \$27 million will be awarded. Projects to be funded include new and expanded wastewater treatment plants, infiltration/inflow correction, stormwater projects, new collector sewers, nutrient removal, new and rehabilitated sewer lines, and green infrastructure. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Grants for Construction of Treatment Works, Environmental Protection Agency (40 CFR Part 35, Subpart E (and Subpart I), applicable to grants awarded after May 12, 1982); General grant regulations and procedures, 2 CFR 200 and 1500, as applicable; "Construction Grants 1985 (Guidelines for applicants and grantees)"; and Construction Grants Handbook of Procedures (Guidelines for Project Officers)." For these and other publications, please contact EPA's Office of Wastewater Management, Municipal Support Division, MC-4204M, 1200 Pennsylvania Ave., NW, Washington, DC 20460.

Regional or Local Office:

See Regional Agency Offices. Information regarding appropriate waste treatment requirements and State and Federal assistance may be obtained from the State water pollution control agency. Individuals may also communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Also, contact your State agency concerning possible assistance under a State revolving fund (Title VI) of the 1987 Amendments of the Clean Water Act.

RELATED PROGRAMS:

66.458 Capitalization Grants for Clean Water State Revolving Funds

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: New and expanded wastewater treatment plants, infiltration/inflow correction, stormwater projects, new collector sewers, nutrient removal, new and rehabilitated sewer lines, and green infrastructure projects. Fiscal Year 2015: New and expanded wastewater treatment plants, infiltration/inflow correction, stormwater projects, new collector sewers, nutrient removal, new and rehabilitated sewer lines, and green infrastructure projects. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Annual funding priorities are determined by the State in which the grantee is located. The project must be given priority by the State water pollution control agency through its project priority system and recommended for funding for approval by the EPA Regional Office.

66.419 WATER POLLUTION CONTROL STATE, INTERSTATE, AND TRIBAL PROGRAM SUPPORT

(106 Grants)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 106, Public Law 95-217, 33 U.S.C 1251.

OBJECTIVES:

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2015: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh water for state water quality standards. States

NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, data management and standards development.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Water pollution control grants are intended to provide continuing support for the prevention and abatement of surface and ground water pollution from point and nonpoint sources. Continuing and recurrent water quality management program activities funded include water quality planning and standards; monitoring and assessments; inspections and enforcement; permitting; training; advice and assistance to local agencies; and public information. Funds cannot be used for construction, operation, or maintenance of waste treatment plants, nor can they be used for costs financed by other Federal grants. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible entities include States (including the District of Columbia and territories), interstate water pollution control agencies as defined in the Federal Water Pollution Control Act, and Indian tribes qualified under CWA Section 518(e). Agencies making application for funds must annually submit their pollution-control program to the appropriate EPA Regional Administrator for approval. Requirements of the program are based on Section 106 of the Act, 2 CFR 200 and 1500 as applicable, and 40 CFR Parts 35 and 130. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States (including the District of Columbia), Territories, interstate water pollution control agencies and Indian tribes qualified under Section 518(e) of the Clean Water Act (CWA).

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. State and interstate agencies and Indian tribes qualified under Section 518(e) of the Clean Water Act must show compliance with 40 CFR 35, Subpart A and Subpart B.

Costs will be determined in accordance with OMB Circular No. A-87 for State, tribal, and local governments. State and interstate agencies and Indian tribes qualified under Section 518(e) of the Clean Water Act must show compliance with 40 CFR 35, Subpart A and Subpart B. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Informal meetings are held between regional office, State, territorial, and Indian tribe applicant agencies concerning program preparation. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. The grant

agreement must adequately reflect the priorities identified in the State/EPA Agreement. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The grants application must be submitted to the appropriate EPA Regional Office, Grants Administration Branch (see Appendix IV of the Catalog). The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500, as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>

Award Procedure:

Applications are reviewed by the appropriate EPA Regional Office and if approved, are signed by the Regional Administrator. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 30 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act, Chapter CFR 35.162. The regulation that implements the formula can be found at 40 CFR 35.162. As stated in the Clean Water Act, appropriated funds are allotted among the State and Interstate Water Pollution Control Agencies on the basis of the extent of the

pollution problems in the respective States. The six components in the Section 106 State allotment formula selected to reflect the extent of the water pollution control problems in the United States are: (1) surface water area; (2) ground water use; (3) water quality impairment; (4) point sources; (5) non-point sources; and (6) population of urbanized areas. The set-aside for Interstate Water Pollution Control Agencies is 2.6 percent of the total State monies appropriated under Section 106. The interstate allotment formula consists of two parts: (1) a funding floor, and (2) a variable portion. To receive a Section 106 Water Pollution Control grant, a State or interstate agency must expend annually for recurrent Section 106 program expenditures an amount of non-federal funds at least equal to expenditures during the fiscal year ending June 30, 1971. A portion of the annual Section 106 appropriation is set-aside for eligible Indian Tribes qualified under CWA Section 518(e), and an allocation formula is used to distribute these funds to the EPA Regions. The Tribal allocation formula consists of both a base portion (which is currently equal to approximately \$65,000 times the total number of Tribes with Treatment in a manner similar to a State [TAS] approval for Section 106 grants in each EPA Region), plus a weighted variable portion. The variable portion is based upon the total tribal water area (50 percent), land area (25 percent), and reservation population (25 percent) in each EPA Region. Tribal work plan costs include the costs of planning, developing, establishing, improving, and maintaining a water pollution control program. The Regional Administrator may provide up to 95 percent of the approved work plan costs for Tribes or intertribal consortia establishing a Section 106 water pollution control program. The Regional Administrator may increase the maximum Federal share if the tribe or intertribal consortium can demonstrate in writing to the satisfaction of the Regional Administrator that fiscal circumstances within the Tribe or within each Tribe that is a member of an intertribal consortium are constrained to such an extent that fulfilling the 5 percent match requirement would impose undue hardship. Since 2005, additional funds have been allocated for the purposes of strengthening State and Territorial water quality monitoring programs.

Matching Requirements: To receive a Section 106 Water Pollution Control grant, a State or interstate agency must expend annually for recurrent Section 106 program expenditures an amount of non-federal funds at least equal to expenditures during the fiscal year ending June 30, 1971. A portion of the annual Section 106 appropriation is set-aside for eligible Indian Tribes qualified under CWA Section 518(e), and an allocation formula is used to distribute these funds to the EPA Regions. The Tribal allocation formula consists of both a base portion (which is currently equal to approximately \$65,000 times the total number of Tribes with Treatment in a manner similar to a State [TAS] approval for Section 106 grants in each EPA Region), plus a weighted variable portion. The variable portion is based upon the total tribal water area (50 percent), land area (25 percent), and reservation population (25 percent) in each EPA Region. Tribal work plan costs include the costs of planning, developing, establishing, improving, and maintaining a water pollution control program. The Regional Administrator may provide up to 95 percent of the approved work plan costs for Tribes or intertribal consortia establishing a Section 106 water pollution control program. The Regional Administrator may increase the maximum Federal share if the tribe or intertribal consortium can demonstrate in writing to the satisfaction of the Regional Administrator that fiscal circumstances within the Tribe or within each Tribe that is a member of an intertribal consortium are constrained to such an extent that fulfilling the 5 percent match requirement would impose undue hardship. Since 2005, additional funds have been allocated for the purposes of strengthening State and Territorial water quality monitoring programs.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

One year; payments are approved quarterly and disbursed monthly. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are

required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$233,508,600; FY 15 est \$229,293,000; and FY 16 est \$249,164,000

Range and Average of Financial Assistance:

Range: \$30,000 to \$11,854,000/fiscal year; Average: \$5,000,000/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In each fiscal year, grants are awarded to conduct Water Pollution Control programs by the 50 States, 6 Territories, the District of Columbia, 6 Interstate Commissions, and Indian Tribes qualifying under CWA Section 518(e). FY 14 funds were used to continue to support State and Tribes' efforts to fulfill their basic responsibilities under the CWA and identify program activities that best support attaining targeted environmental improvements. States and tribes will continue working on: implementing monitoring strategies and the development of statistically-valid surveys to determine water quality status and trends; fostering a watershed approach including total maximum daily loads (TMDLs) and the development of watershed plans designed to meeting water quality standards; and the implementation of concentrated animal feeding operations (CAFOs) and storm water permitting programs. At a minimum, Regional watershed based strategies give priority to: 1) fostering the development of watershed plans under State nonpoint source programs; 2) assuring that high priority permits are current; 3) tracking permitting for environmental results program integrity follow-up actions; 4) developing TMDLs for impaired waters; and 5) developing numeric nutrient criteria. Fiscal Year 2015: In each fiscal year, grants are awarded to conduct Water Pollution Control programs by the 50 States, 6 Territories, the District of Columbia, 6 Interstate Commissions, and Indian Tribes qualifying under CWA Section 518(e). FY 15 funds will be used to continue to support State and Tribes' efforts to fulfill their basic responsibilities under the CWA and identify program activities that best support attaining targeted environmental improvements. States and tribes continued working on: implementing monitoring strategies and the development of statistically-valid surveys to determine water quality status and trends; fostering a watershed approach including total maximum daily loads (TMDLs) and the development of watershed plans designed to meeting water quality standards; and the implementation of concentrated animal feeding operations (CAFOs) and storm water permitting programs. At a minimum, Regional watershed based strategies give priority to: 1) fostering the development of watershed plans under State nonpoint source programs; 2) assuring that high priority permits are current; 3) tracking permitting for environmental results program integrity follow-up actions; 4) developing TMDLs for impaired waters; and 5) development of numeric criteria for nutrients. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures, Environmental Protection Agency (2 CFR 200 and 1500 as applicable); Handbook of Procedures, State and Interstate Program Grants; Environmental Protection Agency, State and Local Assistance Programs, Grants for Water Quality Planning, Management and Implementation (40 CFR Part 130 and 40 CFR Part 35 Subpart A and B).

RELATED PROGRAMS:

66.454 Water Quality Management Planning; 66.600 Environmental Protection Consolidated Grants for the Insular Areas - Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grants are made to States, interstate agencies, and tribes qualified under CWA Section 518(e), for the administration of State and tribal programs for the prevention, reduction, and control of water pollution. Activities funded include administration of State and tribal water quality planning programs; water quality standards programs; water quality monitoring and assessments; National Pollutant Discharge and Elimination System (NPDES) permitting programs; compliance and enforcement programs, and ground water protection programs. More specifically, adoption and implementation of new comprehensive monitoring strategies, as stated in the March 2003 Elements of a State Water Monitoring and Assessment Guidance, and the development of statistically valid monitoring networks to help target activities and determine water quality status and trends; enhancement of the quality and timeliness of state/tribal water quality standards triennial reviews so that standards are based on sound science and EPA guidance; adoption of nutrient criteria for state water quality standards; effective management of the permit program through State participation on (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations; implementation of program enhancements identified in the FY 2004 comprehensive assessment of NPDES program integrity; and State storm water and concentrated animal feeding operations (CAFO) permitting programs, wet weather issues and combined sewer overflows (CSOs). Fiscal Year 2015: Grants are made to States, interstate agencies, and tribes qualified under CWA Section 518(e), for the administration of State and tribal programs for the prevention, reduction, and control of water pollution. Activities funded include administration of State and tribal water quality planning programs; water quality standards programs; water quality monitoring and assessments; National Pollutant Discharge and Elimination System (NPDES) permitting programs; compliance and enforcement programs, and ground water protection programs. More specifically, adoption and implementation of new comprehensive monitoring strategies, as stated in the March 2003 Elements of a State Water Monitoring and Assessment Guidance, and the development of statistically valid monitoring networks to help target activities and determine water quality status and trends; enhancement of the quality and timeliness of state/tribal water quality standards triennial reviews so that standards are based on sound science and EPA guidance; adoption of nutrient criteria for state water quality standards; effective management of the permit program through State

participation on (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations; implementation of program enhancements identified in the FY 2004 comprehensive assessment of NPDES program integrity; and State storm water and concentrated animal feeding operations (CAFO) permitting programs, wet weather issues and combined sewer overflows (CSOs). Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Section 106 funds are awarded to State, territory, interstate, and Indian tribal agencies in accordance with overall water quality management needs, the requirements of programs covered by these agreements, and EPA Program guidance. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.424 SURVEYS, STUDIES, INVESTIGATIONS, DEMONSTRATIONS, AND TRAINING GRANTS - SECTION 1442 OF THE SAFE DRINKING WATER ACT

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act , Section 1442, Public Law 104-182; National Environmental Policy Act , Section 102(2)(F).

OBJECTIVES:

(1) To support surveys, studies, investigations, demonstrations, and training associated with source water and drinking water; (2) To develop and expand capabilities of programs to carry out the purposes of the Safe Drinking Water Act (SDWA).

Funding Priority - Fiscal Year 2015: Funding priorities include providing assistance for the following: (1) research on the occurrence of contaminants in drinking water; (2) source water protection and treatment methods and measures to protect water quality in the distribution system and at the tap; (3) tribal source water protection program support and tribal operator certification program support; (4) tribal capacity development program support; and (5) assistance to tribes in administration of the Drinking Water Infrastructure Grants to identify health effects associated with drinking water contaminants. Funding priorities also include providing assistance for the following training and technical assistance activities: (1) training personnel who manage or operate public water systems; (2) training personnel for occupations involving the public health aspects of providing safe drinking water; (3) training to develop and expand the capabilities of states and municipalities to carry out the SDWA; and (4) technical assistance to enable small public water systems to meet the requirements of SDWA.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The funds will support research, investigations, studies, demonstrations, and training associated with source water and drinking water. Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved scopes of work, plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that

was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S. (including the District of Columbia); public and private universities and colleges; hospitals; laboratories; public or private nonprofit institutions; and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, and other public and private nonprofit institutions and individuals.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E

. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. This program is subject to the provisions of 2 CFR 200 and 1500 as applicable. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, announcements for competitive funding opportunities will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in

accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for water surveys, studies, demonstrations, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, availability of funds, and Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula. For certain competitive funding opportunities under this CFDA description, the Agency may include matching requirements consistent with the Agency's Assistance Agreement Competition Policy. Match may be cash or in-kind consistent with the regulation governing match requirements (2 CFR 200 and 1500). Specific matching requirements will be described in detail in the competitive announcements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA may negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 200 and 1500, as applicable, apply. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0107-0-1-304; 68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$11,862,843; FY 15 est \$9,800,000; and FY 16 est \$10,000,000

Range and Average of Financial Assistance:

Range: \$10,000 to \$6,900,000/fiscal year; Average: \$1,150,000/fiscal year.

TAFS Codes:

68-0108; 68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Competitions are held throughout the year at Headquarters and in the Regions based on available funds and Agency priorities. Competitive announcements typically include the number of anticipated awards. Three awards were made in FY 14 in support of drinking water and source water initiatives associated with developing and expanding capabilities of programs to carry out the purposes of the SDWA. Fiscal Year 2015: Competitions are held throughout the year at Headquarters and in the Regions based on available funds and Agency priorities. Competitive announcements typically include the number of anticipated awards. In FY 15, it is anticipated that additional support for drinking water and source water initiatives will be provided. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, and investigations grants and cooperative agreements are subject to the regulations at 2 CFR 200 and 1500. Training grants and cooperative agreements are subject to EPA's Regulations for Training Assistance (40 CFR Part 45).

Regional or Local Office:

See Regional Agency Offices. EPA encourages potential applicants to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog, and the Headquarters program contacts listed below.

Headquarters Office:

Joe Jackson, Environmental Protection Agency, Office of Ground Water and Drinking Water, 1200 Pennsylvania Avenue, Washington, District of Columbia 20460 Email: jackson.joe-a@epa.gov Phone: (202) 564-3817.

Website Address:

RELATED PROGRAMS:

66.034 Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act; 66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act; 66.510 Surveys, Studies, Investigations and Special Purpose Grants within the Office of Research and Development; 66.610 Surveys, Studies, Investigations and Special Purpose Grants within the Office of the Administrator; 66.716 Research, Development, Monitoring, Public Education, Training, Demonstrations, and Studies

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Assisting states in effective implementation of SDWA

requirements; assistance to states in ground water protection and conservation; developing utility planning tools; capacity development support; and source water protection through prevention. Fiscal Year 2015: Assisting states in effective implementation of SDWA requirements; assistance to states in ground water protection and conservation; developing utility planning tools; capacity development support; and source water protection through prevention. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.432 STATE PUBLIC WATER SYSTEM SUPERVISION

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Public Health Service Act; Safe Drinking Water Act of 1974, Public Law 93-523; Safe Drinking Water Act Amendments of 1996, Public Law 104-182; Safe Drinking Water Act of 1974, Public Law 95-190; Safe Drinking Water Act of 1974, Public Law 96-16; Safe Drinking Water Act of 1974, Public Law 96-502.

OBJECTIVES:

The objective of these grants is to provide financial assistance to eligible States and Tribes (those that have Primary Enforcement Responsibility for the Public Water System Supervision (PWSS) Program, for implementation and enforcement of the requirements of the Safe Drinking Water Act that apply to public water systems. In cases where a State or a Tribe does not have a Primary Enforcement Responsibility program, EPA is authorized to use funds that would have otherwise been made available to the State or the Tribe to assist it in direct implementation of the PWSS program. The fundamental goal of the PWSS Program, and the grants, is to ensure that public water systems comply with the National Primary Drinking Water Regulations listed in 40 CFR 141 (http://www.ecfr.gov/cgi-bin/text-idx?c=ecfr&tpl=/ecfrbrowse/Title40/40cfr141_main_02.tpl). State drinking water agencies, which have Primary Enforcement Responsibility for the PWSS Program, and Indian Tribes that receive PWSS grants are to use them to ensure that public drinking water systems, of all types, and of all sizes: (1) are currently in compliance with the drinking water regulations and remain in compliance, (2) are working towards and in the process of achieving compliance when these systems are noncompliant, and (3) are preparing for future compliance with any new drinking water regulations that will be taking effect in the current or following year. Furthermore, State drinking water agencies, which have Primary Enforcement Responsibility for the PWSS Program, and Indian Tribes that receive PWSS grants are required to use the funds to update and maintain its PWSS program to comply with the National Primary Drinking Water Regulations Implementation requirements listed in 40 CFR 142 (<http://www.ecfr.gov/cgi-bin/text-idx?c=ecfr&SID=9fd40a5dfb416f9b56716c0808f3968b&rgn=div5&view=text&node=40:24.0.1.1.4&idno=40>) to ensure that the State or Tribal PWSS program is capable of conducting oversight of all public water systems as new drinking water rules, new public water systems, and/or drinking water program requirements become effective.

Funding Priority - Fiscal Year 2015: The priority for the PWSS grants is to ensure that the population served by community water systems will receive drinking water that meets all applicable health-based drinking water standards. This includes ensuring public water systems implement and comply with the new drinking water rules: Stage 2 Disinfectants and Disinfection Byproducts Rule, Long Term 2 Enhanced Surface Water Treatment Rule, and Ground Water Rule. Furthermore, EPA's priority is for States and Tribal PWSS Programs to meet the primary enforcement responsibilities, listed as follows, along with preparing the States and Tribal PWSS program for implementation of the recently promulgated Revised Total Coliform Rule. The primary components of a State or Tribal PWSS program are: (1) the adoption and implementation of State and Indian Tribe drinking water regulations at least as stringent as the Federal regulations; (2) the development and maintenance of database(s) of an inventory of public water systems and housing of public water system compliance information; (3) the conduct of sanitary surveys, which identifies sanitary deficiencies and requires that these deficiencies to be

addressed, at public water systems; (4) the establishment and maintenance of a laboratory certification program for approval of laboratories to perform analyses of drinking water contaminants/analytes, including the assurance of adequate laboratory capacity to perform drinking water analyses; (5) the review of public water system plans and specifications; (6) the establishment of legal enforcement and authority to assess penalties to compel public water systems' compliance with the National Primary Drinking Water Regulations; (7) the adoption of regulations consistent with 40 CFR part 3 which deals with electronic documents; and (8) the adoption and implementation of an adequate plan for providing safe drinking water during emergency circumstances.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The funds are to be used to develop and implement a Public Water System Supervision Program adequate to enforce the requirements of the Safe Drinking Water Act and associated program regulations found in 40 CFR Parts 141, 142, and 143. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligibility is limited to the governments of the fifty States; the District of Columbia; the Commonwealth of Puerto Rico; the Northern Mariana Islands; the Virgin Islands; Guam; American Samoa; and federally recognized Tribes, that have either assumed primary enforcement responsibility for the PWSS Program or that want to develop a program that will allow them to seek delegation for a PWSS Program. EPA may also use funds allotted for a State or Tribal program, if the State or Tribe does not have, or is not developing, primary enforcement responsibility, or EPA may use all or part of the funds to support the PWSS Program in absence of an acceptable State program. Eligibility is also limited to a single agency within each State, Territory, or Tribe - an agency that has been designated by the jurisdiction's Governor or Chief Executive Officer. Primary Enforcement Responsibility for the Public Water System Supervision Program is provided for in 40 CFR 142 (http://www.access.gpo.gov/nara/cfr/waisidx_02/40cfr142_02.html).

Beneficiary Eligibility:

The beneficiaries are the agencies within the fifty States; the District of Columbia; the Commonwealth of Puerto Rico; the Northern Mariana Islands; the Virgin Islands; Guam; American Samoa; and federally recognized Tribes, that have been designated by the jurisdiction's Governor or Chief Executive Officer as being responsible for the supervision of water supplies within the State, Territory, or Tribe.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed

in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The grant application, including a Program Plan, must be submitted to the appropriate EPA Regional Administrator. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

The grant application and Program Plan are reviewed by the appropriate EPA Regional Office, and if approved, are signed by the Regional Administrator, who then awards the funds to the recipient.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Maximum of 60 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Safe Drinking Water Act of 1974, Public Law 93-523. State allotments are computed through use of a formula, as prescribed in Public Law 93-523 Section 1443 (a)(3) and (a)(4), 40 CFR 35.172. Funds appropriated each year are allotted on the basis of: (a) State, Territory, or Tribal population (20 percent) as contained in the most currently available (published) U.S. Census Bureau data; (b) State, Territory, or Tribal geographical area (10 percent) as contained in the most currently available (published) U.S. Census Bureau data; (c) the number of active community and non-transient non-community water systems being regulated by the State, Territory, or Tribe that are on record in EPA's data system (56 percent); and (d) the number of active transient non-community water systems being regulated by the State, Territory, or Tribe that are on record in EPA's data system (14 percent). All States, the District of Columbia, and Puerto Rico are eligible for a minimum of \$334,500 (which is equal to 1 percent of the FY 1989 PWSS Program appropriation). The American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands are eligible for a minimum of \$111,500 (which is equal to 1/3 percent of the FY 1989 PWSS Program appropriation). Up to seven percent of the amount appropriated for the PWSS Program is set-aside to support Public Water System Supervision programs on Indian lands (including grants to Tribes) in accordance with EPA Grant Regulations. The formula factors of population and land area are statutory. The other factors, and all of the weightings, are Agency imposed. Federal assistance is limited to 75 percent of total, eligible program costs.

Matching Requirements: Federal assistance is limited to 75 percent of total, eligible program costs.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Annual grants. The term of the grant shall be determined at the time of grant award. Awards are released through letters of credit or reimbursement. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report or until any audit exceptions have been resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$101,963,000; FY 15 est \$101,294,000; and FY 16 est \$109,700,000

Range and Average of Financial Assistance:

Range of \$120,000 to \$6,591,000/fiscal year; Average of \$1,534,758/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: During FY 2014, 49 States, five territories, and one Indian Tribe (Navajo Nation) were awarded grant funding under the PWSS Program. The majority of the grant funds were used for State, territorial, or Tribal governmental salaries to allow the governments to: develop and maintain State drinking water regulations; develop and maintain an inventory of public water systems throughout the State; develop and maintain a database housing compliance information on public water systems; conduct sanitary surveys on the public water systems; review public water system plans and specifications to ensure systems meet State design standards; provide technical assistance and training to water system managers and operators to ensure they are knowledgeable of the State requirements and best treatment and operation practices; conduct of a program to ensure that the public water systems keep their consumers informed about the quality of the water they are providing; inspect and certify laboratories that are allowed to perform the analysis of

drinking water that will be used to determine compliance with the drinking water regulations; and conduct an enforcement program to ensure that the public water systems comply with all of the requirements. States, territories, and Tribes also use the grant funds to upgrade and maintain the data systems that are used to store and track information on public water systems. Fiscal Year 2015: During FY 2015, 49 States, five territories, and one Indian Tribe (Navajo Nation) were awarded grant funding under the PWSS Program. The majority of the grant funds were used for State, territorial, or Tribal governmental salaries to allow the governments to: develop and maintain State drinking water regulations; develop and maintain an inventory of public water systems throughout the State; develop and maintain a database housing compliance information on public water systems; conduct sanitary surveys on the public water systems; review public water system plans and specifications to ensure systems meet State design standards; provide technical assistance and training to water system managers and operators to ensure they are knowledgeable of the State requirements and best treatment and operation practices; conduct of a program to ensure that the public water systems keep their consumers informed about the quality of the water they are providing; inspect and certify laboratories that are allowed to perform the analysis of drinking water that will be used to determine compliance with the drinking water regulations; and conduct an enforcement program to ensure that the public water systems comply with all of the requirements. States, territories, and Tribes also use the grant funds to upgrade and maintain the data systems that are used to store and track information on public water systems. Fiscal Year 2016: No Current Data Available

RELATED PROGRAMS:

66.433 State Underground Water Source Protection; 66.468 Capitalization Grants for Drinking Water State Revolving Funds

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Funding was awarded to each of the 49 States, five territories, and one Indian Tribe that has primary enforcement responsibility for the PWSS Program. The grants were used by these governments, primarily for governmental salaries to: develop State or Tribal drinking water regulations, update and maintain an inventory of drinking water systems, manage information on public water systems, ensure public participation regarding drinking water systems, provide technical assistance to public water systems, and enforce drinking water quality standards as required to comply with the National Primary Drinking Water Regulations Implementation requirements listed in 40 CFR 142 to thereby ensure that the State or Tribal PWSS program is capable of conducting oversight of all public water systems as new drinking water rules, new public water systems, and/or drinking water program requirements become effective. In total for FY 2014, the State, territory, and tribal PWSS primary enforcement programs used the PWSS grant to assist an estimated 150,310 public water systems. Fiscal Year 2015: Funding was awarded to each of the 49 States, five territories, and one Indian Tribe that has primary enforcement responsibility for the PWSS Program. The grants were used by these governments, primarily for governmental salaries to: develop State or Tribal drinking water regulations, update and maintain an inventory of drinking water systems, manage information on public water systems, ensure public participation regarding drinking water systems, provide technical

assistance to public water systems, and enforce drinking water quality standards as required to comply with the National Primary Drinking Water Regulations Implementation requirements listed in 40 CFR 142 to thereby ensure that the State or Tribal PWSS program is capable of conducting oversight of all public water systems as new drinking water rules, new public water systems, and/or drinking water program requirements become effective. In total for FY 2015, the State, territory, and tribal PWSS primary enforcement programs used the PWSS grant to assist an estimated 150,310 public water systems. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

(1) Adequacy of States and Tribes (those that have Primary Enforcement Responsibility for the PWSS Program) for the adoption and enforcement of drinking water regulations which are no less stringent than the national primary drinking regulations as listed in 40 CFR 141 and 40 CFR 142. (2) Designation of a State agency to receive the grant and be responsible for conducting the public water system supervision program. (3) Compliance with requirements of 2 CFR 200 and 1500 as applicable, and 40 CFR 35.

**66.433 STATE UNDERGROUND WATER SOURCE PROTECTION
FEDERAL AGENCY:**

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act of 1974, Public Law 93-523; Safe Drinking Water Act Amendments of 1996, Public Law 104-182, 42 U.S.C 300; Safe Drinking Water Act Amendments of 1986, Public Law 99-339; Safe Drinking Water Act of 1974, Public Law 96-63; Safe Drinking Water Act of 1974, Public Law 96-502.

OBJECTIVES:

To foster development and implementation of underground injection control (UIC) programs under the Safe Drinking Water Act (SDWA). The objective of the grant program is to provide financial assistance, to eligible States and Tribes, for the implementation of their UIC Program. The fundamental goal of the program, and the grants, is to ensure that underground sources of drinking water are protected from endangering injection activities.

Funding Priority - Fiscal Year 2015: The program will fund the major components of State UIC programs which include: the development and maintenance of inventories of injection systems; the development and maintenance of databases housing compliance information on underground injection well activities; the implementation of UIC permitting activities; and the implementation of enforcement programs to ensure that underground sources of drinking water are protected from underground injection activities.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The funds are to be used to develop and implement an underground injection control program adequate to enforce the requirements of the Safe Drinking Water Act. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, U.S. Territories and possessions, and Indian Tribes that qualify as Programs that have delegated primary Enforcement Authority pursuant to SDWA amendments of 1986.

Beneficiary Eligibility:

States, U.S. Territories, and Indian Tribes.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Applications are subject to State and area wide clearinghouses review pursuant to procedures in the proposed 40 CFR Part 19. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The grant application must be submitted to the appropriate EPA Regional Administrator. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm.

Award Procedure:

Applications are reviewed by the appropriate EPA Regional Office and, if approved, the funds are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Safe Drinking Water Act. This program operates under a formula which uses criteria set forth in the SDWA, Section 1443(b)(4). Matching Requirements: Except for Indian Tribes, Federal assistance is limited to 75 percent of eligible costs, not to exceed the State allotment. The statistical factors used for allocation include: (1) population of State, based on the most recent Census Bureau data; (2) State land area, based on the most recent Census Bureau data; and (3) injection practices by State, based on data reported by States and maintained by EPA as of the most recent fiscal year prior to allocation development. For Indian Tribes, Federal assistance is limited to 90 percent of eligible costs. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method

of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents which support entries on accounting records and substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report, or until any audit exceptions have been resolved.

RELATED PROGRAMS:

66.432 State Public Water System Supervision

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grant funds are used by the States for such purposes as State regulation review, program plan developments, data management, inventory of injection facilities, public participation, technical assistance and review, permit approval and enforcement, and surveillance and investigation. Fiscal Year 2015: Grant funds are used by the States for such purposes as State regulation review, program plan developments, data management, inventory of injection facilities, public participation, technical assistance and review, permit approval and enforcement, and surveillance and investigation. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

1) Adequacy of State's annual program plan for an enforceable underground injection control program; (2) compliance with requirements of 2 CFR 200 and 1500 as applicable, and 40 CFR 35, and Executive Order No. 12367 (Revised); (3) designation of a State agency to receive the grant and be responsible for coordinating the underground water source protection program; and (4) evidence that Federal grant funds will not supplant the State's nonfederal funding committed to underground water source protection efforts. For Indian Tribes: (1) demonstration of Tribal adequacy; and (2) demonstration of the tribe's intent, adequate legal authority, and resources to implement specific program elements outlined in 40 CFR 144, 145, 146, and 148.

66.436 SURVEYS, STUDIES, INVESTIGATIONS, DEMONSTRATIONS, AND TRAINING GRANTS AND COOPERATIVE AGREEMENTS - SECTION 104(B)(3) OF THE CLEAN WATER ACT FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 95-217, 33 U.S.C 1251; National Environmental Policy Act, Section 102(2)(F).

OBJECTIVES:

To support the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution.

Funding Priority - Fiscal Year 2015: Funding priorities include, but are not limited to training, surveys, studies, investigations, and demonstration projects to support water quality improvement, watershed planning and management, nonpoint source planning, wetlands protection, coastal and estuarine planning, treatment technologies, water efficiency, and environmental management systems.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs in approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. The funds will support conducting and promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, local governments, territories, Indian Tribes, and possessions of the U.S. (including the District of Columbia); public and private universities and colleges; hospitals; laboratories; public or private nonprofit institutions; intertribal consortia; and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. An intertribal consortium must meet the definition of eligibility in the Environmental Program Grants for Tribes Final Rule, at 40 CFR 35.504 (66 FR 3782, January 16, 2001) (FRL-6929-5) and be a non-profit organization within the meaning of 2 CFR 200. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, other public and private nonprofit institutions, and individuals.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements supporting surveys, studies, and investigations based on competitive applications submitted in response to EPA solicitations, considering relevance and likelihood of success of proposed projects. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State

requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula. For certain competitive funding opportunities under this CFDA description, the Agency may include matching requirements consistent with the Agency's Assistance Agreement Competition Policy. Match may be cash or in-kind consistent with the regulations governing match requirements at 2 CFR 200 and 1500 as applicable. Specific matching requirements will be described in detail in the competitive announcements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations at 2 CFR 200.328. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this

program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 200 and 1500 as applicable, apply. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304; 68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$22,693,000; FY 15 est \$4,290,000; and FY 16 est \$3,963,000

Range and Average of Financial Assistance:

Range: \$10,000 to \$580,000/fiscal year; Average: \$295,000/fiscal year.

TAFS Codes:

68-0107; 68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Competitions are held throughout the year at Headquarters and in the Regions based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will typically include the number of anticipated awards. In FY 14, EPA funded 10 projects to support training, surveys, studies, investigations, and demonstrations for water quality improvement, watershed planning and management, treatment technologies, water efficiency, and environmental management systems. Fiscal Year 2015: Competitions are held throughout the year at Headquarters and in the Regions based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will typically include the number of anticipated awards. In FY 15, EPA will continue to fund projects to support training, surveys, studies, investigations, and demonstrations for water quality improvement, watershed planning and management, treatment technologies, water efficiency, and environmental management systems. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, investigations, demonstrations, and training grants and cooperative agreements are subject to the general grant regulations at 2 CFR 200 and 1500 as applicable. Costs will be determined in accordance with 2 CFR 200 Subpart E.

Regional or Local Office:

See Regional Agency Offices. For information on grant applications and procedures, contact:

Environmental Protection Agency, Grants and Interagency Agreement

Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code (3903R), Washington, DC 20460. RELATED PROGRAMS:

66.424 Surveys, Studies, Investigations, Demonstrations, and Training Grants - Section 1442 of the Safe Drinking Water Act

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Development of innovative watershed education tools, development of wetland protection guides for local communities, demonstration projects for watershed management, development of sustainable approaches to water quality management, and training on environmental management systems. Fiscal Year 2015: Development of innovative watershed education tools, development of wetland protection guides for local communities, demonstration projects for watershed management, development of sustainable approaches to water quality management, and training on environmental management systems. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Competitive applications and proposals will be selected in accordance with announced criteria.

66.437 LONG ISLAND SOUND PROGRAM

Long Island Sound Study (LISS)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 119(d).

OBJECTIVES:

To (1) implement the Long Island Sound Study (LISS) Comprehensive Conservation and Management Plan (CCMP) and (2) assist the states of Connecticut and New York, and other public or nonprofit entities in conducting research, experiments, investigations, training, demonstration, surveys, or studies related to reducing pollution and improving the quality of the environment to sustain living resources in the Long Island Sound.

Funding Priority - Fiscal Year 2015: EPA's funding priority is to award grants that support the Long Island Sound Study (LISS) National Estuary Program. Section 119(d) of the Clean Water Act as amended by the Long Island Sound Restoration Act of 2000, P.L. 106-457 authorizes the Administrator to award grants to eligible entities to implement the LISS Comprehensive Conservation and Management Plan (CCMP), with special emphasis on implementation, research and planning, enforcement, and citizen involvement and education projects. The LISS management conference, with participants from state, interstate and regional environmental agencies, local governments and other public or nonprofit private agencies, research institutions and individuals, develops programs to protect and restore Long Island Sound. The LISS program characterizes the problems in the estuary, determines relationships between pollutant loading and impacts on living resources, maintains a comprehensive plan recommending solutions to priority problems, and implements actions addressing priority problem areas. Activities will focus on six areas identified in the plan as requiring special attention, including: the impact of hypoxia on aquatic life, effects of toxic contamination, pathogen contamination and floatable debris pollution on the living resources and environment of the Sound, the impact of habitat degradation on the health of living resources, land use and development policies and their effect on the

ecology, and scientific research in support of these areas as appropriate.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds may be used to implement elements of the LISS CCMP. Special emphasis shall be given to CCMP implementation projects, research and planning, enforcement, and citizen involvement and education projects. The Administrator may give priority to a distressed community as defined in 33 USC 1269(e)(1). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:

<http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State, interstate, and regional water pollution control agencies, and other public or nonprofit private agencies, institutions, and organizations are eligible. Private profit-making entities, and individuals, are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Assistance under this program generally benefits state, interstate, and regional water pollution control agencies and other public or nonprofit private agencies, institutions, and organizations. The general public and Long Island Sound user groups such as swimmers, beach goers, sport and commercial fishermen, boaters, and shellfishes, benefit from the results of the program through cleaner water, restored and protected habitat, and preserved and enhanced ecosystems.

Credentials/Documentation:

Nonprofit private agencies, institutions and organizations may be required to provide documentation of their organizational status upon application. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The EPA Long Island Sound Office (LISO) issues annual guidance on the form and content of pre-proposals. All pre-proposals or work statements should be consistent with LISO's guidance. Consultation or technical assistance may be available upon request from the LISO to aid applicants in preparing their pre-proposal. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. An environmental impact statement or environmental impact assessment is not required for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

The EPA LISO annually releases a request for base program pre-proposals in the Fall. Pre-proposals are due to the LISO generally by early January or as specified in guidance. The LISS management committee reviews pre-proposals in late January to identify areas of concern and to request additional information or clarification on proposals through the LISO. The LISO coordinates review of pre-proposals among the several LISS technical work groups and teams to ensure consistency with program goals and objectives as outlined in the CCMP

and other priorities as directed by the management committee. If necessary, applicants are contacted by the LISO to provide the additional information or clarification. The LISO coordinates review of the revised proposals and develops funding recommendations for the management committee's consideration in April. The management committee makes final recommendations on funding pre-proposals at that time, or as otherwise specified. Applicants are advised of the status of their request by the LISO within 30 days of the management committee's final decisions. Successful applicants are required to submit formal grant applications using the standard federal grant application forms. The deadline for submitting applications may vary by EPA Region, but is generally June 1. Applications not received by the deadline are not further considered for funding. Unallocated funds are carried over or otherwise used to further the purposes of this program at the discretion of the management committee. Federal grant application forms may be obtained on the EPA website, <http://www.epa.gov/ogd/AppKit/index.htm> or requested from either the EPA Region I or II grants management office as follows: for Connecticut, EPA Region I, Grants Management Office, 5 Post Office Square, Boston, MA 02109; for New York, EPA Region II, Grants and Contracts Management Branch, 290 Broadway, New York, NY 10007-1866. The standard federal grant application forms as required by 2 CFR 200 and 1500 as applicable must be used for this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. The completed grant application should be submitted to the appropriate EPA Regional grants management office, with a copy to the LISO to assist with processing.

Award Procedure:

Each federal assistance application and final work plan will be evaluated by the LISO to determine the adequacy of the application under LISS priorities and objectives, including technical merit and relevance of the project to the implementation of the CCMP and for consistency with the pre-application proposal. Each federal assistance award application will also be subject to an administrative review by the EPA Region I or II grants management office as appropriate. Funds are awarded by the EPA Region I or II Administrator as appropriate. Grantees will receive a final assistance award package from the appropriate EPA Regional grants management office that must be accepted and signed by an authorized official of the recipient organization and returned to the GMO as specified in the EPA award document. Awards may be made on an advance or reimbursement basis. Awards that are not signed and returned by the deadline specified in the assistance award document may be subject to cancellation. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Notification of action on pre-proposals is provided approximately 120 days after the deadline for pre-proposal submission. Final grantees are notified of approval approximately 90 days after the submission of the application for federal assistance.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Renewals are subject to approval of EPA.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula (33 USC 1269(d)(3)). Federal costs for citizen involvement and education grants shall not exceed 95 percent of the costs of such work; for all other grants and cooperative agreements, federal costs shall not exceed 50 percent of the research, studies, or work. EPA has determined that annual matching requirements for LISS grant awards shall be met in the aggregate for all funds awarded as specified in the approved annual work plan.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are generally made for a one-year period corresponding to the federal fiscal year, October-September. Awards may be made for longer periods upon justification and with the approval of EPA. Awards may be made by advance or reimbursement at the discretion of EPA. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements require semi-annual and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$3,904,200; FY 15 est \$3,904,200; and FY 16 est \$2,488,000

Range and Average of Financial Assistance:

Range: \$20,000 to \$1,432,877/fiscal year; Average: \$438,611/fiscal year.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14, the LIS program reduced the areal extent of the hypoxic event in Long Island Sound from a pre-TMDL average of 208 square miles to a post-TMDL average of 170.3 square miles; restored or protected 410 acres of coastal habitat; and reopened 21.63 river miles to diadromous fish passage. In FY 14, the program goal to reduce nitrogen deposition to the Sound by 85% was at 94% toward that goal, an improvement over the target. Fiscal Year 2015: EPA grantees for the Long Island Sound Futures Fund grant program and the Long Island Sound Scientific Research grant program hold

competitions throughout the year based on available funds and Long Island Sound Study priorities. The number of applications and the number of awards made is dependent on the announcement issued. The announcement includes the number of anticipated awards. FY 15 data is not yet available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

LISS grants and cooperative agreements are subject to grant regulations at 40 CFR Part 35, 2 CFR 200 and 1500; annual EPA Office of Water National Estuaries Program guidance; the LISS CCMP, and Long Island Sound 2003 or successor Agreement.

RELATED PROGRAMS:

10.904 Watershed Protection and Flood Prevention; 10.914 Wildlife Habitat Incentive Program; 11.419 Coastal Zone Management Administration Awards; 11.420 Coastal Zone Management Estuarine Research Reserves; 15.608 Fish and Wildlife Management Assistance; 15.611 Wildlife Restoration; 15.614 Coastal Wetlands Planning, Protection and Restoration Act; 15.615 Cooperative Endangered Species Conservation Fund; 15.616 Clean Vessel Act; 15.630 Coastal Program; 66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.454 Water Quality Management Planning; 66.456 National Estuary Program; 66.460 Nonpoint Source Implementation Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grants and cooperative agreements awarded to states and local governments, colleges, universities, interstate agencies and nonprofit organizations are for nonpoint source implementation, scientific research, water quality monitoring and modeling, public education and outreach, living resources management, habitat restoration and program support. Examples are listed as follows: (1) Hypoxia: sustain and accelerate efforts to meet the LISS nutrient reduction goals in the nitrogen Total Maximum Daily Load to attain water quality conditions necessary to support the living resources of the Sound; (2) Habitat Restoration: restore and protect living resources, their habitats and ecological relationships; (3) Water Quality Monitoring: collect water quality samples at monitoring stations in Long Island Sound and interpret data on Long Island Sound and embayments. (4) Communication/Outreach: Provide communication, outreach and education components of the LISS partnership; (5) Modeling: develop, calibrate, and manage the application of linked airshed-watershed-estuarine hydrodynamic-water quality-living resources models to support the LISS for understanding the nutrient and sediment affects in the Long Island Sound estuary system and (6) Research: investigate causes and effects of eutrophication on water quality and living marine resources; study factors affecting abundance and distribution of submerged aquatic vegetation, food web dynamics, and tidal wetland loss. Fiscal Year 2015: Grants and cooperative agreements awarded to states and local governments, colleges, universities, interstate agencies and nonprofit organizations are for nonpoint source implementation, scientific research, water quality monitoring and modeling, public education and outreach, living resources management, habitat restoration and program support. Examples are listed as follows: (1)

Hypoxia: sustain and accelerate efforts to meet the LISS nutrient reduction goals in the nitrogen Total Maximum Daily Load to attain water quality conditions necessary to support the living resources of the Sound; (2) Habitat Restoration: restore and protect living resources, their habitats and ecological relationships; (3) Water Quality Monitoring: collect water quality samples at monitoring stations in Long Island Sound and interpret data on Long Island Sound and embayments. (4) Communication/Outreach: Provide communication, outreach and education components of the LISS partnership; (5) Modeling: develop, calibrate, and manage the application of linked airshed-watershed-estuarine hydrodynamic-water quality-living resources models to support the LISS for understanding the nutrient and sediment affects in the Long Island Sound estuary system and (6) Research: investigate causes and effects of eutrophication on water quality and living marine resources; study factors affecting abundance and distribution of submerged aquatic vegetation, food web dynamics, and tidal wetland loss. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.439 TARGETED WATERSHEDS GRANTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Consolidated Appropriations Act 2005, Public Law 108-447; Dept. of Interior, Environmental and Related Agencies Appropriations Act, 2006, Public Law 109-54; Continuing Appropriations Resolution 2007, Public Law 110-5; Consolidated Appropriations Act 2008, Public Law 110-161.

OBJECTIVES:

To support innovative, community-based watershed approaches aimed at preventing, reducing, or eliminating water pollution. The Targeted Watersheds Grant Program provides resources in the form of grants or cooperative agreements to support watershed organizations in their efforts to expand and improve existing water protection measures. In separate competitive announcements funds are awarded to assist watershed partnerships comprised of State, Tribal, local, and interstate agencies, and public or nonprofit organizations in developing, implementing, and demonstrating: 1) on-the-ground projects to improve or maintain water quality; and 2) organizational and technical capacity building projects to prime organizations to be in a position to implement on-the-ground watershed projects. Funding Priority - Fiscal Year 2015: To build upon the existing activities of watershed organizations to engage communities in capacity building activities to foster an increased connection, understanding, and ownership of their waters.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds are used to support both on-the-ground and educational activities relating to the prevention, reduction, and elimination of water pollution. Funds are awarded to eligible entities that best meet the selection criteria described in the Request for Proposals. Successful candidates will have a thorough knowledge of their watershed, have a watershed management plan in place, propose a specific project to address identified problems or barriers to water quality, demonstrate broad-based support from a number of public and private entities, and have a demonstrated record of managing watershed project(s). Eligible activities should be able to show tangible outputs and outcomes within a relatively short time period of two to five years. For implementation grants, candidates must also have a specific water quality monitoring and evaluation plan demonstrating measurable environmental outputs and outcomes, and a strong peer and/or public outreach and education component. EPA has chosen to declare certain projects or activities ineligible for funding. These include activities required or regulated under the CWA. For example, activities for the development of Total Maximum Daily Loads (TMDLs) and Phase II Stormwater projects will not be funded. Activities implementing the non-regulatory component of TMDLs (e.g., the elements of a watershed plan that address non-point source pollution), however, are eligible. Specific uses and restrictions on funds will be described in detail in the competitive

announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, local governments, public and private nonprofit institutions/organizations, federally recognized Indian tribal governments, U.S. territories or possessions, and interstate agencies are eligible. For-profit commercial entities and all federal agencies are ineligible. Nonprofit organizations described in Section 501 (c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

2 CFR 200, Subpart E applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants will be required to submit a formal grant application. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mail Code 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Regional or Headquarters review will typically be completed within approximately 120 - 150 days following the deadline for submissions.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: This program has no statutory formula. Applicants are required to demonstrate a minimum non-federal match of 25% of the total cost of the project or projects. Match may be cash or in-kind consistent with the regulation governing match requirements (2 CFR 200 and 1500). Tribes and tribal watershed groups may be exempt from this match requirement if they are constrained to such an extent that fulfilling the match requirement would impose undue economic hardship. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - National Targeted Watersheds Grants Program: FY 14 \$0; FY 15 est. \$0; and FY 16 est. \$0. CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.440 URBAN WATERS SMALL GRANTS

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

National Environmental Policy Act, U.S.C 102(2)(F); Clean Water Act, Section 104(b)(3), Public Law 95-217, 33 U.S.C 1251.

OBJECTIVES:

The objective of EPA's Urban Waters Program is to protect and restore America's urban waterways. EPA's funding priority is to achieve the goals and commitments established in the Agency's Urban Waters Strategic Framework (<http://www2.epa.gov/urbanwaters/urban-waters-strategic-framework>). This program has an emphasis on engaging communities with environmental justice concerns.

The objective of the Urban Waters Small Grants is to fund research, investigations, experiments, training, surveys, studies, and demonstrations that will advance the restoration of urban waters by improving water quality in urban areas through activities that also support community revitalization and other local priorities. This program recognizes that healthy and accessible urban waters can help grow local businesses and enhance educational, recreational, social, and employment opportunities in nearby communities.

The objective of the Urban Waters Small Grants is to fund research, investigations, experiments, training, surveys, studies, and demonstrations that will advance the restoration of urban waters by improving water quality in urban areas through activities that also support community revitalization and other local priorities. This program recognizes that healthy and accessible urban waters can help grow local businesses and enhance educational, recreational, social, and employment opportunities in nearby communities.

Funding Priority - Fiscal Year 2014: In FY 2014, EPA's funding priority for Urban Waters Small Grants is to fund projects that improve water quality by conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Implementation projects are not eligible for funding.

Funding Priority - Fiscal Year 2015: In FY 2015, EPA's funding priority for Urban Waters Small Grants is to fund projects that improve water quality by conducting or promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Implementation projects are not eligible for funding.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs in approved scopes of work plus allowable indirect costs,

in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. The funds will support conducting and promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects (including health and welfare effects), extent, prevention, reduction, and elimination of water pollution. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under the Urban Waters Small Grants is generally available to States, local governments, Indian Tribes, public and private universities and colleges, public or private nonprofit institutions/organizations, intertribal consortia, and interstate agencies. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. An intertribal consortium must meet the definition of eligibility in the Environmental Program Grants for Tribes Final Rule, at 40 CFR 35.504 (66 FR 3782, January 16, 2001) (FRL-6929-5) and be a non-profit organization within the meaning of 2 CFR 200.

Indian Tribes (or "federally recognized Indian tribe"), as defined in 2 CFR 200.54, is any Indian tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation as defined in or established pursuant to the Alaska Native Claims Settlement Act (43 U.S.C. Chapter 33), which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians (25 U.S.C. 450b(e)). See annually published Bureau of Indian Affairs list of Indian Entities Recognized and Eligible to Receive Services.

State, as defined in 2 CFR 200.90, is defined as any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentality thereof exclusive of local governments.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Residents of urban areas adversely impacted by water pollution, State and local governments, Indian Tribes, other public and private nonprofit institutions, intertribal consortia, and interstate agencies.

Credentials/Documentation:

EPA may request that applicants demonstrate their eligibility. Documentation of nonprofit status may be required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements supporting surveys, studies, and investigations based on competitive applications submitted in response to EPA solicitations, considering relevance and likelihood of success of proposed projects. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For

additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Matching requirements, if any, will be described in the competitive announcement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA may negotiate the project period with each applicant based on project requirements. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required

under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

The record retention requirements of 2 CFR 200 and 1500 as applicable, apply. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$2,100,000; FY 15 est \$0; and FY 16 est \$1,600,000 - FY 14 \$2,100,000; FY 15 est. \$0; and FY 16 est. \$1,600,000.

Range and Average of Financial Assistance:

Range: \$40,000 to \$60,000/fiscal year; Average: \$50,000/fiscal year.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14, awards totaling an estimated \$2.1 million were made for projects that seek to help restore and protect urban water quality and revitalize adjacent neighborhoods by engaging communities in activities that increase their connection to, understanding of, and stewardship of local urban waterways. Fiscal Year 2015: In FY 15, funding continues to support projects that seek to help restore and protect urban water quality and revitalize adjacent neighborhoods by engaging communities in activities that increase their connection to, understanding of, and stewardship of local urban waterways. Competitive announcements for Urban Waters Small Grants are issued based on available funds and program priorities. The number of awards made is dependent on the announcement issued. The announcement includes the number of anticipated awards. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, investigations, demonstrations, and training grants and cooperative agreements are subject to the grant regulations (2 CFR 200 and 1500 as applicable). Costs will be determined in accordance with 2 CFR 200 Subpart E.

Regional or Local Office:

None.

RELATED PROGRAMS:

66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: Funded projects will help restore and protect urban water quality and revitalize adjacent neighborhoods by engaging communities in activities that increase their connection to, understanding of, and stewardship of local urban waterways. Examples of selected projects include youth education on watershed science and stewardship of urban waterways, water quality monitoring and studies, community engagement and outreach to promote best management practices in restoring urban waters, urban watershed assessments to develop a community action plan, and hands-on learning workshops to educate the public on the importance of urban waters. More information on specific projects selected for funding can be found at

<http://www2.epa.gov/urbanwaters/urban-waters-small-grants>. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Competitive applications and proposals will be selected in accordance with announced criteria.

66.441 HEALTHY WATERSHEDS CONSORTIUM GRANT PROGRAM

FEDERAL AGENCY:

Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Part 104, Section 104(b)(3), Public Law 95-217, 33 U.S.C 1251; National Environmental Policy Act (NEPA), Section 102(2)(f).

OBJECTIVES:

To support strategically protecting healthy watersheds across the country. The focus of the grant program is to protect freshwater ecosystems and their watersheds. Additional background information on the Healthy Watersheds Program and priorities can be found at the following website: <http://water.epa.gov/polwaste/nps/watershed/index.cfm>

Funding Priority - Fiscal Year 2014: Through the Healthy Watersheds Consortium Grant, EPA funds an intermediary organization to provide subawards to eligible subawardees for projects to support strategic protection of freshwater ecosystems through capacity development and local demonstration and training projects.

Funding Priority - Fiscal Year 2015: Through the Healthy Watersheds Consortium Grant, EPA funds an intermediary organization to provide subawards to eligible subawardees for projects to support strategic protection of freshwater ecosystems through capacity development and local demonstration and training projects.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Healthy Watershed Consortium Grant Program is anticipated to fund one cooperative agreement to an organization to manage the Healthy Watershed Consortium Grant subaward process that will award subgrants to support the strategic protection of freshwater ecosystems and their watersheds across the country. These funds are used for healthy watershed capacity development and for local demonstration and/or training projects. Projects funded under the subgrant process must be limited to activities that conduct or promote the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Specific uses and restrictions on funds will be described in detail in the competitive announcements. Grants and cooperative agreements are available to support recipients' allowable direct costs in approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations.

Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Healthy Watersheds Consortium Grant funds cannot be used for the purchase of land or conservation easements. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Universities, colleges and institutions of higher education and hospitals are not eligible under this announcement. Non-profit, non-governmental organizations, interstate agencies, and intertribal consortia which are capable of undertaking activities that advance watershed protection programs are eligible to compete in this program. The term "interstate agency" is defined in CWA Section 502 as "an agency of two or more States established by or pursuant to an agreement or compact approved by the Congress, or any other agency of two or more States, having substantial powers or duties pertaining to the control of pollution as determined and approved by the Administrator." Intertribal consortia must meet the requirements of 40 CFR Part 35.504. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Public and private nonprofit institutions/ organizations, federally recognized Indian tribal governments, states, local governments, U.S. territories and interstate agencies.

Credentials/Documentation:

Non-profit applicants may be asked to provide documentation that they meet the definition of a non-profit organization. Interstate organizations may be asked to provide a citation to the statutory authority, which establishes their status. Intertribal consortia may be asked to provide documentation that they meet the requirements of 40 CFR Part 35.504. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements based on the competitive applications submitted in response to EPA solicitations, considering relevance and likelihood of the success of the projects. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200 and 1500, as applicable, applies to this program. Submittal instructions can be found in the

competitive announcement. All applicants will be notified by the HQ Office on whether or not the applicant has been selected for funding. The notification is not an authorization to begin performance. The Grant Award document signed by the appropriate grant official in the EPA HQ Office is the authorizing document. Applicants selected for funding must submit a final workplan and grant application forms. Application forms are available at <http://www.epa.gov/ogd/AppKit/index>. Completed applications should be submitted to HQ. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Grants are usually approved within 4 months of receipt of completed application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 25%. Matching Requirements: The applicant must provide a minimum of 25 percent of the total cost of the workplan. To determine if the minimum match is met, EPA will use the following formula: amount (in dollars) of federal funds requested from EPA divided by 3 = minimum match (in dollars) or Total project amount (in dollars) divided by 4 = minimum match (in dollars). For example, if the applicant requests \$75,000 of federal funds or has a total project cost of \$100,000 for a three-year project period, it must be able to provide \$25,000 in matching funds or services. Award recipients can meet the match requirements with in-kind or monetary contributions from entities other than themselves. However, other federal money cannot be used as the match for this grant program unless authorized by the statute governing the award of the other federal funds. Matching funds are considered grant funds. They must be used for the reasonable and necessary expenses of carrying out the assistance agreement workplan. Any restrictions on the use of grant funds (i.e., prohibition of land acquisition with grant funds) also apply to the matching funds.

In addition to matching requirements, the applicant must demonstrate how they will leverage resources during grant performance.

This program does not have MOE requirements. This program does not have Maintenance of Effort (MOE) requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of grant award. See the following for information on how assistance is awarded/released: The terms of the grant shall be determined at time of grant award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Progress reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304 - EPM.

Obligations:

(Cooperative Agreements) FY 14 \$0; FY 15 est \$1,270,000; and FY 16 est \$625,000 - FY 14 \$0; FY 15 est. \$1,270,000 and FY 16 est. \$625,000.

Range and Average of Financial Assistance:

\$3,750,000 every six years. Average: \$625,000/fiscal year.

Website Address:

No Data Available

RELATED PROGRAMS:

66.454 Water Quality Management Planning; 66.460 Nonpoint Source Implementation Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available
Fiscal Year 2015: EPA anticipates funding an intermediary organization to provide subawards to eligible subawardees for projects to support strategic protection of freshwater ecosystems through capacity development and local demonstration and training projects. Examples of subaward projects include: projects that help the states/tribes identify healthy watersheds through assessments; projects to develop and support healthy watersheds conservation plans; projects on public outreach and education on the importance of healthy watersheds; local conservation demonstration (new or experimental) projects related to healthy watershed protection; and training projects related to healthy watersheds protection. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA

description will be described in the competitive announcement. Competitive applications and proposals will be selected in accordance with the announced criteria.

66.454 WATER QUALITY MANAGEMENT PLANNING

(205(j)(2)) or 604(b)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 205(j)&604(b), Public Law 97-117; American Recovery and Reinvestment Act of 2009, Public Law 111-5; Water Quality Act of 1987, Public Law 100-4.

OBJECTIVES:

To assist States (including territories and the District of Columbia), Regional Public Comprehensive Planning Organizations (RPCPOs), and Interstate Organizations (IOs) in carrying out water quality management (WQM) planning.

Funding Priority - Fiscal Year 2015: Funds are allotted by state in accordance with Section 604(b) of the Clean Water Act. Grant funds are used to determine the nature and extent of point and non-point source water pollution and to develop water quality management plans. States are encouraged to give priority to watershed restoration planning. EPA is requesting states to emphasize a watershed approach in developing their state workplans. This will complement the Agency's overall watershed effort as stated in the Agency's Strategic Plan. In addition, states should incorporate climate change considerations into their water quality planning, as appropriate. This will complement the Agency's Climate Change Action Plan.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Section 604(b) funds are awarded under Section 205(j)(2) to State water quality management agencies to carry out WQM planning. Pursuant to Section 205(j)(3) of the CWA, as amended, States are required to allocate at least 40 percent of funds awarded under 205(j)(2) to eligible RPCPOs and IOs. EPA may approve a State's request to pass through less than 40 percent if, after consultation with its RPCPOs and IOs, the Governor determines that pass through of at least 40 percent will not: (1) result in significant participation by RPCPOs and IOs in WQM planning; and (2) significantly assist in development and implementation of the state's WQM plan. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State Water Quality Management Agencies.

Beneficiary Eligibility:

State Water Quality Management Agencies.

Credentials/Documentation:

2 CFR 200 Subpart E applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the

State has selected the program for review. Neither environmental impact statements nor environmental impact assessments are required for activities funded under Section 205(j) and 604(b) since these funds are used for water quality planning and not implementation

. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The grant application must be submitted to the appropriate EPA Regional Administrator's Office. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm.

Award Procedure:

Grant applications are reviewed by the appropriate EPA Regional Office and, if approved, the funds are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 45 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act. Each fiscal year, the Administrator shall reserve under Section 604(b) of the CWA for each State an amount not to exceed one percent of the amount allotted and available for obligation for Clean Water State Revolving Fund or \$100,000, whichever is greater, for the purposes of making grants to the States to carry out water quality management planning. Under Section 205(j)(3), at least 40 percent of a State's annual award under 205(j)(2) must be allocated to eligible RPCPOs and IOs, unless EPA approves a lesser amount.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

As determined in accordance with Section 604(c)(1) of the Clean Water Act (CWA). Sums allotted to a State under this section for a fiscal year shall be available for EPA's obligation to the State during the fiscal year for which sums are authorized and during the following fiscal year. Recovery Act funds were available for EPA's obligation to the State until September 30, 2010. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Specific reporting requirements are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records kept for 3 years from date of submission of the annual financial status report. If questions remain, records retained until matter is completely resolved.

Account Identification:

68-0103-0-1-304; 68-0102-0-1-304.

Obligations:

(Formula Grants) FY 14 \$11,700,000; FY 15 est \$14,676,000; and FY 16 est \$11,822,000

Range and Average of Financial Assistance:

Range: \$100,000 to \$1,563,000/fiscal year; Average: \$273,000/fiscal year.

TAFS Codes:

68-0102; 68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Section 604(b) funding provides the financial source for States and territories to pursue water quality planning under Sections 205(j) and 303(e) of the Clean Water Act. This program provides a planning framework to support watershed restoration and protection activities. In FY 14, a total of 56 grants were awarded to States and territories to support water quality planning activities. Outputs included new/updated water quality management plans, new/revised water quality standards, Total Maximum Daily Loads (TMDLs), river planning projects, ambient monitoring data to support water quality assessments, and integrated 304(b)/303(d) reports. Fiscal Year 2015: Section 604(b) funding provides the financial source for States and territories to pursue water quality planning under Sections 205(j) and 303(e) of the Clean Water Act. This program provides a planning framework to support watershed restoration and protection activities. In FY 15, a total of 56 grants will be awarded to States and territories to support water quality planning activities. Outputs included new/updated water quality management plans, new/revised water quality standards, Total Maximum Daily Loads (TMDLs), river planning projects, ambient monitoring data to support water quality assessments, and integrated 304(b)/303(d) reports. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Grant regulations at 2 CFR 200 and 1500 as applicable, and 40 CFR Part 35, Subpart A.

Regional or Local Office:

See Regional Agency Offices. Contact appropriate EPA Regional Office listed in Appendix IV of the Catalog.

Headquarters Office:

Chris Solloway Assessment and Watershed Protection Division (4503T), Office of Wetlands, Oceans, and Watersheds, Office of Water, USEPA, 1200 Pennsylvania Avenue, NW., Washington, District of Columbia 20460 Email: solloway.chris@epa.gov Phone: 202-566-1202

Website Address:

<http://water.epa.gov/aboutow/owow/funding.cfm>

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grants are allocated to States for: 1) development of water quality management plans; 2) development of watershed plans; 3) development of waste load allocations for impaired waterbodies; 4) reviews and revisions of water quality standards; and 5) collection and analysis of ambient monitoring data. Fiscal Year 2015: Grants are allocated to States for: 1) development of water quality management plans; 2) development of watershed plans; 3) development of waste load allocations for impaired waterbodies; 4) reviews and revisions of water quality standards; and 5) collection and analysis of ambient monitoring data. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Funds are awarded to state agencies in accordance with Sections 205(j) and 303(e) of the Clean Water Act, 40 CFR 130.5-6, and EPA program guidance.

66.456 NATIONAL ESTUARY PROGRAM

(NEP)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Title 3, Section 320, Public Law 94-117, 33 U.S.C 466; Clean Water Act, Title 3, Section 320, Public Law 106-457, 33 U.S.C 466.

OBJECTIVES:

The National Estuary Program (NEP) goal is to protect and restore the water quality and estuarine resources of estuaries and associated watersheds designated by the EPA Administrator as estuaries of national significance. The 28 estuaries of national significance, or NEPs, use an ecosystem-based management approach to help achieve their protection and restoration goals. For example, each NEP characterizes the priority problems in its estuary and surrounding watershed, develops a long-term plan known as a Comprehensive Conservation and Management Plan (CCMP) that identifies actions to address those problems, and identifies partners, including lead entities, who will implement those actions. Implementation of CCMPs can include the following actions: protecting and restoring habitat, including wetlands; supporting water quality protection and restoration, including Total Maximum Daily Load (TMDL) plan implementation; monitoring for, assessing the extent of toxics loadings and pathogen contamination, and taking steps to address excess loadings and contamination; implementing stormwater management, reducing non-point source pollution impacts, and promoting the adoption of green infrastructure approaches; preventing the spread of aquatic invasive species and/or managing their impacts; developing and implementing nutrient reduction strategies; conducting climate vulnerability assessments and developing and implementing climate change adaptation strategies and using adaptation tools to promote coastal resilience; and developing and implementing strategies to provide opportunities for residents of urban minority and/or under-served communities to have greater access to urban waters, participate in urban ecosystem restoration, and participate in capacity-building/educational activities

Funding Priority - Fiscal Year 2015: EPA's funding priority is to award assistance agreements that support the 28 National Estuary Programs' (NEPs) efforts to address their estuarine watersheds' priority problems identified in each of the 28 long-term management plans known as Comprehensive Conservation and Management Plans (CCMPs). EPA will provide focused support for NEPs to address priority problems identified by NEP management conferences and to document accomplishments and environmental results. NEP efforts address such problems as: (1) impacts on estuarine water quality and living resources of

nutrients, toxics (chemical, heavy metals), pathogen contamination, and sediment attributable to excess loadings and non-point stormwater runoff; e.g., excess nutrient loadings can result in nutrient over-enrichment and hypoxic conditions in estuarine water bodies; (2) habitat loss/degradation; (3) need to assess risks to CCMP implementation due to climate change impacts, to build regional, local, and tribal officials' capacity to address climate change impacts on NEP watersheds, and to promote community resilience; activities that build capacity include conducting vulnerability assessments of communities and local development and implementation of climate adaptation strategies and programs; and 4) need to build the capacity of local public officials and managers in estuarine communities to implement sustainable land use, green infrastructure, and low-impact development best practices.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Section 320 authorizes issuance of assistance agreements used to meet Section 320 requirements to develop and implement CCMPs. Annual workplans, which address priority actions in the CCMPs, lay out projects to be undertaken during the fiscal year. They are developed and approved by each management conference. Twenty-eight estuaries have been designated as estuaries of national significance; those 28 are: Long Island Sound, Puget Sound, Buzzards Bay, Narragansett Bay, New York-New Jersey Harbor, Delaware Bay, Delaware Inland Bays, Sarasota Bay, Galveston Bay, Santa Monica Bay, Albemarle-Pamlico Sounds, San Francisco Estuary, Casco Bay, Massachusetts Bays, Indian River Lagoon, Tampa Bay, Peconic Bay, San Juan Bay, Coastal Bend Bays, Tillamook Bay, the Barataria-Terrebonne Estuarine Complex, Piscataqua Estuary Complex, Barnegat Bay, Maryland Coastal Bays, Charlotte Harbor, Mobile Bay, Morro Bay, and Columbia River Estuary. NEPs and their partners carry out such actions as: (1) protecting and restoring habitat; (2) identifying research needs and conducting research as needed to obtain new data to address priority problems; (3) monitoring estuarine conditions to detect changes in water quality and condition of ecosystem resources; and (4) providing technical assistance to States and local communities to address impacts from nutrient over-enrichment, stormwater, sedimentation, toxics, pathogens, and aquatic invasive species; to assess vulnerability from climate change impacts; and to develop climate change adaptation strategies and tools. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance agreements are issued only to those estuaries designated by the Administrator. The Administrator is authorized to make grants to State, interstate, and regional water pollution control agencies and entities; State coastal zone management agencies; interstate agencies; and other public and private nonprofit agencies, institutions, organizations, and individuals (Section 320(g)(1)). Profit making organizations are not eligible for grants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Anyone/General Public.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication assistance may be obtained from the appropriate EPA Regional

Office. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. All work plans should be developed in response to the priority tasks identified in the management conference annual work plan. Work plans should also be developed in response to negotiated schedules for commitments to meet the purpose of a management conference outlined in the Act for the estuary. Each work plan will be considered by the appropriate management conference and the EPA Regional program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. The completed application, including the final proposal approved by the estuary management committee, should be submitted to the appropriate Regional program office for processing. This program is subject to the provisions of 2 CFR 200 and 1500 as applicable. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Each application is reviewed by EPA Regional Offices to determine the adequacy of the application under grant regulations and National Estuary Program objectives, including technical merit and relevance of the project. Awards are issued by the EPA Regional Offices after approval by the appropriate Division Director. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days after deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Renewals are subject to approval of the individual estuary management organization. Contact the appropriate EPA Regional office for guidance.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Public Law 106-457, which amended Section 320(g) of the Water Quality Act of 1987, limits the amount of grants to 75 percent of the aggregate CCMP development project costs for each estuary program and to 50 percent of the aggregate CCMP implementation project costs for each estuary program, and requires that the nonfederal share be provided from nonfederal sources. The nonfederal share can be contributed by any of the participants in the management conference. Contact the appropriate management conference program office or EPA Regional Office for more information.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are typically funded on a 12-month basis (yearly). Project period may cover up to 36 months, with continuations possible for certain types of projects. Payments will be on a letter of credit or advance basis. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements and in the annual NEP Funding Guidance. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of 3 years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$15,064,600; FY 15 est \$16,800,000; and FY 16 est \$16,800,000

Range and Average of Financial Assistance:

For FY 14, each of the NEPs received base funding in the amount of \$538,000. For FY 15, each of the NEPs received base funding in the amount of \$600,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Maintaining high-quality habitat is one way of ensuring the health of the nation's estuaries. Since 2000, the NEPs and their partners have protected and restored over 1.5 million acres of habitat in the 28 NEP estuarine watersheds. The acreage protected and restored by the NEPs and their partners enhances the 28 NEP's capacity to support healthy populations of wildlife and near-coastal and marine organisms, including many commercially-valuable shellfish and finfish. That acreage also enhances the 28 estuarine watersheds' capacity to support the economic and ecosystem services and aesthetic qualities

provided by estuarine environments and on which coastal populations depend for their livelihoods and well-being. In FY 14, the NEPs and their partners protected and restored approximately 93,557 acres of estuarine habitat in their estuarine watersheds. Fiscal Year 2015: In FY 15, grants will support the NEP's CCMP implementation by funding NEP efforts that include: protecting and restoring up to 100,000 acres of estuarine habitat; protecting and restoring estuarine water quality in NEP study areas; supporting core Clean Water Act programs like those that target stormwater, excess nutrients, and pathogens and promoting adoption of green infrastructure approaches to reduce the impacts of stormwater and non-point source pollution; conducting vulnerability assessments and/or implementing climate adaptation strategies in over 50% of NEP study areas and collaborating with other EPA programs and with agencies like the National Oceanic and Atmospheric Administration to build regional, local, and tribal coastal community resilience to impacts of climate change on coastal ecosystems, public health, and economies; building local capacity to reach out to and involve urban community residents who typically may not have had access to water bodies in NEP study areas nor have been actively engaged in urban water body protection and restoration. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General grant regulations and procedures (2 CFR 200 and 1500, as applicable). Federal Register, Vol. 59, 61124, November 29, 1994, Technical Amendment Financial Assistance Requirements for the National Estuary Program (40 CFR, Part 35). Saving Bays and Estuaries, a Primer for Establishing and Managing Estuary Projects, EPA/503/8-89-001, is available from the Oceans and Coastal Protection Division, Office of Wetlands, Oceans, and Watersheds (4504T) EPA, 1200 Pennsylvania Ave., NW., Washington, DC 20460. Forms and instructions for filing are included in an application kit available from the Grants and Interagency Agreements Management Division (3903R), Office of Grants and Debarment, EPA, 1200 Pennsylvania Ave., NW., Washington, DC. 20460.

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.454 Water Quality Management Planning; 66.458 Capitalization Grants for

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Assistance agreements awarded to states, interstate agencies, academic institutions and other nonprofit organizations to implement NEP Comprehensive Conservation and Management Plans (CCMPs). Activities associated with CCMP implementation include those that: (1) protect and restore water quality by conducting monitoring, assessing water quality conditions, implementing best management practices that help restore degraded waters to healthy conditions, and reducing loadings of pollutants like nutrients and toxics to estuarine water bodies; (2) protect and restore habitat and living resources by implementing local stormwater management programs, eradicating invasive species, removing dams that obstruct fish passage, and providing technical assistance on low-impact development practices that reduce sediment loadings to water bodies; (3) conduct climate change vulnerability assessments and develop and implement climate adaptation strategies; (4) revise CCMPs to reflect new local priorities; (5) develop annual work plans and design and maintain systems to track and report on priority action implementation, deliverables, and environmental results; (6) evaluate and report on CCMP implementation progress and environmental results; and (7) reach out to and build local capacity of urban community residents to participate in estuarine urban waters protection and restoration; those residents may not have had access to water bodies in NEP study areas nor have been actively engaged in urban water body protection and restoration. Fiscal Year 2015: Assistance agreements awarded to states, interstate agencies, academic institutions and other nonprofit organizations to implement NEP Comprehensive Conservation and Management Plans (CCMPs). Activities associated with CCMP implementation include those that: (1) protect and restore water quality by conducting monitoring, assessing water quality conditions, implementing best management practices that help restore degraded waters to healthy conditions, and reducing loadings of pollutants like nutrients and toxics to estuarine water bodies; (2) protect and restore habitat and living resources by implementing local stormwater management programs, eradicating invasive species, removing dams that obstruct fish passage, and providing technical assistance on low-impact development practices that reduce sediment loadings to water bodies; (3) conduct climate change vulnerability assessments and develop and implement climate adaptation strategies; (4) revise CCMPs to reflect new local priorities; (5) develop annual work plans and design and maintain systems to track and report on priority action implementation, deliverables, and environmental results; (6) evaluate and report on CCMP implementation progress and environmental results; and (7) reach out to and build local capacity of urban community residents to participate in estuarine urban waters protection and restoration; those residents may not have had access to water bodies in NEP study areas nor have been actively engaged in urban water body protection and restoration. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Grants are awarded to the NEPs that satisfy the requirements outlined in the application procedure section.

66.458 CAPITALIZATION GRANTS FOR CLEAN WATER STATE REVOLVING FUNDS

(CW State Revolving Fund)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act (CWA), as amended, Public Law 95-217; American Recovery and Reinvestment Act of 2009, Public Law 111-5; Water Quality Act of 1987, Section 601-607,205(m), Public Law 100-4.

OBJECTIVES:

To create State Revolving Funds (SRFs) through a program of capitalization grants to States which will provide a long term source of State financing for construction of waste water treatment facilities and implementation of other water quality management activities.

Funding Priority - Fiscal Year 2015: Capitalization grants are available to each State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned wastewater treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary comprehensive conservation and management plan under Section 320. The 2014 Water Resources Reform and Development Act (WRRDA) included amendments to the Clean Water SRF. The amendments included additional types of assistance available in the SRF, changed the amount of funding that is available for administering the SRF and provided the opportunity for States to offer additional subsidy. In addition to the assistance mentioned above, SRF may now provide assistance for:(1) the construction, repair, or replacement of decentralized wastewater treatment systems that treat municipal wastewater or domestic sewage; (2) measures to manage, reduce, treat or recapture stormwater or subsurface drainage water; (3) any municipality or intermunicipal, interstate, or State agency for measures to reduce the demand for publicly owned treatment works capacity through water conservation, efficiency or reuse; (4) the development and implementation of watershed projects meeting the criteria set forth in section 122; (5) any municipality or intermunicipal, interstate, or State agency for measures to reduce the energy consumption needs for publicly owned treatment works; (6) reusing or recycling wastewater, stormwater, or subsurface drainage water; (7) measures to increase the security of publicly owned treatment works; and (8) any qualified nonprofit entity, as determined by the Administrator, to provide assistance to owners and operators of small and medium publicly owned treatment works. The capitalization grant is deposited in the State's SRF, which is used to provide loans and other types of financial assistance, to local communities and intermunicipal and interstate agencies. 4 percent of the grant amounts, \$400,000 each year or 1/5 percent per year of the current valuation (net profit) of the fund may be used by the States for the cost of administering the SRF. States determine priorities for funding within their State in accordance with the CWA. A portion of the FY 2015 funding must be used to provide additional subsidy in the form of grants, principal forgiveness or negative interest loans. The maximum percentage that may be provided as additional subsidy will range from 0 percent to 30 percent based on the amount of the total appropriation. For example, if the total appropriation is less than or equal to \$1 billion, no additional subsidy would be authorized; if the total appropriation is greater than or equal to \$1.3 billion, additional subsidy up to 30 percent of the grant would be authorized; but, if the total appropriation is greater than \$1 billion but less than \$1.3 billion, a percentage equal to the percentage by which the appropriation exceeds \$1 billion would be authorized. Additional subsidy may only be provided to a municipality or intermunicipal, interstate, or State agency and used to benefit a municipality who meets the SRF affordability criteria, benefits individual ratepayers in residential user rate class or to implement a process, material, technique, or technology to address water efficiency goals, energy efficiency goals, mitigate stormwater runoff or encourage sustainable project planning, design and construction. The program supports the Agency's strategic goal of ensuring Clean and Safe Water.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Capitalization grants are available to each State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned wastewater treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary conservation and management plan under Section 320;(4) the construction, repair, or replacement of decentralized wastewater treatment systems that treat municipal wastewater or domestic sewage; (5) measures to manage, reduce, treat or recapture stormwater or subsurface drainage water; (6) any municipality or intermunicipal, interstate, or State agency for measures to reduce the demand for publicly owned treatment works capacity through water conservation, efficiency or reuse; (7) the development and implementation of watershed projects meeting the criteria set forth in section 122; (8) any municipality or intermunicipal, interstate, or State agency for measures to reduce the energy consumption needs for publicly owned treatment works; (8) reusing or recycling wastewater, stormwater, or subsurface drainage water; (10) measures to increase the security of publicly owned treatment works; and (11) any

qualified nonprofit entity, as determined by the Administrator, to provide assistance to owners and operators of small and medium publicly owned treatment works. The capitalization grant is deposited in the state's SRF, which is used to provide loans and other types of financial assistance, but not grants, to local communities and intermunicipal and interstate agencies. Assistance may be provided to persons for implementing nonpoint source and estuary management activities provided for in State Plans developed under Sections 319 and 320. Up to 4 percent of the grant amounts, \$400,000 each year or 1/5 percent per year of the current valuation (net profit) of the fund may be used by the States for the cost of administering the SRF. States determine priorities for funding within their State in accordance with the CWA. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States and Puerto Rico are eligible to receive capitalization grants under Title VI. Indian tribes are eligible to receive grants from Title VI for the construction of municipal wastewater facilities. The District of Columbia, territories, possessions of the U.S. are eligible to receive grants from Title VI for the construction of municipal wastewater facilities (see CFDA 66.418).

Beneficiary Eligibility:

For loans and other financial assistance (but not grants) for wastewater treatment facilities: local communities, intermunicipal, State, interstate agencies, and Indian tribes. For nonpoint source management programs and estuary activities in approved State Nonpoint Source Management Programs and Comprehensive Conservation and Management Plans: the public agencies listed above, individuals, and programs.

Credentials/Documentation:

To receive a capitalization grant, a State shall enter into an agreement with the EPA Regional Administrator which shall include, but not be limited to, the 10 specifications set forth in Section 602(b) of the CWA. 2 CFR 200 Subpart E applies to the program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

An applicant (State) should seek preapplication assistance from the appropriate EPA Regional Office. The State is required to prepare and provide for public comment a plan identifying the intended uses of the funds in the SRF (an intended use plan) and how those uses support the goals of the SRF. The plan is to be submitted no later than the application. An environmental impact statement is not required prior to grant award; however, a State environmental review process must be applied to all subsequent state assistance for wastewater facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application for EPA non-construction grant assistance (SF424-A and B) is submitted to the appropriate EPA Regional Office. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. The State must certify in its application that it has the legal, managerial, technical, and operational capabilities to administer the SRF

program competently and that it will comply with Federal anti-discrimination laws and other applicable Federal statutes. Regulations at 2 CFR 200 and 1500, as applicable, applies to the State. Establishment of the SRF is a prerequisite for a grant award. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office and, if approved, the grant is awarded by the Regional Administrator under a delegation of authority from the Administrator of EPA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

For those portions of the State program that do not change from year to year, a subsequent grant application may incorporate by reference relevant portions of the previous year's application which have not changed or an operating agreement approved by the region.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act.

Matching Requirements: The Regional Administrator may award capitalization grants from funds appropriated for this purpose. Allotments to the States are determined by a table of decimal fractions ("formula") in Section 205(c)(3) of the CWA. The required State match is 20 percent of the amount of each Federal grant payment. For Recovery Act funds, the required State match of 20 percent of the amount of each Federal grant payment was waived. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are available for EPA's obligation to the State during the fiscal year in which they are allotted and during the following year. Recovery Act funds were available for EPA's obligation to the State until September 30, 2010. The State must agree to enter into binding commitments with recipients to provide financial assistance from the SRF in an amount equal to 120 percent of each quarterly grant payment. The State is also required to agree to expend all funds in the SRF in an expeditious and timely manner. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Beginning the first fiscal year after receiving payments, the State shall provide an annual report to the Regional Administrator in accordance with the schedule established in the grant agreement (generally not later than 90 days after the end of the fiscal year in which the payments were received). The annual report shall describe how the State has met the goals and objectives for the preceding fiscal year, as identified in its intended use plan, including identification of loan recipients, loan amounts, and loan terms and similar details on other forms of financial assistance provided from the SRF. For Recovery Act funds, States are required to input loan information into the CWSRF Benefits Reporting (CBR) database within one week of finalizing the loan. For base funds, loan information is required to be put into CBR in the quarter in which the loan is made. CBR includes data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Inputting loan data into CBR is required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit

Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. A State must, at a minimum, comply with the provisions of 2 CFR 200, Subpart F. States are also encouraged to conduct annual independent audits. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

As part of the annual review conducted by the agency to assess the State's performance against activities identified in the intended use plan and annual report, and to determine compliance with the terms of the capitalization grant agreement, the State or loan recipient shall make available to EPA such records as the Regional Administrator reasonably requires to review and determine State compliance with the requirements of the CWA.

Account Identification:

68-0103-0-1-304; 68-0102-0-1-304.

Obligations:

(Formula Grants) FY 14 \$1,992,227,200; FY 15 est \$1,394,333,000; and FY 16 est \$1,118,000,000 - FY 14 \$1,992,227,200; FY 15 est. \$1,394,333,000; and FY 16 est. \$1,118,000,000.

Recovery Act funds - FY 14 \$0; FY 15 est. \$0; and FY 16 est. \$0.

Range and Average of Financial Assistance:

\$6,500,000 to \$147,000,000/fiscal year; \$26,000,000/fiscal year. Recovery Act funds - \$500,000 to \$175,000,000/fiscal year; \$28,000,000/fiscal year.

TAFS Codes:

68-0103; 68-0102.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Each year, 51 grants are awarded to states and Puerto Rico. The program funds an estimated 10 to 20 percent of the nation's annual wastewater capital projects. The program has provided over \$100 billion in cumulative assistance since 1988. Assistance has included funding to prevent polluted runoff, upgrade wastewater treatment plants from secondary level treatment to advanced (tertiary) treatment to reduce pollutant loads, and improve water quality on a watershed basis. In FY 14, the program provided \$4.9 billion in assistance. This included \$1.8 billion for secondary treatment to reduce pollutant loads, \$9 billion to upgrade wastewater treatment plants from secondary level treatment to advanced (tertiary) treatment, and over \$2.2 billion to prevent polluted runoff. Fiscal Year 2015: Each year, 51 grants are awarded to states and Puerto Rico. Assistance in FY 15 will include funding to prevent polluted runoff, upgrade wastewater treatment plants from secondary level treatment to advanced (tertiary) treatment to reduce pollutant loads, and improve water quality on a watershed basis. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Program guidance was issued January 28, 1988. Interpretive Guidance on the Water Resources Reform and Development Act SRF amendments was issued on January 6, 2015. A State Revolving Fund Management Manual was distributed in November, 1988. Regulations include 2 CFR 200 and 1500 as applicable, and SRF regulations 40 CFR Part 35, Subpart K which were issued in March 1990.

Regional or Local Office:

See Regional Agency Offices. EPA Regional Offices listed in Appendix IV of

the Catalog.

Headquarters Office:

Sheila Platt, Sheila Platt, State Revolving Fund Branch, Municipal Support Division, (4204M), Office of Wastewater Management, Environmental Protection Agency, Washington, DC 20460. Telephone: (202) 564-0686; Fax: (202) 501-2403; E-mail: platt.sheila@epa.gov., Washington, District of Columbia 20460 Email: platt.sheila@epa.gov Phone: (202) 564-0686.

Website Address:

http://water.epa.gov/grants_funding/cwsrf/cwsrf_index.cfm

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: State revolving loan fund; wastewater projects involving advanced treatment, secondary treatment, infiltration/inflow correction, replacement/upgrade of pipe and equipment and expansion of existing wastewater treatment plants; nonpoint source and estuary protection projects (for example, septic system rehabilitation, leaking underground storage tank removal, contaminated soil removal, agricultural BMPs, conservation easements, wetlands protection/rehabilitation, and prevention of agricultural runoff). Fiscal Year 2015: State revolving loan fund; wastewater projects involving advanced treatment, secondary treatment, infiltration/inflow correction, replacement/upgrade of pipe and equipment and expansion of existing wastewater treatment plants; nonpoint source and estuary protection projects (for example, septic system rehabilitation, leaking underground storage tank removal, contaminated soil removal, agricultural BMPs, conservation easements, wetlands protection/rehabilitation, and prevention of agricultural runoff). Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Grants are awarded to States that satisfy the requirements outlined in the application procedure section.

66.460 NONPOINT SOURCE IMPLEMENTATION GRANTS

(319 Program)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Title 3, Section 319(h).

OBJECTIVES:

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs.

Funding Priority - Fiscal Year 2015: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are provided to eligible applicants to carry out nonpoint source projects and programs pursuant to Section 319 of the Clean Water Act as amended by the Water Quality Act of 1987. Requirements under Section 319(h) include: nonfederal matching funds of at least 40 percent of project cost (match is an overall grant requirement - the match requirement for an individual project may be waived and in-kind services may be used as match); maintenance of effort;

grants may be used for financial assistance to individual persons in the case of demonstration projects only; annual reporting; and EPA determinations of adequate recipient progress before additional funding. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible entities include States and qualified Indian Tribes and intertribal consortia who have approved nonpoint source assessment and management plans. To be qualified, Tribes must have treatment in a manner similar to a state (TAS) status for the 319 Program. Grants to States are awarded by formula. The State allotment is awarded to the agency in each State designated by the chief executive as the lead nonpoint source agency. The lead nonpoint source agency may distribute grant funds to other organizations in accordance with its work program, which is approved by EPA. Eligible Tribes are allocated a base allotment by formula; the remaining Tribal portion of the 319(h) appropriation is competed among qualified Indian Tribes and intertribal consortia. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments; interstate and intrastate agencies; federally recognized Indian tribal governments; intertribal consortia; the following US territory or possessions: the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands; public and private nonprofit organizations and institutions. The lead nonpoint source agency may distribute grant funds to other organizations in accordance with a work program which is approved by EPA.

Credentials/Documentation:

The provisions of 2 CFR 200 Subpart E apply. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination with the appropriate EPA Regional Office, listed in Appendix IV of the Catalog, is recommended. The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Grant applications by States must be submitted to the appropriate EPA Regional Office (refer to Appendix IV of the Catalog for a list of Regional

Offices). Grant applications by subgrantees within a State (after EPA has made a grant award to the State) must be submitted to the State agency that administers Section 319 grants. The list of State nonpoint source contacts for subgrantees is available at <http://water.epa.gov/polwaste/nps/where.cfm>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

Grant applications by States must be submitted to the appropriate EPA Regional Office (refer to Appendix IV of the Catalog for a list of Regional Offices). Grant applications by subgrantees within a State (after EPA has made a grant award to the State) must be submitted to the State agency that administers Section 319 grants. The list of State nonpoint source contacts for subgrantees is available at <http://water.epa.gov/polwaste/nps/where.cfm>. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EPA generally awards grants to States within 60 days after the application is submitted.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Clean Water Act.
Matching Requirements: Nonfederal match of at least 40 percent of project or program costs is required except for grants to Indian Tribes, where following demonstration of financial hardship, the nonfederal match may be reduced to as low as 10 percent of project or program costs. States must also meet maintenance of effort requirements contained in statute. EPA awards grants to all eligible States and Tribes which apply for funding based on an allocation formula that the Agency developed. The allocation formula is described in the revised grant guidelines issued on April 12, 2013 and found at <http://water.epa.gov/polwaste/nps/upload/319-guidelines-fy14.pdf>

Note, tribal base grant guidelines and annual Request for Proposals (RFP) are found at <http://water.epa.gov/polwaste/nps/tribal/>.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

As determined in accordance with Section 319 (h). See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment, and invention reports. Progress reports are generally required at least semi-annually. Specific reporting requirements are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program.

. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be kept for three years from date of submission of the annual federal financial report. If questions remain, records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$155,708,100; FY 15 est \$1,159,252,000; and FY 16 est \$169,915,000

Range and Average of Financial Assistance:

States/Territories: \$422,000 to \$8,361,000; \$2,795,000. Indian Tribes: base grants \$30,000 to \$50,000; competitive grants up to \$100,000. Ranges vary year-to-year based on size of appropriation (and also varies depending on number of applicants for grants to Indian Tribes or intertribal consortia).

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Grants are awarded annually to all States and selected Tribes. Grant funds were used by States and Tribes to implement portions of their NPS management programs. In FY 14, 56 grant awards were made to states and territories. Additional information regarding selected projects is available in Section 319 Success Stories, available online at <http://www.epa.gov/owow/nps/Success319/>. An estimate of load reductions resulting from CWA Section 319(h) funded projects from the time period February 2014 - February 2015 is as follows: nitrogen - 10.43 million pounds; phosphorus - 3.46 million pounds; and sediment - 1,169,297 tons. These load reduction totals are mostly from FY 14 grant funded projects. Fiscal Year 2015: Grants are awarded annually to all States and selected Tribes. Grant funds are used by States and Tribes to implement portions of their NPS management programs. Additional information regarding selected projects is available in Section 319 Success Stories, available at <http://www.epa.gov/owow/nps/Success319/>. Data for FY 15 funded projects are not available at this time. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Operational grant guidelines for FY 2013 Nonpoint Source Program and Grants Guidelines for States and Territories (Oct. 23, 2003). The guidelines can be found at <http://www.epa.gov/fedrgstr/EPA-WATER/2003/October/Day-23/w26755.htm>. The revised guidelines published on April 12, 2013 apply for FY 2014 and beyond and can be found at <http://water.epa.gov/polwaste/nps/upload/319-guidelines-fy14.pdf>.

Tribal grant information is posted at <http://www.epa.gov/nps/tribal>.

Regional or Local Office:

See Regional Agency Offices. Contact the appropriate EPA Regional Office listed in Appendix IV of the Catalog. A list of specific EPA Regional nonpoint source contacts is available at <http://water.epa.gov/polwaste/nps/upload/reg-nps-coord.pdf>. The list of specific EPA Tribal nonpoint source contacts is available at <http://water.epa.gov/polwaste/nps/tribal/>.

Headquarters Office:

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Nonpoint Source implementation projects funded include BMP installation for animal wastes, sediment, pesticide and fertilizer control, urban runoff, and a variety of other structural and non-structural practices; watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others. Fiscal Year 2015: Nonpoint Source implementation projects funded include BMP installation for animal wastes, sediment, pesticide and fertilizer control, urban runoff, and a variety of other structural and non-structural practices; watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Funds are awarded to States in accordance with Section 319 (h). For selection processes within individual States, contact the appropriate State nonpoint source coordinators. A list of these coordinators is available at http://water.epa.gov/polwaste/nps/upload/state_nps_coord.pdf.

66.461 REGIONAL WETLAND PROGRAM DEVELOPMENT GRANTS FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist state, tribal, local government (S/T/LG) agencies, and interstate/intertribal entities in building programs which protect, manage, and restore wetlands. The primary focus of the grants is to build state and tribal wetland programs. A secondary focus is to build local (e.g. county or municipal) programs. Funding Priority - Fiscal Year 2013: Under the Regional Wetland Program Development Grant (WPDG) competition, EPA has identified the following four Core Elements for improving state/tribe/local governments' (S/T/LGs) ability to protect and restore their wetlands: (1) Monitoring and Assessment; (2) Voluntary Restoration and Protection; (3) Regulatory Approaches Including CWA 401 Certification; and (4) Wetland-Specific Water Quality Standards. EPA will include as an appendix to each Regional Request For Proposals (RFP) a list of actions and activities under each Core Element that will develop or refine a S/T/LG's wetlands program. In addition, EPA has identified two funding Tracks. Track One is for states and

tribes that propose to develop a Wetlands Program Plan (WPP) as described at <http://water.epa.gov/type/wetlands/wpp.cfm> or carrying out projects from an EPA-approved WPP. Track Two is for states, tribes, local governments, interstate agencies, intertribal consortia, and universities that are agencies of a state that submit proposals that are consistent with the Four Core Elements as described above. Regions may add additional Region specific priorities that are compatible and consistent with the core element(s) and action(s) in the attached Appendix of development and refinement actions.

Funding Priority - Fiscal Year 2015: Under the Regional Wetland Program Development Grant (WPDG) competition, EPA has identified the following four Core Elements for improving state/tribe/local governments' (S/T/LGs) ability to protect and restore their wetlands: (1) Monitoring and Assessment; (2) Voluntary Restoration and Protection; (3) Regulatory Approaches Including CWA 401 Certification; and (4) Wetland-Specific Water Quality Standards. EPA will include a website in each Regional Request For Proposals (RFP) where potential applicants can find a list of actions and activities under each Core Element that will develop or refine a S/T/LG's wetlands program. In addition, EPA has identified two funding Tracks. Track One is for states and tribes that propose to develop a Wetlands Program Plan (WPP) as described at <http://water.epa.gov/type/wetlands/wpp.cfm> or carrying out projects from an EPA-approved WPP. Track Two is for states, tribes, local governments, interstate agencies, intertribal consortia, and universities that are agencies of a state that submit proposals that are consistent with the Four Core Elements as described above. Regions may add additional Region specific priorities that are compatible and consistent with the core element(s) and action(s) in the attached Appendix of development and refinement actions.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

These grants are intended to encourage comprehensive wetlands program development by promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Projects build the capacity of States, Tribes, and local governments to effectively protect wetland and riparian resources. Projects funded under this program support the development of a wetlands protection, restoration, or management program or support enhancement/refinement of an existing program. Interstate agency and intertribal consortia projects must be broad in scope and encompass more than one State, Tribe, or local government. The Regional Office will accept submissions only for projects that affect the States, Tribes, and Territories within their Region. Funds cannot be used for implementation of individual mitigation projects, mitigation banks, or in-lieu-fee mitigation programs. Additional uses and restrictions on funds will be described in detail in the competitive announcements. Projects that are national in scope are not eligible for funding under this Regional program but may be eligible for funding under EPA's National Wetland Program Development Grants program (CFDA 66.462). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, Tribes, local government agencies, interstate agencies, and intertribal consortia are eligible to apply to the Regions. Past recipients include, but are not limited to, wetland regulatory agencies, water quality agencies (Section 401 water quality certification), planning offices, wild and scenic rivers agencies, departments of transportation, fish and wildlife or natural resources agencies, agriculture departments, forestry agencies, coastal zone management agencies, park and recreation agencies, non-point source or storm water agencies, and city or county and other S/T/LG governmental agencies that conduct

wetland-related activities. In order to be eligible for WPDG funds, Tribes must be federally recognized, although "Treatment as a State" status is not a requirement. The term "interstate agency" is defined in CWA Section 502 as "an agency of two or more States established by or pursuant to an agreement or compact approved by the Congress, or any other agency of two or more States, having substantial powers or duties pertaining to the control of pollution as determined and approved by the Administrator." Intertribal consortia that meet the requirements of 40 CFR Part 35.504 are eligible for direct funding.

Intertribal consortia projects must be broad in scope and encompass more than one State, Tribe, or local government. Universities that are agencies of a State government are eligible to receive funds through these competitions.

Universities must include documentation showing that they are chartered as a part of a State government in their proposal. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Applicants need not be located within the boundaries of the EPA regional office to be eligible to apply for funding but must propose projects that affect the States, Tribes, and Territories within the Region.

Beneficiary Eligibility:

State, Tribal, and local governments involved in administering wetlands protection, restoration and/or management programs, or programs related to or that complement wetlands protection programs.

Credentials/Documentation:

Tribes may be asked to demonstrate that they are Federally recognized. Interstate organizations may be asked to provide a citation to the statutory authority which establishes their status. Intertribal consortia may be asked to provide documentation that they meet the requirements of 40 CFR Part 35.504. Universities must include documentation showing that they are chartered as a part of a State government in their proposal. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Each EPA Regional Office will set up its own competitive process for awarding WPDGs. Interested applicants should review information on the WPDG at: <http://www.epa.gov/owow/wetlands/grantguidelines/>. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Each EPA Regional Office will establish a process for awarding WPDGs. Regional Offices will accept applications only for projects selected through the competitive process that affect the States, Tribes, and Territories within their Region. The standard application forms, as furnished by the Federal agency and required by 2 CFR Parts 200 and 1500, must be used for this program. Applicants can also receive a copy of the current announcement by calling the EPA Regional Coordinator. Application forms are available at <http://www.epa.gov/ogd/AppKit/index.htm> and by mail upon request to the Grants and Interagency Agreements Management Division at (202) 564-5305. Completed applications should be submitted to the appropriate EPA Regional Office. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Grant applications are reviewed by the appropriate EPA Regional Office and, if

approved, the grant is awarded by the Regional Administrator. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within 4 months of receipt of completed application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula. The applicant must provide a minimum of 25 percent of the total cost of the work plan to the extent allowed by 2 CFR 200 and 1500 as applicable, 40 CFR 35.385, and 35.615. To determine if the minimum match is met, EPA will use the following formula: amount (in dollars) of federal funds requested from EPA divided by 3 = minimum match (in dollars) or Total project costs divided by 4 = minimum match (in dollars). For example, if the applicant requests \$75,000 of federal funds or a Total project cost of \$100,000 for the three-year project period, it must be able to provide \$25,000 in matching funds or services. A reduced match may be available for Tribal grantees that place the Wetland Program Development Grant funds in a Performance Partnership Grant. (See regulations at 40 CFR 536(c).) Please contact your EPA Regional contact person listed in Section VII if you have any questions about calculating the match requirement. We encourage States and Tribes to provide a larger share of the project's cost whenever possible (i.e., in excess of the required 25 percent of total project costs). Award recipients can meet the match requirement with in-kind or monetary contributions from entities other than themselves. However, other Federal money cannot be used as the match for this grant program unless authorized by the statute governing the award of the other Federal funds. Matching funds are considered grant funds. They must be used for the reasonable and necessary expenses of carrying out the assistance agreement work plan. Any restrictions on the use of grant funds (i.e., prohibition of land acquisition with grant funds) also apply to the matching funds. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and inventory reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$12,290,000; FY 15 est \$14,161,100; and FY 16 est \$19,161,000

Range and Average of Financial Assistance:

Range: \$20,000 to \$600,000/fiscal year; Average: \$220,000/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Eight of the ten EPA Regional Offices issued a competitive announcement based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcements include the number of anticipated awards. In FY 14, approximately 4 to 30 proposals were received by each Region under the ten Regional competitive announcements with approximately 3 to 19 cooperative agreements or grants awarded under each Regional competitive announcement. No awards were made non-competitively in FY 14. In FY 14, projects were funded to support activities such as: developing state or tribal Wetland Program Plans (WPPs); to develop a statewide living shoreline program for one state; to add value to current state monitoring and assessment programs by increasing the design and functionality of Floristic Quality Analysis tools; wetland and stream mitigation improvement activities; develop an assessment model to evaluate playa wetland availability/vulnerability under various climate variability scenarios, and predict changes in the functioning of playa wetlands in one state; update the Regional Strategy for one state's Wetlands Recovery Plan, incorporating historical ecology studies, region-wide change analysis, climate change, and updated guidelines; and a project to promote public awareness about the value and importance of wetlands through coordinated education programs and information which will identify and characterize high quality wetlands to attain no net loss of wetlands, as well as, facilitate conserving and restoring of wetlands and riparian buffers through assessment, education, policy, and planning local implementation strategies. Fiscal Year 2015: Eight of the ten EPA Regional Offices will issue a competitive announcement based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcements include the number of anticipated awards. In FY 15, eight Regional competitive announcements were issued. In FY 15, approximately 4 to 30 proposals were received by each Region under the eight Regional competitive announcements with approximately 3 to 19 cooperative agreements or grants awarded under each Regional competitive announcement. In FY 15, projects have not yet been awarded but all will support activities to build state/tribal/local wetland program building and improvement. No awards were made non-competitively in FY 15. Fiscal Year 2016: No Current Data Available

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.454 Water Quality Management Planning; 66.456 National Estuary Program; 66.458 Capitalization Grants for Clean Water State Revolving Funds; 66.462 National Wetland Program Development Grants and Five-Star Restoration Training Grant

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The WPDG database provides project information for grants funded through this program since 2005 (<http://iaspub.epa.gov/pls/grts/f?p=101:1>). Examples of funded projects include: wetland and stream mitigation studies; development of wetland or watershed conservation plans; development of wetland program plans; wetland training workshops; developing a monitoring and assessment program; development of wetland monitoring and assessment methods and programs; training for State/Tribal/local government staff in monitoring techniques or wetland science such as delineation; wetland monitoring and assessment studies; wetland mapping studies; wetland inventory and classification projects to determine restoration sites; developing a wetland restoration program; development of wetland restoration methods and prioritization schemes; database development to track 404 permit action and compliance; and development of wetland water quality standards. Fiscal Year 2015: The WPDG database provides project information for grants funded through this program since 2005 (<http://iaspub.epa.gov/pls/grts/f?p=101:1>). Examples of funded projects include: wetland and stream mitigation studies; development of wetland or watershed conservation plans; development of wetland program plans; wetland training workshops; developing a monitoring and assessment program; development of wetland monitoring and assessment methods and programs; training for

State/Tribal/local government staff in monitoring techniques or wetland science such as delineation; wetland monitoring and assessment studies; wetland mapping studies; wetland inventory and classification projects to determine restoration sites; developing a wetland restoration program; development of wetland restoration methods and prioritization schemes; database development to track 404 permit action and compliance; and development of wetland water quality standards. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.462 NATIONAL WETLAND PROGRAM DEVELOPMENT GRANTS AND FIVE-STAR RESTORATION TRAINING GRANT**FEDERAL AGENCY:**

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), Public Law 92-500, 33 U.S.C 1254(b)(3).

OBJECTIVES:

To assist state, tribal, local government (S/T/LG) agencies, and interstate/intertribal entities in building programs which protect, manage, and restore wetlands. The primary focus of the grants is to build state and tribal wetland programs. A secondary focus is to build local (e.g. county or municipal) programs. Funding Priority - Fiscal Year 2015: For the National WPDGs: EPA has identified the following national priorities - National Priority Area 1: Core Elements Framework. National Priority Area 1 is based on the four core elements of a Comprehensive State/Tribal Wetlands Program: 1) Monitoring and Assessment; 2) Voluntary Wetland Restoration and Protection; 3) Regulatory Approaches Including CWA 401 Certification; and 4) Wetland-Specific Water Quality Standards. Further explanation of all of the elements can be found at the following website address:

<http://www.epa.gov/owow/wetlands/initiative/estp.html>. The Wetlands Program Development Grants (WPDG) program strives to develop State/Tribal/local government programs that will incorporate each of these elements. For the Five-Star Restoration Training Grants, EPA funds an intermediary organization to provide subawards to eligible subawardees to bring together citizen groups, corporations, youth conservation corps, students, landowners, and government agencies to undertake projects that achieve environmental training through voluntary, community/watershed-based wetland restoration projects.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The National WPDGs are intended to encourage comprehensive, national wetlands program development by promoting the coordination and acceleration of research, investigations, experiments, training, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Projects build the capacity of States, Tribes, and local governments programs to effectively protect wetland and riparian resources. Activities must help S/T/LGs develop and refine wetland programs. Projects funded under this program support the initial development of a national wetlands protection, restoration or management program, or support enhancement/refinement of an existing national program. Projects must be broad in scope and include more than one EPA Region or be national in scope and cannot be limited to activities that affect such entities in only one EPA region. For example, projects and tasks can involve advancing science or collecting and making available through publications and other appropriate means, such as training on information about how various wetland programs across the nation protect, manage, and restore their wetland resources and about initiatives to improve S/T/LG wetland programs. Projects that are local or encompass only one EPA Region in scope are not eligible for funding under this program but may be eligible for funding under EPA's Regional Wetland Program Development Grants program (CFDA 66.461). Funds cannot be used for the purchase of land or conservation easements. Funds cannot be used for implementation of individual mitigation projects, mitigation banks, or in-lieu-fee mitigation programs. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following

website: <http://geodata.epa.gov>. EPA's Five Star Restoration Training Grant is anticipated to fund one cooperative agreement to an organization to manage the Five Star Restoration Training Grant subaward process that will award subgrants to achieve environmental training through voluntary, community/watershed-based wetland restoration projects. Projects funded under the subgrant process must be limited to activities that conduct or promote the coordination and acceleration of training relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution. Other activities under section 104(b)(3) will not be considered for funding. Funds cannot be used for the purchase of land or conservation easements. Funds cannot be used for implementation of individual mitigation projects, mitigation banks, or in-lieu-fee mitigation programs. Wetland restoration training projects cannot include wetlands constructed for the purposes of treating wastewater or stormwater only. The assistance agreement award under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Non-profit, non-governmental organizations, Interstate agencies, and Intertribal consortia which are capable of undertaking activities that advance wetland programs on a national basis are eligible to compete in this program. The term "interstate agency" is defined in CWA Section 502 as "an agency of two or more States established by or pursuant to an agreement or compact approved by the Congress, or any other agency of two or more States, having substantial powers or duties pertaining to the control of pollution as determined and approved by the Administrator." Intertribal consortia must meet the requirements of 40 CFR Part 35.504. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State, Tribal, and local governments involved in administering wetlands protection, restoration, and/or management programs or programs related to or complement wetlands protection programs.

Credentials/Documentation:

Non-profit applicants may be asked to provide documentation that they meet the definition of a non-profit organization. Interstate organizations may be asked to provide a citation to the statutory authority, which establishes their status. Intertribal consortia may be asked to provide documentation that they meet the requirements of 40 CFR Part 35.504. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

. Environmental impact information is not required for this program. This

program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The EPA Headquarters (HQ) Office will conduct the competitive process for awarding National Wetland Program Development Grants. Interested applicants should review information on the National Wetland Program Development Grants at: http://water.epa.gov/grants_funding/wetlands/grantguidelines/index.cfm. Submittal instructions can be found in the competitive announcement. The EPA Headquarters (HQ) Office will conduct the competitive process for awarding the Five-Star Restoration Training Grant. Interested applicants should review information on the Five-Star Restoration Training Grant at: http://water.epa.gov/grants_funding/wetlands/grantguidelines/index.cfm. Submittal instructions can be found in the competitive announcement. All applicants will be notified by the HQ Office on whether or not the applicant has been selected for funding. The notification is not an authorization to begin performance. The Grant Award document signed by the appropriate grant official in the EPA HQ Office is the authorizing document. Applicants selected for funding must submit a final workplan and grant application forms. Application forms are available at <http://www.epa.gov/ogd/AppKit/index.htm> and by mail upon request to the Grants and Interagency Agreements Management Division at (202) 564-5305. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within 4 months of receipt of completed application.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula. The applicant must provide a minimum of 25 percent of the total cost of the workplan to the extent allowed by 2 CFR 200 and 1500 as applicable, 40 CFR 35.385, and 35.615. To determine if the minimum match is met, EPA will use the following formula: amount (in dollars) of federal funds requested from EPA divided by 3 = minimum match (in dollars) or Total project amount (in dollars) divided by 4 = minimum match (in dollars). For example, if the applicant requests \$75,000 of federal funds or has a total project cost of \$100,000 for a three-year project

period, it must be able to provide \$25,000 in matching funds or services. A reduced match may be available for Tribal grantees that place the Wetland Program Development Grant funds in a Performance Partnership Grant. (See regulations at 40 CFR 536(c)). States and Tribes can provide a larger share of the project's cost whenever possible (i.e., in excess of the required 25 percent of total project costs). Award recipients can meet the match requirements with in-kind or monetary contributions from entities other than themselves. However, other Federal money cannot be used as the match for this grant program unless authorized by the statute governing the award of the other Federal funds. Matching funds are considered grant funds. They must be used for the reasonable and necessary expenses of carrying out the assistance agreement workplan. Any restrictions on the use of grant funds (i.e., prohibition of land acquisition with grant funds) also apply to the matching funds. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. All final reports must be accompanied by a 1-2 page summary electronic document on the project. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$950,000; FY 15 est \$6,000,000; and FY 16 est \$750,000 - National Wetlands Program Development Grants: FY 14 \$850,000; FY 15 est. \$500,000; and FY 16 est. \$500,000. Five-Star Restoration Training Grant: FY 14 \$100,000; FY 15 est. \$100,000; and FY 16 est \$250,000.

Range and Average of Financial Assistance:

National Wetlands Program Development Grants: \$75,000 to \$200,000/every two years; \$160,500/every two years; Five-Star Restoration Training Grant: \$1,000,000 every four years.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14, seven (7) awards totaling approximately \$850,000 were made for projects that seek to encourage the use of data documenting

wetland condition, function, status and trends to support development and implementation of other state wetland program core elements such as wetland regulation, restoration, and development of water quality standards for wetlands; identify best practices for developing wetland restoration and protection programs while leveraging adaptation to climate change; develop a handbook for states, tribes, and local governments on the policy and practice of stream compensatory mitigation; develop and deliver in-lieu fee mitigation training for states, tribes, and local governments; increase understanding of multiple aspects of state and tribal wetland programs, including all four of the EPA core essential elements, resulting in more robust state and tribal programs; and develop and distribute programmatic support documents for identifying and sampling candidate reference wetland sites using consistent wetland condition assessment methods across the nation, piloted through programs in 10 states. Fiscal Year 2015: In FY 15, funding will continue to support projects that encourage the use of data documenting wetland condition, function, status and trends to support development and implementation of other state wetland program core elements such as wetland regulation, restoration, and development of water quality standards for wetlands; identify best practices for developing wetland restoration and protection programs while leveraging adaptation to climate change; develop a handbook for states, tribes, and local governments on the policy and practice of stream compensatory mitigation; develop and deliver in-lieu fee mitigation training for states, tribes, and local governments; increase understanding of multiple aspects of state and tribal wetland programs, including all four of the EPA core essential elements, resulting in more robust state and tribal programs; and develop and distribute programmatic support documents for identifying and sampling candidate reference wetland sites using consistent wetland condition assessment methods across the nation, piloted through programs in 10 states. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General grant regulations and procedures, 2 CFR 200 and 1500, 40 CFR 35.610, as applicable.

66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.454 Water Quality Management Planning; 66.456 National Estuary Program; 66.458 Capitalization Grants for Clean Water State Revolving Funds; 66.461 Regional Wetland Program Development Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The Wetland Program Development Grant database will provide project information for the National WDPGs (<http://iaspub.epa.gov/pls/grts/f?p=101:1>). Examples of funded projects include projects that: encourage the use of data documenting wetland condition, function, status and trends to support development and implementation of other state wetland program core elements such as wetland regulation, restoration, and development of water quality standards for wetlands; identify best practices for developing wetland restoration and protection programs while leveraging adaptation to climate change; develop a handbook for states, tribes, and local governments on the policy and practice of stream compensatory mitigation; develop and deliver in-lieu fee mitigation training for states, tribes, and local governments; increase understanding of multiple aspects of state and tribal wetland programs, including all four of the EPA core essential elements, resulting in more robust state and tribal programs; and develop and distribute programmatic support documents for identifying and sampling candidate reference wetland sites using consistent wetland condition assessment methods across the nation, piloted through programs in 10 states. Fiscal Year 2015: The

Wetland Program Development Grant database will provide project information for the National WDPGs (<http://iaspub.epa.gov/pls/grts/f?p=101:1>). Examples of funded projects include projects that: encourage the use of data documenting wetland condition, function, status and trends to support development and implementation of other state wetland program core elements such as wetland regulation, restoration, and development of water quality standards for wetlands; identify best practices for developing wetland restoration and protection programs while leveraging adaptation to climate change; develop a handbook for states, tribes, and local governments on the policy and practice of stream compensatory mitigation; develop and deliver in-lieu fee mitigation training for states, tribes, and local governments; increase understanding of multiple aspects of state and tribal wetland programs, including all four of the EPA core essential elements, resulting in more robust state and tribal programs; and develop and distribute programmatic support documents for identifying and sampling candidate reference wetland sites using consistent wetland condition assessment methods across the nation, piloted through programs in 10 states. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.466 CHESAPEAKE BAY PROGRAM

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 117.

OBJECTIVES:

To expand and strengthen cooperative efforts to restore and protect the Chesapeake Bay. EPA's funding priority is to achieve the goals and commitments established in the 2014 Chesapeake Bay Watershed Agreement and the final coordinated strategy under Executive Order (EO) 13508. As a means to achieve their goals and outcomes, assistance agreements are awarded to: nonprofit organizations, state and local governments, colleges, universities, and interstate agencies. The type of projects that are awarded range from monitoring to environmental education. These projects have helped support the commitments set forth in Chesapeake Executive Council agreements and amendments (The Chesapeake Bay Agreement of 1983 through the 2014 Chesapeake Bay Watershed Agreement) and subsequent directives, adoption statements, endorsements and resolutions

To expand and strengthen cooperative efforts to restore and protect the Chesapeake Bay. EPA's funding priority is to achieve the goals and commitments established in the Chesapeake 2000 agreement and the final coordinated strategy under Executive Order (EO) 13508. As a means to achieve the goals and commitments, assistance agreements are awarded to: nonprofit organizations, State and local governments, colleges, universities, and interstate agencies. The type of projects that are awarded range from monitoring to environmental education. These projects have helped support the commitments set forth in Chesapeake Executive Council agreements and amendments (The Chesapeake Bay Agreement of 1983 through Chesapeake 2000) and subsequent directives, adoption statements, endorsements and resolutions.

Funding Priority - Fiscal Year 2015: EPA's focus in FY 2015 is to continue to improve the rate of progress in the Chesapeake Bay watershed by meeting the President's expectations as described in Executive Order (EO) 13508, using the Agency's existing statutory authority, implementing the Chesapeake Bay Total Maximum Daily Load (TMDL), providing states with the tools necessary for effective regulatory implementation, creating better tools for scientific analysis and accountability, and supporting regulatory compliance and enforcement. EPA will work toward implementing key initiatives under EO 13508, including: implementing the TMDL; developing a TMDL tracking and accountability system; deploying technology to integrate discrete Bay data

systems and to present the data in an accessible accountability system called ChesapeakeStat; and moving forward on the Bay's challenges related to toxic contaminants.

A centerpiece of EPA's FY 2015 activities is the implementation of the nation's largest and most complex TMDL for the entire Chesapeake Bay watershed. A TMDL is essentially a plan that defines how much of a particular pollutant may be discharged into a particular waterbody while allowing the waterbody to meet its water quality standards and designated uses. EPA released the final TMDL in December 2010. Prior to that release, the Bay jurisdictions developed watershed implementation plans (WIPs) that included specific timelines for enhancing programs and implementing actions to reduce pollution. The TMDL is designed to ensure that all pollution control measures needed to fully restore the Bay and its tidal rivers are in place by 2025, with at least 60 percent of the actions completed by 2017. To support the TMDL, EPA will develop and initiate a tracking and accountability system to ensure that the Bay jurisdictions are effectively implementing the TMDL.

To support accountability under the TMDL, EPA will enhance the Chesapeake Bay Program's water-quality monitoring network to better track TMDL progress. EPA will use its technical and scientific analysis capabilities to provide implementation support and guidance to the states and thousands of local governments that will be affected by the TMDL. EPA will assist the jurisdictions in making scientifically informed determinations of the most effective ways to meet their TMDL obligations that will provide individually tailored solutions. EPA is providing resources to expand the Partnership's existing monitoring through integration of citizen science data collection efforts of known and documented quality and other non-traditional monitoring partners (e.g., counties, municipal discharge authorities, riverkeepers, watershed organizations).

To ensure that the states are able to meet EPA's expectations under the TMDL and new national rulemakings, EPA will continue and in some cases expand its broad range of grant programs. EPA will provide funding to local governments and watershed jurisdictions through state grants based on their ability to reduce nutrient and sediment loads via key sectors such as development and agriculture in urban and rural areas.

ChesapeakeStat is a key element in the next generation of tools EPA is developing to significantly enhance the accountability of program partners. ChesapeakeStat is a web based, geoenabled tool for performance-based interactive decision making for all Bay partners. The system allows the public to track progress and become informed and engaged in restoring the Bay.

Ensuring that the regulated community complies with the appropriate regulations is an essential responsibility for achieving the goals established for the Chesapeake Bay and its watershed. In FY 2014, the continued implementation of the Compliance and Enforcement Strategy for the Bay Watershed will target sources of pollution impairing the Bay in the watershed and airshed. EPA's multi-year, multi-state strategy combines the Agency's water, air and waste enforcement authorities to address violations of federal environmental laws resulting in nutrient, sediment, and other pollution in the Bay.

In March 2015, the Chesapeake Bay Program Partnership (i.e., the Bay jurisdictions, EPA and other Federal agencies, and the Chesapeake Bay Commission), released draft management strategies to address the goals and outcomes for the full range of partners' efforts to restore the Bay and its watershed, as outlined in its June 2014 Bay Agreement. These strategies are expected to be finalized by June 2015. From now through April 2016, the Partnership will develop management strategy Biennial Workplans. Whereas the management strategies summarize the Partnership's management process for implementing the 2014 Agreement, the workplans will identify the specific commitments, actions and resources each partner plans to make available both individually and collectively to reach the two-year target for each outcome.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

On November 7, 2000, the President signed the Estuaries and Clean Waters Act of 2000, which includes Title II-Chesapeake Bay Restoration. This Act amends Section 117 of the Federal Water Control Act (Clean Water Act) and established new authorities for the Chesapeake Bay Program. These new legal authorities specify the type of work that can be performed with the funds appropriated for the Chesapeake Bay Program, the type of funding vehicles (e.g., assistance agreement) that can be used, and the type of organization eligible to receive funding. The purposes of these amendment authorities are: (1) to expand and strengthen cooperative efforts to restore and protect the Chesapeake Bay; and (2) to achieve the goals established in the Chesapeake Bay Agreement. The term "Chesapeake Bay Agreement" means the formal, voluntary agreements signed by the Chesapeake Executive Council and executed to achieve the goal of restoring and protecting the Chesapeake Bay ecosystem (e.g., the 1987 Chesapeake Bay Agreement, Chesapeake 2000 agreement, 2014 Chesapeake Bay Watershed Agreement, various Executive Council directives, etc.).

Assistance Agreements awarded under this program are:

(1) 117(d) Technical Assistance and General Assistance Grants - These grants will be awarded competitively to nonprofit organizations, State and local governments, colleges, universities, and interstate agencies to implement the goals of the Chesapeake Bay Agreements; such as activities to support living resource protection and restoration; vital habitat protection and restoration; water quality protection and restoration; sound land use; and stewardship and community engagement. All applicants applying for grants under Section 117(d) must commit to a cost share ranging from 5 to 50 percent of the total project costs, as determined at the sole discretion of EPA. This determination will be stated in Request for Proposals (RFPs) or Agency policy.

(2) 117(e)(1)(A) Chesapeake Bay Regulatory and Accountability Grants (CBRAP) - As a result of EO 13508, these grants help each watershed state and the District of Columbia to develop new regulations, design TMDL watershed implementation plans, reissue and enforce permits, and provide technical and compliance assistance to local governments and regulated entities. The grants aid the states and DC in implementing and expanding their jurisdiction's regulatory, accountability and enforcement capabilities, in support of reducing nitrogen, phosphorus and sediment loads delivered to the Bay to meet the water quality goals of the 2014 Chesapeake Bay Watershed Agreement. EPA awards these grants non-competitively. Signatory jurisdictions applying for regulatory and accountability program grants under Section 117(e)(1)(A) must identify 50% cost share of total project costs (equal match/dollar for dollar) as required by statute.

(3) Section 117(e)(1)(A) Chesapeake Bay Implementation Grants (CBIG) - The Chesapeake Bay Implementation Grants are authorized under Section 117(e)(1)(A) to signatory jurisdictions. Implementation Grants are for the purpose of implementing the management mechanisms established under the 2014 Chesapeake Bay Watershed Agreement, with particular emphasis on state programs for control and abatement of nonpoint source nutrient and sediment pollution (including atmospheric deposition as a nonpoint source). Specifically, CBIG awards support the jurisdictions' implementation of the management strategies developed for each of the applicable outcomes identified in the 2014 Chesapeake Bay Watershed Agreement. CBIG awards may support the jurisdictions' implementation of their watershed implementation plans (WIPs) and milestone commitments, including addressing EPA's evaluation of the WIPs and milestones, and comparable actions that support nutrient and sediment load reduction goals. If the signatory jurisdictions do not use 117(e)(1)(A) grants for projects consistent with furthering the 2014 Chesapeake Bay Watershed Agreement goals and outcomes, EPA may reallocate, conditionally award, or withhold funds. These grants are awarded non-competitively to any jurisdiction that signed the 2014 Chesapeake Bay Watershed Agreement. Signatory jurisdictions applying for implementation under Section 117(e)(1)(A) must identify 50% cost-share of total project costs (equal match/dollar for dollar).

(4) Section 117(e)(1)(B) Monitoring Grants - The monitoring grants are

authorized under Section 117(e)(1)(B) for signatory jurisdictions. These grants support the characterization of water and habitat quality and benthic community conditions for the main stem Chesapeake Bay and tidal tributaries, characterizing nutrient and sediment loadings to the Chesapeake Bay and its tidal tributaries from the surrounding Chesapeake Bay watershed, assessing changes in nutrient and sediment concentrations in local streams and rivers throughout the Chesapeake Bay watershed, and providing data analysis and interpretation support for water quality and living resources status and trends. These grants are awarded non-competitively to any signatory jurisdiction that signed the 2014 Chesapeake Bay Watershed Agreement. Signatory jurisdictions applying for monitoring grants under Section 117(e)(1)(B) must identify 50% cost share of total project costs (equal match/dollar for dollar).

(5) Section 117(g)(2) Small Watershed Grants - The Small Watershed Grants Program was established under Section 117(g)(2), which provides that grants can be awarded under Section 117(d) to local governments and nonprofit organizations in the Chesapeake Bay region working on a local level to protect and improve watersheds, while building citizen based resource stewardship. The purpose of the grants program is to demonstrate effective techniques and partnership-building to achieve Chesapeake Bay Program objectives at the small watershed scale. The Small Watershed Grants Program was designed to encourage the sharing of innovative ideas among the many organizations wishing to be involved in watershed protection activities. Applicants applying for small watershed grants under Section (g)(2) must commit to a cost share of 25% of the total project cost.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Under section 117(d), funds are available for technical and general assistance grants to nonprofit organizations, State and local governments, colleges, universities, and interstate agencies; under section 117(e)(1)(A) and 117e(1)(B), respectively, funds are available for implementation, regulatory and accountability, and monitoring grants to signatory jurisdictions; and under section 117(g)(2), funds are available for technical assistance and assistance grants under the Small Watershed Grants Program to local governments and nonprofit organizations and individuals in the Chesapeake Bay region. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Under section 117(d), funds are available for technical and general assistance grants to nonprofit organizations, State and local governments, colleges, universities, and interstate agencies; under section 117(e)(1)(A) and 117(e)(1)(B), respectively, funds are available for implementation, and monitoring grants to signatory jurisdictions and headwaters states; and under Section 117(g)(2), funds are available for technical assistance and assistance grants under the Small Watershed Grants Program to local governments and nonprofit organizations and individuals in the Chesapeake Bay region.

Credentials/Documentation:

Compliance with 2 CFR 200 and 1500, and with Program Grant Guidance to matching funds. Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Preapplication assistance is recommended and should be obtained from the EPA Region III Grants Management Office. All proposals or work statements should be consistent with CBPO's Grant Guidance located at <http://www.epa.gov/region3/chesapeake/grants.htm>. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200 and 1500 as applicable applies to this program. Competitive RFPs for grants/cooperative agreements are announced widely through the internet and Environmental Protection Agency's CBPO RFP e-mail and mailing database. RFPs are listed on the following websites: <http://www.grants.gov>; <http://www.epa.gov/region03/chesapeake/grants.htm>; <http://www.epa.gov/region03/grants/grantopp.htm>; and <http://www.chesapeakebay.net/grantsandrfps.aspx?menuitem=14892>.

Issued CBPO RFPs will seek applicant proposals that identify specific outcomes that will further goals of the 2014 Chesapeake Bay Watershed Agreement. The RFP will include detailed instructions for submission of proposals. Interested parties who would like to receive a copy of issued CBPO RFPs and be added to the Environmental Protection Agency's CBPO e-mail and/or mailing database should submit their name, address, phone number, and e-mail address to James Hargett at hargett.james@epa.gov or such requests can be mailed to James Hargett, Environmental Protection Agency CBPO, 410 Severn Avenue, Suite 112, Annapolis, Maryland 21403. EPA will only accept addresses provided in writing (either by e-mail or letter); no phone calls will be accepted. Requests for application kits must be submitted to the Environmental Protection Agency, Region 3, 1650 Arch Streets, Philadelphia, PA 19103, Grants and Audit Management Branch (3PM70). Additional information on the EPA assistance package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Additional information pertaining to application requirements for EPA's CBPO grants programs can be found in the 2011 CBPO Grant Guidance at: <http://www.epa.gov/region03/chesapeake/grants.htm>.

Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in

accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 7 months after deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Renewals are subject to approval of EPA.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula. Under Section 117 (e)(1)(A) and 117(e)(1)(B), respectively, signatory jurisdictions applying for implementation and monitoring grants must identify 50 percent cost share of total project costs (equal match/dollar for dollar). All applicants applying for technical and general assistance grants under Section 117 (d), must commit to a cost share ranging from 5 percent to 50 percent as determined at the sole discretion of EPA. This determination will be stated in Request for Proposals or Agency policy. EPA will promptly inform the applicant of the selected cost share requirement. Signatory jurisdictions applying for regulatory and accountability program grants under Section 117(e)(1)(A) must identify 50% cost share of total project costs (equal match/dollar for dollar) as required by statute. Applicants applying for Small Watershed Grants Program under Section 117(g)(2) must commit to a cost share of 25 percent of the total project cost. State and local governments receiving assistance under any of the provisions of Section 117 must comply with 2 CFR 200 and 1500. In addition to the cost share requirement, applicants must adhere to the requirement in the Clean Water Act, Section 117 - Administrative Costs. This section requires a 10 percent cap for administrative costs. The cost of salaries and fringe benefits incurred in administering the grant cannot exceed 10 percent of the Federal grant amount.

This program does not have MOE requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded on a 12-month basis. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United

States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$42,036,900; FY 15 est \$55,066,000; and FY 16 est \$51,111,000

Range and Average of Financial Assistance:

\$73,333 to \$10,000,000/fiscal year; \$1,100,000/fiscal year average.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14, CBPO issued five RFPs. CBPO issued nine total awards under these RFPs. These nine awards are in addition to over 45 existing CBPO awards that CBPO funded in FY 14. FY 14 activities included: citizens monitoring; communications, outreach, and education activities to support the staffing and operations of the Bay Program Communication Office; implementation of WIPs to reduce nutrients and sediments to improve water quality; continued technical support and outreach to address water quality restoration goals and maintain public awareness of Bay restoration; investigation of the nitrogen reduction efficiency and cost effectiveness of nitrogen reducing septic systems within the mid-Atlantic region; evaluation of the impact of phosphorus species on water quality and plant growth; NPDES data synthesis and field monitoring to better estimate loadings of toxics (metals, organics) to Chesapeake Bay through storm water; Chesapeake Bay modeling, GIS and data analyses support, water quality data analysis/integration support, nonpoint and point source data management/analysis; and development of new regulations, design of TMDL watershed implementation plans, reissuance and enforcement of permits, and technical and compliance assistance to local governments and regulated entities to meet the goals of the 2014 Chesapeake Bay Watershed Agreement. Fiscal Year 2015: So far in FY 15, CBPO has issued five RFPs. CBPO received seven proposals for these RFPs and issued six awards. CBPO may issue additional RFPs in FY 15 and will fund over 45 existing awards. FY 15 activities will include: citizens monitoring; communications, outreach, and education activities to support the staffing and operations of the Bay Program Communication Office; implementation of WIPs to reduce nutrients and sediments to improve water quality; continued technical support and outreach to address water quality restoration goals and maintain public awareness of Bay restoration; investigation of the nitrogen reduction efficiency and cost effectiveness of nitrogen reducing septic systems within the mid-Atlantic region; evaluation of the impact of phosphorus species on water quality and plant growth; NPDES data synthesis and field monitoring to better estimate loadings of toxics (metals, organics) to Chesapeake Bay through storm water; Chesapeake Bay modeling, GIS and data analyses support, water quality data analysis/integration support, nonpoint and point source data management/analysis; and development of new regulations, design of TMDL watershed implementation plans, reissuance and enforcement of permits, and technical and compliance assistance to local governments and regulated entities to meet the goals of the 2014 Chesapeake Bay Watershed Agreement. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Chesapeake Bay Program Office's Annual Grant Guidance and general regulations (2 CFR 200 and 1500) for assistance programs available from EPA. The Chesapeake Bay Program Office's Grant Guidance is available at <http://www.epa.gov/region03/chesapeake/grants.htm>.

Regional or Local Office:

See Regional Agency Offices. Veronica Kuczynski, EPA Chesapeake Bay Program Office, 410 Severn Avenue, Suite 112, Annapolis, MD 21403. Telephone: (410) 267-5743; FAX: (410) 267-5777; e-mail: kuczynski.veronica@epa.gov.

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.439 Targeted Watersheds Grants; 66.454 Water Quality Management Planning; 66.460 Nonpoint Source Implementation Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grants and cooperative agreements will be awarded to states and local governments, colleges, universities interstate agencies, and nonprofit organizations for nonpoint source implementation, water quality monitoring, education and outreach, watershed management, living resources and habitat restoration, and program support. Examples of funded projects include: (1) enhanced storm water monitoring; (2) communications, outreach, and public education efforts; (3) computer modeling; (4) nonpoint source pollution programs; (5) Chesapeake Bay point source data management; and (6) regulatory and accountability programs. Fiscal Year 2015: Grants and cooperative agreements will be awarded to states and local governments, colleges, universities interstate agencies, and nonprofit organizations for nonpoint source implementation, water quality monitoring, education and outreach, watershed management, living resources and habitat restoration, and program support. Examples of funded projects include: (1) enhanced storm water monitoring; (2) communications, outreach, and public education efforts; (3) computer modeling; (4) nonpoint source pollution programs; (5) citizens monitoring; (6) Chesapeake Bay point source data management; and (7) regulatory and accountability programs. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.467 WASTEWATER OPERATOR TRAINING GRANT PROGRAM
(Wastewater O&M Onsite Technical Assistance Grants)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Federal Water Pollution Control Act, Section 104(g)(1), 33 U.S.C 1251.

OBJECTIVES:

To substantially enhance the proficiency of personnel engaged in the operations and maintenance of treatment works and related activities by financing pilot programs.

Funding Priority - Fiscal Year 2015: No funds are available in FY 2015. If funds become available, the funding priority will primarily be to provide on-site technical assistance to address the unique performance limiting conditions of wastewater treatment plants. Classroom training may also be provided on a limited basis, if cost-effective, to improve the skills of wastewater treatment plant operators. No appropriation authority was provided for FY 2008 or later. However, if unobligated carryover funds are available in FY 2015, projects will be funded in accordance with the funding priorities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance is available to support recipients' allowable direct costs incidental to approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State agencies or the designated organizations of the States, the District of Columbia, Puerto Rico, Virgin Islands, Guam, Northern Marianas, America Samoa, the Trust Territories, and Native American Indian Tribes. Additionally, institutions of higher education and "not for profit institutions" may also apply for funding if acting as a designated organization of the State.

Beneficiary Eligibility:

State, Tribal, and local governments and publicly owned treatment works (POTWs). Activities which contribute to Operation and Maintenance (O&M) improvements at POTWs, including pollution prevention activities, may be funded. Legislative history supports using appropriations for onsite O&M technical assistance to the small sized POTWs of less than 5 million gallons per day (MGD) of wastewater flow, since many of these POTWs are exhibiting performance problems and do not have readily available consultant's technical assistance like those of the larger POTWs.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200, Subpart E. Non-profit applicants may be asked to provide documentation that they meet the definition of a non-profit organization. Tribes may be asked to demonstrate that they are Federally recognized. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard EPA application assistance forms must be used for this program. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This program is subject to the provisions of 2 CFR Parts 200 and 1500, as applicable. Request for application forms and completed applications must be submitted to the applicable Regional or Headquarters Grants Administration office. Applications must meet the requirements of the grant regulations and must be reviewed and approved by the appropriate Regional or Headquarters' waste management program office prior to approval by the Grants office. The review must include an administrative and technical evaluation to determine adequacy, merit, and relevance of the proposal. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

An application is reviewed by the appropriate EPA Regional Office and, if approved, is signed by the Regional Administrator or designated Division Director.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application

deadlines.

Range of Approval/Disapproval Time:

Generally, 90 days after the grant application is received by EPA.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally 25 percent in kind service/goods or matching funds is required; however, this provision may be waived in certain cases.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants may be awarded for a project period not to exceed 3 years. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Headquarters receives semi-annual status reports, and an annual data submission of the program's progress for the current fiscal year, from all Regional Offices. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records and other records which substantiate the reasonable and allocable charges must be available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status reports. If questions arise, related records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0

Range and Average of Financial Assistance:

For every \$1,000,000 appropriated by the U.S. Congress, a State receives approximately \$30,000/fiscal year to provide funds to onsite technical assistance providers. The historical range and average of financial assistance provided is: \$12,000 to \$40,000/fiscal year; \$25,000/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Not applicable as no funding has been provided after Fiscal Year 2007. Fiscal Year 2015: Not applicable as no funding has been provided after Fiscal Year 2007. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Applicants for technical assistance should review 2 CFR 200 and 1500 as applicable, and the annual guidance produced by the Headquarters wastewater program office

Regional or Local Office:

See Regional Agency Offices. See EPA Regional Offices listed in Appendix IV of the Catalog or online for additional information.

Headquarters Office:

Gajindar Singh, Office of Wastewater Management (4204M), Office of Water, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW, Washington, DC 20460, Washington, District of Columbia 20460 Email: singh.gajindar@epa.gov Phone: (202) 564-0634.

Website Address:

<http://water.epa.gov/type/watersheds/wastewater/training.cfm>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Not applicable as no funding has been provided after Fiscal Year 2007. Fiscal Year 2015: Not applicable as no funding has been provided after Fiscal Year 2007. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

On-site wastewater O&M technical applications managed by the Regions are evaluated based on the Headquarters wastewater program office's annual guidance, as well as EPA's grants management-related guidance. Other pilot program proposals, with similar objectives, will be considered by the Regional and Headquarters wastewater program offices based on the merits of the proposal, and prior designation by the applicable State agency(s) to receive these funds. Project objectives and requirements for applicants for other pilot project funding will be negotiated on a case-by-case basis.

66.468 CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS

(Drinking Water State Revolving Fund)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act (SDWA) Amendments of 1996, Section 130, Public Law 104-182; American Recovery and Reinvestment Act of 2009, Public Law 111-5.

OBJECTIVES:

Grants are made to States and Puerto Rico to capitalize their Drinking Water State Revolving Funds (DWSRFs) which will provide a long-term source of financing for the costs of drinking water infrastructure. Grants are also made to the District of Columbia, U.S. Territories (Virgin Islands, Mariana Islands American Samoa, and Guam), and Indian Tribes.

Funding Priority - Fiscal Year 2015: The funding priority established by the SDWA are for capitalization grants to each state for infrastructure improvement projects that are needed to achieve or maintain compliance with SDWA requirements, protect public health, and assist systems with economic need. A state may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. States and EPA Regions determine priorities for funding in accordance with SDWA. The program supports the Agency's strategic goal of ensuring clean and safe water.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Capitalization grants are made available to each State and Puerto Rico for the purpose of establishing a DWSRF for providing assistance to drinking water systems for infrastructure improvements. The capitalization grant is deposited in the State's DWSRF, and is used to provide loans and other types of financial

assistance to eligible public water systems. A State may elect to use up to 31% of the capitalization grant for other eligible activities, including 4% for administration of the program. States may also elect to transfer up to one-third of the DWSRF capitalization grant to the Clean Water State Revolving Fund (CWSRF) or an equivalent amount from the CWSRF to the DWSRF program. Grants are also made available to Federally Recognized Indian Tribal Governments, U.S. Territories, and the District of Columbia. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States, the District of Columbia, U.S. Territories or Possessions (the Commonwealth of Puerto Rico, Virgin Islands, Mariana Islands American Samoa, and Guam), and Federally Recognized Indian Tribal Governments are eligible for grants from the program. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, U.S. Territories or Possessions (the Commonwealth of Puerto Rico, Virgin Islands, Mariana Islands American Samoa, and Guam), Federally Recognized Indian Tribal Governments, local, and intrastate.

Credentials/Documentation:

To receive a grant, an applicant enters into an agreement with the EPA Regional Administrator which shall include, but is not limited to, the requirements set forth in Section 130 of the SDWA. Recipients must follow 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

States are required to prepare and provide for public comment on a plan identifying the intended uses (Intended Use Plan, or IUP) of the funds in the DWSRF and how those uses support the goals of the DWSRF. The IUP is to be submitted no later than the application. An environmental impact statement is not required prior to grant award; however, a State environmental review process must be applied to all subsequent State assistance for drinking water systems. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 as applicable, must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 1200 Pennsylvania Avenue, N.W., Mailcode 3903R, Washington, DC 20460 or through the appropriate Regional Office listed in Appendix IV of the Catalog. Additional information

on the EPA grant package can be found at:
http://www.epa.gov/ogd/grants/how_to_apply.htm. Grants for Tribes, U.S. Territories, and the District of Columbia are selected based on funding priorities established by EPA Regional Offices. States must certify that they have the legal authority to receive a capitalization grant and that they have the legal authority to operate the program. States must provide assurance in their applications that they have the legal, managerial, technical and operational capabilities to administer the DWSRF program competently and that they will comply with all applicable Federal cross-cutting authorities and Federal statutes. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office, and if approved, the grant is awarded by the Regional Administrator under a delegation of authority from the Administrator of EPA. EPA Headquarters retains the authority to review certain applications or parts thereof. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

For those portions of the applicant's program that do not change from year to year, a subsequent grant application may incorporate by reference relevant portions of the previous year's application which have not changed.

Formula and Matching Requirements:

Statutory Formula: Title Safe Drinking Water Act. The funds available for allotment to State DWSRF programs are those funds appropriated by Congress under the Safe Drinking Water Act (SDWA 1452; 40 CFR 35.3540 and 35.3585). EPA allots funds to each State based on the State's proportional share of total eligible needs reported for the most recent Drinking Water Infrastructure Needs Survey (which is conducted every four years). The minimum proportional share that each State can receive is 1% of total funds available to States. EPA reserves up to 1.5% of the funds available for allotment to the States to provide grants to the U.S. Territories (Virgin Islands, Mariana Islands American Samoa, and Guam). The SDWA also requires the Administrator to reserve 1% of the funds available for allotment to the States to provide grants to the District of Columbia. The SDWA also allows EPA to reserve funds for national set-asides that include: up to 2.0% of the national appropriation for grants to Indian Tribes as well as funding for health effects studies, small system technical assistance, and monitoring of unregulated contaminants.

Matching Requirements: The required State match is 20% of the amount of the capitalization made to the State. States must also provide a match or demonstrate a credit for state funded eligible activities to receive Federal funds for certain program support activities. For Recovery Act funds, the required State match of 20% of the amount of the capitalization grant was waived. For additional information go to

<http://www.epa.gov/safewater/dwsrf/allotments/index.html>. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are available for EPA's obligation to the State during the fiscal year in which they are allotted and during the following year. Recovery Act funds were available for EPA's obligation to the State until September 30, 2010. The term of the grant shall be determined at the time of award. States must agree to enter into binding commitments with loan recipients to provide financial assistance from the DWSRF in an amount equal to the sum of Federal assistance, less amounts used by the State for eligible set-aside purposes, and the State match. States are also required to agree to commit and expend all funds in the DWSRF as efficiently as possible, and in a timely manner. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

States shall provide biennial reports to the Regional Administrator in accordance with the schedule established in the grant agreement (generally not later than 90 days after the end of the second fiscal year during which the payments were received). The biennial report shall describe how the State has met the goals and objectives for the preceding two fiscal years as identified in its intended use plans for those periods, including identification of loan recipients, loan amounts, and loan terms and similar details on other forms of financial assistance provided from the DWSRF. For grants to Tribes and U.S. Territories, procedures for accounting, auditing, evaluating, and reviewing any program for activities in whole or in part shall be governed by regulations at 2 CFR 200 and 1500 as applicable, and 40 CFR Parts 32 and 35, "Environmental Program Grants for Tribes," with reports as required by the specific terms of the agreement. For Recovery Act funds, funding reports must be submitted in a prescribed format within 10 calendar days after the end of each calendar quarter, beginning October 10, 2009. These reports will include data elements as prescribed by Public Law 111-5, Section 1512 and OMB Guidance. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. States must comply with the provisions of the Single Audit Act Amendments of 1996, and the OMB Circular No. A-133 and Compliance Supplement. States are also encouraged to conduct annual independent audits. The audit of the fund to be prepared by the State or an independent auditor must be in accordance with the standards of the Government Accountability Office (known as the Generally Accepted Government Auditing Standards). To the extent that the set-asides are used for project purposes that must be repaid, or are directly related to the DWSRF (e.g., administration) or are revolving funds themselves, they must be part of an audited opinion(s). The audits must provide an auditor's opinion on the DWSRF financial statements, a report on internal controls and a report on compliance with laws and regulations. Those set-aside funds that are not loaned out may be audited in conjunction with audits conducted under the Single Audit Act, as described in OMB Circular No. A-133 and OMB's Compliance Supplement for Single Audits of State and Local Governments.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved. As part of the

annual review conducted by the Agency to assess a State's performance against activities identified in the intended use plan and biennial report, and to determine compliance with the terms of the capitalization grant agreement, the State or assistance recipient shall make available to EPA such records as the Regional Administrator reasonably requires to review and determine State compliance with the requirements of the SDWA.

Account Identification:

68-0102-0-1-304; 68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$972,910,300; FY 15 est \$900,949,500; and FY 16 est \$1,182,000,000 - FY 14 \$972,910,300; FY 15 est. \$900,949,500; and FY 16 est. \$1,182,000,000. Recovery Act funds - FY 14 \$0; FY 15 est. \$0; and FY 16 est. \$0.

Range and Average of Financial Assistance:

States: \$8,787,000 to \$82,674,000/fiscal year; \$16,318,800/fiscal year. Tribes: \$6,000 to \$2,400,000/fiscal year; \$480,000/fiscal year. Territories: \$1,532,000 to \$8,787,000/fiscal year; \$4,189,000/fiscal year. Recovery Act funds - States: \$19,500,000 to \$160,000,000/fiscal year. Territories: \$500,000 to \$2,100,000/fiscal year. Tribes: \$15,600 to \$3,200,000/fiscal year.

TAFS Codes:

68-0102; 68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: All 50 states and Puerto Rico have established and are implementing DWSRF programs through receipt of a capitalization grant. In FY 14, States made 795 loans to systems for a cumulative total of \$2.2 billion to conduct infrastructure improvement projects. Of the total number of loans, 71% of loans went to small water systems that serve 10,000 persons or fewer. States also used funds to prevent drinking water contamination through source water protection and enhanced system management. Fiscal Year 2015: All 50 states and Puerto Rico have established and are implementing DWSRF programs through receipt of a capitalization grant. In FY 15, states, tribes, and territories will continue to receive funding to support infrastructure improvement projects. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Uniform Administrative Requirements for Grants and Cooperative Agreements (2 CFR 200 and 1500) and Drinking Water State Revolving Funds (40 CFR Part 35, Subpart L). Additional program information, including contact information for state program managers, is available online at <http://www.epa.gov/safewater/dwsrf.html>.

Regional or Local Office:

See Regional Agency Offices. See EPA Regional Offices listed in Appendix IV of the Catalog, or online.

Headquarters Office:

Peter Shanaghan, Peter Shanaghan, Infrastructure Branch (4606M), Drinking Water Protection Division, Office of Groundwater and Drinking Water, U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW, Washington, DC 20460. Telephone: (202) 564-3848; FAX: (202) 564-1836; E-mail: shanaghan.peter@epa.gov, Washington, District of Columbia 20460 Email: shanaghan.peter@epa.gov Phone: (202) 564-3848.

<http://water.epa.gov/drink/index.cfm>

RELATED PROGRAMS:

66.458 Capitalization Grants for Clean Water State Revolving Funds

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Drinking water projects addressing treatment, storage, source, transmission, distribution and consolidation. Some examples of projects include: construction of an ultra-violet treatment facility; construction of

pumping stations; upgrades of water treatment plant; line replacement; and new wells to replace wells that have been contaminated. Fiscal Year 2015: Drinking water projects addressing treatment, storage, source, transmission, distribution and consolidation. Some examples of projects include: construction of an ultra-violet treatment facility; construction of pumping stations; upgrades of water treatment plant; line replacement; and new wells to replace wells that have been contaminated. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.469 GREAT LAKES PROGRAM

(GLNPO)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Executive Order NA, Section 104&118, 33 U.S.C 1254; National Environmental Policy Act, Executive Order NA, Section 102(2)(F); Consolidated Appropriations Act, 2014, Executive Order NA, Public Law 113-76; Consolidated Appropriations Act, 2015, Executive Order NA, Public Law 113-235.

OBJECTIVES:

To restore and maintain the chemical, physical, and biological integrity of the Great Lakes Basin Ecosystem. USEPA leads a consortium of programs, agencies, and public and private institutions in attaining specific objectives and actions that will address the most significant Great Lakes ecosystem problems and efforts in five major focus areas: Toxic Substances and Areas of Concern; Invasive Species; Nearshore Health and Nonpoint Source Pollution; Habitat and Wildlife Protection and Restoration; Accountability, Education, Monitoring, Evaluation, Communication and Partnerships. Funded activities will advance protection and restoration of the Great Lakes ecosystem in support of (i) the Great Lakes Restoration Initiative as described in the Great Lakes Restoration Initiative Action Plan (http://greatlakesrestoration.us/pdfs/glri_actionplan.pdf), (ii) the Great Lakes portion of Objective 2.02 (Protect and Restore Watersheds and Aquatic Ecosystems) of EPA's 2014-2018 Strategic Plan, and/or (iii) the Great Lakes Regional Collaboration Strategy to Protect and Restore the Great Lakes (<http://www.glr.us/strategy.html>).

Funding Priority - Fiscal Year 2015: : The Great Lakes Restoration Initiative (GLRI), guided by the Great Lakes Regional Collaboration Strategy, is a coordinated effort among EPA and the Great Lakes Federal Interagency Task Force to fund the highest priority activities in order to protect and restore the Great Lakes.

The President in 2009 announced a Great Lakes Restoration Initiative (GLRI), committing the federal government to significantly advance Great Lakes protection and restoration. EPA has since then led the Interagency Task Force in development of two Great Lakes Restoration Initiative Action Plans, the second covering FY2015-FY2019 (Action Plan) that guide protection and restoration under the Initiative. This carefully coordinated interagency effort involves the cooperation of 16 federal agency partners. The goal of the GLRI is to restore and maintain the environmental integrity of the Great Lakes ecosystem, in accordance with the Great Lakes Water Quality Agreement and the Clean Water Act. Using funds appropriated to EPA to supplement their base funding, agencies fund work directly or through others such as states, tribes, cities, universities, and non-governmental organizations.

Projects will be funded in five focus areas: (i) Toxic Substances and Areas of Concern; (ii) Invasive Species; (iii) Nonpoint Source Pollution Impacts on Nearshore Health; (iv) Habitats and Species; and (v) Foundations for Future Restoration Actions. The GLRI places a special priority on cleaning up and de-listing Areas of Concern, reducing phosphorus contributions from

agricultural and urban lands that contribute to harmful algal blooms and other water quality impairments, and invasive species prevention.

TYPES OF ASSISTANCE:

DISSEMINATION OF TECHNICAL INFORMATION; PROJECT GRANTS;
USE OF PROPERTY, FACILITIES, OR EQUIPMENT

USES AND USE RESTRICTIONS:

The statutory authority for awards from 2015/2016 funding is contained in the Consolidated Appropriations Act 2015, P.L. 113-235, including administrative provisions authorizing grants "for planning, research, monitoring, outreach, and implementation for grants to and/or cooperative agreements with governmental entities, nonprofit organizations, institutions, and individuals in furtherance of the Great Lakes Restoration Initiative and the Great Lakes Water Quality Agreement." Great Lakes Restoration Initiative implementation, as described above, includes but is not limited to land use activities, governmental partnerships and informed public participation, technology development, investigations, experiments, training, demonstrations, surveys, and studies to the extent consistent with the Great Lakes Regional Collaboration or Great Lakes Restoration Initiative Action Plan II.

The Statutory Authority to take action to implement the U.S. responsibilities under the Great Lakes Water Quality Agreement, which these awards will support, is contained in Section 118(c) of the Clean Water Act. The principal goal of the Great Lakes Water Quality Agreement is the restoration and maintenance of the chemical, physical, and biological integrity of the Great Lakes Ecosystem. For projects with international aspects the above statutes are supplemented, as appropriate, by the National Environmental Policy Act, Section 102(2)(F).

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved activities plus allowable indirect costs, in accordance with established EPA policies and regulations. Quality System Documentation is required for projects involving measurements or information that describe environmental processes, location, or conditions; ecological or health effects and consequences; or the performance of environmental technology. Section 118 (c)(12) authorizes contaminated sediment remediation in Areas of Concern pursuant to eligible projects under the Great Lakes Legacy Act; however, these will be done through project cooperation agreements, rather than assistance.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Entities eligible to apply for grants include non-federal governmental entities, nonprofit organizations, and institutions. This includes state agencies; any agency or instrumentality of local government; interstate agencies; federally-recognized tribes and tribal organizations; colleges and universities; non-profit organizations; and other public or non-profit private agencies, institutions, and organizations. Non-profit organization means any corporation, trust, association, cooperative, or other organization which: (1) is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; (2) is not organized primarily for profit; and (3) uses its net

proceeds to maintain, improve, and/or expand its operations. Non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible applicants. "For profit" organizations and individuals are not eligible applicants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Beneficiaries include non-federal governmental entities, nonprofit organizations, and institutions. This includes state agencies; any agency or instrumentality of local government; interstate agencies; federally-recognized tribes and tribal organizations; colleges and universities; non-profit organizations; and other public or non-profit private agencies, institutions, and organizations. Non-profit organization means any corporation, trust, association, cooperative, or other organization which: (1) is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; (2) is not organized primarily for profit; and (3) uses its net proceeds to maintain, improve, and/or expand its operations. Non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible applicants. "For profit" organizations and individuals are not eligible applicants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Credentials/Documentation:

The provisions at 2 CFR 200 Subpart E apply. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Preapplication assistance is available. Requests for Initial Proposals and Proposals will be accessible on the Internet from GLNPO's home page (<http://www.epa.gov/glnpo/>) and an announcement will be mailed to organizations which have registered with GLNPO. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. As specified in applicable requests for proposals. Application kits may be requested from USEPA GLNPO (G-17J), 77 West Jackson Boulevard, Chicago, Illinois 60604-3590. Application Packages should be submitted to the same address. Standard application forms, as furnished by the Federal agency and required by 2 CFR 200 and 1500, must be used. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Proposals are evaluated by EPA reviewers to determine their adequacy under Great Lakes objectives, including technical merit, relevance of the project, environmental outcomes, and cost. Administrative review is done by the Regional Assistance Branch. Funds are awarded by the Great Lakes National Program Office or Region 2, 3, or 5, as applicable. Great Lakes Restoration Initiative assistance is approved by the Director of the Great Lakes National Program Office. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately two to four months after the deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Contact the Great Lakes National Program Office for information.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has no statutory formula. Leveraging, including an applicant's match percentage, will be considered as part of the project selection process for grants and cooperative agreements; however, the program does not expect to require any minimum match requirement. Any such requirement will be specified in the individual Request for Proposals or Applications. A minimum 35 percent matching requirement only applies to Legacy Act projects (Section 103 of the Great Lakes Legacy Act of 2002); Legacy Act projects are done through contracting, not grants or cooperative agreements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally 1-3 years; however, awards can be made for up to 7 years. The term of the grant will be determined at the time of award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$96,672,237; FY 15 est \$89,827,000; and FY 16 est \$90,000,000 - Grants and Cooperative Agreements - FY 14 \$48,636,159; FY 15 est. \$39,827,000; and FY 16 est. \$40,000,000. Legacy Act (Project Agreements) - FY 14 \$48,036,078; FY 15 est. \$50,000,000; and FY 16 est. \$50,000,000.

Range and Average of Financial Assistance:

Grants and Cooperative Agreements. Range: \$8,000 to \$5,900,000. Average: approximately \$600,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, GLNPO issued a competitive Request for Applications offering a total of \$27.5 million for projects in the following three categories: Invasive Species Control; Watershed Management Implementation; Sediment Reduction Projects in Priority Watersheds.

In response, applicants submitted 95 applications requesting over \$70 million and 29 awards were made totaling approximately \$26.3 million. GLNPO also issued non-competitive grants to States, Tribes, and local governments for LaMP and RAP activities, including over \$1.8 million in green infrastructure grants to Great Lakes cities, and funds contaminates sediment remediation projects in Great Lakes Areas of Concern under the Great Lakes Legacy Act. Additional information is available from links at <http://www.epa.gov/grtlakes/fund/index.html>.

The EPA and its partners have achieved significant results since GLRI started in FY 2010, including:

- o In February 2013, the Presque Isle, PA Area of Concern (AOC) was delisted. Federal agencies and their partners have also completed management actions necessary for delisting five additional AOCs.
- o Forty two Beneficial Use Impairments (BUIs) have been removed at 17 AOCs in Illinois, Indiana, Michigan, New York, Ohio, Pennsylvania, and Wisconsin four times the total number of BUIs removed in the preceding 22 years.
- o Approximately 5 million cubic yards of contaminated sediment has been remediated.
- o GLRI partners completed invasive species control activities on over 84,000 acres.
- o GLRI has been central to the Administration's coordinated efforts to keep self-sustaining Asian carp populations out of the Great Lakes.
- o Over 1,000,000 acres of agricultural land in the Great Lakes watershed were put into USDA conservation contracts to reduce erosion and loadings of nutrients and/or pesticides.
- o More than 3,400 river-miles have been cleared for fish passage by removing or bypassing over 500 barriers.
- o More than 115 thousand acres of wetland, coastal, upland, and island habitat have been protected, restored, or enhanced.

o The federally listed Lake Erie water snake was delisted and conditions were improved for 11 endangered and threatened species, including the Karner blue butterfly and piping plover.

o Projects were implemented that lead to 13 populations of native aquatic non-threatened and non-endangered species becoming self-sustaining in the wild.

o GLRI partners implemented a coordinated, intensive science and monitoring plan for each Lake through the Cooperative Science and Monitoring Initiative.

o GLRI partners developed a tool to forecast potential Phragmites coastal invasion corridors.

Descriptions of Great Lakes Restoration Initiative projects are available from: <http://greatlakesrestoration.us>. Fiscal Year 2015: GLNPO holds competitions throughout the year based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement typically includes the number of anticipated awards. FY 2015 announcement information is not available. GLNPO also issues non-competitive grants to States and Tribes for LaMP and RAP activities and funds contaminates sediment remediation projects, in Great Lakes Areas of Concern, under the Great Lakes Legacy Act. Additional information is available from links at <http://www.epa.gov/grtlakes/fund/qlf.html>. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Requests for Applications, examples, and other Great Lakes funding information are available from <http://www.epa.gov/glnpo/fund/>. General regulations for EPA assistance programs are contained in 2 CFR 200 and 1500 and 40 CFR Parts 32 through 47.

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act; 66.454 Water Quality Management Planning; 66.460 Nonpoint Source Implementation Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grants and cooperative agreements were awarded to governmental entities, nonprofit organizations, and institutions for planning, research, monitoring, outreach, and implementation in support of the Great Lakes Restoration Initiative. Projects were funded within the focus areas of: (i) Toxic Substances and Areas of Concern, including pollution prevention and cleanup of the most polluted areas in the Great Lakes; (ii) Invasive Species, including efforts to institute a "zero tolerance policy" toward new invasions; (iii) Nearshore Health and Nonpoint Source Pollution, including a targeted geographic focus on high priority watersheds and reducing polluted runoff from urban, suburban and, agricultural sources; and (iv) Accountability, Education, Monitoring, Evaluation, Communication and Partnerships, including the

implementation of goal- and results-based accountability measures, learning initiatives, outreach and strategic partnerships. Under the Great Lakes Legacy Act, projects were also be funded through contracts for remediation of contaminated sediments in Great Lakes Areas of Concern. Project descriptions will be available from: <http://greatlakesrestoration.us>. Fiscal Year 2015: Grants and cooperative agreements will be awarded to governmental entities, nonprofit organizations, and institutions for planning, research, monitoring, outreach, and implementation in support of the Great Lakes Restoration Initiative. Projects will be funded within the focus areas of: (i) Toxic Substances and Areas of Concern; (ii) Invasive Species; (iii) Nonpoint Source Pollution Impacts on Nearshore Health; (iv) Habitats and Species; and (v) Foundations for Future Restoration Actions. Under the Great Lakes Legacy Act, projects will also be funded through contracts for remediation of contaminated sediments in Great Lakes Areas of Concern. Project descriptions will be available from: <http://greatlakesrestoration.us>. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Proposals are approved by EPA according to technical merit and relevance to the Great Lakes Water Quality Agreement, Section 118 of the Clean Water Act, and the criteria established in the applicable Request for Proposals.

66.472 BEACH MONITORING AND NOTIFICATION PROGRAM IMPLEMENTATION GRANTS

BEACH Act Program

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Beaches Environmental Assessment and Coastal Health Act of 2000, Public Law 106-284; Clean Water Act, Section 406.

OBJECTIVES:

To assist Coastal and Great Lakes States and Tribes eligible under Section 518(e) of the Clean Water Act, as amended, in developing and implementing programs for monitoring and notification for coastal recreation waters adjacent to beaches or similar points of access that are used by the public.

Funding Priority - Fiscal Year 2015: EPA's funding priority is to award grants to those applicants whose proposals clearly demonstrate a state's, tribe's, or local government's ability to monitor recreational waters; notify the public of risks; manage programs; and communicate among environmental and public health agencies and the public.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

These grants are intended to support the implementation of recreational water monitoring and notification programs or support enhancement of an existing program. EPA encourages grantees to incorporate tools such as sanitary surveys and monitoring frequencies tailored to beach conditions while meeting other BEACH Act program requirements. Grantees should strive to implement the most efficient and timely means of communicating advisory information from public health agencies to the beachgoing public. To be eligible for implementation grants, programs must also demonstrate annually that they meet the program performance criteria listed in the National Beach Guidance and Required Performance Criteria for Grants, 2014 Edition (EPA-823-B-14-001). Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal

Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Coastal and Great Lakes States, territories (Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands), and Tribes eligible under Section 518(e) of the Clean Water Act, as amended. The Administrator may make a grant to a local government under this subsection for implementation of a monitoring and notification program only if, after the one-year period beginning on the date of publication of performance criteria under Section 406 (a)(1), the Administrator determines that the State is not implementing a program that meets the requirements of Section 406(a)(1), regardless of whether the State has received a grant under Section 406(a)(1). Interstate agencies and intertribal consortia are not eligible for Beach grants.

Beneficiary Eligibility:

States, U.S. territories, Federally recognized Indian Tribal Governments, environmental and public health agencies, and local governments involved in implementing monitoring and notification programs.

Credentials/Documentation:

2 CFR 200 Subpart E applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination with the appropriate EPA Regional Office is encouraged. The standard application forms as required by 2 CFR 200 and 1500 as applicable, must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requests for application forms should be made to the appropriate EPA Regional Grants Management Office identified in Appendix IV of the Catalog. Completed applications should be sent to the appropriate Regional or Headquarters Contact. All proposals or work statements should be developed in response to the criteria identified in CRITERIA FOR SELECTING PROPOSALS. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Grant applications are reviewed by the appropriate EPA Regional Office, and if approved, are awarded by the Regional Administrator.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Grants are usually approved within five months of receipt of complete application.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Renewals are subject to approval by the appropriate EPA Regional or Headquarters Contact. Please contact the appropriate EPA Regional or Headquarters Contact for guidance.

Formula and Matching Requirements:

Statutory Formula: Title Beaches Environmental Assessment and Coastal Health Act of 2000. EPA awards grants to all eligible States and territories who apply for funding based on an allocation formula that the Agency developed for allocating BEACH Act grant funds in 2002. The allocation formula uses three factors: (1) beach season length, (2) beach miles, and (3) beach use.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Beach grants are normally funded on a 12-month basis (yearly). However, EPA may negotiate the project period, grant continuations, and grant amendments with each applicant based on project requirements. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Recipients must submit annual performance reports and financial reports as required in 2 CFR 200 and 1500 as applicable. The annual performance report explains changes to the beach monitoring and notification program during the grant year. It also describes how the grant funds were used to implement the program to meet the performance criteria listed in the National Beach Guidance and Required Performance Criteria for Grants, 2014 Edition (EPA 823-B-14-001). The annual performance report required under 2 CFR 200 and 1500 as applicable, is due no later than 90 days after the grant year ends. Recipients must also submit annual monitoring and notification reports required by the National Beach Guidance and Required Performance Criteria for Grants 2014 Edition (EPA 823-B-14-001). Sections 2.2.4 and 4.5 of the document contain the performance criterion requiring an annual monitoring report, and sections 2.2.8 and 5.5 contain the performance criterion requiring an annual notification report. This document can be found at http://water.epa.gov/grants_funding/beachgrants/guidance_index.cfm. These reports are required to be submitted to EPA under CWA section 406(b)(3)(A) and the National Beach Guidance and Required Performance Criteria for Grants, and include data collected as part of a monitoring and notification program. As a condition of award of an implementation grant, EPA requires that the monitoring report and the notification report for any beach season be submitted not later than January 31 of the year following the beach season. Program reports are required under this program.

Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$9,628,600; FY 15 est \$9,549,000; and FY 16 est \$0

Range and Average of Financial Assistance:

States and territories: \$ 150,000 to \$516,000/fiscal year; \$280,000/fiscal year. In FY 15, EPA made \$150,000 available to eligible Tribes. In FY 15, there were three eligible Tribes.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14, EPA awarded grants to all 35 coastal and Great Lakes states and territories and three eligible tribes that qualified for the BEACH Act Grant program. Program benefits from funding in FY 14 include: development and implementation of recreational water quality monitoring protocol (sampling design, indicator organism); decreasing swimmer exposure by improving communication outreach and education to public on swimming advisories; establishing more efficient and timely management decision process for posting swimming advisories; and constructing databases to provide government and public access to data and information. Fiscal Year 2015: In FY 15, grants will continue to support the development and implementation of recreational water quality monitoring and notification programs or support enhancement of an existing program. FY 15 is a year when states provide schedules for the adoption of the 2012 Recreational Water Quality Criteria into their WQS and for implementing updated beach notification thresholds reflecting the content of the 2012 RWQC and the 2014 Beach Guidance. Fiscal Year 2016: No Current Data Available

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Development and implementation of beach monitoring programs; development of databases and websites; purchase of lab equipment for water quality monitoring; construction and posting of signs on beaches; and purchase of vehicles for monitoring. Fiscal Year 2015: Development and implementation of beach monitoring programs; development of databases and websites; purchase of lab equipment for water quality monitoring; construction and posting of signs on beaches; and purchase of vehicles for monitoring. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

To be eligible for program implementation grants, applicants must meet program performance criteria outlined in National Beach Guidance and Required Performance Criteria for Grants, 2014 Edition (EPA-823-B-14-001). The performance criteria set forth implementation grant requirements for monitoring and assessing recreation waters and promptly notifying the public of exceedances of water quality for pathogens. As a condition of receipt of a program Implementation Grant under Section 406(b) of the Clean Water Act, a State or local government program for monitoring and notification under this section shall: (1) undertake a risk-based beach evaluation and classification process; (2) formulate a tiered monitoring plan based on the classification process; (3) select methods and assessment procedures that will be used in the monitoring program; (4) submit a report to the Administrator annually detailing the results of the monitoring program; (5) in the case of a state program for monitoring and notification, the process by which the state may delegate to local governments responsibility for implementing the monitoring program; (6) develop a plan for the prompt communication of the occurrence, nature, location, pollutants involved, and extent of any exceeding of, or likelihood of exceeding, applicable water quality standards for pathogens and pathogen indicators; (7) take such actions as are required to notify the public of exceedances of applicable water quality standards for pathogens and pathogen indicators; (8) submit a report annually to the Administrator detailing the results of the monitoring and notification program for the previous year; (9) describe the process by which the state may delegate to local governments responsibility for implementing the notification responsibilities under the grant; (10) provide schedules to the Administrator for the adoption of new or revised water quality standards for pathogens and pathogen indicators; and conduct a public evaluation of the program.

66.473 DIRECT IMPLEMENTATION TRIBAL COOPERATIVE AGREEMENTS

(DITCA)

FEDERAL AGENCY:

Office of International and Tribal Affairs, Environmental Protection Agency

AUTHORIZATION:

Department of Defense, Military Construction and Veterans Affairs, and Full-Year Continuing Appropriations Act, 2013, Public Law 113-6; Department of Defense, Military Construction and Veterans Affairs, and Full-Year Continuing Appropriations Act, 2014, Public Law 113-76; The Consolidated and Further Continuing Appropriations Act, 2015, Public Law 113-235, Public Law 113-235.

OBJECTIVES:

Direct Implementation Tribal Cooperative Agreements (DITCAs) enable EPA to award cooperative agreements to federally recognized Indian tribes and eligible intertribal consortia to help carry out the Agency's function to implement directly, Federal environmental programs required or authorized by law in the absence of an acceptable tribal program, notwithstanding the Federal Grant and Cooperative Agreement Act. DITCAs are an increasingly important avenue for EPA and the tribes to realize meaningful environmental protection in Indian Country. DITCAs enable EPA to partner with tribes to help fulfill EPA's direct implementation authorities, yield environmental results, and assist the Agency in meeting its Strategic Plan goals and targets. DITCAs also provide tribes with flexibility and opportunity by allowing tribes, through a workplan with EPA and under federal authority, to choose aspects of a program that address their tribal environmental needs and priorities, to determine the scope and pace of tribal involvement, and to build tribal capacity to implement environmental programs.

Funding Priority - Fiscal Year 2015: The program provides another avenue for tribes and EPA to partner in implementing meaningful environmental protection in Indian Country. DITCAs provide tribes with the flexibility and opportunity to develop staff capacity to manage environmental programs, to address specific tribal environmental needs and priorities that are within EPA's authority for direct implementation, and to determine the scope and pace of tribal involvement. EPA retains final decision-making authority and ultimate responsibility for the environmental programs including all regulatory activities. EPA may award DITCAs to fund activities for environmental programs that meet either one of the following criteria: 1) federal programs under environmental laws that clearly require EPA to directly implement in the Tribal context; or 2) federal programs under environmental laws that in the state context EPA is required to directly implement in the absence of an acceptable state program. Because DITCAs can address a wide range of activities, and the need for implementation of these activities in Indian Country is great, the funding priority is for any eligible activity that addresses a tribal environmental need or priority, and yields meaningful environmental results for the tribe and the Agency.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

DITCAs assist Tribes in helping EPA directly implement Federal environmental programs required or authorized by law in the absence of an acceptable Tribal program, and may only be awarded to Tribes to assist the Administrator in directly implementing Federal environmental programs for Indian Tribes required or authorized by law. EPA may award DITCAs to fund activities for environmental programs that meet either one of the following criteria: 1) federal programs under environmental laws that clearly require EPA to directly implement in the Tribal context; or 2) federal programs under environmental laws that in the state context EPA is required to directly implement in the absence of an acceptable state program. There are several limitations on DITCA awards. Among them are: (1) The statutory authority for DITCA is found in appropriations acts. In the event the appropriation authority is extended by continuing resolution(s), the DITCA authority will also be extended. (2) The project period of the DITCA may extend beyond the period of the appropriations act under which it was created, but all funds must be awarded prior to the expiration of the appropriations act authorizing the DITCA. (3) DITCA funded personnel may not perform inherently Federal functions. (4) EPA personnel can provide assistance to DITCA representatives based on the written DITCA work plan which may include daily direction. EPA cannot treat DITCA representatives as EPA employees by participating in

hiring, disciplining, or firing decisions. (5) DITCA funded personnel cannot operate vehicles which are either owned or leased by the Federal government. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

DITCAs may be awarded to: (1) Federally Recognized Indian Tribal Government, and (2) intertribal consortia consistent with applicable provisions. In order for an intertribal consortium to be eligible to receive cooperative agreements under this authority, an intertribal consortium should be consistent with the provisions in 40 C.F.R. Part 35. See Notice of Guidance Issuance: Direct Implementation Tribal Cooperative Agreements (DITCAs) Guidance, 70 Fed. Reg. 1440 (2005).

Beneficiary Eligibility:

Federally Recognized Indian Tribal Government and intertribal consortia consistent with applicable provisions.

Credentials/Documentation:

The provisions of 2 CFR 200, Subpart E apply. In order for intertribal consortium to be eligible to receive cooperative agreements under this authority, an intertribal consortium should be consistent with the provisions in 40 CFR Part 35. For additional information see also the Notice of Guidance Issuance, 70 Fed. Reg. 1440 (2005). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. EPA will work with Tribes and Intertribal Consortia to develop work plans consistent with program guidance and any regulations that govern the implementation of the relevant Federal environmental program. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The preapplication must be submitted to EPA for review. Successful applicants will be contacted by EPA and will be required to submit "Application for Federal Assistance," SF 424; "Budget Information: Non-Construction Programs," SF 424A; "Assurances-Non-Construction Programs, Certification Regarding Debarment, Suspension and Other Responsibility Matters," SF 424B; "Certification Regarding Lobbying;" "Pre-Award Compliance Review," EPA 4700-4; and other required forms to complete the application process. Eligible applicants should contact the appropriate Regional Office Contact identified in Appendix IV of the Catalog of information regarding preapplications. The forms are available at: <http://www.epa.gov/ogd/AppKit/application.htm>. Completed applications should be submitted to the appropriate Regional Office Contact identified in Appendix IV of the Catalog. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

EPA will review each application to determine the adequacy of the application in relation to EPA's grant regulations (2 CFR 200) and applicable program regulations and guidance. If the application is approved, EPA will award a cooperative agreement up to the reasonable and necessary cost of the approved work plan.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applications are generally approved and cooperative agreements awarded within 60 to 120 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Cooperative agreement amounts awarded will be determined based on the total amount available for awards and the amounts requested by Tribes and Intertribal Consortia.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally awards cooperative agreements for periods of 12 to 36 months. The term of the grant shall be determined at the time of award. See the following for information on how assistance is awarded/released: Other. The method of fund disbursement will be determined at the time of award.

Reports:

EPA and Tribes will negotiate the frequency and content of performance and financial status reports. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Specific reporting requirements are also identified in the Uniform grant Guidance 2 CFR 200 and 40 CFR Part 35, "Environmental Program Grants for Tribes." Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual Financial Status Report (SF-269). If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$612,000; FY 15 est \$550,000; and FY 16 est \$550,000

Range and Average of Financial Assistance:

EPA expects cooperative agreement amounts to range between \$10,000 and \$100,000/fiscal year; Average: \$55,000/fiscal year.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: 13 grants were awarded in FY 2014. Examples of projects addressed by DITCAs continued to include regulatory oversight of Public Water Systems, to perform evaluation work, to develop products and to provide training; Source Water assessment and contingency planning; Continued development of Underground Storage Tank (UST) and Leaking Underground Storage Tank (LUST) Prevention programs. Fiscal Year 2015: The information for FY 15 is not available yet. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

EPA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments 2 CFR part 200; Environmental Protection Agency and applicable EPA guidance. DITCA guidance is available at <http://www.epa.gov/tribal/grantsandfunding/ditcas.htm>.

Regional or Local Office:

See Regional Agency Offices. EPA's Regional Indian Coordinators at <http://www.epa.gov/indian/contactinfo/regcontacts.htm>.

Headquarters Office:

Jeff Besougloff, American Indian Environmental Office (2690M), EPA, 1200 Pennsylvania Ave., NW, Washington, District of Columbia 20460 Email: besougloff.jeff@epa.gov Phone: (202) 564-0292.

Website Address:

<http://www.epa.gov/indian/index.htm>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Examples of DITCAs funded activities include: water quality standards promulgation and review; implementation of the National Pollutant Discharge Elimination System permit program under the Clean Water Act; implementation plan development and the Title V permit program under the Clean Air Act; implementation of the Public Water System Supervision program and the Underground Injection Control program under the Safe Drinking Water Act; implementation of the Underground Storage Tank program and the Subtitle C permit program under the Resource Conservation and Recovery Act; certification and training program for pesticide applicators under the Federal Insecticide, Fungicide, and Rodenticide Act; inventory of underground storage tanks; and creation and implementation of a smoke management plan under the Clean Air Act. Fiscal Year 2015: Projects for FY 2015 are not yet available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Cooperative agreements may be awarded to Tribes which submit applications consistent with EPA regulations and guidance. EPA will work with Tribes and Intertribal consortia to develop work plans consistent with program guidance and any regulations that govern the implementation of the relevant Federal environmental program.

66.474 WATER PROTECTION GRANTS TO THE STATES

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Consolidated Appropriations Resolution of 2003, Public Law 108-7; Department of Defense and Emergency Supplemental Appropriations for Recovery from and Response to Terrorist Attacks on the United States Act, 2002, Public Law 107-117; Consolidated Appropriations Resolution of 2004,

Public Law 108-199; Safe Drinking Water Act, Section 1442.

OBJECTIVES:

The objective of this grant program is to assist states, territories, and possessions of the United States with critical water infrastructure protection.

Funding Priority - Fiscal Year 2014: EPA's funding priority is to provide grant assistance to the states, territories, and possessions of the United States to support technical assistance, training, and communication activities on critical water infrastructure protection efforts that include work with drinking water systems as well as with federal, state, and local agencies. States, territories, and possessions of the United States will be able to continue their efforts to coordinate critical water infrastructure protection activities with other homeland security responsibilities. Specifically, awards will enhance public health protection by securing critical infrastructure through support for counter-terrorism preparedness; communicating vision, mission, and goals of the sector specific plan and the key features of an active and effective security program; helping to ensure security best practices for small systems; promoting outreach and education at small systems; promoting mutual aid compacts development; supporting the development of system redundancy, a national laboratory system and disaster mitigation plans; and developing and overseeing emergency response and recovery plans, including those related to pandemic flu concerns. No new appropriations are available for this program in FY 2014.

Funding Priority - Fiscal Year 2015: EPA's funding priority is to provide grant assistance to the states, territories, and possessions of the United States to support technical assistance, training, and communication activities on critical water infrastructure protection efforts that include work with drinking water systems as well as with federal, state, and local agencies. States, territories, and possessions of the United States will be able to continue their efforts to coordinate critical water infrastructure protection activities with other homeland security responsibilities. Specifically, awards will enhance public health protection by securing critical infrastructure through support for counter-terrorism preparedness; communicating vision, mission, and goals of the sector specific plan and the key features of an active and effective security program; helping to ensure security best practices for small systems; promoting outreach and education at small systems; promoting mutual aid compacts development; supporting the development of system redundancy, a national laboratory system and disaster mitigation plans; and developing and overseeing emergency response and recovery plans, including those related to pandemic flu concerns. No new appropriations are available for this program in FY 2015.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funded activities include providing: (1) technical assistance, training, or distribution of tools that would lead to satisfactory vulnerability assessments of drinking water systems; (2) technical assistance, training, or distribution of tools that would lead to drinking water systems creating, amending or updating emergency response plans to meet new requirements or security threats; (3) assistance to improve communications with or between drinking water systems and other agencies or organizations involved with security or emergency response; and (4) other activities focusing on training to enhance security and improving the readiness of individuals and groups involved in first response at drinking water systems. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to States, Tribes, Territories, and

possessions of the United States.

Beneficiary Eligibility:

Water programs of States, Territories, and possessions of the United States.

Credentials/Documentation:

.2 CFR 200 Subpart E applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Pre-application assistance is recommended and should be obtained from the Grants Management Office of the pertinent EPA Regional Office listed in Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms in accordance with 2 CFR 200 and 1500 as applicable are used for this program. Requests for application kits may be directed to the Grants Management Office of the applicable EPA Regional Office listed in Appendix IV of the Catalog. Kits may also be obtained online at <http://www.epa.gov/ogd/AppKit/application.htm>. The completed application, including the final proposal, should be submitted to the appropriate EPA Regional Grants Management Office. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Application is reviewed by the appropriate EPA Regional Office and, if approved, is signed by the Regional Administrator or designated Division Director.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 30 to 90 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title PWSS formula. As was the case in FY 02 through FY 08, for FY 09 a modification of the basic PWSS formula was chosen to allocate the funds, with each State, the District of Columbia, and Puerto Rico receiving a minimum of \$50,000 and each Territory at least \$16,700.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The project/budget period on these grants may exceed one year. The term of the grant shall be determined at the time of grant award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the regulations at 2 CFR 200 and 1500 as applicable. Program reports are required

under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - FY 14 \$0; FY 15 est. \$0; and FY 16 est. \$0.

Range and Average of Financial Assistance:

Funds are awarded by each Regional Office. The range of financial assistance available to States varies according to program and fiscal year. Contact the Grants Management Office of the pertinent EPA Regional Office, listed in Appendix IV of the Catalog, to determine the amount for which applicants are eligible. The range and average of financial assistance provided is: FY 09 - \$16,700 to \$380,300/fiscal year; \$198,500/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 14, states and territories continued to develop materials (i.e., documents, training manuals, etc.) focused on improving security and emergency response, ensuring the quality of drinking water vulnerability assessments, and associated security enhancements. Additionally, states and territories conducted trainings, workshops, and/or conferences to improve infrastructure protection, increase preparedness, promote mutual aid compacts and/or provide information to drinking water utilities. Significant action has been accomplished in helping to support and establish mutual aid compacts, including providing technical support and training exercises related to these agreements. Outcomes included changed management and operation of drinking water utilities based on training and current vulnerability assessments of the utilities; and establishment and improvement of emergency response coordination and communications. During this time, States and Territories continued to use prior allocated funding to accomplish goals, as new money for the initiative was not available. Fiscal Year 2015: In FY 15, states and territories continued to develop materials (i.e., documents, training manuals, etc.) focused on improving security and emergency response, ensuring the quality of drinking water vulnerability assessments, and associated security enhancements. Additionally, states and territories conducted trainings, workshops, and/or conferences to improve infrastructure protection, increase preparedness, promote mutual aid compacts and/or provide information to drinking water utilities. Significant action has been accomplished in helping to support and establish mutual aid compacts, including providing technical support and training exercises related to these agreements. Outcomes included changed management and operation of drinking water utilities based on training and current vulnerability assessments of the utilities; and establishment and improvement of emergency response coordination and communications. During this time, States and Territories continued to use prior allocated funding to accomplish goals, as new money for the initiative was not available. Fiscal Year

2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200 and 1500 as applicable.

Regional or Local Office:

See Regional Agency Offices. Contact the Grants Management Office of the appropriate EPA Regional Office listed in Appendix IV of the Catalog.

Headquarters Office:

Valarie Bynum For general information on the program, contact Valarie Bynum, Water Security Division, U.S. EPA, (Mail Code 4608T), 1200 Pennsylvania Ave., N.W., Washington, DC 20460. Phone: (202) 564-4189; FAX: (202) 566-0055; E-mail: bynum.valarie@epa.gov. Website Address:

<http://water.epa.gov/infrastructure/watersecurity/funding/index.cfm>

RELATED PROGRAMS:

66.432 State Public Water System Supervision

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: EPA has supported the following types of drinking water security activities: (1) improving communications to drinking water systems by updating drinking water system contact information and utilizing a mass faxing system; (2) providing onsite assistance for small drinking water systems on security issues; (3) developing and mailing security information kits to drinking water systems; (4) maintaining a duty officer program and toll free number to enable operators to reach state drinking water agency after hours; (5) assisting in the formation of neighborhood watch programs to increase citizen awareness of drinking water security; (6) developing guidance for water utilities to use alternative water supplies; (7) incorporating security considerations into state design standards and State Revolving Fund (SRF) criteria; (8) creating websites to provide easy access to state drinking water security information; (9) designing and conducting on-line training, videos, and materials for the law enforcement community to outline water utility security basics; (10) conducting emergency response exercises and drills; (11) creating ready-to-go complete sampling kits to eliminate delays in obtaining bottles and preparing expedited sampling and transport protocols in preparation for emergency water supply collection needs; (12) assisting in preparation of state plans to implement measures for safe drinking water under emergency circumstances; and (13) facilitating mutual aid compacts in instances of emergency need, between states and water systems. Fiscal Year 2015: EPA has supported the following types of drinking water security activities: (1) improving communications to drinking water systems by updating drinking water system contact information and utilizing a mass faxing system; (2) providing onsite assistance for small drinking water systems on security issues; (3) developing and mailing security information kits to drinking water systems; (4) maintaining a duty officer program and toll free number to enable operators to reach state drinking water agency after hours; (5) assisting in the formation of neighborhood watch programs to increase citizen awareness of drinking water security; (6) developing guidance for water utilities to use alternative water supplies; (7) incorporating security considerations into state design standards and State Revolving Fund (SRF) criteria; (8) creating websites to provide easy access to state drinking water security information; (9) designing and conducting on-line training, videos, and materials for the law enforcement community to outline water utility security basics; (10) conducting emergency response exercises and drills; (11) creating ready-to-go complete sampling kits to eliminate delays in obtaining bottles and preparing expedited sampling and transport protocols in preparation for emergency water supply collection needs; (12) assisting in preparation of state plans to implement measures for safe drinking water under emergency circumstances; and (13) facilitating mutual aid compacts in instances of emergency need, between states and water systems. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals are approved by EPA according to technical merit and relevance, and availability of funds.

66.475 GULF OF MEXICO PROGRAM

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104(b)(3), 33 U.S.C 1254.

OBJECTIVES:

(1) To assist States, Indian Tribes, interstate agencies, and other public or nonprofit organizations in developing, implementing, and demonstrating innovative approaches relating to the causes, effects, extent, prevention, reduction, and elimination of water pollution; and (2) To expand and strengthen cooperative efforts to restore and protect the health and productivity of the Gulf of Mexico in ways consistent with the economic well-being of the region.

Funding Priority - Fiscal Year 2014: Projects that will deliver significant results to achieve the environmental outcomes of improved health of the Gulf of Mexico by restoring and conserving habitat, restoring water quality, replenishing and protecting living marine resources, enhancing community resilience, and furthering environmental education.

Funding Priority - Fiscal Year 2015: Projects that will deliver significant results to achieve the environmental outcomes of improved health of the Gulf of Mexico by restoring, protecting and enhancing habitat, improving water quality, enhancing community resilience, and furthering environmental education.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Section 104 (b)(3) of the Clean Water Act, 33 U.S.C. Section 1254 (b)(3) authorizes the awarding of assistance for programs established under the Clean Water Act. Assistance will be targeted to States, Tribes, interstate agencies, and other public or nonprofit organizations that commit to specific activities. Eligible activities should be of a relatively short time frame (6 months to 3 years) and all projects should achieve and demonstrate results. Assistance agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, investigations, research, and demonstrations plus allowable indirect costs, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:
<http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Funds are available to State and local governments, interstate agencies, Tribes, colleges and universities, and other public or nonprofit organizations. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, interstate agencies, Tribes, colleges and universities, and other public or nonprofit organizations.

Credentials/Documentation:

Compliance with 2 CFR 200 and 1500, Program Funding Guidance, and 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally

specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants should follow the proposal format and instructions provided in the Funding Announcement. The proposal should be transmitted electronically to the email address and by the date and time published in the Funding Announcement. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90-180 days following the application deadline as addressed in the competitive funding announcement.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Contact the Gulf of Mexico Program Office for information.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the assistance shall be determined at the time of award. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$3,121,700; FY 15 est \$1,547,000; and FY 16 est \$1,228,000 - FY 14 \$3,121,700; FY 15 est. \$1,547,000; and FY 16 est. \$1,228,000.

Range and Average of Financial Assistance:

\$30,000 to \$300,000/fiscal year; \$165,000/fiscal year.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Competitions are held based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement will include the number of anticipated awards. The program initiated a competition in early FY 2014. 144 proposals were received, of which 13 were selected for funding. In FY 2014, the program continued to support projects which improved water quality, restored, enhanced, and protected habitat, helped coastal communities understand their resilience to climate change and significantly advance environmental education for all. The program also prepared and presented several webinars to better prepare potential applicants. Fiscal Year 2015: Competitions are held based on available funds and Agency priorities. The number of applications and the number of awards made is dependent on the competitive announcement issued. The announcement is expected to be posted late summer of FY 2015. The announcement currently states that approximately 15 awards are anticipated. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For assistance agreements, the procedures and requirements should be in conformance with 2 CFR 200 and 1500 as applicable.

RELATED PROGRAMS:

66.419 Water Pollution Control State, Interstate, and Tribal Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Thirteen projects were selected for funding in FY 14. In FY 14, the program continued to support projects which improved water quality, restored habitat, enhanced, and protected habitat, helped coastal communities

understand their resilience to climate change and significantly advance environmental education. Fiscal Year 2015: In FY 15, the program continues to support projects which improve water quality, restore habitat, enhance and protect habitat, help coastal communities understand their resilience to climate change, and significantly advance environmental education. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Projects will be selected based on the criteria and ranking factors established in the GMPO Competitive Funding Announcement. Leveraged funds and resources will be considered during the evaluation scoring process.

66.481 LAKE CHAMPLAIN BASIN PROGRAM

(Lake Champlain Program)

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act , Section 120, Public Law 107-303.

OBJECTIVES:

To implement the Lake Champlain Basin Management Plan, Opportunities for Action: An Evolving Plan for the Future of the Lake Champlain Basin, and to assist the states of New York and Vermont in protecting, restoring and preserving the Lake Champlain ecosystem.

Funding Priority - Fiscal Year 2014: Efforts in Lake Champlain will continue to support the successful interstate, interagency, and international partnership undertaking the implementation of "Opportunities for Action," a plan designed to address various threats to the Lake's water quality, including phosphorus loadings, invasive species, and toxic substances. Grants under this program are for assisting research, surveys, studies, modeling, technical, field, restoration, education, outreach, and other supporting work necessary for the development and implementation of the Lake Champlain Basin Management Plan. Funding priorities include phosphorus control and reduction, aquatic invasive species prevention and control, and environmental education and outreach.

Funding Priority - Fiscal Year 2015: Efforts in Lake Champlain will continue to support the successful interstate, interagency, and international partnership undertaking the implementation of "Opportunities for Action," a plan designed to address various threats to the Lake's water quality, including phosphorus loadings, invasive species, and toxic substances. Grants under this program are for assisting research, surveys, studies, modeling, technical, field, restoration, education, outreach, and other supporting work necessary for the development and implementation of the Lake Champlain Basin Management Plan. Funding priorities include phosphorus control and reduction, aquatic invasive species prevention and control, and environmental education and outreach.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

As described in Section 120 of the CWA, funds may be used to implement elements of the Lake Champlain Basin Management Plan, Opportunities for Action. Projects outside of the Lake Champlain Basin are not eligible for funding under this program. Grant awards must be made in consultation with the Lake Champlain Basin Program Steering Committee, and must support activities consistent with the goals of Opportunities for Action. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that

was signed on October 1, 2009.

Applicant Eligibility:

State, interstate, and regional water pollution control agencies, and public or nonprofit agencies, institutions, and organizations are eligible to receive grants from EPA through this program. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Assistance under this program generally benefits State environmental, health, and agriculture agencies; interstate water pollution control agencies; public nonprofit institutions and organizations; sponsored organizations; Federal agencies; local agencies; intrastate agencies; public and private nonprofit institutions and organizations; private organizations; small businesses; and quasi-public nonprofit institutions.

Credentials/Documentation:

Nonprofit private agencies, institutions, and organizations may be required to provide documentation of their organizational status upon application. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. A pre-application form is not required. Informal pre-application discussions or conferences with the Lake Champlain Basin Program Steering Committee, and EPA Regions 1 and 2 are required. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Lake Champlain Basin Program Steering Committee, in conjunction with EPA Regions 1 and 2, develops the annual budget and task list. This budget and task list is then divided between the States of Vermont and New York and the New England Interstate Water Pollution Control Commission. From this information, these three organizations then prepare grant applications and workplans for submittal to EPA Region 2 or Region 1. The standard application forms, as furnished by the Federal agency, must be used for this program. EPA requires final applications to be made on Standard Form 424. Application kits should be requested from the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), 1200 Pennsylvania Avenue, N. W., Washington, DC 20460 or the appropriate EPA Regional Office identified in "Regional or Local Office" section for information contacts. Detailed information and assistance, including and application kit, required forms, and a checklist may also be found on the web (<http://www.epa.gov/ogd/AppKit/application.htm>). Applications must be submitted to the appropriate EPA Regional Office identified in "Regional or Local Office" section for information contacts. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Each federal assistance application and final work plan will be evaluated by EPA Region 1 or Region 2 to determine the adequacy of the application under the established EPA grants program requirements and guidelines, including, but not limited to, the requirements set forth in 2 CFR 200 and 1500. Technical merit and the relevance of the project to the priorities and objectives established

in Opportunities for Action will also be considered. Each application will also be subject to an administrative review by the EPA Region 1 or 2 grants management office as appropriate to determine whether all administrative requirements have been met. The workplan is submitted to the EPA Region 1 and 2 Regional Administrators for approval prior to the award of any assistance agreement. Once a Regional Office approves the annual workplan, funds are awarded by the EPA Region 1 or 2 Regional Administrator as appropriate. Grantees will receive an award package from the appropriate EPA Regional grants management office that must be accepted and signed by an authorized official of the recipient organization and returned to the grants management office within 30 days. Awards may be made on an advance or reimbursement basis. Awards that are not signed and returned by the deadline may be subject to cancellation. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Notification of action on proposals varies depending on the timing of funds release to the EPA Regional Offices from Headquarters. Interval from submission to notification may vary from two months to eight months.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

No cost extensions and amendments may be available subject to the approval of EPA. Approval of subsequent funding is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, availability of funds, and the Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has a statutory matching requirement; see CWA section 120 (f)(3). For all assistance (grants and cooperative agreements) agreements made under this program, federal costs shall not exceed 75 percent of the total cost of the agreement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are generally made for a multi-year period at the discretion of EPA. Start dates for assistance agreements are variable and are established at the discretion of EPA. Generally however, it is intended that start dates closely follow award dates of the assistance agreement. Awards are fully funded, recipients draw down funding as cost are incurred, typically monthly. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and expenditure/financial, equipment, and invention reports. Specific reporting requirements are also identified in the grant regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit

conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those that arose as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$1,399,000; FY 15 est \$4,396,000; and FY 16 est \$1,399,000 - FY 14 \$1,399,000; FY 15 est. \$4,396,000; and FY 16 est. \$1,399,000.

Range and Average of Financial Assistance:

Range: \$20,000 to \$2,712,841/fiscal year; Average: \$1,356,421/fiscal year.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Since 1991, EPA's funding of the Lake Champlain Basin Program has led to the protection and restoration of the Lake Champlain basin through coordination with federal, provincial, state, and municipal agencies and local citizens. The main program goals, as laid out in the Lake Champlain Management Plan Opportunities for Action, are as follows: reducing phosphorus inputs to Lake Champlain; decreasing toxic contamination; minimizing the risks to humans from water-related health hazards; and controlling the introduction, spread, and impact of nonnative nuisance species. EPA works with the Lake Champlain Basin Program Steering Committee to determine funding priorities and distributes funds accordingly. The following three entities typically receive funding on an annual basis: New England Interstate Water Pollution Control Commission (NEIWPCC), Vermont Department of Environmental Conservation, and the New York Department of Environmental Conservation. They may choose to compete all or part of the funds. Competitive announcements typically include the number of anticipated awards.

In FY 14, accomplishments included: further removal of invasive water chestnuts; conducting water quality monitoring programs; continued development of an adaptive management system; development of aquatic invasive species colonization prevention plans that are pro-active and targeted within the Lake Champlain Basin; an analysis of the long-term benefits of river corridor and floodplain protection and restoration that will help quantify the economic benefits derived from the natural functions of wetlands, river corridors, floodplains and riparian areas; and reductions in sediment and phosphorus export from rural roads through increased implementation of Best Management Practices and technical assistance provided by a Rural Road Pollution Prevention program. Fiscal Year 2015: Since 1991, EPA's funding of the Lake Champlain Basin Program has led to the protection and restoration of the Lake Champlain basin through coordination with federal, provincial, state, and municipal agencies and local citizens. The main program goals, as laid out in the Lake Champlain Management Plan Opportunities for Action, are as follows: reducing phosphorus inputs to Lake Champlain; decreasing toxic contamination; minimizing the risks to humans from water-related health hazards; and controlling the introduction, spread, and impact of nonnative nuisance species. EPA works with the Lake Champlain Basin Program Steering Committee to determine funding priorities and distributes funds accordingly.

The following three entities typically receive funding on an annual basis: New England Interstate Water Pollution Control Commission (NEIWPCC), Vermont Department of Environmental Conservation, and the New York Department of Environmental Conservation. They may choose to compete all or part of the funds. Competitive announcements typically include the number of anticipated awards.

In FY 15, expected accomplishments include: further removal of invasive water chestnuts; conducting water quality monitoring programs; continued development of an adaptive management system; development of aquatic invasive species colonization prevention plans that are pro-active and targeted within the Lake Champlain Basin; an analysis of the long-term benefits of river corridor and floodplain protection and restoration that will help quantify the economic benefits derived from the natural functions of wetlands, river corridors, floodplains and riparian areas; and reductions in sediment and phosphorus export from rural roads through increased implementation of Best Management Practices and technical assistance provided by a Rural Road Pollution Prevention program. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Lake Champlain program grants and cooperative agreements are subject to the general grant regulations at 2 CFR 200 and 1500. All assistance agreements must support the goals and objectives of the Lake Champlain Management Plan, Opportunities for Action. A copy of this document is available on request from the Lake Champlain Basin Program, 54 West Shore Road, Grand Isle, VT 05458, Phone 802-372-3213 and is also available online at <http://www.lcbp.org>.

RELATED PROGRAMS:

12.100 Aquatic Plant Control; 66.419 Water Pollution Control State, Interstate, and Tribal Program Support; 66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act; 66.454 Water Quality Management Planning; 66.460 Nonpoint Source Implementation Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Grants and cooperative agreements awarded to states, interstate agencies, universities, and nonprofit organizations are for implementation of the Lake Champlain Management Plan. Grants awarded to States of Vermont and New York and NEIWPCC generally cover multiple tasks and projects per grant. Examples of work carried out by these grants include: (1) funding for the overall program coordination, the full-time New York and Vermont Lake Champlain Basin Program coordinators employed by their respective states, and continued development of an adaptive management system; (2) annual lake and tributary monitoring for phosphorus and other parameters by professional limnologists; (3) phosphorus reduction: research on phosphorus carried downstream by eroding stream banks, research on policy options for further phosphorus reduction from point and nonpoint sources, tracking implementation of best management practices on farms, geomorphic studies, riparian restoration work; (4) removal of invasive species such as water chestnuts; (5) development of aquatic species colonization prevention plans; (6) nutrient management plan assistance to farmers in New York and Vermont; (7) Rural Road Pollution Prevention Technical Assistance program in the Vermont

and New York portions of the Basin to help increase Best Management Practice implementation resulting in reduced export of sediment and phosphorus. Fiscal Year 2015: Grants and cooperative agreements awarded to states, interstate agencies, universities, and nonprofit organizations are for implementation of the Lake Champlain Management Plan. Grants awarded to States of Vermont and New York and NEIWPC generally cover multiple tasks and projects per grant. Examples of work carried out by these grants include: (1) funding for the overall program coordination, the full-time New York and Vermont Lake Champlain Basin Program coordinators employed by their respective states, and continued development of an adaptive management system; (2) annual lake and tributary monitoring for phosphorus and other parameters by professional limnologists; (3) phosphorus reduction: research on phosphorus carried downstream by eroding stream banks, research on policy options for further phosphorus reduction from point and nonpoint sources, tracking implementation of best management practices on farms, geomorphic studies, riparian restoration work; (4) removal of invasive species such as water chestnuts; (5) development of aquatic species colonization prevention plans; (6) nutrient management plan assistance to farmers in New York and Vermont; (7) Rural Road Pollution Prevention Technical Assistance program in the Vermont and New York portions of the Basin to help increase Best Management Practice implementation resulting in reduced export of sediment and phosphorus. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. The Steering Committee recommends projects to EPA for funding based on the technical merit of the proposal and its relevance to the Lake Champlain Basin Management Plan. EPA approves applications after Steering Committee recommendation based on the technical merit of the application and its relevance to the Lake Champlain Basin Management Plan.

66.482 DISASTER RELIEF APPROPRIATIONS ACT (DRAA) HURRICANE SANDY CAPITALIZATION GRANTS FOR CLEAN WATER STATE REVOLVING FUNDS

Clean Water State Revolving Fund Hurricane Sandy Supplemental Appropriation

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013, Public Law 113-2.

OBJECTIVES:

Grants are made to New York and New Jersey to fund resiliency projects for facilities impacted by Hurricane Sandy through the State CWSRF Programs.

Funding Priority - Fiscal Year 2014: The funding priority established by the Hurricane Sandy Supplemental Appropriation is to fund projects at wastewater facilities that will improve the resiliency of those facilities against future disasters. Only facilities that were impacted by Hurricane Sandy in the States of New York and New Jersey are eligible.

Funding Priority - Fiscal Year 2015: The funding priority established by the Hurricane Sandy Supplemental Appropriation is to fund projects at wastewater facilities that will improve the resiliency of those facilities against future disasters. Only facilities that were impacted by Hurricane Sandy in the States of New York and New Jersey are eligible.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Capitalization grants are made available to New York and New Jersey for the purpose of funding resiliency related projects for facilities that were impacted by Hurricane Sandy. The capitalization grant is awarded to the State's CWSRF, and is used to provide loans and other types of financial assistance to eligible publicly-owned treatment systems. A State may elect to use up to 4% for administration of the program. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:

<http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

The States of New York and New Jersey.

Beneficiary Eligibility:

The States of New York and New Jersey, and wastewater treatment facilities funding resiliency projects that were impacted by Hurricane Sandy.

Credentials/Documentation:

To receive a capitalization grant, a State shall enter into an agreement with the EPA Regional Administrator which shall include, but is not limited to, the 10 specifications set forth in Section 602(b) of the CWA. 2 CFR 200 Subpart E applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

An applicant (State) should seek preapplication assistance from the appropriate EPA Regional Office. The State is required to prepare and provide for public comment on a plan identifying the intended uses of the funds in the SRF (Intended Use Plan, or IUP) and how those uses support the goals of the SRF. The IUP is to be submitted no later than the application. An environmental impact statement is not required prior to grant award; however, a State environmental review process must be applied to all subsequent state assistance for wastewater facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application for EPA non-construction grant assistance (SF424-A and B) is submitted to the appropriate EPA Regional Office. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. The State must certify in its application that it has the legal, managerial, technical, and operational capabilities to administer the SRF program competently and that it will comply with Federal anti-discrimination laws and other applicable Federal statutes. The regulations at 2 CFR 200 and 1500 as applicable, apply to the program. Establishment of the SRF is a prerequisite for a grant award.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office and, if approved, the grant is awarded by the Regional Administrator under a delegation of authority from the Administrator of EPA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

For those portions of the State program that do not change from year to year, a subsequent grant application may incorporate by reference relevant portions of the previous year's application which have not changed or an operating agreement approved by the Region.

Formula and Matching Requirements:

Statutory Formula: Title Disaster Relief Appropriations Act. The supplemental appropriation left the development of an allocation formula to US EPA. New York is eligible for 59.7% of the appropriation and New Jersey is eligible for 40.3% of the appropriation.

The allocation percentages were determined in accordance with the population of the counties of each state that were declared disaster areas by FEMA for Hurricane Sandy. Census data from the most recent census was used. 59.7% of all the total impacted population live in New York and 40.3% live in New Jersey.

Matching Requirements: Other.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are available for EPA's obligation to the State during the fiscal year in which they are allotted and during the following year. The term of the grant shall be determined at the time of award. All funds must be liquidated within 24 months of the date of the grant award, subject to waiver by OMB. States must enter into binding commitments with loan recipients to provide financial assistance from the CWSRF in an amount equal to the sum of Federal assistance and the State match. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

Program reports are required under this program. The State shall provide annual reports to the Regional Administrator in accordance with the schedule established in the grant agreement. The annual report shall describe how the State has met the goals and objectives for the preceding fiscal year of the overall program, including the supplemental appropriation for Hurricane Sandy, including identification of loan recipients, loan amounts, and loan terms. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. States are also encouraged to conduct annual independent audits. The audit of the fund to be prepared by the State or an independent auditor must be in accordance with the standards of the Government Accountability Office (known as the Generally Accepted Government Auditing Standards).

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved. As part of the annual review conducted by the Agency to access a State's performance against activities identified in the intended use plan and biennial report, and to determine compliance with the terms of the capitalization grant agreement, the State or assistance recipient shall make available to EPA such records as the Regional Administrator reasonably requires to review and determine State compliance with the requirements of the CWA.

Account Identification:

68-0103-0-1-304 - STAG.

Obligations:

(Formula Grants) FY 14 \$474,285,000; FY 15 Estimate Not Available; and FY 16 Estimate Not Available - FY 14 \$474,285,000; FY 15 est. \$0; and FY 16 est. \$0.

Range and Average of Financial Assistance:

\$191,136,855 to \$283,148,135/fiscal year; \$237,142,500/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Two awards were made in FY 14 to the states of New York and New Jersey. Funding is for projects at wastewater facilities that will improve the resiliency of those facilities against future disasters. Examples of projects funded include outfall sewer replacement, modification of sewage treatment plants, restoration and flood mitigation, pump station improvements, and force main modifications. Fiscal Year 2015: Two awards were made in FY 14 to the states of New York and New Jersey. No additional awards are anticipated. Funding continues to support projects at wastewater facilities that will improve the resiliency of those facilities against future disasters. Examples of projects funded include outfall sewer replacement, modification of sewage treatment plants, restoration and flood mitigation, pump station improvements, and force main modifications. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Uniform Administrative Requirements at 2 CFR 200 and 1500 as applicable, and the CWSRF regulations (40 CFR Part 35, Subpart K). Additional program information, including contact information for state program managers, is available online at http://water.epa.gov/grants_funding/cwsrf/cwsrf_index.cfm. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Two awards were made in FY 14 to the states of New York and New Jersey. Funding is for projects at wastewater facilities that will improve the resiliency of those facilities against future disasters. Examples of projects funded include outfall sewer replacement and modification of sewage treatment plant to provide resiliency and mitigate against flooding, pump stations to improve water quality, sewage treatment plant generator replacement, force main modifications, and sewage treatment plant replacement to improve water quality. Fiscal Year 2015: Two awards were made in FY 14 to the states of New York and New Jersey. No additional awards are anticipated. Funding continues to support projects at wastewater facilities that will improve the resiliency of those facilities against future disasters. Examples of projects funded include outfall sewer replacement and modification of sewage treatment plant to provide resiliency and mitigate against flooding, pump stations to improve water quality, sewage treatment plant generator replacement, force main modifications, and sewage treatment plant replacement to improve water quality. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Grants are awarded to States that satisfy the requirements in the application

procedures section.

66.483 DISASTER RELIEF APPROPRIATIONS ACT (DRAA) HURRICANE SANDY CAPITALIZATION GRANTS FOR DRINKING WATER STATE REVOLVING FUNDS

Drinking Water State Revolving Fund Hurricane Sandy Supplemental
Appropriation

FEDERAL AGENCY:

Office of Water, Environmental Protection Agency

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013, Public Law 113-2.

OBJECTIVES:

Grants are made to New York and New Jersey to fund resiliency projects for facilities impacted by Hurricane Sandy through the State DWSRF Programs. Funding Priority - Fiscal Year 2014: The funding priority established by the Hurricane Sandy Supplemental Appropriation is to fund projects at drinking water facilities that will improve the resiliency of those facilities against future disasters. Only facilities that were impacted by Hurricane Sandy in the States of New York and New Jersey are eligible. Funding Priority - Fiscal Year 2015: The funding priority established by the Hurricane Sandy Supplemental Appropriation is to fund projects at drinking water facilities that will improve the resiliency of those facilities against future disasters. Only facilities that were impacted by Hurricane Sandy in the States of New York and New Jersey are eligible. No additional awards are anticipated in FY 2015.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Capitalization grants are made available to New York and New Jersey for the purpose of funding resiliency related projects for facilities that were impacted by Hurricane Sandy. The capitalization grant is deposited in the State's DWSRF, and is used to provide loans and other types of financial assistance to eligible public water systems. A State may elect to use up to 31% of the capitalization grant for other eligible activities, including 4% for administration of the program. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

The States of New York and New Jersey.

Beneficiary Eligibility:

The States of New York and New Jersey, and drinking water facilities funding resiliency projects that were impacted by Hurricane Sandy.

Credentials/Documentation:

To receive a capitalization grant, a State shall enter into an agreement with the EPA Regional Administrator which shall include, but is not limited to, the requirements set forth in Section 130 of the SDWA. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

An applicant (State) should seek preapplication assistance from the appropriate EPA Regional Office. The State is required to prepare and provide for public comment on a plan identifying the intended uses of the funds in the DWSRF (Intended Use Plan, or IUP) and how those uses support the goals of the DWSRF. The IUP is to be submitted no later than the application. An environmental impact statement is not required prior to grant award; however, a State environmental review process must be applied to all subsequent state assistance for wastewater facilities. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant

should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application for EPA non-construction grant assistance (SF424-A and B) is submitted to the appropriate EPA Regional Office. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. The State must certify in its application that it has the legal, managerial, technical, and operational capabilities to administer the DWSRF program competently and that it will comply with Federal anti-discrimination laws and other applicable Federal statutes. Establishment of the DWSRF is a prerequisite for a grant award.

Award Procedure:

A grant application is reviewed by the appropriate Regional Office and, if approved, the grant is awarded by the Regional Administrator under a delegation of authority from the Administrator of EPA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approval time averages 45 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

For those portions of the State program that do not change from year to year, a subsequent grant application may incorporate by reference relevant portions of the previous year's application which have not changed or an operating agreement approved by the Region.

Formula and Matching Requirements:

Statutory Formula: Title Disaster Relief Appropriations Act. The supplemental appropriation left the development of an allocation formula to US EPA. New York is eligible for 59.7% of the appropriation and New Jersey is eligible for 40.3% of the appropriation.

The allocation percentages were determined in accordance with the population of the counties of each state that were declared disaster areas by FEMA for Hurricane Sandy. Census data from the most recent census was used. 59.7% of all the total impacted population live in New York and 40.3% live in New Jersey.

Matching Requirements: Other.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are available for EPA's obligation to the State during the fiscal year in which they are allotted and during the following year. The term of the grant shall be determined at the time of award. States must enter into binding commitments with loan recipients to provide financial assistance from the DWSRF in an amount equal to the sum of Federal assistance, less amounts used by the State for eligible set-aside purposes, and the State match. States are also required to agree to commit and expend all funds in the DWSRF as efficiently as possible, and in a timely manner. See the following for information on how assistance is awarded/released: The method of fund disbursement will be determined at the time of award.

Reports:

The State shall provide biennial reports to the Regional Administrator in accordance with the schedule established in the grant agreement. The biennial

report shall describe how the State has met the goals and objectives for the preceding two fiscal years of the overall program, including the supplemental appropriation for Hurricane Sandy, including identification of loan recipients, loan amounts, and loan terms. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance reporting is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. A State must, at a minimum, comply with the provisions at 2 CFR 200, Subpart F - Audit Requirements. States are also encouraged to conduct annual independent audits. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The audit of the fund to be prepared by the State or an independent auditor must be in accordance with the standards of the Government Accountability Office (known as the Generally Accepted Government Auditing Standards). To the extent that the set-asides are used for project purposes that must be repaid, or are directly related to the DWSRF (e.g., administration) or are revolving funds themselves, they must be part of an audited opinion(s). The audits must provide an auditor's opinion on the DWSRF financial statements, a report on internal controls and a report on compliance with laws and regulations. Those set-aside funds that are not loaned out may be audited in conjunction with audits conducted under the provisions of 2 CFR 200, Subpart F.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved. As part of the annual review conducted by the Agency to access a State's performance against activities identified in the intended use plan and biennial report, and to determine compliance with the terms of the capitalization grant agreement, the State or assistance recipient shall make available to EPA such records as the Regional Administrator reasonably requires to review and determine State compliance with the requirements of the SDWA.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$94,762,000; FY 15 Estimate Not Available; and FY 16 Estimate Not Available - FY 14 \$94,762,000; FY 15 est. \$0; and FY 16 est. \$0.

Range and Average of Financial Assistance:

\$38,189,000 to \$56,572,000/fiscal year; \$47,381,000/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Two awards were made in FY 14 to the states of New York and New Jersey. Funding is for projects at drinking water facilities that will improve the resiliency of those facilities against future disasters. Only facilities that were impacted by Hurricane Sandy in the States of New York and New Jersey are eligible for funds. Fiscal Year 2015: In FY 2015 funding continues to support projects at drinking water facilities that will improve the resiliency of

those facilities against future disasters. Only facilities that were impacted by Hurricane Sandy in the States of New York and New Jersey are eligible for funds. Funding continues to support projects at drinking water facilities that will improve the resiliency of those facilities against future disasters. Examples of projects anticipated to be funded in FY15 include, projects that provide resiliency through installation of standby emergency generators, projects that repair, maintain, or upgrade existing infrastructure, projects that replace undersized water mains, projects that raise wellhead elevations, and projects that install wireless radio communications for water facilities. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

66.508 SENIOR ENVIRONMENTAL EMPLOYMENT PROGRAM

(SEE)

FEDERAL AGENCY:

Office of Administration and Resources Management, Environmental Protection Agency

AUTHORIZATION:

Environmental Programs Assistance Act of 1984, Public Law 98-313, 42 U.S.C 4368a.

OBJECTIVES:

To use the talents of Americans 55 years of age or older to provide technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control to achieve the Agency's goals of Clean Air; Clean and Safe Water; Land Preservation and Restoration; Healthy Communities and Ecosystems; and Compliance and Environmental Stewardship.

Funding Priority - Fiscal Year 2014: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control." "Technical assistance" may include any activity performed for the EPA in support of its projects ranging from inspections of underground storage tanks, to support for a Headquarters staff office. This allows for the coverage of all types of SEE program positions from professional to clerical. Annual funding priorities are not established at the SEE program level. Rather, Senior Resource Officials from the participating 65 program offices establish priorities requiring SEE program support.

Funding Priority - Fiscal Year 2015: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control." "Technical assistance" may include any activity performed for the EPA in support of its projects ranging from inspections of underground storage tanks, to support for a Headquarters staff office. This allows for the coverage of all types of SEE program positions from professional to clerical. Annual funding priorities are not established at the SEE program level. Rather, Senior Resource Officials from the participating 65 program offices establish priorities requiring SEE program support.

Funding Priority - Fiscal Year 2016: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control." "Technical assistance" may include any activity performed for the EPA in support of its projects ranging from inspections of underground storage tanks, to support for a Headquarters staff office. This allows for the coverage of all types of SEE program positions from professional to clerical. Annual funding priorities are not established at the SEE program level. Rather, Senior Resource Officials from the participating 65 program offices establish priorities requiring SEE program support.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The SEE Act states that only nonprofit organizations which are designated by the Secretary of Labor under Title V of the Older Americans Act can participate. These cooperative agreements are to utilize the talents of older Americans in temporary full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control."

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965.

Beneficiary Eligibility:

Federal, State, and local environmental agencies and individuals 55 years old or older.

Credentials/Documentation:

The Environmental Programs Assistance Act of 1984 requires a certification by the Federal, State, or local agency that is to receive the SEE workers that the grant/cooperative agreement will not displace any Federal or State workers, prevent the rehiring of any laid-off Federal/State workers, or affect existing service contracts. This program is excluded from coverage under 2 CFR 200 Subpart E. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is subject to the provisions of OMB 2 CFR 1500. This program is excluded from coverage under OMB 2 CFR 200. Applicants, except limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Each application shall be subjected to administrative evaluation to determine adequacy of application in relation to assistance regulations, and to program objectives.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance covers a period of one to three years and is awarded in increments during that period. See the following for information on how assistance is awarded/released: Assistance is incrementally awarded throughout the life of the agreement to support ongoing activities.

Reports:

No program reports are required. Recipients must furnish quarterly reports on expenditures by cooperative agreement. Progress reports are required on a quarterly schedule. Expenditure reports are required on a quarterly schedule. Performance monitoring is required as a normal part of project officer post award monitoring.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized

representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of OMB 2 CFR 200, Subpart F - "Audits of States, Local Governments, and Non-Profit Organizations," non-federal entities that expend \$750,000 or more in the Federal awards shall have a single or a

program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in OMB 2 CFR 200.503.

Records:

Financial records, including all documents which support entries on accounting records and which substantiate changes to each assistance agreement must be kept available to personnel authorized to examine EPA assistance accounts. All records must be maintained until expiration of three years from the date of submission of the final financial status report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304; 68-0107-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$48,400,000; FY 15 est \$50,000,000; and FY 16 est \$50,000,000 - (Grants)FY 2014 \$48,400,000; FY 2015 estimate \$50,000,000; FY 2016 estimate \$50,000,000.

Range and Average of Financial Assistance:

New awards and amendments: \$1,543 to \$1,994,761/FY 2014; Average \$998,152/FY 2014;\$339 to \$870,000/FY 2015; Average \$/FY 2015.

TAFS Codes:

68-0107; 68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In Fiscal Year 2014, 269 cooperative agreements/amendments were awarded. Fiscal Year 2015: As of June 16, 2015, 126 cooperative agreements/amendments were awarded. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

RELATED PROGRAMS:

66.518 State Senior Environmental Employment Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Provide funding to eligible Grantee organizations to provide senior citizens who conduct national non-agricultural pesticide surveys, outreach on renovation, repair, and painting rule, provide review and monitoring support for the Import Car Program, monitor the anti-fuel switching program, conduct research, and work on other general administrative and clerical tasks. Fiscal Year 2015: Provide funding to eligible Grantee organizations to provide senior citizens who conduct national non-agricultural

pesticide surveys, outreach on renovation, repair, and painting rule, provide review and monitoring support for the Import Car Program, monitor the anti-fuel switching program, conduct research, and work on other general administrative and clerical tasks. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals must demonstrate that the Organizations have the capability of operating nationwide; can manage the program within the prescribed administrative funding limits; and can provide a quality fringe benefit package to enrollees under the proposal (including health insurance).

66.509 SCIENCE TO ACHIEVE RESULTS (STAR) RESEARCH PROGRAM

FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; National Environmental Policy Act of 1969, Section 102(2)(F); Clean Air Act, Section 103, 42 U.S.C 7403; Clean Water Act, Section 104, 33 U.S.C 1254; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981.

OBJECTIVES:

To (1) support research to determine the environmental and human health effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) identify, develop, and demonstrate effective pollution control techniques; and (3) support research to explore and develop strategies and mechanisms for those in the social, governmental, and environmental arenas to use in environmental management decisions.

Funding Priority - Fiscal Year 2014: The STAR Program will fund the highest quality research in the following priority areas:

- (1) Air, Climate and Energy: Indoor Air and Climate Change; Particulate Matter and Related Pollutants in a Changing World; Air, Climate and Energy (ACE) Centers - Science Supporting Solutions; Air Pollution Monitoring for Communities.
- (2) Chemical Safety and Sustainability: Organotypic Culture Models for Predictive Toxicology Center; Systems-Based Research for Evaluating Ecological Impacts of Manufactured Chemicals; Nanotechnology Research.
- (3) Safe and Sustainable Water Resources: Center for Innovative Drinking Water Treatment Technologies;
- (4) Safe and Healthy Communities: Centers of Excellence on Environmental Health Disparities; Science for Sustainable and Healthy Tribes; Healthy and Sustainable Schools: Environmental Factors, Children's Health and Performance, and Sustainable Building Practices.

In addition to the solicitations identified above, other solicitations may be announced in the coming year. Please check the NCER website: <http://www.epa.gov/ncer> for an updated listing of all solicitations.

Funding Priority - Fiscal Year 2015: The STAR Program will fund the highest quality research in the following research areas:

- (1) Air, Climate and Energy; 2) Chemical Safety and Sustainability; 3) Safe and Sustainable Water Resources; and 4) Safe and Healthy Communities.

Please check the NCER website: <http://www.epa.gov/ncer> for an updated listing of all solicitations.

Funding Priority - Fiscal Year 2016: The STAR Program will fund the highest quality research in the following research areas:

(1) Air, Climate and Energy; 2) Chemical Safety and Sustainability; 3) Safe and Sustainable Water Resources; and 4) Safe and Healthy Communities.

Please check the NCER website: <http://www.epa.gov/ncer> for an updated listing of all solicitations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The National Center for Environmental Research (NCER) generally does not accept unsolicited proposals for the STAR program. All STAR awards are made in response to competitive requests for applications (RFAs) or requests for initial proposals (RFIPs). Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to the performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Some solicitations issued under this CFDA may allow for the submittal of Multiple Investigator applications. The applicability of Multiple Investigator applications will be described in the solicitations. For further information, please see the EPA Implementation Plan for Policy on Multiple Principal Investigators (<http://rbm.nih.gov/toolkit.htm>).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Public nonprofit institutions/organizations (includes public nonprofit institutions of higher education and hospitals) and private nonprofit institutions/organizations (includes private nonprofit institutions of higher education and hospitals) located in the U.S., state and local governments, Federally Recognized Indian Tribal Governments, and U.S. territories or possessions are eligible to apply. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program.

Eligible nonprofit organizations include any organizations that:

1) Are operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest; 2) Are not organized primarily for profit; and 3) Use its net proceeds to maintain, improve, and/or expand its operations. However, nonprofit organizations described in Section 501(c) (4) of the Internal Revenue Code that lobby are not eligible to apply.

Foreign governments, international organizations, and non-governmental international organizations/institutions are not eligible to apply.

National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its assistance agreement from the EPA to an FFRDC for research personnel,

supplies, equipment, and other expenses directly related to the research. However, salaries for permanent FFRDC employees may not be provided through this mechanism.

Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on an assistance agreement, and may not receive salaries or augment their Agency's appropriations in other ways through awards made under this program.

The applicant institution may enter into an agreement with a Federal Agency to purchase or utilize unique supplies or services unavailable in the private sector to the extent authorized by law. Examples are purchase of satellite data, chemical reference standards, analyses, or use of instrumentation or other facilities not available elsewhere. A written justification for federal involvement must be included in the application. In addition, an appropriate form of assurance that documents the commitment, such as a letter of intent from the Federal Agency involved, should be included.

The early career awards will support research performed by PIs with outstanding promise at the Assistant Professor or equivalent level. Principal investigators from applicant institutions applying for the early career portion of the RFA must meet the following additional eligibility requirements:

1. Hold a doctoral degree in a field related to the research being solicited by the closing date of the RFA;
2. Be untenured at the closing date of the RFA;
3. By the award date, be employed in a tenure-track position (or tenure-track-equivalent position) as an assistant professor (or equivalent title) at an institution in the U.S., its territories, or possessions. Note: For a position to be considered a tenure-track-equivalent position, it must meet all of the following requirements: (1) the employing department or organization does not offer tenure; (2) the appointment is a continuing appointment; (3) the appointment has substantial educational responsibilities; and (4) the proposed project relates to the employee's career goals and job responsibilities as well as to the goals of the department/organization.

Senior researchers may collaborate in a supporting role for early career awards. Early career applications should not propose significant resources for senior researchers and may not list senior researchers as co-PIs. Applicants will be asked to verify their early career status.

See RFAs at: <http://www.epa.gov/ncer> for additional information pertaining to eligibility requirements.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations located in the U.S.; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; Anyone/General Public, Education Professional, Student/Trainee, Graduate Student, Scientists/Researchers.

Credentials/Documentation:

The EPA may request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out the research. EPA may ask applicants to provide curriculum vitae and relevant publications. EPA may also ask the lead principal investigator/contact principal investigator for information documenting past performance. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Policy Act. This program is eligible for coverage

under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Competitive RFAs or RFPs for grants/cooperative agreements are announced widely through the Internet, university and scientific organizations, among other mechanisms. Applicants must propose EPA mission relevant research based on excellent science as determined through peer review by experts drawn from the national and international scientific community. Other more specialized scientific areas may be solicited via joint RFAs with other Federal agencies. The STAR program may fund research centers that focus on long-term, multi-disciplinary research. This program is subject to the provisions of 2 CFR Part 200 and 2 CFR Part 1500. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified of award decisions within six months of the close of the RFA. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, and/or make appropriate proposal revisions. EPA Project Officers will contact the Lead Principal Investigator/Contact Principal Investigator to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreement Management Division. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately three to six months from the close of the solicitation.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds.

Formula and Matching Requirements:

This program has no statutory formula. This program has no matching requirements. The Office of Research and Development reserves the right to impose a cost share requirement under certain competitions. See individual RFAs at <http://www.epa.gov/ncer/> for additional information pertaining to matching/cost share requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded for a minimum of 2 years. Total approved project period may not exceed 5 years. Grants are generally fully funded or incrementally funded (on an annual basis). See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. A grant recipient must agree to provide annual progress reports, with associated summaries for posting on NCER's web site, and a final report with an executive summary for web posting. A grant recipient must agree to provide copies of any peer reviewed journal article(s) resulting from the research during the project period. The recipient also agrees to provide expenditure and invention reports as appropriate. Progress Reports are required under this program. No expenditure reports are required. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Part 200 apply. Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$44,200,000; FY 15 est \$39,100,000; and FY 16 est \$48,800,000 - FY 14 \$44,200,000; FY 15 est. \$39,100,000; FY 16 est. \$48,800,000.

Range and Average of Financial Assistance:

New awards range from \$183,000 to \$6,000,000 total per grant and average \$900,000.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Applications received for the STAR Program - FY 14: 295. New awards for the STAR Program - FY 14: 30. Abstracts of current grant awards, and annual interim and final summary results of the research are available on the homepage: <http://www.epa.gov/ncer>. Fiscal Year 2015: Applications received for the STAR Program - FY 15 est.: 183. New awards for the STAR Program - FY 15 est.: 24. Abstracts of current grant awards, and annual interim and final summary results of the research are available on the homepage: <http://www.epa.gov/ncer>. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR Part 200 & 2 CFR Part 1500 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) and Research and Demonstration Grant Regulations, Environmental Protection Agency (40 CFR Part 40).

Regional or Local Office:

See Regional Agency Offices. Applicants are encouraged to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog or the contacts listed in the solicitations. Solicitations are located at:

<http://www.epa.gov/ncer>.

Headquarters Office:

Ron Josephson EPA, 2777 Crystal Drive (One Potomac Yards), Arlington, Virginia 22202 Email: josephson.ron@epa.gov Phone: 703-308-0442

Website Address:

<http://www.epa.gov/ncer>

RELATED PROGRAMS:

66.511 Office of Research and Development Consolidated Research/Training/Fellowships

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1. Evaluate the trade-offs between intended function of nanomaterials (NMs) in products and risks to humans and the environment.

2. Integrate traditional ecological and community knowledge, scientific data and climate models to describe existing and projected local climate, hydrologic and microbial water quality changes and their impacts on ecosystem and community health.

3. Identify neurodevelopmental processes regulated by thyroid hormone and determine differences between species, intracellular signaling pathways that affect neurodevelopment, and the toxicity pathways by which chemicals interfere with neurodevelopment.

4. Quantify the benefits of cookstove interventions on climate, indoor air quality, and regional air quality.

5. Support demonstration of green infrastructure (GI) practices by local communities, governments, and municipalities. By identifying social, economic, and technical barriers to GI and interacting with various stakeholders to create a GI toolbox, this project will provide practical tools to specific user communities and better integrate stormwater management into local decision-making. Fiscal Year 2015: 1. Uncover the mechanistic linkages between the genome (e.g., variation in DNA sequence among individuals), metabolism (e.g., formation of organ-specific toxic intermediates), and adverse molecular events (e.g., transcriptional changes associated with toxicity) in response to Tetrachloroethylene (Perchloroethylene, PERC) exposure in humans.

2. Investigate the impact of climate change on home air exchange rates and the subsequent changes to fine particle exposures on human health.

3. Utilize a freshwater crustacean and a freshwater gastropod as model ecological receptors to develop bioenergetic markers and population models for predicting adverse ecological effects in response to two emerging contaminants, pyrochlorobin fungicide and perfluorooctane sulfonate.

4. Test the hypothesis that the toxicity of flame retardant chemicals (FRCs) is highly dependent on their chemical structure and conduct the first comprehensive in vivo, structure-activity based toxicity studies of FRCs.

5. Investigate indoor smog-induced chemistry and associated human exposure, and the effect of natural ventilation on this chemistry and subsequent exposure estimates. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. See the web page (<http://www.epa.gov/ncer>) for additional information on the evaluative criteria for the RFAs.

66.510 SURVEYS, STUDIES, INVESTIGATIONS AND SPECIAL PURPOSE GRANTS WITHIN THE OFFICE OF RESEARCH AND DEVELOPMENT

FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Section 311; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 92-516, 7 U.S.C 136r&136u; Safe Drinking Water Act, Section 1442, 93 U.S.C 523; National Environmental Policy Act of 1969, Section 102(2)(F); Marine Protection, Research, and Sanctuaries Act, Section 203; Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6981; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Clean Air Act, Section 103, Public Law 95-95, 42 U.S.C 7401; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 95-396, 7 U.S.C 136; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 94-140, 7 U.S.C 136.

OBJECTIVES:

To (1) support surveys, studies and investigations and special purpose assistance to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides (2) identify, develop, and demonstrate effective pollution control techniques; and (3) fund innovative regional projects that address a stated problem or opportunity relating to sustainability and use science to inform design, planning and decision-making at the local, state and industrial levels.

Funding Priority - Fiscal Year 2014: FY 2014 priorities include conducting air pollutants research, improving the science behind risk assessment, water quality research, drinking water research, research to improve human health and the environment, and research related to Homeland Security. Surveys, studies, and investigations to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, endocrine disrupting chemicals, and pesticides will also be funded under this category. Additionally, this funding priority provides support for conferences relating to the areas above.

Funding Priority - Fiscal Year 2015: FY 2015 priorities include conducting air pollutants research, improving the science behind risk assessment, water quality research, drinking water research, research to improve human health and the environment, and research related to Homeland Security. Surveys, studies, and investigations to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, endocrine disrupting chemicals, and pesticides will also be funded under this category. Additionally, this funding priority provides support for conferences relating to the areas above.

Funding Priority - Fiscal Year 2016: FY 2016 priorities include conducting air pollutants research, improving the science behind risk assessment, water quality research, drinking water research, research to improve human health and the environment, and research related to Homeland Security. Surveys, studies, and investigations to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, endocrine disrupting chemicals, and pesticides will also be funded under this category. Additionally, this funding priority provides support for conferences relating to the areas above.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to performance plus allocable portions of allowable indirect costs of the institutions, in accordance with the established policies of EPA. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website:

<http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to

conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

These programs are available to each State, territory and possession, and Tribal nation of the U.S., including the District of Columbia, for public and private State universities and colleges, hospitals, laboratories, State and local government departments, other public or private nonprofit institutions, and in some cases, individuals or foreign entities. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program.

Eligible nonprofit organizations include any organizations: 1) Are operated primarily for scientific, educational, service, charitable or similar purposes in the public interest; 2) Are not organized primarily for profit; and 3) Use its net proceeds to maintain, improve, and/or expand its operations. . However, nonprofit organizations described in Section 501(c) (4) of the Internal Revenue Code that lobby are not eligible to apply.

National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its assistance agreement from the EPA to an FFRDC for research personnel, supplies, equipment, and other expenses directly related to the research. However, salaries for permanent FFRDC employees may not be provided through this mechanism.

Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on an assistance agreement, and may not receive salaries or augment their Agency's appropriations in other ways through awards made under this program.

The applicant institution may enter into an agreement with a Federal Agency to purchase or utilize unique supplies or services unavailable in the private sector to the extent authorized by law. Examples are purchase of satellite data, chemical reference standards, analyses, or use of instrumentation or other facilities not available elsewhere. A written justification for federal involvement must be included in the application. In addition, an appropriate form of assurance that documents the commitment, such as a letter of intent from the Federal Agency involved, should be included.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; anyone/general public; education professionals; students/trainees; graduate students; scientists/researchers; hospitals; foreign entities; and individuals.

Credentials/Documentation:

The Agency may request that applicants demonstrate they have appropriate background, academic training experience in the field, and the necessary equipment to carry out the research. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. EPA may ask principal investigators for information documenting past performance. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact

assessment is made by the Office of Research and Development as required by the National Environmental Policy Act. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-102 and No. A-110 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Competitive RFAs (requests for applications) or RFIPs (requests for initial proposals) for grants in these areas are announced widely through the Internet, university and scientific organizations, among other mechanisms. Although the programs identified are the formal assistance programs that ORD funds, there are periodic RFAs/RFIPs disseminated on other topics that are not part of the formal program. These new programs are also part of 66.510 but cannot be presently identified. Funds may be available to support activities including but not limited to experiments, surveys, studies, investigations, public education programs, and monitoring where authorized by specific statutes, in both science and engineering disciplines. Please check the Federal Register or the EPA/ORD website <http://www.epa.gov/ord/htm/grantopportunity.htm> for an updated listing of these programs. Completed applications must be submitted to the appropriate Grants Management Office at the Environmental Protection Agency or as shown in the specific RFAs/RFIPs, which are accessible through the EPA/ORD website at <http://www.epa.gov/ord/htm/grantopportunity.htm>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified about award decisions within six months of the solicitation deadline. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application

and will compete for available funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The Office of Research and Development reserves the right to impose a cost share requirement under certain competitions. See individual RFAs for additional information pertaining to matching/cost share requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded on a 12-month basis (annual). Total approved project period may not exceed 5 years. See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in 2 CFR 200 and 1500. Progress reports are required under this program. A discussion of expenditures is required in progress reports under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Part 200 apply. Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$1,700,000; FY 15 est \$2,100,000; and FY 16 est \$1,800,000 - FY 2014 actual \$1,700,000, FY 2015 estimate \$2,100,000 FY 2016 estimate \$1,800,000.

Range and Average of Financial Assistance:

New grants/cooperative agreement funding ranges will be forthcoming shortly.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: An estimated 2 grants/cooperative agreements are made each year. Data of the number of applications received and the exact number of awards made in FY 14 are not available. Summary information of the funded research is available in the EPA Grant Awards Database, http://yosemite.epa.gov/oarm/igms_egf.nsf/HomePage?ReadForm. Fiscal Year 2015: An estimated 6 grants/cooperative agreements will be made in FY 2015. Data of the number of applications received and the exact number of awards made in FY 15 are not available. Summary information of the funded research is available in the EPA Grant Awards Database, http://yosemite.epa.gov/oarm/igms_egf.nsf/HomePage?ReadForm. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200 & 2 CFR Part 1500 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) and Research and Demonstration Grant Regulations, Environmental Protection Agency (40 CFR Part 40)

Regional or Local Office:

See Regional Agency Offices. Individuals are encouraged to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog or the contact listed on the RFA.

Headquarters Office:

John Nanartowicz For administrative questions on grant applications and procedures, contact: John Nanartowicz, at the following address: U.S. Environmental Protection Agency, 1201 Pennsylvania Ave. N.W., Washington, DC 20460 MC: 8201R. Phone number 202-564-4756, email: nanartowicz.john@epa.gov, Washington, District of Columbia 20460 Email: Nanartowicz.john@epa.gov Phone: 202-564-4756

Website Address:

<http://www.epa.gov/ord/htm/grantopportunity.htm>

RELATED PROGRAMS:

66.509 Science To Achieve Results (STAR) Research Program; 66.511 Office of Research and Development Consolidated Research/Training/Fellowships

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1) "Citizen Monitoring of Water Sanitation in a Rural Puerto Rico Watershed" is to increase public awareness of sanitation issues in the watershed by initiating assessments of water quality and sewage infrastructure by citizen volunteers. It is intended that this project will engage members of the watershed community in collecting and analyzing water samples for indicators of unsanitary condition and for assessing sewer infrastructure for faulty or damaged sewage lines. Expected outcomes are two-fold educating community members through active participation and identifying unsanitary conditions and their likely cause; 2) This project is to create a constantly upgrading, flexible and easily reproducible Living Laboratory to pilot sustainability tools and methods, starting on the local level in the Drini - Drina River Watershed. Each activity will be structured as a comprehensive capacity-building activity, combining both theoretical and hands-on approaches and actively engaging participants in the decision-making process. The project will foster sustainability by improving local development strategies, building watershed-management capacity, and providing decision-making tools. Fiscal Year 2015: Projects supported include the development of a web-accessible digital platform for collecting, analyzing, mapping and sharing Mill Creek Watershed water quality data. Conference support has included Environmental Mutagenesis and Genomics; Drinking Water Disinfection By-Products; and Environmental Nanotechnology. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.511 OFFICE OF RESEARCH AND DEVELOPMENT CONSOLIDATED RESEARCH/TRAINING/FELLOWSHIPS FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Marine Protection, Research, and Sanctuaries Act, Section 203; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, Section 311, Public Law 95-510; Clean Air Act, Section 103&104, Public Law 95-95, 42 U.S.C 7401; Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; Safe Drinking Water Act, Section 1442, Public Law 93-523; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 92-516, 7 U.S.C 136r&136u; Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6901; National Environmental Policy Act of 1969, Section 102(2)(F); Solid Waste Disposal Act, Section 8001; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 94-140, 7 U.S.C 136r&136u; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, Section 311, Public Law 99-499; Federal Insecticide,

Fungicide, and Rodenticide Act, Public Law 95-396, 7 U.S.C 136r&136u.

OBJECTIVES:

The Office of Research and Development (ORD) supports research and development to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) identify, develop, and demonstrate effective pollution control techniques; (3) perform risk assessments to characterize the potential adverse health effects of human exposures to environmental hazards; and (4) the facilitation of training and fellowships in these areas. Investigator initiated grants/cooperative agreements may be funded in broad areas such as environmental chemistry and physics, environmental engineering, and health and ecological effects of pollution. The ORD conducts leading-edge research to provide a solid underpinning of science and technology for the Agency. Applied research builds our understanding of how to protect and enhance the relationship between humans and the ecosystems of earth. ORD conducts a comprehensive research program to protect air, water, land, and human health and ecosystems, to improve environmental compliance and stewardship, and to conduct and promote coordination and acceleration of training for individuals relating to the protection and enhancement of the relationship between humans and the ecosystems of earth as well as to improve environmental compliance and stewardship.

Funding Priority - Fiscal Year 2014: ORD's research supports EPA's strategic goals. Brief descriptions of this research are as follows: 1) Air climate and energy research assess human and ecosystem exposures and effects associated with air pollutants and climate change. Working with other Federal and state agencies, major universities and institutions, and the private sector, this research provides the scientific tools, metrics, and information on air pollution exposure necessary for individuals, communities, and governmental agencies to make public health decisions related to air quality and climate change; 2) Safe and sustainable water research provides the resource management tools that allow decision makers to systematically consider complex tradeoffs occurring in a watershed on a regional or national scale. These tools are based on an improved understanding of the impacts of environmental stresses such as waterborne chemicals and microbial contaminants on aquatic systems and the potential impacts of anthropogenic processes such as hydraulic fracturing. This research will also address issues related to the nation's aging water infrastructure; high priority water quality and availability research; and promising approaches such as green infrastructure; 3) Sustainable and healthy communities research program supports the Agency's effort to protect and restore land, and support community health. This research focuses on developing data and tools for forecasting and assessing ecological and community health, designing near-term approaches for sustainable solutions to address environmental contaminants present in communities, and developing sustainable practices to help communities manage waste and materials; infrastructure, energy and water; transportation; and planning and zoning for buildings and land use; and 4) Chemical safety and sustainability research underpins the analysis of risks and potential health impacts across the broad spectrum of EPA programs and provides the scientific foundation for pesticide and toxic substances programs, pollution prevention, human health risk assessment, and homeland security. Specifically, this research allows the Agency to more quickly, efficiently, and cost-effectively assess potential chemical toxicity; develop integrated health hazard and dose-response assessments that support Agency decisions related to chemical safety; improve the Agency's preparedness, response, and recovery capabilities for homeland security incidents and other hazards.

Funding Priority - Fiscal Year 2015: ORD's research supports EPA's strategic goals. Brief descriptions of this research are as follows: 1) Air climate and energy research assess human and ecosystem exposures and effects associated with air pollutants and climate change. Working with other Federal and state agencies, major universities and institutions, and the private sector, this research provides the scientific tools, metrics, and information on air pollution exposure necessary for individuals, communities, and governmental agencies to make public health decisions related to air quality and climate change; 2) Safe and sustainable water research provides the resource management tools that allow decision makers to systematically consider complex tradeoffs occurring in a watershed on a regional or national scale. These tools are based on an

improved understanding of the impacts of environmental stresses such as waterborne chemicals and microbial contaminants on aquatic systems and the potential impacts of anthropogenic processes such as hydraulic fracturing. This research will also address issues related to the nation's aging water infrastructure; high priority water quality and availability research; and promising approaches such as green infrastructure; 3) Sustainable and healthy communities research program supports the Agency's effort to protect and restore land, and support community health. This research focuses on developing data and tools for forecasting and assessing ecological and community health, designing near-term approaches for sustainable solutions to address environmental contaminants present in communities, and developing sustainable practices to help communities manage waste and materials; infrastructure, energy and water; transportation; and planning and zoning for buildings and land use; and 4) Chemical safety and sustainability research underpins the analysis of risks and potential health impacts across the broad spectrum of EPA programs and provides the scientific foundation for pesticide and toxic substances programs, pollution prevention, human health risk assessment, and homeland security. Specifically, this research allows the Agency to more quickly, efficiently, and cost-effectively assess potential chemical toxicity; develop integrated health hazard and dose-response assessments that support Agency decisions related to chemical safety; improve the Agency's preparedness, response, and recovery capabilities for homeland security incidents and other hazards.

Funding Priority - Fiscal Year 2016: ORD's research supports EPA's strategic goals. Brief descriptions of this research are as follows: 1) Air climate and energy research assess human and ecosystem exposures and effects associated with air pollutants and climate change. Working with other Federal and state agencies, major universities and institutions, and the private sector, this research provides the scientific tools, metrics, and information on air pollution exposure necessary for individuals, communities, and governmental agencies to make public health decisions related to air quality and climate change; 2) Safe and sustainable water research provides the resource management tools that allow decision makers to systematically consider complex tradeoffs occurring in a watershed on a regional or national scale. TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with the established policies of EPA. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

These programs are available to each State, territory and possession, and Tribal nation of the U.S., including the District of Columbia, for public and private State universities and colleges, hospitals, laboratories, State and local government departments, other public or private nonprofit institutions, and in some cases, individuals or foreign entities. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program.

Eligible nonprofit organizations include any organizations that: 1) Are operated primarily for scientific, educational, service, charitable or similar purposes in the public interest; 2) Are not organized primarily for profit; and 3) Use its net proceeds to maintain, improve, and/or expand its operations. However, nonprofit organizations described in Section 501(c) (4) of the Internal Revenue Code that lobby are not eligible to apply.

National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its assistance agreement from the EPA to an FFRDC for research personnel, supplies, equipment, and other expenses directly related to the research. However, salaries for permanent FFRDC employees may not be provided through this mechanism.

Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on an assistance agreement, and may not receive salaries or augment their Agency's appropriations in other ways through awards made under this program.

The applicant institution may enter into an agreement with a Federal Agency to purchase or utilize unique supplies or services unavailable in the private sector to the extent authorized by law. Examples are purchase of satellite data, chemical reference standards, analyses, or use of instrumentation or other facilities not available elsewhere. A written justification for federal involvement must be included in the application. In addition, an appropriate form of assurance that documents the commitment, such as a letter of intent from the Federal Agency involved, should be included.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; anyone/general public; education professionals; students/trainees; graduate students; scientists/researchers; hospitals; foreign entities; and individuals.

Credentials/Documentation:

The EPA may request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out the research. EPA may ask applicants to provide curriculum vitae and relevant publications. EPA may also ask the lead principal investigator/contact principal investigator for information documenting past performance. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally

specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Policy Act. The standard application forms as furnished by the EPA and required by OMB Circulars No. A-102 and No. A-110 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Competitive RFAs (requests for applications) or RFPs (requests for initial proposals) for grants in these areas are announced widely through the Internet, university and scientific organizations, among other mechanisms. Although the programs identified are the formal assistance programs that ORD funds, there are periodic RFAs disseminated on other topics that are not part of the formal program. These new programs are also part of 66.511 but cannot be presently identified. Funds may be available to support research activities including but not limited to experiments, surveys, studies, investigations, public education programs, and monitoring where authorized by specific statutes, in both science and engineering disciplines. Funds may also be used for training and fellowships. Please check the Federal Register or the EPA/ORD website <http://www.epa.gov/ord/htm/grantopportunity.htm> for an updated listing of these programs. Completed applications must be submitted to the appropriate Grants Management Office at the Environmental Protection Agency or as shown in the specific RFAs, which are accessible through the EPA/ORD website at <http://www.epa.gov/ord/htm/grantopportunity.htm>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified about award decisions within six months of the solicitation deadline. After being recommended for award, applicants will be required to submit additional certifications and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients

will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The Office of Research and Development reserves the right to impose a cost share requirement under certain competitions. See RFAs for additional information pertaining to matching/cost share requirements

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants/cooperative agreements are normally funded on a 12-month basis (annual). Total approved project period may not exceed 5 years for research and 3 years for training agreements. See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in 2 CFR 200 and 1500. A discussion of expenditures is required in progress reports under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Part 200 apply. Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$21,900,000; FY 15 est \$16,800,000; and FY 16 est \$17,000,000 - FY 2014 actuals 21,900,000, FY 2015 estimates 16,800,000 FY 2016 \$17,000,000.

Range and Average of Financial Assistance:

Awards range for new grants/cooperative agreements is not available at this time. It will be made available prior to final acceptance.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Two (est.) grants/cooperative agreements are to be awarded in FY 14. Data of the number of applications received are not available. Summary information of the funded research is available in the EPA Grant Awards Database,

http://yosemite.epa.gov/oarm/igms_egf.nsf/HomePage?ReadForm. Fiscal Year 2015: Six awards (grants/cooperative agreements) are estimated for FY 2015 covering topics such as these: Forest Watershed Management Practices for Drinking Water Quality; Sustainable Drinking Water Management Practices Under Drought & Climate Change; Preparing for Water Scarcity; Health Effects of Environmental Pollutants; and Health Effects Research. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200 & 2 CFR Part 1500 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) and Research and Demonstration Grant Regulations, Environmental Protection Agency (40 CFR Part 40).

Regional or Local Office:

See Regional Agency Offices. Individuals are encouraged to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog or the contact listed on the RFA.

Headquarters Office:

John Nanartowicz III U.S. Environmental Protection Agency, 1301 Pennsylvania Ave., NW, Washington, District of Columbia 20460 Email: nanartowicz.john@epa.gov Phone: 202-564-4756

Website Address:

<http://www.epa.gov/ord/htm/grantopportunity.htm>

RELATED PROGRAMS:

66.509 Science To Achieve Results (STAR) Research Program; 66.510 Surveys, Studies, Investigations and Special Purpose Grants within the Office of Research and Development

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1) A project will evaluate subsurface release of oil and chemically dispersed oil using the flow-through wave tank facility at the Bedford Institute of Oceanography, Department of Fisheries and Oceans Canada (DFO). The main objectives are to assess a) dispersant effectiveness, b) in-situ oil droplet size distribution, c) the use of numerical modeling to verify the utility of subsurface dispersant application as an oil spill response option for deep water blowouts. Results of the project will provide oil spill responders with adequate information to make decisions on the best countermeasures to implement during a subsurface oil release, and the modeling capabilities that are available to predict oil trajectory. Fiscal Year 2015: 1) Develop an improved system-wide quality and quantity model of the Jordan River watershed that can be used by stakeholders to improve sustainable planning efforts related to water supply and demand forecasting, TMDL planning and implementation, policy decisions related to urban growth and water projects, and public education and outreach; 2) Examine effects of different forest fire reduction management techniques in an experimental coniferous forested watershed, particularly associated with rainstorm events following droughts, and their effect on treated drinking water supplies; 3) Develop an integrated framework that enables the assessment of water quality and availability impacts under a suite of climate and natural hazards in the supply watershed, along with evaluation of decision options. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.513 GREATER RESEARCH OPPORTUNITIES (GRO) FELLOWSHIPS FOR UNDERGRADUATE ENVIRONMENTAL STUDY FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Clean Air Act, Section 103, 42 U.S.C 7403; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; National Environmental Policy Act of 1969, Section 102(2)(F); Clean Water Act, Section 104, 33 U.S.C 1254; Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Toxic Substances Control Act, Section 10, 15 U.S.C 2609.

OBJECTIVES:

The National Center for Environmental Research (NCER) offers undergraduate fellowships to students in environmentally related fields of study. This program is intended to strengthen the environmental research capacity of institutions of higher education that receive limited funding to build such capacity.

Funding Priority - Fiscal Year 2014: The Greater Research Opportunities Fellowship Program will support undergraduate fellowships in the following areas: Natural and Life Sciences (includes pollution prevention and/or control-related study in Biology, Ecology, Microbiology, Molecular Sciences, etc.); Environmental Sciences and Interdisciplinary Programs (includes pollution prevention and/or control-related study in Environmental Studies, Urban Sustainability and Land Use Planning, Environmental Health, Environmental Policy, Environmental Education, Native/Tribal Environmental Science, etc.); Engineering (includes pollution prevention and/or control-related study in Environmental Engineering, Waste Management, Green Building Engineering, Biotechnology, etc.); Social Sciences (includes pollution prevention and/or control-related study in Economics, International Environmental Studies, Anthropology, Sociology, Psychology, Environmental Justice, etc.); Physical Sciences and Earth Sciences (includes pollution prevention and/or control-related study in Atmospheric Sciences, Chemistry, Geology, Geography, Biogeochemistry, Water Quality, etc.); Mathematics and Computer Science (includes pollution prevention and/or control-related study in Environmental Information Science, Mathematics and Statistics, Bioinformatics, etc.).

Funding Priority - Fiscal Year 2015: The Greater Research Opportunities Fellowship Program will support undergraduate fellowships in the following areas: Natural and Life Sciences, Environmental Sciences and Interdisciplinary Programs, Engineering, Social Sciences, Physical Sciences and Earth Sciences, and Mathematics and Computer Science.

Funding Priority - Fiscal Year 2016: The Greater Research Opportunities Fellowship Program will support undergraduate fellowships in the following areas: Natural and Life Sciences, Environmental Sciences and Interdisciplinary Programs, Engineering, Social Sciences, Physical Sciences and Earth Sciences, and Mathematics and Computer Science.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Fellowship awards are made in response to a competitive solicitation. Funds are to provide resources to allow for fellowships related to environmental issues. No matching funds are required. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Applicants must attend a fully accredited four-year U.S. college or university (located in the U.S. or its territories) for the fellowship period. Individuals must be citizens of the U.S. or its territories or possessions, or be lawfully admitted to the U.S. for permanent residence. You must have your green card at the time of application to be eligible for this Fellowship opportunity. Do not provide the

green card number with your application; however, you may be asked to provide it at a later time to verify eligibility with the U.S. Citizenship and Immigration Service of the Department of Homeland Security.

The GRO Undergraduate Fellowship is intended for students entering their last two years of full time study before obtaining their first bachelor's degree. Students who have already earned one bachelor's degree and are pursuing additional degrees are not eligible. The fellowship tenure is for 2 full academic years (9 months each) with a required paid summer internship after their first year. Thus, only students who will be entering their last two years of college will be considered eligible.

In order to receive the fellowship, the student must attend a fully accredited four-year U.S. institution of higher education. This school must be among those that are not highly funded for research and development capacity. For the purposes of this solicitation, students attending those institutions receiving more than \$35 million in annual federal research and development funding are ineligible to apply under this solicitation. Institutions who exceed this threshold can be identified in the National Science Foundation's publication "Federal Science and Engineering Support to Universities, Colleges, and Nonprofit Institutions: FY 2012," Page 37, Table 12, column 2. These data can be found at <http://www.nsf.gov/statistics/2015/nsf15305/pdf/nsf15305.pdf>.

Students attending those institutions either not listed, or listed as having received \$35 million or less as designated in column 2 of Table 12 are eligible to apply.

Students attending two-year institutions, community colleges, and those not in attendance at an institution of higher education at the time of application submittal may be eligible to apply. However, in order to be eligible to receive the fellowship, students attending two-year institutions, community colleges, or those not in attendance at the time of application will need to show evidence of having received their Associate's degree, demonstrate that they only have two years left of undergraduate studies for completion of their Bachelor's degree, and will also need to demonstrate that they have been accepted to attend an accredited eligible four-year institution. This requirement is considered satisfied if the student is transferring to an accredited eligible four-year institution which has an Articulation Agreement with the two-year institution, thus meaning that all credits will transfer towards requirements for the Bachelor's degree. An Articulation Agreement is a signed contract between a community or technical college and a four-year college or university that guarantees that a student who earns an associate's degree at a participating two-year institution can transfer all of the general education core credits to the four-year institution toward the completion of baccalaureate degree requirements. More information can usually be obtained directly from the institution's Registrar. Alternately, a student with an Associate's degree may provide a letter from the Registrar of the accredited eligible four-year institution verifying that upon matriculation, the student will only have two remaining years of undergraduate study to complete the first Bachelor's degree.

Students must be pursuing a bachelor's degree in an environmentally-related field, such as biology, health, the social sciences, or engineering. Students must have two (2) years remaining from the start of the Fall semester (Fall 2015) before receiving their initial bachelor's degree. Students must have at least a "B" average overall at the time of application submittal and during the tenure of the fellowship.

Applicants who currently have another federal fellowship are not eligible. However, acceptance of a fellowship under this solicitation does not necessarily preclude acceptance of another private, state, regional, local, or non-profit scholarship, fellowship, traineeship, research assistantship, teaching assistantship, or grant aid.

Employees of the U.S. government may apply, but must be able to prove separation from Federal service before accepting this fellowship.

Applications must be submitted by the student. Applications submitted by the institution on behalf of the student will be rejected without review.

The exact term (start and end dates) of the undergraduate fellowship is negotiated with the student and covers a period of nine months for each fellowship year. Students seeking a bachelor's degree may be supported for a maximum of two academic years.

EPA recognizes that scientific, technical, engineering and mathematical (STEM) competence is essential to the Nation's future well-being in terms of national security and competitive economic advantage. For instance, the health and vitality of the economy is predicated, in part, on the availability of an adequate supply of scientists, technicians, engineers and mathematicians, to develop innovative technologies and solutions. In other words, this country must engage all available minds to address the challenges it faces. Minorities, women, and persons with disabilities historically have been under-represented in the STEM fields. For this reason, EPA strongly encourages women, minorities, and persons with disabilities to apply.

Beneficiary Eligibility:

Individual/Family; Student/Trainee.

Credentials/Documentation:

EPA may request that fellows document their affiliation with an eligible institution. The EPA may also request that applicants demonstrate they have appropriate background, academic training, and experience in the field to carry out the fellowship. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. NCER invites applications for undergraduate fellowships in academic disciplines including engineering, environmental science, and physical science. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

For regular mail, completed paper applications must be submitted to the

following address: U.S. Environmental Protection Agency, Peer Review Division (8725P); Funding Opportunity Number: (include appropriate number as shown in the solicitation), 1200 Pennsylvania Avenue, NW, Washington, DC 20460. For express mail and couriers, completed paper applications must be submitted to the following address: U.S. Environmental Protection Agency, Peer Review Division (8725P), Funding Opportunity Number: (include appropriate number as shown in the solicitation); 2777 Crystal Drive (One Potomac Yards), 6th Floor South Building, Arlington, VA 22202. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately three to six months from the close of the solicitation

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of the fellowship is negotiated with the student and covers a period of nine months for each fellowship year. Students seeking a bachelor's degree may be supported for a maximum of two years. The official notification of an award will be made by the EPA's Grants and Interagency Agreement Management Division. See the following for information on how assistance is awarded/released: Assistance is fully funded (lump sum).

Reports:

No program reports are required. No cash reports are required. No progress reports are required. No expenditure reports are required. EPA includes reporting requirements for fellowships in the terms and conditions of the agreements. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 46 are applicable. All records related to a fellowship agreement must be maintained for three years after the

completion date inserted on the "Completion of Studies Notice" (EPA Form 5770-9). EPA, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, has the right of timely and unrestricted access to documents, papers, or other records related to a fellowship, in order to make audits, examinations, excerpts, transcripts and copies of such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$1,100,000; FY 15 est \$1,500,000; and FY 16 est \$0 - FY 14 \$1,100,000; FY 15 est. \$1,500,000; FY 16 est. \$0.

Range and Average of Financial Assistance:

The undergraduate fellowship provides up to \$20,700 per year of academic support and \$8,600 for internship support for a combined total of up to \$50,000 over the life of the fellowship. Awards average \$50,000.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Applications received for the Greater Research Opportunities Undergraduate Fellowship Program- FY 14: 90. New awards for the Greater Research Opportunities Undergraduate Fellowship Program-FY 14: 21. Fiscal Year 2015: Applications received for the Greater Research Opportunities Undergraduate Fellowship Program- FY 15: 109. New awards for the Greater Research Opportunities Undergraduate Fellowship Program-FY 15 est.: 13. Fiscal Year 2016: No Current Data Available

RELATED PROGRAMS:

66.514 Science To Achieve Results (STAR) Fellowship Program

EXAMPLES OF FUNDED PROJECTS:

- Fiscal Year 2014: 1. Support student's education in the field of civil engineering. Student's research interests include recycling wastewater to augment drinking water supplies.
2. Support student's education in the field of environmental policy and planning. Student's research interests include exploring the impacts of conventional farming practices in regards to watershed management, soil quality and erosion, and loss of biodiversity as a result of pesticide contamination, as well as eutrophication attributed to fertilizer runoff.
3. Support student's education in the field of sustainability studies. Student's research interests include the issue of pesticide control as a result of organic farming, integrated pest management, or a combination of the two.
4. Support student's education in the field of chemistry. Student's research interests include water purification.
5. Support student's education in the field of biology. Student's research interests include the impact of water pollution on the growth, development and vitality of marine organisms. Fiscal Year 2015: Information for FY 2015 is not yet available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. See the Web page (<http://www.epa.gov/ncer>) for additional information on the evaluative criteria for the RFAs.

66.514 SCIENCE TO ACHIEVE RESULTS (STAR) FELLOWSHIP PROGRAM

FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Clean Air Act, Section 103, 42 U.S.C 7403; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Clean Water Act, Section 104, 33 U.S.C 1254; National Environmental Policy Act of 1969, Section 102(2)(F); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981.

OBJECTIVES:

The National Center for Environmental Research (NCER), as part of its Science to Achieve Results (STAR) program, offers graduate fellowships for master's and doctoral level students in environmentally related fields of study. The purpose of the fellowship program is to encourage promising students to obtain advanced degrees and pursue careers in environmentally related fields. This goal is consistent with the mission of EPA, which is to provide leadership in the nation's environmental science, research, education, assessment, restoration, and preservation efforts. This program will benefit both the public and private sectors which will need a steady stream of well-trained environmental specialists if society is to meet the environmental challenges of the future. These fellowships are intended to help defray costs associated with advanced environmentally-oriented study leading to a master's or doctoral degree.

Funding Priority - Fiscal Year 2014

A solicitation for this program has not been issued

Funding Priority - Fiscal Year 2015: The STAR Fellowship Program will support graduate fellowships in the following areas: Emerging Environmental Approaches & Challenges: Environmental Innovation, Information Science, Synthetic Biology for Environmental Purposes; Air, Climate & Energy: Clean Air, Global Change, Green Energy/Natural Resources Production & Use; Chemical Safety for Sustainability: Adverse Impacts from Exposures to Endocrine Disrupting Compounds, Environmental Health and Safety of Engineered Nanomaterials, Computational Chemistry for Predictive Toxicology, Communicating and Translating Emerging Science for Evaluating Impacts of Chemicals; Human Health Risk Assessment: Public Health, Risk Assessment and Risk Management; Safe and Sustainable Water Resources: Drinking Water, Water Quality--Coastal and Estuarine Processes, Water Quality - Hydrogeology and Surface Water; Sustainable and Healthy Communities: Multidisciplinary Approaches To Optimize Decision Outcomes, Tribes and American Indian/Alaska Native/Pacific Islander Communities.

Funding Priority - Fiscal Year 2016: The STAR Fellowship Program will support graduate fellowships in the following areas: Emerging Environmental Approaches & Challenges: Environmental Innovation, Information Science, Synthetic Biology for Environmental Purposes; Air, Climate & Energy: Clean Air, Global Change, Green Energy/Natural Resources Production & Use; Chemical Safety for Sustainability: Adverse Impacts from Exposures to Endocrine Disrupting Compounds, Environmental Health and Safety of Engineered Nanomaterials, Computational Chemistry for Predictive Toxicology, Communicating and Translating Emerging Science for Evaluating Impacts of Chemicals; Human Health Risk Assessment: Public Health, Risk Assessment and Risk Management; Safe and Sustainable Water Resources: Drinking Water, Water Quality--Coastal and Estuarine Processes, Water Quality - Hydrogeology and Surface Water; Sustainable and Healthy Communities: Multidisciplinary Approaches To Optimize Decision Outcomes, Tribes and American Indian/Alaska Native/Pacific Islander Communities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All STAR fellowship awards are made in response to a competitive solicitation. Funds are to provide resources to allow for fellowships related to environmental issues. No matching funds are required. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Applicants must attend a fully accredited U.S. college or university (located in the U.S. or its territories) for their graduate studies. Individuals must be citizens of the U.S. or its territories or possessions, or be lawfully admitted to the U.S. for permanent residence. Resident aliens must have their green card at the time of application to be eligible for this fellowship opportunity. Do not provide the green card number with your application; however, you may be asked to provide it at a later time to verify eligibility with the U.S. Citizenship and Immigration Service of the Department of Homeland Security.

Applicants do not need to be enrolled in or formally accepted into a full time graduate program at the time they apply for a fellowship, but proof of enrollment or acceptance must be produced prior to the award of the fellowship. To be eligible for this fellowship, applicants must be pursuing a master's or doctoral degree in an environmentally-related topic area at a fully accredited U.S. college or university (based in the U.S. or its territories).

Applicants who are in a graduate program at the time of application and meet either of the following two criteria as of the solicitation closing date ARE NOT eligible to receive a fellowship: 1) have completed more than one year in their current master's program; or 2) have completed more than four years in their current doctoral program. However, applicants enrolled in a master's program who intend to pursue a doctoral degree beginning in the fall of 2015 may apply for a doctoral fellowship.

Applicants who currently have another federal fellowship are not eligible. However, acceptance of a fellowship under this announcement does not necessarily preclude acceptance of another private, state, regional, local, or non-profit scholarship, fellowship, traineeship, research assistantship, teaching assistantship, or grant aid.

Employees of the U.S. government may apply, but must be able to prove separation from Federal service before accepting this fellowship.

Applications must be submitted by the student. Applications submitted by the institution on behalf of the student will be rejected without review.

EPA recognizes that scientific, technical, engineering and mathematical (STEM) competence is essential to the Nation's future well-being in terms of national security and competitive economic advantage. For instance, the health and vitality of the economy is predicated, in part, on the availability of an adequate supply of scientists, technicians, engineers and mathematicians, to develop innovative technologies and solutions. In other words, this country must engage all available minds to address the challenges it faces. Minorities, women, and persons with disabilities historically have been under-represented in the STEM fields. For this reason, EPA strongly encourages women, minorities, persons with disabilities and MAI applicants as described in Section

I.A. of the solicitation

(http://www.epa.gov/ncer/rfa/2015/2015_star_gradfellow.html#Introduction) to apply.

Beneficiary Eligibility:

Individual/Family; Student/Trainee and Graduate Student.

Credentials/Documentation:

EPA may request that fellows document their affiliation with an eligible institution. The EPA may also request that applicants demonstrate they have appropriate background, academic training, and experience in the field to carry out the fellowship. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. NCER invites applications for graduate fellowships in academic disciplines relating to environmental research including engineering, public health, and ecological sciences. An application provides the information needed for the review of its merit. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Specific details on the application process are described in the solicitations which are located at: <http://www.epa.gov/ncer>. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately three to six months from the close of the solicitation.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The term of a graduate fellowship is negotiated with students and customarily covers a period of 9 to 12 months for each fellowship year. Students seeking a master's degree may be supported for a maximum of two years. Students seeking doctoral degrees may receive support for a maximum of three years, available over a period of four years. If selected to receive a fellowship, the fellow will be contacted no later than 3-6 months after the close of the solicitation and should subsequently receive official notification of award by no

later than 3-6 months after the close of the solicitation for the fall term. Please note that this schedule may be changed without notification due to factors that were not anticipated at the time of announcement. The official notification of an award will be made by the EPA's Grants and Interagency Agreement Management Division. See the following for information on how assistance is awarded/released: Assistance is incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. Fellowship recipients must provide annual progress reports in order to retain their funding, and must provide a final report upon termination of the award. In the spring of each fellowship year, the fellow will need to provide documentation (letter from sponsor, current copy of transcript, updated project synopsis, updated technical abstract, etc.). No expenditure reports are required. EPA includes reporting requirements for fellowships in the terms and conditions of the agreements. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 40 CFR Part 46 are applicable. All records related to a fellowship agreement must be maintained for three years after the completion date inserted on the "Completion of Studies Notice" (EPA Form 5770-9). EPA, the Inspector General, Comptroller General of the United States, or any of their duly authorized representatives, has the right of timely and unrestricted access to documents, papers, or other records related to a fellowship, in order to make audits, examinations, excerpts, transcripts and copies of such documents. The rights of access in this paragraph are not limited to the required retention period, but shall last as long as records are retained.

In the spring of each fellowship year, the fellow will need to provide documentation (letter from sponsor, current copy of transcript, updated project synopsis, updated technical abstract, etc.).

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$8,000,000; FY 15 est \$7,200,000; and FY 16 est \$0 - FY 2014 actuals \$8,000,000, FY 2015 estimate \$7,200,000, FY 2016 estimate \$0.

Range and Average of Financial Assistance:

A maximum of \$84,000 (\$42,000/year) will be provided for master's fellows (two years) and up to \$126,000 (three years) for doctoral fellows. Awards range from \$55,000 to \$126,000 total per fellowship and average \$80,000.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Applications received for the STAR Fellowship Program: FY 14: 0. New Awards for the STAR Fellowship Program: FY 14: 100. Fiscal Year 2015: Applications received for the STAR Fellowship Program: FY 15: 1392. New Awards for the STAR Fellowship Program: FY 15: Information not yet available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Fellowship Regulations, Environmental Protection Agency (40 CFR Part 46).

Regional or Local Office:

See Regional Agency Offices. Applicants are encouraged to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog or the contact listed in the solicitation. The solicitation is located at:

<http://www.epa.gov/ncer>.

Headquarters Office:

Brandon Jones, USEPA, Potomac Yards South, 2777 Crystal Drive, Rm# S11772, Arlington, Virginia 22202 Email: jones.brandon@epa.gov Phone: 703-347-8053

<http://www.epa.gov/ncer>

RELATED PROGRAMS:

66.513 Greater Research Opportunities (GRO) Fellowships For Undergraduate/Graduate Environmental Study

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1. Develop the science and technology of sorption processes for simultaneous removal of such inorganic pollutants as hexavalent chromium, arsenic and nitrate. Develop a testing protocol and evaluation methodology, create new sorbents and mechanistically understand how the simultaneous removal occurs.

2. Employ reproductive assays to identify thresholds of low dissolved oxygen (hypoxia) on endocrine function.

3. Investigate soil feedbacks to nitrogen deposition through analysis of soil trace gas emissions of NOx, N2O and CO2 along an anthropogenic nitrogen deposition gradient.

4. Address whether landscape simplification drives insecticide use and identify what explains year-to-year variation in insecticide and pesticide use in the United States.

5. Evaluate the current knowledge of secondary organic aerosol (SOA) sources (biogenic and anthropogenic) and quantify the amount and chemistry of SOA formation as a function of oxidant exposure. Fiscal Year 2015: Information for FY 2015 is not yet available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. See the Web page (<http://www.epa.gov/ncer>) for additional information on the evaluative criteria for this RFA.

66.516 P3 AWARD: NATIONAL STUDENT DESIGN COMPETITION FOR SUSTAINABILITY

P3 Award: A National Student Design Competition for Sustainability Focusing on People, Prosperity and the Planet

FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r; Clean Water Act, Section 104, 33 U.S.C 1254; Clean Air Act, Section 103, 42 U.S.C 7403; National Environmental Policy Act of 1969, Section 102(2)(F).

OBJECTIVES:

The U.S. Environmental Protection Agency (EPA), as part of the P3-People, Prosperity and the Planet Award Program, is seeking applications proposing to research, develop, and design solutions to real world challenges involving the overall sustainability of human society. The P3 competition highlights the use of scientific principles in creating innovative projects focused on sustainability. The P3 Award program was developed to foster progress toward sustainability by achieving the mutual goals of economic prosperity, protection of the planet, and improved quality of life for its people-- people, prosperity, and the planet - the three pillars of sustainability. The EPA offers the P3 competition in order to respond to the technical needs of the world while moving towards the goal of sustainability.

The P3 Award Program is composed of two phases that award grants on a

competitive basis. The first phase of the P3 Award Program is a competition for one-year grants of up to \$15,000 to test, research and develop innovative scientific projects or engineering designs that will promote sustainable development. Challenges from a wide range of categories will be considered. These include: Energy; Built Environment; Materials and Chemicals; and Water.

In the spring following Phase I grant awards, Phase I grantees are required to present their designs at the National Sustainable Design Expo, where they will have an opportunity to compete for Phase II grant awards of up to \$75,000. The Phase II grant awards are to support the demonstration and further development of the sustainability projects/designs created in the first phase of the program. The competitors for the P3 Phase II grants will be limited to those selected to receive support as a result of the Phase I competition.

Funding Priority - Fiscal Year 2014: The United States Environmental Protection Agency (EPA) invites submissions to the P3 Award: A National Student Design Competition for Sustainability. The P3 Program is intended to support science-based projects and designs developed by interdisciplinary student teams that benefit people by improving their quality of life, promote prosperity by developing local economies, and protect the planet by conserving resources and minimizing pollution.

The P3 Award Program is composed of two phases that award grants on a competitive basis. The first phase of the P3 Award Program is a competition for one-year grants of up to \$15,000 to test, research and develop innovative scientific projects or engineering designs that will promote sustainable development. Challenges from a wide range of categories will be considered. These include: Energy; Built Environment; Materials and Chemicals; Water; Urban Green Water Infrastructure; and Clean Cookstoves.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Awards are made in response to an announced competitive request for applications (RFA). Funds awarded via grant agreements are available for allowable direct cost expenditures incident to the performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Public nonprofit institutions/organizations (limited to degree-granting public institutions of higher education) and private nonprofit institutions/organizations (limited to degree-granting private institutions of higher education) located in the U.S. (includes eligible institutions of higher education located in U.S. territories and possessions) are eligible to apply to be the recipient of a grant to support teams of undergraduate and/or graduate students. State and local governments, Federally Recognized Indian Tribal Governments, and U.S. territories or possessions are not eligible to apply. Profit-making firms are not eligible to receive assistance agreements from the EPA under this program.

The students on the teams supported by the institution receiving the grant must be enrolled in the college, university, or post-secondary educational institution they will be representing at the time the proposal is submitted. Institutions are allowed to submit more than one application where each application represents a unique design concept and student team. For the purposes of grant administration, the team's faculty advisor will be designated the Principal Investigator throughout the P3 grant award and competition process. In addition to the Principal Investigator, each team selected for award will also be asked to provide contact information for a student lead.

Eligible nonprofit organizations include research institutes, corporations, or foundations that are part of a U.S. institution of higher education. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that lobby are not eligible to apply.

Foreign governments, international organizations, and non-governmental international organizations/institutions are not eligible to apply.

National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its assistance agreement from the EPA to an FFRDC for supplies, equipment, and other expenses directly related to the research. However, salaries for permanent FFRDC employees may not be provided through this mechanism.

Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on an assistance agreement, and may not receive salaries or augment their Agency's appropriations in other ways through awards made under this program.

The applicant institution may enter into an agreement with a Federal Agency to purchase or utilize unique supplies or services unavailable in the private sector. Examples are purchase of satellite data, chemical reference standards, analyses, or use of instrumentation or other facilities not available elsewhere. A written justification for federal involvement must be included in the application. In addition, an appropriate form of assurance that documents the commitment, such as a letter of intent from the Federal Agency involved, should be included.

Beneficiary Eligibility:

Public Nonprofit Institutions/Organizations, Private Nonprofit Institutions/Organizations, Anyone/General Public, Education Professional, Student/Trainee, Graduate Student, Scientists/Researchers.

Credentials/Documentation:

EPA may request that students document their affiliation with an eligible institution. The EPA may also request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out the research. EPA may ask principal investigators for information documenting past performance. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Policy Act. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for

Federal Awards. This program is subject to the provisions of 2 CFR Part 200 & 2 CFR Part 1500. Specific details on the application process are described in the solicitation which is located at: <http://www.epa.gov/ncer/p3>. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Customarily, applicants are notified of award decisions within six months of the close of the RFA. After being recommended for award, applicants will be required to submit additional certifications and an electronic version of the revised project abstract, and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, and/or make appropriate proposal revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. The official notification of an award will be made by the Agency's Grants and Interagency Agreement Management Division.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

P3 Awards will be fully funded. Project period for Phase I will normally not exceed 1 year. Project period for Phase II will normally not exceed 2 years. See the following for information on how assistance is awarded/released: Assistance is fully funded (lump sum).

Reports:

No program reports are required. No cash reports are required. Phase I Report, Phase II report, and invention reports as appropriate. Phase II awards require annual progress reports. No expenditure reports are required. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Part 200 apply. Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained

until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$1,200,000; FY 15 est \$1,000,000; and FY 16 est \$1,000,000 - FY 2014 actual \$1,200,000; FY 2015 estimate \$1,000,000; FY 2016 estimate \$1,000,000.

Range and Average of Financial Assistance:

Phase I Awards range from \$5,000 to \$15,000. Average awards total \$14,750. Phase II Awards range from \$87,600 to \$90,000. Average awards total \$89,000.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Applications received for the P3 Phase I Award: FY 14: 99. New awards for the P3 Phase I Award: FY 14: 42. Applications received for the P3 Phase II Award: FY 14: 35. New awards for the P3 Phase II Award: FY 14: 14. Abstracts of grant awards, and final summary results of the research will be available on the NCER P3 homepage: <http://www.epa.gov/ncer/p3/success/index.html>. Fiscal Year 2015: Applications received for the P3 Phase I Award: FY 15: 112. New awards for the P3 Phase I Award: FY 15: Information not yet available. Applications received for the P3 Phase II Award: FY 15: 41. New awards for the P3 Phase II Award: FY 15: Information not yet available. Abstracts of grant awards, and final summary results of the research will be available on the NCER P3 homepage: <http://www.epa.gov/ncer/p3/success/index.html>. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR Part 200 & 2 CFR Part 1500 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) and Research and Demonstration Grant Regulations, Environmental Protection Agency (40 CFR Part 40).

Regional or Local Office:

See Regional Agency Offices. Applicants are encouraged to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog or the contact listed on the solicitation. The solicitation may be found at: <http://www.epa.gov/ncer/p3>.

Headquarters Office:

Cynthia Nolt-Helms, USEPA Potomac Yards South, 2777 Crystal Drive, Rm# S11781, Arlington, Virginia 22202 Email: nolt-helms.cynthia@epa.gov Phone: 703-347-8102

Website Address:

<http://www.epa.gov/ncer/p3>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1. Continue the development a new class of safer surfactants with broader abilities to target soil/dirt, as a sustainable alternative to toxic Nonylphenol ethoxylates (NPEs), which have endocrine disruptors as degradation products.

2. Development of an inexpensive, multifunctional adsorbent material that will improve existing sand filtration technology to better remove a wide range of drinking water contaminants, including arsenic, other heavy metals, and organic contaminants.

3. Develop an advanced technology (low temperature combustion) for diesel engines that would lower Nitrogen Oxides (NOx) and Particulate Matter (PM) emissions while using biofuels produced from agricultural by-products.

4. Develop stand-alone stacked rapid sand filter to purify drinking water for communities in the developing world.

5. The goal of the project is: 1) to design, test, and implement an innovative, cost-effective sustainable system for treating contaminated waste-waters, 2) design a solar powered small-scale methanol recovery unit for the biodiesel process, and 3) continue outreach programs to high schools. Fiscal Year 2015: Information not yet available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. See the Web page (<http://www.epa.gov/ncer/p3>) for additional information on the evaluative criteria for this RFA.

66.517 REGIONAL APPLIED RESEARCH EFFORTS (RARE)

FEDERAL AGENCY:

Office of Research and Development (ORD), Environmental Protection Agency

AUTHORIZATION:

Toxic Substances Control Act, Section 10, Public Law 94-469, 15 U.S.C 2601; Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6981; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311, Public Law 95-510; Clean Air Act, Section 103&104, Public Law 95-95, 42 U.S.C 7401; Marine Protection, Research, and Sanctuaries Act, Section 203; Clean Water Act, Section 104, Public Law 95-217, 33 U.S.C 1251; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20&23, Public Law 92-516, 7 U.S.C 136&136u; National Environmental Policy Act of 1969, Section 102(2)(F); Safe Drinking Water Act, Section 1442, Public Law 93-523; Solid Waste Disposal Act, Section 8001; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 95-396, 7 U.S.C 136; Federal Insecticide, Fungicide, and Rodenticide Act, Public Law 94-140, 7 U.S.C 136; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311, Public Law 99-499.

OBJECTIVES:

To (1) support surveys, studies and investigations and special purpose assistance to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) identify, develop, and demonstrate effective pollution analysis, monitoring, and control techniques; and (3) fund innovative regional projects that address a stated problem or opportunity relating to sustainability and use science to inform design, planning and environmental decision-making.

Funding Priority-Fiscal Year 2014: FY 2014 Priorities include conducting high priority air pollutants research, ecological risk assessment, water quality, watersheds and drinking water research, research to improve human health (including children's) risk assessment, pollution prevention and new technologies/Economic and Social Science research. Support surveys, studies and investigations and special purpose assistance actions to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; and identify, develop, and demonstrate effective pollution control techniques and community applications will all be funded under this category.

Funding Priority-Fiscal Year 2015: FY 2015 Priorities include but are not limited to conducting high priority air pollutants research, ecological risk assessment, water quality, watersheds and drinking water research, research to improve human health (including children's) risk assessment, pollution prevention and new technologies/Economic and Social Science research. Support surveys, studies and investigations and special purpose assistance actions to determine the environmental effects of air quality, drinking water, water quality, hazardous waste, toxic substances, and pesticides; and identify, develop, and demonstrate effective pollution control techniques and community applications will all be funded under this category.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds awarded via grants/cooperative agreements are available for allowable direct cost expenditures incident to the performance of research plus allocable portions of allowable indirect costs of the institutions, in accordance with

established EPA policies and regulations. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

These programs are available to each State, territory and possession, and Tribal nation of the U.S., including the District of Columbia, for public and private State universities and colleges, hospitals, laboratories, State and local government departments, other public or private nonprofit institutions, and in some cases, individuals who have demonstrated unusually high scientific ability.

Beneficiary Eligibility:

Public nonprofit institutions/organizations and private nonprofit institutions/organizations; state and local governments; Federally Recognized Indian Tribal Governments; U.S. territories or possessions; Scientists/Researchers, Hospitals, and Individuals.

Credentials/Documentation:

No content available. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. When applicable, an environmental impact assessment is made by the Office of Research and Development as required by the National Environmental Policy Act. The standard application forms as furnished by the EPA and required by 2 CFR 200 and 1500 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. An environmental impact assessment is required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Funds may be available to support activities including but not limited to experiments, surveys, studies, investigations, public education programs, and monitoring where authorized by specific statutes, in both science and engineering disciplines. Please check the Federal Register or the EPA/ORD website <http://www.epa.gov/ord/htm/grantopportunity.htm> for an updated listing of these programs. Completed applications must be submitted to the appropriate laboratory, center or office within ORD specified in the announcement.

Award Procedure:

The official notification of an award will be made by the Agency's Grants and Interagency Agreements Management Division. Customarily, applicants are notified about award decisions within six months of the solicitation deadline. After being recommended for award, applicants will be required to submit additional certifications and may be requested to provide responses to comments or suggestions offered by the peer reviewers, a revised budget, past performance documentation, and/or make appropriate revisions. EPA Project Officers will contact Principal Investigators to obtain these materials. Before or after award, certain applicants will be expected to provide additional quality assurance documentation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are normally funded on a 12-month basis (annual). Total approved project period typically does not exceed 2 years. See the following for information on how assistance is awarded/released: Assistance is either fully funded (lump sum) or incrementally funded on an annual basis.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations, 2 CFR 200 and 1500. Progress reports are required under this program. A discussion of expenditures is required in progress reports under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0107-0-1-304.

Obligations:

(Project Grants) FY 14 \$200,000; FY 15 est \$100,000; and FY 16 est \$0 - FY 2014 actual \$200,000 FY 2015 estimate \$100,000, FY 2016 estimate \$0.

Range and Average of Financial Assistance:

New grants/cooperative agreements shall not exceed \$60,000.

TAFS Codes:

68-0107.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: 1) This project developed initial quantifications of the degree to which Pb is stabilized and As is mobilized due to phosphate application and assess the Pb stabilizing and As mobilizing capacity of an alternative amending agent such as compost or sewer sludge. The project team is continuing analysis to a) understand such effects for different types of soils, amendment applications, and drainage conditions; and c) evaluate the extent of Pb and As uptake by garden vegetables due to Pb stabilization and As mobilization in

phosphate and alternative amendments.

2) This project developed initial estimates of an air-basin level source-emissions characterizations to support prioritization of emission reductions from sources of black carbon and other climate relevant pollutants. The study team continued their evaluation.

3) These project supported further development and administration of the Tribe's Water Pollution Control, and Nonpoint Source Programs. Major activities include: conducting water quality monitoring and analysis; reducing nonpoint source erosion/sediment deposits into the nearby creek by conducting hill-slope restoration; conducting outreach and education to the community; and general administration of the Tribe's water quality management program. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures for new awards for the Environmental Protection Agency are in 2 CFR Parts 200 and 1500. Costs will be determined in accordance with 2 CFR Part 200, which supersedes all previous OMB Circulars.

Regional or Local Office:

See Regional Agency Offices. Individuals are encouraged to communicate with the appropriate EPA Regional office listed in Appendix IV of the Catalog.

66.518 STATE SENIOR ENVIRONMENTAL EMPLOYMENT PROGRAM

(SEE)

FEDERAL AGENCY:

Office of Administration and Resources Management, Environmental Protection Agency

AUTHORIZATION:

Environmental Programs Assistance Act of 1984, Public Law 98-313, 42 U.S.C 4368a.

OBJECTIVES:

To use the talents of Americans 55 years of age or older to provide technical assistance to State environmental agencies for projects of pollution prevention, abatement, and control to achieve the Agency's goals of Clean Air; Clean and Safe Water; Land Preservation and Restoration; Healthy Communities and

Ecosystems; and Compliance and Environmental Stewardship.

Funding Priority, Fiscal Year 2014: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with, private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control". "Technical assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for the coverage of all types of SEE program positions from professional to clerical.

Funding Priority, Fiscal Year 2015: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with, private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control". "Technical assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for the coverage of all types of SEE program positions from professional to clerical.

Funding Priority, Fiscal Year 2016: The Environmental Programs Assistance Act of 1984 (Pub. L. 98-313) authorized the Administrator of the EPA "to make grants to, or enter into cooperative agreements with, private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965." These cooperative agreements are to utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control". "Technical assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for the coverage of all types of SEE program positions from professional to clerical.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The SEE Act states that only nonprofit organizations which are designated by the Secretary of Labor under Title V of the Older Americans Act can participate. These cooperative agreements are to utilize the talents of older Americans in temporary full time or part time positions "providing technical assistance to Federal, State and local environmental agencies for projects of pollution prevention, abatement, and control."

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Private, nonprofit organizations designated by the Secretary of Labor under Title V of the Older Americans Act of 1965.

Beneficiary Eligibility:

State environmental agencies and individuals 55 years old or older.

Credentials/Documentation:

The Environmental Programs Assistance Act of 1984 requires a certification by the Federal, State, or local agency that is to receive the SEE workers that the

grant/cooperative agreement will not displace any Federal or State workers, prevent the rehiring of any laid-off Federal/State workers, or affect existing service contracts. This program is excluded from coverage under OMB 2 CFR 200 Subpart E. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is subject to the provisions of OMB 2 CFR 1500. This program is excluded from coverage under OMB 2 CFR 200. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Each application shall be subjected to administrative evaluation to determine adequacy of application in relation to assistance regulations and to program objectives.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance covers a period of one to three years and is awarded in increments during that period. See the following for information on how assistance is awarded/released: Assistance is awarded throughout the life of the Agreement to support ongoing activities.

Reports:

No program reports are required. Recipients must furnish quarterly reports on expenditures by cooperative agreement. Cash reports are required on a quarterly schedule. Progress reports are required on a quarterly schedule. Expenditure reports are required on a quarterly schedule. Performance monitoring is required as a normal part of Project Officer Post Award Monitoring.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of OMB 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in OMB 2 CFR 200.503.

Records:

Financial records, including all documents which support entries on accounting records and which substantiate changes to each assistance agreement, must be

kept available to personnel authorized to examine EPA assistance accounts. All records must be maintained until expiration of three years from the date of submission of the final financial status report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$280,000; FY 15 est \$250,000; and FY 16 est \$250,000 - (Grants) FY 2014 \$280,000; FY 2015 estimate \$250,000; FY 2016 estimate \$250,000.

Range and Average of Financial Assistance:

New awards and amendments: \$17,155 to \$280,000/FY 2014; Average \$148,578/FY2014; \$61,000 to 280,000/FY 2015; Average \$170,500/FY 2015.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In Fiscal Year 2014, 3 cooperative agreements/amendments were awarded. Fiscal Year 2015: As of April 30, 2015, 4 cooperative agreements/amendments were awarded. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

RELATED PROGRAMS:

66.508 Senior Environmental Employment Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Focus is on State level programs. Cooperative Agreements utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control". "Technical Assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for the coverage of all types of SEE program positions from professional to clerical. Fiscal Year 2015: Focus is on State level programs. Cooperative Agreements utilize the talents of older Americans in temporary, full time or part time positions "providing technical assistance to Federal, State, and local environmental agencies for projects of pollution prevention, abatement, and control". "Technical Assistance" may include any activity performed for the State in support of its projects ranging from inspections of large capacity cesspools, to support for a State Environmental staff office. This allows for the coverage of all types of SEE program positions from professional to clerical. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals must demonstrate that the Organizations have the capability of operating nationwide; can manage the program within the prescribed administrative funding limits; and can provide a quality fringe benefit package to enrollees under the proposal (including health insurance).

66.600 ENVIRONMENTAL PROTECTION CONSOLIDATED GRANTS FOR THE INSULAR AREAS - PROGRAM SUPPORT

(Consolidated Program Support Grants)

FEDERAL AGENCY:

Region 9, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 23(a)(1)&(a)(2); National Environmental Policy Act, Section 102(2)(F); Omnibus Territories Act, Public Law 95-134, 48 U.S.C 1469a; Safe Drinking Water Act, Section 1443(a)&1443(b); Clean Water Act, Section 104(b)(3)&106; Pollution Prevention Act, Section 6605; Solid Waste Disposal Act, 42 U.S.C 6908a; Toxic Substances Control Act, Section 28(a),404(g); Toxic Substances Control Act, Section 306; Clean Water Act, Section 319(h); Clean Water Act, Section 205(g)&205(j)2; Omnibus Territories Act, Public Law 95-348, 48 U.S.C 1469a; Brownfields Law, Section 128a, Public Law 107-118; Resource Conservation and Recovery Act; Omnibus Territories Act, Public Law 96-205, 48 Stat. 1469a; Omnibus Territories Act, Public Law 99-396, 48 U.S.C 1469a; Comprehensive Environmental Response, Compensation, and Liability Act, Public Law 96-510.

OBJECTIVES:

The consolidated program support grant is an alternative assistance delivery mechanism which allows an Insular Territory responsible for continuing pollution control programs to develop an integrated approach to pollution control. An agency eligible for assistance for two or more pollution control programs may consolidate its assistance requests into a single application and receive a single consolidated award in an effort to reduce administrative and application costs and recognize its own public health and environmental priorities for funding as authorized by the OTA. The consolidated grants program does not represent funding in addition to grants provided under individual authorities, but merely represents the amount of consolidation taking place within the Agency's total grant appropriations.

Funding Priority - Fiscal Year 2015:

Funding Priority for FY15 : This continuing environmental program grant and cooperative agreement (FY14 -18 grant period) supports and is consistent with EPA Strategic Goals 2 (Clean and Safe Water) and the Objectives 2.2 (Protect Water Quality) with Subobjective 2.2.1 (Improve Water Quality on a Watershed Basis); and Objective 2.1 (Protect Human Health) with Subobjective 2.1.1 (Water Safe To Drink). The EPA strategic goals, objectives, and subobjective are for consolidated environmental management and protection programs for the US Pacific Territories, and continue to be intended to meet Insular area priorities by further establishing fishable, swimmable waters through surveillance, monitoring, and enforcement of water quality standards and regulations, and towards the goal of zero beach closure postings; and compliance and enforcement of safe drinking water regulations towards the goal of having potable water for 100 percent of the population. Furthermore, watershed management is the overarching mission for all environmental protection activities to help improve water quality, this program goal is establish special management areas to prevent groundwater contamination, and mitigate or eliminate nonpoint discharges of pollution. Regarding EPA Goal 4 (Healthy Communities and Ecosystems) and Objective 4.2 (Communities) and Subobjective 4.2.3 (Assess and Clean-Up Brownfields), the Insular areas have the goal of completing an Territory wide inventory of all potential Brownfield sites and a clean-up of at least (1) site. This grant supports Goal 1 (Clean Air and Global Climate Change), Objective 1.1 (Healthier Outdoor Air), Sub-objective 1.1.1 (More People Breathing Clean Air). Specifically, the Insular area will assist USEPA as necessary to study and monitor data to determine the severity of PM 2.5 pollution and its effect on the quality of outdoor air and risks to human health. Furthermore, the USEPA Pacific Islands Office assures (1) PIO has reviewed the assistance agreement and work plan and that (2) the consolidated environmental program work plan meets the

requirements of EPA Order 5700.7 (a). The PRCs assigned to the funding for the project are consistent with these strategic goals and objectives. However, topics of climate change, sustainable development, zero waste, and ocean acidification are all active in program areas that are not directly funded by EPA.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are awarded to Insular Area agencies under the above referenced authorities to provide technical and managerial support in relation to continuing environmental program grants that serve to protect the public health and welfare of the Insular Areas.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

The Territories of Guam, American Samoa, and the Virgin Islands, and the Commonwealth of the Northern Mariana Islands are eligible to receive and administer funds for more than one environmental program. For certain competitive funding opportunities under this description, the Agency may limit eligibility to a particular subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

The Territories of Guam, American Samoa, the Virgin Islands, and the Commonwealth of the Northern Mariana Islands.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication communications should be directed to the appropriate EPA Regional office. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program. An applicant should consult the Regional office or official designated as the single point of contact for their Insular Area for more information on the process the Insular Area needs to follow when applying for assistance. This program is excluded from coverage under E.O. 12372.

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. U.S. Insular area agencies will be notified to submit grant application packages identifying required forms including a work plan. The application package should be

submitted to the appropriate EPA Regional Office. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

U.S. Insular area agencies will be notified of Federal assistance awards through the appropriate EPA Regional Office. For competitive awards, EPA will review and evaluate applications, proposals and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Matching requirements may be waived by the Agency pursuant to the Omnibus Territories Act. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is usually awarded for a 1-year or longer period. The Automated Standard Application for Payments (ASAP) is the preferred payment method. See the following for information on how assistance is awarded/released: Assistance is awarded as fiscal year program funds become available. Typically 3-5 awards/amendments are made per year.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly and final performance reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Uniform Grants Guidance 2 CFR 200. Additionally, progress reporting by the Insular Area agency and performance monitoring by EPA will be the minimum necessary for sound program management. Reporting requirements may vary with each Insular Area agency depending upon the specific agency's demonstrated management abilities. A financial status report is required within 90 days of the end of the budget period. Program Reports are required. Cash Reports are required. Progress Reports are required. Expenditure Reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

All records including documents to support entries on accounting records and to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If

any litigation, claim or audit is started before the end of the 3-year period, the records must be retained until the litigations, claims or audit findings have been resolved.

Account Identification:

68-0103-0-1-304; 20-8153-0-7-304; 20-8145-0-7-304; 68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$27,000,000; FY 15 est \$28,000,000; and FY 16 est \$26,000,000 - Grants obligated for American Samoa, Commonwealth of the Northern Mariana Islands, and Guam were the following: FY14 \$27,000,000, FY 15 EST \$28,000,000; FY 16 \$26,000,000.

Range and Average of Financial Assistance:

In general, financial assistance has increased annually depending on program funding that is consolidated into the grant. Financial assistance has generally ranged from \$2,000,000 to \$3,300,000/territory/fiscal year for environmental program assistance. The total estimated average is \$8,000,000/fiscal year.

For FY11 and beyond, territorial Drinking Water and Clean Water SRF grant funds are being consolidated into grants for the territories of Guam, CNMI and American Samoa. For FY11 through FY15, SRF financial assistance for the territories of Guam, CNMI and American Samoa has ranged from \$7M - \$9M annually per territory.

TAFS Codes:

68-8145; 68-0108; 68-0103; 68-8135.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In the CNMI, the achievement of having the public water supply system provide 24 hour service to 95 percent of its population, up from 25 percent in 2006, as a result of the increase of SRF funding in FY10. In American Samoa, the new LEED Platinum ASEPA building was a net-zero user of energy. In Guam, Guam EPA continues to improve in recycling and collection of household hazardous waste. Fiscal Year 2015: No Current Data Available Available Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Uniform Grants Guidance 2 CFR 200; 40 CFR Part 35, Subpart A, Environmental Program Grants; EPA annual Program Guidance.

Website Address:

<http://www2.epa.gov/aboutepa/epa-region-9-pacific-southwest>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: American Samoa EPA LEED Platinum building completed and has net zero certification. Also in American Samoa a Special Watershed

project as part of Coral Reef Task Force National Initiative was completed, which eliminated 90 percent of siltation from quarry discharge. In Guam, building capacity at the Guam Water Works Authority has been successful. In the CNMI, the Division of Environmental Quality (EPA 66.600 grantee) merged with Coastal Resources Management (NOAA CZM grantee) to form the Bureau of Environmental and Coastal Quality with the DEQ Director becoming the BECQ Administrator. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Applications may be approved if: 1) funds are available; 2) if the application satisfies the requirements of 2 CFR 200 and 40 CFR Part 35 and applicable statutes; and 3) if the proposed work program is feasible and compatible with the program priorities in EPA annual guidance. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.604 ENVIRONMENTAL JUSTICE SMALL GRANT PROGRAM

(EJSG)

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442(c)(3); Clean Air Act, Section 103(b)(3); Solid Waste Disposal Act, Section 8001(a); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20(a); Marine Protection, Research, and Sanctuaries Act, Section 203; Clean Water Act, Section 104(b)(3); Toxic Substances Control Act, Section 10(a); Comprehensive Environmental Response, Compensation and Liability Act, Section 311(c).

OBJECTIVES:

The primary purpose of proposed projects should be to develop a comprehensive understanding of environmental and public health issues, identify ways to address these issues at the local level, and educate and support the community. The long-term goals of the program are to help build the capacity of the affected community and create self-sustaining, community-based partnerships that will continue to improve local environments in the future.

Program was not funded in FY 2014. The limited availability of funds resulted in the inability to offer multiple assistance programs.

For 2015 Proposed projects should educate the community, develop a comprehensive understanding of environmental and/or public health issues, and identify ways to address these issues at the local level while developing and/or enhance collaborative partnerships. The long-term goals of the program are to help build the capacity of the community to create self-sustaining, community-based partnerships that will continue to improve the local environments for the future. Applicants are encouraged to develop innovative projects that focus on climate resiliency and adaptation in communities with environmental justice concerns

Program may not be funded in FY 2016. The potential limited availability of funds would result in the inability to offer multiple assistance programs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, and investigations plus allowable direct costs in accordance with established EPA policies and procedures. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. The recipient cannot use these funds for the following activities under this program: litigation against the Federal government or any other government entity; construction; lobbying; matching funds for other Federal grants; travel for Federal employees; and human health studies (taking

blood or other information from humans).

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. An eligible applicant **MUST BE**: an incorporated non-profit organization; OR a Native American tribal government (Federally recognized) (AND) located within the same, territory, commonwealth, or tribe that the proposed project will be located. In addition, an eligible applicant must be able to demonstrate that it has worked directly with the affected community. An "affected community" for the purposes of this assistance agreement program is a community that is disproportionately impacted by environmental harms and risks and has a local environmental and public health issue that is identified in the proposal.

The following entities are **INELIGIBLE** to receive an award, but we encourage partnerships with these organizations for technical assistance: colleges and universities; hospitals; state governments. their entities; quasi-governmental entities (e.g., water districts, utilities)*; national organizations and chapters of the aforementioned organizations; and non-profit organizations that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 and organizations acting only as "fiscal agents".

*Generally, a quasi-governmental entity is one that: (1) has a close association with the government agency, but is not considered a part of the government agency; (2) was created by the government agency, but is exempt from certain legal and administrative requirements imposed on government agencies; or (3) was not created by the government agency but performs a public purpose and is significantly supported financially by the government agency.

Beneficiary Eligibility:

Non-Profit organizations as described in 081 above.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 and 1500 for non-profit organizations and local governments. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the

State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. EPA requires final applications to be made on Standard Form 424. Application kits should be requested from and submitted to the U.S. Environmental Protection Agency, Office of Environmental Justice, Mail Code 2201A, 1200 Pennsylvania Avenue, N.W., Washington, DC 20460 or the appropriate EPA Regional Office identified under Information Contacts. Detailed information and assistance including an application may also be found at <http://www.epa.gov/compliance/environmentaljustice/grants/index.html>. For grant awards, Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 150 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The project grant will be awarded for a 1 year project period. Activities must be completed within the timeframe of the project's budget period and all grants will be fully funded at the time of award. See the following for information on how assistance is awarded/released: Grants are fully funded at award and recipients request funds on an as needed basis.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports and financial reports. Reporting requirements are also identified in 2 CFR 200. Program reports are required. No cash reports are required. Progress reports are required. No expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting

records and to substantiate changes to each assistance agreement must be kept available to personnel authorized to examine EPA assistance accounts. All records must be maintained until the expiration of three years from the date of submission of the Financial Status Report. If questions still remain, such as those raised as the result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$0; FY 15 est \$1,200,000; and FY 16 est \$0 - FY 14 \$0; FY 15 \$1,200,000; FY 16 \$0.

Range and Average of Financial Assistance:

\$20,000 to \$50,000/fiscal year; average \$30,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: This program was not funded in FY 2014. The limited availability of funds resulted in the inability to offer multiple assistance programs. Fiscal Year 2015: In FY 2015, 160 applications were received and we anticipate 40 awards will be made. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.605 PERFORMANCE PARTNERSHIP GRANTS

(PPGs)

FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

Omnibus Consolidated Rescissions and Appropriations Act of 1996, Public Law 104-134; Departments of Veterans Affairs, Housing and Urban Development, and Independent Agencies Appropriations Act of 1998, Public Law 105-65. , Public Law 105-65; Omnibus Consolidated Rescissions and Appropriations Act of 1996, Public Law 104-134.

OBJECTIVES:

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Years 2015 and 2016: EPA headquarters and regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

Funding Priority - Fiscal Years 2015 and FY 2016: EPA headquarters and regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they

are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

TYPES OF ASSISTANCE:

FORMULA GRANTS; PROJECT GRANTS

USES AND USE RESTRICTIONS:

PPGs are a type of modified block grant, where recipients may combine funds from categorical grants to accomplish their joint and several purposes, so long as recipients meet program requirements for each categorical grant combined into the PPG. The 18 categorical grants eligible for PPGs are a mixture of continuing program grants and competitive project grants. Eligible recipients can combine two or more of the following 18 categorical grants programs identified in EPA's State and Tribal Assistance Grants (STAG) appropriation into a PPG: (1) Air Pollution Control (Clean Air Act [CAA] Section 105); (2) Water Pollution Control (Clean Water Act [CWA] Section 106); (3) Nonpoint Source Management (CWA Section 319); (4) Wetlands Program Development (CWA Section 104(b)(3)); (5) Public Water System Supervision (Safe Drinking Water Act [SDWA] Sections 1443(a) and 1451(a)(3)); (6) Underground Water Source Protection (SDWA Section 1443(b)); (7) Hazardous Waste Management (Solid Waste Disposal Act, Section 3011(a)); (8) Underground Storage Tank (Solid Waste Disposal Act, Section 2007(f)(2)); (9) Radon Assessment and Mitigation (Toxic Substances Control Act [TSCA] Section 306); (10) Lead-based Paint Activities (TSCA Section 404(g)); (11) Toxic Substances Compliance Monitoring (TSCA Section 28); (12) Pollution Prevention Incentives for States (Pollution Prevention Act [PPA] Section 6605); (13) Pesticide Cooperative Enforcement (Federal Insecticide, Fungicide, and Rodenticide Act [FIFRA] Section 23(a)(1)); (14) Pesticides Program Implementation (FIFRA Section 23(a)(1)); (15) Pesticide Applicator Certification and Training (FIFRA Section 23 (a)(2)); (16) Environmental Information Network Exchange Grants (Consolidated Appropriations Resolution for the Departments of Veterans Affairs, Housing and Urban Development, and Independent Agencies of 2003, Public Law 108-7; Consolidated Appropriations Act of 2004, Public Law 108-199); (17) Brownfields State and Tribal Response Program Grants (Comprehensive Environmental Response, Compensation, and Liability Act of 1980 [CERCLA], Section 128(a), as amended; Public Law 107-118; Small Business Liability Relief and Brownfields Revitalization Act); and (18) General Assistance Grants to Indian Tribes (Indian Environmental General Assistance Program Act of 1992; only eligible Tribes can propose to include these funds in a PPG application). Recipients may use PPGs to fund activities that are within the cumulative eligibilities of the 18 categorical grants programs listed above for which they are eligible.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf

of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

All States, interstate agencies, U.S. territories, the District of Columbia, and federally recognized Indian Tribes eligible to receive more than one of the 18 categorical grant programs referred to in "Uses and Use Restrictions" above are eligible to apply for PPGs. Any duly authorized State or tribal entity that currently receives or is eligible to receive EPA categorical program grants may request a PPG for the funds it administers. This may include agencies other than environmental agencies (for example, agricultural and health agencies), where authorized by state or tribal law. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States, U.S. territories, federally recognized Indian tribal governments, and interstate agencies.

Credentials/Documentation:

All recipients are agencies of state, local, tribal, or territorial governments. All documentation requirements for recipients are presented at 2 CFR Part 200, Subpart E, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards." 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Applicants interested in pursuing PPGs should coordinate with their appropriate EPA regional office to develop a PPG through joint negotiations (See Appendix IV of the Catalog). Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requests for applications should be made to the appropriate EPA regional grants management office. The standard application forms as furnished by the federal agency and required by 2 CFR Parts 200 and 1500, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" must be used for this program.

Applicants will negotiate the content of their PPG with their EPA regional office and submit an application for the PPG based on these negotiations. Applicants for PPGs must submit an "Application for Federal Assistance: State and Local Non-Construction Programs," Standard Form 424, including the required supporting documents. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Grant applications are reviewed by the appropriate EPA regional office, and if approved, awarded by the Regional Administrator. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA

policies/regulations for competing assistance agreements. After the applicant is chosen for the competitive award, the applicant will work with the EPA regional office to add those competitive grant funds to the PPG if requested by the state. The workplan and supporting documentation that were the basis of the competitive award also will be added to the PPG.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 60 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Major portions of the PPGs are by statutory formula. The allocation for a PPG consists of the cumulative allocations for the categorical grants included in the PPG. Recipients should calculate a single, composite minimum cost share (based on the match or maintenance of effort requirements of the categorical grants included in the PPG) for each of their PPGs. To calculate the minimum cost share for a PPG, start with the amount of federal dollars from each program (source of funds) going into the PPG. The minimum required cost share for each portion is determined by identifying the cost share requirements of the relevant categorical grant program. The minimum recipient cost share for the PPG is the sum of the minimum cost shares of the contributed categorical grants. Tribal governments and intertribal consortia may be eligible for match requirement waivers based on demonstrated hardship. Such waiver eligibility will be determined by the Regional Administrator and will be based on socio-economic criteria. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the PPG shall be determined during pre-application negotiations and at the time of the award. Applicants may choose to submit either annual or multi-year work plans and project periods. Budget periods will be for 12 months with the applicant having the flexibility to select, in consultation with the Regional Administrator, the specific start and end date for the budget period. Grant awards are made after review and approval of the application. Grantees are reimbursed for actual expenses based on submissions in financial status reports. See the following for information on how assistance is awarded/released: Annually.

Reports:

Applicants must provide reports and conduct joint evaluations in accordance with 2 CFR Part 200 and 2 CFR Part 1500, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" and 40 CFR Part 35, Subparts A and B. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs (see section [70] for a list). Cash reports may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs. Progress reports may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs. Expenditure reports may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs. Performance monitoring may be required. Refer to the program descriptions for the individual STAG program grants eligible for inclusion in PPGs.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If questions remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants) FY 14 \$421,107,000; FY 15 est \$445,000,000; and FY 16 est \$449,000,000 - FY 12 \$417,000,000; FY 13 \$421,107,000; FY 14 \$438,000,000; FY 15 est. \$445,000,000; FY 16 est. \$449,000,000.

NOTE: See General Objectives, section [50], for a description of PPGs. The amounts cited above are inclusive of, not in addition to, obligations reported under individual STAG program grants eligible for inclusion in PPGs (see section [70] for a list).

Range and Average of Financial Assistance:

There is no low-end limit for PPG awards, which may be as small as combining two programs and thousands of dollars to Tribes, or as large as combining up to 19 categorical grants to States. PPG totals for larger States can exceed \$10 million. In FY 2014, state PPGs generally contained six or seven categorical grants, with award amounts averaging around \$5 million.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: PPGs have allowed States to take advantage of administrative and program efficiencies and innovations to achieve greater environmental and program results. States and Tribes have used PPGs to address critical emergencies and unplanned events and have used PPG flexibility to overcome periodic budget needs or high program demands in specific programs. States and Tribes have used PPGs to implement multi-program initiatives and innovations that impact many environmental programs. They also have taken advantage of streamlined administrative procedures to make grant processes more efficient. PPGs have allowed Tribes to develop and implement environmental programs in situations where it would have been more difficult using categorical grants. The number of PPGs in FY 2014 include 43 to state environmental agencies; 32 to state agricultural agencies; and over 120 to tribal agencies. Also refer to the descriptions of accomplishments for the individual STAG program grants eligible for inclusion in PPGs (see section [70] for a list). Fiscal Year 2015: PPGs have allowed States to take advantage of administrative and program efficiencies and innovations to achieve greater environmental and program results. States and Tribes have used PPGs to address critical emergencies and unplanned events and have used PPG flexibility to overcome periodic budget needs or high program demands in specific programs. States and Tribes have used PPGs to implement multi-program initiatives and innovations that impact many environmental programs. They also have taken advantage of streamlined administrative procedures to make grant processes more efficient. PPGs have allowed Tribes to develop and implement environmental programs in situations where it would have been more difficult using categorical grants. The number of PPGs in FY 2014 include 43 to state environmental agencies; 32 to state agricultural agencies; and over 120 to tribal agencies. Also refer to the descriptions of accomplishments for the individual STAG program grants eligible for inclusion in PPGs (see section [70] for a list). Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

40 CFR Part 35 Subparts A and B; 2 CFR 200 and 1500 as applicable, "Uniform Administrative Requirements for Grants and Cooperative

Agreements to State and Local Governments."

Regional or Local Office:

See Regional Agency Offices. See Appendix IV of the Catalog for EPA Regional Office contacts.

Headquarters Office:

Michael Osinski, USEPA Headquarters, Ariel Rios Building, 1200 Pennsylvania Avenue, N. W. Mail Code: 1306A, Washington, District of Columbia 20460 Email: osinski.michael@epa.gov Phone: (202) 564-3792.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1) Grantee uses funding from multiple grants to develop integrated data reporting infrastructure; (2) Grant taps funding from media programs combined in the PPG to fund pollution prevention activities; 3) Grantee negotiates with the regional office to use unexpended prior year funds for special projects to meet state priorities. Fiscal Year 2015: 1) Grantee uses funding from multiple grants to develop integrated data reporting infrastructure; (2) Grant taps funding from media programs combined in the PPG to fund pollution prevention activities; 3) Grantee negotiates with the regional office to use unexpended prior year funds for special projects to meet state priorities. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Applicants must meet selection criteria for the categorical grants to be combined in the PPG. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.608 ENVIRONMENTAL INFORMATION EXCHANGE NETWORK GRANT PROGRAM AND RELATED ASSISTANCE

Exchange Network Grant Program

FEDERAL AGENCY:

Office of Environmental Information, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 8001; Comprehensive Environmental Response, Compensation, and Liability Act, Section 104; Clean Air Act, Section 103; Marine Protection, Research and Sanctuaries Act, Section 203; Clean Water Act, Section 104(b)(3); Safe Drinking Water Act, Section 1442; National Environmental Policy Act, Section 102(2)(F); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Toxic Substances Control Act, Section 10.

OBJECTIVES:

In FY 2015, the National Environmental Information Exchange Network (EN) Grant Program is focusing on Phase 2 of the EN and the incorporation of certain aspects of the E-Enterprise for the Environment (E-Enterprise or EE) initiative into the EN program. The general goals of the EE initiative align with the goals of the EN program, and, for this reason, the incorporation of certain EE initiatives into the EN program will further the goals of Phase 2.

The Exchange Network is a partnership that supports better decision-making through improved access to environmental information. EPA and agencies from states, tribes, and territories are collaboratively building the Network to improve the nation's ability to understand, protect, and preserve human health and the environment.

The aspects of the EE initiative that we are incorporating into the EN program will improve environmental outcomes and dramatically enhance service to the regulated community and the public by maximizing the use of advanced monitoring and information technologies, optimizing operations, and increasing transparency.

In addition to supporting similar goals, the EN and EE also affect similar stakeholders. EE began a joint U.S. Environmental Protection Agency

(EPA)/state effort, and the EE leadership is reaching out to Indian Tribes to integrate them into this initiative.

STAG (Competitive): Projects supported by the FY 2014 Exchange Network Grant Program, which are funded by EPA's STAG account, must address at least one priority activity from one of the following tiers: Tier 1- Data Publishing and Access Applications and Tools. Applications will include goals that improve access to environmental information for environmental program staff, managers, the public and other stakeholders. Projects with goals that lead to the creation of services that make data widely available as XML or JSON (including RESTbased services that conform to the Exchange Network REST standard or Exchange Network SOAP services) or consume Exchange Network published data, making them available to environmental program staff and managers and the public will be categorized as Tier 1. Grantees must use existing EN-based application programming interfaces (APIs) or other EN-based services or new EN-based APIs or services other partners can reuse. Grantees must register services they develop in RCS. Specific areas of focus for publishing proposals include: designing, developing and deploying desktop/laptop, mobile and Web applications that publish/access environmental information; publishing data to publicly accessible Web pages; and developing a dashboard for program managers and Agency executives. Regulatory Data Flows from the Phase 2 Plan. Applications will include goals that support implementation of Data flows that enable Exchange Network reporting to EPA systems that are priorities of the Phase 2 Plan. These data flows must be registered in ENDS and include: Integrated Compliance Information System Air (ICIS-Air), which will replace the Air Facility System or AFS; Safe Drinking Water Information System (SWDIS) NextGen; Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System National Pollutant Discharge Elimination System (ICIS-NPDES); and eManifest, Radon. Sharing Data Among EN Partners. Applications will include goals that support the sharing of data among EN partners, especially cross-state, cross-tribal, or state-tribal data exchanges. This includes data on institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (such as open dumps), UST data, best management practices for non-point source pollution and data that support environmental management of multi-state or regional airsheds, watersheds and water bodies of priority concern (such as the Great Lakes or Chesapeake Bay). Dataflows and related Web services must be registered in ENDS. Other resources must be registered in RCS. Virtual Node Implementation Support for States, Tribes, and Territories. Applications should also support the transition from locally installed nodes to the EPA-hosted Virtual Node, create data publishing services and new dataflows on the Virtual Node and support Virtual Node-related security analyses and plans. Additionally, all virtual nodes must be registered in ENDS. (Appendix C provides a detailed description of the Virtual Node and suggested implementation activities.) Shared CROMERR Services and Components. Applications will include goals that support the design of systems to use one or more EPA Web services that provide CROMERR compliant functionality, such as electronic signature, to reduce or eliminate redundant development by partners and streamline Technical Review Committee (TRC) application reviews. These tools must be registered in RCS. Appendix D provides a detailed description of the EPA CROMERR services. Examples of specific potential projects related to these broad topics include: ICIS-Air Collaborative Opportunity: A partnership application that includes joint state, local government and/or a regional/national Clean Air Act association to create a tool that facilitates the exchange of CAA stationary source compliance and enforcement data between and among multiple state/local agencies and EPA. The focus of this opportunity is to enable states/locals to develop and implement a common tool to easily exchange data via the EN with the modernized Air Facility System (AFS). The tool, which will be named ICIS-Air, would need to be designed, developed, tested and deployed in 2015 (ideally as early as possible). Applications should clearly identify all partners and their roles and responsibilities. Please note, as stated in Section III-C, the lead applicant must be an eligible entity. In addition, to be eligible for the higher level of funding, partnerships must represent multiple states. For this opportunity, this criterion can be met by having state or local agencies from two or more states and/or by having a Clean Air Act association with members that come from two or more states in the partnership. eReporting Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA Web services that provide CROMERR compliant

functionality such as electronic signature. In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the Exchange Network, which will provide a complete end-to-end electronic reporting solution for environmental data. An example of an e-reporting grant proposal would be Clean Air Act Title V reporting (e.g. annual compliance certifications).

Geo-enabled Field Data Collection Tool: A partnership proposal that develops and shares source code for a field data collection tool for emergency response, inspection, compliance verification or other activities. The tool will use GIS visualization and integrated GPS, allowing staff to make updates in the field and then flow data back to back-end systems using the Exchange Network. This type of project could take advantage of Exchange Network strengths by enabling the flow of secure data, in near real-time, to multiple locations such as EPA, a state or any other partner with a node. The project could include developing EN standards and services that could plug into other tools such as Scribe for emergency response or other applications used in field deployment. A grantee will be able to use EPA's Facility Registry Service Web service, currently being developed, that will provide sub-facility data and their locations from multiple media programs, as well as submitting to other systems as appropriate. In addition, EPA will enable the data service to filter data by specific source(s), such as real-time emergency response data or a subset of data from a specific state. The grantee can also collaborate with EPA to develop additional FRS Web services as necessary. To ensure close collaboration between EPA and state, tribal and territorial partners, any assistance agreements to develop this tool will be awarded as cooperative agreements. Continuous Water Quality Monitoring Collaborative Opportunity: A partnership to develop an exchange of water quality sensor data. Continuous water quality monitoring (i.e. monitoring performed with a sensor, where a particular parameter or suite of parameters is measured automatically at set intervals) is becoming more prevalent. The EPA Office of Water (OW) is exploring options for enabling the exchange of this type of data. Several partners have been sharing summaries of this type of data via the Water Quality Exchange (WQX). WQX has worked well for sampling data, but the data model for sensor data is inherently different (i.e. less metadata for more results) and the approaches for sharing sensor data may also be different. This project would leverage the current thinking on the publishing approaches as defined under Phase 2 of the Exchange Network, as well as make use of the Exchange Network REST specification. EPA is considering approaches where state, tribal and territorial partners would register sensors within an EPA catalog, and then make the actual sensor data available via a publishing service from their node or via a cloud node. Proposals should evaluate existing schemas that have been developed for sharing this type of data (i.e. the recently approved Open Geospatial Consortium WaterML 2.0 standard, <http://www.opengeospatial.org/standards/waterml>). The partnership would also work cooperatively with EPA on defining approaches for integrating this information with sampling data made available via WQX, as well as providing public access to this combined set of information. Through this project, EPA is seeking to more fully represent the complete set of water quality data that is being collected by continuing to support WQX for water quality sampling data while identifying new approaches for sharing sensor data. Tier 2 - Phase 1 Priority Flows. Additional funding for completing 10 priority flows. (Register in ENDS) Implementation by an Exchange Network partner (or partners) of any of the 10 flows for which an applicant has not received funding for development. Addition of entirely new modules to existing dataflows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Cross-Media Electronic Reporting Regulation (CROMERR). Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. All these resources must be registered in RCS. Collaborative Opportunity. Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach or to adapt CROMERR solutions already approved by EPA that other states have implemented. (An application that additionally commits to using the new EPA components and services that will provide CROMERR-compliant functionality will be scored as a Tier 1 proposal.)

Collaborative Tribal Opportunity. Tribal governments and inter-tribal consortia are eligible to apply for Exchange Network grants to build tribal capacity that

will enhance environmental programs on tribal lands and the ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs and outcomes that result in the increased ability to share environmental information/data electronically with EPA and/or other EN partners (e.g., developing a back-end database for a priority data system). Tier 3 - Other innovative data exchanges. Development and deployment of other innovative data exchange, supporting areas such as emergency response, open dump, surface coal mining data integration and reporting, support for sustainable development through sharing data related to water use, water supply, energy use, impervious surfaces, and sustainable agriculture, and water quality laboratory data reporting) that are applicable to multiple partners. Data exchanges must be registered in ENDS. Updating large national data sets. Schema development effort that will enable states to flow data through the Exchange Network to update large national datasets that fall under Appendix E of OMB Circular A-16: "Coordination of Geographic Information and Related Spatial Data Activities." These datasets can include: the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset, Assessment TMDL Tracking and Implementation System (ATTAINS) and other datasets.

STAG (Competitive): In FY 2015, the Exchange Network community will be fully engaged in Phase 2 development efforts. For prospective applicants not familiar with the current focus of the Exchange Network, Phase 2 emphasizes making data available through Web services and application programming interfaces (APIs), inter-partner data sharing and reporting to new national priority systems. This is in contrast to the first phase of the Network, which focused more on grantees reporting regulatory data to EPA as mentioned in the Phase 2 Implementation Plan.

High priority on activities that advance Phase 2 goals include: development of Web services and APIs that deliver automated access to environmental data; reusable tools and applications that support data access and analysis and are built to consume Web services and APIs; new regulatory reporting data flows; use of Virtual Node services; and use of Cross Media Electronic Reporting Regulation (CROMERR) compliant shared services. EPA recognizes that partners continue to implement automated reporting to the 10 EPA National Priority data systems that were the focus of Phase 1. EPA will support states, federally recognized tribes and territories in completing these priority flows through Exchange Network grant funding.

EPA is categorizing Exchange Network grant priorities into two tiers. Tier 1 focuses on Phase 2 activities (development of Web services/APIs and access tools and applications, implementation of new priority flows, integration of virtual node services into a partner's information technology infrastructure, implementation of new national data exchanges); Tier 2 focuses on Phase 1 priorities including the implementation of the original 10 priority data exchanges and the remainder of Exchange Network related activities.

No Exchange Network grant funds will be available to state, federally recognized tribes, intertribal consortia and territorial partners for node development projects. Operations and maintenance of flows is not an eligible activity for funding.

Tier 1 Exchange Network Activities: Development of Web Services/APIs and Tools that Promote Data Access and Support Better Environmental and Public Health Decisions. Applications will include projects that improve access to environmental information for environmental program staff, managers, the public and other stakeholders. Projects will include goals that lead to the

creation of Web services and APIs that make data available in XML and other standard machine-readable formats (e.g. JSON, CSV). Applicants will include projects that improve access to environmental information for EPA program staff, managers, the public and other stakeholders, such as states or tribes. Projects include: Creating Web services and APIs that make data available in XML and other machine-readable formats. Creating Web services and APIs that support cross-program data integration and support more efficient environmental business processes such as permit writing or compliance inspections or cross-jurisdictional data comparisons analyses or integration. Creating tools that consume Web services and APIs to support access and analysis of environmental information. Examples of such tools include: Desktop, laptop, mobile, and Web applications that allow users to display, analyze, or collect environmental information. Web sites that allow users to access environmental data sets that are available through Exchange Network Web services or APIs. Dashboards for program managers, EPA and other Agency executives.

Example datasets may include institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (such as open dumps), Underground Storage Tank data, and data that support environmental management of multi-state or regional airsheds, watersheds, and water bodies of priority concern (such as the Great Lakes or Chesapeake Bay). See appendix A for more detail on specific project opportunities.

Grantees must use either existing EN-based services, APIs, and schemas or new EN-based services, APIs, and schemas that conform to Exchange Network standards and design rules. This includes REST-based APIs that conform to the Network's REST guidance and standards. Information on the Network's technical standards and design guidance are available in the Knowledge Base of the Exchange Network website (<http://www.exchangenetwork.net/knowledge-base>). Grantees must register grant-funded data flows and Web services in the Exchange Network Discovery Service (ENDS). Grantees must register grant-funded tools, applications, schemas, and other reusable resources in the EPA Reusable Components Service (RCS).

Specific Tier 1 activities include: New EPA Reporting Data Flows. Applications will include goals to implement data flows that enable Exchange Network reporting to and from EPA data systems. Applicants must commit to register these data flows in ENDS. The new flows include: Integrated Compliance Information System Air (ICIS-Air), which will replace the Air Facility System or AFS; Safe Drinking Water Information System (SWDIS) Prime; Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System National Pollutant Discharge Elimination System (ICIS-NPDES); eManifest; Radon and Assessment TMDL Tracking & Implementation System (ATTAINS). Virtual Node Implementation Support for States, Tribes, and Territories. Applicants should commit to the transition from locally installed nodes to the EPA-hosted Virtual Node, creation of data publishing services and new data flows on the Virtual Node and support Virtual Node-related security analyses and plans. Applicants must commit to register all virtual nodes in ENDS. Appendix B provides a detailed description of the Virtual Node and suggested implementation activities. Shared CROMERR Services and Components. Applicants will commit to the design of systems to use one or more EPA Web services that provide CROMERR compliant functionality, such as electronic signature, to reduce or eliminate redundant development by partners and streamline Technical Review Committee (TRC) application reviews. Applicants must commit to register these tools in RCS. Appendix C provides a detailed description of the EPA CROMERR services.

Examples of specific potential projects related to these broad topics include: ICIS-Air Collaborative Opportunity: A partnership application that includes joint state, local government or a regional or national Clean Air Act association to create a tool that facilitates the exchange of CAA stationary source

compliance and enforcement data between and among state agencies, air pollution control districts or local agencies and EPA. The focus of this opportunity is to enable states and locals to develop and implement a common tool to easily exchange data using the EN with the modernized Air Facility System (AFS), ICIS-Air. EPA plans to deploy ICIS-Air in 2015. Applications should clearly identify all partners and their roles and responsibilities. The lead applicant must be an eligible entity (Section III-C). Projects eligible for the partnership level funding must include two or more states. Partnerships eligible for this opportunity may have state or local agencies from two or more states or by having a Clean Air Act association with members that come from two or more states in the partnership. eReporting Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA Web services that provide CROMERR compliant functionality such as electronic signature. In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the Exchange Network, which will provide a complete end-to-end electronic reporting solution for environmental data. An example of an e-reporting grant proposal would be Clean Air Act Title V reporting (such as annual compliance certifications). Continuous Water Quality Monitoring Collaborative Opportunity: A partnership to develop an exchange of water quality sensor data. Continuous water quality monitoring (monitoring performed with a sensor that measures a particular parameter or suite of parameters automatically at set intervals) is becoming more common. The EPA Office of Water (OW) is exploring options for enabling the exchange of this type of data. Several partners have been sharing summaries of this type of data using the Water Quality Exchange (WQX). WQX has worked well for sampling data, but the data model for sensor data is inherently different. It uses less metadata for more results. Because of this, approaches for sharing sensor data may also be different. This project would take advantage of current thinking on the publishing approaches defined under Phase 2 of the Exchange Network, as well as make use of the Exchange Network REST specification. EPA is evaluating approaches that would allow state, tribal and territorial partners to share sensor by using a publishing service from their node or via a cloud node. As a Phase 2 project, partners should consider approaches that would make water quality sensor data available via a publishing service that would allow for data to be cataloged and searched from a central portal. Project work plans should include a commitment to evaluate schemas developed for sharing this type of data, such as the recently approved Open Geospatial Consortium WaterML 2.0 standard and the Sensor Observation Service . The partnership would also work with EPA on defining approaches for integrating this information with sampling data made available from WQX, as well as providing public access to this combined set of information. Through this project, EPA is seeking to more fully represent the complete set of water quality data that is being collected by continuing to support WQX for water quality sampling data while identifying new approaches for sharing sensor data.

Tier 2 Exchange Network Activities: Phase 1 EPA Reporting Flows. Additional funding for completing 10 priority flows as listed in Appendix K (Register in ENDS). 1) Implementation by an Exchange Network partner (or partners) of any of the 10 flows for which an applicant has not received funding; or, 2) Addition of entirely new modules to existing dataflows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Cross-Media Electronic Reporting Regulation (CROMERR). Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. Applicants must commit to registering these resources in RCS. Collaborative Opportunity. Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach or to adapt CROMERR solutions already approved by EPA that other states have implemented. (An application that additionally commits to using the new EPA components and services that will provide CROMERR-compliant functionality will be scored as a Tier 1 proposal.) Collaborative Tribal Opportunity. Tribal governments and inter-tribal consortia are eligible to apply for Exchange Network grants to build tribal capacity that will enhance environmental programs on tribal lands and a tribe's ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals

must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs that result in the increased ability to share environmental information electronically with EPA or other EN partners (for example, developing a backend database for a priority data system). Updating large national data sets. Schema development effort that will enable states to flow data through the Exchange Network to update large national datasets that fall under Appendix E of OMB Circular A-16: "Coordination of Geographic Information and Related Spatial Data Activities." These datasets can include the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset and others listed in A-16.

In addition to the priority activities above, EPA programs have identified other activities listed in Appendix A. The tier for these other activities are in bolded, italicized text in Appendix A. For each data system in this appendix, the tier is identified either in a note directly following the list of activities for that system (if the activities are all in the same tier) or in parentheses after each activity if the activities within a system are in different tiers.

E-Enterprise Priorities That are Being Incorporated into the EN Program. Consistent with the Exchange Network grant priorities, EPA is creating two tiers of EE related grant priorities in the EN program. Tier 1 focuses on activities that will lay the groundwork for a successful intergovernmental partnership to streamline and modernize the "enterprise" of environmental protection. Tier 2 focuses on immediate progress toward joint EPA, State, Tribal, and Territorial enterprise-wide performance goals for one million hours of regulatory burden reduction. In both tiers, EPA will only accept project proposals from partnerships, and the project outcomes must be transferrable to other partners.

As described in Section V-A (evaluation criteria), applications that include at least one Tier 1 goal are eligible to receive 30 points. Applications that include at least one Tier 2 goal, but no Tier 1 goal, are eligible to receive 20 points.

Tier 1 E-Enterprise Related EN Activities: Joint Enterprise Architecture (EA) Analyses. The EPA has acquired federal contract support for an E-Enterprise EA analysis. A copy of the task order is available on www.epa.gov/exchangenetwork/grants . Although the contract task order is structured to be collaborative, the scope and available funding will have limited capacity to perform detailed analyses of internal state, tribal, and territorial programs. To support active contribution of intergovernmental analyses, the E-Enterprise and Exchange Network Leadership Councils have chartered the Enterprise Architecture Integrated Project Team (IPT). Applications cannot be limited to participation in joint IPT meetings. Projects must include significant analysis of business processes and systems within and across state/tribal and EPA governments. The projects must lead to qualifying outputs as described in Section V-A.2, and those outputs must adhere to guidelines and approaches established as part of this joint EA IPT.

In order to understand, protect, and preserve human health and the environment, the partner governments in the national enterprise of environmental protection must not only share data in a standardized way, but understand the context of the data and the interrelationships of the source programs, processes, and services that drive the information exchange. Enterprise architecture is a disciplined framework for analyzing these interrelationships and identifying more effective and efficient ways of coordinating among environmental regulators.

Example activities include: Strategic and Business Architecture: In support of Task 1 on the EPA contract, use reference models and other tools to conceptually organize and analyze strategic performance goals, mission functions, and business processes. This will help to identify the breadth of services offered across environmental agencies and establish a baseline for analyses of performance improvements and shared services. Functional Integration: In support of Task 3, identify groups of services within the environmental sector that support similar functional requirements across multiple programmatic and organizational silos. This would include intergovernmental services that share common customers and interact with those customers through similar mechanisms. For example, a qualifying application could propose cross-governmental analysis to identify shared services for reporting, permitting, financial assurance, labeling, registration, or signatures. This could also include cross-governmental policy harmonization or process improvement to address overlapping or inconsistent policies and procedures that inhibit the ability to offer shared or streamlined services. IT Resource Optimization: In support of Task 4, conduct inventories of existing IT systems that support transactions between environmental regulators and regulated entities and other citizens. This includes the underlying data, applications, and infrastructure in state and tribal governments. Identify gaps in technology services, including opportunities to convert remaining paper-based processes to technology services. Identify inefficiencies and redundancies in existing IT systems and offer recommendations for new shared IT data, applications, and infrastructure, including cloud-based services, platforms or infrastructure. Support for Policy Mandates: In order to coordinate distributed systems and shared services, there need to be standardized methods for analyzing and documenting individual IT systems and broader IT portfolios. In establishing common methods and standards across governments, it is important to identify any applicable policy drivers. At the federal level, EA is addressed in a variety of policies, and the documentation of IT architectures plays an important role in budgeting for IT capital investments. Task 8 of the EPA EA contract includes the development of standardized tools and formats for EA documentation. Example grant projects could include an analysis of corresponding state and tribal level policy mandates and the development of EA tools and documentation formats that comply with those policy mandates. Participation in Pilot Projects. In addition to the broad and comprehensive Enterprise Architecture analysis, the EPA will be focusing on immediate opportunities for shared services that can both reduce burden and optimize IT resources. As was the case with the overall EA project, these efforts are intended to be collaborative and will require state, tribal, and territorial participation on IPTs. Applications cannot be limited to participation in joint IPT meetings. Projects must include significant development and integration of services within and across state/tribal and EPA governments. The projects must lead to qualifying outputs as described in Section V-A.2, and those outputs must adhere to guidelines and approaches established as part of joint IPTs.

The EN has traditionally been focused on data exchange. The systems that collect or publish the data, however, can involve redundant processes and supporting technologies. E-Enterprise principles support the natural next step in the evolution of the EN program to improve decision-making and environmental outcomes through a more comprehensive view of interrelated data and services.

Example activities include: Federated Identity: The EPA is seeking opportunities to allow regulated entities to use a common set of credentials (e.g. login and password) across multiple environmental agencies and levels of government. To accomplish this in the most efficient manner possible, the EPA is researching the development of a single bridging solution. This federated bridge would accommodate a single identity for state/tribal-specific users and systems, CDX reporters, and users who would like to access My.USA.gov and other federal agency services that adhere to the Federal Identity Credential and Access Management and territorial participation is needed to support the implementation of these programs in at least two communities in fiscal year

2015. BPM Suites and Model-Driven Architecture: The EPA is implementing a pilot project for developing and coordinating environmental IT services from platform-independent models rather than hard-coded software. Grant funds can be applied to develop shared services for states and tribes using the same model-driven software suite. Mobile Solutions: The EPA is scoping the development of mobile platforms or device-agnostic services that can be accessed from multiple mobile devices. Specifically, the EPA is scoping the development of a National Inspection Evidence System, a tablet-based compliance inspection tool. Grant funds can support intergovernmental IPTs for scoping state inspection tools or other mobile solutions that support transactions with regulated entities. Support for EELC Projects. On January 21, 2014, the EELC adopted a Conceptual Blueprint. Operating Principle #3 in the Blueprint is to "Modernize and Improve Environmental Regulations and Programs, and their Implementation." In support of this effort to improve efficiency and performance, the Blueprint also includes Principle #4 for "Joint Governance Prioritizing Activities." Specifically, the Blueprint states "Within the context of an overall E-Enterprise business case analysis, this principle anticipates the use of a return-on-investment (ROI) to assist the EELC in implementation decisions. The business case information and methods will also enable the measurement of progress and inform ongoing management of the initiative."

The EELC began work on a prioritized list of action items from the Blueprint, including an action item to identify a list of potential E-Enterprise modernization and streamlining projects. On March 21, 2014, the EELC directed a Coordinating Team to manage the process of soliciting project proposals, including performing an initial screening of the projects and presenting them to the Leadership Council for further consideration. On March 31, 2014, the EELC Co-Chairs kicked off a solicitation to collect project modernization proposals from States, EPA Headquarters, EPA Regions and others. During an E-Enterprise Leadership Council Meeting on May 22-23, 2014, the Council reviewed and evaluated 84 submitted proposals. The following five proposals were selected for further scoping and analysis: Promote availability and use of water data for water resource protection. Explore integrating and streamlining air emissions reporting. Investigate business process improvements and smart mobile technology tools to support state and EPA inspectors. Develop a "smart pesticide label" to improve the accuracy and effectiveness of the label in promoting safe pesticide use. Pilot a compliance assistance and community service tool for local governments.

The EPA has acquired federal contract support for the scoping of proposals that have been prioritized by the E-Enterprise Leadership Council (EELC). To support active contribution of intergovernmental partners, the E-Enterprise and Exchange Network Leadership Councils are forming Integrated Project Teams (IPTs) with co-chairs from EPA and state/tribal representatives.

Grant applications may be submitted to support EELC priority projects. To ensure the widest benefit and adoption rate among qualified grant recipients, applications will not be limited to the original participants in the IPTs. Award of the grants will be contingent on approval of the project scoping analyses by the EELC, which will depend on a sound business case and a positive return on investment. The EELC approval must precede the convening of the grant proposal review panels. There are no guarantees that any or all of the scoping efforts will be completed soon enough to achieve EELC approval prior to the grant reviews.

Regardless of whether the EELC approved the scoping analysis, there are no guarantees that the projects will receive grant funding. The applications will be considered together with other Tier 1 and Tier 2 applications, and all projects will undergo the same review and selection process described in Section V-B. They will be subject to the same evaluation criteria described in Section V-A.2. In order to achieve Tier 1 status, the proposals must substantively align with the projects described in the original scoping proposals.

Modernizing the Legal Framework. Consistent with federal Executive Orders 12866, 13563 and 13610, the EPA is planning new regulations and retrospectively reviewing existing regulations to identify opportunities for regulatory burden reduction. Grant funds can support corresponding projects that address the roles of delegated partners at the state, tribal, and territorial level of government.

Example activities include: Regulatory Reviews: Establishing policies and processes for tracking the relationships between federal and state regulations and identifying inefficiencies, redundancies, and cumulative burden in how EPA and the state collaborate to implement a policy. E-Regulations: Establishing IT tools to support the tracking and analysis of regulations. For example, information systems are used by the Federal Office of Management and Budget, EPA, and various state and tribal programs to track the progress of active rulemakings. Through the appropriate use of metadata and application programming interfaces, these information systems could be useful in identifying the impact of new rulemakings on existing services, and evaluating whether the proposed rules could be harmonized with existing rules to minimize inefficiencies, redundancies, and cumulative burden. Similarly, information technologies could be helpful in accessing and analyzing existing codified regulations. Existing regulations could be analyzed for opportunities to harmonize rules or support enterprise architecture analyses for new paper-to-electronic conversions or new or improved shared services. Performance Projections: Performing analyses of compliance burden, including paperwork burden, and establishing projections of regulatory burden reduction from key regulatory reforms.

Tier 2 E-Enterprise Related EN Activities: Expand the Adoption of Existing Shared Services. Projects will support the expanded use of shared services that streamline the delivery of environmental services to regulated entities. This is intended to focus on the "backend" services for policy implementation, rather than the existing efforts of the EN for networking and information exchange. This can also include non-IT efforts to streamline the delivery of services, such as improvements to intergovernmental policies and processes. All applications for projects in this category must include activities for performance analysis in the scope of their projects. The goal is to not only to adopt shared processes and services, but to measure burden and costs avoided through reuse.

Example activities include: Non-IT Process Improvements: This can include any efforts to streamline the delivery of services, such as intergovernmental policies and processes. Under the EN program, the focus has been on "how" to exchange data through improved standards and technologies. Non-IT process improvements can support environmental outcomes by evaluating "what" data should be exchanged or reused, and "when" and "why" services and information exchanges are performed in the first place. Reusing Data: This can include the integration of datasets made available from the EPA System of Registries and data published through the EN. The data would need to be integrated into the software services in a way that eliminates the redundant collection of similar data and achieves measurable burden reduction for regulated entities. Reusing IT Services and Infrastructure: This can include the intergovernmental sharing of services and supporting infrastructure. Grant funds can go toward the investment in the changes necessary to support the sharing of an existing service, such as moving the service to a third party cloud or establishing interfaces that can remotely call for the services (e.g. a private cloud). Develop New Shared Services. Additional projects for new shared services will only be selected if they are "shovel ready" projects that streamline the delivery of environmental services to regulated entities. These can include services that were not already identified for pilots or scoping activities by the EPA or EELC. The services must support the principles of E-Enterprise and forward the performance goals for regulatory burden reduction and new advanced monitoring approaches. The projects must demonstrate that an alternatives analysis was performed, including market research of existing government-off-the-shelf or commercial-off-the-shelf solutions. The projects

must also demonstrate that the business needs and solution architecture have been established. All applications for projects in this category must include activities for performance analysis in the scope of their projects.

Example activities include: State/Tribal Level Solutions: This can include services that can be adopted by two or more partner governments at the state, tribal, or territorial levels. Integration at Multiple Levels of Government: This can include industry-to-state-to-EPA solutions similar to the model for federal and state taxes. For example, this could include the development of a service that reuses information submitted at the federal level, and only requires regulated entities to add the minimum information required to account for differences in state requirements.

EPM (Competitive): Priorities include outreach, mentoring and support for the Tribal Governance Group.

No information currently available for FY 2016.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funding is available for direct costs associated with carrying out grant-supported projects and for allocations of allowable indirect costs, in accordance with established EPA policies. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligible applicants for the EN Grant Program include states, the District of Columbia, U.S. territories (American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands), federally recognized Indian tribes, and intertribal consortia of federally recognized tribes. An intertribal consortium is eligible to apply for assistance from the EN Grant Program by meeting the following criteria: a) the majority of the consortium members are federally recognized Indian tribes; b) all consortium federally recognized tribal members have authorized the consortium to apply for and receive assistance (if awarded) from the EN Grant Program; and c) the intertribal consortium has adequate accounting controls to manage awarded funds while ensuring that only federally recognized tribal members will benefit directly from the award. Regional air pollution control districts may apply for assistance if they are legally considered to be agencies or instrumentalities of the state under applicable state laws. Recipients of five or more active EN Grants are not eligible to apply for FY 2015 grants. An active grant is any grant where the final technical report has not yet been approved by EPA. The following entities are not eligible to apply for funding from the competitive EN Grant Program funded through the STAG appropriation: state/territorial/tribal universities; city, town, county, or regional governments; nonprofit organizations, including organizations that represent the interests of co-regulators/co-implementers in executing environmental programs. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. In addition to issuing competitive awards to states/territories/tribes and intertribal consortia, EPA may use a portion of the EN Grant Program STAG funds to issue one or more non-competitive awards for associated program support to a co-regulator/co-implementer organization. A co-regulator/co-implementer organization is one that represents the interests of

governmental units (for example, state or regional governments) in executing a national or regional environmental program. The membership of such a national or regional organization is composed of officials of the co-regulator or co-implementer entities (for example, state environmental commissioners). EPA will also issue a competitive award funded through EPA's EPM account to an organization that is broadly representative of federally recognized Indian tribes with the goal of expanding tribal participation in the EN. EPA makes this competitive award once every five years. The Agency will next award it in 2019.

Beneficiary Eligibility:

Federal, state, territory, city, town, county, and regional governments; federally recognized Indian tribes and intertribal consortia of federally recognized tribes; public institutions and industries subject to EPA regulatory reporting requirements; and the public.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Per the FY 2015 Solicitation Notice for the Exchange Network Grant Program, applicants must submit application packages to EPA by November 24, 2014. EPA will accept project proposals for National Environmental Information Exchange Network grants in one of two ways: 1) hard copy through the U.S. Postal Service or an overnight mail or courier delivery service, including one original and two copies; or 2) a proposal submitted electronically through the grants.gov website. EPA will not review or fund any applications that are received from ineligible applicants. The application package included the following materials: 1. Cover letter that outlines the following information: A. Recipient information; B. Project title; C. Type of vehicle requested (grant/cooperative agreement/ Performance Partnership Grant); D. Proposed amount of grant (broken down into direct funding and in-kind assistance if relevant); E. Partners on the grant (if applicable); F. Brief project summary including a statement of project goal(s); G. contact information for the project lead; and H. Signature of executive level Authorized Organizational Representative (AOR). 2. SF-424 (can be obtained from <http://www.epa.gov/ogd/AppKit/application.htm>) 3. Project narrative including goals, outputs with dates, outcomes, environmental results and a statement of business need: applicants must limit the project narrative to 10 single spaced pages. The ten-page limit does not include the EN Implementation plan described in section III-B of the Solicitation Notice. EPA will not review pages beyond the first ten pages of the project narrative. The narrative should describe the major goal or goals, outputs and outcomes leading to environmental results of the three-year project. To achieve outcomes that lead to environmental results, applicants should propose a project that contains one or more goals (for example, implement a WQX data exchange or publishing AQS data to neighboring partners) that will have outcomes supporting timely access to high quality environmental data. Projects can also support environmental results by improving the efficiency and security of data sharing (for instance, making state electronic reporting systems CROMERR compliant for priority reports). EPA will evaluate the major technical and non-technical outputs of the proposed work and the outcomes, leading to environmental results, these outputs support. The schedule of outputs must be detailed enough to demonstrate an applicant's ability to track progress toward each goal. Each proposed goal must have at least one outcome leading to an environmental result. Examples of project outputs might include technical products such as schema or EN data access tools and services. Non-technical outputs might include the creation of workgroups, issuance of RFPs or other major project actions or events. Examples of outcomes that support

environmental results include: improving the timeliness and accuracy of environmental data; reducing the burden and costs of data management and reporting; strengthening environmental decision making by enhancing data access for environmental professionals and the public. Applicants can find a sample narrative with goals, outputs and outcomes in Appendix E of the Solicitation Notice.

Each goal should have scheduled outputs (major work products) that lead to its implementation. Each goal and some outputs will have outcomes. An outcome is the effect or consequence of the project goal or of its major outputs. Each goal should have an environmental result. The schedule of outputs should be detailed enough to demonstrate an applicant's ability to track progress toward each goal. Applicants can find a sample narrative with goals, outputs and outcomes in Appendix D of the Solicitation Notice. 4. Programmatic Resources and Personnel: Briefly describe the programmatic resources and personnel involved in the project for the recipient and any participating partner. Highlight any expertise or past experiences that may be particularly helpful in carrying out the project. Include biographical sketches or resumes of the lead and any partner Project Manager(s). 5. Formal Project Partners Roles and Responsibilities and Distribution of Funds: If the proposed project involves formal project partners who will actively participate in implementing the project, provide a description of the roles and responsibilities of each partner in carrying out each of the project goals. Describe how the recipient would coordinate work among the partners using methods such as regular teleconferences, meetings, or written status reports. If the recipient plans to distribute funding to other partners, describe the method for doing so. Exchange Network grant projects that include one or more formal partners can have budgets up to \$500,000. Partnerships formed from within a single state, territorial, or tribal government (e.g., a "partnership" limited to the Environment and Public Health Departments within a state) are not eligible partnership and are limited to the \$300,000 maximum funding for a single-jurisdiction grant. 6. Detailed Itemized Budget: Applicants should describe both the total project budget and the costs associated with each major goal in a detailed itemized budget. The goal-specific budget information is important, because EPA may wish to consider partially funding some projects (i.e., funding only some goals for a project but not others). The budget must include any relevant item including A. Personnel List all staff positions by title. Give the annual salary of each person, the percentage of their time devoted to the project, the amount of each person's salary funded by the grant and the total personnel cost for the budget period. B. Fringe Benefits Identify the fringe benefit rate and total amount. C. Travel Specify the mileage, per diem, estimated number of in state and out of state trips other costs for each type of travel. EPA suggests that applicants include funds for travel to national, regional and area EN conferences. D. Equipment - Identify each item of equipment to be purchased which has an estimated acquisition cost of \$5,000 or more per unit and a useful lifetime of more than one year. List the quantity and unit cost per item. Items with a unit cost of less than \$5,000 are supplies. E. Supplies - supplies include all tangible personal property other than "equipment." The detailed budget should identify categories of supplies (such as laboratory supplies or office supplies). List the quantity and unit cost per item. F. Contractual Identity - each proposed contract should specify its purpose and estimated cost. Applicants who request in-kind services should list them here. G. Other - List each item in sufficient detail for U.S. EPA to determine whether the costs are reasonable or allowable. List any item, such as training, not covered elsewhere here. H. Indirect Charges If indirect charges are included in the budget, include the approved indirect cost rate with a copy of the Indirect Cost Rate Agreement, a description of the base used to calculate indirect costs and total cost of the base, and the total indirect charges requested. Before an applicant can incur any costs under the indirect cost category, the Indirect Cost Rate Agreement must be approved and current. If you do not have a current rate, you may submit a copy of the submitted application to the cognizant fiduciary agency. Management Fees - When formulating budgets for proposals/applications, applicants must not include management fees or similar charges in excess of the direct costs and indirect costs at the rate approved by the applicants cognizant audit agency, or at the rate provided for by the terms of the agreement negotiated with EPA. The term "management fees or similar charges" refers to expenses added to the direct costs in order to accumulate and reserve funds for ongoing business

expenses, unforeseen liabilities, or for other similar costs that are not allowable under EPA assistance agreements. Management fees or similar charges may not be used to improve or expand the project funded under this agreement, except to the extent authorized as a direct cost of carrying out the scope of work. 7. Network Implementation Plan: All state government applicants must complete the Implementation Plan form posted on EPA's EN website (<http://www.epa.gov/exchangenetwork>). A sample of this form can be found in Appendix H of the Solicitation Notice. On this form, state applicants will identify whether they have been delegated authority to implement each of the 10 national priority data systems. For each program a state has been delegated authority, the applicant will also identify the current status of their use of the EN as well as future plans. State applicants that have never used the EN for reporting to a particular system and do not plan to use the Network, or who have stopped using the EN for reporting to a particular system and do not plan to restart, must provide a business reason explaining why they will not use the Network. EPA will not review state applications that do not include this Implementation Plan.

All state applicants must submit a document of two to three pages explaining how the applicant plans to fully implement the EN for all regulatory and national system flows as described in Section III-B. 8. Additional information for inter-tribal consortium: An inter-tribal consortium applying for an FY 2015 EN Grant must include documentation that shows: A. a formal partnership exists among the Indian tribal governments that are members of the inter-tribal consortium, and the majority of the members are federally recognized Indian tribes; and B. the consortium's federally recognized tribal members have authorized the consortium to apply for and receive assistance from the EN Grant Program. EPA will notify applicants of its selection decisions in or around April 2015. At the time, the Agency will request additional documentation, including other official forms, from successful applicants. The notification letters will include further instructions to those applicants for submittal of additional or updated documents. Required forms in PDF format can be obtained at <http://www.epa.gov/ogd/AppKit/application.htm>. EPA plans to award all grants by September 2015. If the proposal is funded, the recipients would be required to submit a separate, tailored Quality Assurance Project Plan based on guidance in the applicable solicitation notice. EPA plans to post the solicitation notice for the FY 2016 EN Grant Program on the Web site in early September 2015 (<http://www.epa.gov/exchangenetwork/grants>). Please see the solicitation notice for complete application instructions.

Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

EPA will evaluate the project proposal based on the evaluation criteria in section V-A of the 2015 Solicitation Notice. Please note that in evaluating applicants under this criteria, the Agency will consider the information provided by the applicant and may also consider relevant information from other sources including agency files and prior/current grantors (e.g., to verify and/or supplement the information supplied by the applicant). In making the final funding decisions from among the most highly scored proposals, the EPA selection official may also consider one or more of the following factors: A. EPA programs' ability and/or readiness to support proposed project activities; B. geographic distribution of funding; C. prioritization of data exchange and priority activities over other assistance activities; D. ensuring participation in the EN by federally recognized Indian tribes and inter-tribal consortia; and E.

EPA's capacity to provide any requested in-kind services.

Deadlines:

Nov 15, 2013: Applications for the FY 2014 Exchange Network Grant must be postmarked on or before November 15, 2013, or received electronically at or before 11:59 PM Eastern Standard Time on November 15, 2013. Applications for the FY 2014 Exchange Network Grant must be postmarked on or before November 15, 2013, or received electronically at or before 11:59 PM Eastern Standard Time on November 15, 2013.

Range of Approval/Disapproval Time:

Applicants whose applications are denied for funding will be notified approximately five months after the application deadline. Applicants whose applications are recommended for funding will be notified, initially to request additional documentation to finalize the application, and, later, when the assistance agreements are issued and mailed by EPA's Grants and Interagency Agreements Management Division, which is expected to be approximately eight to nine months after the application deadline.

Applications for the FY 2014 Exchange Network Grant must be postmarked on or before November 15, 2013, or received electronically at or before 11:59 PM Eastern Standard Time on November 15, 2013.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance will be provided through grants and cooperative agreements. EPA may provide support in the form of direct funding and/or in-kind assistance, in lieu of direct funding. EPA plans to issue awards for applications that are recommended for funding approximately seven months after the application deadline. The standard period of performance for projects funded by the EN Grant Program is two years. EPA may consider requests from award recipients for project/budget period extensions; and if deemed appropriate by EPA, the Grants and Interagency Agreements Management Division may issue amendments extending the project/budget periods. See the following for information on how assistance is awarded/released: Assistance will be provided through lump sum allocations which grantees can draw down upon through programmatic invoices.

Reports:

Award recipients must submit semi-annual progress reports and a final project report that covers the entire project period. The semi-annual progress reports must be submitted within one month of the end of each semi-annual reporting period. The reporting periods are from October through March and April through September of each fiscal year. Award recipients must submit the final project report and a final Financial Status Report (Standard Form 269) to EPA within 90 days after the end of the project/budget period. Program reports are required. Cash reports are required. Progress reports are required. Expenditure reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized

representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all accounting records that substantiate the charges to each grant, must be maintained and accessible to personnel authorized to examine EPA grant accounts. If certain financial records are part of an audit investigation, then they must be retained until the matter under investigation has been completely resolved. Award recipients must retain complete records documenting their projects for a period of seven years after the close-out of the agreement. Such records include, but are not limited to, financial records, technical reports, periodic performance progress reports, project management files, correspondence with other project partners, and correspondence with EPA. Final products and deliverables that result from the project are considered to be permanent records and should be retained indefinitely.

Account Identification:

68-0103-0-1-304; 68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$9,860,000; FY 15 est \$9,751,300; and FY 16 est \$9,860,000 - STAG Account: FY 2014 \$9,700,000; FY 2015 \$9,571,300 and FY 2016 estimate \$9,700,000. EPM Account : FY 2014 \$160,000; FY 2015 \$180,000 and FY 2016 estimate \$160,000. EPA will set aside approximately ten percent of appropriated funding for tribal assistance agreements to further facilitate expanded tribal participation in the EN.

Range and Average of Financial Assistance:

STAG Account: Award amounts will range from \$50,000 to \$500,000 for the entire three-year project period. The average award amount will be \$300,000 for an individual applicant, \$500,000 for a partnership during the entire three-year project period. EPM Account: The average award amount will be \$160,000 per year, for the entire five-year project period.

TAFS Codes:

68-0103; 68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: FY 2014 is the thirteenth year of the Exchange Network Grant Program. From FY 2002 through FY 2013, EPA has provided approximately \$180 million for state, tribal and territorial awards and associated program support through the grant program. As of May 2013, all 50 states, 90 tribes and five territories have received Exchange Network grants. All states, nearly 150 tribes and several territories are using the EN to report data to EPA. Starting in 2013, partners are using grant funds to make data more accessible and usable to various communities of interest and the general public. Recent accomplishments include: a state transitioning its data submissions to EPA from its own node to EPA's virtual exchange services; a state's research arm developed software that uses Exchange Network services to access water quality data to calculate pollutant coefficients for a decision-making tool; a state developed an online air emissions inventory system and used Exchange Network services to access and integrates emissions data into its interactive environmental quality map; and a tribe implemented data publishing for water and air quality data. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

The Exchange Network Grant Program assistance agreements issued to state, territorial, and tribal governments and nonprofit organizations (i.e., co-regulator/co-implementer organizations) for associated program support for the EN Grant Program or other EN activities to be governed by OMB's regulations at 2 CFR 200 and EPA's supplemental regulations at 2 CFR 1500.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The Kansas Department of Health & Environment proposes to develop a solution that facilitates the exchange of Clean Air Act (CAA) stationary source compliance and enforcement data between KDHE and the Environmental Protection Agency and is compatible with the new Integrated Compliance Information System Air (ICIS Air) system and extensible markup language (XML) schema.

The New Hampshire Department of Environmental Services proposes to publish continuous stream temperature data to be accessed through web applications that will allow stakeholders to examine the impacts of climate change and other environmental stressors throughout New Hampshire and publish continuous groundwater level fluctuation data to be accessed through web applications that will allow stakeholders to examine the occurrence of droughts and impacts of climate change throughout New Hampshire.

The Cherokee Nation (CN) proposes to publish CN data to a publicly accessible web page; develop an application programming interface to make data on the Cherokee Nation Environmental Programs website available in extensible markup language (XML) format; and continue to promote participation on the Exchange Network.

The Washington Department of Health proposes to implement radon data flow to the Exchange Network from Washington State and to improve web access to Washington State radon data and information for use by the public. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation criteria for the FY 2015 EN Grant program were described in Section V of the FY 2015 Solicitation Notice. The evaluation criteria included such factors as expected project outputs/outcomes, the feasibility and approach of the work plan, the relevance and significance of the proposed project to the EN, the adequacy of resources and key personnel, and past performance. EPA may also consider various qualitative criteria when determining which applications to recommend for funding. Examples of such qualitative criteria may include, but are not limited to, factors such as achieving a balance among projects, distributing funds among different states/territories/ tribes, and having EPA programmatic support for the project. Applications for non-competitive awards to co-regulator/co-implementer organizations, funded by the EN Grant program through EPA's STAG appropriation, will be evaluated based on the ability of the applicant to provide the following: outreach, communications, technical assistance, and other support to states/tribes that are participating in, or may wish to participate in, the Network; and support for state participation in the EN governance. Applications for competitive awards to an organization that represents federally recognized Indian tribes, funded through EPA's EPM appropriation, will be evaluated based on the applicant's ability to support tribal participation in the EN governance, provide programmatic support to tribes and intertribal consortia of federally recognized tribes that are participating in or may wish to participate in the EN; provide outreach, communications, training/mentoring, and technical assistance to tribes to increase their knowledge about the EN, enhance their IM/IT capabilities, and encourage their development of EN nodes and data flows; and provide periodic reports to the EN governance on the status of tribal participation in the Network.

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.609 PROTECTION OF CHILDREN FROM ENVIRONMENTAL HEALTH RISKS

Children's Environmental Health

FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 8001; Solid Waste Disposal Act, Section 1442; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Clean Air Act, Section 103; Toxic Substances Control Act, Section 10; Marine Protection, Research, and Sanctuaries Act, Section 203; Clean Water Act, Section 104; National Environmental Policy Act, Section 102(2)(F); Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311.

OBJECTIVES:

To support efforts by organizations; educational institutions; and/or State, local, and tribal governmental agencies to establish or enhance their ability to take actions that will reduce environmental risks to the health of children.

Funding Priority - Fiscal Year 2014: It is not anticipated that any awards will be made under CFDA 66.609 for FY 2014.

Funding Priority - Fiscal Year 2015: It is not anticipated that any awards will be made under CFDA 66.609 for FY 2015.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, investigations, and special purpose assistance, plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Funds awarded under Section 311(b)(3) of CERCLA must be used for projects relating to innovative or alternative treatment technologies that may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States or state agencies, territories, the District of Columbia, American Indian Tribes (federally recognized), and possessions of the U.S. It is also available to public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, and 501(c)(3) organizations. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For profit organizations are generally not eligible for funding. Some of EPA's statutes may limit assistance to specific types of interested applications. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State agencies and local governments, U.S. territories and possessions, American Indian Tribes, universities and colleges, hospitals, laboratories, and other public and private nonprofit institutions and organizations.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be

requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. The Office of Children's Health Protection may ask applicants or principal investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards must be used for this program. EPA requires final applications (except in limited circumstances approved by the Agency) to be made on Standard Form 424, "Application for Federal Assistance." Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, the Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for surveys, studies, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to the Office of Children's Health Protection's program priorities, and the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: EPA's Appropriation Act requires that applicants submitting unsolicited research grant proposals share in the cost of conducting research. The amount of the cost share will be based on the mutuality of interest between the Government and the applicant. This requirement cannot be waived by EPA. In addition, CERCLA Section 311(b)(3) requires that "to the maximum extent possible," EPA enter into an appropriate cost sharing arrangement with recipients of grants and cooperative agreements relating to innovative and alternative treatment technologies. EPA may waive the Section 311(b)(3) cost-sharing requirement in appropriate cases. Matching funds requirements may be established in program guidance or in the terms of competitive solicitations.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12 or 24-month basis. However, the Office of Children's Health Protection can negotiate the project period with each applicant based on project requirements. EPA limits project periods to five (5) years. Grants and cooperative agreements may be incrementally funded or fully funded. This determination is made by EPA. See the following for information on how assistance is awarded/released: Assistance will be awarded in a lump sum and will be released on a reimbursement basis.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports. Reporting requirements are also identified in EPA's grants regulations at 2 CFR 200 and 1500. Quarterly progress reports are required to be sent to the EPA Project Officer within 30 days after each reporting period. These reports will cover work status, work progress, difficulties encountered, preliminary data results and a statement of activity anticipated during the subsequent reporting period, including a description of equipment, techniques, and materials to be used or evaluated. The report shall also include any changes of key personnel concerned with the project. Quarterly progress reports are required to be sent to the EPA Project Officer within 30 days after each reporting period. A discussion of expenditures along with a comparison of the percentage of the project completed to the project schedule and an explanation of significant discrepancies shall be included in the report. The EPA Project Officer is required to conduct baseline monitoring of each active award. For awards with original project periods 18 months or less in duration, the initial baseline monitoring will take place no later than six months from the award date. For awards with original project periods greater than 18 months in duration, the initial baseline monitoring will take place no later than 1 year from the award date. After the initial baseline monitoring, all subsequent baseline monitoring will occur within 12 months of the last baseline or advanced monitoring activity.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 1500 Subpart E (non-profits and institutions of higher education, governmental units) are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records which support substantial changes to the grant, available to personnel authorized to examine EPA recipients' grants and cooperative agreement records. Recipient must maintain all records for a period of three years from the date of submission of final expenditures reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is fully resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - FY 2014 \$0.00, FY 2015 estimate \$0.00, FY 2016 \$0.00.

Range and Average of Financial Assistance:

Range: \$10,000 to \$150,000 per grant. Average: \$100,000 per grant (2 year grants).

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: It is not anticipated that any awards will be made in FY 2014 under CFDA 66.609. Fiscal Year 2015: No awards made under 66.609 in FY 2015. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, and investigations grants and cooperative agreements are subject to EPA general grant regulations, (2 CFR 200) Grants and Agreements with Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments. Costs will be determined in accordance with 2 CFR Subpart E for State and local governments and federally recognized tribes, 2 CFR 200 Subpart E for educational institutions, CFR 200 Subpart E for nonprofit institutions, and FAR Part 31 for "for profit" entities.

Regional or Local Office:

See Regional Agency Offices.

Headquarters Office:

LaVonne Switzer, Office of Children's Health Protection; USEPA; Mail Code: 1107T; 1200 Pennsylvania Avenue, NW, Washington, District of Columbia 20460 Email: switzer.lavonne@epa.gov Phone: (202) 564-2711.

Website Address:

<http://yosemite.epa.gov/ochp/ochpweb.nsf/content/homepage.htm>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No awards were made in FY 2014 under CFDA 66.609. Fiscal Year 2015: No awards were made in FY 2015 under CFDA 66.609. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Non-competitive proposals are judged for: (a) technical merit in terms of: (1) strengths and weaknesses of the project, (2) adequacy of overall project design, (3) competency of proposed staff, (4) suitability of applicant's available resources, (5) appropriateness of the proposed project period and budget, and (6) probability that the project will accomplish stated objectives; and, for (b) program interest in terms of: (1) the need for the proposed project, and (2) relationship to program objectives.

66.610 SURVEYS, STUDIES, INVESTIGATIONS AND SPECIAL PURPOSE GRANTS WITHIN THE OFFICE OF THE ADMINISTRATOR FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, Public Law 106-74; Clean Air Act, Section 103; Clean Water Act, Section 104; Solid Waste Disposal Act, Section 8001; Comprehensive Environmental Response, Compensation, and Liability Act, Section 311; Marine Protection, Research, and Sanctuaries Act, Section 203; Safe Drinking Water Act, Section 1442(a)&(c); National Environmental Policy Act, Section 102(2)(F); Toxic

Substances Control Act, Section 10.

OBJECTIVES:

(1) To support surveys, studies, investigations, and special purpose assistance associated with air quality, acid deposition, drinking water, water quality, hazardous waste, toxic substances, and pesticides; (2) to identify, develop, and demonstrate necessary pollution control techniques; (3) to prevent, reduce, and eliminate pollution; (4) to evaluate the economic and social consequences of alternative strategies and mechanisms for use by those in economic, social, governmental, and environmental management positions; and (5) to promote collaboration on projects and activities within the states and enable wider and more coordinated state input on national environmental issues.

Funding Priority - Fiscal Year 2015: Priorities continue to include support for environmental health information and analysis to state legislatures; support to build state capacity to reduce environmental hazards that may affect health and the environment; support of environmental education training; support to promote and enhance state collaboration by focusing on communication and the sharing of environmental information among states; support to detail environmental outcome oriented indicators, measures, and goals that promote innovative environmental protection; and support to increase efficiency in the state environmental protection programs that result in cost-effective, sustainable environmental protection.

Funding Priority - Fiscal Year 2015: Priorities continue to include support for environmental health information and analysis to state legislatures; support to build state capacity to reduce environmental hazards that may affect health and the environment; support of environmental education training; support to promote and enhance state collaboration by focusing on communication and the sharing of environmental information among states; support to detail environmental outcome oriented indicators, measures, and goals that promote innovative environmental protection; and support to increase efficiency in the state environmental protection programs that result in cost-effective, sustainable environmental protection.

In FY 2015, specific funding priorities include:

ECOS Shale Gas Caucus- the Shale Gas Caucus is led by state environmental agency commissioners, who work closely with EPA, DOE, non-profit organizations, and private-sector entities, and its purpose is to promote coordination between states on data sharing, best practices, community outreach, and lessons learned pertaining to the reduction of methane and VOC emissions from the oil and gas sector.

Sustainability - develop video and other media to promote state leadership in green infrastructure, sustainable products, purchasing and materials management.

ECOS Partnership and Performance Workgroup - projects and deliverables to support the partnership between EPA and the States regarding strategic planning, grants management, and implementation of the National Environmental Performance Partnership System.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved surveys, studies, investigations and special purpose assistance, plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Funds awarded under Section 311(b)(3) of CERCLA must be used for projects relating to innovative or alternative treatment technologies that may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to State agencies, territories, the District of Columbia, Indian Tribes, and possessions of the U.S. Assistance is also available to public and private universities and colleges, hospitals, laboratories, and other public or private nonprofit institutions. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For profit organizations are generally not eligible for funding. Some of EPA's statutes may limit assistance to specific types of interested applications. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State agencies and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, and other public and private nonprofit institutions.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. Office of the Administrator may ask applicants or principal investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR Parts 200 and 1500, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" must be used for this program. EPA requires final applications to be made on Standard Form 424, "Application for Federal Assistance." Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. For competitive awards, the

Requests for Initial Proposals or Requests for Applications will specify application procedures.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for surveys, studies, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to the Office of the Administrator's program priorities, and the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: EPA's Appropriation Act requires that applicants submitting unsolicited research grant proposals share in the cost of conducting research. The amount of the cost share will be based on the mutuality of interest between the Government and the applicant. This requirement cannot be waived by EPA. In addition, CERCLA Section 311(b)(3) requires that "to the maximum extent possible," EPA enter into an appropriate cost-sharing arrangement with recipients of grants and cooperative agreements relating to innovative and alternative treatment technologies. EPA may waive the Section 311(b)(3) cost-sharing requirement in appropriate cases. Matching fund requirements may be established in program guidance or in the terms of competitive solicitations.

This program does not have MOE requirements. Not applicable.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, the Office of the Administrator can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. Grants and cooperative agreements may be incrementally funded or fully funded. This determination is made by the EPA. See the following for information on how assistance is awarded/released: Other.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in EPA's grant regulations 2 CFR Parts 200 and 1500. Program reports are required. No cash reports are required. Progress reports are required. No expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer

and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

The record retention requirements of 2 CFR Part 200 and 1500 as applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records which support substantial changes to the grant, available to personnel authorized to examine EPA recipients' grants and cooperative agreement records. Recipient must maintain all records for a period of three (3) years from the date of submission of final expenditures reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is fully resolved.

Account Identification:

68-1810-0-1-304.

Obligations:

(Project Grants) FY 14 \$83,000; FY 15 est \$225,000; and FY 16 Estimate Not Available - FY2012 \$225,000; FY2013 \$155,000; FY2014 \$83,000; FY2015 \$225,000.

Range and Average of Financial Assistance:

Range \$500 to \$500,000 per grant. Average amount of award approximately \$100,000 per grant.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Environmental Council of the States (ECOS)Shale Gas Caucus, a collaboration among state environmental leaders on Shale Gas development. The work will complement that of STRONGER (state review of oil and natural gas environmental regulations). A multi-stakeholder organization that assists states in tracking environmental regulations associated with oil and natural gas production.

EPA and the Environmental Council of States (ECOS) co-sponsored a day of consultation, collaboration, and education activities as part of the ECOS annual meeting on April 1, 2014. Fiscal Year 2015: The ECOS Partnership and Performance Workgroup engaged EPA in the implementation of the Partnerships Cross-Agency Strategy in EPA's Strategic Plan, began implementing and evaluating a new 2 year approach for developing National Program Manager Guidance, collaborated to identify principles and best practices for the oversight of permitting programs, and partnered on several grants management initiatives, including developing a Grants Policy Issuance for Performance Partnership Grants.

Sustainability--research was conducted on state-specific sustainability activities, agreement was reached with EPA on three of four projects to move towards video production, and a draft of one of four videos was produced. ECOS is currently working with states to collect footage for the remaining 3 videos; this work will likely continue into FY16.

Shale Gas Caucus - Through a series of informative briefings for state environmental agency leaders, ECOS covered topics including current research, existing and emerging technologies, regulatory initiatives. These briefings set the stage for ECOS to develop a compendium of principles and best practices and other tools for states to use in addressing methane and VOC emissions. Accomplishments include: conducting eleven briefings for state environmental agency leaders (and two more planned), completion of, and outreach on, a searchable online best practices database (e-MATRIX), and exploration of a

new Shale Gas Caucus project to focus on verification of best practices' results and promoting best practices through monetary-based incentives. The work of the Shale Gas Caucus will likely continue into FY16.

EPA and the Environmental Council of States (ECOS) co-sponsored a day of consultation, collaboration, and education activities as part of the ECOS Spring meeting in March 2015. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, and investigations grants and cooperative agreements are subject to EPA general grant regulations located at 2 CFR Parts 200 and 1500. Costs will be determined in accordance with 2 CFR 200 Subpart E for all entities. FAR Part 31 for "for profit" entities.

Regional or Local Office:

See Regional Agency Offices.

Headquarters Office:

RELATED PROGRAMS:

66.609 Protection of Children and Older Adults (Elderly) from Environmental Health Risks; 66.611 Environmental Policy and Innovation Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Environmental Council of States (ECOS) Shale Gas Caucus

Environmental council of the States (ECOS) and EPA co-sponsorship agreement for April 1, 2014. Fiscal Year 2015: Sustainability - Through a series of informative briefings for state environmental agency leaders, ECOS covered topics including current research, existing and emerging technologies, and regulatory initiatives. These briefings set the stage for ECOS to develop a compendium of principles and best practices and other tools for states to use in addressing methane and VOC emissions.

ECOS Partnership and Performance Workgroup - collaborations and deliverables on NPM Guidance development, grants management initiatives, implementing the Partnerships Cross-Agency Strategy, Title VI programs, Environmental Justice tools, and the oversight of state delegated permitting programs.

Shale Gas Caucus-through a series of informative briefings for state environmental agency leaders, ECOS covered topics including current research, existing and emerging technologies, and regulatory initiatives. These briefings set the stage for ECOS to develop a compendium of principles and best practices and other tools for states to use in addressing methane and VOC emissions. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Non-competitive proposals are judged for: (a) technical merit in terms of: (1) strengths and weaknesses of the project, (2) adequacy of overall project design, (3) competency of proposed staff, (4) suitability of applicant's available resources, (5) appropriateness of the proposed project period and budget, and (6) probability that the project will accomplish stated objectives; and, for (b) program interest in terms of: (1) the need for the proposed project, and (2)

relationship to program objectives.

66.611 ENVIRONMENTAL POLICY AND INNOVATION GRANTS

FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

National Environmental Policy Act, Section 102(2)(F), 42 U.S.C 4332; Clean Air Act, Section 103, 42 U.S.C 7403; Clean Water Act, Section 104, 33 U.S.C 1254; Toxics Substances Control Act, Section 10, 15 U.S.C 2609; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; Comprehensive Environmental Response, Compensation, and Liability Act, Section 104(k)(6)&311, 42 U.S.C 9660; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136(r); Safe Drinking Water Act, Section 1441, 42 U.S.C 300j-1; Annual Appropriations Act.

OBJECTIVES:

(1) To support analyses, studies, evaluations, workshops, conferences, and demonstration projects that lead to reduced pollutants generated and conservation of natural resources; (2) to improve economic information and analytic methods to support studies, surveys, analyses, evaluations, conferences, workshops, and demonstration projects on the benefits, costs, and impacts of environmental programs; and (3) to improve economic information and analytic methods to support studies, surveys, analyses, evaluations, conferences, workshops, and demonstration projects of incentive-based and voluntary environmental management strategies and mechanisms; and (4) to support research to explore and develop strategies and mechanisms for those in the economic, social, governmental, and environmental arenas to use in environmental management decisions.

Funding Priority - Fiscal Year 2014: The funding priorities in FY2014 for the smart growth program include continued support for innovative projects related to exploring, testing, or implementing smart growth and/or green building policies, climate adaptation, and other environmental preferable approaches to development.

One or more new solicitations related to implementing smart growth policies, climate adaptation, and other environmentally preferable approaches may be issued in FY2015.

As a consequence of limited resources, there was no new economic competitive research solicitation issued in FY2014.

If resources were available, research priorities in the field of environmental economics and related research continue to include: work on improvements in the valuation of environmental benefits, including human health and ecological services; measuring economic costs and impacts to society from regulations, including effective ways to forecast future pollution control technologies and regulatory costs; integrating economic and natural science models for purposes of assessing environmental risks and consequences, including those associated with GHG emissions and potential consequences for climate change; and utilization of alternative regulatory management and economic incentive approaches to achieve environmental objectives.

Funding Priority - Fiscal Year 2015: There have been no new competitive environmental economic research solicitations issued in recent years due to limited available resources.

If resources should become available in FY2015, research priorities in the field of environmental economics and related research continue to include: work on improvements in the valuation of environmental benefits, including human health and ecological services; measuring economic costs and impacts to society from regulations, including effective ways to forecast future pollution control technologies and regulatory costs; integrating economic and natural science models for purposes of assessing environmental risks and consequences, including those associated with GHG emissions and potential consequences for climate change; and utilization of alternative regulatory management and economic incentive approaches to achieve environmental objectives.

There have been no new competitive environmental economic research solicitations issued in recent years due to limited available resources.

Funding Priority - Fiscal Year 2016: If resources should become available in FY2016, research priorities in the field of environmental economics and related research continue to include: work on improvements in the valuation of environmental benefits, including human health and ecological services; measuring economic costs and impacts to society from regulations, including effective ways to forecast future pollution control technologies and regulatory costs; integrating economic and natural science models for purposes of assessing environmental risks and consequences, including those associated with GHG emissions and potential consequences for climate change; and utilization of alternative regulatory management and economic incentive approaches to achieve environmental objectives.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved Environmental Policy and Innovation plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Funds awarded under Section 311(b)(3) of CERCLA must be used for projects relating to innovative or alternative treatment technologies that may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, interstate organizations, intrastate organizations, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, and individuals. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For profit organizations are generally not eligible for funding. Some of EPA's statutes may limit assistance to specific types of interested applicants. See "Authorization" listed above. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. National laboratories funded by Federal Agencies (Federally-Funded Research and Development Centers, "FFRDCs") may not apply. FFRDC employees may cooperate or collaborate with eligible applicants within the limits imposed by applicable legislation and regulations. They may participate in planning, conducting, and analyzing the research directed by the applicant, but may not direct projects on behalf of the applicant organization. The institution, organization, or governance receiving the award may provide funds through its grant from the EPA to an FFRDC for research personnel, supplies, equipment, and other expenses directly related to the research. Federal Agencies may not apply. Federal employees are not eligible to serve in a principal leadership role on a grant, and may not receive salaries or augment their Agency's appropriations in other ways through grants made by this program.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, other public and private nonprofit institutions, individuals, and international organizations.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. EPA requires final applications to be made on Standard Form 424, "Application for Federal Assistance." Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, (3903R), Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. Additional information on the EPA grant package can be found at: http://www.epa.gov/ogd/grants/how_to_apply.htm. Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For non-competitive awards, EPA will conduct an administrative evaluation to determine the adequacy of the application in relation to grant regulations and to technical and program evaluation to determine the merit and relevance of the project. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. For competitions involving research that are administered as part of the Economic and Decision Sciences program, OP will continue to adhere to the policies established by ORD, NCER and their Science to Achieve Results (STAR) program, which includes engaging an external technical peer review panel to evaluate the technical merits of research proposals.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days for most competitive solicitations. For competitive solicitations administered under the Economic and Decision Sciences program,

the time for notification is approximately 240 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Generally, EPA may sometimes choose to either fully or incrementally fund awarded grants and cooperative agreements for Environmental Policy and Innovation. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, availability of funds, and Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: CERCLA 311(b)(3) requires that "to the maximum extent possible," EPA enter into an appropriate cost sharing arrangement with recipients of grants and cooperative agreements relating to innovative and alternative treatment technologies. EPA may waive the 311(b)(3) cost sharing requirement in appropriate cases. Matching requirements may be established in program guidance or the terms of competitive solicitations.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. Grants and cooperative agreements may be incrementally or fully funded. This determination will be made by the EPA. See the following for information on how assistance is awarded/released: Most assistance awarded under this CFDA will either be released as a lump sum payment, paid on a quarterly basis, or paid on a monthly basis.

Reports:

For the economic research grants, recipients are required to prepare final written reports that summarize their research project and findings, and cite work (presentations, publications) supported with the EPA grant. No content available. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Specific reporting requirements are also identified in the Grant Regulations 2 CFR Parts 200 and 1500.

In general, it is the policy of the Office of the Administrator to require Progress Reports from recipients on a routine schedule - either quarterly, semiannually or on an annual basis. This requirement, or a different requirement when applicable, will be spelled out in solicitations issued under this CFDA, and confirmed in the Terms and Conditions section for funded assistance agreements. No content available. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

The record retention requirements of 2 CFR 200 and 1500 are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. Recipients must maintain all records until 3 years from the date of submission of final expenditure reports. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$800,000; FY 15 Estimate Not Available(Exp: 800000); and FY 16 est \$800,000 - OBLIGATIONS:

For awards directed at smart growth issues, the total amount awarded through new awards and incremental funding was \$0.8 million in FY 2014, and \$0.8 million in FY 2015. Projected new awards and incremental funding are expected to be \$0.8 million in FY 2016.

For awards directed at economic analysis and research topics, including funding provided under the Economic and Decision Sciences program, the following distributions and projections are as follows: in FY 2014 there were no new awards or incremental funding of existing assistance agreements; in FY 2015 there are also no new awards or incremental funding anticipated for new or existing assistance agreements; and for FY2016 availability of funds for new awards and incremental funding of existing research grants remains uncertain. If the Pres Bud 2016 submission is accepted, it is anticipated that a new competitive solicitation in the range of \$300-\$500K will be issued, subject to other agency priorities.

Range and Average of Financial Assistance:

For recent awards related to smart growth, the range is from \$25,000 to \$200,000, with an average around \$100,000.

For most recent competitively awarded grants in the area of economics - related to Environmental Economic Workshops: range is \$35,000 - \$95,000, with an average award of ~\$70,000. Related to Environmental Economics Dissertations and Early Career Research: range is \$35,000 - \$75,000, with an average of ~\$60,000. Related to Environmental Economic Research: range is \$75,000-\$300,000, with an average of ~\$250,000. There were no earmarks included for the period FY10-FY16, and we continue to not expect to have any earmarks in FY2016.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Some of the research underway in FY2014, and workshops that were hosted in FY2014 (both using prior year's funding) include:

- Camp Resources workshop will be held during the summer (normally in August each year). The workshop typically consists of 15-20 full-length presentations by graduate students and young professionals, and 11 research sketches in this year's schedule. The workshop features faculty mentors who provided constructive feedback to presenters, and also presented an overview of their current research interests. In addition to featured mentors, Camp Resources normally enjoys support from an outstanding community of environmental and resources economists at NC State, Duke, RTI International, and throughout North Carolina and the Southeast who regularly attend and participate in the workshop. The outcomes of the workshop normally included (1) providing a forum for the students and young professionals to present

research at its early stages and receive significant feedback from senior researchers; (2) giving the young researchers opportunities to expand their research and presentation skills by interacting in a small, less-formal workshop setting with top scholars in the field of environmental economics; (3) creating a network for future interactions and collaborations among those who have attended; and (4) providing attendees with a concentrated learning experience on cutting edge methods within environmental and resource economic research (e.g., the tutorial session). The workshop serves to improve the capabilities of young environmental economists to conduct state-of-the-art research, thus advancing our knowledge on a wide array of environmental economics principles and tools that lead to improved protection of human health and the environment.

An ongoing research grant examines market impacts and distributional consequences of pollution control mechanisms in the context of multiple interacting policies and market failures. This research project is developing a series of complementary analyses for understanding the economic efficiency, environmental effectiveness, and distributional effects of a broad range of policies, accounting for how different policy instruments interact with one another, and how they perform in the presence of induced technological change. The methods will be applied to the two sectors of greatest import for carbon dioxide and conventional pollutant emissions: electricity generation and transportation. First, to ground the analysis, the proposal will conduct a comprehensive review of existing policies and major proposals for reducing emissions and promoting clean technologies in these sectors, not only at the Federal and state levels in the U.S., but also common practices abroad. Next, the proposal will develop an analytical model of consumer, supplier, and overall market responses to these kinds of policy interventions, in order to develop intuition about interactions among policies. Importantly, in addition to an emissions externality, the model will incorporate two types of market imperfections that often motivate technology-specific policies: undervaluation of energy efficiency by consumers and spillovers to knowledge accumulation by producers. A numerical model will follow the conceptual analysis, and the proposal will carefully parameterize it for our two sectors. The ultimate goal is to provide a comprehensive guide for policymakers on how the existing abundance of policies and policy options should be understood, coordinated, and possibly reformed. Fiscal Year 2015: Some of the research underway in FY2015, and workshops that were hosted in FY2015 (both using prior year's funding) include:

- Camp Resources workshop will be held during the summer (normally in August each year). The workshop typically consists of 15-20 full-length presentations by graduate students and young professionals, and 11 research sketches in this year's schedule. The workshop features faculty mentors who provided constructive feedback to presenters, and also presented an overview of their current research interests. In addition to featured mentors, Camp Resources normally enjoys support from an outstanding community of environmental and resources economists at NC State, Duke, RTI International, and throughout North Carolina and the Southeast who regularly attend and participate in the workshop. The workshop serves to improve the capabilities of young environmental economists to conduct state-of-the-art research, thus advancing our knowledge on a wide array of environmental economics principles and tools that lead to improved protection of human health and the environment.

A second workshop series - the "Occasional California Workshop on Environmental and Resource Economics" - is hosted by University of California-Santa Barbara and has been supported under this CFDA. This series of workshops - held roughly every 12-18 months - focuses on supporting new dissertations and are designed for junior scholars, graduate students and junior faculty. The primary objective is to help such scholars develop better research ideas and programs, as well as assist in communication among colleagues. Thus efforts are made to facilitate attendance and participation by PhD students from around California and the rest of far Western North America (Washington, Oregon, BC, Nevada, Arizona, northwest Mexico, Hawaii). The typical workshop draws approximately 100 participants for the 1-2 day event. Presentations are of two types - short 5-10 minute presentations for which no papers are involved and longer (30 minute) presentations with discussants. In terms of results, organizers expect the field of environmental and resource economics to be strengthened by this effort, attracting economists and graduate students to the field of environmental economics through participation in the workshop.

An ongoing research grant examines market impacts and distributional consequences of pollution control mechanisms in the context of multiple interacting policies and market failures. This research project is developing a series of complementary analyses for understanding the economic efficiency, environmental effectiveness, and distributional effects of a broad range of policies, accounting for how different policy instruments interact with one another, and how they perform in the presence of induced technological change. The methods will be applied to the two sectors of greatest import for carbon dioxide and conventional pollutant emissions: electricity generation and transportation. First, to ground the analysis, the proposal will conduct a comprehensive review of existing policies and major proposals for reducing emissions and promoting clean technologies in these sectors, not only at the Federal and state levels in the U.S., but also common practices abroad. Next, the proposal will develop an analytical model of consumer, supplier, and overall market responses to these kinds of policy interventions, in order to develop intuition about interactions among policies. Importantly, in addition to an emissions externality, the model will incorporate two types of market imperfections that often motivate technology-specific policies: undervaluation of energy efficiency by consumers and spillovers to knowledge accumulation by producers. A numerical model will follow the conceptual analysis, and the proposal will carefully parameterize it for our two sectors. The ultimate goal is to provide a comprehensive guide for policymakers on how the existing abundance of policies and policy options should be understood, coordinated, and possibly reformed. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Environmental Policy and Innovation grants and cooperative agreements are subject to EPA's General Grant Regulations (2 CFR 200 and 1500). Costs will be determined according to 2 CFR 200 Subpart E.

Regional or Local Office:

See Regional Agency Offices. EPA encourages potential applicants to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog, and the Headquarters program contacts listed below.

Headquarters Office:

Brett Snyder, USEPA Headquarters, Ariel Rios Building, 1200 Pennsylvania Avenue, N. W., Mail Code: 1809T, Washington, District of Columbia 20460

RELATED PROGRAMS:

66.034 Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act; 66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act; 66.813 Alternative or

Innovative Treatment Technology Research, Demonstration, Training, and Hazardous Substance Research Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No new environmental economic research grants were funded in FY2013 or FY2014 to date, as a result of reduced appropriations that resulted in limited funding, and other priorities in the office. Fiscal Year 2015: No new environmental economic research grants were funded in FY2014 or FY2015 to date, as a result of reduced appropriations that resulted in limited funding, and other priorities in the office. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

Non-competitive proposals are judged for: (a) technical merit in terms of: (1) strengths and weaknesses of the project; (2) adequacy of overall project design; (3) competency of proposed staff; (4) suitability of applicant's available resources; (5) appropriateness of the proposed project period and budget; and (6) probability that the project will accomplish stated objectives; and, for (b) program interest in terms of: (1) the need for the proposed project; and (2) relationship to program objectives.

66.612 SURVEYS, STUDIES, INVESTIGATIONS, TRAINING DEMONSTRATIONS AND EDUCATIONAL OUTREACH RELATED TO ENVIRONMENTAL INFORMATION AND THE RELEASE OF TOXIC CHEMICALS

Support for TRI Capacity Building, Education and Outreach, and Clearinghouse

FEDERAL AGENCY:

Office of Environmental Information, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Clean Water Act, Section 104; Clean Air Act, Section 103; Toxic Substances Control Act, Section 10; Safe Drinking Water Act, Section 1442; Solid Waste Disposal Act, Section 8001.

OBJECTIVES:

To provide funding in support of surveys, studies, investigations, training/demonstrations, educational outreach and special purpose assistance as they relate to environmental information and the release of toxic chemicals. The purpose is to educate the public on how to obtain access to and effectively use environmental information, including information about toxic chemical releases and other waste management activities. Through this grant program, EPA intends to enhance the public's understanding of environmental data, in general, and the potential risks and hazards of releases of toxic chemicals to communities as they relate to facilities covered under the Toxic Release Inventory (TRI) Program; support efforts to assist state, tribal and local governments improve management of environmental information; identify priorities and opportunities for the public and state, tribal and local governments to work with industry to reduce toxic chemical disposal or other releases and potential risks associated with them; and establish reduction targets and measure progress toward reduction goals.

Other program objectives are to access TRI and other toxic chemical information to other organizations so they can help facilitate and manage activities that will further promote analysis, understanding, and use of TRI and other toxic chemical data to prevent pollution, improve environmental performance, and reduce the hazards/risks associated with toxic chemical releases within communities. Also through this grant program, EPA intends to enhance public understanding of environmental information generally and the potential risks and hazards of releases of toxic chemicals to their communities; support efforts to assist interested stakeholders (e.g., members of the public, industry, community organizations, academic institutions, state, tribal and local officials, non-governmental organizations, etc.), to improve the management, access, understanding and use of TRI and other toxic chemical information; and to utilize TRI and related information to prioritize community action and develop opportunities for interested stakeholders to work with industry to achieve beneficial outcomes such as improved data quality, environmental compliance, and reduced toxic chemical disposal or other releases and

associated potential risks.

Funding Priority - Fiscal Year 2014: Topics and activities include, but are not limited to the following:

Expansion of TRI stakeholder education and outreach; and development of a summary of states TRI programs' status reports. Use of various avenues to deliver TRI related training to interested stakeholders such as online seminars, and a national training conference. Engagement with new communities and organizations that could benefit from increased awareness, understanding and use of TRI. Promotion of access and use of TRI and other related data among grass-roots community organizations such as producing analyses or training community leaders.

Funding Priority - Fiscal Year 2015: Topics and activities include, but are not limited to the following:

- Expansion of TRI stakeholder education and outreach;
- Use of various avenues to deliver TRI related training to interested stakeholders such as online seminars, and a regional training workshop;
- Engagement with new communities and organizations that could benefit from increased awareness, understanding and use of TRI;
- Promotion of access and use of TRI and other related data among grass roots community organizations such as producing analyses or training community leaders;
- Exploration and development of a TRI-focused mobile application; and
- Planning activities for a fall 2016 National Training Conference.

Funding Priority - Fiscal Year 2016: - Expansion of TRI stakeholder education and outreach;

- Use of various avenues to deliver TRI related training to interested stakeholders such as online seminars;
- Engagement with new communities and organizations that could benefit from increased awareness, understanding and use of TRI;
- Promotion of access and use of TRI and other related data among grass roots community organizations such as producing analyses or training community leaders; and
- Planning activities for a fall 2016 National Training Conference.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development. Costs will be determined in accordance with 2 CFR 200 Subpart E

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to states, the District of Columbia, U.S. territories (for example, American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands), federally recognized Indian tribes, intertribal consortia of federally recognized tribes, public and private colleges and universities, and other public or private nonprofit organizations. Nonprofit organizations exempt from taxation under Section 501(c)(4) of the Internal Revenue Code that lobby are not eligible for financial assistance. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to

compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State, territory, city, town, county, and regional governments; federally recognized Indian tribes and intertribal consortia of federally recognized tribes; public institutions and industries subject to EPA regulatory reporting requirements; and the public.

Credentials/Documentation:

Applicants must demonstrate that they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA will ask applicants or principle investigators to provide curricula vitae and relevant publications. EPA may ask for documentation of nonprofit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

EPA awards grants and cooperative agreements supporting surveys, studies and investigations, demonstrations, educational outreach and special purpose projects that consider the relevance to EPA's mission and the likelihood of the success of proposed projects. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for surveys, studies, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds, and the Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements. EPA awarded one (five year) cooperative agreement in FY 13. Incremental funding is contingent upon satisfactory progress as certified by the EPA Project Officer, the availability of funds, and EPA priorities.

FY 13 - \$275,000

FY 14 - \$175,000

FY 15 - \$175,000

FY 16 - \$200,000 (estimated)

FY 17 - \$175,000 (estimated).

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. See the following for information on how assistance is awarded/released: The Agency is incrementally funding this grant on an annual basis for an expected five (5) years.

Reports:

No program reports are required. No cash reports are required. EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require quarterly, interim, and final progress reports, and financial, equipment, and invention reports. Reporting requirements are also identified in the Grant Regulations, 2 CFR Parts 200 and 1500.

Quarterly progress reports and a detailed final report are required. Quarterly progress reports summarize technical progress, planned activities for next quarter and summary of expenditures. A summary of expenditures should be included in the quarterly progress reports. Annual performance monitoring is required in July of each year of the grant.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Parts 200 and 1500 are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$175,000; FY 15 est \$175,000; and FY 16 est \$200,000 - FY13 \$275,000; FY14 \$175,000; FY15 \$175,000, FY 16 \$200,000 (estimated); FY 17 \$175,000 (estimated).

Range and Average of Financial Assistance:

Estimated \$175,000 to \$225,000 with an average of \$200,000 annually.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Populated, maintained, and monitored the collaborative website (www.chemicalright2know.org), which allowed various stakeholders to access information about the TRI program, post discussion topics, position papers, and original research and analyses on an array of TRI and other related topics. Researched and interviewed state TRI coordinators to develop a report summarizing the status of state TRI programs. Fiscal Year 2015: Dillard University had a successful workshop in Houston. Several speakers, including two from EPA, provided the audience of over 100 people with information regarding TRI. Positive feedback was provided. Four webinars were conducted in each quarter of FY 2015, and the presentations are posted on the Deep South Center for Environmental Justice. Meetings were held to assist Dillard in the development of a TRI app. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Surveys, studies, and investigations grants and cooperative agreements are subject to EPA's General Grant Regulations 2 CFR Parts 200 and 1500

Costs will be determined on accordance with 2 CFR 200 Subpart E

Research and demonstration projects are subject to 40 CFR Part 40. Training grants are subject to 40 CFR Part 45.

Regional or Local Office:

See Regional Agency Offices. EPA encourages potential applicants to communicate with the appropriate EPA Regional Office listed in http://www.epa.gov/tri/contacts_regional.htm or in Appendix IV of the Catalog, and the Headquarters program contacts listed below.

EPA has communicated with Cynthia Peurifoy, Region 4 Environmental Justice Coordinator to ask assistance in engaging a speaker, Representative Harold Mitchel. Region 4 was also made aware of this grant.

Headquarters Office:

Margaret Conomos EPA Headquarters, EPA West, 1200 Pennsylvania Avenue, N. W. Mail Code: 2842T, Washington, District of Columbia 20460 Email: Conomos.Margaret@epa.gov Phone: 202-566-0671

Website Address:

<http://www.epa.gov/oei>

RELATED PROGRAMS:

66.034 Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act; 66.424 Surveys, Studies, Investigations, Demonstrations, and Training Grants - Section 1442 of the Safe Drinking Water Act; 66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act; 66.510 Surveys, Studies, Investigations and Special Purpose Grants within the Office of Research and Development

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 2011 funding was used to support projects in FY 2014, such as:

- Population, maintenance and monitoring of the collaborative website (www.chemicalright2know.org); and

- Researching and interviewing state TRI coordinators to develop a report summarizing the status of state TRI programs. Fiscal Year 2015: Workshop in Houston, four webinars, development of TRI App, and initial planning discussions for fall 2016 TRI National Training Conference. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. EPA selects proposed Surveys, Studies, and Investigations projects for funding based on factors such as relevancy to EPA's mission, technical merit, and the likelihood of success. If EPA issues a solicitation for applications for a particular project or group of projects, the solicitation will identify specific criteria.

66.700 CONSOLIDATED PESTICIDE ENFORCEMENT

COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 23, Public Law 92-516, 7 U.S.C 136; Federal Insecticide, Fungicide, and Rodenticide Act, Section 23, Public Law 94-140, 7 Stat. 136; Federal Insecticide, Fungicide, and Rodenticide Act, Section 23, Public Law 95-396, 7 U.S.C 136.

OBJECTIVES:

To: (a) Assist states, territories and possessions of the U.S., including the District of Columbia and Indian tribes, in developing and maintaining comprehensive pesticide programs that address all aspects of pesticide enforcement, and special pesticide initiatives; (b) sponsor cooperative surveillance, monitoring and analytical procedures; and (c) encourage regulatory activities within the states. State, territorial, and tribal agencies participating in this cooperative agreement program receive funds to support and strengthen their pesticide compliance programs, including pesticide compliance monitoring, inspection and enforcement activities.

Funding Priority - Fiscal Year 2014: Two specific compliance monitoring and enforcement activities have been identified as major priorities for this program: reducing chemical risks and protecting the under served and vulnerable populations. Other typical program activities include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at producing facilities and in the retail marketplace to ensure industry compliance with registration, classification and labeling requirements; and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls and warning notices.

Funding Priority - Fiscal Year 2015: Grantees must conduct activities related to: (1) basic pesticide program; (2) pesticide worker safety: WPS; (3) pesticide worker safety: pesticide applicator certification; (4) pesticide container and containment regulations; (5) soil fumigation and soil fumigants; and (6) pesticides in water. Grantees also must chose two additional programmatic areas from the following: (1) endangered species protection; (2) bed bugs; (3) pollinator protection; (4) spray drift; (5) state and tribal coordination and communication; (6) supplemental distributors; (7) contract manufacturers; and (8) imports. These activities include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at producing facilities and in the retail marketplace to ensure industry compliance with registration, classification and labeling requirements; and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls and warning notices.

Funding Priority - Fiscal Year 2015: Grantees must conduct activities related to: (1) basic pesticide program; (2) pesticide worker safety: WPS; (3) pesticide worker safety: pesticide applicator certification; (4) pesticide container and containment regulations; (5) soil fumigation and soil fumigants; and (6) pesticides in water. Grantees also must chose two additional programmatic areas from the following: (1) endangered species protection; (2) bed bugs; (3) pollinator protection; (4) spray drift; (5) state and tribal coordination and communication; (6) supplemental distributors; (7) contract manufacturers; and (8) imports. These activities include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at producing facilities and in the retail marketplace to ensure industry compliance with registration, classification and labeling requirements; and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls and warning notices.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Available for costs specifically incurred in purchasing inspectional supplies and

equipment; reimbursing State travel and per diem expenses associated with the performance of grant outputs; purchasing essential laboratory equipment and supplies; paying salaries for personnel performing inspectional, analytical and/or managerial functions related to grant activities, and for administrative costs associated with the performance of grant outputs. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. There are no specific restrictions on the use of this assistance.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State agencies having pesticide compliance program responsibilities in each state, territory and possession of the United States, including the District of Columbia and Indian Tribes.

Beneficiary Eligibility:

States, Federally Recognized Indian Tribal Governments, U.S. Territories and the District of Columbia.

Credentials/Documentation:

The application must supply evidence of legal authority to conduct pesticide compliance activities contemplated under the grant and a workable program officially adopted for the agency. Costs will be determined in accordance with the provisions of 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Discussions or informal meetings with Regional program offices concerning program preparation are advisable. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requests for application form and completed applications should be submitted to the appropriate EPA Regional Office (see Appendix IV of the Catalog). The enforcement program is excluded from coverage under 2 CFR 200 and 1500. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Each application shall be subjected to administrative coordination to determine adequacy in relation to grant regulations, and to technical and program evaluation to determine merit and relevancy of the project. States will be notified of Federal Assistance Awards through the Federal Assistance Awards Data System (FAADS). Applicants may use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 60 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Applicants must reapply.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Projects are normally funded for a 12-month period. Payments will be on an advance letter of credit or reimbursement basis; recipient must request the initial advance payment on SF 270, Request for Advance or Reimbursement. See the following for information on how assistance is awarded/released: Other.

Reports:

As requested in the Annual Program Guidance for inclusion in the grant award; quarterly with mid-year and year-end evaluations. Program reports are required. No cash reports are required. Progress reports are required. Expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records including all documents to support entries on accounting records and to substantiate charges to each cooperative agreement must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of the submission of the annual financial status report or longer if questions still remain, such as those raised as a result of audit.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$18,050,000; FY 15 est \$17,931,647; and FY 16 est \$18,050,000 - FY 14 - \$18,050,000; FY 15 - \$17,931,647.19; FY 16 - \$18,050,000.

Range and Average of Financial Assistance:

\$32,000 (territory) to \$710,000; average \$250,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The Consolidated Pesticide Enforcement Cooperative Agreements are continuing environmental program grants. Seventy-two applications for pesticide enforcement grants were received and 72 grants were awarded in fiscal year 2014. Agencies that participated in the federal cooperative agreement program received funds to support and strengthen pesticide compliance monitoring, inspection, and enforcement activities. Typical program activities included inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at production facilities and in the retail marketplace to ensure industry compliance with registration, classification, and labeling requirements; and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls, and warning notices. The states developed implementation plans for special pesticide initiatives. States disseminated information and materials related to these pesticide initiatives. States, territories, and tribes that participated in the pesticide enforcement cooperative agreements program conducted 83,321 compliance monitoring inspections in FY 2014. These inspections will be conducted at agricultural establishments, pesticide producers and retailers, ports of entry, at pesticide applicators, as well as at other site where pesticides were distributed, sold, or

used. These inspections resulted in 15,856 enforcement actions. Fiscal Year 2015: The Consolidated Pesticide Enforcement Cooperative Agreements are continuing environmental program grants. It is anticipated that 72 applications for pesticide enforcement grants will be received and 72 grants awarded in fiscal year 2015. Agencies participating in the federal cooperative agreement program receive funds to support and strengthen pesticide compliance monitoring, inspection, and enforcement activities. Typical program activities include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at production facilities and in the retail marketplace to ensure industry compliance with registration, classification, and labeling requirements; and initiation of appropriate enforcement action when violations are detected including civil and criminal prosecution, stop sale orders, seizures, recalls, and warning notices. The states will also develop implementation plans for special pesticide initiatives. States will be responsible for dissemination of information and materials related to these pesticide initiatives. States, territories, and tribes that are participating in the pesticide enforcement cooperative agreements program are expected to conduct approximately 82,000 compliance monitoring inspections in FY 2015. These inspections will be conducted at agricultural establishments, pesticide producers and retailers, ports of entry, at pesticide applicators, as well as at other site where pesticides were distributed, sold, or used. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" 2 CFR 200; Environmental Protection Agency, State and Local Assistance (40 CFR Part 35 Subpart A).

Regional or Local Office:

See Regional Agency Offices. Contact appropriate EPA Regional Office listed in Appendix IV of the Catalog.

Headquarters Office:

Elizabeth Vizard Office Of Compliance, Office of Enforcement and Compliance Assurance (2227A), EPA, Washington, District of Columbia 20460 Email: vizard.elizabeth@epa.gov Phone: (202) 564-5940

Website Address:

<http://www.epa.gov/compliance/state/grants/fifra.html>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: State agencies that participated in the federal/state cooperative agreement program received funds to support and strengthen their pesticide compliance and enforcement programs, including pesticide compliance monitoring, inspection and enforcement activities as well as special pesticide initiatives activities. Typical program activities included inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at production facilities and in the retail marketplace to ensure industry compliance with registration, classification, and labeling requirements; inspections and investigations at ports of entry to assess compliance with import and export requirements; and initiation of appropriate enforcement action when violations are detected, including civil and criminal prosecution, stop sale orders, seizures, recalls and notices. Fiscal Year 2015: State agencies participating in the federal/state cooperative agreement program receive funds to support and strengthen their pesticide compliance and enforcement programs, including pesticide compliance monitoring, inspection and enforcement activities as well as special pesticide initiatives activities. Typical program activities include inspections and observations at pesticide application sites to ensure user compliance with label directions and acceptable use practices; inspections of pesticide products at production facilities and in the retail marketplace to ensure industry compliance with registration, classification, and labeling requirements; inspections and investigations at ports of entry to assess compliance with import and export requirements; and initiation of appropriate enforcement action when violations are detected, including civil and criminal prosecution, stop sale orders, seizures, recalls and notices. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Each application will be reviewed by the Environmental Protection Agency according to the following criteria: 1) Need: The need for the development, improvement and/or maintenance of a comprehensive pesticides enforcement program within the State/Tribe that includes enforcement, new initiative programs, and programs that address existing environmental problems, potential problems, and/or existing exposed populations related to the use of pesticides. 2) State/Tribal Pesticide Activity: The relative amount of pesticide production, formulation and use in a State/Tribe, and the potential risk to human health and the environment from pesticide misuse or abuse. 3) Long-Term Impact: The potential of the cooperative agreement to have a long-term beneficial impact on human health and the environment resulting from the comprehensive pesticide program. 4) Effectiveness of program: The past level and effectiveness of the State/Tribal pesticide program. 5) Level of activity: As indicated by such factors as numbers of farms and numbers of applicators. 6) Magnitude of effort: Need to accomplish expected outputs and products: and 7) Ability to accomplish output goals.

66.701 TOXIC SUBSTANCES COMPLIANCE MONITORING COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Office of Enforcement and Compliance Assurance, Environmental Protection Agency

AUTHORIZATION:

Toxic Substances Control Act (TSCA), Section 28&404(g), Public Law 102-550, 15 U.S.C 2601.

OBJECTIVES:

1) To assist States, including the District of Columbia, the Commonwealth of Puerto Rico, Guam, America Samoa, the Northern Marianas, the Trust Territories of the Pacific Islands, the Virgin Islands and Indian Tribes in developing and maintaining compliance monitoring programs to prevent or eliminate unreasonable risks to health or the environment associated with chemical substances or mixtures within the States, specifically Asbestos, PCB, and Lead-based paint; 2) encourage regulatory activities within the States to establish their own programs for Lead-based paint and Asbestos (waiver programs); and 3) fund enforcement activities for Asbestos waiver state programs and Lead-based paint programs. EPA may provide funding for cooperative compliance monitoring grants to States and Tribes under TSCA to conduct inspections to ensure compliance with the PCB regulations, the Asbestos-in-Schools requirements (inspections at charter schools, public schools, private, non-profit schools and religious schools), the Model Accreditation Plan (MAP), TSCA section 6 Ban and Phase Out Rule, and the TSCA Asbestos Worker Protection Standards and to conduct Lead-based paint activities. Authorized States also conduct enforcement for the Lead-based program. States that have obtained an EPA waiver from the Asbestos regulation (Subpart E of Part 763) also have enforcement responsibilities.

Funding Priority - FY 2014: Funding priorities in FY 2014 for the TSCA PCB and Asbestos programs will be: 1) existing compliance monitoring programs to ensure they continue to meet established standards; 2) activities leading to waiver status for Asbestos programs; 3) activities as necessary for meeting training requirements necessary for obtaining and keeping EPA credentials in those programs which require the use of EPA credentials (the PCB compliance monitoring programs and Asbestos programs in non-waiver states); 4) new programs that provide inspection activity where there is an identified need including, but not limited to, Environmental Justice areas.

Funding priorities in FY 2014 for States with authorized Lead-based paint programs will focus on individuals and firms which conduct lead abatement and renovation and their continuance with the training and certification, and work practice standards requirements. States with authorized renovation notice rules will also monitor those requirements.

Funding priorities in FY 2015 for the TSCA PCB and Asbestos programs will be: 1) existing compliance monitoring programs to ensure they continue to meet established standards; 2) activities leading to waiver status for Asbestos programs; 3) activities as necessary for meeting training requirements necessary

for obtaining and keeping EPA credentials in those programs which require the use of EPA credentials (the PCB compliance monitoring programs and Asbestos programs in non-waiver states); 4) new programs that provide inspection activity where there is an identified need including, but not limited to, Environmental Justice areas.

Funding priorities in FY 2015 for States with authorized Lead-based paint programs will focus on individuals and firms which conduct lead abatement and renovation and their continuance with the training and certification, and work practice standards requirements. States with authorized renovation notice rules will also monitor those requirements.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Grant funds are available for costs specifically incurred by States and Tribes to develop, enhance and maintain comprehensive compliance monitoring/enforcement programs under TSCA, specifically PCBs, Asbestos, and Lead-based paint. Funded activities may include inspector training, inspection supplies, and laboratory costs, including personnel and equipment; reimbursement for salaries, travel, training, and per diem expenses for inspectors, analysts, and program managers; and other functions related to grant activities. For those programs where inspections are conducted using EPA credentials, prior to conducting inspections under the Grant, the State/Tribe must have an authorization agreement and the inspectors must complete the minimum inspector training, including health and safety training, and conduct inspections pursuant to the September 2004 Guidance for Issuing Federal EPA Inspector Credentials to Authorize Employees of State/Tribal Governments to Conduct Inspections on Behalf of EPA. They must also have a signed authorization agreement with EPA.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Assistance agreement awards under this program may involve generating or using environmental data, such as, environmental sampling, field measurements, and/or laboratory analyses. Further information on the "POLICY TO ASSURE THE COMPETENCY OF ORGANIZATIONS GENERATING ENVIRONMENTAL MEASUREMENT DATA UNDER AGENCY-FUNDED ASSISTANCE AGREEMENTS" should refer to the following website: <http://www.epa.gov/fem/pdfs/competency-policy-aaia-new.pdf>.

Applicant Eligibility:

For the PCB and Asbestos programs, States/Tribes should have toxic substance compliance responsibilities and be designated as the lead agency with the authority to enter into these cooperative agreements. For the Lead-based paint program, state agencies, Indian tribes, and tribal consortiums that have toxic substance compliance responsibilities, who have the authority to enter into these cooperative agreements, and who have their own lead laws in place are eligible to apply for assistance under the TSCA Compliance Monitoring Grant.

Beneficiary Eligibility:

For PCB, Asbestos and the Lead-based paint programs: States, including the District of Columbia, the Commonwealth of Puerto Rico, Guam, America Samoa, the Northern Marianas, the Trust Territories of the Pacific Islands, the Virgin Islands and Indian Tribes.

Credentials/Documentation:

The applicant must supply evidence of legal authority to conduct toxic

substance compliance program activities contemplated under the grant and a workable program officially adopted for the agency. Costs will be determined in accordance with 2 CFR Part 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Discussions or informal meetings with Regional program offices concerning program preparation are advisable. The standard application forms as furnished by the federal agency and required by OMB Circular No. A-102 must be used for this program. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. Applicants will follow 2 CFR Parts 200 and 1500.

Award Procedure:

Each application shall be subjected to administrative coordination to determine adequacy in relation to grant regulations, and to technical and program evaluation to determine merit and relevancy of the project. States will be notified of Federal Assistance awards through the Federal Assistance Awards Data System (FAADS). Applicants may use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 60 days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Applicant must reapply every year.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Under TSCA Section 28, no grant may exceed 75 percent of the establishment and operation costs of such a program during the period for which the grant is made. Thus, recipients must contribute 25% of the total costs for activities conducted under Section 28 of TSCA (i.e., the PCB and Asbestos grants).

There are no cost-sharing or matching fund requirements for Lead-based Paint enforcement grants under Section 404(g).

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Cooperative Agreements are normally funded for a 12-month period. Payments will be on an advance letter of credit or reimbursement basis; recipients must request the initial advance payment on the form SF 270, Request for Advance or Reimbursement. See the following for information on how assistance is awarded/released: Other.

Reports:

As required in the annual National Program Guidance for inclusion in the grant award, grantees must submit mid-year and year-end evaluations. For inspections conducted using credentials issued by EPA to the state or tribal employee, the inspection report must be submitted to the regional office for review pursuant to the authorization agreements. Program reports are required. No cash reports are required. Progress reports are required. No expenditure reports are required. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each cooperative agreement, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of the submission of the annual financial status report or longer if questions still remain, such as those raised as a result of audit.

Account Identification:

68-0103-0-1-304 - STAG.

Obligations:

(Cooperative Agreements) FY 14 \$4,919,000; FY 15 est \$4,886,700; and FY 16 est \$4,919,000 - FY 14: \$4,919,000; FY 15: \$4,886,700; FY 16: \$4,919,000 (proposed).

Range and Average of Financial Assistance:

For PCB and Asbestos: \$21,000 to \$204,000/year; \$113,000/year average.

For Lead: \$43,000 per state/tribe.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Twenty-six Asbestos, nine PCB, and forty-two Lead cooperative agreements were awarded to States in FY 2014. A similar number are expected to be awarded in FY 2015. Agencies participating in the TSCA Compliance Monitoring Cooperative Agreements program receive funds to support and enhance toxic substance compliance monitoring, assurance and enforcement activities.

Typical program activities for the Asbestos grant program include compliance inspections at facilities regulated under the AHERA program plus preparation of inspection reports. For waiver states, work includes case preparation and taking enforcement action. Non-waiver states using EPA credentials submit their inspection reports to EPA for case review and appropriate enforcement action. In FY 2014, 1705 compliance monitoring inspections were conducted. EPA expects similar inspection numbers in FY 2015.

Typical program activities for the PCB grant program include compliance inspections at facilities regulated under the TSCA PCB program, and submission of inspection reports to EPA for review and enforcement action, if appropriate. In FY 2014, 320 inspections were conducted. EPA expects similar inspection numbers in FY 2015.

Typical program activities for the Lead-based paint grant program include compliance inspections at facilities regulated under the TSCA Lead-based paint program plus initiation of appropriate enforcement action by authorized states or referral to EPA for case review and appropriate enforcement action when violations are detected. Fiscal Year 2015: Program Accomplishments will become available after October 1, 2015. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

EPA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments (2 CFR Parts 200 and 1500); Environmental Protection Agency, State and Local Assistance (40 CFR Parts 35 Subpart A), October 12, 1982.

Regional or Local Office:

See Regional Agency Offices. For TSCA Compliance Monitoring program information: Elizabeth Vizard, Chief, Pesticides, Waste and Toxics Branch, Monitoring, Assistance and Media Programs Division, Office of Enforcement and Compliance Assurance, (2227A), U.S. EPA, 1200 Pennsylvania Ave. NW., Washington, DC 20460; Telephone: (202) 564-5940; FAX: (202)-564-0050; e-mail: Vizard.Elizabeth@epa.gov.

For Lead-based paint program information: Shirley Fan, Pesticides, Waste and Toxics Branch, Monitoring, Assistance and Media Programs Division, Office of Enforcement and Compliance Assurance (2227A), U.S. EPA, 1200 Pennsylvania Ave. NW., Washington, DC 20460; Telephone: (202) 564-2425; FAX: (202) 564-0050; e-mail: Fan.Shirley@epa.gov

For PCBs and Asbestos (AHERA) program information: Everett Bishop, Pesticides, Waste and Toxics Branch, Monitoring, Assistance and Media Programs Division, Office of Enforcement and Compliance Assurance (2227A), U.S. EPA, 1200 Pennsylvania Ave. NW., Washington, DC 20460; Telephone: (202) 564-7032; FAX: (202) 564-0050; e-mail: Bishop.Everett@epa.gov.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: State agencies participating in the Toxic Substances Compliance Monitoring Cooperative Agreement program receive funds to support and conduct compliance monitoring (inspection) and enforcement activities, as appropriate for the specific program. Examples of program activities that may be funded include, targeting activities, inspections/investigations to evaluate compliance, follow-up inspections, initiation of appropriate enforcement action when violations are detected, inspector training, equipment for inspections, development of compliance monitoring strategies/targeting approaches, development of software or e-forms capable of automating inspection data collection activities in the field. The majority of the funds are used by the states to conduct compliance monitoring inspections. Those states that are authorized to enforce the Lead-based paint program or are "waiver" states under the AHERA program can use these funds to enforce the regulation, as appropriate. Fiscal Year 2015: State agencies participating in the Toxic Substances Compliance Monitoring Cooperative Agreement program receive funds to support and conduct compliance monitoring (inspection) and enforcement activities, as appropriate for the specific program. Examples of program activities that may be funded include, targeting activities, inspections/investigations to evaluate compliance, follow-up inspections, initiation of appropriate enforcement action when violations are detected, inspector training, equipment for inspections, development of compliance monitoring strategies/targeting approaches, development of software or e-forms capable of automating inspection data collection activities in the field. The majority of the funds are used by the states to conduct compliance monitoring inspections. Those states that are authorized to enforce the Lead-based paint program or are "waiver" states under the AHERA program can use these funds to enforce the regulation, as appropriate. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Each application will be reviewed by the Environmental Protection Agency according to criteria including the following: (1) Need: The need for the development, improvement, and/or maintenance of a comprehensive compliance monitoring/enforcement program within the State; (2) Level of Activity: The amount of regulated chemicals and facilities, and the potential risk to human health and the environment; (3) Long-Term Impact: The potential of the cooperative agreement to have a long-term beneficial impact on human health and the environment resulting from the compliance program; and (4) Effectiveness of program: The past level and effectiveness of the State regulatory program, number of inspections conducted by the state and number of trained inspectors that have completed the minimum training set forth in the September 30, 2004 "Guidance for Issuing Federal EPA Inspector Credentials to Authorize Employees of State/Tribal Governments to Conduct Inspections on Behalf of EPA."

66.707 TSCA TITLE IV STATE LEAD GRANTS CERTIFICATION OF LEAD-BASED PAINT PROFESSIONALS

(State Lead Certification Grants)

FEDERAL AGENCY:

Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency

AUTHORIZATION:

Toxic Substances Control Act, Section 404(g).

OBJECTIVES:

The goal of EPA's lead-based paint program is to eliminate childhood lead poisoning. The program is comprised of four strategies designed to achieve the goal 1) Establish standards to define where lead hazards are present in paint, dust and soil; 2) Give the public information about lead hazards and steps to protect themselves; 3) Ensure that information about known lead-based paint hazards is disclosed to individuals buying or renting pre-1978 housing, and that owners and occupants of pre-1978 housing are provided information on lead-based paint hazards before renovation activities take place; 4) Establish lead-safe work practice standards and require lead-based paint professionals and renovators who work in pre-1978 housing to be trained and certified.

The objective of this grant program is to assist States, Tribes, and Territories in developing and carrying out authorized programs that: (a) certify contractors engaged in lead-based paint activities and accredit lead-based paint activities training programs; (b) certify contractors engaged in renovation, repair and painting activities that disturb painted surfaces in most target housing; and/or (c) require distribution of lead-hazard information prior to renovation (pre-renovation education program).

Funding Priority - Fiscal Year 2014: The priority for FY 2014 is to continue to provide assistance to authorized State, Tribal, and Territorial lead-based paint activities training and certification programs and pre-renovation education programs. As appropriate, the Agency will use grant funding to provide assistance to a State, Tribal, or Territorial program looking to develop or administer an authorized Renovation, Repair, and Painting Program.

Funding Priority - Fiscal Year 2015: The priority for FY 2015 is to continue to provide assistance to authorized State, Tribal, and Territorial lead-based paint activities training and certification programs and pre-renovation education programs. As appropriate, the Agency will use grant funding to provide assistance to a State, Tribal, or Territorial program looking to develop or administer an authorized Renovation, Repair, and Painting Program.

Funding Priority - Fiscal Year 2016: The priority for FY 2016 is to continue to provide assistance to authorized State, Tribal, and Territorial lead-based paint activities training and certification programs and pre-renovation education programs. As appropriate, the Agency will use grant funding to provide assistance to a State, Tribal, or Territorial program looking to develop or administer an authorized Renovation, Repair, and Painting Program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance may be available for activities which relate to authorization under TSCA Title IV. Supported activities must contribute or lead to the attainment or maintenance of authorization pursuant to TSCA Title IV. Funds cannot be used for general program activities not related to the attainment or maintenance of authorized programs.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Eligible applicants for purposes of funding under these grant programs include any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentally thereof exclusive of local governments (includes public institutions of higher education and hospitals).

Beneficiary Eligibility:

State any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentally thereof exclusive of local governments may receive assistance under Section 404(g) of TSCA. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency Assistance Agreement Competition Policy.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 Subpart E for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Discussions or informal meetings with the appropriate EPA Regional Office concerning program preparation are advisable. The standard application form as furnished by the Federal agency and required by 2 CFR 200 must be used for this program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog.

This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requests for application forms and completed applications should be submitted to the appropriate EPA Regional Office. The following forms and certifications must be included in all final grant applications: Standard Form 424 (Application for Federal Assistance); Standard Form 424A (Budget Information -- Non-Construction Programs); Standard Form 424B (Assurances -- Non-Construction Programs); Certification Regarding Lobbying and SF LLL, if applicable; Certification Regarding Debarment and Suspension; EPA Form

4700-4 (Compliance Review Report Form); and Quality Assurance Narrative Statement, if applicable. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Contact the appropriate EPA Regional Office for guidance on award procedures. Regional contacts for the EPA lead program can be found at <http://www2.epa.gov/lead/where-you-live>.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days after deadline for application submission.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Applicants must reapply for grant funding each fiscal year.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Cooperative agreements are normally funded for a 12-month period. See the following for information on how assistance is awarded/released: Grantees usually receive either a lump sum payment or draw down funds as their Agency allows.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment and invention reports. Progress reports are generally required at least semi-annually. Specific reporting requirements are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. No cash reports are required. Pursuant to 2 CFR 200.238, Monitoring and reporting program performance.

(a) Monitoring by the non-Federal entity. The non-Federal entity is responsible for oversight of the operations of the Federal award supported activities. The non-Federal entity must monitor its activities under Federal awards to assure compliance with applicable Federal requirements and performance expectations are being achieved. Monitoring by the non-Federal entity must cover each program, function or activity. See also 200.331 Requirements for pass-through entities.

(b) Non-construction performance reports. The Federal awarding agency must use standard, OMB-approved data elements for collection of performance information (including performance progress reports, Research Performance Progress Report, or such future collections as may be approved by OMB and listed on the OMB Web site).

(1) The non-Federal entity must submit performance reports at the interval required by the Federal awarding agency or pass-through entity to best inform improvements in program outcomes and productivity. Intervals must be no less frequent than annually nor more frequent than quarterly except in unusual circumstances, for example where more frequent reporting is necessary for the

effective monitoring of the Federal award or could significantly affect program outcomes. Annual reports must be due 90 calendar days after the reporting period; quarterly or semiannual reports must be due 30 calendar days after the reporting period. Alternatively, the Federal awarding agency or pass-through entity may require annual reports before the anniversary dates of multiple year Federal awards. The final performance report will be due 90 calendar days after the period of performance end date. If a justified request is submitted by a non-Federal entity, the Federal agency may extend the due date for any performance report.

(2) The non-Federal entity must submit performance reports using OMB-approved government wide standard information collections when providing performance information. As appropriate in accordance with above mentioned information collections, these reports will contain, for each Federal award, brief information on the following unless other collections are approved by OMB. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to cooperative agreements, must be kept available to personnel authorized to examine EPA accounts. All records must be maintained for 3 years from the date of the submission of the annual financial status report, or longer if questions still remain, such as those raised as a result of audit.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 14 \$13,500,000; FY 15 est \$14,000,000; and FY 16 est \$14,049,000 - FY14 13,500,000; FY15 \$14,000,000; FY16 \$14,049,000; FY17 est \$14,049,000.

Range and Average of Financial Assistance:

\$16,000 to \$350,000; average of \$200,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: As of June 2014, 39 States, 3 Tribes, Puerto Rico, and D.C. have received EPA approval to administer a lead-based paint activities training and certification program.

14 States have received authorization to administer and enforce a Renovation, Repair and Painting Program. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

EPA Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments (2 CFR 200); Environmental Protection Agency. "EPA Assistance Administration Manual," available from the National Technical Information Service, Springfield, VA 22161 on a subscription basis; Order No. NTIS UB/031.

Regional or Local Office:

See Regional Agency Offices. Contact the Regional Lead Contact Person in the appropriate EPA regional office listed in Appendix IV of the Catalog.

Headquarters Office:

Michelle Price, National Program Chemicals Division 7404T), Office of

Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, District of Columbia 20460 Email: price.michelle@epa.gov Phone: (202) 566-0744.

Website Address:

<http://www2.epa.gov/lead>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Since FY93 EPA has provided financial assistance to the States, Territories and Indian Tribes aimed at the development, implementation and enforcement of approved programs under the final EPA lead-based paint activities training and certification rule (40 CFR part 745, subpart L). The following is a list of previously funded activities: (a) core lead-based paint activities and enforcement capacity development; (b) developing the appropriate infrastructure to administer and enforce a lead-based paint activities program successfully; (c) overseeing the conduct of contractors engaged in lead-based paint activities; (d) overseeing and controlling training program activities; (e) ensuring compliance with requirements for post-abatement clearance sampling; (f) monitoring compliance with the work practice standards of regulations for the conduct of abatement; (g) implementing lead-based paint compliance assistance; (h) implementing the lead-based paint activities sampling techniques; and (i) implementing lead-based paint activities tracking tips and complaints efforts.

Since FY09, EPA has also provided financial assistance to the States, Territories and Indian Tribes aimed at the development, implementation and enforcement of approved programs under the final EPA lead-based paint renovation, repair and painting rule (40 CFR part 745, subpart E). Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for awards under this CFDA description will be described in the competitive announcement. Regional contacts for the EPA lead program can be found at

<http://www2.epa.gov/lead/epa-regional-contacts>.

66.708 POLLUTION PREVENTION GRANTS PROGRAM

(P2 Grant Program)

FEDERAL AGENCY:

Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency

AUTHORIZATION:

Pollution Prevention Act of 1990, Section 6605, Public Law 101-508.

OBJECTIVES:

CFDA announcement 66.708 applies to the Pollution Prevention (P2) and Pollution Prevention Information Network (PPIN) grant programs.

Both programs were enacted under the Pollution Prevention Act of 1990 to support projects that use pollution prevention techniques to reduce and/or eliminate pollution from air, water and/or land prior to performing recycling, reuse or clean up.

The P2 grant program funds grants and cooperative agreements that provide pollution prevention technical assistance services and/or training to businesses. The PPIN grant program funds grants and cooperative agreements through a national network of Pollution Prevention Resource Exchange (P2Rx) Centers. The Centers work to deliver pollution prevention information, resources and

tools to state technical assistance providers, businesses and industry.

Funding Priorities for FY 2014:

1. To help businesses adopt P2 techniques into day-to-day operations to reduce or eliminate harmful pollutants from entering the air, water or land;
2. To encourage education and training in P2/source reduction techniques and applications; and
3. Support P2 information sharing among State and local technical assistance programs, businesses, and industry.

Funding priorities in 2015:

1. To help businesses adopt P2 techniques into day-to-day operations to reduce or eliminate harmful pollutants from entering the air, water or land;
2. To encourage education and training in P2/source reduction techniques and applications; and
3. Support P2 information sharing among State and local technical assistance programs, businesses, and industry.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funding under the P2 and PPIN grant programs is supported through Congressional appropriation. The programs support P2 projects that address the transfer of potentially harmful pollutants across all environmental media: air, water, and land. The programs also support the establishment and expansion of State and Tribal P2 programs under various topic areas, some which are: industrial toxics, agriculture, energy and water conservation, and transportation.

More specifically, the P2 grant program supports P2 approaches and methodologies that focus on: institutionalizing P2 as an environmental management method, helping businesses establish prevention goals, providing on-site technical assistance or training to businesses, supporting outreach and research endeavors, and supporting data collection and analysis to curb environmental inefficiencies while increasing awareness of P2.

Under the PPIN program, EPA supports projects that help to: coordinate work among State and local technical assistance providers, disseminate P2 information, offer training to State and local technical assistance providers, businesses, and industry, promote new and innovative P2 technologies, and take a broad reading of what P2 activities are occurring across the nation in order to minimize duplication of effort.

The P2 and PPIN grant programs do not support projects that focus on recycling, reuse, waste removal or any activity which alters the physical, chemical, or biological characteristics or the volume of a hazardous substance, pollutant, or contaminant through a process or activity which is not integral to and necessary for the production of a product or essential to providing a service. For more information, refer to PPA Section 6603 and 40 CFR Sections 35.343 and 35.662.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf

of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Eligible applicants include the 50 states, the District of Columbia, the U.S. Virgin Islands, the Commonwealth of Puerto Rico, any territory or possession of the United States, any agency or instrumentality of a state, including state colleges and universities, and federally-recognized Indian tribes that meet the requirements for treatment in a manner similar to a state as described in 40 CFR 35.663, and Intertribal Consortia that meet the requirements in 40 CFR 35.504.

Beneficiary Eligibility:

State agencies, State colleges and universities that are instrumentalities of the State and federally-recognized Tribes are encouraged to establish partnerships with businesses and environmental assistance providers to deliver seamless P2 assistance. The most successful applicants will be those that make the most efficient use of government funding. In many cases, this has been accomplished through partnerships. As a result, those who are eligible can provide P2 benefits to the following entities: states, interstate and local agencies or organizations/universities, federally-recognized Tribes, intertribal consortia, public or private nonprofit organizations/institutions, private businesses, quasi public nonprofit organizations, and the general public.

Credentials/Documentation:

In cases where the applicants credentials are not clear, the applicant must provide proof that the applicant is indeed a state agency/organization, federally-recognized tribe, or intertribal consortium. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. If the applicant does not know who their Single Point of Contact is, they may call the appropriate EPA regional coordinator listed in the Information Contacts section, or call the EPA Headquarters Grant Policy Information and Training Branch at 202-564-5325. Federally-recognized Tribal governments are not required to comply with this procedure. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requests for general information may be made to EPA Headquarters or to the appropriate EPA regional pollution prevention program office listed in Appendix IV of this Catalog.

Under the P2 grant program, proposals and applications must be submitted to

the appropriate EPA Regional Pollution Prevention Program office in order to be considered for an award.

Under the PPIN grant program, proposals and applications must be submitted to EPA Headquarters in order to be considered for an award.

Submitted materials must abide by EPA grant policy and programmatic requirements in order to be considered for funding.

Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Under the P2 grant program - FY 2014 grant proposals were due to the applicable regional P2 program office on March 20, 2014.

Under the PPIN grant program - FY 2014 grant proposals were due to Headquarters on April 15, 2014.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title Pollution Prevention Act of 1990. The statutory formula for P2 and PPIN grants is authorized by the Pollution Prevention Act of 1990.

Matching Requirements: Organizations receiving grant funds through the P2 and PPIN grant programs are required to match federal funds by at least 50 percent. The federal government will provide half of the total allowable cost of the project, and the state will provide the other half. Thus, a federal grant of \$100,000 would support a total allowable project cost of \$200,000, with the state providing the remaining half equal to \$100,000. State contributions may include: dollars, in kind goods and services, and/or third party contributions. In a detailed budget, the use of the matching funds must be documented. The match requirement may be applied at the time of award or at specified intervals during the project period. The grant applicant must document in the itemized budget plan the type of match to be applied and how it will be used. The grant project officer in the Region or Headquarters will monitor the grant recipient's compliance. If the match requirement is not met or is not applied at specified intervals during the project period, federal funding will cease and the recipient will be held liable for all incurred costs.

With concern to P2 grants only: If a tribe or intertribal consortium is selected for an award and their workplan will be included in a performance partnership grant (PPG), then the required tribal match will be reduced to 5% as it applies to the total allowable P2 project cost. This reduction in match will be applied to the first two years of the PPG. After two years, the EPA Regional Administrator is required to determine through objective assessment whether the tribe or intertribal consortium still meets the socioeconomic needs test to warrant keeping the cost share at 5 percent.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Initial assistance agreements are awarded for a project period of 3 years. Funds are released by a letter of credit. See the following for information on how assistance is awarded/released: Financial assistance under the P2 and PPIN grant programs is provided in the form of a grant or a cooperative agreement issued as a letter of credit by the federal government to the eligible grantee.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment and invention reports. Progress reports are generally required at least semi-annually. Specific reporting requirement are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. The P2 and PPIN grant programs require grantees to submit budget information to the grant project officer. The information should be included in the grantees' semi-annual progress report. Organizations that are awarded grants will be required to submit semi-annual progress reports during the life of the project to the grant project officer. The report should summarize funds expended, tasks accomplished, and results achieved to date. A final technical report is also required at the end of the grant/cooperative agreement. The final technical report should explain the prospect for continuation, further development of the pollution prevention effort, and offer a project evaluation. The P2 and PPIN grant programs require the grantee to submit semi-annual progress reports to the grant project officer. The report should explain the work executed under the project(s), whether or not the project's milestones were achieved, and the staff and budget plan for any remaining work. Expenditure reports are required at the end of the grant/cooperative agreement. The grantee should submit this information to the grant project officer when submitting their final technical report. If the grantee proposes work that involves gathering, measuring, or tracking environmental data, the grantee is required to report its environmental performance to EPA. The information should be provided in the grantees' semi-annual progress report and final technical report. The reports should be submitted to the grant project officer.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 14 \$4,790,000; FY 15 est \$4,790,000; and FY 16 est \$4,790,000 - (P2 and PPIN grants)

FY 2015: est. \$4,790,000; FY 2016: est. \$4,790,000; FY 2017 est. \$4,790,000.

Range and Average of Financial Assistance:

Est. Range for P2 grants in FY 2015: \$12,500 - \$180,000; approximate average award amount: \$85,000.

Est. Range for PPIN grants in FY 2015: \$96,000 - \$130,000; approximate average award amount: \$106,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, EPA awarded 43 P2 Grants totaling \$3,969,461. Annually, P2 Grants are made available to state entities and federally-recognized tribes to develop projects to provide pollution prevention technical assistance and training to businesses. In FY 2014, EPA awarded 8 PPIN grants totaling \$851,899. Annually, PPIN Grants are made available to state entities and federally-recognized tribes to provide pollution prevention information sharing and technical assistance to state, local and regional technical assistance programs and facility-based pollution prevention information users. FY 2015 grant results for the two programs are in the process of being calculated. Fiscal Year 2015: FY 2015 P2 and PPIN grant proposals are currently undergoing review. EPA anticipates accomplishments similar to those achieved under the FY 2014 P2 and PPIN grant competitions. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

40 CFR Parts 29,32; 2 CFR 200 and 1500; and "EPA Assistance Administration Manual," available from the National Technical Information Services, Department of Commerce, Springfield, VA 22161 on a subscription basis, Order No.: NTIS UB/031.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The following are examples of P2 and PPIN grants awarded in FY 2014.

P2 grants:

EPA funded amount: \$116,137

The grantee will identify and implement water and energy reduction measures in municipalities and industrial facilities in the state of Illinois. The grantee will also conduct 13 site assessments to assist companies establish best management practices baselines and goals for implementing P2. Two of the 13 facilities participating in the assessments will also participate in an Economy, Energy and Environment assessment.

EPA funded amount: \$70,000

The grantee will collaborate with stakeholders to develop and deliver P2 technical assistance and education on toxics and greenhouse gas reductions, resource and water conservation and promote P2 integration of energy efficiency to support sustainability efforts and improve local business

competitiveness.

EPA funded amount: \$105,000

The grantee will provide manufacturers, industry and retailers with training on alternatives analysis process and tools to reduce chemicals of concern in priority consumer products.

EPA funded amount: \$115,406

The grantee will combine P2 technical assistance with workforce training to help businesses reduce the use of hazardous chemicals in products and manufacturing and provide career experience in green chemistry and chemical selection to prospective chemists, engineers, product designers and environmental health scientists.

PPIN grants:

EPA funded amount: \$115,169

The center will amplify dissemination of P2 information via the national network, support technical assistance providers and end users with webinars, a regional listserv and collaborative projects. This center will coordinate and support tribal P2 and energy efficiency in local governments.

EPA funded amount: \$125,158

The center will develop P2 information in the areas of: P2 in wineries, marinas (boat maintenance), biotech laboratories, green sports and E3. They will revise their website to facilitate information retrieval and continue their support of P2 results and P2Rx marketing and executive committees. Fiscal Year 2015: As of this CFDA update, FY 2015 award selections have not been finalized under the P2 and PPIN grant programs. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description are described in the competitive announcements of the P2 and PPIN grant programs.

66.714 REGIONAL AGRICULTURAL IPM GRANTS

(Regional Ag Grants)

FEDERAL AGENCY:

Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 20.

OBJECTIVES:

The Objective is to support Integrated Pest Management (IPM) implementation and approaches that reduce the risks associated with pests & pesticide use in agriculture in the United States. This program is competed and the grants are awarded by Headquarters grant offices.

Fiscal year 2014: The objective is to support Integrated Pest Management (IPM) implementation and approaches that reduce the risks associated with pests and pesticides in agriculture in the United States. IPM is an effective and environmentally sensitive approach to pest management that relies on a combination of easy to implement practices. The Regional Agricultural IPM Grants help to formalize and expand public-private stewardship and increase

collaborative pesticide risk reduction efforts in agriculture. First offered in 2011, these grants are some of the many grants that the Agency issues to further the adoption of promising technologies and practices that reduce pesticide risk in various sectors.

Fiscal year 2015: The objective is to support Integrated Pest Management (IPM) implementation and approaches that reduce the risks associated with pests and pesticides in agriculture in the United States. IPM is an effective and environmentally sensitive approach to pest management that relies on a combination of easy to implement practices. The Regional Agricultural IPM Grants help to formalize and expand public-private stewardship and increase collaborative pesticide risk reduction efforts in agriculture. First offered in 2011, these grants are some of the many grants that the Agency issues to further the adoption of promising technologies and practices that reduce pesticide risk in various sectors.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants may be used to fund projects that further the implementation of Integrated Pest Management (IPM) in agriculture. The type of projects that will be considered include research, monitoring, demonstration, and related activities. Projects must include efforts to implement IPM practices which lead to pest and pesticide risk reduction. There are no discretionary funds available to fund projects.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Eligible applicants for purposes of funding under these grant programs include any state of the United States, the District of Columbia, Native American Organizations, laboratories, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentally thereof exclusive of local governments (includes public institutions of higher education and hospitals).

Non-profit organization, as defined by 2 CFR Part 200, means any corporation, trust, association, cooperative or other organization that: (1) is operated primarily for scientific, educational, service, charitable or similar purposes in the public interest; (2) is not organized primarily for profit; and (3) uses its net proceeds to maintain, improve and/or expand its operations. While not considered to be a "non-profit organization(s)" as defined by 2 CFR Part 200, colleges and universities, hospitals, state, local and federally-recognized Indian tribal governments are, nevertheless, eligible to submit proposals under 2 CFR Part 200 and this RFP.

The following are not eligible to apply for this funding opportunity: for-profit organizations and non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995.

Beneficiary Eligibility:

Any State, U.S. Territory/Possession, Native American Organization, or other entities working in conjunction with these eligible applicants.

Credentials/Documentation:

The application should present a well thought out work plan with established infrastructure to execute the work plan. Key officials should have and document appropriate work experience or education to effectively carry out the proposed work plan or research. Costs will be determined in accordance with OMB Circular No. 2 CFR 225 for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Grants are awarded on the basis of merit. The call for proposals is announced in Grants.gov and on the EPA's Office of Pesticide Programs' website and by other established mechanisms early in the fiscal year. The proposal format is specified in the call. Proposals not using the published format will not be considered. National criteria are established in the call. Once the grant process is announced nationally, interested applicants are urged to contact the appropriate EPA Regional Office for detailed instructions. Proposals are submitted to an EPA Regional Office. All proposals received are rated using the published criteria and compete for funding against all acceptable proposals received. Consultation or assistance in filling out a project proposal is available from any of the EPA Regional Offices either by phone, mail, fax or electronic mail. This program is excluded from coverage under E.O. 12372. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Successful applicants will be notified and invited to complete and sign a Standard Form 424, (an application form) which will be supplied upon notification. Questions about this form will be answered by the Regional representative who contacts the applicant. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 60 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are awarded for a project period not to exceed 2 years. Method of awarding/releasing assistance: by letter of credit.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment and invention

reports. Progress reports are general required at least semi-annually. Specific reporting requirements are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Grantees are required to submit financial reports to their regional Project Officer. Grantees are required to submit progress reports to their regional Project Officer. Grantees are required to submit expenditure reports. Grantees are required to perform performance monitoring as part of their requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records to substantiate charges to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for 3 years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.716 RESEARCH, DEVELOPMENT, MONITORING, PUBLIC

EDUCATION, TRAINING, DEMONSTRATIONS, AND STUDIES

FEDERAL AGENCY:

Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency

AUTHORIZATION:

National Environmental Policy Act, Section 102(2)(F); Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), Section 20 & 23; Toxic Substances Control Act, Section 10, Public Law 106-74; Toxic Substances Control Act, Section 10, Public Law 106-74.

OBJECTIVES:

Grants are awarded to support Research, Development, Monitoring, Public Education, Outreach, Training, Demonstrations, and Studies relating to the protection of public health and the environment from pesticides and potential risk from toxic substances

Office of Pollution Prevention & Toxics (OPPT) FY 2015 Projects: Enhance capabilities of participants through increased knowledge of how to implement quality chemical risk management regulatory and pollution prevention programs, leading to better protection of human health and the environment. Continue providing technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally. In addition, anticipated support/work on substitution of hazardous chemicals.

Office of Pesticide Programs (OPP) FY 2015: Projects for safer use of pesticides, including worker protection, certification and training of pesticide applicators, protection of endangered species, tribal pesticide programs, integrated pest management, environmental stewardship, Pesticide Registration Renewal Act (PRIA 2) Partnership Grants; Pesticide Regulatory Education Program (PREP), and Integrated Pest Management in Schools Regional grants. Types of activities: develop and implement programs to reduce pesticide risks; analysis and development of pesticide safety programs and materials; National train-the-trainer program to educate farmworkers on how to reduce risks from pesticides; continue the National Pesticide Information Center (NPIC); PREP education program for states and tribes; and implement verifiable integrated pest management in schools programs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' allowable direct costs incident to approved scopes of work plus allowable indirect costs, in accordance with established EPA policies and regulations. Funding awarded for research does not include research within the purview of EPA's Office of Research and Development.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Applicant Eligibility:

Assistance under this program is generally available to States, U.S. territories or possessions, federally recognized Indian tribal governments and Native American Organizations, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, local governments, and individuals and international entities. For profit organizations are not eligible. Non-profit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. EPA may also limit eligibility for certain competitive funding opportunities under this CFDA to a subset of eligible applicants and/or to tribes, Alaska native villages, and intertribal consortia located in the Region where a project is going to be performed. For Tribal funding opportunities to be funded with the State and Tribal Assistance Grant (STAG) appropriation, eligibility will be limited to States, Tribes, Alaska native villages, and intertribal consortia to support the Office of Prevention, Pesticides and Toxic Substances' Tribal Program. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Also, for certain competitive opportunities offices may limit eligibility to tribes in a region.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, federally recognized Indian tribal governments and Native American Organizations, universities and colleges, hospitals, laboratories, other public and private nonprofit institutions, general public, and other Non-Governmental Organizations.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR Part 225 for State and local governments and Indian Tribes, 2 CFR Part 220 for educational institutions, and 2 CFR Part 230 for nonprofit institutions. Applicants may be requested to demonstrate that they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. Non-profits are required to demonstrate non-profit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog.

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. EPA requires final applications to be made on Standard Form 424. Application kits should be requested from and submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, 1200 Pennsylvania Avenue, N. W., Washington, DC 20460 or the appropriate EPA Regional Office identified in Appendix IV of the Catalog. Detailed information and assistance, including the application kit, required forms, and a check list may also be found at: <http://www.epa.gov/ogd/AppKit/>. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify

application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Source Reduction Assistance grants and cooperative agreements are subject to the availability of funds. EPA will issue awards contingent upon the criteria specified in this CFDA program description and within the corresponding solicitations. EPA reserves the right to reject any or all proposals and issue no awards. Procedures for awards are outlined in the 2 CFR Parts 200 and 1500.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90-120 days

.Proposals were due under the FY 2015 Source Reduction Assistance on May 28, 2015.

The Regional Pollution Prevention Information Network Centers program did not run a competition in FY 2015.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

None. Generally, EPA incrementally funds grants and cooperative agreements for research, development, monitoring, public education, training, demonstrations and studies. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds, and the Agency policy on the competitive grant process.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. Funds are released by a letter of credit. See the following for information on how assistance is awarded/released: EPA normally funds grants and cooperative agreements on a 12 month basis. However, EPA can negotiate the project period with each applicant based on project requirements. Funds are released by a letter of credit.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment and invention reports. Progress reports are generally required at least semi-annually. Specific reporting requirements are also identified in the at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Under OPP, grantees are required to submit financial reports. Under OPPT, grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in 2 CFR Part 200.

subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 200.333 are applicable depending upon the identity of the recipient. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants available to personnel authorized to examine EPA recipients grants and cooperative agreements records. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions, such as those raised as a result of audits remain following the 3-year period, recipients must retain records until the matter is completely resolved

Account Identification:

Under OPP, grantees are required to submit financial reports. Under OPPTS, grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 40 CFR Part 31. Uniform reporting requirements for institutions of higher education and other non-profit organizations. The recipient and the Grant Project Officer will develop a process for jointly evaluating and reporting progress and accomplishments under the work plan. The work plans and reporting must be consistent with the requirements of 2 CFR 200.328. A description of the evaluation process and a reporting schedule must be included in the work plan. The reporting schedule requires the recipient to submit, at a minimum, annual progress reports, during the life of the project, to the Grant Project Officer. Recipients should provide a discussion of accomplishments as measured against work plan commitments; a discussion of cumulative effectiveness of the work performed under all work plan components; a discussion of existing and potential problem areas; and suggestions for improvement, including where feasible, schedules for making improvements. If evaluation reveals the recipient has not made sufficient progress under the work plan, the Grant Project Officer and the recipient will negotiate a resolution. The recipient may request a review of the Grant Project Officer's decision under the dispute resolution process under (2 CFR 1500 Subpart E).

Uniform reporting requirement for state, local and tribal governments. RELATED PROGRAMS:

66.034 Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act; 66.424 Surveys, Studies, Investigations, Demonstrations, and Training Grants - Section 1442 of the Safe Drinking Water Act; 66.436 Surveys, Studies, Investigations, Demonstrations, and Training Grants and Cooperative Agreements - Section 104(b)(3) of the Clean Water Act; 66.510 Surveys, Studies, Investigations and Special Purpose Grants within the Office of Research and Development; 66.610 Surveys, Studies, Investigations and Special Purpose Grants within the Office of the Administrator

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Examples of SRA grant awards issued during FY 2014.

EPA funded amount: \$147,000

The grantee will support eight P2 projects that include: sponsoring a P2 Regional Roundtable; providing businesses with P2 coordination planning; conducting Economy, Energy and Environment assessments; promoting EcoBiz and safer chemical usage, supporting the Puget Sound Stormwater project, Green Sports activity, and helping to update the Pollution Prevention Resource Exchange website.

EPA funded amount: \$44,377

The grantee will collaborate with the Alliance for Manufacturing and Technology to implement green engineering solutions at manufacturing companies located in the southern region of New York. The grantee will focus their outreach on manufacturers of fabricated metal products, machinery and printing products. The grantee has identified four companies within the aforementioned industry sectors that will explore green chemistry and green engineering opportunities as a method to reduce or eliminate the use of solvents and acids.

EPA funded amount: \$75,000

The grantee is expanding the opportunity for Energy, Economy and Environment technical assessments to eleven additional Virginia counties.

EPA funded amount: \$39,188

The grantee will work with local businesses participating in green and energy efficiency programs in Georgia's southeast region to quantify, track and report energy and water reductions and associated greenhouse gas emissions, and realize cost savings using P2 practices related to new construction and existing residential projects. Performance results will be shared with industry stakeholders, governmental agencies and the public to increase environmental

awareness of P2.

EPA funded amount: \$29,927

The grantee will target 10 - 25 business facilities to introduce them to safer degreasing solvents utilizing EPA's Program for Assisting the Replacement of Industrial Solvents (PARIS III) tool to identify safer chemical alternatives. Fiscal Year 2015: As of this CFDA update, FY 2015 SRA award selections are undergoing review. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.717 SOURCE REDUCTION ASSISTANCE

FEDERAL AGENCY:

Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency

AUTHORIZATION:

Federal Insecticide, Fungicide, and Rodenticide Act, Section 20; Toxic Substances Control Act, Section 10; Clean Air Act, Section 103(b); Clean Water Act, Section 104(b)(3); Safe Drinking Water Act, Section 1442(a)(1)&(c); Solid Waste Disposal Act, Section 8001(a).

OBJECTIVES:

Under this CFDA announcement, EPA administers two grant programs - the Source Reduction Assistance (SRA) grant program and the Regional Pollution Prevention Information Network Centers (RP2INC) grant program. The goal of the SRA program is to provide grants to support pollution prevention (P2), source reduction and/or resource conservation activities. The goal of the RP2INC program is to fund an organization which will serve as the national coordinator of the Regional P2 Resource Exchange Centers. The national coordinator will provide leadership in: framing national P2 initiatives, strengthening collaboration among the regional centers, evaluating P2 information, tools and products, and marketing the centers' services nationally.

For purposes of the grant programs, P2 is defined as any practice which reduces or eliminates the creation of pollutants through: increased efficiency in the use of raw materials, energy, water, or other resources, or protection of natural resources by conservation activities. EPA is interested in funding projects which assist in reducing hazardous substances, pollutants, or contaminants entering waste streams or otherwise released into the environment (including fugitive emissions) prior to recycling, treatment, or disposal. Grant activities may involve, but are not limited to the following: equipment or technology modifications, process or procedure modifications, reformulation or redesign of products, substitution of raw materials, improvements in housekeeping, maintenance, training, inventory control, etc.

Funding Priority - Fiscal Year 2014: To support source reduction, pollution prevention and resource conservation activities that comply with the statutory authorities of the Clean Air Act, Section 103(b), as amended; Clean Water Act, Section 104(b)(3), as amended; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, as amended; Safe Drinking Water Act, Section 1442 (a)(1) and (c), as amended; Solid Waste Disposal Act, Section 8001(a), as amended; and the Toxic Substances Control Act, Section 10, as amended.

Projects must consist of activities within the statutory terms of these EPA grant authorities. The statutes authorize grants for the following activities: "research, investigations, experiments, education/training, demonstrations of new or innovative techniques, surveys and studies." These activities relate generally to the gathering or transferring of information or advancing awareness. Applicants should emphasize this "learning" concept in their proposals. All activities in the proposal must be eligible under one or more of the statutory authorities.

Fiscal Year 2015: To support source reduction, pollution prevention and

resource conservation activities that comply with the statutory authorities of the Clean Air Act, Section 103(b), as amended; Clean Water Act, Section 104(b)(3), as amended; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, as amended; Safe Drinking Water Act, Section 1442 (a)(1) and (c), as amended; Solid Waste Disposal Act, Section 8001(a), as amended; and the Toxic Substances Control Act, Section 10, as amended.

Projects must consist of activities within the statutory terms of these EPA grant authorities. The statutes authorize grants for the following activities: "research, investigations, experiments, education/training, demonstrations of new or innovative techniques, surveys and studies." These activities relate generally to the gathering or transferring of information or advancing awareness. Applicants should emphasize this "learning" concept in their proposals. All activities in the proposal must be eligible under one or more of the statutory authorities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

EPA is interested in supporting P2, source reduction and resource conservation projects that will provide an overall benefit to the environment by preventing pollutants at the source. Source reduction projects can include but are not limited to: 1) improving facility and institutional operations that reduce pollutant use and exposure, 2) reformulating and procuring products to reduce toxic constituents, 3) providing direct technical assistance to businesses and other organizations, 4) encouraging green product design and manufacturing, 5) conducting outreach, 6) collecting and analyzing P2 data, and 7) integrating P2 concepts into state, regional and tribal environmental multimedia programs. Grant activities must be consistent with the grant guidelines of the statutory authorities listed for this program. The statutory authorities are listed in this CFDA announcement and in the applicable grant solicitations. The statutes authorize EPA to award assistance agreements to support the following activities: "research, investigations, experiments, education/training, demonstrations of new or innovative techniques, surveys and studies." These activities relate generally to the gathering or transferring of information or advancing knowledge. Grant proposals should emphasize this "learning" concept, as opposed to "fixing" an environmental problem using a well-established method. For example, a proposal to install a more energy efficient heating system in the applicant's facility in order to conserve energy, would not, in itself fall within research, studies, demonstrations and would be viewed as a well-established solution not eligible for grant funding. All activities in the applicant's proposal must be eligible under one or more of the statutory authorities listed.

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible

applicants consistent with the Agency's Assistance Agreement Competition Policy. Eligible applicants for purposes of funding under these grant programs include any state of the United States, the District of Columbia, the Commonwealth of Puerto Rico, U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and any agency or instrumentally thereof exclusive of local governments (includes public institutions of higher education and hospitals).

Beneficiary Eligibility:

Any state, federally-recognized tribal government, intertribal consortia, college/university, non-profit organization, local government or independent school district.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR Part 225 for State and local governments and federally recognized tribal governments, 2 CFR Part 220 for educational institutions, 2 CFR Part 230 for nonprofit institutions. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principal investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Standard grant forms are required, as provided by the EPA and must be used for both grant programs. Forms may be obtained via the Internet by visiting: <http://www.epa.gov/ogd/AppKit/application.htm>.

Please consult the SRA and RPPINC program notices, posted to EPA's Pollution Prevention Grant web site at <http://www.epa.gov/p2/pubs/grants> for more information. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. If the applicant does not know who their Single Point of Contact is, they should contact the appropriate EPA Regional Pollution Prevention Program office listed in the Information Contacts section, or call the EPA Headquarters Grant Policy Information and Training Branch at 202-564-5325. Federally-recognized Tribal governments are not required to comply with this procedure. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This CFDA program description is designed to benefit national and regional source reduction, pollution prevention, and resource conservation activities. Grant proposals must meet the requirements outlined in the national and regional Source Reduction Assistance solicitation notices. EPA will conduct the grant competition by posting a Request for Proposals (RFP) on-line. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Source Reduction Assistance grants and cooperative agreements are subject to

the availability of funds. EPA will issue awards contingent upon the criteria specified in this CFDA program description and within the corresponding solicitations. EPA reserves the right to reject any or all proposals and issue no awards. Procedures for awards are outlined in the 2 CFR Parts 200 and 1500.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Proposals were due under the FY 2015 Source Reduction Assistance on May 28, 2015.

The Regional Pollution Prevention Information Network Centers program did not run a competition in FY 2015.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: EPA requires a minimum 5% match of the total allowable project cost. For example, the Federal government will provide 95% of the total allowable cost of the project and the recipient will provide the remaining 5%. The match may be issued in the form of cash and/or in-kind contributions, e.g., donated services, charges for real property and equipment or the value of goods and services directly benefiting the EPA funded project. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance agreements are awarded for an initial project period of 2 years. See the following for information on how assistance is awarded/released: Grant and cooperative agreement funds issued under the SRA and RPPINC grant programs are released by letter of credit to the eligible grant recipient.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Agreements may require interim and final progress reports, and expenditure/financial, equipment and invention reports. Progress reports are generally required at least semi-annually. Specific reporting requirement are also identified in the Grant Regulations at 2 CFR 200 and 1500, as applicable. Program reports are required under this program. Budget information should be submitted to the grant project officer. This information should be included in the semi-annual progress report and the final technical report. Uniform reporting requirements for institutions of higher education and other non-profit organizations. The recipient and the Grant Project Officer will develop a process for jointly evaluating and reporting progress and accomplishments under the work plan. The work plans and reporting must be consistent with the requirements of 2 CFR 200.328. A description of the evaluation process and a reporting schedule must be included in the work plan. The reporting schedule requires the recipient to submit, at a minimum, annual progress reports, during the life of the project, to the Grant Project Officer. Recipients should provide a discussion of accomplishments as measured against work plan commitments; a discussion of cumulative effectiveness of the work performed under all work plan components; a discussion of existing and potential problem areas; and suggestions for improvement, including where feasible, schedules for making improvements. If evaluation reveals the recipient has not made sufficient progress under the work plan, the Grant Project Officer and the recipient will negotiate a resolution. The recipient may request a review of the Grant Project Officer's decision under the dispute resolution process under (2 CFR 1500 Subpart E).

Uniform reporting requirement for state, local and tribal governments. The recipient and the Grant Project Officer will develop a process for jointly evaluating and reporting progress and accomplishments under the work plan. The work plans and reporting must be consistent with the requirements of 2 CFR 200.328. A description of the evaluation process and a reporting schedule must be included in the work plan. The reporting schedule requires the recipient to submit, at a minimum, annual progress reports, during the life of the project, to the Grant Project Officer. Recipients should provide a discussion of accomplishments as measured against work plan commitments; a discussion of cumulative effectiveness of the work performed under all work plan components; a discussion of existing and potential problem areas; and suggestions for improvement, including where feasible, schedules for making improvements. If evaluation reveals the recipient has not made sufficient progress under the work plan, the Grant Project Officer and the recipient will negotiate a resolution that addresses the issues. If issues cannot be resolved through negotiation, the Grant Project Officer may take appropriate action. The recipient may request a review of the Grant Project Officer's decision under the dispute resolution process under 2 CFR 1500, Subpart E.

Semi-annual progress reports are required. Grantees should explain the work executed to date, provide environmental performance data, if available, describe the future direction of the project and describe staff and budget plans. Expenditure information should be included in the semi-annual progress report and the final technical report. Performance monitoring is required if the grantee produces environmental data. In the semi-annual progress report and in the final technical report the grantee should explain how environmental data was gathered, measured, tracked and documented.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records to substantiate charges to each assistance agreement, must be kept available to personnel authorized to examine EPA assistance agreement accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of an audit, related records should be retained until the matter is completely resolved.

Fiscal Year 2015: As of this CFDA update, FY 2015 SRA award selections are undergoing review. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.801 HAZARDOUS WASTE MANAGEMENT STATE PROGRAM SUPPORT

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 3011(a)&(c), Public Law 94-580, 42 U.S.C 6901.

OBJECTIVES:

To assist State governments in the development and implementation of an authorized hazardous waste management program for the purpose of controlling the generation, transportation, treatment, storage and disposal of hazardous wastes.

Funding Priority - Fiscal Year 2014: Assistance to State governments in the development and implementation of an authorized hazardous waste management program for the purpose of controlling the generation, transportation, treatment, storage and disposal of hazardous waste.

Funding Priority - Fiscal Year 2015: Assistance to State governments in the development and implementation of an authorized hazardous waste management program for the purpose of controlling the generation, transportation, treatment, storage and disposal of hazardous waste.

Funding Priority - Fiscal Year 2016: Assistance to State governments in the development and implementation of an authorized hazardous waste management program for the purpose of controlling the generation, transportation, treatment, storage and disposal of hazardous waste.

TYPES OF ASSISTANCE:

Formula Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Under Section 3011, funds may be used for development and implementation of authorized State hazardous waste programs.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State agencies responsible for hazardous waste management within the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, and interstate agencies established by the appropriate states and approved by the EPA Administrator under Section 1005 of the Solid Waste Disposal Act are eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to a particular subset of eligible applicants consistent with the Agency's competition policy.

Beneficiary Eligibility:

State agencies responsible for hazardous waste management within the 50 States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana

Islands, and interstate agencies established by the appropriate states and approved by the EPA Administrator under Section 1005 of the Solid Waste Disposal Act.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200, Subpart E for State and local governments. The State work plan is to be sent to the appropriate EPA Regional Office by the date 60 days before the beginning of the budget period (typically by August 1 of each year, if the budget period is the Federal fiscal year). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 must be used for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Requests for application forms and completed applications must be submitted to the appropriate EPA Regional Grants Administration Office. The hazardous waste management staff of the appropriate EPA Regional Office (listed in the address appendix of the Catalog) is available to assist in preparation of the application. This program is excluded from coverage under 2 CFR 200 and 1500. Applicants, except in limited circumstances approved by the Agency, must submit initial applications for funding through <http://www.grants.gov>.

Award Procedure:

EPA reviews each application. They shall be subjected to administrative evaluation to determine adequacy of the application in relation to grant regulations and to technical and program evaluation to determine the merit and relevancy of the project or program. For competitive awards, EPA will review applications, proposals or submissions in accordance with the terms, conditions, and criteria in the solicitation/announcement of the competitive funding opportunity. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For applicants under Section 3011, 60 days.

Appeals:

As described in 40 CFR Part 31, Subpart F. Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

For applicants under Section 3011, grants and cooperative agreements are renewed annually, provided all requirements are met.

Formula and Matching Requirements:

Statutory Formula: Title Solid Waste Disposal Act. This program operates under a formula. Statistical factors used for allocation include: 1) State population, as determined by the most recent Census; 2) number of hazardous waste management facilities in States, based on studies conducted by EPA, Office of Resource Conservation and Recovery; 3) number of Large Quantity Generators (LQGs), based on studies conducted by EPA, Office of Resource Conservation and Recovery; and 4) the number of facilities requiring corrective action, based on studies conducted by EPA, Office of Solid Waste. By law, all States and trust territories are eligible for funding. The formula is based on each State's population (17 percent); (LQG) number of facilities proceeding amount of waste produced (16 percent); number of hazardous waste management

facilities (52 percent); and the number of facilities requiring corrective action (15 percent).

Matching Requirements: Maximum Federal share of approved costs is 75 percent; State must provide at least 25 percent of approved costs. (Regional Administrators will determine each State allotment.).

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Grants are normally funded on a 12 month basis (Federal or State fiscal year). The total project period varies according to program requirements. Assistance is awarded by advance payment method. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are required on an annual basis. Cash reports are required. Interim and final progress reports are required. No expenditure reports are required. Performance monitoring is conducted.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial reports, including all documents to support entries on the accounting records and to substantiate charges to each grant or cooperative agreement must be kept available to personnel authorized to examine EPA grant accounts in an institution. All records must be maintained for 3 years from the date of the submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Formula Grants (Cooperative Agreements)) FY 14 \$98,153,100; FY 15 est \$99,693,000; and FY 16 est \$99,693,000 - FY 14 Actual \$98,153,100; FY 15 Enacted \$99,693,000; FY 16 Pres Bud 99,693,000.

Range and Average of Financial Assistance:

Most fiscal years range \$350,000 to \$8,500,000; average: \$2,000,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In fiscal year 2014, States continued to develop and implement programs providing cradle to grave control of hazardous wastes (under Section 3011). Fiscal Year 2015: In fiscal year 2015, States continued to develop and implement programs providing cradle to grave control of hazardous wastes (under Section 3011). Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures, Environmental Protection Agency, 2CFR 200 and 1500 as applicable; State and Local Assistance, EPA, 40 CFR Part 35.

Regional or Local Office:

See Regional Agency Offices. State agencies are encouraged to communicate with the appropriate EPA Regional Administrator listed in Appendix IV of the Catalog.

Headquarters Office:

RELATED PROGRAMS:

66.600 Environmental Protection Consolidated Grants for the Insular Areas - Program Support

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: State projects to develop a hazardous waste program designed to meet the substantive and procedural requirements of an "authorized" program. (Section 3006). Specific types of activities conducted by states include 1) issuance of hazardous waste management permits, 2) oversight of corrective action at hazardous waste management facilities, 3) inspections of hazardous waste management facilities, 4) inspections of hazardous waste generators, and 5) waste minimization activities. Fiscal Year 2015: State projects to develop a hazardous waste program designed to meet the substantive and procedural requirements of an "authorized" program. (Section 3006). Specific types of activities conducted by states include 1) issuance of hazardous waste management permits, 2) oversight of corrective action at hazardous waste management facilities, 3) inspections of hazardous waste management facilities, 4) inspections of hazardous waste generators, and 5) waste minimization activities. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The applicant's annual work program provides the basis for determining whether the applicant's hazardous waste program continues to be eligible for approval and is being implemented by the applicant (Section 3011).

66.802 SUPERFUND STATE, POLITICAL SUBDIVISION, AND INDIAN TRIBE SITE-SPECIFIC COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, Section 104(d), 42 U.S.C 9604(d).

OBJECTIVES:

To (1) conduct site characterization activities at potential or confirmed hazardous waste sites; (2) undertake response planning and implementation actions at sites on the National Priorities List (NPL) to clean up the hazardous waste sites that are found to pose hazards to human health; and (3) effectively implement the statutory requirements of CERCLA 121(f) which mandates substantial and meaningful State involvement.

Funding Priority - Fiscal Year 2014: Funding must be used at specific hazardous waste sites to: (1) conduct non time critical removal actions; (2) perform site characterization activities such as preliminary assessments, site inspections, remedial investigations, feasibility studies, and remedial design activities at potential or confirmed hazardous waste sites; (3) conduct remedial actions (i.e., clean up) at uncontrolled hazardous waste sites as listed on the National Priorities List (40 CFR 300); (4) support CERCLA implementation activities; (5) identify Potentially Responsible Parties (PRPs); (6) conduct settlement negotiations; (7) take enforcement actions against PRPs; and (8) oversee PRP cleanups.

Funding Priority - Fiscal Year 2015: Funding must be used at specific hazardous waste sites to: (1) conduct non time critical removal actions; (2) perform site characterization activities such as preliminary assessments, site inspections, remedial investigations, feasibility studies, and remedial design activities at potential or confirmed hazardous waste sites; (3) conduct remedial actions (i.e., clean up) at uncontrolled hazardous waste sites as listed on the National Priorities List (40 CFR 300); (4) support CERCLA implementation activities; (5) identify Potentially Responsible Parties (PRPs); (6) conduct settlement negotiations; (7) take enforcement actions against PRPs; and (8) oversee PRP cleanups.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funding may be used to: (1) conduct non time critical removal actions; (2) perform site characterization activities such as preliminary assessments, site inspections, remedial investigations, feasibility studies, and remedial design activities at potential or confirmed hazardous waste sites; (3) conduct remedial actions (i.e., clean up) at uncontrolled hazardous waste sites listed on the National Priorities List (40 CFR 300); (4) support CERCLA implementation activities; (5) identify Potentially Responsible Parties (PRPs); (6) conduct settlement negotiations; (7) take enforcement actions against PRPs; and, (8) oversee PRP cleanups. Funding may not be used to conduct tasks or activities not authorized by CERCLA. Funds may not be used for non-site-specific Core Program activities (see 66.809). Funds made available by the Recovery Act are prohibited from uses relating to casinos and other gambling establishments, aquariums, zoos, golf courses, or swimming pools. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States (and political subdivisions thereof), Commonwealths, U.S. Territories and Possessions, and Federally Recognized Indian Tribal Governments, including intertribal consortia.

Beneficiary Eligibility:

States (and political subdivisions thereof), Commonwealths, U.S. Territories and Possessions, and Federally Recognized Indian Tribal Governments, including intertribal consortia.

Credentials/Documentation:

Costs will be determined in accordance with 40 CFR 35, Subpart O and 2 CFR 200 Subpart E and other supporting documentation provided by the Agency. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program. Consultation and preapplication conference(s) are recommended. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

EPA regional Superfund program offices will conduct an administrative evaluation to determine the adequacy of the application in relation to grant regulations and technical and program evaluation to determine the merit and relevance of the project. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant.

Final approval of application and supporting documentation and offer of award is made by the EPA Regional Administrator unless redelegated to the Regional Division Director.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Approximately ninety (90) days.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Extensions are available but not guaranteed. The original cooperative agreement is amended by using EPA Standard Form 424 and submitting it to the Regional Administrator.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: None required for pre NPL activities or for remedial planning at any site if the site was privately owned and operated at the time of disposal of hazardous wastes. Matching Requirements: 10 percent State, 90 percent Federal, for remedial action if the site was privately owned and operated at the time of disposal of hazardous wastes. Minimum 50 percent State, 50 percent Federal, of all response costs if the site was State/locally operated at time of any disposal of hazardous waste (Note: percentage may vary). CERCLA section 104(c)(3). Tribal governments are not required to share in the costs of Superfund actions. This program has no statutory formula.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds awarded for duration of project, subject to time constraints imposed by EPA. Money is released on a draw down or a letter of credit basis. See the following for information on how assistance is awarded/released: In order to receive payment by the letter of credit method, the recipient must comply with the requirements regarding letter of credit described in 2 CFR 200 and 1500. The recipient must identify and charge costs to specific sites, activities, and operable units, as applicable, for drawdown purposes as specified in the Cooperative Agreement. If the recipient is unable to meet letter of credit requirements, EPA will pay the recipient by reimbursement. The recipient must comply with the requirements regarding reimbursement described in 2 CFR 200 and 1500.

Reports:

Progress reports, notification of significant developments, property inventory reports, procurement reports, financial reports, and final reports are required pursuant to 40 CFR 35, Subpart O. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 2 CFR Part 200 and 1500. Progress reports are required. Financial status reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Part 200 and Part 35, Subpart O are applicable. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. The recipient must maintain all records for 10 years following submission of the final Financial Status Report unless otherwise directed by the EPA award official, and must obtain written approval

from the EPA award official before destroying any records. If any litigation, claim, negotiation, audit, cost recovery, or other action involving the records has been started before the expiration of the ten year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular ten year period, whichever is later.

Account Identification:

68-8145-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$56,000,000; FY 15 est \$40,000,000; and FY 16 est \$40,000,000 - FY 14, \$56 million; FY 15 est, \$40 million, FY 16 est, \$40 million.

Range and Average of Financial Assistance:

Range: \$35 to \$10,500,000; Average: \$263,500.

TAFS Codes:

68-8145.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In Fiscal Year 2014, all 10 EPA Regional Offices awarded or continued to fund cooperative agreements to lead cleanup actions, or to support EPA-lead cleanup actions, at hazardous waste sites. Cooperative agreements were awarded to lead the evaluation of newly discovered sites, to assess and investigate sites that have been identified as needing further action, to select, in partnership with EPA, the appropriate technologies and cleanup actions for these sites, to design the selected technologies and cleanup actions, and to construct the designed remedy. Funding was used to start or continue long term remedial actions to treat ground water where remediation goals have not yet been reached. Finally, funding was provided to meaningfully and substantially participate in cleanup actions where EPA led the cleanup. In Fiscal Year 2014, 55 site-specific cooperative agreements were awarded. Fiscal Year 2015: In Fiscal Year 2015, all 10 EPA Regional Offices awarded or continued to fund cooperative agreements to lead cleanup actions, or to support EPA-lead cleanup actions, at hazardous waste sites. Cooperative agreements were awarded to lead the evaluation of newly discovered sites, to assess and investigate sites that have been identified as needing further action, to select, in partnership with EPA, the appropriate technologies and cleanup actions for these sites, to design the selected technologies and cleanup actions, and to construct the designed remedy. Funding was used to start or continue long term remedial actions to treat ground water where remediation goals have not yet been reached. Finally, funding was provided to meaningfully and substantially participate in cleanup actions where EPA led the cleanup. To date, in Fiscal Year 2015, 59 site-specific cooperative agreements have been awarded. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200 and 1500, 40 CFR 35, Subpart O, 25 CFR 20, Program Guidance Documents.

Website Address:

<http://www.epa.gov/superfund>

RELATED PROGRAMS:

66.809 Superfund State and Indian Tribe Core Program Cooperative Agreements

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Preliminary Assessments/Site Inspections; Remedial Investigation; Feasibility Study; Remedial Design; Remedial Action (i.e., clean up); PRP searches; RI/FS negotiations; RD/RA Negotiations; PRP oversight; Non Time Critical Removal Actions; State participation in federal lead projects,

Long Term Remedial action support, Implementation of institutional controls. Fiscal Year 2015: Preliminary Assessments/Site Inspections; Remedial Investigation; Feasibility Study; Remedial Design; Remedial Action (i.e., clean up); PRP searches; RI/FS negotiations; RD/RA Negotiations; PRP oversight; Non Time Critical Removal Actions; State participation in federal lead projects, Long Term Remedial action support, Implementation of institutional controls. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

For fund-lead remedial action, the site must appear on the National Priorities List of the National Oil and Hazardous Substances Contingency Plan (NCP) (40 CFR 300). Removal actions require a planning period of six months or more. Each project is examined and selected on a case-by-case basis based upon site ranking, availability of matching funds from the State, availability of Trust funds, receipt of application and other criteria as determined by EPA.

66.804 UNDERGROUND STORAGE TANK PREVENTION, DETECTION AND COMPLIANCE PROGRAM

UST Prevention, Detection and Compliance Program

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Superfund Reauthorization Amendments of 1986, Title I, Section 2007(f); Solid Waste Disposal Act (SWDA) of 1976, Section 9011; Energy Policy Act of 2005, 42 U.S.C 6916(f)(2); EPA's Annual Appropriations Act; Energy Policy Act of 2005, Title XV; Ethanol And Motor Fuels, Title B, Section 1521-1533, Public Law 109-58, U.S.C 15801; Ethanol And Motor Fuels, Title B, Section 1521-1533, Public Law 105-276, 42 Stat. 15801.

OBJECTIVES:

To assist States, Territories, Tribes and/or Intertribal Consortia (LUST Prevention only for Tribes and/or Intertribal Consortia) that meet the requirements at 40 CFR 35.504 in the development and implementation of underground storage tank (UST) programs and for leak prevention, compliance and other activities authorized by the Energy Policy Act (EPAct) of 2005, Public Law 105-276, and EPA's annual appropriations acts.

Funding Priority - Fiscal Year 2014: Assistance agreements to states under Section 2007 of the Solid Waste and Disposal Act will support core program underground storage tank (UST) activities, implement their leak prevention and detection programs, as well as the 2005 Energy Policy Act (EPAct) leak prevention activities. High priority tasks include providing financial assistance to states for: 1) approving specific technologies to detect leaks from tank systems; 2) ensuring that tank owners and operators are complying with notification and other requirements; 3) ensuring equipment compatibility; 4) conducting UST inspections; 5) implementing operator training; 6) prohibiting delivery for non-complying facilities; 7) seeking state program approval to operate the UST program in lieu of the Federal program; and 8) requiring secondary containment or financial responsibility for tank manufacturers and installers.

LUST Prevention assistance agreements to states and tribes, and/or intertribal consortia for activities authorized by EPAct will support states with inspections and other release prevention and compliance assurance activities for Federally-regulated UST systems, as well as for enforcement activities related to release prevention. A main cause of releases is the lack of proper operation and maintenance of UST systems, which is why the EPA proposed revisions to the UST regulations in FY 2012 that address these and other important issues. Any changes that result from a final rule will require subsequent state adoption, applicable updates to state regulations, and updates to state program approval.

For tribes, the LUST Prevention assistance agreements will assist with all aspects of the Tribal programs, e.g., inspection capacity. High priority tasks include providing financial assistance to states and tribes for: 1) inspecting UST facilities to complete the three-year inspection requirement; 2) developing inspection capacity for Tribes; 3) assisting states in adopting measures (e.g., delivery prohibition, secondary containment, operator training, etc.), as required by EPAct and EPA's grant guidelines; 4) enforcement activities related to

release prevention; 5) development of leak prevention regulations and other program infrastructure; 6) helping tribes develop the capacity to administer UST programs, such as providing funding to support training for Tribal staff and educating owners and operators in Indian Country about UST requirements. These activities are geared toward bringing all UST systems into compliance with release detection and release prevention requirements and minimizing future releases. Priority will be given to providing funds to enable the States to meet their responsibilities under Title XV, Subtitle B of the Energy Policy Act of 2005. States that have entered into assistance agreements with EPA must have the authority to inspect and take other compliance and related enforcement actions to prevent releases from USTs.

Funding Priority - Fiscal Year 2015: Assistance agreements to states under Section 2007 of the Solid Waste and Disposal Act will support core program underground storage tank (UST) activities, implement their leak prevention and detection programs, as well as the 2005 Energy Policy Act (EPA) leak prevention activities. High priority tasks include providing financial assistance to states for: 1) approving specific technologies to detect leaks from tank systems; 2) ensuring that tank owners and operators are complying with notification and other requirements; 3) ensuring equipment compatibility; 4) conducting UST inspections; 5) implementing operator training; 6) prohibiting delivery for non-complying facilities; 7) seeking state program approval to operate the UST program in lieu of the Federal program; and 8) requiring secondary containment or financial responsibility for tank manufacturers and installers.

LUST Prevention assistance agreements to states and tribes, and/or intertribal consortia for activities authorized by EPA will support states with inspections and other release prevention and compliance assurance activities for Federally-regulated UST systems, as well as for enforcement activities related to release prevention. A main cause of releases is the lack of proper operation and maintenance of UST systems, which is why the EPA proposed revisions to the UST regulations in FY 2012 that address these and other important issues. Any changes that result from a final rule will require subsequent state adoption, applicable updates to state regulations, and updates to state program approval.

For tribes, the LUST Prevention assistance agreements will assist with all aspects of the Tribal programs, e.g., inspection capacity. High priority tasks include providing financial assistance to states and tribes for: 1) inspecting UST facilities to complete the three-year inspection requirement; 2) developing inspection capacity for Tribes; 3) assisting states in adopting measures (e.g., delivery prohibition, secondary containment, operator training, etc.), as required by EPA and EPA's grant guidelines; 4) enforcement activities related to release prevention; 5) development of leak prevention regulations and other program infrastructure; 6) helping tribes develop the capacity to administer UST programs, such as providing funding to support training for Tribal staff and educating owners and operators in Indian Country about UST requirements. These activities are geared toward bringing all UST systems into compliance with release detection and release prevention requirements and minimizing future releases. Priority will be given to providing funds to enable the States to meet their responsibilities under Title XV, Subtitle B of the Energy Policy Act of 2005. States that have entered into assistance agreements with EPA must have the authority to inspect and take other compliance and related enforcement actions to prevent releases from USTs.

Funding Priority - Fiscal Year 2016: Assistance agreements to states under Section 2007 of the Solid Waste and Disposal Act will support core program underground storage tank (UST) activities, implement their leak prevention and detection programs, as well as the 2005 Energy Policy Act (EPA) leak prevention activities. High priority tasks include providing financial assistance to states for: 1) adopting and implementing EPA's recently-released regulatory revisions 2) approving specific technologies to detect leaks from tank systems; 3) ensuring that tank owners and operators are complying with notification and other requirements; 4) ensuring equipment compatibility; 5) conducting UST inspections; 6) implementing operator training; 7) prohibiting delivery for non-complying facilities; 8) seeking state program approval to operate the UST program in lieu of the Federal program; and 9) requiring secondary containment or financial responsibility for tank manufacturers and installers.

LUST Prevention assistance agreements to states and tribes, and/or intertribal consortia for activities authorized by EPA will support states with inspections and other release prevention and compliance assurance activities for Federally-regulated UST systems, as well as for enforcement activities related to release prevention. A main cause of releases is the lack of proper operation and maintenance of UST systems, which is why the EPA published revised UST regulations in FY 2015 that address these and other important issues. These changes will require subsequent state adoption, applicable updates to state regulations, and updates to state program approval.

For tribes, the LUST Prevention assistance agreements will assist with all aspects of the Tribal programs, e.g., inspection capacity. High priority tasks include providing financial assistance to states and tribes for: 1) inspecting UST facilities to complete the three-year inspection requirement; 2) developing inspection capacity for Tribes; 3) assisting states in adopting measures (e.g., delivery prohibition, secondary containment, operator training, etc.), as required by EPA and EPA's grant guidelines; 4) enforcement activities related to release prevention; 5) development of leak prevention regulations and other program infrastructure; 6) helping tribes develop the capacity to administer UST programs, such as providing funding to support training for Tribal staff and educating owners and operators in Indian Country about UST requirements. These activities are geared toward bringing all UST systems into compliance with release detection and release prevention requirements and minimizing future releases. Priority will be given to providing funds to enable the states to meet their responsibilities under Title XV, Subtitle B of the Energy Policy Act of 2005. States that have entered into assistance agreements with EPA must have the authority to inspect and take other compliance and related enforcement actions to prevent releases from USTs.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

States and Tribes may use financial assistance under this program for eligible and allowable costs incurred under assistance agreements for leak prevention, detection, and compliance, as described in the Section:50 Funding Priority. Assistance agreements are available to support recipients' eligible and allowable direct costs incurred under an approved work plan plus allowable indirect costs, in accordance with established EPA policies and regulations.

Unlike State and Tribal Assistance Grant (STAG) funding under Section 2007(f) of the Solid Waste Disposal Act (SWDA), the LUST prevention funding under Section 9011 and other applicable provisions of Subtitle I of the SWDA is not eligible for inclusion in Performance Partnership Grants under 40 CFR 35.133. EPA may award combined STAG funded UST prevention, detection, and compliance assistance agreements authorized by Section 2007(f) with LUST prevention assistance agreements authorized by Subtitle I if the combined agreement is not included in a PPG.

Applicant Eligibility:

Prevention, detection and compliance assistance agreements are only available to States and Territories and to Federally-recognized Tribes and Intertribal Consortia that must meet the requirements, as described in the Federal Register Notice, Vol. 67, No. 213, pp. 67181-67183, "Update to EPA Policy on Certain Grants to Intertribal Consortia." These assistance agreements may also be used for EPA to help States, who request it, to obtain SEE enrollees through a SEE assistance agreement to work on the State's underground storage tanks and to

support direct UST implementation programs.

Beneficiary Eligibility:

States, Territories, Tribes and Intertribal Consortia.

Credentials/Documentation:

States and Territories must either submit certification indicating the State or Territory meets the applicable Energy Policy Act provisions, or submit documentation describing the State or Territory's efforts to meet the requirements, in accordance with EPA's Energy Policy Act grant guidelines (http://www.epa.gov/swrust1/fedlaws/epact_05.htm). The EPA Regional Offices maintain the credentials/documentation for State and Territorial programs and federally-recognized Tribes and Intertribal Consortia. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Tribes and Intertribal Consortia are excluded from coverage under E.O. 12372. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. States and Tribes apply for funds through EPA regional offices. EPA may award combined or separate assistance agreements for leak prevention. Additionally 2 CFR 1500 applies to this program.

Award Procedure:

These funds are awarded non-competitively. However, if EPA elects to hold competitions for Tribal and/or Intertribal Consortia assistance agreements, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Applications will be subjected to administrative evaluation to determine the adequacy of the application in relation to assistance agreement regulations and to technical and program evaluation to determine the merit and relevance of the project. The Agency will advise the applicant if funding is being considered. A final work plan will be negotiated with the applicant. An assistance agreement must be signed between EPA and the State or Territory or EPA and the Tribe or Intertribal Consortia. EPA awards the assistance agreements to states through a previously established allocation process, issued under national guidance rather than through competition (see 40 CFR 35.332 and EPA Order 5700.5, Section 6(c)(1)).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Generally, from 3 to 4 months.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Contact the appropriate Regional Office. See <http://www.epa.gov/swrust1/regions/index.htm>.

Formula and Matching Requirements:

This program has no statutory formula.
Matching Requirements: The UST prevention, detection, and compliance

Solid Waste Disposal Act 2007(f) assistance agreement (STAG) program has no statutory formula or matching requirement. However, there is a 25 percent matching requirement (cost share) for States under 40 CFR 35.335. State matches (cost shares) may include in-kind contributions. Under 40 CFR 35.332, EPA regions allocate funds to states based on their programmatic needs and applicable EPA guidance. Factors include the number of active federally regulated petroleum underground storage tanks. LUST Prevention funding is awarded under Section 9011 and other applicable provisions of Subtitle I of the Solid Waste Disposal Act subject to an allocation process developed by the Agency. The Agency distributes funds based on the number of federally-regulated petroleum USTs in a State and other indicators of State needs. States will provide a 25 percent match (cost share) for assistance agreements awarded under Section 9011 and other applicable provisions of Subtitle I. If EPA awards a State a combined UST prevention, detection, and compliance (STAG) and LUST prevention assistance agreement, the 25 percent cost share will apply to total project costs for the combined assistance agreement. There is no matching requirement (cost share) for prevention, detection and compliance assistance agreements for Tribes or Intertribal Consortia awarded pursuant under Public Law 105-276 or the Agency's annual appropriation act.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the assistance agreement shall be determined at the time of award by the specific EPA Regional Office. Assistance agreements can be awarded on a single- or multiple-year basis up to seven years. Method of awarding/releasing assistance: lump sum.

Reports:

Reporting requirements are identified at 2 CFR 200.327. EPA Regional Offices may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Recipients submit annual reports which include a description of the progress made towards meeting environmental goals as expressed by the environmental indicators and program measures. Recipients report program performance results semi-annually that provide updates for commitments and priorities. No cash reports are required. Progress reports are required and identified at 2 CFR 200.327. States must certify that they are meeting or are making progress in meeting the Energy Policy Act requirements. States are required to provide expenditure reports for overall funding for UST prevention, detection and compliance (STAG) assistance agreements. For LUST Prevention assistance agreements, States are required to submit Federal Financial Reports (SF-425) to the Las Vegas Finance Center. Annual reviews are conducted to determine recipients' progress in meeting overall program goals.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 1500.6 are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304 - STAG; 68-8153-0-7-304 - LUST.

Obligations:

(Formula Grants) FY 14 \$27,127,000; FY 15 est \$268,572,000; and FY 16 est

\$30,357,000 - STAG Obligations - Grants to States (for state staff oversight of UST activities identified in Section :50): FY 14 actual: \$1,498,000; FY15 rescission actual: \$1,488,200, FY16 estimate: \$1,498,000.

LUST Prevention Obligations - Assistance Agreements to State and Tribes (for state staff oversight and inspection activities related to the UST program; for Tribal staff to build capacity and provide training for prevention activities identified in Section :50): FY 14 actual: \$25,629,000; FY15 actual: \$25,369,000, FY16 estimate: \$28,859,000.

LUST Prevention Obligations - Assistance Agreements to State and Tribes (for state staff oversight and inspection activities related to the UST program; for Tribal staff to build capacity and provide training for prevention activities identified in Section :50): FY 13 actual: \$28,859,000; FY 14 estimate: \$25,629,000; FY15 estimate: \$28,859,000.

Range and Average of Financial Assistance:

Range for States and Territories: The STAG and LUST prevention financial assistance is based on states' needs.

STAG Funding: There is no STAG distribution for Tribes.

In FY 2014, Actual STAG funding - Range for States and Territories: \$25,000 to \$356,000; Average for States and Territories = \$115,230. In FY 2015, Actual STAG funding (Rescission)- Range for States and Territories: \$24,800 to \$269,000; Average for States and Territories = \$99,000.

LUST PREVENTION Funding: In FY 2014, Actual LUST PREVENTION funding - Range for States and Territories: \$29,000 to \$1,181,000. Average for States and Territories = \$429,321. Range for Tribes: \$17,098 to \$420,869; Average for Tribes = \$88,161. In FY 2015, Actual LUST PREVENTION funding - Range for States and Territories: \$90,000 to \$1,307,000. Average for States and Territories = \$432,673. Range for Tribes: \$30,361 to \$320,000; Average for Tribes = \$83,719.

TAFS Codes:

68-0103; 68-8153.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, 13 states submitted applications and were awarded STAG assistance agreements. For the LUST Prevention assistance agreements, 54 states (including DC and Puerto Rico) and four (4) territories and 27 tribes and/or tribal consortia submitted applications and were awarded LUST Prevention assistance agreements.

Program accomplishments for FY 2014 resulted in 6,847 number of confirmed releases at UST facilities and 72.5 percent of UST facilities that were in significant operational compliance (SOC) with both release detection and release prevention requirements. Fiscal Year 2015: In FY 2015, it is anticipated that 15 states will submit applications and will be awarded STAG assistance agreements. For the LUST Prevention assistance agreements, it is anticipated that 54 states (including DC and Puerto Rico) and four (4) territories and 27 tribes and/or tribal consortia will submit applications and will be awarded LUST Prevention assistance agreements.

There are no program accomplishments to report for FY 2015 at this time. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures (2 CFR 200 and 2 CFR 1500, as applicable), State and Local Assistance (40 CFR Part 35.330 et. seq. for States and 40 CFR 35.730 et. seq. for Tribes and Intertribal Consortia). Costs will be determined in accordance with 2 CFR 200 subpart E for all entity types. 2 CFR Part 225 for State and local governments and Indian Tribes and 2 CFR Part 230 for Intertribal Consortia that follow the assistance regulations for nonprofit organizations. Contact Regional UST Program Manager for documents.

Regional or Local Office:

See Regional Agency Offices. For state-specific opportunities, EPA encourages potential state applicants to communicate with the appropriate EPA Regional Underground Storage Tanks Regional Program Managers (see <http://www.epa.gov/swerst1/regions/index.htm>).

Headquarters Office:

Lynn Depont, USEPA Headquarters; 1200 Pennsylvania Avenue, N. W.; Mail Code: 5401P, Washington, District of Columbia 20460 Email: depont.lynn@epa.gov Phone: (703) 603-7148.

Website Address:

<http://www.epa.gov/swerst1/index.htm>

RELATED PROGRAMS:

66.805 Leaking Underground Storage Tank Trust Fund Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: UST prevention, detection, and compliance assistance agreements' funded projects include functions necessary for the development and/or implementation of a State or Indian underground storage tank (UST) program. Those functions included the development and/or implementation of enforcement and inspection programs, outreach, and training related to the underground storage tanks program. Specific examples of funded projects in FY 2014 are state inspections, enforcement, development of regulations, other program infrastructure, and to support direct tribal UST implementation programs. Fiscal Year 2015: UST prevention, detection, and compliance assistance agreements' funded projects include functions necessary for the development and/or implementation of a State or Indian underground storage tank (UST) program. Those functions included the development and/or implementation of enforcement and inspection programs, outreach, and training related to the underground storage tanks program. Specific examples of funded projects in FY 2015 are state inspections, enforcement, development of regulations, other program infrastructure, and to support direct tribal UST implementation programs. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

This program allocates funding to States and Tribes non-competitively under the allocation system referenced in Section:101. Funding provided to states for release prevention must be expended in accordance with grant guidelines EPA issued to implement the Title XV, Subtitle B of the Energy Policy Act of 2005, http://www.epa.gov/swerst1/fedlaws/epact_05.htm.

66.805 LEAKING UNDERGROUND STORAGE TANK TRUST FUND CORRECTIVE ACTION PROGRAM

Leaking UST Corrective Action Program

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act of 1976 (SWDA), as amended, Section 9003(h), Public Law 105-276; EPA's Annual Appropriation Act.

OBJECTIVES:

To support State (including Territories that are included in the definition of "State" in the Solid Waste Disposal Act) and Tribal corrective action programs that address releases from underground storage tanks.

Funding Priorities - Fiscal Year 2014: Assistance agreements to states and Tribes will support activities in making progress in cleaning up petroleum leaks by initiating and completing cleanups, and reducing the backlog of sites not yet cleaned up. In FY 2014, not less than 80 percent of LUST cleanup appropriated funds will be provided to states to carry out the LUST cleanup program. High priority tasks include better site characterization efforts, remedy selection review, other technical assistance and management, oversight and enforcement activities at unaddressed LUST sites.

Funding Priorities - Fiscal Year 2015: Assistance agreements to states and Tribes will support activities in making progress in cleaning up petroleum leaks by initiating and completing cleanups, and reducing the backlog of sites not yet cleaned up. In FY 2015, not less than 80 percent of LUST cleanup appropriated funds will be provided to states to carry out the LUST cleanup program. High

priority tasks include better site characterization efforts, remedy selection review, other technical assistance and management, oversight and enforcement activities at unaddressed LUST sites.

Funding Priorities - Fiscal Year 2016: Assistance agreements to states and Tribes will support activities in making progress in cleaning up petroleum leaks by initiating and completing cleanups, and reducing the backlog of sites not yet cleaned up. In FY 2016, not less than 80 percent of LUST cleanup appropriated funds will be provided to states to carry out the LUST cleanup program. High priority tasks include better site characterization efforts, remedy selection review, other technical assistance and management, oversight and enforcement activities at unaddressed LUST sites.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

States and Tribes may use financial assistance under this program for eligible and allowable costs incurred under cooperative agreements for corrective action, as described in Section: 54 Funding Priority and Section: 180 Criteria for Selecting Proposals. This financial assistance program is not eligible for inclusion in Performance Partnership Grants under 40 CFR 35.133. EPA will award cooperative agreements for corrective action activities. The applicable provisions in OSWER Directive 9650.10A, "LUST Trust Fund Cooperative Agreement Guidelines" apply to states receiving funds under this program. See <http://www.epa.gov/swerst1/directiv/d965010a.htm>.

LUST Trust Funds for corrective action will not be used to implement any provision of the Energy Policy Act (EPAct) of 2005, Title XV, Subtitle B, that is not also a leaking underground storage tank activity authorized by Section 205 of the Superfund Amendments and Reauthorization Act.

Applicant Eligibility:

Cooperative agreements are only available to States and Territories that have UST programs. Additionally, these cooperative agreements are only available to Federally-recognized Tribes and Intertribal Consortia that must meet the requirements, as described in the Federal Register Notice, Vol. 67, No. 213, pp. 67181-67183, "Update to EPA Policy on Certain Grants to Intertribal Consortia".

Beneficiary Eligibility:

States, Territories, Tribes and Intertribal Consortia and the communities and industries affected by leaks from underground storage tanks.

Credentials/Documentation:

Even though the LUST corrective action assistance agreements are only used for traditional cleanup activities under Section 9003(h), States and Territories must either submit certification indicating the State or Territory meets the applicable Energy Policy Act provisions, or submit documentation describing the State or Territory's efforts to meet the requirements, in accordance with EPA's Energy Policy Act grant guidelines (http://www.epa.gov/oust/fedlaws/epact_05.htm). The EPA Regional Offices maintain the credentials/documentation for State and Territorial programs and federally-recognized Tribes and Intertribal Consortia. Costs will be determined in accordance with 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental

Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Tribes and Intertribal Consortia are not required to follow intergovernmental review procedures. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

States and Tribes apply for funds through EPA regional offices under this CFDA.

Additionally 2 CFR 1500 applies to this program.

Award Procedure:

These funds are awarded non-competitively. Applications will be subjected to administrative evaluation to determine the adequacy of the application in relation to assistance agreement regulations and to technical and program evaluation to determine the merit and relevance of the project. The Agency will advise the applicant if funding is being considered. A final work plan will be negotiated with the applicant. A cooperative agreement must be signed between EPA and the State or Territory or EPA and the Tribe or Intertribal Consortia. EPA awards the cooperative agreement to states through a previously established allocation process, issued under national guidance rather than through competition. See EPA Order 5700.5, Section 6(c)(1).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Generally from 3 to 4 months.

Appeals:

Disputes will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Contact the appropriate Regional Office. See <http://www.epa.gov/swerst1/states/index.htm>.

Formula and Matching Requirements:

Statutory Formula: Title Solid Waste Disposal Act. LUST corrective action funding awarded under Section 9003(h)(7) of the Solid Waste Disposal Act is subject to an allocation process developed by the Agency. By guidance, the Agency has established a process for allocating funds to states under Section 9003(h)(7) based on the cumulative numbers of confirmed UST releases, total number of existing registered petroleum UST systems, cleanups initiated, cleanups completed, the percentage of the population using groundwater for drinking water, and the number of states with approved UST programs. This program allocates funding to Tribes and Intertribal Consortia non-competitively based on their programmatic needs and national guidance. States must provide a 10 percent cost share for cooperative agreements awarded under Section 9003(h)(7).

Matching Requirements: There is no matching requirement for corrective action cooperative agreements for Tribes or Intertribal Consortia awarded pursuant to Public Law 105-276.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of the grant award by the specific EPA Regional Office. Method of awarding/releasing assistance: lump

sum.

Reports:

Reporting requirements are identified at 2 CFR 200.327. EPA Regional Offices may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements.

Recipients submit annual reports which include a description of the progress made towards meeting environmental goals as expressed by the environmental indicators and program measures. Recipients report program performance results semi-annually that provide updates for commitments and priorities. No cash reports are required. Progress reports are required and identified at 2 CFR 200.327. States are required to submit Federal Financial Reports (SF-425) to the Las Vegas Finance Center. Performance monitoring is conducted to determine states' progress towards meeting overall program goals.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 1500.6 are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-8153-0-7-304.

Obligations:

(Formula Grants) FY 14 \$56,848,594; FY 15 est \$56,168,900; and FY 16 est \$54,402,000 - LUST Obligations - Assistance Agreements to States and Tribes (for state and tribal staff oversight of initiating and cleaning up contamination from leaking underground storage tanks); For LUST State Cooperative Agreements: FY 2014 actual: \$56,126,000; FY 2015 actual: \$55,040,000; FY 2016 estimate: \$54,402,000.

For LUST Tribal Cooperative Agreements: FY 2014 actual: \$722,594 ; FY 2015 actual: \$1,128,900. FY 2016 estimate is unknown.

Range and Average of Financial Assistance:

For FY 2014, the Range for Territories and States: \$51,000 - \$3,022,000; Territory Average: \$56,500; State Average: \$1,079,000. There were approximately 8 Tribal cooperative agreements in FY 2014 for a total of \$723,000.

For FY 2015, the Range for Territories and States: \$41,000 - \$3,200,000; Territory Average: \$46,250; State Average: \$1,058,000. It is anticipated that there will be approximately 8 Tribal cooperative agreements in FY 2015 for a total of \$1,129,000.

TAFS Codes:

68-8153.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, 52 States (including DC and Puerto Rico) and four territories and approximately 8 Indian Tribes submitted assistance agreement applications and were awarded LUST corrective action assistance agreements.

Program accomplishments for FY 2014 resulted in completing 10,393 cleanups and reducing by 14.2 percent the percent of confirmed releases as UST facilities remaining to be cleaned up. Fiscal Year 2015: In FY 2015, it is anticipated that 52 States (including DC and Puerto Rico) and four territories and approximately 8 Indian Tribes will submit assistance agreement applications and will be awarded LUST corrective action assistance agreements. Final performance measure results are not available at this time. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures (2 CFR 200 and 2 CFR 1500, as applicable), State and Local Assistance (40 CFR Part 35.330 et. seq. for States and 40 CFR 35.730 et. seq. for Tribes and Intertribal Consortia). Costs will be determined in accordance with 2 CFR Part 225 for State and local governments and Indian Tribes and 2 CFR Part 230 for Intertribal Consortia that follow the assistance regulations for nonprofit organizations. Contact Regional UST Program Manager for documents.

Guidelines: Leaking Underground Storage Tanks Trust Fund. Cooperative Agreement Guidelines.

Regional or Local Office:

See Regional Agency Offices. For state-specific opportunities, EPA encourages potential applications to communicate with the appropriate EPA Regional Underground Storage Tanks Regional Program Managers (see <http://www.epa.gov/swerust1/regions/index.htm>).

Headquarters Office:

Lynn Depont, USEPA Headquarters, Ariel Rios Building, 1200 Pennsylvania Avenue, N. W. Mail Code: 5401P, Washington, District of Columbia 20460 Email: depont.lynn@epa.gov Phone: (703) 603-7148

Website Address:

<http://www.epa.gov/swerust1/index.htm>

RELATED PROGRAMS:

66.804 State and Tribal Underground Storage Tanks Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In FY 2014, states reviewed site characterization reports; reviewed corrective action plans; and conducted enforcement actions. Cooperative agreements provided assistance to Tribes to help develop and implement the LUST program; and conduct cleanups and provide oversight of responsible party cleanups. Fiscal Year 2015: In FY 2015, it is anticipated that 52 States (including DC and Puerto Rico) and four territories and approximately 8 Indian Tribes will submit assistance agreement applications and will be awarded LUST corrective action assistance agreements. Final performance measure results are not available at this time. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

This program allocates funding to States and Tribes non-competitively under the allocation system referenced in Section :101. Guidelines for LUST corrective action cooperative agreements are found in OSWER Directive 9650-10A, and at OUST's website <http://www.epa.gov/swerust1/directiv/d965010a.htm>.

66.806 SUPERFUND TECHNICAL ASSISTANCE GRANTS (TAG) FOR COMMUNITY GROUPS AT NATIONAL PRIORITY LIST (NPL) SITES

(TAG)

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, Section 117(e), Public Law 96-510; Superfund Amendments and Reauthorization Act of 1986, Public Law 99-499, 42 U.S.C

OBJECTIVES:

The statutory authority for this project is CERCLA 117(e) as amended by 42 USC 9617(e); it authorizes Technical Assistance Grants to be awarded to groups of individuals affected by or threatened by a release at a Superfund site so that they can obtain independent technical assistance to interpret site-related documents and share this information to the rest of the community. The objective of each TAG is to procure an independent technical advisor(s) to review and inform the community on EPA documents related to cleaning up the Superfund site that is affecting them. The goal of each TAG is that the technical advisor's information aids the community in the preparation of public comments and assists the community to more meaningfully participate in the cleanup decision-making process.

Funding Priority - Fiscal Year 2014: Only one grant is available per site, at any time. EPA does not prioritize among eligible sites. All TAG applications are given equal priority as long as the site and group are eligible. The applicant group must meet minimum administrative and management capability requirements by demonstrating they have or will have reliable procedures for record keeping and financial accountability related to TAG management. In addition, all applications must address: plans for using a technical advisor's services, plans and ability to inform other members of the community, and the group's membership (representative of the different individuals/groups affected by the site). Funding must be used to provide resources so that community groups can obtain technical assistance to better understand technical issues related to the cleanup of the Superfund site affecting them and to provide comments on technical, cleanup-related documents. Technical issues for which groups obtain technical assistance may include: the nature of the environmental and public health hazards at the site; the various stages of health and environmental investigations; cleanup and operation and maintenance activities for a site, including exposure investigation, health study, surveillance program, health promotion activities (for example, medical monitoring and pediatric health units), remedial investigation, and feasibility study, record of decision, remedial design, selection and construction of remedial action, operation and maintenance, and removal.

Funding Priority - Fiscal Year 2015: Only one grant is available per site, at any time. EPA does not prioritize among eligible sites. All TAG applications are given equal priority as long as the site and group are eligible. The applicant group must meet minimum administrative and management capability requirements by demonstrating they have or will have reliable procedures for record keeping and financial accountability related to TAG management. In addition, all applications must address: plans for using a technical advisor's services, plans and ability to inform other members of the community, and the group's membership (representative of the different individuals/groups affected by the site). Funding must be used to provide resources so that community groups can obtain technical assistance to better understand technical issues related to the cleanup of the Superfund site affecting them and to provide comments on technical, cleanup-related documents. Technical issues for which groups obtain technical assistance may include: the nature of the environmental and public health hazards at the site; the various stages of health and environmental investigations; cleanup and operation and maintenance activities for a site, including exposure investigation, health study, surveillance program, health promotion activities (for example, medical monitoring and pediatric health units), remedial investigation, and feasibility study, record of decision, remedial design, selection and construction of remedial action, operation and maintenance, and removal.

Funding Priority - Fiscal Year 2016: Only one grant is available per site, at any time. EPA does not prioritize among eligible sites. All TAG applications are given equal priority as long as the site and group are eligible. The applicant group must meet minimum administrative and management capability requirements by demonstrating they have or will have reliable procedures for record keeping and financial accountability related to TAG management. In addition, all applications must address: plans for using a technical advisor's services, plans and ability to inform other members of the community, and the group's membership (representative of the different individuals/groups affected by the site). Funding must be used to provide resources so that community

groups can obtain technical assistance to better understand technical issues related to the cleanup of the Superfund site affecting them and to provide comments on technical, cleanup-related documents. Technical issues for which groups obtain technical assistance may include: the nature of the environmental and public health hazards at the site; the various stages of health and environmental investigations; cleanup and operation and maintenance activities for a site, including exposure investigation, health study, surveillance program, health promotion activities (for example, medical monitoring and pediatric health units), remedial investigation, and feasibility study, record of decision, remedial design, selection and construction of remedial action, operation and maintenance, and removal.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

All or most of the Federal funds must be used at sites listed on the National Priorities List (NPL) or proposed for listing under the National Contingency Plan (NCP), where a response action has begun under CERCLA to procure a technical advisor(s) to help in understanding the nature of the environmental and public health hazards at the site, or the various stages of health and environmental investigations and activities, cleanup, and operation and maintenance of a site, including exposure investigation, health study, surveillance program, health promotion activities (for example, medical monitoring and pediatric health units), remedial investigation, and feasibility study, record of decision, remedial design, selection and construction of remedial action, operation and maintenance, and removal. Limitations: (a) Federal funds cannot be used to develop new primary data, such as conducting independent testing and monitoring activities at a site. (b) Under CERCLA, as amended, grant funds cannot be used for lawsuits or other legal actions, or attorney fees for services connected to any legal action or that could result in a relationship to which attorney/client privileges applies. (c) Grant funds cannot be applied towards a technical advisor's time spent assisting an attorney in preparing a legal action or preparing and serving as an expert witness at any legal proceedings. (d) Grant funds cannot be used for any activities or expenditures for recipient group members' travel. (e) Grant funds cannot be used for political activity and lobbying. (f) Grant funds cannot be used for generation of new health data through biomedical testing (for example, blood or urine testing), clinical evaluations, health studies, surveillance, registries, and/or public health investigations. (g) Grant funds cannot be used for activities that are unallowable under the cost principles stated in 2 CFR 200 Subpart E (h) Grant funds cannot be used for tuition or other training expenses for recipient group's members. (i) Grant funds cannot be used to reopen or challenge final EPA decisions.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

A technical assistance grant (TAG) is available to any qualified group of individuals which: may be "affected" by a release or threatened release at any facility listed on the NPL or proposed for listing under the NCP where a "response action" under CERCLA has begun; meets minimum administrative and management capability requirements found in 2 CFR 200 by demonstrating they have or will have reliable procedures for record keeping and financial accountability related to TAG management; and incorporates as a nonprofit for the specific purpose of representing "affected" individuals at the site. "Affected" means subject to an actual or potential health, economic or environmental threat. A group is ineligible if: (a) The group is a "potentially responsible party" (PRP), receives money or services from a PRP, or represents a PRP; (b) The group is affiliated with a national organization; (c) The group is an academic institution; (d) The group is a political subdivision; (e) The group

was established or is presently sustained by any of the ineligible entities listed above; or (f) The group is not incorporated as a nonprofit organization for the specific purpose of representing affected people except as provided in 40 CFR 35.4045.

Beneficiary Eligibility:

This program benefits groups of individuals affected by Superfund hazardous waste sites. Groups should be representative of the community affected by the Superfund site, which may include homeowners, land/property owners, local businesses, as well as any other individuals in the general public who live near a site.

Credentials/Documentation:

At the time of the award, a recipient must either be incorporated or demonstrate that they have taken all necessary and appropriate actions to do so. Recipients must show proof of incorporation no later than the time of the group's first request for reimbursement for costs incurred. This program is excluded from coverage under OMB Circular No. A-87. This program is subject to the provisions of OMB Circular No. A-122. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

1) Groups wishing to apply for a TAG must first submit to EPA a letter of intent (LOI). Groups interested in applying for a TAG are encouraged to contact their regional TAG coordinator(s), listed in Appendix IV of the Catalog). 2) If site work is already underway or scheduled to begin, EPA will publish a notice in the local newspaper to formally notify other interested parties that they may contact the first group that sent the LOI to form a coalition or they may submit a separate LOI. 3) Competing groups are encouraged to consolidate and submit a single application. 4) Prior to submitting their application to EPA (or concurrently), the applicant must submit the application package for their State's intergovernmental review process. This intergovernmental review may take up to 60 days. This program is excluded from coverage under CFR Parts 200. This program is subject to the provisions of CFR Parts 1500. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. For more information regarding the procedures for submitting a LOI or for application assistance, contact the TAG coordinator(s) for your region (in Appendix IV of the Catalog) or the individuals listed under "Information Contacts." Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. An applicant for a TAG must submit the following materials in accordance with 40 CFR 35.4125 of the Final Rule: 1) An original EPA Form 424, Application for Federal Assistance. The application must have the original signature of the project manager. 2) A budget showing the proposed expenditure of funds, how the funds and other resources, including the required 20 percent match, will be used to complete the project, and how the budget figures were derived. 3) A scope of work which states how the group will organize, use procured personnel, and share and disseminate information to the larger affected community. In addition, the scope of work must explain project milestones and how the group's board of directors, technical advisors(s) and "project manager" will interact with each other. 4) Assurances, certifications and other preaward paperwork as required by 2 CFR 200 and 1500, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

1) A TAG review team in the EPA Regional Office to which the application is submitted reviews the application and sends a letter containing written comments telling the applicant what, if any, changes need to be made to the application to make it complete. 2) An applicant group has 90 days from the date of the EPA letter to make the changes to their application and resubmit it to EPA. If the changes are not submitted within the 90-day period, the application will be returned unprocessed. 3) EPA determines the applicant's eligibility under 40 CFR 35.4020 and considers whether and how successfully the group meets three equally weighted criteria in 40 CFR 35.4155 (see 180, "criteria for selecting proposals," below). When multiple groups apply, EPA will rank each applicant relative to other applicants using the three equally weighted criteria. 4) If an applicant is not going to be awarded a TAG, the EPA will send a letter of rejection to the applicant. 5) If an application is approved for an award, a grant agreement document (EPA Form 5700-20A) is signed by the EPA award official. This document becomes an offer from EPA to the applicant. Award offers are mailed to the recipient five working days after the award official signs the agreement. 6) The applicant must sign and return the agreement to EPA within three weeks of the date the agreement is postmarked or request an extension. EPA will review applications in accordance to terms, conditions and criteria in the TAG regulations and EPA's policy for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 4 to 9 weeks.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable. Before a group obtains judicial review of the dispute, they must have requested the Regional Administrator to review the dispute decision official's determination under, and if the group still has a dispute, they must request the Assistant Administrator for the Office of Solid Waste and Emergency Response to review the Regional Administrator's decision under.

Renewals:

Grant waiver requests are made at the end of the budget period and are based on the requirements of 40 CFR 35.4065, which lists criteria which must be met.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: As directed by statute (Section 117(e) of CERCLA, as amended by 42 USC 9617(e)) there may be only one grant per site, there is a \$50,000 award limit unless waived, and recipient must contribute a 20 percent match (including in-kind contributions).

This program does not have MOE requirements. Not applicable.

Length and Time Phasing of Assistance:

A grant may be available from the time a site is proposed for listing under the NCP (with a response action underway) until the site is delisted from the NPL - this time span varies based on the complexity of the site cleanup; a group may submit an LOI to apply for a TAG at any eligible site at any point in the site cleanup. For each award, the grant period is determined by the time needed to complete the scope of work stated in the grant application and through negotiations with EPA (this is generally a period of three years or greater). Grants under this CFDA are reimbursement-based; a grantee may draw down funds to cover grant-related expenses they have incurred (such as a technical advisor's invoice for services/expenses). See the following for information on how assistance is awarded/released: Assistance is awarded as a lump sum, however, the funds are released on a reimbursement basis (recipients draw down funds as costs are incurred).

Requests for Reimbursement or Federal Cash Transactions Reports: Depending on the method of payment, each recipient shall submit periodic requests for reimbursement as funds are needed, or shall submit to EPA a federal cash transaction report semiannually, within 15 working days following the end of the semiannual period which ends June 30 and December 31 of each year. These reports shall include the amount of funds advanced to the TAG recipient

or electronically transferred to the TAG recipient's bank account, and a description of how the funds were spent.

Reports:

No program reports are required. Federal Cash Transaction Reports (OMB SF272) are required of TAG grant recipients. Progress reports: Each recipient shall submit quarterly progress reports to EPA for the technical assistance grant project 45 days after the end of each calendar quarter. Progress reports shall fully describe in chart or narrative format the progress achieved in relationship to the approved schedule, budget, and the technical assistance grant project milestones. Special problems encountered must be explained.

Final report. Each recipient shall submit to EPA the final report within 90 days after the end of the project. The report shall describe project goals and objectives, activities undertaken to achieve goals and objectives, difficulties encountered, technical advisors' work products and funds spent.

Minority-Owned Business Enterprise/Women-Owned Enterprise (MBE/WBE) Utilization Report: Each recipient shall submit to EPA a MBE/WBE Utilization report annually, even if no contracts have been signed. Each recipient is required to disclose whether they have contracted with a MBE/WBE in the past Federal fiscal year, the value of the contract, if any, and the percentage of the total project dollars on MBE/WBEs. 6) Each recipient shall comply with any reporting requirements in the terms and conditions of the "grant agreement".

Each recipient shall comply with any reporting and record keeping requirements in CFR 200 and EPA's implementing regulations at 2 CFR 1500. A Financial Status Report is due annually, within 90 days after the start of the TAG project. A Final Financial Status Report is due within 90 days after the end of the TAG funding period. The reports should include a status of the TAG funds and identify project transactions. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

1) Each recipient shall keep complete financial records accurately showing how the Federal funds were used and the match, whether it is in the form of cash or in-kind assistance. 2) Each recipient shall comply with any reporting and record keeping requirements of 2 CFR 200 and EPA's implementing regulations at 2 CFR 1500. 3) Each recipient must keep TAG financial records for ten years from the date of the final Financial Status Report, or until any audit, litigation, cost recovery, and/or disputes initiated before the end of the ten-year retention period are settled, whichever is longer. At the ten-year mark, the TAG financial records may be disposed of after first getting written approval to do so from the EPA. Alternately, a recipient may choose to submit financial records to the EPA for safekeeping when the final Financial Status Report is submitted. 4) Each recipient must send to EPA a copy of each final written product prepared by their technical advisor as part of the TAG. EPA will send the final written products to the local Superfund site information repository(ies) where all site-related documents are available to the public.

Account Identification:

68-8145-0-1-304.

Obligations:

(Project Grants) FY 14 \$410,000; FY 15 est \$250,000; and FY 16 est \$200,000 - (Includes initial awards and additional funds) In FY 2014, \$410,000 was awarded. In FY 2015, \$230,000 has been awarded as of June 31, 2015, and it is estimated that an additional \$20,000 will be awarded by the end of the fiscal year. It is estimated that \$200,000 will be awarded in FY 2016.

Range and Average of Financial Assistance:

Initial awards for assistance agreements awarded under this CFDA number will not exceed \$50,000. After the initial award, additional funding may be awarded based on the criteria detailed under 40 CFR 35.4065, and subject to the availability of funds. The average additional award is \$40,000 (per agreement). Since 1988, 342 TAGs have been awarded. Of these, 206 grantees were awarded \$50,000 or less; 81 grantees have received awards with a cumulative value between \$51,000 and \$150,000; 40 grantees have received awards with a cumulative value ranging between \$151,000 and \$250,000; and 15 grantees have received awards whose cumulative value totals of more than \$250,000. The cumulative award value includes the initial award and any supplemental funding awards over the life of the agreement.

TAFS Codes:

68-8145.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Since the program began on March 24, 1988, through September 30, 2014, 331 awards have been issued by EPA, totaling more than \$30,400,000 in TAG awards (including new awards, additional funds, waivers and deviations). In most cases, EPA receives only one application for a site and in most cases an award is made. In FY 2014 two new awards were made, totaling \$100,000. Twelve supplemental funding awards were made to existing grantees, totaling \$310,000. The grant includes an outreach component wherein the grantee helps to educate the broader community on issues related to the site cleanup. Under this grant, grantees have developed community newsletters, developed web sites, conducted community meetings to help other community members better understand technical information related to the site cleanup and to better respond to site-related technical documents during public comment periods. Technical comments provided to EPA under this grant assist EPA in meeting Superfund strategic targets of identifying and controlling unacceptable human exposures from site contamination; monitoring and controlling migration of contaminated ground water; and identifying a final remedy suitable for stated reuse (under Goal 3.2.2 of EPA's Strategic Plan). Fiscal Year 2015: Since the program began on March 24, 1988, through June 30, 2015, 342 awards have been issued by EPA, totaling more than \$30,500,000 in TAG awards (including new awards, additional funds, waivers and deviations). In most cases, EPA receives only one application for a site and in most cases an award is made. In FY 2015 one new awards was made for \$25,000. Six supplemental funding awards were made to existing grantees, totaling \$205,000. EPA estimates that there will be one additional awards of supplemental funds of approximately \$20,000. The grant includes an outreach component wherein the grantee helps to educate the broader community on issues related to the site cleanup. Under this grant, grantees have developed community newsletters, developed web sites, conducted community meetings to help other community members better understand technical information related to the site cleanup and to better respond to site-related technical documents during public comment periods. Technical comments provided to EPA under this grant assist EPA in meeting Superfund strategic targets of identifying and controlling unacceptable human exposures from site contamination; monitoring and controlling migration of contaminated ground water; and identifying a final remedy suitable for stated reuse (under Goal 3.2.2 of EPA's Strategic Plan). Fiscal Year 2016: No Current Data Available

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: TAG allows a group to procure independent technical advisors to help in interpreting and commenting on site-related information and decisions. Examples of how a technical advisor can help a group include, but are not limited to: (a) Reviewing preliminary site assessment/site investigation data; (b) Participating in public meetings to help interpret information about site conditions, proposed remedies, and the implementation of a remedy; (c) Visiting the site vicinity periodically during cleanup, if possible, to observe progress and provide technical updates to the group; (d) Interpreting information related to redevelopment; and (e) Evaluating future land use options based on land use assumptions found in the remedial investigation/feasibility study. Fiscal Year 2015: TAG allows a group to procure independent technical advisors to help in interpreting and commenting on site-related information and decisions. Examples of how a technical advisor can help a group include, but are not limited to: (a) Reviewing preliminary site assessment/site investigation data; (b) Participating in public meetings to help interpret information about site conditions, proposed remedies, and the implementation of a remedy; (c) Visiting the site vicinity periodically during cleanup, if possible, to observe progress and provide technical updates to the group; (d) Interpreting information related to redevelopment; and (e) Evaluating future land use options based on land use assumptions found in the remedial investigation/feasibility study. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description are described in the programmatic regulations (40 CFR Part 35) as follow. In selecting a proposal: 1) EPA will determine if a group meets the following eligibility criteria: (a) The community group is a group of people who may be "affected" by a release or a threatened release at any facility listed on the NPL or proposed for listing under the NCP where a response action is underway; and (b) The group meets the minimum administrative and management capability requirements found in 2 CFR 200 by demonstrating they have or will have reliable procedures for record keeping and financial accountability related to managing the TAG. 2) EPA will also determine if there are factors which make the group ineligible. A group is ineligible if: (a) The group is a "potentially responsible party" (PRP), receives money or services from a PRP, or represents a PRP; (b) The group is "affiliated" with a national organization; (c) The group is an academic institution; (d) The group is a political subdivision; (e) The group was established or is presently sustained by any of the ineligible entities listed above; or (f) The group is not incorporated as a nonprofit organization for the specific purpose of representing affected people except as provided in 40 CFR 35.4045. 3) Once EPA determines if eligibility requirements have been met, the Agency considers whether and how successfully a group meets the following, equally weighted, criteria: (a) Representation of groups and individuals affected by the site; (b) The group's plans to use the services of a technical advisor throughout the Superfund response action; and (c) The group's ability and plan to inform others in the community of the information provided by the technical advisor. 4) Additionally, a group must incorporate as a nonprofit for the purpose of participating in decision making at the Superfund site for which the TAG was granted (for exception see 40 CFR 35.4045). Applicant groups should consult the Superfund TAG Handbooks, "Applying for a Grant" and "The Application Forms with Instructions," for detailed instructions on applying for a TAG.

66.808 SOLID WASTE MANAGEMENT ASSISTANCE GRANTS**FEDERAL AGENCY:**

Office of Solid Waste and Emergency Response, Environmental Protection

Agency

AUTHORIZATION:

Solid Waste Disposal Act, Section 8001; Resource Conservation and Recovery Act of 1976, Public Law 94-580, 42 U.S.C 6901.

OBJECTIVES:

To promote use of integrated solid waste management systems to solve solid waste generation and management problems at the local, regional and national levels.

Funding Priority - Fiscal Year 2014: Partnerships - Establishing and developing partnerships with states, local governments and other non profit organizations to assist them in advancing their waste management programs, including recycling and reduction of wastes, appropriate management of wastes that are generated, and developing integrated waste management plans. Education and Outreach - Developing and providing education, training, and outreach materials to educate and inform Americans about waste's impact on resource and energy use and pollution. Fostering a better understanding of the environmental ramifications of collective actions including how individual purchasing and manufacturing decisions are connected to the environment and to enable Americans to make better choices resulting in increased recycling, less waste and greater energy savings.

Funding Priority - Fiscal Year 2015: Partnerships - Establishing and developing partnerships with states, local governments and other non profit organizations to assist them in advancing their waste management programs, including recycling and reduction of wastes, appropriate management of wastes that are generated, and developing integrated waste management plans. Education and Outreach - Developing and providing education, training, and outreach materials to educate and inform Americans about waste's impact on resource and energy use and pollution. Fostering a better understanding of the environmental ramifications of collective actions including how individual purchasing and manufacturing decisions are connected to the environment and to enable Americans to make better choices resulting in increased recycling, less waste and greater energy savings.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Available for the allowable direct cost expenditures incident to program performance plus allocable portions of allowable indirect costs of the institution, in accordance with established EPA policies. Projects can include the following types of activities: training, surveys, education materials and programs, studies, and demonstrations; assistance to such projects shall not include any element of construction, or any acquisition of land or interest in land, or any subsidy for the price of recovered resources. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

State (including the District of Columbia, Puerto Rico, Virgin Islands, Guam, American Samoa, and Northern Mariana Islands), local, Tribal, interstate, and intrastate government agencies and instrumentalities, and non-profit organizations that are not 501(c)(4) organizations that lobby, including non-profit educational institutions and non-profit hospitals. Individuals and for-profit organizations are not eligible. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Additionally, EPA may

limit competition under this CFDA to Tribes and Inter-Tribal Consortia.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, the public, and interstate agencies.

Credentials/Documentation:

This program is subject to the provisions of 2 CFR 200 Subpart E. Nonprofits need to provide proof of their status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Discussion with EPA Headquarters or the appropriate EPA Regional Office is advisable. (See Appendix IV of the Catalog for list of Regional Contacts). This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application form as furnished by the Federal agency and required by 2 CFR 200 and 1500, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Requests for application forms and submission of completed applications should be directed to EPA Grants and Interagency Agreements Management Division (3903R), Washington, DC 20460, or the appropriate EPA Regional Office listed in Appendix IV of the Catalog. This program is subject to the provisions of 2 CFR 200 and 1500, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

EPA reviews each application. They shall be subjected to administrative evaluation to determine the adequacy of the application in relation to grant regulations and program evaluation criteria to determine the merit and relevance of the project. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 2 CFR 1500 Subpart E. Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted, which will be reviewed in the same manner as a new application.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants will normally be funded on a 12 month basis (yearly). The total approved project period is generally no longer than 3 years. See the following for information on how assistance is awarded/released: Assistance under this program can be awarded in various ways, but will usually be awarded in lump sum or annually.

Reports:

No program reports are required. No cash reports are required. Quarterly, interim and final progress, expenditure, equipment and invention reports. Progress Reports are required under this program. Generally they are quarterly or monthly. Expenditure Reports are required and usually accompany the progress reports. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: To promote sustainable growth through materials management practices, and provide training and technical assistance. Fiscal Year 2015: To promote sustainable growth through materials management practices, and provide training and technical assistance. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.809 SUPERFUND STATE AND INDIAN TRIBE CORE PROGRAM COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 104(d), 42 U.S.C 9604(d).

OBJECTIVES:

To effectively implement the statutory requirements of CERCLA Section 121(f) for State involvement. To provide funds to conduct CERCLA activities which are not assignable to specific sites, but support a recipient's site-specific response program.

Funding Priority - Fiscal Year 2014: No content available.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Core Program Cooperative Agreements are offered to ensure that each State, or Federally Recognized Indian Tribe or intertribal consortia can substantially participate in CERCLA response actions. Recipients negotiate with EPA Regions to receive funding for a variety of activities that include: (1) Procedures for emergency response actions and remediation of environmental and health risks; (2) provisions for satisfying all requirements and assurances; (3) development of legal authorities and enforcement support; (4) hiring and training staff; and (5) activities that support EPA/Recipient interaction. Recipients with Regional approval may receive awards for multi year budget and project periods at the Region's discretion. Funding for the entire project may be made as a lump sum or incrementally over time. Recipients must demonstrate progress towards the goals stated in the Core Program Cooperative Agreement in order to be eligible for continued funding. Only one Core Program Cooperative Agreement will be awarded to each eligible State or Tribe or intertribal consortia through the Single Point of Contact. Funds must be used for non-site-specific activities as described above.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States (and political subdivisions thereof), Commonwealths, U.S. Territories and Possessions, and Federally Recognized Indian Tribal Governments, including intertribal consortia.

Beneficiary Eligibility:

States (and political subdivisions thereof), Commonwealths, U.S. Territories and Possessions, and Federally Recognized Indian Tribal Governments, including intertribal consortia.

Credentials/Documentation:

Costs will be determined in accordance 40 CFR Part 35 Subpart O and 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program. Consultation and pre-application conference are recommended. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

EPA regional Superfund program offices review the applications for cooperative agreements. Final approval of application and supporting documentation and offer of award is made by the EPA Regional Administrator unless re-delegated to the Regional Division Director.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately ninety (90) days.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Applications for additional funding need to include only the revised pages from EPA Form 424.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 10%. As required by 40 CFR Part 35 Subpart O, State recipients of Core Program Cooperative Agreements must provide a 10 percent cost share of the total project cost on all awards. This match may be made from either direct, non-federal funds, non-reimbursed fund, or with in kind contributions. CERCLA credits earned at other Superfund sites cannot be used to meet the 10 percent match. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is awarded as a lump sum, or may be incrementally funded. Recipients with Regional approval may receive cooperative agreement awards for multi year budget and project periods at the Region's discretion. Continued funding of tasks in subsequent years is based on an evaluation of demonstrated progress towards the goals in the Core Program Cooperative Agreement Statement of Work. See the following for information on how assistance is awarded/released: In order to receive payment by the letter of credit method, the recipient must comply with the requirements regarding letter of credit described in Part of 2CFR 200. The recipient must identify and charge costs to specific sites, activities, and operable units, as applicable, for drawdown purposes as specified in the Cooperative Agreement. If the recipient is unable to meet letter of credit requirements, EPA will pay the recipient by reimbursement. The recipient must comply with the requirements regarding

reimbursement described in 2 CFR Part 200.

Reports:

No program reports are required. No cash reports are required. The recipients must submit progress reports no more frequently than quarterly, but at a minimum annually. The recipients must submit financial status reports annually, and a final report. Financial status reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 200 and 1500 and Part 35, Subpart O are applicable. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. The recipient must maintain all records for 10 years following submission of the final Financial Status Report unless otherwise directed by the EPA award official, and must obtain written approval from the EPA award official before destroying any records. If any litigation, claim, negotiation, audit, cost recovery, or other action involving the records has been started before the expiration of the ten year period, the records must be retained until completion of the action and resolution of all issues which arise from it, or until the end of the regular ten-year period, whichever is later.

Account Identification:

68-8145-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$5,400,000; FY 15 est \$7,000,000; and FY 16 est \$7,000,000 - (Core Cooperative Agreements) FY14 \$5.4 million; FY15 est. \$7 million; FY16 est. \$7 million.

Range and Average of Financial Assistance:

\$8,000 to \$400,000; with the average award being \$122,574.

TAFS Codes:

68-8145.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In Fiscal Year 2014, the types of activities funded included: hiring staff, administrative salaries, clerical help, financial accounting, data management, program management, medical monitoring, health and safety training for field employees, computer systems purchases, training, legal assistance and legislative development. Outputs include reports, accounting and tracking systems, hired and trained staff, cost recovery procedures and techniques, laws and regulations for hazardous waste control. In FY 2014, 12 Core program cooperative agreements were awarded. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200, 40 CFR Part 35, Subpart O, Program Guidance Documents.

Website Address:

<http://www.epa.gov/superfund>

RELATED PROGRAMS:

66.802 Superfund State, Political Subdivision, and Indian Tribe Site_Specific Cooperative Agreements

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Administrative and program development, accounting systems development, legal authorities and enforcement support, hiring and training of State response staff, procedures for emergency response actions, identifying sites in the State affected by the release of hazardous substances, program management and planning; financial administration, reconciliation of records and financial report preparation; budget preparation/management, procurement and labor allocation accounting and reporting services; and state records and archives representation, cost recovery records maintenance, and cost recovery report preparation. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

For Core Program Cooperative Agreements, recipients must demonstrate a need for non-site specific funds to support activities not covered by other site-specific awards. Each project is examined and selected on a case-by-case basis based upon availability of funds, receipt of application, and other criteria as determined by EPA.

66.812 HAZARDOUS WASTE MANAGEMENT GRANT PROGRAM FOR TRIBES

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Department of Veterans Affairs and Housing and Urban Development and Independent Agencies Appropriation Act, Public Law 105-276, 112 Stat. 2461&2499.

OBJECTIVES:

The Hazardous Waste Management Grant Program for Tribes provides assistance for the development and implementation of hazardous waste management programs; for building capacity to improve and maintain regulatory compliance; and for developing solutions to address hazardous waste management issues in Indian country.

Funding Priority - Fiscal Year 2014: Develop and implement hazardous waste management programs that improve the applicant's ability to properly identify, manage, or dispose of hazardous waste. Build capacity to improve and maintain regulatory compliance and develop solutions to address hazardous waste mismanagement impacting Tribal lands. Development and institutionalization of hazardous waste program capacity for Tribal governments and the communities they serve.

Funding Priority - Fiscal Year 2015: Develop and implement hazardous waste management programs that improve the applicant's ability to properly identify, manage, or dispose of hazardous waste. Build capacity to improve and maintain regulatory compliance and develop solutions to address hazardous waste mismanagement impacting Tribal lands. Development and institutionalization of hazardous waste program capacity for Tribal governments and the communities they serve.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

This grant program will support projects designed to develop and implement hazardous waste management programs. These programs must improve the applicant's ability to properly identify, manage, or dispose of hazardous waste. All hazardous waste management activities that address the Resource Conservation and Recovery Act (RCRA) Subtitle C "cradle to grave" approach are eligible. Each of the following hazardous waste management program activities are considered central to a "cradle to grave" program: Hazardous Waste Identification; Hazardous Waste Generator Siting, Monitoring, & Compliance (Large Quantity, Small Quantity, and Conditionally Exempt Small Quantity Generators); Hazardous Waste Minimization, Recycling, Used Oil, and Universal Wastes; Hazardous Waste Transportation; Treatment, Storage,

and Disposal Facility Siting, Permitting, Monitoring, Corrective Action, & Enforcement; Land Disposal Restrictions; Combustion. Assistance will be provided under this program only for activities which EPA determines are appropriate to carry out the purposes of RCRA. Assistance under this program does not include any element of municipal solid waste management, chemical emergency planning and preparedness or superfund program cleanup.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

The following are eligible to receive financial assistance: (a) an Indian tribal government, and (b) an intertribal consortium or consortia. An Indian tribal government is any tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation (as defined in or established pursuant to the Alaska Native Claims Settlement Act, 43 U.S.C. 1601, et seq.), which is recognized by the U.S. Department of the Interior as eligible for the special services provided by the United States to Indians because of their status as Indians. A consortium is a partnership between two or more Indian tribal governments authorized by the governing bodies of those tribes to apply for and receive assistance under this program. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Federally Recognized Indian Tribal Governments.

Credentials/Documentation:

This program is subject to the provisions of 2 CFR 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Potential applicants should consult the designated Regional Tribal hazardous waste program coordinator. It is strongly suggested that potential applicants consult with the designated Regional point of contact. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The annual competitive announcement outlines specific procedures for submitting proposals. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

In order to receive renewals, significant progress on previously awarded grant must be demonstrated.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The terms of the grant shall be determined at the time of the grant award. See the following for information on how assistance is awarded/released:
Assistance agreements will be fully funded by a lump sum.

Reports:

Annual Regional Review. Grantees must provide financial and performance activity reports according to the terms negotiated with the Regional program. Copies of the reports should also be sent to the EPA Office of Resource Conservation and Recovery headquarters representative.

Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Typically expenditure reports are not required. However, grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in 2 CFR 200 and 1500.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Records and accounts must be maintained to reflect the operations of the project. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304 - STAG.

Obligations:

(Cooperative Agreements) FY 14 \$298,000; FY 15 est \$295,000; and FY 16 est \$300,000 - FY 2014 - \$298,000 est.; FY 2015 - \$295,000 est.; FY 2016 - \$300,000 est.

Range and Average of Financial Assistance:

Range = \$18,000 to \$100,000; Average = \$56,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, the Office of Resource Conservation and Recovery (ORCR) - formerly OSW - distributed funds to Tribes and Inter-Tribal Consortia in support of activities that facilitate the development of comprehensive management programs to properly identify, manage, or dispose of hazardous waste; build capacity to improve and maintain regulatory compliance; and identify and/or implement solutions that will address hazardous waste mismanagement. In FY 2014, ORCR received 20 proposals. Out of the 20 proposals that were received, all were considered eligible and were reviewed. To assist Tribes through the FY 2014 Hazardous Waste Management Grant Program for Tribes, \$411,900 in STAG funding was distributed to Regions 1, 6, 9, and 10. A total of 7 awards were made through these Regions. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

RELATED PROGRAMS:

66.473 Direct Implementation Tribal Cooperative Agreements; 66.605

Performance Partnership Grants; 66.701 Toxic Substances Compliance Monitoring Cooperative Agreements; 66.708 Pollution Prevention Grants Program; 66.801 Hazardous Waste Management State Program Support; 66.808 Solid Waste Management Assistance Grants; 66.926 Indian Environmental General Assistance Program (GAP)

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In FY 2014, the following activities are suggestive and do not limit the range of activities considered eligible under this grant program. These activities are eligible when they are performed in support of developing and implementing a tribal program to manage hazardous waste: Develop and implement codes, regulations, and ordinances, policies, and/or guidance to regulate hazardous waste management activities and facilities, such as generators, transporters, and treatment, storage and disposal facilities. Develop and implement hazardous waste program enforcement policies and procedures to ensure regulatory compliance, including monitoring and inspection schemes. Develop legal and administrative infrastructure adequate to implement and maintain regulatory and/or non-regulatory hazardous waste management programs. Includes support for Tribal Emergency Response Committees (TERC). Identify and assess hazardous waste generation and ongoing management of concern to the community, including: inventory active and inactive dump/disposal sites and assess contamination potential; characterize hazardous waste stream, including illegal dump-sites; and identify sensitive sites with potential or actual impacts on water bodies, soil, air, cultural/historic resources, threatened or endangered species, etc. Develop and implement tribal integrated hazardous waste management plans (including, but not limited to, source reduction/recycling, household hazardous waste collection programs, pesticide container collection). Implement used oil collection/re-use and other programs to reduce the mismanagement of hazardous waste in the community. Implement household hazardous waste collection events or programs that provide sustainable or long-term solutions for disposal of household hazardous waste for the community. Develop outreach/education documents and other resource materials to plan and conduct hazardous waste management seminars for tribal leaders, community members, business and civic organizations, etc. Establish qualifications for environmental management personnel relative to the tribes needs and plan for program implementation. Establish a communications plan for hazardous waste management program activities. Identify multi-jurisdictional opportunities for hazardous waste management, including feasibility for intergovernmental (Tribal, Federal, State, local) cooperative efforts. Fiscal Year 2015: In FY 2015, the following activities are suggestive and do not limit the range of activities considered eligible under this grant program. These activities are eligible when they are performed in support of developing and implementing a tribal program to manage hazardous waste: Develop and implement codes, regulations, and ordinances, policies, and/or guidance to regulate hazardous waste management activities and facilities, such as generators, transporters, and treatment, storage and disposal facilities. Develop and implement hazardous waste program enforcement policies and procedures to ensure regulatory compliance, including monitoring and inspection schemes. Develop legal and administrative infrastructure adequate to implement and maintain regulatory and/or non-regulatory hazardous waste management programs. Includes support for Tribal Emergency Response Committees (TERC). Identify and assess hazardous waste generation and ongoing management of concern to the community, including: inventory active and inactive dump/disposal sites and assess contamination potential; characterize hazardous waste stream, including illegal dump-sites; and identify sensitive sites with potential or actual impacts on water bodies, soil, air, cultural/historic resources, threatened or endangered species, etc. Develop and implement tribal integrated hazardous waste management plans (including, but not limited to, source reduction/recycling, household hazardous waste collection programs, pesticide container collection). Implement used oil collection/re-use and other programs to reduce the mismanagement of hazardous waste in the community. Implement household hazardous waste collection events or programs that provide sustainable or long-term solutions for disposal of household hazardous waste for the community. Develop outreach/education documents and other resource materials to plan and conduct hazardous waste management seminars for tribal leaders, community members, business and civic organizations, etc. Establish qualifications for environmental management personnel relative to the tribes needs and plan for program implementation. Establish a communications plan for hazardous waste

management program activities. Identify multi-jurisdictional opportunities for hazardous waste management, including feasibility for intergovernmental (Tribal, Federal, State, local) cooperative efforts. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.813 ALTERNATIVE OR INNOVATIVE TREATMENT TECHNOLOGY RESEARCH, DEMONSTRATION, TRAINING, AND HAZARDOUS SUBSTANCE RESEARCH GRANTS

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311(b)&(c), Public Law 95-510, 42 U.S.C 9660; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), Section 311(b)&(c), Public Law 99-499, 42 U.S.C 9660.

OBJECTIVES:

To support grants and cooperative agreements for (1) a program of research, evaluation, testing, development, and demonstration of alternative or innovative treatment technologies which may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment; (2) a technology transfer program including the development, collection, evaluation, coordination, and dissemination of information relating to the utilization of alternative or innovative treatment technologies for response actions; (3) a program of training and evaluation of training needs in the procedures for the handling and removal of hazardous substances for employees who handle hazardous substances and training in the management of facilities at which hazardous substances are located and in the evaluation of the hazards to human health presented by such facilities for State and local health and environmental agency personnel, and (4) a program of research with respect to the detection, assessment, and evaluation of the effects on and risks to human health of hazardous substances and detection of hazardous substances in the environment.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Grants and cooperative agreements are available to support recipients' eligible and allowable direct costs incurred under an approved work plan plus allowable indirect costs, in accordance with established EPA policies and regulations. Funds awarded under Section 311(b)(3) of CERCLA must be used for projects relating to innovative or alternative treatment technologies that may be utilized in response actions to achieve more permanent protection of human health and welfare and the environment. Types of discrete projects may include: land use controls research; health effects in construction workers; studies of above ground storage tank inspection practices; remediation technologies and strategies; and support for State forums to share information on research on hazardous substances waste remediation. Funding awarded for research under CERCLA 311(c) does not include research within the purview of EPA's Office of Research and Development. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States, territories, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, and individuals. In some instances, EPA will consider applications from profit makers, proposing projects with significant technical merit and relevance to EPA's Office of Solid Waste and Emergency Response. Nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State and local governments, U.S. territories and possessions, Indian Tribes, universities and colleges, hospitals, laboratories, industry, and other public and private institutions and individuals.

Credentials/Documentation:

EPA may request that applicants document their nonprofit status. The Agency may also request that applicants demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. EPA may ask applicants or principle investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Applicants considering submitting proposals are advised to discuss proposed projects with or submit pre-applications to staff in the appropriate EPA technical program offices. When making competitive awards, EPA will specify the nature of the pre-application assistance, if any, that will be available to applicants in the Requests for Initial Proposals or Requests for Applications. For information contacts, see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all applications for funding through <http://www.grants.gov>.

Award Procedure:

For non-competitive awards, EPA will conduct an administrative evaluation to determine the adequacy of the application in relation to grant regulations and a technical and program evaluation to determine the merit and relevance of the project. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

For non-competitive awards: Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable. For competitive awards: Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. EPA may incrementally fund grants and cooperative agreements under this program. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: EPA supports two types of projects under this Section:

1. Alternative or innovative treatment demonstration projects [311(b)(3)].

When making awards under Section 311(b)(3), "Alternative or innovative treatment technology research and demonstration program, Contracts and grants," the Administrator shall, to the maximum extent possible, enter into appropriate cost sharing arrangements. EPA may waive the 311(b)(3) cost sharing requirement in appropriate cases if a justification is provided and accepted.

This program has no statutory cost sharing formula, however, there are funding restrictions. For example, the Administrator shall not provide any Federal assistance for any part of a full-scale field demonstration project unless the applicant can demonstrate that it cannot obtain appropriate private financing on reasonable terms and conditions sufficient to carry out the demonstration project. The total Federal funds for any full-scale field demonstration project shall not exceed 50 percent of the total cost of such project estimated at the time of the award. Furthermore, the Administrator shall not expend more than \$10,000,000 for assistance under the program in any fiscal year and shall not expend more than \$3,000,000 for any single project.

2. Hazardous substance research [311(c)].

Assistance awarded under Section 311(c), "Hazardous substance research" has no cost sharing requirements or funding restrictions. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA generally funds grants and cooperative agreements in a lump sum on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. Incremental funding may be available. EPA generally limits project periods to 5 years. The Office of Congressional Liaison is notified of the award. They in turn notify the appropriate House and Senate members that the assistance agreement has been awarded. This notification period lasts 5 days. After the 5 Day Congressional notification period, the original award document will be sent to the recipient. A copy of the award document will be sent to the Project Officer and the Las Vegas Financial Management Center or the Regions Financial Management Office. Method of awarding/releasing assistance: lump sum.

Reports:

Reporting requirements are identified at 2 CFR 200 and 1500 as applicable. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Grantees are required to submit program reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements. Grantees are

required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Grantees are required to submit progress reports in accordance with Agency policy and the Monitoring and Reporting Program Performance requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Grantees are required to submit financial reports in accordance with Agency policy and the Financial Reporting and Financial Management Systems requirements stated in Federal Grant Regulations 2 CFR 200 and 1500. Grantees are required to perform performance monitoring in accordance with Agency policy and requirements stated in Federal Grant Regulations 2 CFR 200 and 1500.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-8145-0-1-304.

Obligations:

(Project Grants) FY 14 \$489,959; FY 15 est \$500,000; and FY 16 est \$500,000 - FY 14 \$489,959(actual); FY 15(est.)\$500,000.00; FY 16 (est.) \$500,000.00.

Range and Average of Financial Assistance:

For each fiscal year it is \$50,000 - \$1,000,000 Average \$500,000.

TAFS Codes:

68-8145.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The Association of State and Territorial Solid Waste Management Officials (ASTSWMO) conducted a CERCLA and Brownfield Research Center Subcommittee Symposium in June, 2014. Fiscal Year 2015: The final EPA Coal Combustion Residuals (CCR) Rule was published in the Federal Register on April 17, 2015. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Alternative or innovative treatment technology and hazardous substance research grants are subject to EPA's General Grant Regulations 2 CFR 200 and 1500 and FAR Part 31 for profit makers.

Regional or Local Office:

See Regional Agency Offices. EPA encourages potential applicants to communicate with the appropriate EPA Regional Office listed in Appendix IV of the Catalog, and the Headquarters program contacts listed below.

Headquarters Office:

Barbara McDonough, Contracts Management Branch, Resources Management Division, Office of Superfund Remediation & Technology Innovation, USEPA (5202-P), 1200 Pennsylvania Ave., N.W., Washington, District of Columbia 20460 Email: mcdonough.barbara@epa.gov Phone: (703) 603-9042.

Website Address:

<http://www.epa.gov/superfund/index.htm>

RELATED PROGRAMS:

66.808 Solid Waste Management Assistance Grants; 66.814 Brownfields

Training, Research, and Technical Assistance Grants and Cooperative Agreements ; 66.815 Brownfield Job Training Cooperative Agreements

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The Association of State and Territorial Solid Waste Management Officials (ASTSWMO) is planning a CERCLA and Brownfield Research Center Subcommittee Symposium to take place this June, 2014. Fiscal Year 2015: The Association of State and Territorial Solid Waste Management Officials (ASTSWMO) is planning its ASTSWMO Annual Meeting at the Bethesda Hyatt Hotel in Bethesda, MD, October 29-30, 2015. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Competitive applications and proposals will be selected in accordance with announced criteria. Non-competitive proposals are judged for (a) technical merit in terms of: (1) strengths and weaknesses of the project; (2) adequacy of overall project design; (3) competency of proposed staff; (4) suitability of applicant's available resources; (5) appropriateness of the proposed project period and budget; and (6) probability that the project will accomplish stated objectives; and, for (b) program interest in terms of: (1) the need for the proposed project; and (2) relationship to program objectives. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.814 BROWNFIELDS TRAINING, RESEARCH, AND TECHNICAL ASSISTANCE GRANTS AND COOPERATIVE AGREEMENTS

Brownfields 104(k)(6) Grants

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act, Section 101(39)&104(k)(6), 42 U.S.C 9604(k)(6).

OBJECTIVES:

CERCLA 104(k)(6) provides EPA with authority for a program of training, research, and technical assistance to individuals and organizations to facilitate the inventory of brownfields properties, assessments, cleanup of brownfields properties, community involvement, or site preparation. Brownfield sites are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Funding Priority - Fiscal Year 2014: Using a competitive grants process, EPA intends to select proposals and award cooperative agreements for training, research, and technical assistance related to brownfields. EPA also intends to incrementally fund projects with satisfactory project progress selected in previous 104(k)(6) training, research, and technical assistance competitions. The Agency gives preference to the ten statutory ranking criteria, as applicable, found at CERCLA 104(k)(5)(C) (see [180] CRITERIA FOR SELECTING PROPOSALS, below) when evaluating applications for research, training and technical assistance funding. In addition to the statutory criteria, EPA also evaluates applicants based on their ability to manage grants and other policy-based factors intended to promote effective stewardship of federal funds. By statute, 25% of the funding for CERCLA 104(k) must be used for characterization, assessment, and remediation of brownfields sites contaminated by petroleum or petroleum products. No more than 15% of the funding appropriated for CERCLA 104(k) grants may be used to fund training, research, and technical assistance grants authorized by CERCLA 104(k)(6). EPA expects to solicit, select and award cooperative agreements for other Research, Training and Technical Assistance (k6) grants. EPA will first determine specific brownfields project topics and include those project topics in the solicitation. Brownfields project topics are anticipated to be: technical assistance to environmental workforce development and job training (EWDJT) grantees; technical assistance on the integration of environmental justice and equitable development for brownfields-impacted communities; research on the benefits of brownfields redevelopment; and technical assistance on brownfields financing and economic development strategies to brownfields-impacted communities. EPA expects to award approximately four cooperative agreements, with funding per cooperative agreement totalling up to \$1M, to be funded incrementally over a five-year

period. The total funding anticipated for this grant opportunity is approximately \$4 million. EPA expects to solicit proposals for the Brownfields Area-Wide Planning (BF AWP) Program in FY14, but recipient selection and cooperative agreement awards to be made in FY 15. Under this funding opportunity, EPA anticipates awarding approximately 20 cooperative agreements to facilitate community involvement and conduct research, training and technical assistance necessary to develop area-wide plans and implementation strategies which will help facilitate brownfields assessment, cleanup and subsequent reuse. The total funding amount for the BF AWP program is anticipated to be approximately \$4 million, or up to \$200,000 per grant award.

Based on their satisfactory progress, EPA intends to incrementally fund cooperative agreements that the Agency had awarded in previous years. In FY14, the total incremental funding to cooperative agreements awarded in previous years under CFDA 66.814 is expected to be over \$3 million. For certain competitive funding opportunities, the Agency may limit eligibility to a particular subset of eligible applicants. The amount of financial assistance will vary.

Funding Priority - Fiscal Year 2014: Using a competitive grants process, EPA intends to select proposals and award cooperative agreements for training, research, and technical assistance related to brownfields. EPA also intends to incrementally fund projects with satisfactory project progress selected in previous 104(k)(6) training, research, and technical assistance competitions. The Agency gives preference to the ten statutory ranking criteria, as applicable, found at CERCLA 104(k)(5)(C) (see [180] CRITERIA FOR SELECTING PROPOSALS, below) when evaluating applications for research, training and technical assistance funding. In addition to the statutory criteria, EPA also evaluates applicants based on their ability to manage grants and other policy-based factors intended to promote effective stewardship of federal funds. By statute, 25% of the funding for CERCLA 104(k) must be used for characterization, assessment, and remediation of brownfields sites contaminated by petroleum or petroleum products. No more than 15% of the funding appropriated for CERCLA 104(k) grants may be used to fund training, research, and technical assistance grants authorized by CERCLA 104(k)(6). EPA expects to select and award cooperative agreement awards for the Brownfields Area-Wide Planning (BF AWP) program. Under this funding opportunity, EPA anticipates awarding approximately 20 cooperative agreements to facilitate community involvement and conduct research, training and technical assistance necessary to develop area-wide plans and implementation strategies which will help facilitate brownfields assessment, cleanup and subsequent reuse. The total funding amount for the BF AWP program is anticipated to be approximately \$4 million, or up to \$200,000 per grant award. EPA expected to solicit, select and award cooperative agreement(s) the State Support Grant program. Total funding for this program is anticipated to be approximately \$1 million, or approximately \$200,000 per year for five years. Based on their satisfactory progress, EPA intends to incrementally fund cooperative agreements that the Agency had awarded in previous years under CFDA 66.814. For certain competitive funding opportunities, the Agency may limit eligibility to a particular subset of eligible applicants. The amount of financial assistance will vary.

Funding Priority - Fiscal Year 2015: Using a competitive grants process, EPA intends to select proposals and award cooperative agreements for training, research, and technical assistance related to brownfields. EPA also intends to incrementally fund projects with satisfactory project progress selected in previous 104(k)(6) training, research, and technical assistance competitions.

The Agency gives preference to the ten statutory ranking criteria, as applicable, found at CERCLA 104(k)(5)(C) (see [180] CRITERIA FOR SELECTING PROPOSALS, below) when evaluating applications for research, training and technical assistance funding. In addition to the statutory criteria, EPA also evaluates applicants based on their ability to manage grants and other policy-based factors intended to promote effective stewardship of federal funds. Up to 25% of the funding for CERCLA 104(k) may be used for characterization, assessment, and remediation of brownfields sites contaminated by petroleum or petroleum products. No more than 15% of the funding appropriated for CERCLA 104(k) grants may be used to fund training, research, and technical assistance grants authorized by CERCLA 104(k)(6). For certain competitive funding opportunities, the Agency may limit eligibility to a

particular subset of eligible applicants. The amount of financial assistance will vary.

EPA expects to select and award cooperative agreement awards for the Brownfields Area-Wide Planning (BF AWP) program. Under this funding opportunity, EPA anticipates awarding approximately 20 cooperative agreements to facilitate community involvement and conduct the necessary research, training and technical assistance activities that will help the cooperative agreement recipients develop area-wide plans and implementation strategies to facilitate brownfields assessment, cleanup and subsequent reuse. The total funding amount for the BF AWP program is anticipated to be approximately \$4 million, or up to \$200,000 per grant award.

Funding Priority - Fiscal Year 2016: Using a competitive grants process, EPA intends to select proposals and award cooperative agreements for training, research, and technical assistance related to brownfields. EPA also intends to incrementally fund projects with satisfactory project progress selected in previous 104(k)(6) training, research, and technical assistance competitions.

The Agency gives preference to the ten statutory ranking criteria, as applicable, found at CERCLA 104(k)(5)(C) (see [180] CRITERIA FOR SELECTING PROPOSALS, below) when evaluating applications for research, training and technical assistance funding. In addition to the statutory criteria, EPA also evaluates applicants based on their ability to manage grants and other policy-based factors intended to promote effective stewardship of federal funds. By statute, 25% of the funding for CERCLA 104(k) must be used for characterization, assessment, and remediation of brownfields sites contaminated by petroleum or petroleum products. No more than 15% of the funding appropriated for CERCLA 104(k) grants may be used to fund training, research, and technical assistance grants authorized by CERCLA 104(k)(6).

For certain competitive funding opportunities, the Agency may limit eligibility to a particular subset of eligible applicants. The amount of financial assistance will vary.

EPA anticipates soliciting proposals and selecting cooperative agreement recipients for the Technical Assistance to Brownfields Communities (TAB) Program in FY16. Under this funding opportunity, cooperative agreement recipients provide technical assistance related to a variety of brownfields issues to communities within their regional service area. Total funding for this program is estimated to be approximately \$11 million. Each grant award will be incrementally funded over a project period up to five years.

EPA anticipates soliciting proposals and selecting recipients for the Brownfields Area-Wide Planning (BF AWP) Program in FY16. The funds will help each grant recipient conduct community involvement and other research, training and technical assistance activities needed to develop area-wide plans and implementation strategies, which are used to facilitate brownfields assessment, cleanup and subsequent reuse. The total funding amount for a FY16 BF AWP program is anticipated to be approximately \$5 million.

EPA anticipates soliciting proposals and selecting recipients for a State Technical Assistance and Resource Team (START) cooperative agreement. This funding will help states create a team that provides technical assistance to small, rural and distressed communities address local brownfields issues. The total funding amount for a FY16 START grant program is anticipated to be approximately \$2 million.

EPA anticipates soliciting proposals and selecting one or more recipient(s) for a FY16 tribal-focused technical assistance cooperative agreement. Under this funding opportunity, the recipient(s) will provide direct technical assistance to tribes to help them address local brownfield issues. Total funding is estimated to be up to \$1.5 million, funded incrementally over a project period up to five years.

EPA anticipates soliciting proposals and selecting one or more recipient(s) for a FY16 State Support Grant program. Total funding for this program is anticipated to be approximately \$1 million, incrementally funded over a project period up to five years.

Based on their satisfactory progress, EPA intends to incrementally fund cooperative agreements that the Agency had awarded in previous years.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds awarded under Section 104(k)(6) of CERCLA must be used for training, research, and technical assistance to individuals and organizations, to facilitate the inventory of brownfields properties, site assessments, cleanup of brownfields properties, community involvement, or site preparation. Grants and cooperative agreements are available to support recipients' eligible and allowable direct costs incurred under an approved work plan plus allowable programmatic costs, in accordance with established EPA policies and regulations. Costs incurred under CERCLA 104(k)(6) grants or cooperative agreements may not be used for an administrative cost, penalty or fine, a Federal cost-share requirement, a response cost for which the recipient of the grant or cooperative agreement is potentially liable under CERCLA 107, or the cost of complying with a Federal law, with the exception of the costs of laws applicable to cleanup of Brownfields sites. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

CERCLA 104(k)(6) cites eligible entities as: a general purpose unit of local government; a land clearance authority or other quasi-governmental entity that operates under the supervision and control of, or as an agent of, a general purpose unit of local government; a government entity created by a State legislature; a regional council or group of general purpose units of local government; a redevelopment agency that is chartered or otherwise sanctioned by a State; a State (note CERCLA 107(27) defines term "State" to include territories or possessions over which the United States has jurisdiction); an Indian Tribe other than in Alaska; an Alaska Native Regional Corporation, Alaska Native Village Corporation and the Metlakatla Indian Community. Nonprofit organizations are also eligible for training, research, and technical assistance grants. Nonprofit organizations must meet the definition of that term in Section 4(6) of the Federal Financial Assistance Management Improvement Act of 1999, Public Law 96-107, 31 U.S.C. 6101 Note: Under this definition, colleges, universities, and community colleges are eligible to apply. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For profit organizations are not eligible to apply. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

State, Tribal (an Indian Tribe other than in Alaska; an Alaska Native Regional Corporation, Alaska Native Village Corporation and the Metlakatla Indian Community), and local governments, communities with Brownfields sites and their residents, community groups, universities and colleges, industry, and other public and private institutions and individuals.

Credentials/Documentation:

EPA may request that applicants document their non-profit status. The Agency may also request that applicants demonstrate they have appropriate background, academic training, and experience in the field to carry out projects. EPA may ask applicants for research projects to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional

information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. See Appendix 1 for additional information regarding SPOC's. If there is no single point of contact for the state, or the state has not selected this program for review, applicants must contact directly affected state area-wide regional and local entities prior to award. (See 40 CFR 29.7(b)). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR 200 and 1500 must be used for this program. EPA requires final applications to be made on Standard Form 424. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Appendix IV of the Catalog. This is a competitive grant program. Requests for Initial Proposals or Requests for Applications will specify application procedures. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

EPA is required by statute to conduct this assistance program competitively. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

EPA may incrementally fund grants and cooperative agreements under this program. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds. Incremental funding is subject to review and approval by the Office of Brownfields and Land Revitalization, Office of Solid Waste and Emergency Response. The funded grants and cooperative agreements are not eligible for renewal.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: For training, research and technical assistance grants, EPA will not require that applicants include a match or cost share unless required by the terms of a competitive announcement. Even if EPA decides not to require matching funds, a statutory factor in ranking applications under Section 104(k)(6) is the extent to which EPA financial assistance will stimulate the availability of other funds for environmental assessment or remediation, and

subsequent reuse of Brownfields sites. Applicants may be encouraged to provide information regarding resources (cash/in-kind services) that they, or a project partner, would commit to efforts receiving EPA financial assistance. This program has no statutory formula. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA generally funds grants and cooperative agreements incrementally on a 12 month basis. However, EPA may fully fund any cooperative agreement at the time of award. EPA will negotiate the project period with each applicant based on project requirements. The project period can range anywhere from two to five years. The anticipated period of performance for the TAB cooperative agreements is five years. The anticipated period of performance for the BF AWP cooperative agreements is two years. The anticipated period of performance for other technical assistance, research or training grants is usually up to five years. See the following for information on how assistance is awarded/released: EPA generally funds the research, training, and technical assistance grants and cooperative agreements incrementally on a 12-month basis. However, EPA can negotiate the assistance award with each applicant based on project requirements (for example, usually EPA fully funds the two-year Brownfields Area-Wide Planning grants at initial award).

Reports:

No program reports are required. No cash reports are required. Reporting requirements are identified at 2 CFR 200 and 1500. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Quarterly progress reports are generally required as part of the terms and conditions of the grants and cooperative agreements. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$3,663,087; FY 15 est \$5,000,000; and FY 16 est \$10,600,000 - For FY 2014 the program obligated \$3,663,087 in new and incremental funding to cooperative agreements awarded under this CFDA.

For FY2015, EPA expects to award approximately \$5 million in new and incremental funding for cooperative agreements awarded under this CFDA. This includes approximately \$4 million for new awards made under the the FY 2015 Brownfields Area-wide Planning Program and approximately \$1 million in incremental funding for other Research, Training and Technical Assistance (k6) grants awarded in previous years.

At this time the total funding estimated for FY 2016 is approximately \$10.6 million. This amount is based on the following anticipated funding opportunities:

-Based on their satisfactory progress, EPA intends to incrementally fund

cooperative agreements that the Agency had awarded in previous years under CFDA 66.814 with approximately \$1 million of those funds.

-Up to \$5 million is anticipated for a FY16 Brownfields Area-Wide Planning grant program.

-Up to \$2.2 million is anticipated for a FY16 Technical Assistance to Brownfields (TAB) Communities Program.

-Approximately \$2 million is anticipated for a FY16 State Technical Assistance and Resource Team (START) Program.

-EPA expects the remaining funds to support initial funding of new state support grant recipient(s) and new tribal technical assistance recipient(s).

Range and Average of Financial Assistance:

Historically, the Brownfields Training, Research, and Technical Assistance cooperative agreements have ranged anywhere from \$115,000 to \$2,000,000 over the entire cooperative agreement, depending on the specific focus area of solicitation and the project period of the award (typically 2-5 years)

New awards made under the Brownfields Area-Wide Planning grant are up to \$200,000. New awards made to the TAB recipients are up to \$1 million, funded incrementally at approximately \$200,000 per year. New awards made for other research, training and technical assistance grants range between \$200,000 and \$1 million and usually incrementally funded over the project period if the award is above \$200,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, EPA selected four entities to receive cooperative agreements for other Research, Training and Technical Assistance (k6) grants. Funding per cooperative agreement totals up to \$1 million, funded incrementally over a five-year period. The total funding for this grant opportunity is approximately \$4 million.

EPA incrementally funded cooperative agreements that the Agency had awarded in previous years, including incremental funding to TAB and other training/technical assistance recipients. In FY 2014, the total incremental funding to cooperative agreements awarded in previous years was over \$3.6 million. Fiscal Year 2015: EPA expects to award approximately 20 Brownfields Area-Wide Planning (BF AWP) program cooperative agreements. Recipients will use the grant funding to facilitate community involvement and conduct the necessary research, training and technical assistance activities that will help them develop area-wide plans and implementation strategies to facilitate brownfields assessment, cleanup and subsequent reuse. The total funding amount for the BF AWP program is anticipated to be approximately \$4 million, or up to \$200,000 per grant award.

EPA intends to incrementally fund cooperative agreements approximately six cooperative agreements that the Agency had awarded in previous years. The total FY 2015 incremental funding to cooperative agreements awarded in previous years is expected to be approximately \$1 million. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Brownfields training, research, and technical assistance grants are subject to EPA's General Grant Regulations 2CFR 200 and 1500.

Costs will be determined in accordance with 2 CFR 200 Subpart E.

EPA will provide applicants with guidance on statutory prohibitions on the use of grant and cooperative agreement funds in Requests for Proposals, Requests for Applications, or by other means. EPA will provide assistance regarding clarification of the grant proposal guidelines. Potential applicants may submit

written requests to OBLR for clarification. Significant clarifications to the guidelines will be posted on the brownfields website <http://www.epa.gov/brownfields>. This is the only form of pre-application assistance available. EPA will not meet with applicants to discuss draft proposals or provide informal comments on proposals.

Regional or Local Office:

See Regional Agency Offices.

Headquarters Office:

David Lloyd, Office of Brownfields and Land Revitalization, OSWER, EPA, 1200 Pennsylvania Ave, NW, Washington, District of Columbia 20460 Email: lloyd.davidr@epa.gov Phone: (202) 566-2777.

Website Address:

<http://www.epa.gov/brownfields>

RELATED PROGRAMS:

66.815 Brownfield Job Training Cooperative Agreements; 66.817 State and Tribal Response Program Grants; 66.818 Brownfields Assessment and Cleanup Cooperative Agreements

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In FY 2014, EPA awarded four cooperative agreements for other Research, Training and Technical Assistance (k6) grants. One grant was made for each of the following four topic areas: technical assistance to environmental workforce development and job training (EWDJT) grantees; technical assistance on the integration of environmental justice and equitable development for brownfields-impacted communities; research on the benefits of brownfields redevelopment; and technical assistance on brownfields financing and economic development strategies to brownfields-impacted communities.

EPA also provided incremental funding for research, training and technical assistance pertaining to Technical Assistance to Brownfields Communities (TAB) and incremental funding of existing cooperative agreements funded in previous years. EPA provided incremental funding to three entities who received TAB cooperative agreements and who are assisting communities in each EPA region that are dealing with local brownfield issues.

EPA also provided incremental funds for projects that provide brownfields training, education and technical assistance to support brownfields assessment and cleanup efforts by state, local and tribal governments. Fiscal Year 2015: In FY2015, EPA expects to award cooperative agreements for brownfields area-wide planning funds to twenty communities (including local government, non-profit organizations, and a regional planning commission) to involve the community in developing area-wide plans and implementation strategies to help address local brownfield sites.

Incrementally funding to previously awarded cooperative agreements will be provided if the recipient is making satisfactory progress. These EPA funds will be used for research, training and technical assistance projects related to technical assistance to environmental workforce development and job training (EWDJT) grantees; technical assistance on the integration of environmental justice and equitable development for brownfields-impacted communities; research on the benefits of brownfields redevelopment; technical assistance on brownfields financing and economic development strategies to brownfields-impacted communities; grant funds for a national brownfields conference in 2015; and tribal support on brownfields issues. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

This is a competitive grant program. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.815 ENVIRONMENTAL WORKFORCE DEVELOPMENT AND JOB TRAINING COOPERATIVE AGREEMENTS

Environmental Workforce Development and Job Training Program

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

The Comprehensive Environmental Response, Compensation, and Liability Act, Section 311(b)(3)(9); The Comprehensive Environmental Response, Compensation, and Liability Act, Section 104k(6); Solid Waste Disposal Act, Section 8001; Clean Water Act, Section 104; Toxic Substances Control Act, Section 10.

OBJECTIVES:

The objective of the Environmental Workforce Development and Job Training Program is to recruit, train, and place unemployed and under-employed, including low-income, residents of solid and hazardous waste-impacted communities with the skills needed to obtain full-time, sustainable employment in solid and hazardous waste cleanup, wastewater treatment, chemical safety, and the environmental field at large. Furthermore, this program promotes the facilitation of activities related to assessment, cleanup, or preparation of contaminated sites, including brownfields and Superfund sites, for reuse, while simultaneously building a local workforce with the skills needed to perform remediation work that are supportive of environmental protection and environmental health and safety. Funding Priority -

Fiscal Year 2014: In FY14, under the Environmental Workforce Development and Job Training Grant Application Guidelines, applicants were provided the opportunity to deliver training outside the traditional scope of brownfields hazardous waste training. As a result of this, applicants were now provided the opportunity to deliver additional training in areas such as: solid waste management and recycling; emergency management and oil spill cleanup; Superfund cleanup related training, including innovative and alternative treatment technologies; wastewater treatment and stormwater management; and, chemical safety and enhanced environmental health and safety training. Training in leaking underground storage tanks prevention and cleanup, affiliated with LUST Trust funds, were not eligible uses of grant funds in FY14 as this statutory authority was not used in the FY14 competition. Other types of supplemental environmental training are also eligible as this list is not exhaustive. Under the FY14 competition, energy auditing, solar installation, and weatherization were eligible. Applicants in FY14 were also evaluated heavily on the extent to which they had partnered with employers willing to hire graduates and the extent to which they had conducted labor market assessments that linked proposed training with these employers' forecasted hiring needs.

Funding Priority - Fiscal Year 2015: In FY15, under the Environmental Workforce Development and Job Training Grant Application Guidelines, applicants were provided the opportunity to deliver training outside the traditional scope of brownfields hazardous waste training. As a result of this, applicants were now provided the opportunity to deliver additional training in areas such as: solid waste management and recycling; emergency management and oil spill cleanup; Superfund cleanup related training, including innovative and alternative treatment technologies; integrated pest management; wastewater treatment and storm-water management; and, chemical safety and enhanced environmental health and safety training. Other types of supplemental environmental training were also eligible as this list is not exhaustive. Under the FY15 competition, energy auditing, solar installation, and weatherization were eligible. Applicants in FY15 were also evaluated heavily on the extent to which they had partnered with employers willing to hire graduates and the extent to which they had conducted labor market assessments that linked proposed training with these employers' forecasted hiring needs.

Funding Priority - Fiscal Year 2016: In FY16, under the Environmental Workforce Development and Job Training Grant Application Guidelines, applicants are anticipated to be provided the opportunity to deliver training outside the traditional scope of brownfields hazardous waste training. As a result of this, applicants are anticipated to be provided the opportunity to deliver additional training in areas such as: solid waste management and recycling; emergency management and oil spill cleanup; Superfund cleanup related training, including innovative and alternative treatment technologies; wastewater treatment and stormwater management; integrated pest

management; and, chemical safety and enhanced environmental health and safety training. Other types of supplemental environmental training are also eligible as this list is not exhaustive. Under the FY16 competition, energy auditing, solar installation, and weatherization training are anticipated to be eligible uses of grant funds. Applicants in FY16 will also be evaluated heavily on the extent to which they have partnered with employers willing to hire graduates and the extent to which they have conducted labor market assessments that link proposed training with employers' forecasted hiring needs.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds awarded under Section 104(k)(6) of CERCLA must be used for training, research, and technical assistance to individuals and organizations, to facilitate the inventory of brownfields properties, site assessments, cleanup of brownfields properties, community involvement, or site preparation. Funds under Section 311(b)(3)(9) of CERCLA must be used for training in innovative and alternative treatment technologies. For Environmental Workforce Development and Job Training grants however, individuals are not eligible to apply. (See eligibility requirements in Section 080) Grants and cooperative agreements are available to eligible entities throughout the United States. Eligible applicants are allowed to design their own curricula. In FY14, applicants were provided flexibility to include the following types of training in their curriculum: solid waste management or cleanup (i.e. recycling center operator training, landfill remediation and capping, demolition and debris collection and recycling, etc.); wastewater and stormwater related training; chemical safety or enhanced environmental health and safety training; and, innovative and alternative treatment technologies related training (i.e. preparation of contaminated sites for solar installation, green remediation techniques, phytoremediation, soil amendments, advanced sampling instrument operator training, or bioswale system site preparation, etc.) Note: this list is not exhaustive and other types of eligible training may be offered consistent with the statutory authorities. All applicants were required to include OSHA 29 CFR 1910.120 40-hour Hazardous Waste Operations and Emergency Response (HAZWOPER) in their curricula. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grants and cooperative agreements are available to support recipients' eligible and allowable direct costs incurred under an approved work plan plus allowable programmatic costs, in accordance with established EPA policies and regulations. Costs incurred under CERCLA 104(k)(6) grant or cooperative agreements may not be used for an administrative cost, penalty or fine, a Federal cost-share requirement, a response cost for which the recipient of the grant or cooperative agreement is potentially liable under CERCLA 107, or the cost of complying with a Federal law, with the exception of the costs of laws applicable to cleanup of sites. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Proposals will be accepted from either eligible governmental entities as defined in CERCLA Section 104(k)(1) or eligible nonprofit organizations as defined in Public Law 106-107, the Federal Financial Assistance Management Improvement Act. Eligible governmental entities include a general purpose local unit of government; a land clearance authority or other quasi-governmental entity that operates under the supervision and control of, or as an agent of, a general purpose unit of government; a governmental entity created by a state legislature; a regional council or group of general purpose units of local government; a redevelopment agency that is chartered or otherwise sanctioned by a state; a state; an Indian Tribe (other than in Alaska), or an Alaskan Native Regional Corporation and an Alaska Native Village Corporation as those terms are defined in the Alaska Native Claims Settlement Act (43 U.S.C. 1601 and following); and the Metlakatla Indian Community.

Intertribal consortia, except consortia comprised of ineligible Alaskan tribes, are eligible to apply as well. Eligible nonprofit organizations include any corporation, trust, association, cooperative, or other organization that is operated mainly for scientific, educational, service, charitable, or similar purpose in the public interest; is not organized primarily for profit; and uses net proceeds to maintain, improve, or expand the operation of the organization. Workforce Investment Boards that meet these criteria may be eligible nonprofit organizations. Public and nonprofit private educational institutions are eligible to apply. However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. For-profit or proprietary training organizations or trade schools are not eligible to apply. Evidence of nonprofit status under Federal, state or tribal law must be provided at the time the proposal is submitted. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Applicants that received an Environmental Workforce Development and Job Training grant from EPA in Fiscal Year 2014 were not eligible to apply in FY15 for regular appropriation funds - unless proposing to serve a different city. A list of environmental workforce development and job training grants awarded in Fiscal Year 2014 and 2015 can be found on the Brownfields Website, <http://www.epa.gov/brownfields/pilot.htm#previous>. Applicants were also required to demonstrate that proposed environmental job training projects do not duplicate other federally funded environmental job training projects in the target community.

Beneficiary Eligibility:

Environmental Workforce Development and Job Training grants will provide environmental job training and help individuals of solid and hazardous waste-impacted neighborhoods take advantage of job opportunities created as a result of the management, assessment and cleanup of contaminated properties, as well as employment in wastewater and chemical safety related positions.

Credentials/Documentation:

EPA requires that applicants document their nonprofit status at the time of application. The Agency may also request that applicants demonstrate that they have appropriate background, academic training, experience in fields, and necessary equipment to carry out training projects. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

This is a competitive grant program. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is excluded from coverage under E.O. 12372. (See EPA's Federal Register Notice from November 26, 1986, to exempt hazardous waste training programs from intergovernmental review.). Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. By statute, EPA must award Environmental Workforce Development and Job Training grants competitively. EPA will specify application procedures in Requests for Initial Proposals or Request for Applications. As stipulated in the Requests for Applications, successful grant applicants must provide, in addition to the SF 424, a Dun and Bradstreet Data Universal Numbering System (DUNS) number, which is now required when applying for federal grants or cooperative agreements on or after October 1, 2003. For more information go to: <http://www.grants.gov>. Requests for application kits must be submitted to the Environmental Protection Agency, Grants and Interagency Agreements Management Division, 3903R, Washington, DC 20460 or through the appropriate EPA Regional Office listed in Section 7 of the application guidelines. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. Final approval of applications for job training grants and supporting documentation is made by EPA. Award of grant funds are made by EPA Regional Award Officials.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For job training grants, the range of approval/disapproval time will be approximately 90 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

EPA may incrementally fund grants and cooperative agreements under this program. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities and availability of funds. Renewals and extensions of funding are not available.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: For Environmental Workforce Development and Job Training Grants, EPA does not require that applicants include a match or cost share. However, evidence of leveraged funds is encouraged. Furthermore, a statutory factor in ranking applications under Section 104(k)(6) is the extent to which EPA financial assistance will stimulate the availability of other funds for environmental assessment or remediation, and subsequent reuse of Brownfields sites. Applicants may be encouraged to provide information regarding resources (cash/in-kind services) that they, or a project partner, would commit to efforts receiving EPA financial assistance. EPA may take these commitments into account in ranking proposals. This program has no statutory formula. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The performance period for environmental workforce development and job training grant funds is generally three years. Grant cooperative agreements may be amended to provide additional funding and additional time for grant recipients demonstrating significant success in training efforts depending upon the availability of funding. Proposal funding is not guaranteed at any stage of the proposal process until the Cooperative Agreement, including workplan, is completed and the final award is made. All awards are made in a lump sum. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. Reporting requirements are identified under 2 CFR 200 and 1500. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Quarterly progress and final technical reports are required as part of the terms and conditions of the cooperative agreements. No expenditure reports are required. Performance monitoring is in accordance with the terms and conditions of the cooperative agreement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are

subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$3,600,000; FY 15 est \$3,600,000; and FY 16 Estimate Not Available - In FY14, approximately \$3.6 million was awarded under the environmental workforce development and job training grant program. In FY 2015, approximately \$3.6 million was awarded and the estimated funding available in FY16 is approximately \$3.0 million.

Range and Average of Financial Assistance:

Average: \$200,000. For environmental workforce development and job training grants awarded in FY13 and FY14, grant awards were made at approximately \$200,000 each. In FY15, grant awards were made at approximately \$192,300 each. The performance period for grants in FY15 is 3 years.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY14, 57 proposals were received and 18 were funded. Grant awards were made at approximately \$200,000 each. Fiscal Year 2015: In FY15, 50 proposals were received and 19 were funded. Grant awards were made at approximately \$192,300 each. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For environmental workforce development and job training grants, costs must be in accordance with 2 CFR 200 and 1500

In addition, recipients must comply with applicable provisions of EPA training grant regulations at 40 CFR Part 45. EPA will also provide applicants with guidance on statutory prohibitions on the use of grant and cooperative agreement funds in Requests for Initial Proposals, Requests for Applications, or by other means.

Regional or Local Office:

See Regional Agency Offices. EPA Regional Offices are listed in Section 7 in the Application Guidelines for Brownfields Job Training Grants.

Headquarters Office:

Joseph Bruss, Office of Brownfields and Land Revitalization, OSWER, EPA, Washington, District of Columbia 20460 Email: bruss.joseph@epa.gov Phone: (202) 566-2772.

Website Address:

<http://www.epa.gov/brownfields>.

RELATED PROGRAMS:

66.808 Solid Waste Management Assistance Grants; 66.813 Alternative or Innovative Treatment Technology Research, Demonstration, Training, and Hazardous Substance Research Grants; 66.814 Brownfields Training, Research, and Technical Assistance Grants and Cooperative Agreements ; 66.817 State and Tribal Response Program Grants; 66.818 Brownfields Assessment and Cleanup Cooperative Agreements

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: In Fiscal Year 2014 the EPA awarded cooperative agreements to a variety of eligible entities and nonprofit organizations to provide local residents with the skills needed to gain employment in careers related to the assessment and cleanup of hazardous and solid waste sites,

wastewater and stormwater management, Superfund site cleanup, emergency response, and chemical safety. These cooperative agreements included training and instruction in a variety of subjects, including: OSHA health and safety training, HAZWOPER and HAZMAT certification, lead and asbestos abatement, forklift operations, phytoremediation, mold remediation, site assessment, sampling, wastewater management, chemical safety, leaking underground storage tank removal, field investigation, instrumentation, and treatment technologies. Furthermore, these cooperative agreements provided job training programs the funds needed to perform recruitment and community outreach to unemployed residents impacted by contaminated sites. Fiscal Year 2015: In Fiscal Year 2015, the EPA awarded cooperative agreements to a variety of eligible entities and nonprofit organizations to provide local residents with the skills needed to gain employment in careers related to the assessment and cleanup of hazardous and solid waste sites, wastewater and stormwater management, Superfund site cleanup, emergency response, integrated pest management, and chemical safety. These cooperative agreements included training and instruction in a variety of subjects, including: OSHA health and safety training, HAZWOPER and HAZMAT certification, lead and asbestos abatement, forklift operations, phytoremediation, mold remediation, site assessment, sampling, wastewater management, chemical safety, leaking underground storage tank removal, field investigation, instrumentation, and treatment technologies. Furthermore, these cooperative agreements provided job training programs the funds needed to perform recruitment and community outreach to unemployed residents impacted by contaminated sites. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.816 HEADQUARTERS AND REGIONAL UNDERGROUND STORAGE TANKS PROGRAM

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Solid Waste Disposal Act of 1976, Section 8001(a)&(b), Public Law 98-616; Resource Conservation and Recovery Act of 1976; Superfund Amendments and Reauthorization Act of 1986 , Public Law 99-499, 42 U.S.C 6991; EPA's Annual Appropriations Act.

OBJECTIVES:

To support activities that promote the prevention, compliance, and identification of underground storage tanks, and to support activities that promote corrective action, enforcement and management of releases from underground storage tank systems. Funding Priority -

Fiscal Year 2014: High priority tasks include: (1) Training Support: Provide State and tribal underground storage tanks (UST) and leaking underground storage tanks (LUST) programs and the regulated community mechanisms by which state and federal "co-regulator" communication, assistance (which may include research and studies) and training on UST/LUST program implementation can occur on both a regional and national scale; (2) Electronic Newsletter: Provide state and tribal regulators, the general public and the regulated community with technical information on underground storage tank (UST) systems; and (3) State/Federal Partnerships: Provide technical assistance and forums for information exchange to assist States in developing their program capabilities to manage their UST/LUST programs in the most efficient and effective manner possible.

Funding Priority - Fiscal Year 2015: High priority tasks include: (1) Training Support: Provide State and tribal underground storage tanks (UST) and leaking underground storage tanks (LUST) programs and the regulated community mechanisms by which state and federal "co-regulator" communication, assistance (which may include research and studies) and training on UST/LUST program implementation can occur on both a regional and national scale; (2) Electronic Newsletter: Provide state and tribal regulators, the general public and the regulated community with technical information on underground storage tank (UST) systems; and (3) State/Federal Partnerships: Provide technical

assistance and forums for information exchange to assist States in developing their program capabilities to manage their UST/LUST programs in the most efficient and effective manner possible.

Funding Priority - Fiscal Year 2016: High priority tasks include: (1) Training Support: Provide State and tribal underground storage tanks (UST) and leaking underground storage tanks (LUST) programs and the regulated community mechanisms by which state and federal "co-regulator" communication, assistance (which may include research and studies) and training on UST/LUST program implementation can occur on both a regional and national scale; (2) Electronic Newsletter: Provide state and tribal regulators, the general public and the regulated community with technical information on underground storage tank (UST) systems; and (3) State/Federal Partnerships: Provide technical assistance and forums for information exchange to assist States in developing their program capabilities to manage their UST/LUST programs in the most efficient and effective manner possible.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009. Grants and cooperative agreements are available to support recipients' eligible and allowable direct costs incurred under an approved work plan plus allowable indirect costs, in accordance with established EPA policies and regulations. Use Restrictions are that funds awarded under Section 8001(a) and (b) of RCRA must be used for projects that may include the following types of activities: research presentations, educational materials, surveys, training, studies, demonstrations, investigations, special projects and the development or use of methods to improve UST systems management and performance to reduce the actual and potential risks to human health and the environment.

Applicant Eligibility:

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

These assistance agreements are only available to public authorities (State, interstate, intrastate, agencies designated by States or Territorial Governors to receive UST notifications, federally-recognized Tribes and Intertribal Consortia, and local), public agencies and institutions; private non-profit organizations and agencies that meet the requirements of Section 8001(a) and (b) of the Solid Waste Disposal Act. Profit-making organizations and the general public are not eligible.

Beneficiary Eligibility:

State and local governments, territories and possessions, interstate agencies, Tribes, Intertribal Consortia, members of the regulated community and residents in areas impacted by federally regulated underground storage tanks.

Credentials/Documentation:

EPA may request that applicants document their nonprofit status. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O.

12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>

Additionally, 2 CFR 1500 applies.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. EPA may incrementally fund grants and cooperative agreements under this program. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to EPA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Cost sharing is not required, unless noted in request for applications or initial proposals.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The length and time phasing of the assistance agreement shall be determined prior to the award. Assistance agreements are awarded either as non-competitive or competitive, subject to EPA Order 5700.5A1. The length of the assistance agreements may be from one year to seven years. See the following for information on how assistance is awarded/released: The funding is released to the recipient according to the recipient's accounting requests, e.g., quarterly, monthly, etc.

Reports:

Reporting requirements are identified at 2 CFR 200.327. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. No cash reports are required. The recipients submit quarterly reports that describe the progress and financial expenditures to date. No expenditure reports are required. EPA conducts baseline and advanced post-award monitoring of the recipient's performance.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit

Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR 1500.6 are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-8153-0-7-304 - LUST; 68-0108-0-1-304 - EPM.

Obligations:

(Project Grants) FY 14 \$883,877; FY 15 est \$1,109,489; and FY 16 Estimate Not Available - EPM: FY 2014 actual: \$449,362; FY 2015 actual: \$539,827

LUST: FY 2014 actual: \$434,515; FY 2015 actual: \$569,662

For both appropriations, the FY 2016 amounts are unknown at this time.

Range and Average of Financial Assistance:

FY 2014 Range: \$168,000 - \$281,000; Average: \$221,000.

FY 2015 Range: \$199,800- \$370,000; Average: \$277,000.

Assistance agreements are awarded on a multiple year basis, with incremental funding.

TAFS Codes:

68-8153; 68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Four applications were received and will be awarded as incremental funding on existing assistance agreements. Recipients provide states and/or tribal staff with opportunities for training and dissemination of information to help with meeting the program's UST and LUST performance measures, as identified in the FY 2014 National Program Guidance. Fiscal Year 2015: Four applications were received and will be awarded as incremental funding on existing assistance agreements. Recipients provide states and/or tribal staff with opportunities for training and dissemination of information to help with meeting the program's UST and LUST performance measures, as identified in the FY 2015 National Program Guidance. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

General Grant Regulations and Procedures (2 CFR 200 and 2 CFR 1500, as applicable), State and Local Assistance (40 CFR Part 35.330 et. seq. for States and 40 CFR 35.730 et. seq. for Tribes and Intertribal Consortia). Costs will be determined with 2 CFR Part 225 for State and local governments and Indian Tribes and 2 CFR Part 230 for Intertribal Consortia that follow the assistance regulations for nonprofit organizations. Contact Regional UST Program Manager for documents.

Regional or Local Office:

See Regional Agency Offices. For state-specific opportunities, EPA encourages potential applications to communicate with the appropriate EPA Regional Underground Storage Tanks Regional Program Managers, see <http://www.epa.gov/swerst1/index.htm>.

Headquarters Office:

Lynn Depont, 1200 Pennsylvania Avenue, NW, Mail Code 5401P, Washington, District of Columbia 20460 Email: depont.lynn@epa.gov Phone: (703)

603-7148.

Website Address:

RELATED PROGRAMS:

66.804 State and Tribal Underground Storage Tanks Program; 66.805 Leaking Underground Storage Tank Trust Fund Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: 1) Training Support: Provide underground storage tanks (UST) and leaking underground storage tanks training activities for states and tribes, e.g., Tribal Conference, training on the effective implementation strategies and the tools utilized among the states with regulatory programs underway, program initiatives, compliance with UST systems, and UST releases. 2) Electronic Newsletter (LUSTLine): Provide state and tribal regulators, the general public and the regulated community with technical information on UST systems. 3) State/Federal Partnerships: Provide technical assistance, topic-oriented meetings and forums for information exchanges to assist States in developing their program capabilities to manage their UST/LUST programs in the most efficient and effective manner possible. 4) Studies: Gather information and provide a summary on technical issues, e.g., study on the impact of using on-site measurement technologies for site assessment and contaminant conceptualization at petroleum release sites. 5) Disseminate technical information to states, tribes and Intertribal Consortia on UST/LUST program implementation. Fiscal Year 2015: 1) Training Support: Provide underground storage tanks (UST) and leaking underground storage tanks training activities for states and tribes, e.g., Tribal Conference, training on the effective implementation strategies and the tools utilized among the states with regulatory programs underway, program initiatives, compliance with UST systems, and UST releases. 2) Electronic Newsletter (LUSTLine): Provide state and tribal regulators, the general public and the regulated community with technical information on UST systems. 3) State/Federal Partnerships: Provide technical assistance, topic-oriented meetings and forums for information exchanges to assist States in developing their program capabilities to manage their UST/LUST programs in the most efficient and effective manner possible. 4) Studies: Gather information and provide a summary on technical issues, e.g., study on the impact of using on-site measurement technologies for site assessment and contaminant conceptualization at petroleum release sites. 5) Disseminate technical information to states, tribes and Intertribal Consortia on UST/LUST program implementation. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.817 STATE AND TRIBAL RESPONSE PROGRAM GRANTS

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Comprehensive Environmental Response, Compensation, and Liability Act, Section 128(a), Public Law 107-118; Small Business Liability Relief and Brownfields Revitalization Act.

OBJECTIVES:

EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance state and tribal response program capacity, capitalize revolving loan funds (RLFs), and support insurance mechanisms. The goal of this funding is to provide financial support to establish and enhance the four elements of an effective state or tribal response program as specified in CERCLA Section 128 and to ensure that states and tribes maintain a public record of sites included in their programs.

Funding Priority - Fiscal Year 2014: In FY 2014, funding will be prioritized as follows: (1) Funding for program development activities to establish or enhance the four elements of a state or tribal response program and to enable states and tribes to comply with the public record requirement, including activities related to institutional controls. (States and tribes that have established one or more of

the four elements will not be prejudiced in funding distributions if their work plan includes activities that enhance the four elements. States with Voluntary Cleanup Program Memorandum of Agreement will not be prejudiced in funding distributions if their work plan does not include tasks related to establishing or enhancing the four elements.) (2) Funding for program development activities to enhance the response program or the cleanup capacity of a state or tribal response program. (3) Funding for site-specific activities at eligible brownfields sites. (4) Funding for environmental insurance mechanisms. (5) Funding to capitalize brownfields cleanup RLFs.

Funding Priority - Fiscal Year 2015: In FY 2015, funding will be prioritized as follows: (1) Funding for program development activities to establish or enhance the four elements of a state or tribal response program and to enable states and tribes to comply with the public record requirement, including activities related to institutional controls. (States and tribes that have established one or more of the four elements will not be prejudiced in funding distributions if their work plan includes activities that enhance the four elements. States with Voluntary Cleanup Program Memorandum of Agreement will not be prejudiced in funding distributions if their work plan does not include tasks related to establishing or enhancing the four elements.) (2) Funding for program development activities to enhance the response program or the cleanup capacity of a state or tribal response program. (3) Funding for site-specific activities at eligible brownfields sites. (4) Funding for environmental insurance mechanisms. (5) Funding to capitalize brownfields cleanup RLFs.

Funding Priority - Fiscal Year 2016: In FY 2016, funding will be prioritized as follows: (1) Funding for program development activities to establish or enhance the four elements of a state or tribal response program and to enable states and tribes to comply with the public record requirement, including activities related to institutional controls. (States and tribes that have established one or more of the four elements will not be prejudiced in funding distributions if their work plan includes activities that enhance the four elements. States with Voluntary Cleanup Program Memorandum of Agreement will not be prejudiced in funding distributions if their work plan does not include tasks related to establishing or enhancing the four elements.) (2) Funding for program development activities to enhance the response program or the cleanup capacity of a state or tribal response program. (3) Funding for site-specific activities at eligible brownfields sites. (4) Funding for environmental insurance mechanisms. (5) Funding to capitalize brownfields cleanup RLFs.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

States and tribes can use Section 128 funding to (1) establish or enhance four statutory elements of a response program, as per CERCLA 128(a)(2), (2) capitalize a Revolving Loan Fund program for brownfields cleanup, pursuant to CERCLA 104(k)(3), (3) purchase environmental insurance or develop a risk sharing pool, an indemnity pool, or insurance mechanism to provide financing for response actions under their programs, (4) maintain and update, at least annually, a public record of sites, pursuant to CERCLA 128(b), that includes the name and location of sites at which response actions have been completed during the previous year and the name and location of sites at which response actions are planned to be addressed in the next year, and (5) conduct limited site-specific activities. "Establish" includes activities necessary to build the foundation for the four elements of a state or tribal response program or may also include activities that keep their program at a level that meets the four elements. "Enhance" is related to activities that add to or improve a state or tribal response program or increase the number of sites at which response actions are conducted under a state or tribal response program. States and tribes may use Section 128(a) funds for activities that establish and enhance their response programs, even if their response programs address petroleum contamination. Restrictions apply to site-specific activities, such as assessment and cleanup. Assessments and cleanups must be conducted at eligible brownfields sites, as defined in CERCLA 101(39). Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to

conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

States (as defined in CERCLA Section 101(27)) and tribes (as defined in CERCLA Section 101(36)) are eligible for funding under Section 128(a). To be eligible to receive funding under CERCLA Section 128(a), a state or tribe must demonstrate that its response program includes, or is taking reasonable steps to include, the four elements of a response program. States or tribes that are parties to voluntary response program memoranda of agreement (MOAs) are automatically eligible for Section 128(a) funding. Additionally, states and tribes, including those with MOAs, must maintain and make available to the public a record of sites at which response actions have been completed in the previous year and are planned to be addressed in the upcoming year in order to qualify for Section 128(a) funding.

Beneficiary Eligibility:

Beneficiaries include individuals living in recipient states', territories', and tribes' jurisdiction.

Credentials/Documentation:

States and tribes must provide documentation that they have met or are making reasonable progress towards meeting the four statutory elements, or have a Voluntary Cleanup Program Memorandum of Agreement with EPA, and have established and are maintaining the public record. States and tribes must define their "Section 128(a) response program", and may designate a component of the state or tribe that will be EPA's primary point of contact for negotiations on their proposed work plan. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Annually, states and tribes will work with the EPA regional offices to develop their work plans and funding requests for the upcoming year. Each cooperative agreement must have an annual budget period tied to an annual work plan. Annual funding guidance provides the requirements for submitting requests. No specific forms are required. Informal assistance is available through regional offices. States are subject to requirements under E.O. 12372, "Intergovernmental Review of Federal Programs" as implemented in 40 CFR Part 29. Tribes are exempt. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. States and tribes submit requests to EPA regional offices for funding on an annual basis by submitting a proposed work plan. Annual funding guidance provides the information that should be submitted to the regional office. Once initial requests are submitted, EPA headquarters consolidates requests and provides a final allocation based on factors provided in the funding guidance. No specific form is required for submission of request.

Award Procedure:

EPA regional offices will negotiate and enter into a single cooperative agreement with interested states or tribes. States and tribes may distribute these funds among the appropriate state and tribal agencies to meet their specific needs within their state or tribal agency structures. At least annually, the regional offices must verify that a public record as described above exists for each of the state or tribal response programs that are receiving funding.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days are required for the application request to be approved or disapproved.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Each state and tribal cooperative agreement will be evaluated on an annual basis to ensure that the requirements to receive funding are being met. If funding is not used, it may be carried over into the next budget period.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: States and tribes are not required to provide matching funds for grants awarded under Section 128(a). However, if the state or tribe uses Section 128(a) funds to capitalize a Brownfields RLF under CERCLA 104(k)(3), a 20% cost share is required on the amount of Section 128(a) funds used to capitalize an RLF. This program has no statutory formula, but does take into account use of prior years' funding in determining future awards.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA regions will evaluate cooperative agreements annually to ensure that requirements to receive funding are being met. EPA regional offices will determine the project period for each cooperative agreement. These may be for multiple years depending on the regional office's grants policies. Each cooperative agreement must have an annual budget period tied to an annual work plan. Funds are awarded on an annual basis and may be drawn down according to regional financial processes. See the following for information on how assistance is awarded/released: This assistance is generally awarded lump sum.

Reports:

No program reports are required. No cash reports are required. States and tribes will provide progress reports under 2 CFR 200 and 1500, in accordance with terms and conditions of the cooperative agreement negotiated with EPA regional offices. At a minimum, state or tribal progress reports must include both a narrative discussion and performance data relating to the state's or tribe's accomplishments with Section 128(a) funding. Depending upon the activities included in the state's or tribe's scope of work, an EPA regional office may request that a progress report include other elements as described in the Grant Funding Guidance for State and Tribal Response Programs. The regional offices may also request other information be added to the progress reports, as appropriate, to properly document activities described by the cooperative agreement work plan. Expenditure information should be provided in the progress reports. Performance monitoring is in accordance with the terms and conditions of the cooperative agreement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

In addition to the statutory public record requirement, states and tribes must comply with record keeping requirements of 2 CFR 200 and 1500 and any applicable requirements under state and tribal laws. Recipients must keep financial records, including all documents supporting entries on accounting records and to substantiate changes in grants, available to personnel authorized to examine EPA recipients grants and cooperative agreements records. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions remain following the 3-year period, such as those raised as a result of an audit or an on-going enforcement action, recipients must retain records until the matter is completely

resolved.

Account Identification:

68-0103-0-1-304.

Obligations:

(Project Grants) FY 14 \$47,745,000; FY 15 est \$47,745,000; and FY 16 est \$47,745,000 - FY 14 47,745,000; FY 15 47,745,000; FY 16 est 47,745,000.

Range and Average of Financial Assistance:

Most fiscal years range from \$50,000 to \$1,000,000; average approximately \$450,000.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY14, 149 requests were received, all were funded. Fiscal Year 2015: In FY15, 160 requests were received, all were funded. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200 and 1500 applies to the program. EPA anticipates that it will annually publish national Grant Funding Guidance for State and Tribal Response Programs. Fiscal Year 2014 guidance may be found at www.epa.gov/brownfields.

Regional or Local Office:

Website Address:

<http://www.epa.gov/brownfields>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Program development activities to establish the four elements of a state or tribal response program, including conducting an inventory of brownfields sites; developing or enhancing oversight and enforcement mechanisms; establishing mechanisms to approve cleanup plans; and providing opportunities and resources for public involvement. Establishing and maintaining a public record of sites, including making information available on the Internet and maintaining and monitoring institutional controls; capitalizing an RLF for brownfields cleanup; purchasing environmental insurance; developing legislation, regulations, procedures, and guidance that would establish or enhance the administrative and legal structure of their response programs; and undertaking-site specific related activities, such as conducting assessments at selected brownfields sites and auditing completed site cleanups in states that administer a licensed site professional program. Fiscal Year 2015: Program development activities to establish the four elements of a state or tribal response program, including conducting an inventory of brownfields sites; developing or enhancing oversight and enforcement mechanisms; establishing mechanisms to approve cleanup plans; and providing opportunities and resources for public involvement. Establishing and maintaining a public record

of sites, including making information available on the Internet and maintaining and monitoring institutional controls; capitalizing an RLF for brownfields cleanup; purchasing environmental insurance; developing legislation, regulations, procedures, and guidance that would establish or enhance the administrative and legal structure of their response programs; and undertaking-site specific related activities, such as conducting assessments at selected brownfields sites and auditing completed site cleanups in states that administer a licensed site professional program. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

EPA will not fund this program through competitive grant solicitations. Section 128(a) funds will be allocated to eligible states and tribes in accordance with the national Grant Funding Guidance for State and Tribal Response Programs.

66.818 BROWNFIELDS ASSESSMENT AND CLEANUP COOPERATIVE AGREEMENTS

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009; Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, 42 U.S.C 9601(39)&9604k; The Small Business Liability Relief and Brownfields Revitalization Act of 2002, Public Law 107-118.

OBJECTIVES:

Brownfield sites are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. The objectives of the brownfield assessment, revolving loan fund and cleanup cooperative agreements (project grants) are to provide funding: (1) to inventory, characterize, assess, and conduct planning and community involvement related to brownfield sites; (2) to capitalize a revolving loan fund (RLF) and provide subgrants to carry out cleanup activities at brownfield sites; and (3) to carry out cleanup activities at brownfield sites that are owned by the grant recipient.

Funding Priority - Fiscal Year 2014: Funding will support at least 120 assessment cooperative agreements (estimated \$26.8 million) that recipients may use to inventory, assess, cleanup and plan reuse at Brownfields sites, as authorized under CERCLA 104(k)(2). Funding will support approximately 51 direct cleanup cooperative agreements (estimated \$10.2 million) to enable eligible entities to clean up properties that the recipient owns. The agency will award approximately eight RLF cooperative agreements (estimated \$4.9 million) of up to \$1.0 million each.

Funding Priority - Fiscal Year 2015: Funding supported at 179 assessment cooperative agreements (estimated \$41.9 million) that recipients may use to inventory, assess, cleanup and plan reuse at Brownfields sites, as authorized under CERCLA 104(k)(2). Funding supported 64 direct cleanup cooperative agreements (estimated \$12.3 million) to enable eligible entities to clean up properties that the recipient owns.

Funding Priority - Fiscal Year 2016: Funding will support at least 180 assessment cooperative agreements (estimated \$39.8 million) that recipients may use to inventory, assess, cleanup and plan reuse at Brownfields sites, as authorized under CERCLA 104(k)(2). Funding will support approximately 66 direct cleanup cooperative agreements (estimated \$13.2 million) to enable eligible entities to clean up properties that the recipient owns. The agency will award approximately eight competitive RLF cooperative agreements (estimated \$8 million) of up to \$1.0 million each, and approximately 10 RLF supplemental awards (estimated \$5 million).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

For site specific projects, the site must meet the definition of a brownfields site found at CERCLA 101(39). As part of the application process, EPA provides guidance to assist grant applicants in determining whether sites meet this

definition. (1) The brownfields grants may be used to address sites contaminated by petroleum and hazardous substances, pollutants, or contaminants (including hazardous substances co-mingled with petroleum). (2) Brownfields assessment grant funds may be used to inventory, characterize, assess, and conduct planning and community involvement related to brownfield sites. (3) An RLF project grant recipient must use at least 60 percent of the awarded funds to capitalize and implement a revolving loan fund; an RLF project grant recipient may use no more than 40 percent of the awarded funds for cleanup subgrants and may not subgrant to itself. Revolving loan fund project grants generally are used to provide no-interest or low-interest loans for brownfields cleanups. (4) An RLF project grant recipient may use its funds to award subgrants to other eligible entities, including nonprofit organizations, for brownfields cleanups on sites owned by the subgrantee; (5) Brownfields cleanup grant funds must be used to carry out cleanup activities at brownfield sites that are owned by the grant recipient. (6) Costs incurred under CERCLA 104(k) grants or cooperative agreements may not be used for an administrative cost, penalty or fine, a Federal cost-share requirement, a response cost for which the recipient of the grant or cooperative agreement is potentially liable under CERCLA 107, or the cost of complying with a Federal law, with the exception of the costs of laws applicable to cleanup of Brownfields sites. (7) Brownfields multi-purpose pilot grant recipients may use funding for assessment, cleanup planning and direct cleanup at one site owned by the applicant. All grants under 66.818 are awarded on a discretionary basis. For information on statutory limits on the amount of funding, see 123 Range and Average of Financial Assistance, below. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Eligibility for Assessment, Revolving Loan Fund, and Cleanup Grants: a general purpose unit of local government; a land clearance authority or other quasi-governmental entity that operates under the supervision and control of, or as an agent of, a general purpose unit of local government; a government entity created by a State legislature; a regional council or group of general purpose units of local government; a redevelopment agency that is chartered or otherwise sanctioned by a State; a State; an Indian Tribe other than in Alaska; an Alaska Native Regional Corporation, Alaska Native Village Corporation and the Metlakatla Indian Community. Nonprofit organizations that own the property are also eligible for cleanup grants. Nonprofit organizations must meet the definition of that term in Section 4(6) of the Federal Financial Assistance Management Improvement Act of 1999, Public Law 96-107, 31 U.S.C. 6101 (Note: Under this definition, colleges, universities, and community colleges are eligible to apply.) However, nonprofit organizations described in Section 501(c)(4) of the Internal Revenue Code that engage in lobbying activities as defined in Section 3 of the Lobbying Disclosure Act of 1995 are not eligible to apply. Non-profit organizations are not eligible for the brownfields multi-purpose pilot grants. For profit organizations are not eligible to apply for direct funding from EPA. However, for profit organizations may apply for loans made by eligible entities with RLF capitalization grants. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Generally, those eligible entities identified above will benefit from the brownfields grant actions. Specifically, individuals and commercial organizations in brownfields grant communities will benefit from brownfields assessment, cleanup, and revitalization funding. New strategies for promoting environmental cleanup lessons from these grants will provide a growing base of information and knowledge for other communities across the country seeking partnerships with stakeholders to coordinate issues related to brownfields and leverage additional opportunities for redevelopment.

Credentials/Documentation:

EPA may require that nonprofit organizations or eligible entities other than states, tribes, or general purpose units of local government provide documentation of eligibility. EPA may also require that applicants provide site specific information to determine whether a site qualifies as a Brownfields site under CERCLA 101(39). 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This is a competitive grant program. EPA guidelines for Requests for Proposals or Requests for Applications will specify application procedures. For EPA Regional Office contacts, see Appendix IV of the Catalog. The standard application forms as furnished by the Federal agency and required by OMB Circular No. A-102 and A-110 must be used for this program. EPA requires final applications to be made on Standard Form 424. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

This is a competitive grant program. EPA guidelines for Requests for Proposals or Requests for Applications will specify award procedures. For EPA Regional Office contacts, see Appendix IV of the Catalog. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. For the Recovery Act funding, EPA will award separate cooperative agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Recipients of RLF grants may apply for additional funding on a non-competitive basis during any year after the first year the recipient receives an RLF grant. To seek additional funding, RLF grant recipients should contact their EPA Regional Office. In awarding this additional funding the Agency will consider: (I) the number of sites and number of communities that are addressed by the revolving loan fund;(II) the demand for funding by eligible entities that have not previously received an RLF grant;(III) the demonstrated ability of the

eligible entity to use the revolving loan fund to enhance remediation and provide funds on a continuing basis; and (IV) Other similar factors, including the availability of funds and the recipient's performance history. Recipients of assessment and cleanup grants generally do not receive additional funding on a non-competitive basis.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Matching requirements are not applicable for brownfield assessment grants. Under CERCLA 104(k)(9)(B)(iii) revolving loan fund and cleanup grants require a 20 percent cost share, which may be in the form of a contribution of money, labor, material, or services, and must be for eligible and allowable costs. An RLF or cleanup grant applicant may request a waiver of the 20 percent cost share requirement based on financial hardship. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The performance period for brownfields assessment and cleanup grant funds is three years. The performance period for brownfields revolving loan fund grants is generally five years. Grants are generally announced nationally and awarded by EPA Regional Offices. The Regional Offices work with the applicants to negotiate a workplan and award the cooperative agreement. See the following for information on how assistance is awarded/released: These grants are generally awarded as a lump sum.

Reports:

No program reports are required. No cash reports are required. Quarterly progress reports, property profiles, notification of significant development, property inventory reports, procurement reports, a final report and financial reports may be required if authorized by 2 CFR Parts 200 and 1500 (specifically, 200.328 monitoring and reporting program performance). Quarterly progress reports are generally required as part of the terms and conditions of the cooperative agreement. Expenditure information should be provided in the progress reports. Performance monitoring is in accordance with the terms and conditions of the cooperative agreement.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Record Retention Requirements of 2 CFR 200 and 1500 are applicable, depending upon the identity of the recipient and the program funded.

Account Identification:

68-0103-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$59,500,000; FY 15 Estimate Not Available; and FY 16 est \$66,000,000 - In FY 2014, the Brownfields Program obligated \$59,500,000. An estimated \$66,000,000 will be available in FY 2016.

Range and Average of Financial Assistance:

Range and Average of Financial Assistance: (1) For assessment grants, an eligible entity may apply for up to \$200,000 to address sites contaminated by hazardous substances, pollutants, or contaminants (including hazardous substances co-mingled with petroleum) and up to \$200,000 to address sites contaminated by petroleum; most applicants receive this amount. Applicants

may request a waiver of the \$200,000 limit up to \$350,000 for sites contaminated by hazardous substances, pollutants, or contaminants (including hazardous substances co-mingled with petroleum) and up to \$350,000 to address sites contaminated by petroleum. Waiver requests must be based on the anticipated level of contamination, size, or ownership status of the site. These limits are mandatory under CERCLA 104(k)(4)(A). A coalition of eligible entities may apply for up to \$1,000,000 to address sites contaminated by hazardous substances or petroleum on a community-wide basis. (2) For revolving loan fund grants, an eligible entity may apply for up to \$1,000,000 for an initial RLF grant. This limit is mandatory under CERCLA 104(k)(4)(A). In addition, coalitions of eligible entities may apply together under one recipient for up to \$1,000,000 per eligible entity. (3) For cleanup grants, an eligible entity may apply for up to \$200,000 per site. The \$200,000 per site limit is mandatory under CERCLA 104(k)(3)(A). Approximate average financial assistance is \$200,000 for cleanup grants, \$200,000 for assessment grants and \$1 million per entity for revolving loan fund grants.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY14 1,665 sites have been assessed, 153 properties cleaned up, 12,600 jobs leveraged, \$1.15 Billion leveraged and 6,408 acres ready for reuse. Fiscal Year 2015: To date in FY15 1,181 sites have been assessed, 129 properties cleaned up, 4,124 jobs leveraged, \$826.7 Million leveraged and 7,283 acres ready for reuse. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

For brownfields assessment, revolving loan fund, and cleanup grants, costs will be determined in accordance with 2 CFR 200 and 1500 as applicable.

The Agency will periodically publish guidance for brownfields grant proposals.

Regional or Local Office:

See Regional Agency Offices. RELATED PROGRAMS:

66.814 Brownfields Training, Research, and Technical Assistance Grants and Cooperative Agreements ; 66.815 Brownfield Job Training Cooperative Agreements; 66.817 State and Tribal Response Program Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: (1) 183 assessment grants were selected to complete brownfield site inventories, Phase I & II environmental site assessments and community engagement activities.

(2) 71 cleanup grants were selected to cleanup contaminated properties. End uses include neighborhood development, commercial development, arts center, business park, wellness center/clinic, community health center, theater, and office space.

(3) 12 RLF grants were selected to provide loans and subgrants to eligible entities to cleanup contaminated properties. Fiscal Year 2015: (1) 179 assessment grants were selected to complete brownfield site inventories, Phase I & II environmental site assessments and community engagement activities.

(2) 64 cleanup grants were selected to cleanup contaminated properties. End uses include neighborhood development, commercial development, arts center, business park, wellness center/clinic, community health center, theater, and office space.

These period of performance for these cooperative agreements are anticipated to be from 10/01/15 to 9/30/18. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

This is a competitive grant program. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Selection criteria will be outlined in the proposal guidelines and will be based on a system that includes the following ten statutory ranking criteria: (i) The extent to which a grant will stimulate the availability of other funds for environmental assessment or remediation, and subsequent reuse, of an area in which one or more brownfield sites are located. (ii) The potential of the proposed project or the development plan for an area in which one or more brownfield sites are located to stimulate economic development of the area on completion of the cleanup. (iii) The extent to which a grant would address or facilitate the identification and reduction of threats to human health and the environment, including threats in areas in which there is a greater-than-normal incidence of diseases or conditions (including cancer, asthma, or birth defects) that may be associated with exposure to hazardous substances, pollutants, or contaminants. (iv) The extent to which a grant would facilitate the use or reuse of existing infrastructure. (v) The extent to which a grant would facilitate the creation of, preservation of, or addition to a park, a greenway, undeveloped property, recreational property, or other property used for nonprofit purposes. (vi) The extent to which a grant would meet the needs of a community that has an inability to draw on other sources of funding for environmental remediation and subsequent redevelopment of the area in which a brownfield site is located because of the small population or low income of the community. (vii) The extent to which the applicant is eligible for funding from other sources. (viii) The extent to which a grant will further the fair distribution of funding between urban and nonurban areas. (ix) The extent to which the grant provides for involvement of the local community in the process of making decisions relating to cleanup and future use of a brownfield site. (x) The extent to which a grant would address or facilitate the identification and reduction of threats to the health or welfare of children, pregnant women, minority or low-income communities, or other sensitive populations. In addition, applicants will be required to demonstrate that site specific activities are carried out at sites that meet the definition of a Brownfields site at CERCLA 101(39).

66.819 DISASTER RELIEF APPROPRIATIONS ACT (DRAA) HURRICANE SANDY LEAKING UNDERGROUND STORAGE TANK TRUST FUND CORRECTIVE ACTION PROGRAM

Sandy Relief

FEDERAL AGENCY:

Office of Solid Waste and Emergency Response, Environmental Protection Agency

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013, Public Law 113-2; Solid Waste Disposal Act of 1976, Section 9003(h).

OBJECTIVES:

To support New Jersey and New York for leaking underground storage tanks activities related to the consequences of Hurricane Sandy. These state LUST programs aim to restore and protect groundwater resources and create a safe environment for those who live or work around these sites. Petroleum releases contain contaminants like benzene and other contaminants of concern that can make water unsafe or unpleasant to drink. Releases can also result in fire and explosion hazards, as well as produce long-term health effects.

Funding Priorities - Fiscal Year 2014: Assistance agreements to New Jersey and New York, states affected by the consequences of Hurricane Sandy. Sandy Relief funding will continue to be used to identify releases of petroleum from underground storage tanks caused or exacerbated by the effects of Hurricane Sandy, and the two states will take appropriate corrective actions as necessary to achieve state specific cleanup requirements. The states may use expedited site assessment methods to verify releases and collect data to determine the need for additional assessment work, or site remediation.

Funding Priorities - Fiscal Year 2015: Assistance agreements to New Jersey and New York, states affected by the consequences of Hurricane Sandy. Sandy Relief funding will continue to be used to identify releases of petroleum from underground storage tanks caused or exacerbated by the effects of Hurricane Sandy, and the two states will take appropriate corrective actions as necessary to achieve state specific cleanup requirements. The states may use expedited site assessment methods to verify releases and collect data to determine the need for additional assessment work, or site remediation.

Funding Priorities - Fiscal Year 2016: Assistance agreements to New Jersey and New York, states affected by the consequences of Hurricane Sandy. Sandy Relief funding will continue to be used to identify releases of petroleum from underground storage tanks caused or exacerbated by the effects of Hurricane Sandy, and the two states will take appropriate corrective actions as necessary to achieve state specific cleanup requirements. The states may use expedited site assessment methods to verify releases and collect data to determine the need for additional assessment work, or site remediation.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Geospatial Information includes: Information that identifies the geographic location and characteristics of natural or constructed features or boundaries on the Earth, or applications, tools, and hardware associated with the generation, maintenance, or distribution of such information. This information may be derived from, among other things, GPS, remote sensing, mapping, charting, and surveying technologies, or statistical data. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official Government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009. States may use financial assistance under this program for eligible and allowable costs incurred under cooperative agreements for corrective action, as described in Section: 54 Funding Priority and Section: 180 Criteria for Selecting Proposals. This financial assistance program is not eligible for inclusion in Performance Partnership Grants under 40 CFR 35.133. The Sandy Recovery Improvement Act neither expands nor limits eligible uses of LUST funds under section 9003(h)(7), except that uses must be related to the consequences of Hurricane Sandy. The applicable provisions in OSWER Directive 9650.10A, "LUST Trust Fund Cooperative Agreement Guidelines" apply to states receiving funds under this program. See

<http://www.epa.gov/swerst1/directiv/d965010a.htm>. LUST Trust Funds for corrective action will not be used to implement any provision of the Energy Policy Act (EPA Act) of 2005, Title XV, Subtitle B, that is not also a leaking underground storage tank activity authorized by Section 205 of the Superfund Amendments and Reauthorization Act.

Applicant Eligibility:

New Jersey and New York, states impacted by the consequences of Hurricane Sandy.

Beneficiary Eligibility:

New Jersey and New York, and the communities and industries affected by leaks from underground storage tanks affected by the consequences of Hurricane Sandy.

Credentials/Documentation:

Even though the LUST corrective action assistance agreements are only used for traditional cleanup activities under Section 9003(h) and, in this instance for those states affected by the consequences of Hurricane Sandy, New Jersey and New York must either submit certification indicating the State meets the applicable Energy Policy Act provisions, or submit documentation describing the State's efforts to meet the requirements, in accordance with EPA's Energy Policy Act grant guidelines (http://www.epa.gov/oust/fedlaws/epact_05.htm). For the Sandy Relief LUST cooperative agreements, the EPA Region 2 Office maintains the credentials/documentation for these two State programs. Costs will be determined in accordance with 2 CFR 200 Subpart E for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. In addition to 2 CFR 2000, 2 CFR 1500 also applies.

Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

These funds are awarded non-competitively. Applications will be subjected to administrative evaluation to determine the adequacy of application in relation to assistance agreement regulations and to technical and program evaluation to determine the merit and relevance of the project. The Agency will advise the applicant if funding is being considered. A final work plan will be negotiated with the applicant. A cooperative agreement must be signed between EPA and the State. EPA awards the cooperative agreement to states through a previously established allocation process, issued under national guidance rather than through competition. See EPA Order 5700.5, Section 6(c)(1).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Generally three to four months.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Unlike assistance agreements funded with EPA's annual no year LUST appropriations, Sandy Relief funds must be expended by New Jersey and New York within four years of the Agency's obligation, per the May 2013 Office of Management and Budget's approval to EPA's LUST Program Waiver Request for a two-year extension.

Formula and Matching Requirements:

Statutory Formula: Title Solid Waste Disposal Act. LUST corrective action

funding awarded under section 9003(h)(7) of the Solid Waste Disposal Act is subject to an allocation process developed by the Agency. While EPA uses a formula based allocation process for its annual awards, this is special funding dedicated to consequences of Hurricane Sandy. The funds will be distributed equally to New Jersey and New York.

Yes. There is a required 10 percent state cost share under section 9003(h)(7). This requirement is statutory and cannot be waived. The manner in which states provide their cost share is to be negotiated with the Region and must be in compliance with the grant requirements of 2 CFR 200.306. Acceptable methods for cost sharing include: contributions, e.g., staff and equipment; and direct, non-federal funds expended or obligated by the state, or a political subdivision of the state, for cost-allowable activities.

Matching Requirements: There is a required 10 percent state cost share under section 9003(h)(7). This requirement is statutory and cannot be waived. The manner in which states provide their cost share is to be negotiated with the Region and must be in compliance with the grant requirements of 40 CFR Part 31.24. Acceptable methods for cost sharing include: contributions, e.g., staff and equipment; and direct, non-federal funds expended or obligated by the state, or a political subdivision of the state, for cost-allowable activities. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Unlike assistance agreements funded with EPA's annual no year LUST appropriations, Sandy Relief funds must be expended by New Jersey and New York within four years of the Agency's obligation, per the May 2013 Office of Management and Budget's approval to EPA's LUST Program Waiver Request for a two-year extension. However, in the spirit of expeditiously cleaning up LUST sites impacted by the consequences of Hurricane Sandy, New Jersey and New York will strive to expend awarded funds as quickly as possible and appropriate. See the following for information on how assistance is awarded/released: Sandy Relief LUST Trust Fund Corrective Action assistance agreements are awarded to New Jersey and New York, states affected by the consequences of Hurricane Sandy. Financial assistance is awarded in a lump sum. States use the Automated Standard Application for Payment System to request cash drawdowns based on a projected cash requirement.

Reports:

Recipients provide performance and financial reports as authorized by 2 CFR 200.327. For the Sandy Relief LUST assistance agreements, New Jersey and New York will report program performance results semi-annually in the web-based LUST4 database. No cash reports are required. Progress reports are required. New Jersey and New York will submit to EPA/Region 2 quarterly expenditure reports of their outlays and expenditures. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

States must maintain accurate records in a readily accessible manner and/or location documenting their expenditures of Sandy Relief funds in compliance with 2 CFR 1500.6. When LUST Sandy Relief funds are used for direct site work, states must maintain records on a site-specific basis. LUST Sandy Relief funds must be tracked separately from other LUST or state funds.

Account Identification:

68-8153-0-7-304.

Obligations:

(Formula Grants) FY 14 Not Available; FY 15 Estimate Not Available; and FY 16 Estimate Not Available - For FY 2013, a total of \$4,750,000 (post Sequestration) was made available to New Jersey and New York. The funds were distributed equally to New Jersey and New York; each state separately tracks and accounts for the use of these supplemental funds. This amount is designated as an emergency requirement pursuant to PL 113-2.

There are no funds planned for FY 2014 or beyond as the Hurricane Sandy Supplemental Relief funds are limited to a one-time only occurrence.

Range and Average of Financial Assistance:

Not applicable.

TAFS Codes:

68-8153.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

The regulations governing the award and administration of the Sandy Relief Leaking Underground Storage Tanks cooperative agreements are the "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments" set forth at 2 CFR 200 and 2 CFR 1500.

Guidelines: Leaking Underground Storage Tanks Trust Fund. Cooperative Agreement Guidelines. Energy Policy Act of 2005 Grant Guidelines, http://www.epa.gov/swerst1/fedlaws/epact_05.htm. Guidance To Region 2 For Implementing The LUST Provision Of The Sandy Recovery Improvement Act of 2013 will be finalized and published soon.

Costs will be determined in accordance with 2 CFR 200 Subpart E for State and local governments. Contact Region 2 LUST Program Manager for documents.

Regional or Local Office:

CRITERIA FOR SELECTING PROPOSALS:

These LUST Sandy Relief assistance agreements are formula grants and are exempt from competition.

66.926 INDIAN ENVIRONMENTAL GENERAL ASSISTANCE PROGRAM (GAP)

(GAP for Tribes)

FEDERAL AGENCY:

Office of International and Tribal Affairs, Environmental Protection Agency

AUTHORIZATION:

Indian Environmental General Assistance Program Act of 1992, Section 11, Public Law 102-497, 42 U.S.C 4368b; Indian Environmental General Assistance Program Act of 1992, Public Law 103-155.

OBJECTIVES:

To provide general assistance program (GAP) grants to Indian tribal

governments and intertribal consortia to build capacity to administer environmental regulatory programs on Indian lands, and provide technical assistance from EPA to Indian tribal governments and intertribal consortia in the development of multimedia programs to address environmental issues on Indian lands.

Funding Priority - Fiscal Year 2014: Funding is for the purposes of assisting federally-recognized tribal governments with the development of tribal environmental management capacity consistent with EPA standards and regulations. Funding can be used for planning, developing and establishing the administrative, technical, legal, enforcement, communications, and environmental education and outreach structure of a tribal environmental program. GAP funds will be used for activities such as assessment of environmental condition of tribal lands; appropriate utilization of federal information; building an environmental program tailored to the tribe's needs; developing environmental education programs; developing Solid Waste management plans; and establishing the ability to alert EPA to serious conditions involving immediate public health and ecological health.

Funding Priority FY 2015: Funding is for the purposes of assisting federally-recognized tribal governments with the development of tribal environmental management capacity consistent with EPA standards and regulations. Funding can be used for planning, developing and establishing the administrative, technical, legal, enforcement, communications, and environmental education and outreach structure of a tribal environmental program. GAP funds will be used for activities such as assessment of environmental condition of tribal lands; appropriate utilization of federal information; building an environmental program tailored to the tribe's needs; developing environmental education programs; developing Solid Waste management plans; and establishing the ability to alert EPA to serious conditions involving immediate public health and ecological health.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Activities eligible for funding under this program are those for planning, developing, and establishing capability to implement environmental protection programs including development of solid and hazardous waste programs. General assistance agreements offer the opportunity for a tribe to develop an integrated environmental program, develop the capability to manage specific programs and establish a core program for environmental protection. These assistance agreements provide the opportunity for the tribes to define and develop administrative and legal infrastructures; to conduct assessments, monitoring, planning, and other actions; and to undertake additional activities within a simplified administrative framework. The primary purpose of these assistance agreements is to support the development of elements of a core environmental program, such as: providing for tribal capacity-building to assure an environmental presence for identifying programs and projects, including developing proposals for environmental program grants and managing environmental work; fostering compliance with Federal environmental statutes by developing appropriate tribal environmental programs, ordinances, and services; and establishing a communications capability to work with Federal, State, local and other tribal environmental officials. Restrictions: The principal focus of this program is on the development of general tribal environmental capability. Assistance will be provided under this program only for activities which the agency determines are appropriate to carry out the purposes of the Act. No single grant awarded under this program may be for an amount exceeding ten percent of the total annual funds appropriated under Section (h) of the Act. As with many of EPA's grants to States and Tribes, GAP grants may now be combined with one or more other EPA grants into a Performance Partnership Grant for administrative savings and, with EPA concurrence, programmatic flexibility. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients

and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

The following are eligible to receive financial assistance: (a) An Indian tribal government; and (b) an intertribal consortium or consortia. An Indian tribal government is any tribe, band, nation, or other organized group or community, including any Alaska Native village or regional or village corporation (as defined in or established pursuant to the Alaska Native Claims Settlement Act, 43 U.S.C. 1601, et seq.), which is recognized by the U.S. Department of the Interior as eligible for the special services provided by the United States to Indians because of their status as Indians. An intertribal consortium is a partnership between two or more Indian tribal governments authorized by the governing bodies of those tribes to apply for and receive assistance under this program. An intertribal consortium is eligible to receive a GAP grant if the consortium demonstrates that: (1) A majority of its members meet the eligibility requirements for GAP grants; (2) all members that meet the eligibility requirements authorize the consortium to apply for and receive the grant; and (3) only members that meet the eligibility requirements will benefit directly from the grant project and the consortium agrees to a grant condition to that effect. An intertribal consortium must have adequate documentation of the existence of the partnership and the authorization of the member Tribes to apply for and receive assistance. Documentation that demonstrates the existence of the partnership of Indian Tribal governments may consist of Tribal council resolutions, intertribal consortia resolutions in conjunction with a Tribal council resolution from each member Tribe, or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that a partnership of Indian Tribal governments exists. Documentation that demonstrates that member Tribes authorize the consortium to apply for and receive assistance may consist of a Tribal council resolution from each Tribe or other written certification from a duly authorized representative of each Tribal government that clearly demonstrates that the Tribe authorizes the consortium to apply for and receive the grant on behalf of the Tribe. An intertribal consortium resolution is not adequate documentation of the member Tribes authorization of the consortium unless it includes a written certification from a duly authorized representative of each Tribal government.

Beneficiary Eligibility:

Federally Recognized Indian Tribal Governments and eligible Intertribal Consortia.

Credentials/Documentation:

This program is subject to the provisions of 2 CFR 200 Subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applicants must use the "Application for Federal Assistance: State and Local Non-Construction Programs" (Standard Form 424). Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>.

Award Procedure:

Applications are reviewed by the appropriate Regional Office and, if approved, financial assistance is awarded by the Regional Administrator or his/her delegated official.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 days after deadline for application submission.

Appeals:

Disputes will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

In order to receive renewals, significant progress must be demonstrated. Renewals are subject to approval of EPA. Contact the EPA Regional contact identified in Appendix IV of the Catalog for additional information.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Award amount remains available until expended in accordance with the term of the award. The term of an award may exceed one year, but may not exceed four years. The term of the grant shall be determined at the time of the grant award. See the following for information on how assistance is awarded/released:
Other. The method of fund disbursement will be determined at the time of award.

Reports:

EPA includes reporting requirements for grants and cooperative agreements in the terms and conditions of the agreements. Specific reporting requirements are also identified in the Grant Regulations at 2 CFR Part 200 and 1500 and 40 CFR Part 35 (B), "Environmental Program Grants for Tribes." Program reports are required under this program. Cash reports are required under this program. Progress reports are required under this program. Expenditure reports are required under this program. Performance monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate charges to each grant, must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained for three years from the date of submission of the annual financial status report. If questions still remain, such as those raised as a result of audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0103-0-1-304 - STAG.

Obligations:

(Project Grants) FY 14 \$65,600,000; FY 15 est \$65,000,000; and FY 16 est \$96,400,000 - FY 14 \$65.6 million; FY 15 est. \$65 million; and FY 16 est. \$96.4 million.

Range and Average of Financial Assistance:

The minimum award for the first year of the grant is \$75,000/fiscal year, max. \$400,000/fiscal year; avg. \$110,000/fiscal year.

TAFS Codes:

68-0103.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Funding awards will not be finalized nationally before the end of Fiscal Year 2014. GAP resources should support a) Developing and maintaining core environmental program capacities (administrative, financial management, information management, environmental baseline needs assessment, public education/communication, legal, and technical/ analytic); b) Engaging with the EPA to negotiate joint EPA-Tribal Environmental Plans (ETEPs) that reflect intermediate and long-term goals for developing, establishing, and implementing environmental protection programs; Linking

GAP-funded assistance agreement work plans to the ETEPs; c) Developing baseline capacities for media-specific environmental protection programs that are related to the needs of the recipient and to EPA statutory programs (e.g., ambient and indoor air quality; water quality; managing wastes; managing asbestos, lead-based paint, pesticides, toxics, and pollution prevention programs); and d) Implementing waste management programs. Fiscal Year 2015: No content available. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Public Law 102-497, Section 11, 42 U.S.C.4368(b), as amended by Public Law 103-155, November 24, 1993. The program guidance titled "Indian Environmental General Assistance Program: Guidance on the Award and Management of General Assistance Agreements for Tribes and Intertribal Consortia" is available at <http://www.epa.gov/tribal/gap/>.

Regional or Local Office:

See Regional Agency Offices.
<http://www.epa.gov/indian/contactinfo/regcontacts.htm>.

Headquarters Office:

Luke Jones American Indian Environmental Office (2690 M) U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW, Washington, District of Columbia 20460 Email: jones.luke@epa.gov Phone: (202) 564-4013

Website Address:

<http://www.epa.gov/indian/grantsandfunding/index.htm>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: Information for FY 15 is not available yet. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Proposals are approved by the individual EPA Regional offices according to applicants ability to achieve the objectives outlined in Public Law 102-497; 40 CFR Part 35 (B): Environmental Program Grants for Tribes; the May 15, 2013 Final Guidance on the Award and Management of General Assistance Agreements for Tribes and Intertribal Consortia; the availability of funding; and a review of the applicant s proposed work plan and past performance.

66.931 INTERNATIONAL FINANCIAL ASSISTANCE PROJECTS SPONSORED BY THE OFFICE OF INTERNATIONAL AND TRIBAL AFFAIRS

FEDERAL AGENCY:

Office of International and Tribal Affairs, Environmental Protection Agency

AUTHORIZATION:

Clean Water Act, Section 104, 33 U.S.C 1254; Marine Protection, Research and Sanctuaries Act of 1972, Section 203, 33 Stat. 1443; National Environmental Policy Act, Section 102(2)(F), 42 Stat. 4332; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; Safe Drinking Water Act, Section 1442(a)&(c), 42 Stat. 300j-1(a)(1); Solid Waste Disposal Act, Section 8001, 42 Stat. 6981; Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, Public Law 92-516, 7 U.S.C 136r; Clean Air Act, Section 103, 42 U.S.C 7403.

OBJECTIVES:

To protect human health and the environment while advancing U.S. national interests through international environmental collaboration. This mission is supported by these strategic objectives: 1) Reducing Exposure to Toxic Chemicals; 2) Improving Air Quality; 3) Cleaning Up Electronic Waste (E-Waste); 4) Combating Climate Change by Limiting Pollutants; 5) Expanding access to Clean Water; and 6) Building Strong Environmental Institutions and Legal Structures. Funding Priority - Fiscal Year 2014: EPA Safeguards air, water, and land for all Americans. International capacity-building plays a key role in protecting human health, communities and the environment by providing technical cooperation to help countries reduce air pollution, better manage air quality global climates, reduce the global use and emission of mercury, manage drinking & surface water quality, and provide technical assistance to restore the land and mitigate sources of land pollution. OITA will work to transfer appropriate air management tools and techniques to key countries and regions as we collaborate with partners to improve air quality. In addition, we will

continue efforts to reduce global sources of persistent bioaccumulative toxins. Long-range and transboundary atmospheric transport and deposition of such toxics as Mercury, Persistent Organic Pollutants (POPs) such as polychlorinated biphenyls (PCBs), pesticides, dioxins, and furans continue to threaten human health and ecosystems. OITA will continue to promote the development of activities for managing drinking and surface water quality and provide technical cooperation, expertise, and assistance to help communities and countries preserve and restore the land and to mitigate sources of land pollution. OITA plays a key role in ensuring trade-related activities sustain environmental protection. Initiatives relating to environmental trade and investment are carried out bilaterally, multilaterally or in connection with multilateral institutions such as the World Trade Organization (WTO), World Bank, European Union (EU), or Asia-Pacific Economic Cooperation Forum (APEC). Also, OITA will support protection of human health and the ecosystem for North America through the United States' participation in the North American Agreement on Environmental Cooperation and through leadership in the Commission on Environmental Cooperation (CEC), the Organization for Economic Cooperation and Development (OECD), and other international entities. EPA will provide targeted capacity building support under the environmental cooperation agreements developed parallel to U.S. free trade agreements. The U.S.-Mexico Border (to sustain and restore community health and preserve the ecological systems that support them) program is implemented in partnership with the ten Border States and the government of Mexico with its corresponding states and tribes. It addresses the Agency's major themes of clean air, clean water, and clean land. The key areas of focus for the Border 2020 Program include improving water quality in the region; improving availability of low sulfur diesel fuel on the border; the stabilization of abandoned hazardous waste sites; removal of used tire piles along the U.S.-Mexico Border; defining baseline and alternative scenarios for air emissions reductions along the border region; and binational emergency preparedness drills and exercises at border sister cities.

Funding Priority - Fiscal Year 2014: EPA Safeguards air, water, and land for all Americans. International capacity-building plays a key role in protecting human health, communities and the environment by providing technical cooperation to help countries reduce air pollution, better manage air quality global climates, reduce the global use and emission of mercury, manage drinking & surface water quality, and provide technical assistance to restore the land and mitigate sources of land pollution. OITA will work to transfer appropriate air management tools and techniques to key countries and regions as we collaborate with partners to improve air quality. In addition, we will continue efforts to reduce global sources of persistent bioaccumulative toxins. Long-range and transboundary atmospheric transport and deposition of such toxics as Mercury, Persistent Organic Pollutants (POPs) such as polychlorinated biphenyls (PCBs), pesticides, dioxins, and furans continue to threaten human health and ecosystems. OITA will continue to promote the development of activities for managing drinking and surface water quality and provide technical cooperation, expertise, and assistance to help communities and countries preserve and restore the land and to mitigate sources of land pollution.

OITA plays a key role in ensuring trade-related activities sustain environmental protection. Initiatives relating to environmental trade and investment are carried out bilaterally, multilaterally or in connection with multilateral institutions such as the World Trade Organization (WTO), World Bank, European Union (EU), or Asia-Pacific Economic Cooperation Forum (APEC). Also, OITA will support protection of human health and the ecosystem for North America through the United States' participation in the North American Agreement on Environmental Cooperation and through leadership in the Commission on Environmental Cooperation (CEC), the Organization for Economic Cooperation and Development (OECD), and other international entities. EPA will provide targeted capacity building support under the environmental cooperation agreements developed parallel to U.S. free trade agreements.

The U.S.-Mexico Border (to sustain and restore community health and preserve the ecological systems that support them) program is implemented in partnership with the ten Border States and the government of Mexico with its corresponding states and tribes. It addresses the Agency's major themes of clean air, clean water, and clean land. The key areas of focus for the Border 2020 Program include improving water quality in the region; improving availability of low sulfur diesel fuel on the border; the stabilization of abandoned hazardous

waste sites; removal of used tire piles along the U.S.-Mexico Border; defining baseline and alternative scenarios for air emissions reductions along the border region; and bi-national emergency preparedness drills and exercises at border sister cities.

Funding Priority - Fiscal Year 2015: In FY 2015, OITA will continue to engage both bilaterally and through multilateral institutions with the objective of improving international cooperation to address the transboundary movement of pollution. OITA will address air pollution and air quality with international partners that contribute significant pollution to the environment and who are committed to improving their environmental performance. OITA will continue its work in the Partnership for Clean Fuels and Vehicles (PCFV), a global partnership that has worked to reduce air pollution from the global fleet of on-road vehicles. OITA will also continue its efforts to reduce transboundary pollution from ships.

The EPA expects to continue a focus on ratification and full implementation of the Minamata Convention by less developed countries, and on continued technical and policy support for global and regional efforts to address international sources of mercury use and emissions. OITA will continue to strengthen partnerships to address environmental problems and build capacity in areas such as green growth technologies and environmental laws and legal institutions. The EPA will lead United States Government efforts to advance the new Green Growth Strategy in the OECD and through U.S. interagency processes, promoting green jobs and sustainable development worldwide.

In FY 2015, the OITA will continue to strengthen our activities in the Arctic. Working with International Partners, Alaska, Tribes, federal agencies, and the private sector, the EPA is building international support for U.S. environmental policy objectives through the Arctic Council on a range of topics including mercury and short-lived climate forcers such as black carbon, tropospheric ozone, and methane. Beyond the Arctic region, OITA will continue to work with the State Department, UNEP, and other international partners as part of the international Climate and Clean Air Coalition (CCAC). The goal of these efforts is to realize immediate climate, health, and other benefits of reducing short-lived climate pollutants.

Collaboration with global partners is needed to build upon awareness of water pollution issues and to promote watershed and marine environmental protection. For FY 2015, OITA will continue to promote clean water and drinking water programs in Africa, Asia, and Latin America, focusing on improving the quality of water sources and managing other environmental risks.

In FY 2015, OITA will strengthen implementation of global, regional, and country programs to address electronic waste (e-waste) and promote sound reuse and recycling of discarded used electronics. By partnering with international organizations such as the UN University Solving the E-waste Problem Initiative, better information on the e-waste problem, demonstrations of sustainable recycling programs and stronger collaboration with countries, will help reduce risks from exposure to toxic substances contained in e-waste such as lead, mercury, cadmium, and hexavalent chromium.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Discretionary funds are available for the awards under this program. Grants and cooperative agreements are available to support recipients' allowable direct cost expenditures incident to the approved project plus allocable portions of allowable indirect costs of the institution, in accordance with established EPA policy, 2 CFR parts 200 and 1500. Funding awarded for international research under these projects does not include research within the purview of EPA's

Office of Research and Development. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions, which submit applications proposing projects with significant technical merit and relevance to EPA's Office of International Affairs' mission. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

States and local governments, territories and possessions, foreign governments, international organizations, Indian Tribes, and possessions of the U.S., including the District of Columbia, public and private universities and colleges, hospitals, laboratories, other public or private nonprofit institutions.

Credentials/Documentation:

Office of International and Tribal Affairs (OITA) may require applicants to submit documentation of non-profit status. OITA may request applicants to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. OITA may also ask applicants or principal investigators to provide curriculum vitae and relevant publications. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by the Federal agency and required by 2 CFR 200, "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards" must be used for this program. Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. EPA requires final applications to be made on Standard Form 424. Under EPA Order No. 5700.5A1, Policy for Competition in Assistance Agreements (9/12/02), Assistance awards to Foreign Governments and to United Nations agencies and

similar International Organizations, such as the Organization of American States and Organization for Economic Cooperation and Development (OECD), may be exempted from competition at the discretion of OITA. For competitive awards, Requests for Initial Proposals or Requests for Applications will specify application procedures.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. For non-competitive awards, OITA will conduct an administrative evaluation to determine the adequacy of the application in relation to grant regulations and to technical and program evaluation to determine the merit and relevance of the project. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. A standard grant application should be prepared and submitted as a new grant, which will be reviewed in the same manner as the original application and will compete for available funds. Generally, EPA incrementally funds grants and cooperative agreements. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to OITA's priorities, and availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

EPA normally funds grants and cooperative agreements on a 12-month basis. However, EPA can negotiate the project period with each applicant based on project requirements. EPA limits project periods to 5 years. Payments will be on an advance letter of credit or reimbursement basis; recipient must request the initial advance payment on SF 270, Request for Advance or Reimbursement. See the following for information on how assistance is awarded/released: Assistance is awarded by project.

Reports:

No program reports are required. No cash reports are required. Reporting requirements are identified at 2 CFR Parts 200 and 1500. EPA may include additional information regarding the content and frequency of reporting requirements in the terms and conditions of the agreements. Progress reports are required under this program. Expenditure Reports are required under this program. Performance Monitoring is required under this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

The record retention requirements of 2 CFR Parts 200 and 1500 are applicable depending upon the identity of the recipient. Financial records, including all documents to support entries on accounting records and to substantiate changes to each grant must be kept available to personnel authorized to examine EPA grant accounts. All records must be maintained until expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as a result of audit, related records must be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304 - EPM.

Obligations:

(Project Grants) FY 14 \$1,686,000; FY 15 est \$2,500,000; and FY 16 est \$2,500,000 - (Grants and Cooperative Agreements) FY 14 \$1.686 million, FY 15 est. \$2.5 million, and FY 16 est. \$2.5 million.

Range and Average of Financial Assistance:

Range: \$15,000 - \$300,000; Average: FY 2014 \$200,000, FY 2015 \$200,000 and FY 2016 est. \$200,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: OITA funded an international assistance agreement for the protection of human health and the environment in support of Goal 4: Ensuring the Safety of Chemical and Preventing Pollution. The FY 2014 assistance agreement focused on reducing exposure to toxic chemicals, specifically, to reduce Mercury use in artisanal and small scale gold mining (ASGM). This project will create recommendations for improvements to reduce Mercury for countries with significant ASGM activities. Fiscal Year 2015: The FY 2015 data is not available yet. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

These grants and cooperative agreements are subject to EPA's General Grant Regulations 2 CFR Parts 200 and 1500. Costs will be determined in accordance with 2 CFR 200 and Subpart E.

Regional or Local Office:

See Regional Agency Offices.

Headquarters Office:

Ryan Humrighouse Office of International Affairs, USEPA, 1200 Pennsylvania Ave., N.W., Washington, District of Columbia 20460 Email: humrighouse.ryan@epa.gov Phone: (202) 566-1680

Website Address:

<http://www.epa.gov/oia/>

RELATED PROGRAMS:

66.034 Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act; 66.469 Great Lakes Program; 66.609 Protection of Children and Older Adults (Elderly) from Environmental Health Risks; 66.808 Solid Waste Management Assistance Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: An example of an FY 2014 OITA funded project was to assist with developing guidance documents for preparing National Action Plans (NAPs) that are compliant with the requirements of the Minamata Convention in order to reduce Mercury use in artisanal and small scale gold mining (ASGM). This project will create recommendations for improvements to reduce Mercury for countries with significant ASGM activities. Fiscal Year 2015: The information for FY 2015 is not yet available. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.950 NATIONAL ENVIRONMENTAL EDUCATION TRAINING**PROGRAM**

Teacher Training Program

FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

National Environmental Education Act, Section 5, Public Law 101-619.

OBJECTIVES:

To train educational professionals in the development and delivery of environmental education programs. As required by Public Law 101-619, funds are provided to universities, non-profit organizations, or a consortia of such institutions to deliver environmental education training and support for education professionals.

Through a series of work-shops, on-line courses, professional learning communities and social networking opportunities, EE Capacity is bringing established and urban environmental educators together to exchange ideas and resources, and form expanded social networks. As innovative environmental education practices emerge through this exchange among diverse professionals, EE Capacity will share and test them. In this way, EE Capacity participants will help to define the face of environmental education in an increasingly urban and diverse society.

Funding Priority - Fiscal Year 2014: Funding priorities for fiscal years 2014 and 2015 are for recipient to perform tasks as part of their original proposal and subsequent approval of yearly work plans. Recipient has entitled this project "Expanding Capacity in EE" To that end they are doing things such as, workshops, online courses, EE accreditation, building state capacity etc.

Funding Priority - Fiscal Year 2015: Funding priorities for fiscal years 2014 and 2015 are for recipient to perform tasks as part of their original proposal and subsequent approval of yearly work plans. Recipient has entitled this project "Expanding Capacity in EE" To that end they are doing things such as, workshops, online courses, EE accreditation, building state capacity etc.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funds shall be used to establish an education and training program which shall include, at a minimum: (1) classroom training in environmental education and studies including environmental sciences and theory, educational methods and practices, environmental career or occupational education, and topical environmental issues and problems; (2) demonstrations of the design and conduct of environmental field studies and assessments; (3) development of environmental education programs and curricula, including programs and curricula to meet the needs of diverse ethnic and cultural groups; (4) sponsorship and management of international exchanges of teachers and other educational professionals between the United States, Canada, and Mexico involved in environmental programs and issues; (5) maintenance or support of a library of environmental education materials, information, literature, and technologies, with electronic as well as hard copy accessibility; (6) evaluation and dissemination of environmental education materials, training methods, and related programs; (7) sponsorship of conferences, seminars, and related forums for the advancement and development of environmental education and training curricula and materials, including international conferences, seminars, and forums; (8) supporting effective partnerships, networks, and the use of distant learning technologies; and (9) such other activities as the Administrator determines to be consistent with the policies of the Act. No funds made available for this program shall be used for the acquisition of real property (including buildings) or the construction or substantial modification of any building. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when

on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is available to universities, non-profit organizations, or a consortia of such institutions to deliver environmental education training and support for education professionals. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Education (0-8), education (9-12), education (13+), nonprofit institutions.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants may be requested to demonstrate they have appropriate background, academic training, experience in the field, and necessary equipment to carry out projects. The Office of Environmental Education may ask applicants or principal investigators to provide curriculum vitae and relevant publications. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

A solicitation notice is issued for this program once every five years. The notice identifies the application process. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The solicitation notice which described the application procedure for the training program that will operate from 10/1/10 through 9/30/15, subject to the availability of funds, was posted on <http://www.grants.gov> in late Spring 2010. The solicitation notice previous to that one was issued March 18, 2005. The solicitation process for this program is conducted every five years. Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

This program is subject to the provisions of 2 CFR 200 and 1500. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

It can take up to a year from time of application submission to award of an assistance agreement. The last award was made in early summer 2011 (for the solicitation published in Spring 2010). The next date that a solicitation notice for this program is anticipated to be published is in the Spring of 2015.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

Generally, EPA incrementally funds grants and cooperative agreements for surveys, studies, and investigations. Approval of subsequent funding increments is dependent on satisfactory project progress, continued relevance of the project to the Office of Environmental Education's program priorities, and the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: In accordance with the National Environmental Education Act (Public Law 101-619), federal funds for any project under this section shall not exceed 75 percent of the total cost of such project. The project has a 25 percent non-federal match required by statutory formula. For the purposes of this section, the non-Federal share of project costs may be provided by cash or by in-kind contributions and other non-cash support.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The training program consists of an initial one year budget and project period subject to annual supplemental funding agreements for up to five years. See the following for information on how assistance is awarded/released: This program operates on a five year basis. Funds are initially awarded for a one year project period. Subsequent supplemental funding awards on an annual basis for the next four years.

Reports:

No content available. No cash reports are required. The grantee must submit bi-annual and final progress reports. Expenditure reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-federal entities that expend \$750,000 or more in a year in Federal awards shall have a single or a program specific audit conducted for that year. Non-federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each assistance agreement, must be kept available to personnel authorized to examine EPA assistance accounts. All records must be maintained until the expiration of 3 years from the date of submission of the final expenditure report. If questions still remain, such as those raised as the result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Cooperative Agreements) FY 14 \$1,828,250; FY 15 est \$2,175,500; and FY 16 Estimate Not Available - FY 12 \$2,259,500 est. for FY 2013 \$2,424,750. For FY 2014 \$1,828,250.00, \$2,175,500.00 for FY 2015. FY 2016 information not yet available.

Range and Average of Financial Assistance:

This is a 5-year program, one recipient is selected every 5 years. The project is funded on an annual basis and the amount of the annual funding depends on Congressional appropriation. The range and average financial assistance for the full 5-year project period is approximately \$10,947,500.00.

RELATED PROGRAMS:

66.951 Environmental Education Grants

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Climate Change Fellowship, Guidelines Trainers' Bureau, Electronic dissemination of Guidelines for Excellence, Five small grants to Affiliate Network members and other groups to conduct guidelines training with a focus on Guidelines in an urban context. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Priorities for selecting proposals are listed in Section 5 of Public Law 101-619, National Environmental Education Act. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.951 ENVIRONMENTAL EDUCATION GRANTS**FEDERAL AGENCY:**

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

National Environmental Education Act, Section 6, Public Law 101-619.

OBJECTIVES:

The Environmental Education Grants Program supports projects to design, demonstrate, and/or disseminate practices, methods, or techniques related to environmental education and teacher training. As required by Public Law 101-619, this grant program provides financial support for environmental education projects implemented by schools, universities, state and local government environmental and educational agencies, tribal education agencies, and nonprofit 501 (c)(3) organizations that increase public awareness and knowledge about environmental issues and provide the skills that participants in its funded projects need to make informed environmental decisions and take responsible actions toward the environment.

Funding Priority - Fiscal Year 2014: Funding priorities for fiscal year 2014 are to award 25% of the appropriated grant funding to small grants of \$5000 or less through a sub-grant program.

Funding Priority - Fiscal Year 2015: Funding priorities for fiscal years 2015 and 2016 are to award grants for both model, replicable projects and locally

focused projects, and to award 25% of the appropriated grant funding to small grants of \$5000 or less through a sub-grant program.

Funding Priority - Fiscal Year 2016: Funding priorities for fiscal years 2015 and 2016 are to award grants for both model, replicable projects and locally focused projects, and to award 25% of the appropriated grant funding to small grants of \$5000 or less through a sub-grant program.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

Grant funds shall be used to establish an education program which shall include, at a minimum: (1) design, demonstration, or dissemination of environmental curricula and materials on specific topics for which there are no existing materials; (2) design and demonstration of field methods, practices, and techniques, including review of environmental and ecological conditions and analysis of environmental and pollution problems; (3) projects to understand and evaluate a specific environmental issue or a specific environmental problem; (4) provision of training or related education for teachers, faculty, or related personnel in a specific geographic area or region; and (5) design and demonstration of projects to foster international cooperation in addressing environmental issues and problems involving the United States and Canada or Mexico. Priority will be given to those projects which will develop: (a) a new or significantly improved environmental education practice, method, or technique; (b) an environmental education method which may have wide application; (c) an environmental education method which addresses skills or scientific fields identified as a priority in the report developed by the National Environmental Education Advisory Council; and (d) an environmental education project which addresses an environmental issue which, in the judgment of the Administrator, is of a high priority. More specific priorities are listed above under Objectives and are specified in the annual Solicitation Notice. Restrictions: No funds made available for this program shall be used for technical training of environmental management professionals; for advocacy or lobbying; for acquisition of real property (including buildings); or the construction or substantial modification of any building. Assistance agreement awards under this program may involve or relate to geospatial information. Further information regarding geospatial information may be obtained by viewing the following website: <http://geodata.epa.gov>.

Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Assistance under this program is generally available to local education agencies, colleges and universities, state education and environmental agencies, nonprofit organizations described in Section 501(c)(3) of the Internal Revenue Service, and noncommercial educational broadcasting entities as defined and licensed by the Federal Communications Commission. Applicant organizations must be located in the United States or territories and the majority of the educational activities must take place in the United States, Canada, or Mexico. "Tribal education agencies" that are eligible to apply include a school or community college which is controlled by an Indian tribe, band, or nation, which is recognized as eligible for special programs and services provided by the United States to Indians because of their status as Indians and which is not administered by the Bureau of Indian Affairs. Tribal organizations do not qualify unless they meet that criteria or the non-profit criteria listed above. The terms for eligibility are defined in Section 3 of the Act and 40 CFR 47.105.

For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy.

Beneficiary Eligibility:

Education (0-8), education (9-12), education (13+), nonprofit institutions.

Credentials/Documentation:

Documentation of nonprofit status may be required. Applicants must demonstrate that they have appropriate background, academic training, and experience in the field, and may be asked to demonstrate the necessary equipment or facilities to carry out the project. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The annual solicitation notice for proposals and grant tutorials are available on the Agency's website listed below. This program is excluded from coverage under E.O. 12372. Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications are accepted for one or two solicitations on an annual grant cycle and are due at the deadline(s) stated in each solicitation. Applicants submit an application package in the format required in the annual Solicitation Notice(s). Applicants, except in limited circumstances approved by the Agency, must submit all initial applications for funding through <http://www.grants.gov>. After being submitted to [grants.gov](http://www.grants.gov), applications will be reassigned by the EE Grants Manager to the appropriate EPA Regional Offices, depending on where the project activities will take place.

Award Procedure:

Applications for Environmental Education assistance agreements will be evaluated by the appropriate EPA Headquarters or Regional Offices based on where the proposed project will take place and the nature of the awards as described in the solicitation notice. For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements. The Agency will then advise the applicant if funding is being considered. A final work plan will then be negotiated with the applicant. All awards are competed through the annual announcement(s) and no proposals are awarded non-competitively.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 180 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 2 CFR 1500 Subpart E, as applicable.

Renewals:

None. Grants proposals are solicited and evaluated annually on a competitive basis. Therefore, applicants should not plan for renewals.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: In accordance with the National Environmental Education Act (Public Law 101-619), federal funds for any project under this section shall not exceed 75 percent of the total cost of such project. The project has a 25 percent non-federal match required by statutory formula. For the purposes of this section, the non-federal share of project costs may be provided by cash or by in-kind contributions and other non-cash support.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The majority of the grants awarded in this program have been completed in a one-year project period. However, up to two year project periods are possible depending upon the nature and complexity of the project. Activities must be completed within the time frame of the budget period. Two or more concurrent grants to the same organization for the same project are not allowed in this program. Grants may be incrementally or fully funded. This determination is made by the EPA. See the following for information on how assistance is awarded/released: As requested by the grantee periodically.

Reports:

No program reports are required. No cash reports are required. Recipients of grants are expected to submit progress reports on at least a semi-annual basis. Final reports and two copies of all grants products are due within 90 days of the close of the budget period. Expenditure reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Financial records, including all documents to support entries on accounting records and to substantiate changes to each assistance agreement, must be kept available to personnel authorized to examine EPA assistance accounts. All records must be maintained until the expiration of three years from the date of submission of the final expenditure report. If questions still remain, such as those raised as the result of an audit, related records should be retained until the matter is completely resolved.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 14 \$3,306,600; FY 15 est \$3,306,600; and FY 16 est \$3,000,000 - FY 2014: \$3,306,600; FY 2015: anticipated \$3,306,600; FY 2016: estimated \$3,000,000.

Range and Average of Financial Assistance:

The range stated in the FY 2014/2015 EE Model Grants solicitation notice was no more than \$192,200 per grant and the range stated in the FY 2014/2015 EE Local Grants solicitation was no more than \$91,000 per grant. The average amount awarded per EE Model grant was approximately \$192,000 and the average amount per EE Local grant was approximately \$88,000.

TAFS Codes:

68-0108.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: 83 applications were received for the EE Model Grants program and 309 applications were received for the EE Local Grants program. It is anticipated that 3 awards will be made with FY14 funds for the EE Model Grants and 35 awards will be made for EE Local Grants with FY14 funds. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR Parts 200 and 1500. 40 CFR Parts 7, 12, 32 Subpart F, 33, 47; Public Law 101-619, and the Office of Environmental Education annual Grant Program Solicitation Notice(s).

Regional or Local Office:

See Regional Agency Offices. Contact the appropriate EPA Regional Office listed in Appendix IV of the Catalog and on the website

www2.epa.gov/education/grants.

Headquarters Office:

Karen Scott, Environmental Education Grant Program 1704A), Environmental Protection Agency, 1200 Pennsylvania Ave., NW, Washington, District of Columbia 20460 Email: scott.karen@epa.gov Phone: (202) 564-2194.

RELATED PROGRAMS:

66.950 Environmental Education and Training Program

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No awards have been finalized as yet. Fiscal Year 2015: No award selections have been made yet. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Basis and priorities for selecting proposals are listed in Section 6 of Public Law 101-619, National Environmental Education Act, and in the annual Solicitation Notice which can be accessed at www2.epa.gov/enviroed on the internet. The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement.

66.952 NATIONAL NETWORK FOR ENVIRONMENTAL MANAGEMENT STUDIES FELLOWSHIP PROGRAM

(NNEMS Fellowship Program)

FEDERAL AGENCY:

Office of the Administrator, Environmental Protection Agency

AUTHORIZATION:

Safe Drinking Water Act, Section 1442, 42 U.S.C 300j-1; Clean Water Act, Section 104(b)(5)&(g)3B, 33 U.S.C 1254(b)(5)&g3B; Toxic Substances Control Act, Section 10, 15 U.S.C 2609; National Environmental Education Act, Section 7, Public Law 101-619; Comprehensive Environmental Response, Compensation, and Liability Act, Section 311, 42 U.S.C 9660; Solid Waste Disposal Act, Section 8001, 42 U.S.C 6981; Clean Air Act, Section 103(b)(5), 42 U.S.C 7403(b)(5); Federal Insecticide, Fungicide, and Rodenticide Act, Section 20, 7 U.S.C 136r.

OBJECTIVES:

To provide students an opportunity to participate in a research project that is directly related to their field of study. To foster a growing interest among higher education students in environmental careers. To help defray the costs associated with the pursuit of academic programs related to the field of environmental protection, such as pollution control, science, engineering, technology, social science, and specialty areas. Funding Priority - Fiscal Year 2014: The NNEMS Program has been terminated by senior management due to budget constraints.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The funds are to provide resources to allow for training and research fellowships relating to environmental issues. No matching funds are required. Grant recipients and sub-recipients are encouraged to adopt and enforce policies that ban text messaging while driving company-owned or -rented vehicles or government-owned vehicles, or while driving privately-owned vehicles when on official government business or when performing any work for or on behalf of the government. Grant recipients and sub-recipients are encouraged to conduct initiatives of the type described in section 3(a) of the Federal Leadership on Reducing Text Messaging While Driving Executive Order that was signed on October 1, 2009.

Applicant Eligibility:

Applicant Eligibility: A NNEMS Fellowship is available to any associate, undergraduate, graduate, or advanced student who meets the general criteria listed below, as well as those identified for associate, undergraduate, graduate and advanced students. At a minimum, all applicants must be: 1) A citizen of the United States, its territories or possessions, or lawfully admitted to the United States for permanent residency. 2) Enrolled for academic credit at a college or university, or distance-learning institution accredited by a regional or

national accrediting organization recognized by the United States Department of Education or the Council for Higher Education Accreditation. Associate and Undergraduate Students: Students attending 2- or 4-year institutions or distance learning institutions must meet the following requirements: 1) 3.0 cumulative grade point average (GPA) based on a scale of 4.0 at the time that the application is due. 2) Completion of at least four courses related to the field of environmental studies. Graduate and Advanced Students: Students enrolled in graduate or doctoral programs must meet the following requirements: 1) Currently enrolled in a graduate or Ph.D. program or can provide proof of acceptance and enrollment to a graduate or Ph.D. program at the time of fellowship award. 2) Completion of at least one semester of graduate or Ph.D. work, or at least four undergraduate courses related to the field of environmental studies. For certain competitive funding opportunities under this CFDA description, the Agency may limit eligibility to compete to a number or subset of eligible applicants consistent with the Agency's Assistance Agreement Competition Policy. Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR 3629,3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Beneficiary Eligibility:

Any student from a 2 or 4 year college or university that meets the criteria of the program.

Credentials/Documentation:

Students are required to submit an official transcript from each 2- or 4-year college or university, or distance learning institution attended. A student must submit verification of acceptance and/or enrollment in a graduate or Ph.D. program if the applicant is a graduating senior. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Regarding pre-application/pre-proposal assistance with respect to competitive funding opportunities under this program description, EPA will generally specify the nature of the pre-application/pre-proposal assistance, if any, that will be available to applicants in the competitive announcement. For additional information, contact the individual(s) listed as "Information Contacts" or see Appendix IV of the Catalog. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Students who are interested in applying for a NNEMS fellowship must submit three complete application packages (one original and two copies) that include: 1) A completed NNEMS application, 2) SF 424, 3) A resume, 4) A completed NNEMS reference form, 5) A completed NNEMS Disclosure and Waiver Statement, 6) Verification of acceptance and/or enrollment in a graduate or Ph.D. program if the applicant is a graduating senior, and 7) An official transcript for each 2- or 4-year college or university, or distance learning institution attended. Official transcripts should be opened and photocopied as two copies of the transcript are required for each complete application. NNEMS application forms can be obtained on our web site at: www.epa.gov/enviroed. Applicants must submit their completed application package to: NNEMS Fellowship Program, Tetra Tech EM Inc., 1881 Campus Commons Drive, Suite 200, Reston, VA 20191. Students selected for a NNEMS Fellowship must fill out a Fellowship Application (EPA Form 5770-2) and a Fellowship Facilities and Commitment Statement (EPA Form 5770-3). Applicants may be able to use <http://www.grants.gov> to electronically apply for certain grant opportunities under this CFDA.

Award Procedure:

For competitive awards, EPA will review and evaluate applications, proposals, and/or submissions in accordance with the terms, conditions, and criteria stated in the competitive announcement. Competitions will be conducted in accordance with EPA policies/regulations for competing assistance agreements.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 days.

Appeals:

Assistance agreement competition-related disputes will be resolved in accordance with the dispute resolution procedures published in 70 FR (Federal Register) 3629, 3630 (January 26, 2005). Copies of these procedures may also be requested by contacting the individual(s) listed as "Information Contacts." Disputes relating to matters other than the competitive selection of recipients will be resolved under 40 CFR 30.63 or 40 CFR 31.70, as applicable.

Renewals:

Grants are solicited through competitions and are not renewed.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

NNEMS Fellowships are generally awarded for three months full-time and up to three years part-time. Students receive payment in the form of a stipend typically paid in equal monthly payments throughout the duration of the fellowship period unless otherwise specified in a disbursement plan submitted with the funding package. See the following for information on how assistance is awarded/released: Stipends are awarded according to Project Officer's disbursement plan.

Reports:

Reporting requirements will be stated in the Terms and Conditions of the official grant award documents. Recipients must submit original final reports to the EPA Project Officer. The final report should be submitted on the last day of the fellowship. Unless directed otherwise by the EPA Project Officer, the final report should summarize the specific project undertaken by the student and the project results. Program reports are required. No cash reports are required. Progress reports are required per the NNEMS post award monitoring plan provided by the project officer. No expenditure reports are required. Performance monitoring is required per the NNEMS post award monitoring plan posted by each project officer.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Grants and cooperative agreements are subject to inspections and audits by the Comptroller General of the United States, the EPA Office of Inspector General, other EPA staff, or any authorized representative of the Federal government. Reviews by the EPA Project Officer and the Grants Specialist may occur each year.

Records:

Pursuant to 40 CFR Part 46- Fellowships, Subpart E-46.230, Closeout Procedures: NNEMS Fellows must retain all records related to the fellowship for 3 years following the completion date identified on the Completion of Studies Notice. The EPA, the Inspector General, and the Comptroller General of the United States, and any duly authorized representatives have the right of timely and unrestricted access to a student's documents, papers, or other records related to a fellowship in order to make audits, examinations, excerpts, transcripts, and copies of such documents. The rights of access in this paragraph are not limited to the required retention period but shall last as long as those records are retained.

Account Identification:

68-0108-0-1-304.

Obligations:

(Project Grants) FY 13 \$250,000; FY 14 est \$0; and FY 15 est \$0 - FY 2013 estimate \$250,000; FY 2014 estimate \$0; FY 2015 estimate \$0.

Range and Average of Financial Assistance:

Recipients of NNEMS fellowships receive a grant award in the form of a

stipend, based on the student's level of education and the duration and location of the project. Grant awards range from approximately \$7,400.00 to \$12,600.00 per award for a 3-month, full-time period. The average award is for approximately \$12,000.00. For a part-time period of up to 3 years, the average award is for approximately \$25,000 to \$30,000 per year.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2013: No Current Data Available Fiscal Year 2014: The NNEMS Program has been terminated by senior management due to budget constraints. There will be on projects available in FY 2014. Fiscal Year 2015: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The evaluation and selection criteria for competitive awards under this CFDA description will be described in the competitive announcement. Applicants must meet all of the basic eligibility requirements. Eligible applications then will be reviewed by panels comprised of EPA staff members. Applications will be evaluated based on the following criteria: 1) relevancy of classroom experience of the student as it relates to the EPA research project, 2) the student's understanding of the proposed EPA research project subject matter, 3) relevancy of work experience of the student (whether volunteer activities, internships, or paid jobs) as it relates to the EPA research project, 4) relevancy of the student's academic studies as it relates to the EPA research project, 5) leadership skills, written communication skills, and demonstrated success at working well in an office, laboratory, or field environment, as appropriate to the project, and 6) potential for success, as reflected by academic records, letters of reference, and other relevant information. Applications that are scored highly by the panels of reviewers are sent to NNEMS staff and EPA project officers for selection consideration.

NUCLEAR REGULATORY COMMISSION

77.006 U. S. NUCLEAR REGULATORY COMMISSION NUCLEAR EDUCATION GRANT PROGRAM

Nuclear Education Grant Program - Curricula Development

FEDERAL AGENCY:

Nuclear Regulatory Commission

AUTHORIZATION:

The Energy Policy Act of 2005, Section 651(c)(1), Public Law 109-58, 119 Stat. 801, 42 U.S.C 2051(b).

OBJECTIVES:

The Curricula Development program provides assistance to accredited U.S. colleges and universities in support of courses, studies, training, curricula, and disciplines relevant to nuclear safety, nuclear security, nuclear environmental protection, or any other field that the Commission determines to be critical to its regulatory mission. The primary purpose is to support and develop the

educational infrastructure necessary to allow the Nation to advance its nuclear energy initiatives.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

This program provides funding to accredited post-secondary schools and institutions of higher education. Financial support in whole or in part may be provided for such purposes as salaries, materials and supplies, equipment, consultants, limited travel, and other justified program related expenses required for conducting the curricula development related activities. Restrictions on use of funds are specified in the funding opportunity announcement or the award document. Funding is provided for the purpose of creating, revising, or enhancing nuclear-related curricula that does not necessarily duplicate work already in process, is not already known to NRC, or has previously unrecognized merit.

Applicant Eligibility:

Applicants must be a U.S. public or private institution of higher education, accredited by the U.S. Department of Education.

Beneficiary Eligibility:

Accredited U.S. public or private institutions of higher education will benefit.

Credentials/Documentation:

Administration and cost will be determined in accordance with guidance in 2 CFR 200 for institutions of higher education. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Apply using the electronic application package required in the Funding Opportunity Announcement this enables NRC to receive the application from Grants.gov.

Award Procedure:

Applications are processed by the assigned staff and approved by the NRC, based on a set of criteria established by the NRC, as stated in the Funding Opportunity Announcement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Please see the active Funding Opportunity Announcement for published response deadlines.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. This program has no matching requirements. Matching is not required but encouraged. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The period of performance for project grants shall be a minimum of 2 years and not exceed 3 years. Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. The recipient shall submit "Performance Progress Reports" (reported on SF-PPR, SF-PPR-B, and SF-PPR-E) and a final report as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200. The recipient shall submit

"Federal Financial Reports," (reported on SF-425) as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200. The recipient shall adhere to the performance monitoring requirements as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

The recipient shall adhere to the records management requirements as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200.

Account Identification:

31-0200-0-1-276.

Obligations:

(Project Grants) FY 14 \$1,800,000; FY 15 est \$0; and FY 16 Estimate Not Available

Range and Average of Financial Assistance:

Award amounts range from \$87,000.00 to \$200,000.00.

77.008 U.S. Nuclear Regulatory Commission Scholarship and Fellowship Program

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Selection criteria, including exclusions as stated in the funding opportunity announcement, for support is based on the soundness of the proposed approach including objectives, methodology, plan of operation, timetable, expected products and results, evaluation, and dissemination plans. The applicant's capability to perform the project is assessed to the degree that the project will strengthen its teaching capacity; the competency of the proposed investigator or group to successfully pursue the project; the adequacy of the available and proposed facilities and resources; the necessity of the budget components requested in relation to the proposed project; and the relevance and importance to announced program objectives.

77.007 U.S. NUCLEAR REGULATORY COMMISSION MINORITY SERVING INSTITUTIONS PROGRAM (MSIP)

NRC Minority Serving Institutions Program

FEDERAL AGENCY:

Nuclear Regulatory Commission

AUTHORIZATION:

Energy Policy Act of 2005, Section 651,c,4 and 622, Public Law 109-58, 119 Stat. 801, 42 U.S.C 2015(b) 2051(b); Executive Order 13256, 13270, and 13230.

OBJECTIVES:

The Minority Serving Institutions Program provides funding for minority serving programs and activities, projects, symposiums, and training for the exchange and transfer of knowledge and skills relevant to nuclear safety, security, environmental protection, or any other fields the Commission deems critical to its mission. To provide assistance for minority serving programs and activities to include, but not limited to, mentoring, leadership development, training, instruction, developmental learning, research and development, program evaluation, and technical assistance. To provide assistance to include, but not limited to, direct institutional subsidies, facilities and equipment acquisition, internships, fellowships, scholarships, and tuition and housing assistance.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The program provides funding to accredited post-secondary schools and institutions of higher education. Financial support in whole or in part may be provided for such purposes as salaries, stipends, materials and supplies, equipment, travel, publication costs, training costs, and services required for conducting research, training and related activities. Restrictions on use of funds depend on grant provisions, the nature of assistance provided, and the purpose(s) for which the programs and activities were funded to achieve.

Applicant Eligibility:

Minority Serving Institutions and organizations that provide services to Minority Serving Institutions and their students and faculty.

Beneficiary Eligibility:

Accredited U.S. public and private Minority Serving Institutions of higher education and their students and faculty will benefit.

Credentials/Documentation:

Administration and cost will be determined in accordance with guidance in 2 CFR 200 for institutions of higher education. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Apply using the electronic application package required in the Funding Opportunity Announcement this enables NRC to receive the application from Grants.gov.

Award Procedure:

Applications are processed by the assigned staff and approved by the NRC, based on a set of criteria established by the NRC, as stated in the Funding Opportunity Announcement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

in the funding opportunity announcement.

77.008 U.S. NUCLEAR REGULATORY COMMISSION SCHOLARSHIP AND FELLOWSHIP PROGRAM

NRC Scholarship/Fellowship and Faculty Development Program

FEDERAL AGENCY:

Nuclear Regulatory Commission

AUTHORIZATION:

The Energy Policy Act of 2005, Section 651 (c)(1), Public Law 109-58, 119 Stat. 801, 42 U.S.C 2051 (b).

OBJECTIVES:

This Scholarship and Fellowship program provides funding for undergraduate scholarships, graduate fellowships, and trade school and community college scholarships. In addition, faculty development grants are funded under this authority as explained below. The program allows students to pursue an education in science, engineering, or another field of study that the Commission determines is in a critical skill area related to its regulatory mission. The trade school and community college scholarship program supports certificates or Associate degrees in crafts/disciplines necessary for developing and maintaining a nuclear workforce.

This activity is intended to benefit the nuclear industry broadly. NRC requires scholarship and fellowship students to comply with a service obligation agreement for a period of 6 months for every year or partial year of support received. However, the NRC may establish criteria for the partial or total waiver or suspension of any obligation of service or payment incurred by a student. The employment may be with the NRC, other Federal agencies, State agencies, nuclear-related industry, or academia in the students sponsored fields of study. Recipients of scholarship and fellowships must commit to the service obligation agreement.

The program also supports faculty development in the nuclear-related fields of Nuclear Engineering, Health Physics, Radiochemistry and related disciplines as determined by the NRC. The program specifically targets probationary, tenure-track faculty in these academic areas during the first 6 years of their career.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

This program provides funding to accredited post-secondary schools and institutions of higher education to provide scholarships, fellowships, and stipends to develop a cadre of professionals, and a workforce capable of supporting the design, construction, operation, and regulation of nuclear facilities and the safe handling of nuclear materials. Faculty development grants provide support for developing applications for research, small amounts for initiating or continuing research projects in their areas of expertise, and expenses associated with an institutions faculty development plan.

Funds are managed by the awardee institution. Primary responsibility for general supervision of all grant activities rests with the grantee institution. Funds may not be used for purposes other than those specified in the award. Fellowships, scholarship and stipends are paid to the students and fellows directly through his/her institution. Scholarship and fellowship recipients are required to comply with a service obligation agreement for a period of 6 months for every year or partial year of support received.

Applicant Eligibility:

Applicants must be a U.S. public or private institutions of higher education, accredited by the U.S. Department of Education.

Beneficiary Eligibility:

Individual Recipients must be undergraduate and graduate students of accredited U.S. public or private institutions of higher education. Candidates for the Faculty Development program are targeted for probationary, tenure-track faculty in nuclear related fields during the first 6 years of their career. All recipients must be U.S. citizens or noncitizen national of the U.S. or have been lawfully admitted to the U.S. for permanent residence (i.e., in possession of a

currently valid Alien Registration Receipt Card I-551, or other legal verification of such status).

Credentials/Documentation:

Administration and cost will be determined in accordance with guidance in 2 CFR 200 for institutions of higher education. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Apply using the electronic application package required in the Funding Opportunity Announcement this enables NRC to receive the application from Grants.gov.

Award Procedure:

Applications are processed by the assigned staff and approved by the NRC, based on a set of criteria established by the NRC, as stated in the Funding Opportunity Announcement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Please see the active Funding Opportunity Announcement for published response deadlines.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. This program has no matching requirements. Matching is not required for this program but is encouraged. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The period of performance for project grants shall be between 2 and 4 years (depending on the program). Method of awarding/releasing assistance: lump sum.

Reports:

No program reports are required. No cash reports are required. The recipient shall submit "Performance Progress Reports" (reported on SF-PPR, SF-PPR-B, and SF-PPR-E) and a final report as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200. The recipient shall submit "Federal Financial Reports," (reported on SF-425) as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200. The recipient shall adhere to the performance monitoring requirements (depending on the program) as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

The recipient shall adhere to records management requirements as stipulated in the Terms and Conditions of the award document in compliance with 2 CFR 200.

Account Identification:

31-0200-0-1-276.

Obligations:

(Project Grants) FY 14 \$15,000,000; FY 15 est \$15,000,000; and FY 16 Estimate Not Available

Range and Average of Financial Assistance:

Award amounts range from \$150,000.00 to \$450,000.00 (depending on the program).

CRITERIA FOR SELECTING PROPOSALS:

Capacity and ability of the institution to effectively conduct the program.
Number and quality of students that will be served by the program. Justification for number of students served and amount of stipend and scholarship support.
Quality and feasibility of recruitment and marketing strategies. Quality of technical programs for scholarship or fellowship programs. Type of student support, i.e. mentoring or advisor assistance feasibility and completeness of an evaluation plan that will measure the effectiveness of the scholarship or fellowship program
Institutional support for the program and the extent to which the institution is committed to making the program an organizational focus. Plans for sustainability. Additional merit review considerations apply. See the selection criteria as stated in the funding opportunity announcement.

77.009 U.S. NUCLEAR REGULATORY COMMISSION OFFICE OF RESEARCH FINANCIAL ASSISTANCE PROGRAM

NRC Office of Research Grant and Cooperative Agreement Program

FEDERAL AGENCY:

Nuclear Regulatory Commission

AUTHORIZATION:

Energy Policy Act of 2005, Section 651(c), Public Law 109-58, 119 Stat. 801, 42 U.S.C 2051(a)(b).

OBJECTIVES:

The Office of Nuclear Regulatory Research (RES) furthers the regulatory mission of the NRC by providing technical advice, technical tools and information for identifying and resolving safety issues, making regulatory decisions, and promulgating regulations and guidance. RES conducts independent experiments and analyses, develops technical bases for supporting realistic safety decisions by the agency, and prepares the agency for the future by evaluating safety issues involving current and new designs and technologies. RES develops its program with consideration of Commission direction and input from the program offices and other stakeholders.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

This program provides funding to educational institutions, nonprofit organizations, State and local governments, and professional organizations. The award recipient bears primary responsibility for general supervision of all financial assistance activities. Funds may not be used for purposes other than those specified in the award.

Applicant Eligibility:

None.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Administration and cost will be determined in accordance with guidance in 2 CFR 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Apply using the electronic application package required in the Funding Opportunity Announcement this enables NRC to receive the application from Grants.gov.

Award Procedure:

Applications are processed by the assigned staff and approved by the NRC, based on a set of criteria established by the NRC, as stated in the Funding Opportunity Announcement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. Please see the active Funding Opportunity Announcement for published response deadlines.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. This program has no matching requirements. MOE requirements are not applicable to this program.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Selection for support by the Office of Research through financial assistance methods are made to basic, advanced, and developmental scientific programs where the purpose is to create new or further define existing paradigms within the nuclear industry.

Factors generally indicating support through financial assistance methods:

- the primary purpose of the proposal is to aid or support the development of knowledge or understanding of the subject or phenomena under study;
- the exact course of the work and its outcome are not defined precisely and specific points in time for achievement of significant results may not be specified;
- the nature of the proposed work is such that the recipient will bear prime responsibility for the conduct of the research and will exercise judgment and original thought toward attaining the scientific goals within broad parameters of the research areas proposed and the related resources provided;
- meaningful technical reports can be prepared only as new findings are made; and
- simplicity and economy in execution and administration are mutually desirable.

DEPARTMENT OF ENERGY

81.003 GRANTING OF PATENT LICENSES

(DOE Patents Available for Licensing)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, Sections 156 and 161(g), as amended, Public Law 83- 703, 68 Stat. 919, 42 U.S.C. 2186 and 2201; Department of Energy

Organization Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101 ; Public Law 96-517, 35 U.S.C. 207, 208, 209.

OBJECTIVES:

To encourage widespread utilization of inventions covered by DOE owned patents.

TYPES OF ASSISTANCE:

DISSEMINATION OF TECHNICAL INFORMATION

USES AND USE RESTRICTIONS:

Nonexclusive, revocable licenses are granted by Department of Energy (DOE) to responsible applicants with plans for development and/or marketing on approximately 1,500 DOE owned United State patents. Exclusive and partially exclusive licenses may also be granted. Similar licenses on approximately 200 DOE owned foreign patents may be accorded to United State citizens and corporations, and to others under terms and conditions which depend upon particular facts. Licenses for use or sale in the United States may normally be granted only to licensees that agree to substantial manufacture in the United States. Copies of U.S. patents may be obtained from the United States Patent and Trademark Office, Department of Commerce, Washington, DC 20231, for a modest fee.

Applicant Eligibility:

Individuals, firms, or corporations with satisfactory plans and intentions to commercialize the invention may apply.

Beneficiary Eligibility:

Individuals, firms, and corporations will benefit.

Credentials/Documentation:

Satisfactory plans for development and/or marketing of the invention. In the case of corporations, the State of incorporation. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. By letter to the Assistant General Counsel for Technology Transfer and Intellectual Property, DOE, Washington, DC 20585, identifying the patent by its number, together with information as to: (1) The nature and type of the applicant's business; (2) the purpose for which the license is desired together with documentation as to the applicant's plan for development and/or marketing of the invention to achieve that purpose; (3) the geographical areas in which the applicant will practice the invention; (4) the applicant's willingness to render periodic reports on the use of the licensed subject matter; (5) the applicant's status as a small business firm, minority business, or other; and (6) remittance of a \$25 processing fee for each license requested.

Award Procedure:

Patent licenses are issued by the Office of the Assistant General Counsel for Technology Transfer and Intellectual Property, DOE.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Normally three months for nonexclusive licenses; somewhat longer for exclusive licenses.

Appeals:

Applicants denied a license and revoked licensees have the right to appeal in accordance with 10 CFR 781 by filing notice of appeal within 30 days. Appeals board is designated upon filing of notice of appeal.

Renewals:

Licenses may be renewed upon reapplication, contingent on satisfactory performance.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

There are no funds obligated under this program. See the following for information on how assistance is awarded/released: There are no funds obligated under this program.

Reports:

No program reports are required. If license is royalty bearing, DOE has the right to inspect the books of account as necessary to determine accuracy of statement. Annual reports are required to be submitted as to the extent of utilization and royalties due, if applicable. No expenditure reports are required. No performance monitoring is required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. If license is royalty bearing, DOE has the right to inspect the books of account as necessary to determine accuracy of statement.

Records:

None except where the specific license provides for payment of royalty.

Account Identification:

89-0228-0-1-276.

Obligations:

(Dissemination of Technical Information) FY 14 Not Separately Identifiable; FY 15 Not Separately Identifiable; and FY 16 Not Separately Identifiable - There are no dollars obligated under this program.

Range and Average of Financial Assistance:

No dollars are obligated under this program.

TAFS Codes:

89-0228.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No updates. Fiscal Year 2015: We estimate 2 patent licenses in FY 2015. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

Licensing of government owned inventions (37 CFR 404). 10 CFR 781, DOE Patent Licensing Regulations; "DOE Invention Licensing Program" describes the program and is available at <http://www.osti.gov/genoun/>.

Regional or Local Office:

None.

Headquarters Office:

John T. Lucas, Office of the Assistant General Counsel for Technology Transfer, 1000 Independence Ave, SW, Washington, District of Columbia 20585 Phone: (202) 586-2802

Website Address:

<http://www.doe.gov>

RELATED PROGRAMS:

11.900 Patent and Trademark Technical Information Dissemination

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Nonexclusive licenses - satisfactory plan for development and/or marketing of the invention. Exclusive licenses in addition, a determination in accordance with 35 U.S.C. 209(c) that exclusivity is reasonable and necessary for commercialization.

81.022 LABORATORY EQUIPMENT DONATION PROGRAM

(Used Equipment Grants)
(LEDP)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, Section 31(a) and (b), as amended, Public Law

83-703, 68 Stat. 919, 42 U.S.C. 2051; Energy Reorganization Act of 1974, Title I, Section 107, Public Law 93-438, 88 Stat. 1240, 42 U.S.C. 5817; Department of Energy Organization Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101.

OBJECTIVES:

To assist United States institutions of higher education in equipping their science and engineering laboratories for energy-related research and/or instructional purposes.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Used energy-related laboratory equipment is granted to nonprofit educational institutions of higher learning for use in energy-oriented research or instructional programs in the life, physical, and environmental sciences and engineering. The donated equipment must remain in the United States. The donated equipment must not be sold.

Applicant Eligibility:

Nonprofit educational institutions of higher learning, such as universities, colleges, junior colleges, hospitals, and technical institutes or museums located in the United States and interested in establishing or upgrading energy oriented educational and research programs in the life, physical, and environmental sciences and engineering may apply. All LEDP program applicants are required to provide a statement that validates their capabilities to use the requested scientific equipment. The program reserves the right to deny an applicants' request if it appears that the applicants' ability to successfully use the equipment is lacking.

Beneficiary Eligibility:

Nonprofit institutions of higher education benefit.

Credentials/Documentation:

Institutions complete the on-line application. This application includes: (1) Identification of institution and school and/or department where equipment would be used; (2) the objectives to be met through use of the equipment; (3) a detailed listing of the equipment requested; (4) a brief description of energy-oriented course offerings and numbers of graduate and undergraduate students enrolled; (5) data on qualifications of faculty members to make effective use of the equipment; (6) reference to any prior grant for equipment (financial or otherwise) to the same or to a related department; (7) the name and title of the person preparing the application. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The guideline and application are on the website. The application will be automatically submitted to the appropriate DOE field office via electronic mail.

Award Procedure:

Award is on basis of first-received, first- qualified proposal.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 15 to 30 days. From 30 days.

Appeals:

From 1 to 15 days. A written appeal must be submitted within 15 days after a freeze is placed on an item.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Not Applicable. Method of awarding/releasing assistance: by letter of credit.

Reports:

At the end of the first year of use, institution must report on the manner in which equipment was used in establishment, expansion, or enhancement of energy research and/or energy related courses. Cash reports are not applicable. At the end of the first year of use, institution must report on the manner in which equipment was used in establishment, expansion, or enhancement of energy research and/or energy related courses. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

Not Applicable.

Records:

Donor Equipment Award Information, and item ID Number.

Account Identification:

89-0222-0-1-501.

Obligations:

(Use of Property, Facilities, and Equipment) FY 14 Not Separately Identifiable; FY 15 est \$0; and FY 16 Not Separately Identifiable - Not applicable.

Range and Average of Financial Assistance:

Not applicable.

TAFS Codes:

89-0222.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

The "Laboratory Equipment Donation Program (LEDP) Guidelines" are available via the Internet at <http://www.osti.gov/ledp/index.jsp>. The grantee must not sell or place DOE donated equipment on eBay for sale.

Regional or Local Office:

See Regional Agency Offices. For DOE Operations Offices, see the "List Equipment." On "List Equipment" enter the item control number and hit "submit." This will bring up the individual to contact at the site where the specific piece of equipment is located.

Headquarters Office:

Vera A. O'Connor 1000 Independence Ave., SW
, Washington, District of Columbia 20585 Email:
vera.oconnor@science.doe.gov Phone: (202) 586-9742 Fax: (202) 586-0019.

<http://www.osti.gov/ledp/index.jsp>

RELATED PROGRAMS:

39.003 Donation of Federal Surplus Personal Property

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Not Applicable.

81.036 INVENTIONS AND INNOVATIONS

(I&I)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Federal Nonnuclear Energy Research and Development Act of 1974, Section 14, Public Law 577-93, 88 Stat. 1894, 42 U.S.C 5913; Department of Energy Organization Act of 1977, Public Law 95-91, 42 U.S.C 7101.

OBJECTIVES:

To encourage the development and commercialization of energy-saving

inventions by providing financial and technical assistance to projects that have a potential for significant energy savings and future commercialization markets through a competitive solicitation process.

TYPES OF ASSISTANCE:

ADVISORY SERVICES AND COUNSELING; DISSEMINATION OF TECHNICAL INFORMATION; PROJECT GRANTS

USES AND USE RESTRICTIONS:

The assistance provides financial assistance for research and development of innovative, energy-saving ideas and invention. Inventions and Innovations support energy efficiency and renewable energy technology development in focus areas that align with the Office of Energy Efficiency and Renewable Energy programs.

Applicant Eligibility:

N/A.

Beneficiary Eligibility:

N/A.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Only proposals prepared in response to the requirements contained in the annual competitive solicitation will be accepted. The application forms must be downloaded from the specific funding opportunity announcement posted on the grants.gov website at <http://www.grants.gov/>.

Award Procedure:

The Application is deemed meritorious by the review committee and the Recipient abides by all award terms and conditions, either explicitly stated or incorporated by reference.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Unsuccessful applicants are entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Cost sharing is not required, however cost sharing is highly encouraged.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Award project periods range from 1 to 3 years. See the following for information on how assistance is awarded/released: Funds awarded are subject to Congressional Appropriation.

Reports:

No program reports are required. No cash reports are required. For research and development (R&D) and demonstration and commercialization awards a quarterly Research Performance Progress Report (RPPR) is required. For non-R&D awards a quarterly Progress Report is required. Every quarter, the Prime Recipient is required to submit a completed SF-425 for the project i.e., the entirety of work performed by the Prime Recipient, Subrecipients, and contractors. For research and development (R&D) and demonstration and

commercialization awards a quarterly Research Performance Progress Report (RPPR) is required. For non-R&D awards a quarterly Progress Report is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audit procedures in accordance with 2 CFR 200.501 and 2 CFR 910.501 are required.

Records:

Access to process implementation and efficiency data must be available for 10 years after project completion to measure performance against expectation and to support commercialization of the technology.

Account Identification:

89-0203-0-1-270.

Obligations:

(Project Grants (Discretionary)) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - This program has not been funded since 2012 and likely will not receive funding in future periods.

Range and Average of Financial Assistance:

\$500,000 to \$1,000,000.

TAFS Codes:

89-X-0321.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

Regulations: Financial Assistance Regulations 2 CFR 200 as amended by 2 CFR 910.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Uniqueness, technical feasibility, marketability, energy relationship (including energy savings).

81.041 STATE ENERGY PROGRAM

(SEP)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Balanced Budget Down Payment Act II of 1996, Public Law 104-134. ; Department of Energy Organization Act of 1977, Public Law 95-91, 42 U.S.C. 7101; National Energy Conservation Policy Act of 1978, Public Law 95-619 and Public Law 101-440; Energy Policy and Conservation Act, Public Law 94-163, 42 U.S.C. 6321-6326; American Recovery and Reinvestment Act of 2009.

OBJECTIVES:

The purpose of this program is to increase market transformation of energy efficiency and renewable energy technologies through policies, strategies, and public-private partnerships that facilitate their adoption and implementation. It

also facilitates state-based activities, such as: financing mechanisms for institutional retrofit programs; loan program and management; energy savings performance contracting; comprehensive residential programs for homeowners; transportation programs that accelerate use of alternative fuels; and renewable programs that remove barriers and support supply side and distributed renewable energy.

The program provides financial and technical assistance to State governments to create and implement a variety of energy efficiency and conservation projects in order to provide leadership to maximize the benefits of energy efficiency and renewable energy through communications and outreach activities, technology deployment, and accessing new partnerships and resources across the geographic panorama of the United States and its territories. The programs objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To reduce the total energy use of the eligible entities; and
- * To improve energy efficiency in the transportation, building, and other sectors.

TYPES OF ASSISTANCE:

Dissemination of Technical Information; Formula Grants

USES AND USE RESTRICTIONS:

Formula Grants are to be used by States for the development, implementation, or modification of State plans submitted to and approved by DOE. To be eligible for Federal assistance, each State plan must contain the five program activities required by the Energy Policy and Conservation Act, Public Law 94-163; and may also include a wide range of optional activities.

A wide variety of activities are eligible for use of the grant funds including:

- * Developing / implementing an energy efficiency and conservation strategy and retaining technical consultant services to assist in the development of such a strategy.
- * Conducting residential and commercial building energy audits.
- * Establishing financial incentive programs for energy efficiency improvements (e.g., loan programs, rebate programs, waive permit fees.)
- * Providing grants to nonprofit organizations to perform energy efficiency retrofits.
- * Developing / implementing programs to conserve energy used in transportation (e.g., flex time by employees, satellite work centers, promotion of zoning requirements that promote energy efficient development, transportation infrastructure: bike lanes / pathways, pedestrian walkways, and synchronized traffic signals).
- * Developing and implementing building codes and inspection services to promote building energy efficiency.
- * Implementing energy distribution technologies.
- * Developing public education programs to increase participation and efficiency rates for recycling programs.
- * Purchasing/implementing technologies to reduce and capture methane and other greenhouse gases generated by landfills or similar sources.
- * Installing light emitting diodes (LEDs).
- * Developing, implementing, and installing renewable energy technologies on or in any government building.
- * Any other activity as determined by the Secretary of Energy in consultation with the Secretaries of Transportation and Housing and Urban Development and the Administrator of the Environmental Protection Agency. Funds cannot be used for the purchase of land, buildings or any interest therein; construction of buildings or structures; research, development or demonstration of non-commercially available technology; or subsidies of public transportation, fares, utility rate demonstrations or State tax credits for energy conservation.

Applicant Eligibility:

All States plus the District of Columbia, the U.S. Virgin Islands, Puerto Rico, Guam, Samoa, and the Commonwealth of the Northern Mariana Islands.

Beneficiary Eligibility:

The ultimate potential beneficiaries will be the people affected by the plan that each State develops. This is anticipated to be the State's population.

Credentials/Documentation:

Compliance with Federal, State and local environmental statutes and regulations, as required under the Energy Independence and Security Act of 2007. Only one application from each State, compliance with State and local environmental statutes and regulations. Costs will be determined in accordance with 2 CFR Part 200 subpart E for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

No preapplication form or conference is required by DOE. A copy of the final State plan must accompany the grant application from the State. Consultation and assistance will be available from the DOE in the preparation of the application. Applicants for sub-awards from the states should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. States submit applications and plans (or amendment to plans) in response to 10 CFR 420 through the PAGE system (<https://www.page.energy.gov/login.aspx>).

Award Procedure:

Grant applications will be reviewed by DOE Office of Energy Efficiency and Renewable Energy personnel. Grant procedures are in accordance with Federal government regulations. Notification of grant awards will be issued by a DOE Procurement Office.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

As required under the Energy Independence and Security Act of 2007.

Renewals:

Renewals are subject to review by the DOE program office and subject to the availability of funds. Assistance will be provided from sums appropriated for any fiscal year only upon annual application.

Formula and Matching Requirements:

Statutory Formula: Title 10 Vol 3, Chapter II, Part 420, Subpart B Section 420.11, Public Law Energy Policy and Conservation Act 42 USC 6321 et seq. Matching Requirements: Percent: 20%. There is a 20 percent cost match requirement for the SEP, however leveraging of funds on the part of the recipient is encouraged.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Authorized funding is established by ECPA, NECPA, and ESA. Funds awarded annually are subject to Congressional appropriation, with no restriction on spending period. Funds are released through the Electronic Transfer System. Annual budget periods are set by each grantee within parameters established by DOE. See the following for information on how assistance is awarded/released: See award procedures above.

Reports:

No program reports are required. No cash reports are required. Quarterly progress and financial status reports are required along with a final report at the end of the project. Quarterly financial status reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audit procedures in accordance with 2 CFR 200.501. In addition, audit requirements need to comply with the Energy Independence and Security Act of 2007 and DOE procurement procedures.

Records:

In accordance with 2 CFR 200.

Account Identification:

89-0321-0-1-270.

Obligations:

(Formula Grants) FY 14 \$38,999,680; FY 15 est \$26,592,810; and FY 16 Estimate Not Available

Range and Average of Financial Assistance:

\$1-\$5,000,000.

TAFS Codes:

89-X-0215; 89-X-0321; 89-X-0331.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Advance policies, programs, and market strategies that accelerate job creation and reduce energy bills, while achieving energy and climate security for the nation on a State or Territory administered basis. Fiscal Year 2015: Advance policies, programs, and market strategies that accelerate job creation and reduce energy bills, while achieving energy and climate security for the nation on a State or Territory administered basis. Fiscal Year 2016: Advance policies, programs, and market strategies that accelerate job creation and reduce energy bills, while achieving energy and climate security for the nation on a State or Territory administered basis.

REGULATIONS, GUIDELINES, AND LITERATURE:

As described under the Energy Independence and Security Act of 2007 and 10 CFR 420.

Regional or Local Office:

None.

Headquarters Office:

James Cash 15013 Denver West Parkway, Golden, Colorado 80401 Email: james.cash@ee.doe.gov Phone: 240-562-1456

Website Address:

<http://www.eere.energy.gov>

RELATED PROGRAMS:

81.042 Weatherization Assistance for Low-Income Persons; 81.119 State Energy Program Special Projects

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Funding State developed and directed energy efficiency and energy conservation programs according to the submitted and approved State Plans (e.g. energy efficiency audits and retrofits for buildings). Fiscal Year 2015: Funding State developed and directed energy efficiency and energy conservation programs according to the submitted and approved State Plans (e.g. energy efficiency audits and retrofits for buildings). Fiscal Year 2016: Funding State developed and directed energy efficiency and energy conservation programs according to the submitted and approved State Plans (e.g. energy efficiency audits and retrofits for buildings).

CRITERIA FOR SELECTING PROPOSALS:

As described under the Energy Independence and Security Act of 2007. In addition, each State energy conservation plan must contain the five program activities required by the Energy Policy and Conservation Act, Public Law 94-163, and may also contain a wide range of optional activities.

81.042 WEATHERIZATION ASSISTANCE FOR LOW-INCOME PERSONS

(WAP)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009; Title IV, Energy

Conservation and Production Act; Energy Independence and Security Act of 2007; Energy Policy Act of 2005.

OBJECTIVES:

To improve home energy efficiency for low-income families through the most cost-effective measures possible. The programs objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities; and
- * To reduce the total energy use of the eligible units while ensuring their health and safety.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Improvement of the thermal efficiency and cooling of dwellings by the installation of weatherization materials such as attic insulation, caulking, weather-stripping, furnace efficiency modifications, certain mechanical measures to heating and cooling systems, and replacement furnaces, boilers, and air-conditioners. Grantees may average expenditures per dwelling unit for materials, program support and labor costs not to exceed an average per unit of \$6,500 adjusted annually for inflation. Up to 10 percent of each grant may be spent by a Grantee and its subgrantees for administrative expenses (in the Formula Grants a Grantee may not use more than 5 percent of the total State grant for such purposes).

Applicant Eligibility:

States, including the District of Columbia, and in certain instances, Native American tribal organizations. In the event a State does not apply, a unit of general purpose local government, or community action agencies and/or other nonprofit agencies within that State becomes eligible to apply.

Beneficiary Eligibility:

All low-income households are eligible to receive weatherization assistance. A low-income household is one whose combined income falls at or below 200 percent of the Federal poverty level determined by the Office of Management and Budget's poverty income guidelines or the basis on which Federal, State, or local cash assistance payments have been made. A State may also elect to make all homes eligible under the HHS Low-income Home Energy Assistance Program (LIHEAP) eligible for weatherization assistance and may use either 150 percent of poverty or 60 percent of State median income.

Credentials/Documentation:

Compliance with Federal, State and local environmental statutes and regulations, as required under the Energy Independence and Security Act of 2007. The Department of Energy (DOE) requires that grantees meet certain statutory and administrative requirements which can be found in the Weatherization Program Rules available at 10 CFR Section 440 et al and from DOE offices. For Formula Grants, Governors or their designated agencies must apply for grants to the appropriate DOE office and submit State Plans and applications pursuant to State applications at 10 CFR part 440.12. Any household at or below 200% of poverty, per the modified statute, is considered low-income. About 15 million of all eligible households are good candidates for Weatherization. Priority service is given to the elderly, people with disabilities, and families with children. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

No preapplication form or conference is required by DOE. A copy of the final State plan must accompany the grant application from the State. Consultation and assistance will be available from the DOE in the preparation of the application. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. State applications for the WAP Program must be submitted through the PAGE system (<https://www.page.energy.gov/login.aspx>) to be considered for award.

Award Procedure:

Formula Grants: States and tribes will submit applications for available allocation. Grant applications will be reviewed by DOE Office of Energy Efficiency and Renewable Energy (EERE) personnel. Grant procedures will be in accordance with Federal government regulations. Notification of grant awards will be issued by the DOE Procurement Office and/or EERE personnel serving the applicant State. Project Grants: Evaluations will be conducted by an independent merit review committee and Federal employees. Final decisions to approve are made by ASEE, Program Manager and/or Designee. DOE Field Offices are then instructed to negotiate and prepare the grant award documents.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Submission deadlines will be published in the funding opportunity announcements at: <https://www.page.energy.gov/login.aspx>.

Appeals:

As required under 42 U.S.C. 6861 et. seq. and 10 CFR Section 440.

Renewals:

Renewals are subject to review by the DOE program office and subject to the availability of funds. Financial assistance will be provided from sums appropriated for any fiscal year only upon annual application.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Authorized funding is established by ECPA, NECPA and ESA. See the following for information on how assistance is awarded/released: No information was provided.

Reports:

No program reports are required. Cash reports are not applicable. Quarterly progress and financial status reports are required along with a final report at the end of the project. Quarterly financial reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

The administrative requirements for DOE grants and cooperative agreements are contained in 2 CFR 200 as amended by 2 CFR 910 and 10 CFR Part 440.

Account Identification:

89-0321-0-1-270.

Obligations:

(Formula Grants) FY 14 \$180,420,191; FY 15 est \$167,502,300; and FY 16 Estimate Not Available

Range and Average of Financial Assistance:

\$2,500 to \$6,500 per dwelling unit.

TAFS Codes:

89-X-0321; 89-X-0331.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Energy audits and energy efficiency retrofits and upgrades for the residences of low income individuals, administered through the various State Energy and/or Housing Offices. Fiscal Year 2015: Energy audits and energy efficiency retrofits and upgrades for the residences of low income individuals, administered through the various State Energy and/or Housing

Offices. Fiscal Year 2016: Energy audits and energy efficiency retrofits and upgrades for the residences of low income individuals, administered through the various State Energy and/or Housing Offices.

REGULATIONS, GUIDELINES, AND LITERATURE:

As described under the Energy Independence and Security Act of 2007. Weatherization Assistance guidelines published June 1, 1977. Amendments to guidelines published January 2, 1979, August 29, 1979, February 27, 1980, June 1, 1981, March 1, 1982, January 27, 1984, January 4, 1985, December 5, 1985, March 4 1993, June 5, 1995, and December 8, 2000. Additionally, 2 CFR 200 and 10 CFR 440.

Regional or Local Office:

None.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Energy audits and energy efficiency retrofits and upgrades for the residences of low income individuals, administered through the various State Energy and/or Housing Offices. Fiscal Year 2015: Energy audits and energy efficiency retrofits and upgrades for the residences of low income individuals, administered through the various State Energy and/or Housing Offices. Fiscal Year 2016: Energy audits and energy efficiency retrofits and upgrades for the residences of low income individuals, administered through the various State Energy and/or Housing Offices.

CRITERIA FOR SELECTING PROPOSALS:

As described under the Energy Independence and Security Act of 2007. DOE requires that grantees meet certain statutory and administrative requirements which can be found in the Weatherization Program Guidelines at <http://apps1.eere.energy.gov/weatherization/>.

81.049 OFFICE OF SCIENCE FINANCIAL ASSISTANCE PROGRAM

(Advanced Scientific Computing Research, Basic Energy Sciences, Biological and Environmental Research, Fusion Energy Sciences, High Energy Physics, Nuclear Physics, Workforce Development for Teachers and Scientists, Small Business Innovation Research Program and Small Business Technology Transfer Program))

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Energy Policy Act of 2005, as amended, Public Law 109-58, 42 U.S.C. 16311; Federal Nonnuclear Energy Research and Development Act of 1974, as amended, Public Law 93-577, 42 U.S.C. 5903 ; Energy Reorganization Act of 1974, as amended, Title I, Section 107, Public Law 93-438, 42 U.S.C. 5817; Atomic Energy Act of 1954, as amended, Section 31, Public Law 83-703, 42 U.S.C. 2051; Department of Energy Organization Act, as amended, Public Law 95-91, 42 U.S.C. 7256 ; Small Business Act, as amended, Public Law 85-536, 15 U.S.C. 638.

OBJECTIVES:

The mission of the DOE Office of Science is to deliver the scientific discoveries and major scientific tools to transform our understanding of nature and advance the energy, economic, and national security of the United States.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

See information at <http://science.energy.gov/>. Financial assistance, in whole and in part, may be provided for such purposes as salaries, materials and supplies, equipment, travel, publication costs, services, and other direct and indirect costs required for conducting research, research-related activities, and advanced technology projects or assessments described in the selected application.

Restrictions on use of funds are specified in the governing federal and agency-specific financial assistance regulations and terms and conditions incorporated in individual financial assistance awards.

Applicant Eligibility:

Except where a program solicitation establishes more restrictive eligibility criteria, individuals and organizations in the following categories may submit proposals: Institutions of higher education; National Laboratories; Nonprofit and for-profit private entities; State and local governments; and consortia of entities described above.

Beneficiary Eligibility:

None.

Credentials/Documentation:

Applications must be signed electronically by an official authorized to commit the institution or organization in business and financial affairs and who can commit the organization to certain National Policy Assurances to be incorporated as award terms in effect on date of award at <http://www.nsf.gov/awards/managing/rtc.jsp>. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Office of Science utilizes an automated system, the Portfolio Analysis and Management System (PAMS), to manage the grants applications and award process. An application will automatically transfer from Grants.gov into PAMS for processing. In order to manage the application in PAMS, applicants must register at <https://pamspublic.science.energy.gov>.

Award Procedure:

After selections, DOE may negotiate a financial assistance award with the selected applicant. Only a DOE Contracting Officer is authorized to approve financial assistance agreement.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Normally, 6 months from receipt of grant application. Maximum, 12 months.

Appeals:

None.

Renewals:

Renewal applications must be submitted no later than six months prior to the scheduled expiration of the project period and must include a separate section that describes the results of work accomplished through the date of the renewal application (see 10 CFR 605.9). Renewal applications shall be submitted electronically in response to a Funding Opportunity Announcement through Grants.gov at <http://www.grants.gov>.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Cost sharing requirements of Section 988 of the Energy Policy Act of 2005 are waived for financial assistance awards funding research of a basic and fundamental nature issued pursuant to 10 CFR 605. Financial assistance research awards that are not issued pursuant to 10 CFR 605 are subject to the cost sharing requirements of Section 988 of the Energy Policy Act of 2005 unless waived. The cost sharing requirements of Section 988 of the Energy Policy Act of 2005 do not apply to the Small Business Innovation Research/Small Business Technology Transfer research award. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Generally, financial assistance awards are awarded as a three-year project period composed of three one-year budget periods that are either fully funded at the time of award or funded on an annual basis. Generally, funding restrictions

are placed on fully-funded awards with planned annual funding releases. In both cases, funding/funding releases are authorized based on criteria established in the individual award terms and conditions including adequate progress and availability of funds, if applicable. See the following for information on how assistance is awarded/released: The Office of Science Integrated Support Center - Chicago is responsible for negotiating and awarding the financial assistance awards. The awards will be issued utilizing DOE's electronic Strategic Integrated Procurement Enterprise System (STRIPES). The recipient will receive notification of availability of an approved financial assistance through STRIPES communication portal, Fedconnect.

Reports:

Typically, recipients are required to submit a final technical report as specified in the individual award terms and conditions. Quarterly and final SF 425, Federal Financial Reports, must be submitted as specified in the individual award terms and conditions. Typically, recipients are required to submit a Research Performance Progress Report (RPPR) on an annual basis through PAMS as specified in the individual award terms and conditions. Quarterly financial SF 425, Federal Financial Reports, must be submitted as specified in the individual award terms and conditions. -.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. -as stated above.

Records:

Recipient is expected to maintain auditable records to substantiate the total costs incurred under the grant.

Account Identification:

89-0222-0-1-251.

Obligations:

(Project Grants (Cooperative Agreements)) FY 14 \$1,133,670,032; FY 15 est \$1,124,690,169; and FY 16 Estimate Not Available(Exp: Budget pending) - Total fiscal year (FY) obligations for the Office of Science financial assistance awards are as follows: FY 13: \$969,733,591, FY 14: \$1,133,670,032; and FY 15 (estimate): \$1,124,690,168.

Range and Average of Financial Assistance:

\$10,000 to \$2,500,000; \$250,000.

TAFS Codes:

89-0224; 89-0222; 89-0227.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

10 CFR 605, The Office of Science Financial Assistance Program; 2 CFR 910, Department of Energy Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and, 2 CFR 200, Office of Management and Budget Guidance for Grants and Agreements, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Agencies.

Website Address:

<http://science.energy.gov/grants/>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Applications will be subject to scientific merit review (peer review) and will be evaluated against the following criteria, listed in descending order of importance: Scientific and/or Technical Merit or the Educational Benefits of the Projects; Appropriateness of the Proposed Method or Approach; Competency of Applicant's Personnel and Adequacy of Proposed Resources; and, Reasonableness and Appropriateness of the Proposed Budget; and other appropriate factors, established and set forth in the Funding Opportunity Announcement.

81.057 UNIVERSITY COAL RESEARCH

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, as amended, Public Law 83-703; Energy Reorganization Act of 1974, Public Law 93-438; Research and Marketing Act of 1946, as amended, Public Law 85-934; Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93- 577; Department of Interior and Related Agencies Appropriations for 1980, Public Law 96-126; Department of Interior and Related Agencies Appropriations for 2004, Public Law 108-108, Executive Order N/A.

OBJECTIVES:

To improve scientific and technical understanding of the chemistry and physics involved in the conversion and utilization of coal. The primary objective is to fund long-term, high-risk, meritorious fundamental research for the advancement of science related to all Fossil Energy's coal-related programs. Through an annual solicitation, applications are sought with the potential to overcome barriers in technology development and accelerate the identification of solutions for energy and environmental problems.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Work must be related to program objectives. The eligibility of recipients for DOE financial assistance awards under the UCR Program is limited to U.S. universities, colleges, and university-affiliated research institutions. Projects selected for an award must have a teaching professor as Principal Investigator or a Co-Principal Investigator. The eligibility of recipients for DOE financial assistance awards under the UCR Program is limited to U.S. universities, colleges, and university-affiliated research institutions. Projects selected for an award must have a teaching professor as Principal Investigator or a Co-Principal Investigator.

Applicant Eligibility:

Only US colleges and universities can apply.

Beneficiary Eligibility:

In accordance with 2 CFR 910.124, eligibility for award is restricted to U.S. colleges, universities, and university-affiliated research institutions. Grants awarded through the UCR Program are for maintaining and upgrading the educational, training and research capabilities of U.S. universities and colleges in the fields of science, environment, energy and technology related to coal. The involvement of professors and students generates fresh research ideas and enhances the education of future scientists and engineers. To assure the program continues to support the performance of high quality fundamental research by professors and students at U.S. colleges and universities, applications may be submitted by U.S. colleges, universities and university-affiliated research institutions provided the following criteria are met: (1) Principal Investigator or a Co-Principal Investigator listed in the application is a teaching professor at the submitting university. If this condition is met, other participants, Co-Principal Investigators or research staff, who do not hold teaching positions may be included as part of the research team; (2) Applications from university-affiliated research institutions must be submitted through the college or university with which they are affiliated; and (3) At least one student registered at that university is to receive compensation for performing research.

Credentials/Documentation:

2 CFR 200, Uniform Administrative Requirement, Cost Principles, and Audit

Requirements for Federal Awards applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirement for Federal Awards applies to this program.

Award Procedure:

Applications reviewed by qualified experts in accordance with 2 CFR 200 with specific emphasis on the scientific and technical merit of the proposed research and the factors listed in the formal solicitation for proposals.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Approximately 90 to 180 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. This program has no matching requirements. Limited university/industry collaboration is encouraged but not required, however, cost sharing may be required for larger sized grants that support university/industry collaboration MOE requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Projects awarded through the UCR Program have a performance period of 36 months and are usually are funded by the Electronic Transfer System. See the following for information on how assistance is awarded/released: See the following for information on how assistance is awarded/released: Funding allocated by EFT.

Reports:

Quarterly reports and technical progress reports containing research accomplishments and information on cost status, reported per task is required. Additionally, a final technical report is due 90 days after the end of performance period. Quarterly project Federal Financial Reports are required. Quarterly project technical progress and a final report are required. Topical Reports may be submitted as appropriate. Performance monitoring is achieved through submission of progress reports, site visits, and the Principal Investigators are required to participate in an Annual Contractors Review Meeting. Quarterly project Financial Cash Transaction Report is required. Quarterly project technical progress and a final report are required. Topical Reports may be submitted as appropriate. Expenditure reports are required quarterly. Performance monitoring is achieved through submission of progress reports, site visits, and the Principal Investigators are required to participate in a two day Annual Contractors Review Meeting, typically held in June each year.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$750,000 a year in Federal award are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Retention of records will be required pursuant to guidelines set forth in 2 CFR 200.

Account Identification:

89-0213-0-1-271.

Obligations:

(Project Grants) FY 14 \$2,395,687; FY 15 est \$2,399,963; and FY 16 est \$2,699,991

Range and Average of Financial Assistance:

Maximum funding for 36 month project is \$300,000.

TAFS Codes:

89-0213.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Six awards selected. Nine awards were made in FY13. Fiscal Year 2015: Six awards selected. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

A formal competitive opportunity announcement for applications was issued for the fiscal year 2015 program. Release date was January 2015

Regional or Local Office:

See Regional Agency Offices. Project Office - National Energy Technology Laboratory, 3610 Collins Ferry Road P.O.Box 880, Morgantown WV 26507-0880 Contact: Dr. Sydni Credle, Telephone:304-285-5255.

Headquarters Office:

RELATED PROGRAMS:

81.089 Fossil Energy Research and Development

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: High Performance Materials, and Sensors and Controls. Fiscal Year 2015: Sensors and Controls and Simulation-Based Engineering. Fiscal Year 2016: Computational Energy Sciences, Material Science, and Sensor and Controls;.

CRITERIA FOR SELECTING PROPOSALS:

Emphasis is on the scientific and technical merit of the proposed research and the factors listed as generic goals in the formal solicitation for proposals.

81.064 OFFICE OF SCIENTIFIC AND TECHNICAL INFORMATION (OSTI)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Energy Policy Act of 2005 (Public Law 109-58), Section 982, Department of Energy Organization Act of 1977 (Public Law 95-91), Energy Reorganization Act of 1974 (Public Law 93-438), Atomic Energy Acts of 1946 (Public Law 79-585) and 1954, as amended (Public Law 83-703), America COMPETES Act of 2007 (Public Law 110-69), Section 1009 and Section 3191, Public Law 109-58, 42 U.S.C 5916, 7112.

OBJECTIVES:

To advance science and sustain technological creativity by making research and development (R&D) results available, findable and useable to the Department of Energy (DOE) researchers and the public. To collect, preserve, disseminate, and leverage the scientific and technical information (STI) resources of DOE in order to provide access to national and global STI for use by DOE, the scientific research community, academia, US industry, and the public to expand the knowledge base of science and technology. To acquire domestic and international information of interest to DOE and the scientific community through partnerships with U.S. agencies and over 120 countries and international organizations.

TYPES OF ASSISTANCE:

DISSEMINATION OF TECHNICAL INFORMATION

USES AND USE RESTRICTIONS:

The scientific and technical information (STI) produced through DOE and its predecessor agencies includes information from the broad range of science disciplines of interest to the Energy Department mission. OSTI is the sole source of specialized collections containing results of closed-out DOE R&D projects. OSTI provides information services to DOE and DOE contractor organizations and makes Energy Department information publicly available through a suite of OSTI web tools and services. Most information services are provided electronically through databases and full-text compilations at no cost. Some collections result from partnerships with other national and international governmental agencies.

Applicant Eligibility:

State and local governments and universities that are DOE contractors are provided electronic access to Energy Department information in specific areas of concern. Energy information exchange agreements may be made with non-DOE affiliates, universities and other organizations involved in energy-related research. Public access to R&D documents is also available through the National Technical Information Service (NTIS) and the Government Printing Office (GPO).

Beneficiary Eligibility:

DOE federal employees and contractors are primary beneficiaries of DOE STI collections in their specific areas of concern. Although most web-based collections are available to the general public through official government outlets, limited-access databases contain information restricted by international exchange agreements or other access restrictions.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. By written or telephone inquiry to the information contacts shown below.

81.079 REGIONAL BIOMASS ENERGY PROGRAMS

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Department of Energy Act of 1977, Public Law 91-95; Water Development Appropriations Act, Public Law 500-99.

OBJECTIVES:

This program is designed to help meet the goal of significantly increasing America's use of fuels, chemicals, materials, and power made from domestic biomass on a sustainable basis. This is a Congressionally-directed project. Funding is not available to the general public.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Assistance may be used to develop and transfer any of several biomass energy technologies to the scientific and industrial communities. For regional programs, such technologies will be appropriate for the needs and resources of particular regions of the United States.

Applicant Eligibility:

Profit organizations; private nonprofit institutions/organizations; intrastate, interstate, State and local government agencies, and universities may apply.

Beneficiary Eligibility:

Profit organizations; private nonprofit institutions/organizations; intrastate, interstate, State and local government agencies, universities will benefit.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 subpart E. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. This is a Congressionally-directed program. Application forms must be downloaded

from the specific funding opportunity announcement posted on the grants.gov website at <http://www.grants.gov/> and submitted per instructions in the funding opportunity announcement. Submission deadlines will be published in the funding opportunity announcement at [http://www.grants.gov.](http://www.grants.gov/) It is the responsibility of the applicant to verify successful transmission.

Award Procedure:

Varies.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Varies.

Appeals:

Not Applicable.

Renewals:

> 180 Days. Renewals are subject to review by the headquarters program office and subject to the availability for funds.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Cost sharing is not required however cost sharing is strongly encouraged.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Varies. See the following for information on how assistance is awarded/released: Awards are executed by DOE EERE Golden Field Office.

Reports:

No reports are required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Audit procedures will follow 2 CFR 200 subpart F for all recipients other than for-profit entities, which will follow 2 CFR 910.501 audit rules.

Records:

None.

Account Identification:

89-0321-0-1-270.

Obligations:

(Project Grants) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - This program has not been funded since at least 2010, and it is unlikely that it will be funded in future periods.

Range and Average of Financial Assistance:

Varies.

TAFS Codes:

89-X-0331; 89-X-0321.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR 200 as amended by 2 CFR 910.

Regional or Local Office:

None.

Headquarters Office:

James Cash 15013 Denver West Parkway, Golden, Colorado 80401 Email: james.cash@ee.doe.gov Phone: 240-562-1456

Website Address:

<http://www.eere.energy.gov>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

This is a Congressionally-directed program. Merit of the proposal is determined by: (1) Technical relevance to program objectives; (2) potential contribution of the feedstock or conversion process to the energy needs of the region; (3) environmental and employment considerations; and (4) amount of cost-sharing by recipient.

81.086 CONSERVATION RESEARCH AND DEVELOPMENT

Energy Efficiency (EE)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009; Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93-577; Public Law 95-911 and Public Law 97-377; Department of Energy Organization Act of 1977, as amended.

OBJECTIVES:

The goal of this program is to conduct a balanced, long-term research effort in Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and Advanced Manufacturing Technologies. Grants and cooperative agreements will be offered on a competitive basis to develop and transfer various energy conservation technologies to the nonfederal sector.

Submission deadlines will be published in the funding opportunity announcements at <https://eere-exchange.energy.gov/>.

TYPES OF ASSISTANCE:

Project Grants; Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Assistance may be used in the form of cooperative agreements, or grants to nonprofit institutions and organizations to develop and transfer energy conservation technologies to the scientific and industrial communities, States, and local governments.

Applicant Eligibility:

For-profit organizations, private nonprofit institutions/organizations, State and local governments may apply.

Beneficiary Eligibility:

For-profit organizations, private nonprofit institutions/organizations, State and local governments benefit.

Credentials/Documentation:

. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The application forms must be downloaded from the specific funding opportunity announcement posted on the EERE Exchange

(<https://eere-exchange.energy.gov/>) website or grants.gov website at <http://www.grants.gov/> and submitted per instructions in the funding opportunity announcement.

Award Procedure:

All applications which pass an initial review will receive an objective merit review. The objective merit review will be based on evaluation criteria set forth in the competitive solicitation or criteria set forth in 2 CFR Part 200 as amended by 2 CFR 910. Evaluations will be conducted by Energy Efficiency and Renewable Energy (EERE) program personnel at DOE Headquarters in Washington, DC. This responsibility may also be delegated to DOE Field Offices. Final decisions will be made by the EERE Assistant Secretary, Deputy Assistant Secretaries, and the Director of the Federal Energy Management Program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Submission deadlines will be published on the EERE Exchange (<https://eere-exchange.energy.gov/>) website and in the funding opportunity announcements at <http://www.grants.gov> From 60 to 120 days.

Appeals:

Unsuccessful applicants are entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Grants may be modified or extended.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: This program has statutorily required cost share percentages based on project type:

Education & Outreach 0%, Research & Development 20%, Demonstration and Commercialization 50%.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Award project periods range from 1 to 3 years. See the following for information on how assistance is awarded/released: No additional information is provided.

Reports:

No program reports are required. No cash reports are required. Quarterly progress reports, and a final report at the conclusion of the grant time period. Quarterly expenditure reports, and a final report at the conclusion of the grant time period are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audit requirements need to comply with the Energy Independence and Security Act of 2007 and DOE procurement procedures as well as with 2 CFR 200 subpart F for other than for-profit recipients. For-profit recipients must comply with 2 CFR 910.501 audit regulations.

Records:

Record retention per 2 CFR 200.

Account Identification:

89-0321-0-1-270.

Obligations:

(Cooperative Agreements) FY 14 \$38,465,926; FY 15 est \$0; and FY 16 Estimate Not Available - For fiscal year 2015 (to date) \$185,449,228 has been de-obligated from this CFDA program number.

Range and Average of Financial Assistance:

Varies.

TAFS Codes:

89-X-0321; 89-X-0331.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Technological advancements in energy efficiency as it applies to Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and Advanced Manufacturing Technologies. Fiscal Year 2015: Technological advancements in energy efficiency as it applies to Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and Advanced Manufacturing Technologies. Fiscal Year 2016: Technological advancements in energy efficiency as it applies to Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and

Advanced Manufacturing Technologies.

REGULATIONS, GUIDELINES, AND LITERATURE:

The following list represents an overview of regulations, guidelines, and literature: EERE Federal Register notices; EERE Solicitations, which may be accessed through the EERE homepage at: <http://www.eere.energy.gov>; DOE Financial Assistance Regulations (2 CFR 200 as amended by 2 CFR 910); and the DOE Guide to Financial Assistance, both of which may be accessed through the DOE Office of Management home page at http://www.management.energy.gov/policy_guidance/financial_assistance.htm

Regional or Local Office:

None.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Projects in energy efficiency as it applies to Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and Advanced Manufacturing Technologies. Fiscal Year 2015: Projects in energy efficiency as it applies to Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and Advanced Manufacturing Technologies. Fiscal Year 2016: Projects in energy efficiency as it applies to Buildings Technologies, Industrial Technologies, Vehicle Technologies, Solid State Lighting Technologies, and Advanced Manufacturing Technologies.

CRITERIA FOR SELECTING PROPOSALS:

Selection will be based on an objective merit review, program policy factors, the availability of funds, provisions of appropriation law and reports and as otherwise specified in specific solicitation document(s).

81.087 RENEWABLE ENERGY RESEARCH AND DEVELOPMENT

Renewable Energy (RE)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Department of Energy Organization Act of 1977; Public Law 101-218; American Recovery and Reinvestment Act of 2009; Public Law 95-238, Section 207.

OBJECTIVES:

To conduct balanced research and development efforts in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal. Grants will be offered to develop and transfer to the nonfederal sector various renewable energy technologies on a competitive basis.

Submission deadlines will be published in the funding opportunity announcements at <https://eere-exchange.energy.gov/> and <http://www.grants.gov>.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Assistance may be used to develop and transfer renewable energy technologies to the scientific and industrial communities, State, and local governments. Assistance may be used to develop and transfer renewable energy technologies to the scientific and industrial communities, State, and local governments.

Applicant Eligibility:

For-profit organizations, private nonprofit institutions/organizations, intrastate, interstate, and local agencies and universities may apply.

Beneficiary Eligibility:

For-profit organizations, private nonprofit institutions/organizations, intrastate,

interstate, State and local agencies and universities will benefit.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Application due dates will be posted in the individual funding opportunity announcements posted at <https://eere-exchange.energy.gov/> and <http://www.grants.gov>. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The cost principles and award regulations that apply to this program are contained in 2 CFR 200 as amended by 2 CFR 910.

The application forms must be downloaded from the specific funding opportunity announcement posted on the [grants.gov](http://www.grants.gov) website at <https://eere-exchange.energy.gov/> and <http://www.grants.gov/> and submitted per instructions in the funding opportunity announcement.

Award Procedure:

All applications which pass an initial review will receive an objective merit review. The objective merit review will be based on evaluation criteria set forth in the competitive solicitation(s) or criteria set forth in 2 CFR Part 200 for Unsolicited Proposals. Evaluations will be conducted by Energy Efficiency and Renewable Energy (EERE) program personnel at DOE Headquarters in Washington, DC. This responsibility may also be delegated to DOE Field Offices. Final decisions will be made by the EERE Assistant Secretary, Deputy Assistant Secretaries, and the Director of the Federal Energy Management Program.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Submission deadlines will be published in the funding opportunity announcements at <https://eere-exchange.energy.gov/> and <http://www.grants.gov> From 60 to 180 days.

Appeals:

Unsuccessful applicants are entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Renewals are subject to review by the headquarters program office and subject to the availability of funds.

Formula and Matching Requirements:

Statutory Formula: Title Energy Policy Act 2005, Chapter Section 998. This program has statutorily required cost share percentages based on project type: Education & Outreach 0%, Research & Development 20%, Demonstration and Commercialization 50%.

Matching Requirements: This program has statutorily required cost share percentages based on project type: Education & Outreach 0%, Research & Development 20%, Demonstration and Commercialization 50%.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Award project periods range from 1 to 3 years. See the following for information on how assistance is awarded/released: No further information is available.

Reports:

No program reports are required. No cash reports are required. Quarterly progress reports, and a final report at the conclusion of the grant time period. Quarterly expenditure reports, and a final report at the conclusion of the grant time period. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000

or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audit procedures in accordance with 2 CFR 200 subpart F and the for-profit entity audit requirements in 2 CFR 910.501. In addition, audit requirements need to comply with the Energy Independence and Security Act of 2007 and DOE procurement procedures as well as with 10 CFR 600.

Records:

Record retention per 2 CFR 200.

Account Identification:

89-0321-0-1-270.

Obligations:

(Cooperative Agreements) FY 14 \$157,717,039; FY 15 est \$0; and FY 16 Estimate Not Available - For fiscal year 2015 (to date) \$96,123,917 has been de-obligated from this CFDA program number.

Range and Average of Financial Assistance:

Varies.

TAFS Codes:

89-X-0321; 89-X-0331; 89-X-0222; 89-X-0224.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Renewable Energy Projects in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal. Fiscal Year 2015: Renewable Energy Projects in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal. Fiscal Year 2016: Renewable Energy Projects in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal.

REGULATIONS, GUIDELINES, AND LITERATURE:

The following list represents an overview of regulations, guidelines, and literature: EERE Federal Register notices; EERE Solicitations, which may be accessed through the EERE homepage at: <http://www.eere.energy.gov/>; DOE Financial Assistance Regulations(2 CFR 200 as amended by 2 CFR 910); and the DOE Guide to Financial Assistance, both of which may be accessed through the DOE Office of Management home page at http://www.management.energy.gov/policy_guidance/financial_assistance.htm

Regional or Local Office:

None.

Headquarters Office:

James Cash 15013 Denver West Parkway, Golden, Colorado 80401 Email: james.cash@ee.doe.gov Phone: 240-562-1456

Website Address:

RELATED PROGRAMS:

81.079 Regional Biomass Energy Programs

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Renewable Energy Projects in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal. Fiscal Year 2015: Renewable Energy Projects in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal. Fiscal Year 2016: Renewable Energy Projects in the following energy technologies: solar, biomass, hydrogen fuel cells and infrastructure, wind and hydropower, and geothermal.

CRITERIA FOR SELECTING PROPOSALS:

Selection will be based on an objective merit review, program policy factors, the availability of funds, provisions of appropriation laws, reports, and as otherwise specified in specific solicitation document(s) at <https://eere-exchange.energy.gov/>.

81.089 FOSSIL ENERGY RESEARCH AND DEVELOPMENT

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Public Law 95-91 DOE Organization Act of 1977, as amended by Public Law 109-58 Energy Policy Act 2005. Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93-557; Energy Policy and Conservation Act, Public Law 94-163.

OBJECTIVES:

The mission of the Fossil Energy (FE) Research and Development is to promote the development and use of environmentally and economically superior technologies for supply, conversion, delivery, utilization and reliability constraints of producing and using fossil fuels. These activities will involve cooperation with industry, DOE Laboratories, universities, states, and other government agencies. Success in this mission will benefit the Nation through lower energy costs, reduced environmental impact, increased technology exports, and reduced dependence on insecure energy sources.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Emphasis is on fundamental and applied research and technology development .

Applicant Eligibility:

States, local governments, universities, governmental entities, consortia, nonprofit institutions, commercial corporations, joint Federal/Industry corporations, U.S. Territories, and individuals are eligible to apply.

Beneficiary Eligibility:

Federal, State, local governments, universities, consortia, nonprofit institutions, commercial corporations, joint Federal/Industry corporations, and individuals will benefit.

Credentials/Documentation:

Prior successful research and development experience in the fossil energy field and related areas. 2 CFR 200 Subpart E-Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The application forms must be downloaded from the specific funding opportunity announcement posted on the Grants.gov web-site: <http://www.grants.gov>. Unsolicited Proposals (USP) should be submitted in accordance with the instructions posted at the following web site: <http://www.netl.doe.gov/business/usp/USPGuide.pdf> This program is subject to the provisions of FAR 15.6.

Award Procedure:

DOE opportunity announcement set forth award procedures. Unsolicited proposals will be evaluated by DOE personnel assigned to the specific area with merit reviews as required. This program is excluded from coverage under E.O. 12372.

Deadlines:

Dec 30, 2012: Deadlines are subject to change, Please check with contact person(s) listed. Deadlines vary and are subject to change. There are deadlines stated in the financial assistance opportunity announcement (FOA) posted at <http://www.grants.gov> For USP, there are no deadlines.

Range of Approval/Disapproval Time:

Approximately 90 to 180 days.

Appeals:

None.

Renewals:

Awards may be amended or extended as required.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Varies with each award instrument (grant, cooperative agreement, interagency agreement, etc). MOE requirements are not applicable to this program.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The time period for a grant or cooperative agreement is dependent upon FOA and the individual project award. See the following for information on how assistance is awarded/released: TBD.

Reports:

Quarterly progress and financial reports are required. The final scientific/technical report is typically due within 90 calendar days after the grant or cooperative agreement project period ends. No cash reports are required. Quarterly progress and financial reports are required. The final scientific/technical report is due within 90 calendar days after the grant or cooperative agreement project period ends. TBD. TBD.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In addition, audits will be performed periodically to ensure funds have been applied in accordance with the American Recovery and Reinvestment Act of 2009. Such audits may include a project cost verification, on overhead rate review, and/or a final closeout audit

Records:

Required by grant and cooperative agreement award document.

Account Identification:

89-0224-0-1-271.

Obligations:

(Cooperative Agreements) FY 14 \$535,511,992; FY 15 est \$547,043,033; and FY 16 est \$495,360,004

Range and Average of Financial Assistance:

Award size varies according to the funding opportunity announcement . A majority of the active projects are in the range from \$200,000 to \$10,000,000+.

TAFS Codes:

89-0224.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: 100 projects awarded. Fiscal Year 2015: Estimated 105 projects awarded. Fiscal Year 2016: 73 projected awards.

REGULATIONS, GUIDELINES, AND LITERATURE:

DOE Assistance Regulations, 2 CFR 910; Federal Acquisition Regulation 15.6, Unsolicited Proposals; Guide to Unsolicited Proposals:<http://www.netl.doe.gov/business/ups/unsol.html>

Regional or Local Office:

None. National Energy Technology Laboratory, Acquisition & Assistance Division; P.O. Box 10940, Mail Stop 921-107, 626 Cochran Mill Road, Pittsburgh, PA; 15236-0940. For Unsolicited Proposals, E-mail John Augustine at john.augustine@netl.doe.gov.

Headquarters Office:

Miranda Johnson, 1000 Independence Ave., SW, Washington, District of Columbia 20623 Email: Miranda.Johnson@hq.doe.gov Phone: (202) 586-7661.

Website Address:

No Data Available

RELATED PROGRAMS:

81.057 University Coal Research

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Pre-and Post-Combustion CO2 Capture and Gasification

Technology Research, Development and Testing at a Scale of > 0.01 MWe < MWe. Fiscal Year 2015: Advanced Materials and Methods for Mitigating Wellbore Leaks; Simulation Initiative for High Efficiency Carbon Management Systems. Fiscal Year 2016: High-hydrogen Syngas Production.

CRITERIA FOR SELECTING PROPOSALS:

Criteria varies according to the specific funding opportunity announcements. Typically the selection criteria includes criteria related to merit of the technical work proposed, the reasonableness and thoroughness of the technical approach, the quality of the technical capabilities, facilities and personnel involved in the scope of work, and the thoroughness of the project management plan.

81.104 ENVIRONMENTAL REMEDIATION AND WASTE PROCESSING AND DISPOSAL

Environmental Management

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Low-Level Radioactive Waste Policy Act, Public Law 99-240; Department of Energy Organization Act of 1977, as amended, Public Law 96-573; Hazardous Materials Transportation Uniform Safety Act of 1990, Public Law 101-615; Energy Reorganization Act of 1974, Public Law 93-438; Atomic Energy Act of 1954, Section 31, as amended, Public Law 83-703.

OBJECTIVES:

The Environmental Management Research and Development Program provides for the development of technologies to safely expedite tank waste processing and tank closure, remediation of contaminated groundwater and soil, disposition of nuclear materials and spent (used) nuclear fuel, and deactivation and decommissioning of contaminated excess facilities.

The Environmental Management Research and Development program transforms science and innovation into practical solutions for environmental cleanup. The new technologies will transform the Environmental Management cleanup effort by reducing risk (technological, environmental, safety, and health), schedule, and cost. The Environmental Management Research and Development program focuses on resolving technical challenges with an overall emphasis on transformational technical solutions in response to the highest priority needs of Environmental Management sites. Applied engineering and research demonstrating the technical feasibility of high-risk, high-payoff technologies are included. The Environmental Management Research and Development program matures technologies from concept/basic science through feasibility assessment and technology development (bench scale and scale-up testing and flow-sheet evaluation), then production-level demonstration, and finally to full deployment.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Financial assistance is provided in support of the program objectives. Restrictions on the use of funds depend on the provisions of the specific project agreement. Applicants must meet the guidelines established by DOE or contained in the specific Congressional authorization for a particular program being supported.

Applicant Eligibility:

Public, quasi-public, private industry, individuals, groups, educational institutions, organizations, and nonprofit organizations may apply including State or local level governments, federally recognized Indian tribal governments, and institutions in U.S. Territories and possessions may apply. Determinations are made by DOE EM Headquarters or EM Field Offices, or both.

Beneficiary Eligibility:

States, affected Indian tribes, regional organizations, (including U.S. Territories) local governments, and the public will benefit.

Credentials/Documentation:

Cost will also be determined in accordance with OMB Circular No. A-21 for institutions of higher education or as otherwise defined in the financial assistance instrument. 2 CFR 200, Subpart E - Cost Principles applies to this

program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. A formal proposal by the organization interested in doing the work must be submitted through an appropriate official of the corporate entity, organization, or institution. Financial assistance requests will be reviewed pursuant to the Office of Environmental Management Merit Review System (May 5, 1991) and the DOE Financial Assistance Manual, as amended.

Award Procedure:

Award decisions may be made by DOE Headquarters throughout the fiscal year.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The approximate approval/disapproval time is from 2 months to 1 year.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Proposals for renewal are subject to review and acceptance by DOE Headquarters, the field, or both.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Match requirements will be determined depending upon the award.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Length and time phasing of assistance will vary with the program phase and activity. The maximum term of an award is 5 years. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. At a minimum annual progress reports are required. Frequency of progress reports will be determined at time of award. Expenditure reports will be required. The type and frequency will be determined at time of award. Performance monitoring will be determined at time of award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Costs incurred are subject to audit throughout the contract or grant period and before final close-out. The extent and frequency of audits depend on the size of the contract/grant and the specific contract/grant provisions.

Records:

A grantee is expected to maintain auditable records to substantiate the total costs incurred under the grant or cooperative agreement. In addition, if cost sharing is required, the grantee is also expected to maintain auditable records for the cost sharing portion of the award.

Account Identification:

89-0240-0-1-053; 89-0242-0-1-053.

Obligations:

(Cooperative Agreements) FY 14 \$17,424,000; FY 15 est \$14,000,000; and FY 16 est \$14,510,000

Range and Average of Financial Assistance:

No Data Available.

TAFS Codes:

89-0240.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Tank Waste

Conduct scientific research and development activities to provide the technical basis for supplemental low activity immobilization waste form and to provide a solution for the separation of Technetium-99 from the low activity waste and off-gas recycle streams.

Develop advanced separations methods and alternative treatment technologies and demonstrate performance of alternate waste forms.

Develop strategies and technologies to understand, optimize scale and accelerate tank waste characterization and develop targeted cleaning methods thus enabling waste processing and tank closure schedules to be accelerated and costs reduced.

Support the Joint Cementitious Barriers Partnership / Advanced Simulation Capability for Environmental Management demonstration on near and far-field transport modeling as well as continue to develop and validate various Cementitious Barriers Partnership software modules and continue to support multi-program activities to enhance the understanding of the long-term behavior of glass.

Nuclear Waste Management and Disposition

Conduct scientific research and development activities that support the disposal of government-managed High Level Waste and DOE spent nuclear fuel.

Soil and Groundwater Remediation

Test cleanup scenarios at key DOE sites through the use of Advanced Simulation Capabilities for Environmental Management limited user release toolset.

Develop the technical basis using a systems-based assessment and management approach which will result in a risk-informed End State for the sites.

Provide the scientific foundation for the advanced modeling, characterization, assessments, and remediation by the Applied Field Research Initiatives.

Initiate a pilot demonstration of a new paradigm for long-term monitoring, Phase I master geochemical variables.

Deactivation and Decommissioning

Continue development and testing of innovative embedded sensors and long-term monitoring technologies for In-Situ Decommissioning.

Initiate development of next generation robotic and/or tele-operated platforms to improve efficiency of decontamination and demolition operations.

Initiate development of various long-term monitoring technologies to ensure the safe and cost-effective removal of Plutonium-238 from Savannah River Sites Building 235-F. Fiscal Year 2015: Tank Waste

Provide the technical basis, evaluate and recommend cost and environmentally acceptable strategies and technologies to manage Technetium-99, including removal of Technetium-99 from off-gas recycle processing streams.

Demonstrate performance of alternate waste forms, support the Cementitious Barriers Partnership and long-term glass studies, and develop improved capabilities to optimize slurry mixing and transport waste loading including investigation and development of novel mixing methods.

Continue development of strategies and technologies to understand, optimize scale and accelerate tank waste characterization and continue development of targeted cleaning methods thus enabling waste processing and tank closure schedules to be accelerated and costs reduced.

Develop near-source tank separations, treatment and removal technologies for radionuclides of interest for possible development at the Hanford and Savannah River Sites.

Nuclear Waste Management and Disposition

Build on previous aging management efforts to monitor safe storage of Spent Nuclear Fuel. An example of a potential application is the integration of the remote inspection camera with the corrosion monitoring module to monitor cask materials.

Soil and Groundwater Remediation

Enhance Uncertainty Quantification, Parameter Estimation, and Sensitivity Analysis toolsets of the Advanced Simulation Capability for Environmental Management user released toolset.

Support the utilization of Advanced Simulation Capability for Environmental Management. Initially Hanford, Savannah River, and the Nevada National Security Site will be targeted.

Provide the scientific foundation for the advanced modeling, characterization, assessments, and remediation scenarios by the Applied Field Research Initiatives.

Complete pilot demonstration of a new paradigm for long-term monitoring, Phase I master geochemical variables.

Deactivation and Decommissioning

Continue development of next generation remote and robotic platforms and smart tooling systems.

Conduct a pilot project installing reliable sensors and remote network systems for long-term monitoring of containment release from permanently entombed Deactivation and Decommissioning facilities.

Continue development of various technologies to ensure the safe and cost-effective removal of Plutonium-238 from Savannah River Sites Building 235 F. Fiscal Year 2016: Tank Waste

Develop the technical basis to identify, evaluate, and recommend cost-effective and environmentally-acceptable strategies and technologies to characterize, mitigate, and manage Technetium-99 in tank waste, including removal of Technetium-99 processing recycle streams.

Develop predictive tools to predict and demonstrate the performance of alternate waste forms, support the Cementitious Barriers Partnership, continue long-term glass studies, and develop improved capabilities such as computational fluid dynamic tools to optimize slurry mixing and transport waste loading including investigation and development of novel mixing methods.

Pursue technical efforts to develop strategies and technologies to understand, evaluate, optimize scale, and accelerate tank waste characterization and continue development of targeted cleaning methods thus enabling waste processing and tank closure schedules to be accelerated and costs reduced.

Identify, develop, evaluate, and demonstrate near-source tank separations, treatment and removal technologies for radionuclides of interest for possible development at the Hanford and Savannah River Sites.

Nuclear Waste Management and Disposition

Build on previous aging management efforts to monitor safe storage of Spent Nuclear Fuel. New Technology will support requirements for NRC license.

Soil and Groundwater Remediation

Enhance Uncertainty Quantification, Parameter Estimation, and Sensitivity Analysis toolsets of the Advanced Simulation Capability for Environmental Management user released toolset.

Support the utilization of Advanced Simulation Capability for Environmental Management. Initially Hanford, Savannah River, and the Nevada National Security Site will be targeted.

Provide the scientific foundation for the advanced modeling, characterization, assessments, and remediation scenarios by the Applied Field Research Initiatives.

Complete pilot demonstration of a new paradigm for a long-term monitoring, Phase I master geochemical variables.

Conduct deep borehole field test.

Deactivation and Decommissioning

Develop the prerequisite level of project plans to facilitate and initiate development of next generation remote and robotic platforms and smart tooling systems to improve efficiency of decontamination and demolition operations.

Continue development/testing of the GrayQb 3-D Radiation Mapping Device to validate and provide real time intensity and location readouts. Develop and test automated digital non-destructive assay methods optimization resulting in near-real time defensible data.

Develop and test advanced coatings and materials to significantly reduce/eliminate radiolysis effects in radiological waste containment bags.

Conduct final testing and seek commercialization of incombustible agents and fixatives with delivery systems for remote decontamination operations.

Develop, test and conduct a pilot project, installing reliable sensors and

remote network systems for long-term monitoring of containment release and movement from permanently entombed D&D facilities.

Continue with further application of the ISD Sensor Network at entombed and/or facilities awaiting entombment to establish data to augment the existing compliance monitoring network.

Research must be beneficial to the overall accomplishment of the program objectives and consistent with the criteria of the EM Merit Review System (i.e., technically meritorious, qualified principal investigators, adequate facilities for conduct of the work, past experience and performance history).

81.105 NATIONAL INDUSTRIAL COMPETITIVENESS THROUGH ENERGY, ENVIRONMENT, AND ECONOMICS

(NICE3) or NICE Cubed

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Department of Energy Organization Act of 1977, as amended, Public Law 95-91; Energy Policy Act of 1992, as amended, Public Law 102-486.

OBJECTIVES:

This program is in close-out. Financial assistance will not be provided in the future.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

None.

Applicant Eligibility:

None.

Beneficiary Eligibility:

Both state and local governments benefited from these grants. Commercial firms with expertise in waste reduction and pollution prevention, large and small businesses, and others in the business of preventing pollution and energy conserving technologies also benefited.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. NICE3 is in close-out mode. There is no appropriation for grant project funding.

Award Procedure:

None.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Unsuccessful applicants from the competitive solicitation were entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Projects covered a period of up to 3 years with release of funding subject to work progress. Access to process implementation and efficiency data is to be available for 10 years after project completion to measure performance against expectation and to support commercialization of the technology. See the following for information on how assistance is awarded/released: Not Applicable.

Reports:

Not Applicable.

Audits:

Not Applicable.

Records:

81.106 TRANSPORT OF TRANSURANIC WASTES TO THE WASTE ISOLATION PILOT PLANT: STATES AND TRIBAL CONCERNS, PROPOSED SOLUTIONS

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

National Security and Military Application of Nuclear Energy Authorization Act, Public Law 96-164, Public Law 96-164; Waste Isolation Pilot Plant Land Withdrawal Act, 102-579, as amended by Waste Isolation Pilot Plant Withdrawal Act, Public Law 104-201, Public Law 104-201, as amended by Energy Reorganization Act of 1974, as amended by Atomic Energy Act of 1954, as amended by Public Law 83-703, Public Law 83-703.

OBJECTIVES:

To enlist cooperation among the Tribal and the Southern, Western, and Midwest state governments along the Waste Isolation Pilot Plant (WIPP) shipping corridors in developing plans and procedures for the safe and uneventful transportation of transuranic waste from current temporary storage facilities to the WIPP.

To fund WIPP route road repairs to improve safety for the transportation of defense transuranic waste to the WIPP facility and improve safe driving conditions for WIPP employees.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

The participating States, tribes, and the DOE will work to develop, coordinate, and implement activities in accident prevention, emergency preparedness, and public information programs to help ensure the safe transportation of transuranic waste to the WIPP site and safe disposal operations. Financial assistance is provided to support cooperation among the tribes, the Southern, Western, and Midwestern states along the WIPP shipping corridors, in developing plans and procedures for the safe uneventful transportation of transuranic waste from current temporary storage facilities to WIPP. Restrictions on the use of these funds depend on the specific collaborative agreement. Applicants must meet the guidelines established by DOE.

The State of New Mexico is authorized to use funds in accordance with the General Principals of Agreement dated April 30, 2015, by and between the State of New Mexico, the Department of Energy, Nuclear Waste Partnership LLC and Los Alamos Nuclear Security LLC.

Applicant Eligibility:

Eligibility is restricted by action of the Western Governors' Association, Southern States Energy Board, the State of New Mexico, Council of State Governments (midwest region), and tribal governments along WIPP transportation routes. DOE administers agreements with 10 southern State governments, and two Midwest state governments. The Western Governors' Association is the negotiating body for 12 western states on the WIPP transportation route. Each tribal government on the WIPP transportation route elected to represent themselves. Participation in this program is restricted to the above list of organizations and to the affected tribal governments. For WIPP route road repairs, eligibility is restricted to the State of New Mexico.

Beneficiary Eligibility:

Benefits from this program will go to DOE and the State and tribal governments located on the WIPP disposal phase shipping corridor.

Benefits from the WIPP route road repairs will go to DOE and the State of New Mexico.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Environmental impact information may be required for the WIPP route road repairs only. Environmental impact information is not required for this

program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. After informal communication, a formal proposal by the applicant is submitted to the DOE Carlsbad Field Office. Note: All eligible parties are participating in the program and applications from others will not be accepted.

Award Procedure:

Decisions are made by DOE Carlsbad Field Office. Award documents are then prepared.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Not Applicable.

Renewals:

Awards to state and tribal governments may be renewed as long as WIPP shipments are still being transported through those states or tribes.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Schedule for DOE payments will be established during negotiations. See the following for information on how assistance is awarded/released: After receipt and review of the recipient's proposal, the award document is prepared and issued to the recipient.

Reports:

Quarterly financial reports are submitted using SF-425. Quarterly/Annual progress reports containing accomplishments and information on cost status. No cash reports are required. Progress reports are required quarterly and annually. A reporting schedule will be established during negotiations. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audit reports are to be provided to DOE.

Records:

The grantee is expected to maintain records to fulfill auditing needs in accordance 2 CFR 200.

Account Identification:

89-0242-0-1-053.

Obligations:

(Salaries) FY 14 \$6,446,000; FY 15 est \$11,319,000; and FY 16 est \$11,989,000 - obligations rounded to nearest million.

Range and Average of Financial Assistance:

\$50,000 to \$7,000,000 per year.

TAFS Codes:

89-0242.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

The awards are restricted to the entities listed in the "Applicant Eligibility" portion of this program listing. Eligibility is restricted by action of the Western Governors' Association, Southern States Energy Board, the State of New Mexico, the Council of State Governments (midwest region) and tribal governments along WIPP transportation routes. Each tribal government on the WIPP transportation route elected to represent themselves. Participation in this program is restricted to the above list of organizations and to affected tribal governments.

81.108 EPIDEMIOLOGY AND OTHER HEALTH STUDIES FINANCIAL ASSISTANCE PROGRAM

Health Studies

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Energy Reorganization Act of 1974, Title I, Section 107, Public Law 93-438, 88 Stat. 1240, 42 U.S.C. 5817; Federal Nonnuclear Energy Research and Development Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101 ; Atomic Energy Act of 1954, as amended, Section 31, Public Law 83-703, 68 Stat. 919, 42 U.S.C. 2051;.

OBJECTIVES:

To provide financial support for research, education, conferences, communication, and other activities relating to the health of Department of Energy workers, as well as other populations potentially exposed to health hazards associated with energy production, transmission, and use.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Financial support, in whole or in part, may be provided for such purposes as the salaries, materials and supplies, equipment, travel, publication costs, training costs, and services required for conducting research, training, related activities, and advanced technology projects or assessments. Restrictions on use of funds depend on award provisions. Support is provided for work in such areas as the health experience of DOE and DOE contractor workers; health experience of populations living near DOE facilities; health experience of workers exposed to toxic substances; use of biomarkers to recognize exposure to toxic substances; conduct of epidemiologic and other health studies relating to energy production, transmission, and use (including electromagnetic fields) in the United States and abroad; compilation, documentation, management, use, and analysis of data for the DOE Comprehensive Epidemiologic Data Resource; and other systems or activities enhancing these areas, as well as other program areas as may be described by notice published in the Federal Register.

Applicant Eligibility:

Colleges and universities, businesses, and nonprofit institutions may apply.

Beneficiary Eligibility:

Colleges and universities, businesses, and nonprofit institutions will benefit.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-21 for institutions of higher education. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. A formal application by the principal investigator interested in doing the work is required. If submitted on behalf of an institution, the application should be sent through the appropriate administrative official. In the case of any competitive solicitations issued under this program, the application forms must be downloaded from the specific funding opportunity announcement posted on the Grants.gov web-site at <http://www.grants.gov/>.

Award Procedure:

Decisions to approve are made by the Headquarters Program Director. DOE procurement offices are then instructed to negotiate and prepare an appropriate award document.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 120 to 180 days. Normally 6 months.

Appeals:

From 60 to 90 days.

Renewals:

From 60 to 90 days. Proposals for renewal are subject to review and acceptance by the Headquarters Office.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The schedule of DOE payments is arranged at the time of award. See the following for information on how assistance is awarded/released:
Incrementally funded unless full funding is available.

Reports:

No program reports are required. No cash reports are required. Progress/status reports detailing monthly activities are required. Expenditure reports detailing accrued costs are required. Performance shall be monitored and details provided in the monthly progress reports.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. "In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, nonfederal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503"

Records:

Recipient is expected to maintain records required to audit or otherwise substantiate costs incurred under the grant.

Account Identification:

89-0224-0-1-271.

Obligations:

(Project Grants) FY 14 \$25,136,500; FY 15 est \$25,146,500; and FY 16 est \$25,146,500

Range and Average of Financial Assistance:

\$10,000 to \$6,000,000. Average about \$1.5 Million.

TAFS Codes:

89-0224.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

10 CFR 602. Guidelines and current program announcements are included in application kits.

Regional or Local Office:

None.

Headquarters Office:

Ron W. Barnes, 1000 Independence Ave., SW, Washington, District of Columbia 20585 Email: ron.barnes@hq.doe.gov Phone: (301) 903-1244.

Website Address:

<http://energy.gov/ehss/environment-health-safety-security>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Medical Surveillance of Former Workers, Marshall Islands Medical Program, Russian Health Studies Program. Fiscal Year 2015: Medical Surveillance of Former Workers, Marshall Islands Medical Program, Russian Health Studies Program. Fiscal Year 2016: Medical Surveillance of Former Workers, Marshall Islands Medical Program, Russian Health Studies Program.

CRITERIA FOR SELECTING PROPOSALS:

The scientific and technical merit of the proposed research, appropriateness of the proposed method or approach, competency of research personnel and adequacy of proposed resources, reasonableness and appropriateness of the proposed budget, and other appropriate factors set forth in a Notice of Availability or in a specific solicitation.

81.112 STEWARDSHIP SCIENCE GRANT PROGRAM

Stewardship Science Academic Alliances Programs (SSAP)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, as amended, Section 31, Public Law 83-703, 68 Stat. 919, 42 U.S.C. 2051; Energy Reorganization Act of 1974, Title 1, Section 107, Public Law 93-438, 88 Stat. 1240, 42 U.S.C. 5817; Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93-577; Department of Energy Organization Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101.

OBJECTIVES:

(1) To grow the U.S. scientific community through university involvement in areas of fundamental science and technology relevant to stockpile stewardship; (2) to promote and sustain scientific interactions between the academic community and scientists at the NNSA laboratories; (3) to train scientists in specific areas of long-term research relevant to stockpile stewardship; (4) to increase the availability of unique experimental facilities sited at NNSA's laboratories to the academic community, particularly for collaborations in areas of relevance to stockpile stewardship; and (5) to develop and maintain a long-term recruiting pipeline to NNSA's laboratories by increasing the visibility of NNSA's Defense Program's scientific activities to the U.S. faculty and student communities.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Financial support in whole or in part may be provided for such purposes as the

salaries, materials and supplies, equipment, travel, publication costs, training costs, and services required for conducting research, training, related activities, and advanced technology projects or assessments. Funding is provided for basic and applied research in the field of physical science in support of the DOE stockpile stewardship program. Restrictions on use of funds depend on grant provisions. Funding is provided for the purpose of exploring an idea that does not unnecessarily duplicate work already in progress or contemplated by DOE, is not already known to DOE, or has previously unrecognized merit. Some solicitations are open to institutions of higher education only.

Applicant Eligibility:

Some solicitations are open to institutions of higher education only and others include nonprofit organizations and for profit commercial organizations. See individual funding opportunity announcements for details on eligibility.

Beneficiary Eligibility:

Depending upon the eligibility requirements of the individual solicitation, U.S. public and private institutions of higher education and/or nonprofit organizations and for profit commercial organizations will benefit. The Federal government will also benefit from the research of these grants.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Proposals should be submitted as specified in the funding opportunity announcement posted at <http://www.grants.gov/>.

Award Procedure:

Proposals will be screened for stewardship relevance and then reviewed for scientific and technical merit by qualified individuals. The review and selection process for each funding opportunity are included in the solicitation. Decisions to approve are made by a Headquarters program official within the Program Office. Selected proposals will be forwarded to the NNSA Albuquerque Complex for grant development, negotiation and award.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days. Approximately 90 to 180 days.

Appeals:

Not Applicable.

Renewals:

Proposals for renewal are subject to review and acceptance by the Program Office.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Generally, grants are approved for two-year or three-year project periods and funded one year at a time. Depending upon specific circumstances, grant project periods may range from one year to five years, at the discretion of the program office. Cooperative Agreements typically have five-year project periods and are funded one year at a time. See the following for information on how assistance is awarded/released: The NNSA Albuquerque Complex will make determination of method of funding release at the time of award.

Reports:

No program reports are required. SF425 quarterly. Progress Reports annually. No expenditure reports are required. Performance monitoring is required for Cooperative Agreements.

Audits:

No audits are required for this program.

Records:

Recipient is expected to maintain auditable records to substantiate the total costs incurred under the grant.

Account Identification:

89-0240-0-1-053.

Obligations:

(Project Grants (Cooperative Agreements)) FY 14 \$107,750,000; FY 15 est \$110,000,000; and FY 16 est \$100,000,000

Range and Average of Financial Assistance:

grants \$50,000 - \$750,000 per year
Cooperative agreements \$1,000,000-\$63,000,000 per year.

TAFS Codes:

89-0240.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The research supported helps to increase U.S. efforts in physical science relevant to stockpile stewardship and trains future scientific talent in these areas. Results and accomplishments of basic research performed under these programs are reported in open scientific literature. University research programs often support graduate students who assist principal investigators with research programs. Fiscal Year 2015: The research supported helps to increase U.S. efforts in physical science relevant to stockpile stewardship and trains future scientific talent in these areas. Results and accomplishments of basic research performed under these programs are reported in open scientific literature. University research programs often support graduate students who assist principal investigators with research programs. Fiscal Year 2016: The research supported helps to increase U.S. efforts in physical science relevant to stockpile stewardship and trains future scientific talent in these areas. Results and accomplishments of basic research performed under these programs are reported in open scientific literature. University research programs often support graduate students who assist principal investigators with research programs.

REGULATIONS, GUIDELINES, AND LITERATURE:

10 CFR 600, Federal Statutes, OMB Circulars, and other Government-wide guidance implementing 10 CFR 600, DOE Acquisition Policy and Guidance, DOE Guide to Financial Assistance.

Regional or Local Office:

None.

Headquarters Office:

Terri Lynn Stone 19901 Germantown Road, Germantown, Maryland 20874
Email: terri.stone@nnsa.doe.gov Phone: 3019037423

Website Address:

<http://www.nnsa.energy.gov>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Center for Pulsed-Power-Driven High-Energy-Density Plasmas; University of Texas Center for High Energy Density Science; A Center of Excellence for High Pressure Science and Technology; Center of Excellence for Radioactive Ion Beam Studies for Stewardship Science; Cross Section Level Densities and Strength Functions; Developing Surrogate Reaction Techniques to Determine Neutron Capture Rates; Relativistic Study of X-ray Polarization Spectroscopy for Fusion Plasmas. Fiscal Year 2015: Center for Pulsed-Power-Driven High-Energy-Density Plasmas; University of Texas Center for High Energy Density Science; A Center of Excellence for High Pressure Science and Technology; Center of Excellence for Radioactive Ion Beam Studies for Stewardship Science; Carnegie/DOE Alliance Center -A Center of Excellence for High Pressure Science and Technology. Fiscal Year 2016: Center for Pulsed-Power-Driven High-Energy-Density Plasmas; University of Texas Center for High Energy Density Science; A Center of Excellence for High Pressure Science and Technology; Center of Excellence for Radioactive Ion Beam Studies for Stewardship Science; University of

Tennessee Radiochemistry Center of Excellence; High Pressure Science and Engineering Center; Carnegie/DOE Alliance Center -A Center of Excellence for High Pressure Science and Technology.

CRITERIA FOR SELECTING PROPOSALS:

(1) Alignment with the areas of technical scope; (2) Scientific/technical merit of the project, including innovativeness and originality; (3) Expected impact on the area of technical scope addressed; (4) Consistency with the objective of this academic alliances program to focus on advanced experimental investigations; (5) Qualifications of the Applicant's personnel and adequacy of proposed resources; (6) Feasibility of plans for carrying out the proposed research, considering such factors as: appropriateness of the technical method and approach, facility compatibility, other commitments, competition and timing; (7) For projects currently receiving funding under this program, the scientific impact of recent results and accomplishments; (8) Level of interaction with NNSA/DP laboratory personnel and the potential to train students in scientific areas defined by the technical scope in order to build a long-term recruiting pool for the NNSA/DP laboratory complex. Generally, a higher degree of interaction both quantitatively and qualitatively is considered desirable; (9) Leverage provided by cost sharing with other funding sources.

81.113 DEFENSE NUCLEAR NONPROLIFERATION RESEARCH

Defense Nuclear Nonproliferation Research and Development

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, as amended, Section 3157, Public Law 101-189, 103 Stat. 1684, 42 U.S.C. 2051, Section 3157, 1684 Stat. 42, 2051 U.S.C., Section 3157, 1684 Stat. 42, 2051 U.S.C 3157; Energy Reorganization Act of 1974, Title I, Section 107, Public Law 93-438; 88 Stat. 1240, 42 U.S.C. 5817, Title I, Section 107, 1240 Stat. 42, 5817 U.S.C.; Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93-577; Department of Energy (DOE) Organization Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101.

OBJECTIVES:

To conduct basic and applied research and development that enhances U.S. national security and reduces the global danger from the proliferation of weapons of mass destruction and special nuclear materials through needs-driven research and development. The emphasis is on developing the requisite technologies to detect and deter nuclear proliferation and to meet U.S. nuclear detonation detection goals. Research focuses on advanced detection systems and concepts to support current and future USG policies. Support also-address the pressing shortfalls in trained professionals capable of supporting crucial nuclear nonproliferation missions such as nuclear forensics and international safeguards.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Financial support, in whole or in part, may be provided for salaries, materials, supplies, equipment, travel, publication costs, services required for conducting nonproliferation research and development to reduce the global danger from the proliferation of weapons of mass destruction. Construction or related costs are not allowed under these project grants. All work must comply with export control regulations. . .

Applicant Eligibility:

Universities (public and private), institutions of higher education, whose activities benefit the general public through results which are available to the National Nuclear Security Administration (NNSA), other U.S. government agencies, and universities and institutions of higher learning may apply.

Beneficiary Eligibility:

The NNSA, other U.S. government agencies, universities and institutions of higher learning will benefit.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-21 for institutions of higher learning. For Non-government organizations, Costs will

be determined in accordance with OMB Circular No. A-122 . This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110. The NNSA Service Center in Albuquerque, New Mexico issues Funding Opportunity Announcements (FOAs) under which formal applications may be submitted by a scientist or principal investigator who will conduct or lead the research team. The FOAs will be posted to Grants.gov which can be accessed at: <http://www.grants.gov>.

Award Procedure:

Evaluations will be conducted by technical staff assigned to the Office of Defense Nuclear Nonproliferation Research and Development or at the DOE national laboratories. Final decisions for approval are made by the source selection authority. DOE/NNSA Procurement is then instructed to negotiate and prepare the grant award documents. Program management responsibilities may be delegated as a whole or in part to the NNSA Service Center or NNSA Site Offices.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 90 days. Deadlines will be provided in the individual FOAs posted at Grants.gov.

Appeals:

Not Applicable.

Renewals:

Grants will be modified and extended as required. Renewals are subject to an annual review by the Headquarters and/or NNSA Service Center.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The grant period is for up to three years depending upon available appropriations. The schedule of payments is arranged at the time of award, but it is expected that proposals will be fully funded for their three year lifecycles in one lump sum. See the following for information on how assistance is awarded/released: Depending on the program some can be awarded lump sum or incrementally funded.

Reports:

No program reports are required. Cash reports are not applicable. Quarterly Progress reports, and final reports are required. Also progress is reported annually at the University Industry Technical Interchange meeting for the life of the project. In the first year creation of a poster for project presentation is required and formal presentations are required thereafter. All projects are subject to this audit process. Expenditure reports are not applicable. Independent performance and merit reviews are required in the second year of the lifecycle. All projects are subject to this audit process.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

None.

Account Identification:

89-0243-0-1-053.

Obligations:

(Project Grants) FY 14 \$24,458,745; FY 15 est \$5,000,000; and FY 16 est \$15,000,000

Range and Average of Financial Assistance:

The expected range of Awards is approximately \$25,000,000; \$5,000,000/year for five years for the lifecycle of the project.

TAFS Codes:

89-0309.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: 17 new grants awarded. Fiscal Year 2015: no grants awarded (or 3 if the continued funding of the Consortia counts). Fiscal Year 2016: 1 new grant awarded.

REGULATIONS, GUIDELINES, AND LITERATURE:

See Code of Federal Regulations (CFR); 10 CFR 600 and OMB Circulars

Regional or Local Office:

None.

Headquarters Office:

Ivy D. Martin, 1000 Independence Ave SW, Washington , District of Columbia 20585 Email: ivy.martin@hq.doe.gov Phone: (202) 586-2246 Fax: (202) 586-0485.

Website Address:

<http://www.nnsa.doe.gov/na-20>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: no new grants. Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

The selection process will be determined on the following criteria: 1) mission relevance; 2) overall scientific and technical merit; 3) research duplication and 4) management approach.

81.117 ENERGY EFFICIENCY AND RENEWABLE ENERGY INFORMATION DISSEMINATION, OUTREACH, TRAINING AND TECHNICAL ANALYSIS/ASSISTANCE

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Energy Reorganization Act of 1974, 42 U.S.C. 5813(6)(7)(8); ARRA 2009, 42 U.S.C 5813 (6-8); Department of Energy Organization Act of 1977, 42 U.S.C 712; Energy Policy Act 1992 , 42 U.S.C 13231.

OBJECTIVES:

The Department of Energy (DOE) seeks to provide financial assistance for information dissemination, outreach, training and related technical analysis/assistance which will: (1) stimulate increased energy efficiency in transportation, buildings, industry and the Federal sector and encourage increased use of renewable and alternative energy; and (2) accelerate the adoption of new technologies to increase energy efficiency and the use of renewable and alternative energy through the competitive solicitation of applications.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Financial assistance is provided in support of the program objectives as described in a single competitive solicitation or multiple competitive solicitations. The solicitation(s) will provide funding in various program areas within the Office of Energy Efficiency and Renewable Energy: Solar, Wind and Hydropower, Geothermal, Biomass, Industrial Technologies, FreedomCAR, Building Technologies, Weatherization and Intergovernmental, Federal Energy Management Program, and the Office of the Assistant Secretary for Energy

Efficiency and Renewable Energy. Restrictions on use of funds depend on the provisions of the specific project agreement.

Applicant Eligibility:

Profit organizations, individuals, private nonprofit institutions/organizations, public nonprofit institutions/organizations, State and local governments, Native American organizations, Alaskan Native corporations and universities may apply. DOE Laboratories are not eligible.

Beneficiary Eligibility:

Profit organizations, individuals, private nonprofit institutions/organizations, public nonprofit institutions/organizations, State and local governments, Native American organizations, Alaskan Native corporations and universities benefit.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The application forms must be downloaded from the specific funding opportunity announcement posted on the grants.gov website at <https://eere-exchange.energy.gov/> and <http://www.grants.gov/>. A separate application must be submitted for each DOE Energy Efficiency and Renewable Energy (EERE) Program Area of Interest.

Award Procedure:

All applications which pass an initial review will receive an objective merit review. Objective Merit Review Committees will evaluate applications based on the evaluation criteria set forth in the competitive solicitation. After the Merit Review Committee has completed its evaluations, an EERE Office Director or other Program Official will evaluate the applications against program policy factors set forth in the competitive solicitation. Final decisions will be made by the EERE Assistant Secretary, Deputy Assistant Secretaries, and the Director of the Federal Energy Management Program.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. None.

Appeals:

Unsuccessful applicants are entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Renewals are subject to review by the headquarters program office and subject to the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Length and time phasing of assistance will vary with the program phase and activity. The maximum term of awards varies among the Program Areas of Interest and ranges from 6 months to 5 years. See the following for information on how assistance is awarded/released: Funds are released through the Electronic Transfer System. Annual budget periods are set by each grantee within parameters established by DOE.

Reports:

No program reports are required. No cash reports are required. Quarterly progress reports, and a final report at the conclusion of the grant time period. Quarterly expenditure reports, and a final report at the conclusion of the grant time period. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Costs incurred are subject to audit throughout the grant period and before final close-out per 2 CFR 200 subpart F (for other than for-profit entities). For-profit recipients are subject to the audit requirements in 2 CFR 910.501.

Records:

A grantee is expected to maintain auditable records to substantiate the total costs incurred under the grant per 2 CFR 200.

Account Identification:

89-0321-0-1-270.

Obligations:

(Cooperative Agreements) FY 14 \$27,078,026; FY 15 est \$12,737,241; and FY 16 Estimate Not Available

Range and Average of Financial Assistance:

Vary.

TAFS Codes:

89-X-0331; 89-X-0321.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Education, Outreach, and Technology Transfer projects.
Fiscal Year 2015: Education, Outreach, and Technology Transfer projects.
Fiscal Year 2016: Education, Outreach, and Technology Transfer projects.

REGULATIONS, GUIDELINES, AND LITERATURE:

The following list represents an overview of regulations, guidelines, and literature: EERE Federal Register notices; EERE Solicitations, which may be accessed through the EERE homepage at: <http://www.eere.energy.gov/>; DOE Financial Assistance Regulations (2 CFR 200 as amended by 2 CFR 910); and the DOE Guide to Financial Assistance, both of which may be accessed through the DOE Office of Management home page at http://management.energy.gov/policy_guidance.htm

Regional or Local Office:

None.

Headquarters Office:

James Cash 15013 Denver West Parkway, Golden, Colorado 80401 Email: james.cash@ee.doe.gov Phone: 240-562-1456

Website Address:

<http://www.eere.energy.gov>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Selection will be based on an objective merit review recommendation, program policy factors, the amount of funds available, provisions of appropriation law and reports and as otherwise specified in the solicitation document at <https://eere-exchange.energy.gov/>.

81.119 STATE ENERGY PROGRAM SPECIAL PROJECTS

SEP Competitive Grants

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

National Energy Conservation Policy Act of 1978, Public Law 95-619; ARRA 2009, Public Law 619-95; Balanced Budget Down Payment Act II of 1996; ARRA 2009, Public Law 134-104; Energy Policy and Conservation Act; ARRA 2009, Title III, Part C, Section 361-366, Public Law 163-94, 42 U.S.C 6321-6326; Energy Organization Act of 1977, as amended, Public Law 95-91,

42 U.S.C. 710; ARRA 2009, Public Law 91-95, 42 U.S.C 7101.

OBJECTIVES:

To allow States to submit proposals to implement specific Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy deployment activities and initiatives as Special Projects under the State Energy Program. States will compete for funding to implement activities relating to a number of programmatic areas such as building codes and standards, alternative fuels, industrial efficiency, building efficiency, and solar and renewable technologies.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Financial support, in whole or in part, may be provided for salaries, materials, and supplies, equipment, travel, publication costs, and services required for implementing the activities described in the application at <https://eere-exchange.energy.gov/>.

Applicant Eligibility:

All States plus the District of Columbia, the U.S. Virgin Islands, Puerto Rico, Guam, Samoa, and the Commonwealth of the Northern Mariana Islands may apply.

Beneficiary Eligibility:

States, territories, and their project partners will benefit.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200 subpart E for State and local Governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Audit procedures in accordance with 2 CFR 200 subpart F (for other than for-profit recipients). For-profit recipients are subject to the audit requirements in 2 CFR 910.501. In addition, audit requirements need to comply with the Energy Independence and Security Act of 2007. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The application forms must be downloaded from the specific funding opportunity announcement posted at the EERE exchange web-site: at <https://eere-exchange.energy.gov/> or <http://www.grants.gov>. Applicants for sub-awards from the states should consult the office or official designated as the single point of contact within the State for more information on the process the State requires to be followed in applying for assistance.

Award Procedure:

Evaluations will be conducted by staff of the Office of Energy Efficiency and Renewable Energy end-use sectors participating in the annual solicitation. Final decisions to approve are made by Assistant Secretary Office of Energy Efficiency and Renewable Energy. DOE Field Offices are then instructed to negotiate and prepare the grant award documents.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. Deadlines are set forth in the solicitation at <https://eere-exchange.energy.gov/>.

Appeals:

None.

Renewals:

Renewals are subject to review by the headquarters program office and subject to the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 20%. Competitive SEP projects have a 20% cost matching requirement.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Vary. See the following for information on how assistance is awarded/released: Funds are released through the Electronic Transfer System.

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Costs will be verified and subject to audit according to 2 CFR 200 subpart F (for other than for-profit recipients. For-profit recipients are subject to the audit requirements at 2 CFR 910.501

Records:

Record retention in accordance with 2 CFR 200.

Account Identification:

89-0321-0-1-270.

Obligations:

(Project Grants) FY 14 \$4,815,495; FY 15 est \$4,797,791; and FY 16 Estimate Not Available

Range and Average of Financial Assistance:

500,000 - 1,000,000.

TAFS Codes:

89-X-0321.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

EERE SEP Program and 2 CFR 200

Regional or Local Office:

RELATED PROGRAMS:

81.041 State Energy Program

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

The selection process will be determined by the criteria announced in the annual solicitation.

81.121 NUCLEAR ENERGY RESEARCH, DEVELOPMENT AND DEMONSTRATION

(NE RD&D)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act, Section 31, Public Law 83- 703, 42 U.S.C 2051; Atomic Energy Act of 1954, as amended, Section 32, Public Law 83-703, 68 Stat. 919, 42 U.S.C 2051; Energy Reorganization Act of 1974, Title I, Section 107, Public Law 93-438, 88 Stat. 1240, 42 U.S.C 5817; Department of Energy Organization Act of 1977, as amended, Public Law 95-91, 88 Stat. 1240, 42 U.S.C 7101.

OBJECTIVES:

Provide financial assistance to address key issues affecting the worldwide use of nuclear energy through the research, development, and demonstration of

science and technology fields related to nuclear energy and its underlying sciences.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Financial assistance, opportunities are defined in individual solicitations available on the DOE website or Grants.gov. Notices published on Grants.gov define research, development, and demonstration areas that the Department intends to support such as: advanced reactors, fuel and reactor concepts that minimize proliferation risks, nuclear fuel and fuel cycles, advanced instrumentation, controls, simulation, modeling and analyses, nuclear waste management, construction, manufacturing and fabrication technologies, and related fundamental nuclear science areas in materials, reactor physics, chemistry, radiochemistry, health physics, and thermal hydraulics and fluid dynamics. Notices published on Grants.gov define development or demonstration projects and study areas activities that the Department intends to support such as: advanced designs, technologies or techniques, new regulatory or licensing requirements, and economic analyses. For a given solicitation, financial assistance may be available in whole or in part, for the following in support of nuclear energy research and related fields in development and demonstration activities: salaries, materials and supplies, equipment, travel, publication costs, subcontractor and supporting costs required for technical activities, market analyses, financing plans and other activities necessary to achieve the objective. Restrictions on use of funds depend on solicitation and award provisions.

Applicant Eligibility:

Federal, State, local governments, universities, consortia, nonprofit institutions, commercial corporations, and individuals may apply.

Beneficiary Eligibility:

Any individual, partnership, corporation, association, joint venture, institution of higher education, or nonprofit organization will benefit.

Credentials/Documentation:

Costs will be determined in accordance with 2 CFR 200, and as amended by 910. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. DOE solicitations set forth award procedures. Refer to www.ne.doe.gov for additional information.

Award Procedure:

DOE solicitations set forth award procedures. Applications will receive an objective merit review. The objective merit review will be based on evaluation criteria set forth in the competitive solicitation. Evaluations will be coordinated by a Merit Review Chair and conducted by a review board. This responsibility will be performed by the Office of Nuclear Energy or delegated to a DOE Operations Office. Final decisions will be made by the approved Program Officer or the delegated Source Selection Official. For additional information, please refer to www.ne.doe.gov.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

> 180 Days. Normally 6 to 9 months.

Deadlines for submissions will be posted in the individual funding opportunities posted at <http://www.grants.gov>.

Appeals:

Not Applicable.

Renewals:

Proposals for renewal are subject to review and acceptance by the Program

Director or Selection Official.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements. As stated in each solicitation. This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

The period of performance and schedule of DOE payments is arranged at the time of award. See the following for information on how assistance is awarded/released: ASAP Method of Payment.

Reports:

As stated in each solicitation. Cash reports are not applicable. As stated in each solicitation. Normally quarterly financial status reports will be required. Performance monitoring is tracked and reported according to set procedures dictated in each solicitation.

Audits:

Not Applicable.

Records:

Award recipient is expected to maintain auditable records to substantiate total costs incurred under the agreement and as required by the financial assistance award.

Account Identification:

89-0319-0-0-000.

Obligations:

(Project Grants (Cooperative Agreements)) FY 14 \$175,081,367; FY 15 est \$172,263,384; and FY 16 est \$180,000,000

Range and Average of Financial Assistance:

Award Range:\$400,000 to 1,000,000. Average Award Amount: \$800,000.

TAFS Codes:

89-0319.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: See the NE Web site at <http://energy.gov/ne/office-nuclear-energy>. Fiscal Year 2015: Similar to prior years. Fiscal Year 2016: Similar to prior years.

REGULATIONS, GUIDELINES, AND LITERATURE:

NE Federal Register notices; NE Solicitations; DOE Financial Assistance Regulations (2 CFR 200); and the DOE Guide to Financial Assistance, which may be accessed through the DOE Office of Procurement and Assistance Management webpage at: http://www.management.energy.gov/policy_guidance.htm.

Regional or Local Office:

None. Office of Nuclear Energy, 1000 Independence Ave. SW Washington DC 20585

Contact: Ken Osborne, Telephone: (301) 903-3723.

Headquarters Office:

Ken Osborne 1000 Independence Ave, SW , Washington , District of Columbia 20585 Email: kenny.osborne@nuclear.energy.gov Phone: (301) 903-3723

Website Address:

<http://www.ne.doe.gov/>

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: See the NE Web site at <http://energy.gov/ne/office-nuclear-energy>. Fiscal Year 2015: See the NE Web site at <http://energy.gov/ne/office-nuclear-energy>. Fiscal Year 2016: Similar to previous years.

CRITERIA FOR SELECTING PROPOSALS:

Each proposal will be evaluated based on an objective merit review in accordance with the requirement of "DOE Financial Assistance Regulations" (2 CFR 200) and the evaluation criteria set forth in the competitive solicitations. These criteria will include: appropriateness of the proposal method or approach,

competency of research personnel and adequacy of proposed resources, reasonableness and appropriateness of the proposed budget, and other appropriate factors.

81.122 ELECTRICITY DELIVERY AND ENERGY RELIABILITY, RESEARCH, DEVELOPMENT AND ANALYSIS

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Energy Policy Act of 1992 (EPACT), Public Law 102-486; Energy Security Act of 1980, Public Law 96-294; Energy Tax Act of 1978, Public Law 95-618; Energy Policy Act of 2005 (EPACT), Public Law 109-58; Department of Energy Organization Act of 1977, as amended, Public Law 95-91; Energy Independence and Security Act of 2007 (EISA), Public Law 110-140; Superconductivity and Competitiveness Act of 1988, Public Law 100-697.

OBJECTIVES:

Through research, development, demonstration, technology transfer, and education and outreach activities, lead national efforts to modernize the electric grid; enhance security and reliability of the energy infrastructure; and mitigate the impact of, and facilitate recovery from, disruptions to the energy supply. Develop cost-effective technology that enhances the reliability, efficiency, and resiliency of the electric grid, while enabling the effective utilization of emerging and renewable generation sources and promoting the rapid deployment and integration of advanced digital "Smart Grid" technology that is needed to modernize the nations electric delivery network for enhanced operational intelligence and connectivity. Also, leverage scientific research in mathematics for application to power system models and software tools to foster strategic, power systems research capabilities.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Assistance provided as cost-shared cooperative agreements or grants to nonprofit and profit institutions and organizations to develop, demonstrate and transfer technologies, tools, techniques or information developed to utilities, energy companies, energy regulators, state and local governments and other stakeholders.

Applicant Eligibility:

All types of domestic entities are eligible to apply, such as profit organizations, private nonprofit institutions/organizations, universities, research organizations, and state and local governments.

Beneficiary Eligibility:

Profit organizations, private nonprofit institutions/organizations, universities, research organizations, and state and local governments benefit.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The standard application forms as furnished by DOE and required by 10 CFR Part 600 must be used to apply for financial assistance, as further specified in competitive solicitation(s). The application forms must be downloaded from the specific funding opportunity announcement posted on the EERE Exchange web site: <https://eere-exchange.energy.gov/> or the Grants.gov web site: <http://www.grants.gov/>

Award Procedure:

All applications which pass an initial review will receive an objective merit review. The objective merit review will be based on evaluation criteria set forth in the competitive solicitation(s) or criteria set forth in 2 CFR Part 200 for

Unsolicited Proposals. Evaluations will be conducted by the Office of Electricity Delivery and Energy Reliability personnel at DOE Headquarters in Washington, DC. This responsibility may also be delegated to DOE Operations Offices and technical experts. Final decisions will be made by the Assistant Secretary, Office of Electricity Delivery and Energy Reliability.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 60 to 120 days.

Appeals:

Unsuccessful applicants are entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Grants and cooperative agreements may be modified or extended.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: As Specified under Section 988 of the Energy Policy Act of 2005 and EISA, with exceptions, a minimum of 20% cost share is required for research and development. A minimum of 50% is required for demonstration. Higher cost share may be requested.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Assistance is available for up to five years, as specified in the solicitation. See the following for information on how assistance is awarded/released:

Electronic funds transfer.

Reports:

Program reports are not applicable. Cash reports are not applicable. Progress reports required as specified in the grant or cooperative agreement. Typically these reports consist of quarterly progress and a final report at the conclusion of the grant or cooperative agreement time period. Expenditure reports required as specified in the grant or cooperative agreement. Typically these reports consist of quarterly expenditure reports and a final report at the conclusion of the grant or cooperative agreement time period. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Other than for-profit recipients are subject to the audit requirements at 2 CFR 200 subpart F. For-profit recipients are subject to the audit requirements at 2 CFR 910.501

Records:

Records retention per 2 CFR 200.

Account Identification:

89-0318-0-1-999 - OE Annual Appropriations.

Obligations:

(Cooperative Agreements) FY 14 \$30,000; FY 15 est \$0; and FY 16 Estimate Not Available - For fiscal year 2015 (to date) \$4,500 has been de-obligated from this CFDA program number.

Range and Average of Financial Assistance:

Varies.

TAFS Codes:

89-X-0321.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

The following list represents an overview of regulations, guidelines, and literature: Office of Electricity Delivery and Reliability homepage, at <http://www.oe.energy.gov/>; DOE Financial Assistance Regulations (2 CFR

200); and the DOE Guide to Financial Assistance, both of which may be accessed through the DOE Office of Management home page at http://www.management.energy.gov/policy_guidance.htm.

Selection is based on an objective merit review, program policy factors, the availability of funds, provisions of appropriation law and reports and as otherwise specified in specific solicitation document(s) at <https://eere-exchange.energy.gov/>.

81.123 NATIONAL NUCLEAR SECURITY ADMINISTRATION (NNSA) MINORITY SERVING INSTITUTIONS (MSI) PROGRAM

National Nuclear Security Administration

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, as amended, Section 3157, Public Law 101-189; 103 Stat. 1684, 42 U.S.C. 2051; Energy Reorganization Act of 1974, Title I, Section 107, Public Law 93-438; 88 Stat. 1240, 42 U.S.C. 5817; Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93-577; Department of Energy (DOE) Organization Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101; National Nuclear Security Administration Act, Public Law 106-65, as amended; Consolidated Appropriations Act, 2005, Public Law 108-447; Energy and Water Development Appropriations Act, 2006, Public Law 109-103; Revised Continuing Appropriations Resolution, 2007, Public Law 110-5, as amended; Executive Order 13230, President's Advisory Commission on Educational Excellence for Hispanic Americans, October 12, 2001, as amended; Executive Order 13256, White House Initiative on Historically Black Colleges and Universities, February 12, 2002, as amended; Executive Order 13270, Tribal Colleges and Universities, July 3, 2002, as amended.

OBJECTIVES:

The program's primary focus is to engage minority serving institutions (MSIs) in NNSA mission activities, collaborative research projects throughout the NNSA complex, and future workforce development.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Financial support, in whole or in part, may be provided for salaries, stipends, materials and supplies, equipment, travel, publication and training, and services required for conducting research, training, and related activities. Funding is provided for the purpose of exploring an idea that does not duplicate work already in progress or contemplated by DOE, is not already known to DOE, or has previously unrecognized merit. Restrictions on the use of funds depend on grant provisions.

Applicant Eligibility:

Historically Black Colleges and Universities (HBCUs), Hispanic Serving

Institutions (HSIs), Tribal Colleges and Universities (TCUs) and non-profit institutions servicing HBCUs, HSIs and TCUs.

Beneficiary Eligibility:

The general public, scientists, researchers, student/trainee, graduate students, institutions of higher learning, NNSA, and other US government agencies will benefit. Middle and high school will also benefit due to the institutions of higher learning's programs supported by NNSA.

Credentials/Documentation:

Documentation for indirect cost rates and any other documentation required by 2 CFR Part 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Application forms and instructions are available upon request from the Office of Human Capital Management, Workforce Planning and outreach Branch (NA-MB-171); National Nuclear Administration (NNSA) U.S. Department of Energy, 1000 Independence Avenue, S.W., Washington, D.C. 20585; phone: (202) 586-6019.

Award Procedure:

NNSA's technical staff conduct technical evaluations in accordance with the 2 CFR Part 200. If the proposal meets the pre-established CFR criteria, then a grant and/or cooperative agreement is awarded.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days. The range is from 60 to 90 days.

Appeals:

Not Applicable.

Renewals:

From 120 to 180 days. Grants will be modified or extended as required. Renewals are subject to an annual review by the NNSA's Headquarters and/or Operations' program offices.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 20%. Grantees may cost share up to 20% on research grants based on 2 CFR 200.36 (b) where applicable. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The grant period ranges from 1 to 5 years depending upon available appropriations. Expenditure of funds is allowed during the budget period specified in the grant document. The payment type and schedule are arranged at the time of award. Funding is provided to the grantee on a reimbursable basis unless the grant provisions specify otherwise. See the following for information on how assistance is awarded/released: reimbursement.

Reports:

The DOE Federal Assistance Reporting Checklist (DOE F 4600.2) is incorporated into the grant document at the time of award. This checklist specifies the programmatic and financial reports that are required as well as the timeframe for report submission. Standard Form 425 is completed and submitted on a quarterly basis. The grantee completes the SF-425 to specify the cumulative cash receipts, disbursements and on-hand balance. Quarterly Progress reports indicative of the progress made, planned activity and estimated expenditures for the subsequent quarters are required. A quarterly expenditure report specifying expenses for the quarter, cumulative expenditures and on-hand balance. Progress reports are monitored to measure grantee's progress and expenditures are monitored to ensure that there is a correlation between work performed and expenditures.

Audits:

Not Applicable.

Records:

The grantee is required to maintain records over the life of the grant for any inquiries or audits.

Account Identification:

89-0299-0-1-050.

Obligations:

(Project Grants) FY 14 Not Available; FY 15 est \$14,640,000; and FY 16 est \$16,500,000 - A competitive solicitation is anticipated in Fiscal Year 2016.

Range and Average of Financial Assistance:

Grant awards range from \$750K to \$5M annually over a either a three or five year period.

TAFS Codes:

89-0299.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Awarded a brand new Cyber Security Consortium grant at \$25M over five years (2015-2019)

Awarded a brand new Advanced Manufacturing consortium grant at \$4.6M over 3 years (2015-2017)

Awarded a brand new Material Science and Energy consortium grant at \$4.5M over 3 years (2015-2017)

Awarded brand new Research of the Science and Engineering of Signatures consortium grant at \$5.4M. Fiscal Year 2015: Initiate a new Advanced Manufacturing grant specially for a group of Tribal Colleges and Universities (TCUs)

Provide internship opportunities for at least 100 students across the NNSA Enterprise

Leverage our established consortium grants to provide full time employment opportunities for our STEM pipeline students

Request an additional \$5M dollars in our FY '16 Budget Justification for more resources to support our program goals and to build more consortiums focused in STEM. Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

2 CFR part 200.

Regional or Local Office:

None.

Headquarters Office:

Jonathan Jackson 1000 Independence Ave. SW , Washington, District of Columbia 20585 Email: jonathan.jackson@nnsa.doe.gov Phone: 2025866019

Website Address:

<http://www.nnsa.doe.gov/>.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Educating engineers and scientists, scientific research, K-12 Science, Technology, Engineering, and Mathematics (STEM) initiatives, minority faculty and student summer internships, and scientific research related to the NNSA mission requirements.

8 consortiums focused in various STEM topical areas that include Cyber Security and Advanced Manufacturing. Fiscal Year 2015: 4 consortium focused in various STEM topical areas that include Cyber Security and Advanced Manufacturing

1 grant for TCUs in Advanced Manufacturing focused in capacity building and curriculum development. Fiscal Year 2016: Develop 2 to 3 new consortium grants focused in building sustainable pipelines in various STEM disciplines.

CRITERIA FOR SELECTING PROPOSALS:

The selection process is based on the following criteria: 1) Potential impact and relevance of proposed work; 2) technical merit; 3) qualifications of the

proposed investigators; 4) quality of the proposed research plan; 5) proposed schedule, budget and available resources.

81.124 PREDICTIVE SCIENCE ACADEMIC ALLIANCE PROGRAM

Office of Advanced Simulation and Computing (ASC)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Atomic Energy Act of 1954, as amended, Section 31, Public Law 83-703, 68 Stat. 919, 42 U.S.C. 2051; Energy Reorganization Act of 1974, Title 1, Section 107, Public Law 93-438, 88 Stat. 1240, 42 U.S.C. 5817; Federal Nonnuclear Energy Research and Development Act of 1974, Public Law 93-577; Department of Energy Organization Act of 1977, as amended, Public Law 95-91, 42 U.S.C. 7101.

OBJECTIVES:

(1) To foster the science of building integrated, multi-scale, and multi-physics codes with the primary focus on code validation and verification to help advance the newly emergent predictive science in academia; (2) to promote and sustain scientific interactions between the academic community and scientists at the NNSA laboratories; (3) and to train scientists in specific areas of long-term research relevant to DOE stockpile stewardship.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Financial support in whole or in part may be provided for such purposes as salaries, materials and supplies, equipment, travel, publication costs, training costs, and services required for conducting research, training, related activities, and advanced technology projects or assessments. Funding is provided for applied research in the field of computational science in support of the DOE NNSA Stockpile Stewardship program. Restrictions on use of funds depend on grant provisions. Funding is provided for the purpose of exploring a research idea that does not unnecessarily duplicate work already in progress or contemplated by DOE, is not already known to DOE, or has previously unrecognized merit. See the Minimum Requirements in the FOA.

Applicant Eligibility:

Only U.S. Public and Private Education Institutions with Ph.D. granting programs can apply.

Beneficiary Eligibility:

Only U.S. Public and Private Education Institutions with Ph.D. granting programs can apply.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications should be submitted as specified in the funding opportunity announcement posted at <http://www.grants.gov>.

Award Procedure:

Proposals will be screened for ASC programmatic relevance and then reviewed for scientific and technical merit by qualified individuals. Recommendations for award are made by the ASC office, Defense Programs, NNSA, and selected proposals will be forwarded to the NNSA Albuquerque Complex in Albuquerque, NM, for grant development and award.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 120 days. See individual opportunity announcements at

<http://www.grants.gov> for deadlines for each specific announcement.

Appeals:

From 90 to 120 days.

Renewals:

Applications for annual renewal are subject to review and acceptance by the NNSA Office of Advanced Simulation and Computing.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Percent: 10.0%.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The NNSA cooperative award assistance is available for total of 5 project-year time window, subject to approval of annual renewals. The annual funding should be expended within the allocated timeframe, with 10% allowed for carryover to the next fiscal year. Method of awarding/releasing assistance: lump sum.

Reports:

Annual program reports are required. Quarterly submissions of SF-272 are required. Quarterly submissions of SF-425, Federal Financial Report. Quarterly technical progress reports are required. Cost accruals are reported monthly. Annual technical reviews by external review panels are performed.

Audits:

No audits are required for this program.

Records:

Recipient is expected to maintain auditable records to substantiate the total costs incurred under the grant.

Account Identification:

89-0240-0-1-053.

Obligations:

(Project Grants) FY 14 \$18,000,000; FY 15 est \$18,000,000; and FY 16 est \$18,000,000 - In 2008 awards were first provided to 5 Centers, those will continue until April 2014 under a one-yr no cost extension. In 2014 6 Centers, will begin for a 5 year period of time until 2018.

Range and Average of Financial Assistance:

\$17M for each award for 5 project years ranging from mid-FY08 to mid-FY13 (under a one year no cost time extension, with \$3.4 M as the average annual award amount. The 6 new Centers that will start in FY14 will receive \$4M each for 3 Multidisciplinary Simulation Center (MSC) and \$2M each for 3 Single-Discipline Center (SDC) for a period of 5 years. The latter 6 Centers will receive this money annually for 5 years.

TAFS Codes:

89-0240.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The Utah Center made progress to demonstrate positive societal impact of extreme computing by accelerating deployment of a low-cost, low-carbon energy solution for power generation: Advanced Ultra Super Critical Oxy-Coal technology. To contribute to the overarching predictive design, they used 3 teams: computer science, physics and validation/uncertainty quantification. The highpoints of Year 1 are runtime enhancements with computer science and public release. The physics team improved robustness, developed heat transfer and reaction models that relax to arbitrary specified length and time scale, and they achieved goal of full system integration across all levels of validation hierarchy. The Illinois Center made progress toward computer science, computational science, and experimental goals as follows: Target data for Year 1 prediction was acquired in facility adapted by experimental team; the integrated physics model was used in their predictive efforts; the Year 1 predictive simulation was compared with corresponding data; and they demonstrated computer science tools on the predictive science application which was first stage toward interoperability to realize flexible performance on forthcoming heterogeneous systems. The Stanford Center made progress towards a challenging multiphysics problem involving multiphase flow, radiation and turbulence in a tightly coupled environment typical of particle-solar receivers. They achieved two milestones:

The simulation of the coupled multiphysics problem in the vertical duct representing the Stanford experimental apparatus using Soleil-MPI; and the demonstration of the fully integrated software stack under development and Soleil-X run on a hybrid CPU/GPU computational node. The Florida Center is progressing in solving a problem of Compressible Multiphase Turbulence at an unprecedented level of physical detail and advancing predictive simulation science. Year 1 simulations employed simplified physics models. They have made progress on algorithm for shock and particle front extraction from experiment videos. They are performing petascale, and working towards exascale, simulations of instabilities, turbulence and mixing in particulate-laden flows under conditions of extreme pressure and temperature. The TAMU Center completed a preliminary set of experiments relating to background room-scattered radiation, and a set of simulations to complete a model to represent the impact of impurities in terms of an effective concentration of boron. They also began to address many issues related to generation of neutron cross sections. They are promoting and teaching good software development and coding practices. The Notre Dame Center has been focusing on developing a predictive parallel multiscale and multiphysics computational framework that captures dynamics of shock induced chemo-thermo-mechanical transformations and behavior of heterogeneous materials including their resulting material properties. They are working on a full-system demonstration problem to simulate the shock-induced synthesis of energy-ball milled composites in a confined impact experiment. Through adaptive exascale simulations, they are making progress to identify conditions under which they can synthesize cubic boron nitride. Fiscal Year 2015: The Centers must send all students funded by PSAAP to work at the NNSA labs for a ten-week period of time. In the first year the six Centers in total sent 46 students to intern at the National Nuclear Security Administration three labs (LANL, LLNL, and SNL). The Centers were awarded on March 1, 2014, therefore, they have completed their Year 1 and submitted Year 1 Annual Reports stating their accomplishments. They are now about 4 months into Year 2. The Utah Center is planning a workshop that will address particle transport and reactions and will involve all six PSAAP centers. The Illinois Center is working to conduct a workshop on exascale science and technology for developing collaborations with labs and other centers, and understanding needs of lab applications on software technologies. The Stanford Center will continue their work on their mission to develop and demonstrate computational strategies for predicting radiative heat transfer to a particle-laden turbulent flow with strong 3-way coupling on an exascale-class machine. And design first-of-a-kind experimental campaign to fully validate the simulations. Fiscal Year 2016: The budget projection for FY 2016 is \$18M with \$4M going to each three MSC Centers and \$2M for each of three SDC Centers.

REGULATIONS, GUIDELINES, AND LITERATURE:

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: The same projects were funded in FY14 awarded on March 1, 2014 and will run for 5 years. . Fiscal Year 2015: The same projects were funded in FY15. They have now finished their Yr 1 and are about 4 months into Yr 2. Fiscal Year 2016: We plan to fund the same projects in FY16, of course keeping in mind if Federal funds are made available.

CRITERIA FOR SELECTING PROPOSALS:

(1) Alignment with the areas of technical scope called forth in the call for application; (2) Scientific/technical merit of the project; (3) Expected impact on the proposed area of research activity; (4) Consistency with the objective of this academic alliances program to focus on advanced computational science investigations; (5) Qualifications of the Applicant's personnel and adequacy of

proposed resources; (6) Feasibility of plans for carrying out the proposed research, considering such factors as: appropriateness of the technical method and approach, facility compatibility, other commitments, competition and timing; (7) Level of interaction with NNSA/DP laboratory personnel and the potential to train students in scientific areas defined by the technical scope in order to build a long-term recruiting pool for the NNSA/DP laboratory complex; (8) Leverage provided by cost sharing by applicant and with other funding sources.

81.126 FEDERAL LOAN GUARANTEES FOR INNOVATIVE ENERGY TECHNOLOGIES

Loan Programs Office

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

Energy Policy Act of 2005, PL 109-58, 119 Stat 1117-1122,

Title XVII, 42 USC 15801; August 8, 2005.

Energy Independence and Security Act of 2007, PL 110-140, Section 136.

OBJECTIVES:

For Title XVII to promote, through the use of Federal loan guarantees, commercial use in the United States of America or new or significantly improved technologies in energy projects that;

- (1) Avoid, reduce, or sequester air pollutants or anthropogenic emissions of greenhouse gases; and
- (2) Employ new or significantly improved technologies as compared to commercial technologies in service in the United States at the time the guarantee is issued. (42 U.S.C. 16513(a)).

For the Advanced Technology Vehicles Manufacturing program under Sec 136 of EISA2007 issue loans to automobile and part manufacturers for cost of re-equipping, expanding, or establishing manufacturing facilities in the United States to produce advanced technology vehicles or qualified components, and for engineering integration costs.

TYPES OF ASSISTANCE:

Direct Loans; Guaranteed/Insured Loans

USES AND USE RESTRICTIONS:

The Secretary may make guarantees under Section 1703 only for projects that avoid, reduce, or sequester air pollutants or anthropogenic emissions of greenhouse gases; and employ new or significantly improved technologies as compared to commercial technologies in service in the United States at the time the guarantee is issued and which provide a reasonable assurance of repayment.

Projects that may be eligible for a loan guarantee include:

- (1) Renewable energy systems.
- (2) Advanced fossil energy technology.
- (3) Hydrogen fuel cell technology.
- (4) Advanced nuclear energy facilities.
- (5) Carbon capture and sequestration practices and technologies.
- (6) Pollution control equipment.
- (7) Efficient end use technologies.
- (8) Efficient electrical generation, transmission, and distribution technologies.
- (9) Production facilities for fuel efficient vehicles.
- (10) Refineries, meaning facilities at which crude oil is refined into gasoline.

The terms of an obligation shall require full repayment of principle and interest on the Guaranteed Obligations and other project debt over a period of up to the lesser of 30 years or 90 percent of the projected useful life of the project's major physical assets as calculated in accordance with generally accepted accounting principles and practices.

For the Advanced Technology Vehicles Manufacturing Program, issue loans to automobile and part manufacturers for cost of re-equipping, expanding, or establishing manufacturing facilities in the United States to produce advanced technology vehicles or qualified components, and for engineering integration costs. See above.

The tenor of ATVM loans varies from project to project.

Further Program information may be found at <http://www.energy.gov/lpo/loan-programs-office>. The following projects may be eligible for a loan guarantee under section 1703

- (1) Renewable energy systems.
- (2) Advanced fossil energy technology.
- (3) Hydrogen fuel cell technology.
- (4) Advanced nuclear energy facilities.
- (5) Carbon capture and sequestration practices and technologies.
- (6) Pollution control equipment.
- (7) Efficient end use technologies.
- (8) Efficient electrical generation, transmission, and distribution technologies.
- (9) Production facilities for fuel efficient vehicles.
- (10) Refineries, meaning facilities at which crude oil is refined into gasoline.

For the Advanced Technology Vehicles Manufacturing Program, issue loans to automobile and part manufacturers for cost of re-equipping, expanding, or establishing manufacturing facilities in the United States to produce advanced technology vehicles or qualified components, and for engineering integration costs.

The tenor of ATVM loans varies from project to project. The terms of an obligation shall require full repayment of principle and interest on the Guaranteed Obligations and other project debt over a period of up to the lesser of 30 years or 90 percent of the projected useful life of the project's major physical assets as calculated in accordance with generally accepted accounting principles and practices.

Applicant Eligibility:

For innovative clean energy projects: including advanced fossil energy, nuclear energy, renewable energy, and energy efficiency. Eligible projects must utilize a new or significantly improved technology, avoid, reduce or sequester greenhouse gases, be located in the United States, and have a reasonable prospect of repayment.

Further information may be found at

<http://www.energy.gov/lpo/innovative-clean-energy-projects-title-xvii-loan-program>

For ATVM loans, automotive or component manufacturers for reequipping, expanding, or establishing manufacturing facilities in the United States that produce fuel efficient advanced technology vehicles or qualifying components, or for engineering integration performed in the U.S. for ATVMs or qualifying components.

Further information may be found at

<http://www.energy.gov/lpo/advanced-technology-vehicles-manufacturing-atvm-loan-program>

For Title XVII there is no legal restriction regarding eligible applicants.

An applicant can be a corporation, company, partnership, association, society, trust, joint venture, joint stock company, or governmental nonfederal entity, that has the authority to enter into, and is seeking, a loan guarantee for a loan or other debt obligation of an Eligible Project.

Glossary of Terms

<http://www.energy.gov/lpo/about-us/glossary-terms>.

Beneficiary Eligibility:

Small businesses, profit organizations, quasi-public nonprofits, public institutions and interstate, intrastate, State and local governments will benefit from the loan guarantee program.

For ATVM, DOE has promulgated regulations defining the eligibility requirements for automobile manufacturers.

For more information, please visit:
<http://www.energy.gov/lpo/loan-programs-office>.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is excluded from coverage under Office of Management and Budget (OMB) Circular No. A-102.

This program is excluded from coverage under Office of Management and Budget (OMB) Circular No. A-110.

Application procedures for a Department of Energy Title XVII loan guarantee are unique to each solicitation issued by the Department. Potential applicants should only apply for a loan guarantee under the specific funding opportunity announcement posted on the Federal Government website.

Additional information can be found at the following websites:

<http://www.fedconnect.net> or
<http://www.energy.gov/lpo/innovative-clean-energy-projects-title-xvii-loan-program>

Application procedures for a Department of Energy ATVM loan guarantee are unique to each solicitation issued by the Department. Potential applicants should only apply for a loan guarantee under the specific funding opportunity announcement posted on the Federal Government website.

Additional information can be found at the following websites:

<http://www.fedconnect.net> or
<http://www.energy.gov/lpo/advanced-technology-vehicles-manufacturing-atvm-loan-program>

For additional information, see final regulations, 10 CFR Part 609, Loan Guarantees for Projects That Employ Innovative Technologies; Final Rule, published on October 23, 2007.

For additional information regarding the application process, please visit:
<http://www.energy.gov/lpo/apply>

Glossary of Terms
<http://www.energy.gov/lpo/about-us/glossary-terms>

Award Procedure:

Award Procedures are identified in the individual solicitations for both LGPO and ATVM.

Except for division C of Public Law 108-324, the Secretary shall make guarantees or loans under this or any other Act for projects on such terms and conditions as the Secretary determines, after consultation with the Secretary of the Treasury.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The Ranges of approval/disapproval times are identified in individual solicitations.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Statutory formulas are not applicable to this program. Matching Requirements: For the LGPO Section 1703 loan guarantees, this is a "self-pay" program. Applicants will pay the subsidy costs as determined by the credit subsidy calculation. Also, fees will be charged to recover DOE's administrative costs in managing the Loan Guarantee Program. A fee schedule has been determined and published in each solicitation.

No guarantee shall be made unless:

- (1) An appropriation for the cost has been made; or
- (2) The Secretary has received from the borrower a payment in full for the cost of the obligation and deposited the payment into the Treasury. (42 U.S.C. 16512.) Section 1705 guarantees have appropriated funds for the credit subsidy but applicant's and awardees are subject to additional fees during the application process and after award.

See the solicitations at: <http://www.energy.gov/lpo/open-solicitations>

For ATVM Section 136 direct loans, there is no self-pay for credit subsidy. DOE requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

The term of an obligation shall require full repayment of principle and interest on the Guaranteed Obligations and other project debt over a period of up to the lesser of 30 years or 90 percent of the projected useful life of the project's major physical assets as calculated in accordance with generally accepted accounting principles and practices.

Tenor may be less for the ATVM loans.

See the following for information on how assistance is awarded/released: Except for division C of Public Law 108-324, the Secretary shall make guarantees or loans under this or any other Act for projects on such terms and conditions as the Secretary determines, after consultation with the Secretary of the Treasury. See the following for information on how assistance is awarded/released: Except for division C of Public Law 108-324, the Secretary shall make guarantees or loans under this or any other Act for projects on such terms and conditions as the Secretary determines, after consultation with the Secretary of the Treasury.

Reports:

The specific reports are detailed in each solicitation and in the final closing documents for the loans or loan guarantees.

In addition, any recipients of ARRA funding under the LGPO's Title XVII program must meet the ARRA Section 1512 reporting requirements. The terms and conditions for each loan or guarantee will contain a schedule of all required reports. This includes any ARRA Section 1512 reporting requirements.

The terms and conditions for each loan or guarantee will contain a schedule of all required reports and performance monitoring. In general, the monitoring will be similar to commercial practices. The terms and conditions for each loan or guarantee will contain a schedule of all required reports. This includes any ARRA Section 1512 reporting requirements. The terms and conditions for each loan or guarantee will contain a schedule of all required reports. The terms and conditions for each loan or guarantee will contain a schedule of all required reports. The terms and conditions for each loan or guarantee will contain a schedule of all required reports and performance monitoring. In general, the monitoring will be similar to commercial practices.

Audits:

Not Applicable.

Records:

A recipient of a guarantee or loan shall keep such records and other pertinent documents as the Secretary shall prescribe by regulation, including such records as the Secretary may require to facilitate an effective audit. The Secretary and the Comptroller General of the United States, or their duly authorized representatives, shall have access, for the purpose of audit, to the records and other pertinent documents.

Account Identification:

81.127 ENERGY EFFICIENT APPLIANCE REBATE PROGRAM (EEARP)**EEARP****FEDERAL AGENCY:**

Department of Energy

AUTHORIZATION:

Energy Policy Act of 2005, Title 1, Part B.

OBJECTIVES:

The program provides financial and technical assistance to States to establish residential energy star rated appliance rebate programs. The programs objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To improve energy efficiency in the residential sector.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Establish or continuation of State energy efficient appliance rebate program to provide rebates to residential consumers for the purchase of residential Energy Star products to replace used appliances of the same type.

Applicant Eligibility:

Assistance available to States and US Territories and possessions.

Beneficiary Eligibility:

Individuals and families are the ultimate beneficiaries.

Credentials/Documentation:

Compliance with State and local environmental statutes and regulations. Costs will be determined in accordance with 2 CFR Part 200 for State and local governments. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

No preapplication form or conference is required by DOE. Consultation and assistance will be available from DOE in the preparation of the application. Environmental impact information is not required for this program. This

program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for the Energy Efficient Appliance Rebate Program must be submitted through grants.gov

Award Procedure:

States submit application for available allocation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Deadlines are identified in the solicitation.

Appeals:

As required under the American Recovery and Reinvestment Act of 2009.

Renewals:

N/A.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grant periods under this program will be twenty four months. All funds must be expended within this period. See the following for information on how assistance is awarded/released: No information is provided.

Reports:

No program reports are required. Financial status reports are required.

Additional terms and conditions are invoked by ARRA 2009. A final report is required at the end of the project period. In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. A 10-year tracking and follow-up reporting mechanism may be required. Quarterly progress reports are required. Additional terms and conditions are invoked by ARRA 2009. A final report is required at the end of the project period. In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. A 10-year tracking and follow-up reporting mechanism may be required. Expenditure reports are not applicable. No performance monitoring is required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Audits for recipients are found in 10 CFR 600 and the American Recovery and Reinvestment Act of 2009.

Records:

In accordance with the Energy Independence and Security Act of 2007 and DOE procurement procedures.

Account Identification:

81.128 ENERGY EFFICIENCY AND CONSERVATION BLOCK GRANT PROGRAM (EECBG)

EECBG

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

The Energy Efficiency and Conservation Block Grant Program (EECBG) was authorized in Title V, Subtitle E of the Energy Independence and Security Act (EISA), signed into Public Law 110-140 on December 19, 2007.

OBJECTIVES:

The program provides financial and technical assistance to assist State and local governments create and implement a variety of energy efficiency and conservation projects. The programs objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To reduce the total energy use of the eligible entities; and
- * To improve energy efficiency in the transportation, building, and other sectors.

TYPES OF ASSISTANCE:

Formula Grants; Project Grants (Special)

USES AND USE RESTRICTIONS:

A wide variety of activities are eligible for use of the grant funds including:

- * Developing/implementing an energy efficiency and conservation strategy and retaining technical consultant services to assist in the development of such a strategy.
- * Conducting residential and commercial building energy audits.
- * Establishing financial incentive programs for energy efficiency improvements (e.g., loan programs, rebate programs, waive permit fees.)
- * Providing grants to nonprofit organizations to perform energy efficiency retrofits.
- * Developing/implementing programs to conserve energy used in transportation (e.g., flex time by employees, satellite work centers, promotion of zoning requirements that promote energy efficient development, transportation infrastructure: bike lanes/pathways, pedestrian walkways, and synchronized traffic signals).
- * Developing and implementing building codes and inspection services to promote building energy efficiency.
- * Implementing energy distribution technologies.
- * Developing public education programs to increase participation and efficiency rates for recycling programs.
- * Purchasing/implementing technologies to reduce and capture methane and other greenhouse gases generated by landfills or similar sources.
- * Installing light emitting diodes (LEDs).
- * Developing, implementing, and installing renewable energy technologies on or in any government building.
- * Any other activity as determined by the Secretary of Energy in consultation

with the Secretaries of Transportation and Housing and Urban Development and the Administrator of the Environmental Protection Agency.

Applicant Eligibility:

State and local governments including US Territories and Possessions.

Beneficiary Eligibility:

Individuals and families.

Credentials/Documentation:

Compliance with Federal, State and local environmental statutes and regulations, as required under the Energy Independence and Security Act of 2007. This program is covered by applicable Cost Principles contained in the Code of Federal Regulations, TITLE 2--Grants and Agreements. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

No preapplication form or conference is required by DOE. Consultation and assistance will be available from DOE in the preparation of the application. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Application forms must be downloaded from the specific funding opportunity announcement posted on the grants.gov website at <http://www.grants.gov/> and submitted per instructions in the funding opportunity announcement.

Applicants must register with FedConnect to submit their application. FedConnect website: www.fedconnect.net

Submission deadlines will be published in the funding opportunity announcement at <http://www.grants.gov>

It is the responsibility of the applicant to verify successful transmission.

Award Procedure:

States and eligible units of local governments and Tribes will submit applications for available allocation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Deadlines are identified in the Funding Opportunity Announcement.

Appeals:

As required under the Energy Independence and Security Act of 2007 and American Recovery and Reinvestment Act of 2009.

Renewals:

Renewals are subject to review by the DOE Project Management Center and the headquarters program office and subject to the availability of funds.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: There is no local match requirement for the EECBG, however leveraging of funds on the part of the recipient is encouraged. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grant periods under this program will be eighteen months. Funds must be under contract within eighteen months. See the following for information on how assistance is awarded/released. See the following for information on how assistance is awarded/released: No information provided.

Reports:

No program reports are required. No cash reports are required. Quarterly project and financial status reports are required. Additional terms and conditions are invoked by ARRA 2009. A final report is required at the end of the contract period. In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. A 10-year tracking and follow-up reporting mechanism may be required. Quarterly project and financial status reports are required. Quarterly financial reports required. No performance monitoring is required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Audit procedures in accordance with OMB Circular No. A-133. In addition, audit requirements need to comply with the Energy Independence and Security Act of 2007 and DOE procurement procedures as well as with 10 CFR 600.

Records:

In accordance with the Energy Independence and Security Act of 2007 and DOE procurement procedures.

Account Identification:

89-0331-2-1-272.

Obligations:

(Project Grants) FY 14 \$0; FY 15 est \$0; and FY 16 Estimate Not Available - All obligations under this program will be made with Recovery Act funds. This program has not had funds other than ARRA obligated to it. For fiscal year 2014 (actual) \$9,576,636 was de-obligated from this program. For fiscal year 2015 (estimate) \$13,925,073 was de-obligated from this program.

Range and Average of Financial Assistance:

Varies.

TAFS Codes:

89-X-0331.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2013, EECBG continued to deploy energy efficiency across the county through its grants to over 2,300 state and local governments through its funding by the American Reinvestment and Recovery Act of 2009 (ARRA). Milestones accomplished in FY 11 include performance of energy upgrades of over 40,000 buildings, installation of 5,000 solar energy systems, and installation of over 300,000 energy efficient traffic and streetlights since the passage of the ARRA. However, per OMB, all ARRA funds are requested to be expended by September 30, 2013, and per ARRA, all funding must be expended by September 30, 2015. Fiscal Year 2015: In FY 2013, EECBG continued to deploy energy efficiency across the county through its grants to over 2,300 state and local governments through its funding by the American Reinvestment and Recovery Act of 2009 (ARRA). Milestones accomplished in FY 11 include performance of energy upgrades of over 40,000 buildings, installation of 5,000 solar energy systems, and installation of over 300,000 energy efficient traffic and streetlights since the passage of the ARRA. However, per OMB, all ARRA funds are requested to be expended by September 30, 2013, and per ARRA, all funding must be expended by September 30, 2015. Fiscal Year 2016: In FY 2013, EECBG continued to deploy energy efficiency across the county through its grants to over 2,300 state and local governments through its funding by the American Reinvestment and Recovery Act of 2009 (ARRA). Milestones accomplished in FY 11 include performance of energy upgrades of over 40,000 buildings, installation of 5,000 solar energy systems, and installation of over 300,000 energy efficient traffic and streetlights since the passage of the ARRA. However, per OMB, all ARRA funds are requested to be expended by September 30, 2013, and per ARRA, all funding must be expended by September 30, 2015.

REGULATIONS, GUIDELINES, AND LITERATURE:

As described under the Energy Independence and Security Act of 2007 and American Recovery and Reinvestment Act of 2009 and 10 CFR 600.

CRITERIA FOR SELECTING PROPOSALS:

As described under the Energy Independence and Security Act of 2007 and American Recovery and Reinvestment Act of 2009.

81.129 ENERGY EFFICIENCY AND RENEWABLE ENERGY TECHNOLOGY DEPLOYMENT, DEMONSTRATION AND COMMERCIALIZATION**FEDERAL AGENCY:**

Department of Energy

AUTHORIZATION:

EPACT 1992, EPACT 2005, EISA 2007, ARRA 2009.

OBJECTIVES:

This program provides financial assistance for the technology deployment, demonstration, and commercialization of Energy Efficiency and Renewable Energy technologies. This includes Biomass, Building Technologies, Federal Energy Management, Geothermal Technologies, Projects involving Hydrogen, Fuel Cells and Infrastructure Technologies, Industrial Technologies, Solar Energy Technologies, Vehicle Technologies, Weatherization and Intergovernmental, and Wind and Hydropower technologies.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

No information provided.

Applicant Eligibility:

Anyone who meets the requirements specified in the funding opportunity announcement at <http://www.grants.gov> may apply.

Beneficiary Eligibility:

Beneficiaries are states and local governments and other public and private institutions.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from

coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Application forms must be downloaded from the specific funding opportunity announcement posted on the grants.gov website at <http://www.grants.gov/> and submitted per instructions in the funding opportunity announcement.

Applicants must register with FedConnect to submit their application. FedConnect website: www.fedconnect.net

Submission deadlines will be published in the funding opportunity announcement at <http://www.grants.gov>

It is the responsibility of the applicant to verify successful transmission.

Award Procedure:

Applications which pass an initial review will receive an objective merit review. An objective Merit Review Committee will evaluate applications in accordance with the evaluation criteria set forth in the competitive solicitation.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Unsuccessful applicants from the competitive solicitation are entitled to a debriefing by DOE program officials with a clear explanation of why the proposal was not accepted for funding.

Renewals:

Renewals are subject to review by the DOE Project Management Center and the headquarters program office and subject to the availability of funds.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Percent: 50%. Federal funds may be awarded to applicants that can match DOE Federal funds at 50 percent. Other matching requirements may be determined by specific legislation or as allowed by the Secretary of Energy.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

No information provided. See the following for information on how assistance is awarded/released: No information provided.

Reports:

Quarterly project and financial status reports are required. Additional terms and conditions are invoked by ARRA 2009. A final report is required at the end of the contract period. In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. A 10-year tracking and follow-up reporting mechanism may be required. No cash reports are required. Quarterly project status reports are required. Additional terms and conditions are invoked by ARRA 2009. A final report is required at the end of the contract period. In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. A 10-year tracking and follow-up reporting mechanism may be required. Quarterly financial status reports are required. Additional terms and conditions are invoked by ARRA 2009. A final report is required at the end of the contract period. In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. A 10-year tracking and follow-up reporting mechanism may be required. No performance monitoring is required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Audit procedures in accordance with OMB Circular No. A-133. In addition, audit requirements need to comply with the Energy Independence and Security Act of 2007 and DOE procurement procedures as well as with 10 CFR 600.

Records:

In accordance with the Energy Independence and Security Act of 2007, EPACT 1992 and 2005, ARRA 2009 and DOE procurement procedures. Access to process implementation and efficiency data may be required to be available for 10 years after project completion to measure performance against expectation and support commercialization of the technology. The grantee is expected to maintain records to fulfill auditing needs.

Account Identification:

89-0321-0-1-270.

Obligations:

(Cooperative Agreements) FY 14 \$0; FY 15 est \$0; and FY 16 est \$0 - All obligations under this program will be made with Recovery Act funds. This program has not had funds other than ARRA obligated to it. These funds must be expended by September 30, 2015.

Range and Average of Financial Assistance:

None.

TAFS Codes:

RELATED PROGRAMS:

81.117 Energy Efficiency and Renewable Energy Information Dissemination, Outreach, Training and Technical Analysis/Assistance

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: As this series of Recovery Act grants reaches its conclusion, it is expected that similar buildings technologies advancements will be completed on schedule. Fiscal Year 2015: As this series of Recovery Act grants reaches its conclusion, it is expected that similar buildings technologies advancements will be completed on schedule. Fiscal Year 2016: As this series of Recovery Act grants reaches its conclusion, it is expected that similar buildings technologies advancements will be completed on schedule.

CRITERIA FOR SELECTING PROPOSALS:

Awards are restricted to the entities listed in the Applicant Eligibility portion of this program listing. All election criteria will conform to EISA 2007, EPACT 1992 and 2005, and ARRA 2009 requirements as applicable to the specific project authorization.

81.135 ADVANCED RESEARCH PROJECTS AGENCY - ENERGY (ARPA-E)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

This agency was chartered and authorized in 2007 in the America COMPETES Act (Public Law 110-69), and re-authorized in the America COMPETES Reauthorization Act of 2010 (Public Law 111-358).

OBJECTIVES:

To support the Presidents National Objectives for the Department of Energy,

and the Objectives contained in the authorizing legislation.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

ARPA-E will fund research and development of transformational energy related technologies. As described in each Funding Opportunity Announcement.

Applicant Eligibility:

As described in the Funding Opportunity Announcement.

Beneficiary Eligibility:

General public.

Credentials/Documentation:

Compliance with Federal, State and local environmental statutes and regulations, as required under the Energy Independence and Security Act of 2007. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Pre-application required in the form of a Concept Paper (unless directed differently in the Funding Opportunity Announcement). This program is not eligible for coverage under E.O. 12372, Intergovernmental Review of Federal Programs. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications for ARPA-E must be submitted through ARPA-E eXCHANGE to be considered for award. Information on how to submit application via ARPA-E eXCHANGE can be found at: <http://arpa-e.energy.gov/>. It is the responsibility of the applicant to verify successful transmission.

Award Procedure:

All eligible applications will be considered through the Departments Merit Review Process.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Deadlines are identified in each Funding Opportunity Announcement.

Appeals:

As required under the Energy Independence and Security Act of 2007 and American Recovery and Reinvestment Act of 2009.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Detailed cost share requirements are specified in each Funding Opportunity Announcement. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

As required under the Energy Independence and Security Act of 2007 and American Recovery and Reinvestment Act of 2009, as applicable. See the following for information on how assistance is awarded/released: Most often under a Cooperative Agreement as reimburseable.

Reports:

In accordance with the Energy Independence and Security Act of 2007, DOE procurement procedures and the Recovery Act of 2009. Quarterly progress reports will be required along with a final report. Cash reports are not applicable. Progress reports are not applicable. Quarterly financial reports will be required along with a final report (and as described in the Funding Opportunity Announcement). Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit

Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audit requirements laid out in the OMB Circulars apply to the ARPA-E Program. Circulars are available at the White House website.

Records:

In accordance with the Energy Independence and Security Act of 2007, DOE procurement procedures and the Recovery Act of 2009.

Account Identification:

89-0336-0-1-270 - Energy Transformation Acceleration Fund - Recovery Act;
89-0337-0-1-270 - Energy Transformation Acceleration Fund.

Obligations:

(Cooperative Agreements) FY 14 \$264,222,293; FY 15 est \$270,000,000; and FY 16 est \$270,000,000 - Energy Transformation Acceleration Fund.

Range and Average of Financial Assistance:

\$250,000 to \$10,000,000 (average range is \$2 million).

TAFS Codes:

89-0337; 89-0336.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: As noted in ARPA-E FY15 Congressional Budget Justification - The success of ARPA-E programs and projects will ultimately be measured by impact in the marketplace. In FY 2014 ARPA-E saw continued traction across several key indicators, including multiple teams launching demonstration projects, as well as four ARPA-E funded small companies being acquired by strategic industry partners: (a) ARPA-E awardee Sun Catalytix was purchased by Lockheed Martin becoming Lockheed Martin Advanced Energy Storage LLC. (b) ARPA-E awardee SolarBridge was acquired by SunPower, (c) ARPA-E awardee Empirion was acquired by Altera, and (d) ARPA-E awardee Allilix was acquired by Evolva. Fiscal Year 2015: Pending. Fiscal Year 2016: Pending.

REGULATIONS, GUIDELINES, AND LITERATURE:

As described under the Energy Independence and Security Act of 2007, America COMPETES Act of 2007, the America ReCOMPETES Act of 2010, and the American Recovery and Reinvestment Act of 2009.

Regional or Local Office:

None.

CRITERIA FOR SELECTING PROPOSALS:

As described in the Funding Opportunity Announcement.

81.138 STATE HEATING OIL AND PROPANE PROGRAM

(SHOPP)

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

97-258, 31 U.S.C 6304.

OBJECTIVES:

SHOPP is a joint data collection effort between heating oil and propane consuming States across the United States and the U.S. Department of Energy/U.S. Energy Information Administration (EIA).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

SHOPP provides State and Federal governments, the press, policy makers, consumers, analysts and others with up-to-date information on retail heating fuels prices during the heating season. These funds are to be used only for activities relating to the State Heating Oil and Propane Program. Expenses which qualify as eligible toward the program cost include, but are not limited to, the cost of personnel, fringe benefits, travel, equipment, supplies, and indirect charges related to data collection or the analysis and understanding of market conditions which may impact heating oil and propane prices. This program is also based on a 50-50 cost sharing agreement between the States and EIA, which means that total program costs must be split equally between State and Federal funds.

Applicant Eligibility:

SHOPP is a joint data collection effort between States that consume heating oil and propane for residential heating purposes across the United States and the U.S. Department of Energy/Energy Information Administration (EIA).

Beneficiary Eligibility:

Beneficiaries are States and their agencies that have the resources to conduct the program, and consume heating oil and/or propane for residential purposes.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

An email expressing intent to apply should be sent to the survey manager prior to application for States which are not currently participating in SHOPP. The U.S. EIA may not be able to accommodate all requests for participation. No formal preapplication forms are necessary. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

This award is a five-year cooperative agreement between EIA and the State. Every five years, applicants are required to fill out forms per OMB Circular A-102 and other forms as stated on EIAs website at: http://www.eia.gov/petroleum/heatingoilpropane/faq_stateofficials.cfm.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

Not Applicable.

Renewals:

NA.

Formula and Matching Requirements:

This program has no statutory formula.
Matching Requirements: Percent: 50%.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The assistance is available for expenditures made during the current award year up to 2 years after the end of the current grant year. Although they may be accessed for a time period after the award year, funds for each grant year may only be spent on program activities for that specific year. Method of awarding/releasing assistance: lump sum.

Reports:

Management Reporting Progress Report; Scientific/Technical Report DOE F 241.3; Financial Reporting SF 425. No cash reports are required. No progress reports are required. No expenditure reports are required. No performance monitoring is required.

Audits:

No audits are required for this program.

Records:

No Data Available.

Account Identification:

89-0216-0-1-276.

Obligations:

(Salaries) FY 14 \$225,417; FY 15 est \$250,000; and FY 16 est \$250,000

Range and Average of Financial Assistance:

FY 2011 - \$184,257, FY 2012 - \$180,780, FY 2013 - \$178,142, FY2014 - \$225,417
\$250,000 is allocated annually for financial assistance to States for SHOPP.

81.139 ENVIRONMENTAL MANAGEMENT R&D AND VALIDATION TESTING ON HIGH EFFICIENCY PARTICULATE AIR (HEPA) FILTERS

Environmental Management R&D

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

The activity conducted under this award is authorized pursuant to: The Department of Energy Act, Public Law 95-91, 42 U.S.C. 7256, in conjunction with 42 U.S.C. 7112.

OBJECTIVES:

EM R&D and validation Testing provides necessary investments in mid to long range research projects to address radioactive waste treatment and storage safety. These R&DT projects are targeted at high priority technical issues, gaps, operations, or safety concerns to clean up the Nations legacy of defense-related radioactive wastes. The technologies developed in this R&DT program will identify or improve the current waste treatment baseline, develop new or augmented cost-effective technologies or methods, provide advanced technologies/ methods for insertion into new or existing waste treatment facilities/ infrastructures, address known technology gaps, and reduce project technical risk and uncertainty. This meets the Departmental goal to accelerate waste treatment, clean-up, and provide risk reduction to the public. For example, R&DT for High Efficiency Particulate Air (HEPA) filters are needed to improve the performance and validation of currently available HEPA filters in upset conditions (e.g. fires). In addition, R&DT into HEPA filters under various normal and upset test conditions will help determine valuable operational information (i.e., develop suggested controls and operational methods, and identify failure modes) that can be applied at various commercial and Government/military facilities that treat, store, or process nuclear material

or waste streams (e.g. commercial nuclear power facilities), or filter out hazardous particulates or dust for commercial microelectronic clean rooms or hospital operations. This research and testing may increase the protective nature of the American Society of Mechanical Engineers (ASME) AG-1 Code (Code on Nuclear Air and Gas Treatment), enhance the ability of professionals to design filters and air filtration systems, and reduce uncertainty in the development of standard operating procedures for facilities involved in nuclear containment ventilation activities. Improving the durability of HEPA filters used in nuclear containment is a key component in protecting the worker and general population in the event of a fire at a nuclear facility, particularly segments of the population near nuclear facilities.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Financial assistance is provided in support of the program objectives. Applicants must meet the guidelines established by DOE.

Applicant Eligibility:

A publicly owned agency or organization established to perform specialized functions or services for the benefit of all or part of the general public either without charge or at cost, making no profits and having no shareholders to receive dividends. Includes institutions of higher education and hospitals. Determinations are made by DOE EM Headquarters or EM Field Offices, or both.

Beneficiary Eligibility:

The following organizations will significantly benefit from improved, more reliable, and safer advanced HEPA filters: Federal/ State radioactive treatment and/or storage facilities, commercial nuclear power industry, workers in a radioactive environment, industrial, military or medical processes that require very stringent filtering and the general public, particularly landowners or homeowners in proximity to radioactive facilities. Indirect benefits include more accurate known and understood HEPA filter failure mechanisms and limits, margins, and operational constraints, especially in emergency situations such as fire or a seismic event. Indirect benefits include decreased operating costs, and potentially improvements to the American Society of Mechanical Engineering (ASME) AG-1 code, the US national consensus standard for nuclear air handling and treatment systems.

Credentials/Documentation:

Cost will also be determined in accordance with OMB Circular No. A-21 for institutions of higher education or as otherwise defined in the financial assistance instrument. This program is excluded from coverage under OMB Circular No. A-87. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. This program is excluded from coverage under OMB Circular No. A-102. OMB Circular No. A-110 applies to this program. A formal proposal by the organization interested doing the work must be submitted through an appropriate official of the corporate entity, organization, or institution. Financial assistance requests will be reviewed pursuant to the Department of Energy Financial Assistance Regulations at 10 CFR 600 and the DOE Merit Review Guide, as amended.

Award Procedure:

Award decision will be made by DOE Headquarters.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The approximate approval/disapproval time is from two months to one year.

Appeals:

N/A.

Renewals:

From 120 to 180 days. From 120 to 180 days. Proposal for renewal are subject to review and acceptance by DOE Headquarters, the field, or both.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Length and time phasing of assistance will vary with the program phase and activity. Method of awards/ releasing assistance: awards will be incrementally funded. See the following for information on how assistance is awarded/released. See the following for information on how assistance is awarded/released: Awards will be incrementally funded.

Reports:

Yes, periodic program and progress reports are required per the Reporting Requirements Checklist attached to the award. No cash reports are required. No cash reports are required. At a minimum, annual progress reports are required. Frequency of progress reports will be determined at time of award or annually thereafter. Expenditure reports will be required. The type and frequency will be determined at time of award. Performance monitoring will be required. The type and frequency will be determined at time of award.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Audits will be conducted annually or as defined by the size of and the specific award provisions.

Records:

Retention of records will be required in accordance with 10 CFR 600. A grantee is expected to maintain auditable records to substantiate the total costs under the Cooperative Agreement. The grantee is also expected to keep and maintain applicable American Society of Mechanical Engineers (ASME) Nuclear Quality Assurance-1 (NQA-1) and other quality assurance testing and results records as needed.

Account Identification:

89-0251-0-1-250.

Obligations:

(Salaries) FY 14 \$1,000,000; FY 15 est \$1,000,000; and FY 16 est \$1,000,000 - Subject to funds availability.

Range and Average of Financial Assistance:

No Data Available.

TAFS Codes:

08-9X-251.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The majority of the personnel and the MSU-ICET facility, capability's, training, equipment, and resources to meet NQA-1 standards were developed or ordered. Fiscal Year 2015: Complete remaining FY14 NQA-1 readiness and start up. Then commence R&DT objectives once NQA-1 qualification has been achieved. Fiscal Year 2016: Continue FY15 HEPA filter R&DT objectives and begin filter type separator vs. separatorless R&DT. Collected data will assist in planned aged filter testing.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

Research must be beneficial to the overall accomplishment of the program objectives and consistent with the criteria of the EM Merit Review System (i.e., technically meritorious, qualified principal investigators, adequate facilities for conduct of the work, past experience and performance history).

81.140 LOS ALAMOS NATIONAL LABORATORY - FIRE PROTECTION

FEDERAL AGENCY:

Department of Energy

AUTHORIZATION:

31 USC 6305, 31 U.S.C 6304.

OBJECTIVES:

The general objective of this Cooperative Agreement is to provide financial support for staff, response vehicles, specialized tours and training, and the use of fire station facilities to the Incorporated County of Los Alamos to allow the County to provide an enhanced level of fire department services, including advanced nuclear facility capable, industrial fire suppression, advanced emergency medical, rescue, hazardous materials response, and other services through its municipal fire department.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Cost effective and efficient management of the delivery of fire department services to LANL, including recruitment, selection, training and promotion of fire department personnel.

Cost effective and efficient management of business aspects of fire department operations, including procurement of services and supplies necessary to perform the agreement, and generating specifications for equipment purchases such as fire department apparatus.

Providing manual fire fighting response and capability.

Providing emergency medical response and capability.

Providing rescue response and capability.

Implementing and providing hazardous materials response capability.

Providing fire and safety related non-emergency services as identified in the agreement such as hydrant testing.

Providing fire department standbys at LANL for designated recurring activities, and on an as-needed basis for special hazards.

Maintaining a minimum training capability for fire fighters.

Maintaining certifications for various fire fighter and fire officer levels.

Maintaining emergency and non-emergency procedures associated with the operation of a fire department.

Maintain a fire department response capability that meets NFPA 1500, NFPA 1710 and other applicable NFPA standards to the extent practical for fire department responses to LANL.

Maintain emergency response plans for all LANL facilities.

Providing agreed upon mutual aid, automatic aid, and outside assistance to the surrounding communities and cities.

Providing other miscellaneous services as defined in the agreement. Fire fighters provided by the County are required to obtain and maintain a DOE security clearance. Fire Department is to follow all LANL security requirements.

Applicant Eligibility:

EMERGENCY PREPAREDNESS: The fire department has an authorized staffing level of 139 fire fighters and officers and 11 civilian support staff. The fire department staff, in addition to being trained as conventional fire fighters responding to fires in residence and businesses, is also trained to respond to fires and other emergencies at nuclear and high hazard facilities. **PLANNING:**

The fire department is responsible for the development of Pre-Incident Plans at LANL buildings and facilities. PUBLIC WORKS: The fire department is responsible for hydrant testing at LANL. TRAINING: Fire fighters receive special training prior to engaging in fire fighting or emergency operations at nuclear and high hazard facilities at LANL, not only to ensure their safety, but to ensure that their actions contribute to control of the incident, versus making the incident worse by possibly spreading contamination or taking actions which result in unnecessary damage to mission critical or costly equipment.

Beneficiary Eligibility:

Los Alamos Fire Department is an agency within Los Alamos County. Los Alamos County is a political subdivision of the State of New Mexico.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. This program is excluded from coverage under OMB Circular No. A-110.

Award Procedure:

Funds awarded via the NNSA Contracts and Procurement Division, Albuquerque Complex, Albuquerque, New Mexico, coordinating with the NNSA Los Alamos Field Office as the Delegated Program Office. The procedural steps at the NNSA are as follows: Contract Specialist (NA-APM-12), Preparation; Contracting Officer (NA-APM-121), Coordination and Review; Patent Counsel, Coordination and Review; Legal Counsel, Coordination and Review; Independent Review (NA-APM-122.1); Head of Contracting Activity (NA-APM-12), Coordination and Review; Contracting Officer (NA-APM-121), and Final Signature.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 30 to 60 days. The Cooperative Agreement was approved and became effective on 10/01/2013.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: Percent: 20%. Using a sliding scale implemented over the period of performance, October 1, 2013 through September 30, 2018, the County's cost for providing fire protection within Los Alamos County and LANL will be approximately 20 percent of the overall fire department budget. This program does not have MOE requirements. Federal contribution is under \$100M for the 5-year agreement.

Length and Time Phasing of Assistance:

This Cooperative Agreement is for a 5-year term. The period of performance is October 1, 2013 to September 30, 2018. Method of awarding/releasing assistance: lump sum.

Reports:

Special Status Report; Final Scientific/Technical Report; SF-425 Federal Financial Reports; Patent Certification; SF-428 & 428B Final Property Report; Patent Certification; SF-428 Tangible Personal Property Forms Family; Training Plan; LANL Fire Hydrant Flow Testing; LANL Emergency Response Time Report; and DOE Vehicle Mileage Report. No cash reports are required. Monthly Progress Reports Associated with meeting the expectations of the Cooperative Agreement. As required, to support cost-sharing of the Cooperative Agreement. Oversight of the performance attributes of this Cooperative Agreement is the

responsibility of the Los Alamos Field Office.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. Los Alamos County includes Cooperative Agreement related transactions in its annual Comprehensive Annual Financial Report, completed June 30th of each year.

Records:

Required by the Cooperative Agreement terms and conditions.

Account Identification:

89-0240-0-1-054 - .

Obligations:

(Project Grants (Cooperative Agreements)) FY 13 \$15,731,859; FY 14 est \$17,478,712; and FY 15 est \$18,361,685

Range and Average of Financial Assistance:

For the 1st term of the Cooperative Agreement (FY09-FY13), Federal assistance ranged from \$13,978,318 to \$15,731,859 (estimated). For the new term of the Cooperative Agreement (FY14-FY18), Federal assistance is estimated at \$17,478,712 to \$19,038,838.

TAFS Codes:

89--0240-

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2013: Laboratory Response Time Tracking (several attributes achieved). Fiscal Year 2014: Training and staffing of an independent and fully capable County Hazardous Material Response Team. Fiscal Year 2015: Establishing an independent and fully capable County Hazardous Material Response Team.

REGULATIONS, GUIDELINES, AND LITERATURE:

The Cooperative Agreement notes numerous regulations (both Federal, local, and Laboratory) and guidelines associated with the performance expectations of the Recipient.

Regional or Local Office:

Federal Actions To Address Environmental Justice In Minority Populations And Low-Income Populations, Executive Order, 12898, February 11, 1994.

OBJECTIVES:

Provides technical and financial assistance to State and local government entities for the conduct of projects/activities to support DOE missions; requirements to manage cultural resources and commitments to provide the public assurances that implemented DOE programs are protective of human health and the environment and educational training and EMs goals to reduce legacy footprint, lifecycle cost and accelerate cleanup and offer research opportunities in science technology, engineering and mathematical (STEM) fields.

TYPES OF ASSISTANCE:

Cooperative Agreements (Discretionary Grants)

USES AND USE RESTRICTIONS:

Financial assistance is provided in support of the program objectives. Restrictions on the use of funds depend on the provisions of the specific project agreement. Applicants must meet the guidelines established by DOE or contained in the specific Congressional authorization for a particular program being supported.

Applicant Eligibility:

Research and Development
Environmental Restoration.

Beneficiary Eligibility:

State, Local US Territory/Possession, Minority Group, Low Income.

Credentials/Documentation:

Costs will be determined in accordance with 10 CFR 600 for State and local Governments. OMB Circular No. A-87 applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular A-102 applies to this program. OMB Circular No. A-11 applies to this program. The application forms must be downloaded from the Grants.gov website at <http://www.grants.gov>. Applicants for sub-awards from the states should consult the office of the official designated as the single point of contact within the State for more information on the process the State requires to be following in applying for assistance.

Award Procedure:

Evaluations will be conducted by the staff of the Office of Acquisition Management and the applicable Program Office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. None.

Appeals:

None.

Renewals:

From 90 to 120 days. Renewals are subject to review by the program office and subject to the availability of funds.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

This program has no matching requirements. Cost sharing is not required, however, strongly encouraged. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Vary. See the following for information on how assistance is awarded/released:

Funds are released through the Electronic Transfer System. Method of awarding/releasing assistance: quarterly.

Reports:

Quarterly reports and technical progress reports containing accomplishments and information on cost status, reported per task is required. Additionally, a final technical report is due 90 days after the end of the performance period. Performance monitoring is achieved through submission of progress reports and site visits. Quarterly project Financial Cash Transaction Reports are required. Quarterly reports and technical progress reports containing accomplishments and information on cost status, reported per task is required. Quarterly Spend Plan

Quarterly project Financial Cash Transaction Reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Retention of records will be required in accordance with 10 CFR 600.

Account Identification:

89-0251-0-1-294.

Obligations:

(Cooperative Agreements (Discretionary Grants)) FY 14 \$7,847,796; FY 15 est \$9,216,267; and FY 16 est \$8,792,019 - Subject to funds availability. Includes both NNSA and EM funding.

Range and Average of Financial Assistance:

\$0.00 to \$8,792,019.00. Subject to the availability of funds.

TAFS Codes:

DEPARTMENT OF EDUCATION

84.002 ADULT EDUCATION - BASIC GRANTS TO STATES

FEDERAL AGENCY:

Office of Vocational and Adult Education, Department of Education

AUTHORIZATION:

Adult Education and Family Literacy Act, (AEFLA), (Title II of the Workforce
Innovation and Opportunity Act), 20 U.S.C. 9201 et seq.

OBJECTIVES:

To fund local programs of adult education and literacy services, including
workplace literacy services, family literacy services, and English literacy and
integrated English literacy-civics education programs. Participation in these
programs is limited to adults and out-of-school youths aged 16 and older who
do not have a high school diploma or equivalent and who are not enrolled or
required to be enrolled in a secondary school under State law. See 20 USC
9202(1).

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The Act lists specific performance measures on which States are assessed.
These include: demonstrated improvements in literacy skill levels in reading,
writing, and speaking the English language, numeracy, problem-solving,
English language acquisition and other literacy skills; placement in, retention
in, or completion of postsecondary education, training, unsubsidized
employment, or career advancement; receipt of a high school diploma or its
equivalent; other objective, quantifiable measures, as identified by the State
agency. Not more than 12.5 percent of the State allotment may be used for State
leadership activities, including professional development; 82.5 percent or more
of the State allotment must be used to support local programs and corrections
education and other institutionalized individuals. Not more than 16.5 percent of
the State allotment may be used for correctional education and other
institutionalized individuals; not more than 5 percent or \$85,000, whichever is
greater, of the State allotment may be used for State administrative costs.
Annual appropriations have in recent years set aside an amount that is reserved
for English literacy and civics education services to immigrants and other
limited English proficient populations. This program is subject to
non-supplanting requirements and must use a restricted indirect cost rate which
is referenced under 34 CFR 76.564-76.569. For assistance call the Office of the
Chief Financial Officer/Indirect Cost Group on 202-708-7770.

Applicant Eligibility:

Formula grants are made to designated eligible State agencies that under State
law are responsible for administering or supervising statewide policy for adult
education and literacy, including such entities as State educational agencies
(SEAs), postsecondary agencies, or workforce agencies. State agencies must
provide direct and equitable access to: local educational agencies; public or
private nonprofit agencies; community-based organizations of demonstrated
effectiveness; institutions of higher education; volunteer literacy organizations

of demonstrated effectiveness; libraries; public housing authorities; nonprofit
institutions not described above that have the ability to provide literacy services
to adults and families; and consortia of the entities described above.

Beneficiary Eligibility:

Adults and out-of-school youths who are 16 years of age and older, who are not
enrolled or required to be enrolled in secondary school under State law, and
who lack sufficient mastery of basic educational skills to enable them to
function effectively in society or do not have a secondary school diploma or its
recognized equivalent, and have not achieved an equivalent level of education,
or are unable to speak, read, or write the English language.

Credentials/Documentation:

A 5-year State plan as provided for in Section 224 of the AEFLA, Education
Department General Administrative Regulations, 34 CFR 74, 76, 77, 79, 80, 81,
82, 85, and 86 and 34 CFR Part 462. The State plan must include a certification
from a State official that all provisions and amendments thereto are consistent
with the Act. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The Director of Adult Education and Literacy will provide guidance on specific
problems and technical assistance in the preparation of State Plans. An
applicant should consult the office or official designated as the single point of
contact in his or her State for more information on the process the State requires
to be followed in applying for assistance, if the State has selected the program
for review. Environmental impact information is not required for this program.
This program is eligible for coverage under E.O. 12372, "Intergovernmental
Review of Federal Programs." An applicant should consult the office or official
designated as the single point of contact in his or her State for more information
on the process the State requires to be followed in applying for assistance, if the
State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit
Requirements for Federal Awards applies to this program. Each eligible
educational agency must submit to the Secretary of Education a 5-year State
plan that sets forth the manner and procedures under which the State will carry
out activities to achieve its program objectives and priorities and fulfill the
purposes of the Act.

Award Procedure:

The Department approves the 5-year State plan and any amendment thereto and
makes allocations to the State each July 1.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application
deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

States are afforded an opportunity for hearings.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Initial Allotment: Eligible outlying areas receive an initial
allotment of \$100,000 and eligible states, including the District of Columbia
and Puerto Rico, receive an initial allotment of \$250,000.

This program has no matching requirements. Generally, the remainder is
allotted to all eligible agencies on the basis of the ratio of adults and youths age
16 and older who are not enrolled or required to be enrolled in secondary school
under State law and who do not hold a high school diploma or equivalent. No
agency may receive less than 90 percent of its allotment from the preceding
fiscal year. The data source is a special tabulation of American Community
Survey (ACS) data by the Bureau of the Census. Matching Requirements: To
receive a grant, States, the District of Columbia, and Puerto Rico must provide
a nonfederal contribution in an amount equal to 25 percent of the total amount
of funds expended for adult education and literacy activities in the State. To
receive a grant, eligible outlying agencies must provide a nonfederal
contribution in an amount equal to 12 percent of the total amount of funds
expended for adult education and literacy activities. The program has a

nonsupplanting requirement, and therefore the applicant must use a restricted indirect cost rate, which is referenced under 34 CFR 76.564-76.569. For assistance call the Office of the Chief Financial Officer / Indirect Cost Group on 202-708-7770.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Funds must be obligated within 27 months of their date of availability. States draw funds as needed under the Electronic Transfer System. See the following for information on how assistance is awarded/released: Contact the program office for this information.

Reports:

Annual Financial and Program Performance Reports in accordance with the provisions in EDGAR, and as approved by OMB. Cash reports are not applicable. Progress reports: Annual Financial and Program Performance Reports in accordance with the provisions in EDGAR as approved by OMB. Expenditure reports: Annual Financial and Program Performance Reports in accordance with the provisions in EDGAR. Performance Monitoring: Annual Financial and Program Performance Reports in accordance with the provisions in EDGAR.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

In accordance with Section 443 of the General Education Provisions Act, grantees must maintain records for 3 years from the date of submission of the final Financial Status Report.

Account Identification:

84.004 CIVIL RIGHTS TRAINING AND ADVISORY SERVICES

FEDERAL AGENCY:

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Civil Rights Act of 1964, Title IV, as amended.

OBJECTIVES:

To provide technical assistance and training services to school districts and other responsible governmental agencies to cope with educational problems occasioned by race, gender, and national origin desegregation.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds support Equity Assistance Centers to provide technical assistance and training, upon request, in the areas of race, sex, and national origin to public school districts and other responsible governmental agencies to promote equitable education opportunities. The centers work in the areas of civil rights and equity. This assistance helps schools and communities ensure that equitable education opportunities are available and accessible for all children.

Applicant Eligibility:

Any private, nonprofit organization or any public agency (other than a State educational agency or school board) may apply.

Beneficiary Eligibility:

Educational personnel and elementary and secondary students in local school districts benefit.

Credentials/Documentation:

More detailed information may be found in the regulations. OMB Circular No. A-122 for nonprofit organizations applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program.

Award Procedure:

After completion of competitive peer review of applications, the Department makes the final decision on the approval and funding of applications.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 30 to 90 Days.

Appeals:

Not Applicable.

Renewals:

Equity assistance centers receive awards for multi-year project periods if they meet the criteria for annual continuation in the regulations. Renewals are subject to the availability of appropriations.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Funds are appropriated on an annual basis. Renewals are subject to the availability of appropriations. Method of awarding/releasing assistance: by letter of credit.

Reports:

In accordance with OMB Circular No. A-102 (Attachments H and I) and ED General Administrative Regulations for Direct Project Grant and Contract Programs, 34 CFR 74, 75. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Office of Federal Student Aid, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title IV, Part A, Subpart 3, 20 U.S.C. 1070b-1070b-3.

OBJECTIVES:

To provide need-based grant aid to eligible undergraduate postsecondary students to help meet educational expenses.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

Grants are for undergraduate study, and range from \$100 to \$4,000 per academic year. However, if reasonable study abroad costs exceed the cost of attendance at the home institution, the amount of the grant may exceed the \$4,000 maximum by as much as \$400. A student is eligible to receive a FSEOG for the period of time needed to complete the first undergraduate baccalaureate course of study being pursued by that student. If it awards grants to students in that year an institution is entitled to an administrative cost allowance for an award year of 5 percent of the first \$2,750,000, expended, plus 4 percent of expenditures greater than \$2,750,000 but less than \$5,500,000, plus 3 percent of expenditures in excess of \$5,500,000.

Applicant Eligibility:

Higher education institutions (public, private nonprofit, postsecondary vocational, and proprietary) meeting eligibility requirements may apply.

Beneficiary Eligibility:

Undergraduate students enrolled or accepted for enrollment as regular students; are maintaining satisfactory academic progress in accordance with the standards and practices of the institution, have financial need, do not owe a refund on a Title IV grant, are not in default on a Title IV loan, file a statement of educational purpose, file a statement of registration compliance (Selective Service) and meet citizen/resident requirements may benefit.

Credentials/Documentation:

Institutions must document their eligibility and students must demonstrate financial need. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Representatives of the appropriate ED Regional Office are available for consultation (see listing of ED Regional Offices in Appendix IV). Students should contact the institution(s) they attend or wish to attend. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Participating institutions submit the Fiscal Operations Report/Application to Participate in Federal Student Financial Aid Programs (ED Form 646-1) which is mailed to institutions of postsecondary education each summer by the Federal Student Aid office. New institutions submit only the application form.

Award Procedure:

The Federal Student Aid office determines final awards and notifies participating institutions. Postsecondary institutions determine individual student awards.

Deadlines:

Oct 01, 2015 Deadlines are specified on the application (usually October 1). Contact the program office for additional information.

Range of Approval/Disapproval Time:

Notices of tentative awards sent by February 1, and final award notifications sent by April 1.

Appeals:

Not Applicable.

Renewals:

There are annual renewals.

Formula and Matching Requirements:

Statutory Formula: Title IV, Part A, Subpart 3.

Matching Requirements: Funds are allocated to institutions on the basis of the institution's base guarantee and pro rata share and then on demonstrated need

for funding. Institutions award funds to students on the basis of financial need as determined by the Federal Need Analysis Methodology specified in statute. This program requires institutional matching funds. The Federal share may not exceed 75 percent unless waived based on objective criteria established in regulations.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Funds are awarded for use by participating institutions for one award year at a time following the year of application. See the following for information on how assistance is awarded/released: Specified in the award document.

Reports:

A single combined Fiscal Operations Report/Application form for Federal Perkins Loans, FSEOG, and FWS (ED 646-1) is submitted by each institution at the close of each award year (June 30). Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Institutions must have a nonfederal audit done on at least an annual basis at its own expense. Audits are performed at Government expense by the Department of Education's Office of the Inspector General as often as its time schedule will allow or when deemed necessary by the Secretary.

Records:

All records pertaining to the activities of a given fiscal year must be retained for a period of three years following the institution's submission of its Fiscal Operations Report for an award year or until resolution of an applicable audit, whichever is later.

Account Identification:

91-0200-0-1-502.

Obligations:

(Direct Payments for Specified Use) FY 14 \$976,513,000; FY 15 est \$976,513,000; and FY 16 est \$976,513,000

Range and Average of Financial Assistance:

The average award in FY 2014 was \$599. The average award for FY 2015 and FY 2016 is estimated to be \$599.

TAFS Codes:

91-0200.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Approximately 1,629,000 recipients were expected. Fiscal Year 2015: Approximately 1,629,000 recipients are expected. Fiscal Year 2016: Approximately 1,629,000 recipients are expected.

REGULATIONS, GUIDELINES, AND LITERATURE:

34 CFR 676, Student Guide fact sheet, no charge; Student Financial Aid Handbook, no charge; Notification to Members of Congress, list of grantees, published annually or as required, no charge; Federal Needs Analysis Methodology booklet, no charge; Verification Handbook, no charge; training materials, no charge.

Regional or Local Office:

See Regional Agency Offices. Students should contact the educational institution(s) they attend or plan to attend. Educational institutions should contact the Regional Administrator for Student Financial Assistance in the appropriate ED Regional Office (see Appendix IV of the Catalog).

Headquarters Office:

84.010 TITLE I GRANTS TO LOCAL EDUCATIONAL AGENCIES

(Title I Basic, Concentration, Targeted and Education Finance Incentive Grants)

FEDERAL AGENCY:

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Elementary and Secondary Education Act of 1965 (ESEA), as amended, Title I, Part A, 20 U.S.C 6301 et seq.

OBJECTIVES:

To help local educational agencies (LEAs) improve teaching and learning in high-poverty schools in particular for children failing, or most at-risk of failing, to meet challenging State academic achievement standards.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Use of funds varies, depending on whether a school is operating a schoolwide program under Section 1114 of the ESEA or a targeted assistance program under Section 1115 of the ESEA. A school with at least a 40 percent poverty rate may choose to operate a schoolwide program under Section 1114, which allows Title I funds to be combined with other Federal, State, and local funds to upgrade the school's overall instructional program in order to raise the achievement of the lowest-achieving students. Schoolwide program schools must receive the amount of non-Federal resources they would have received in the absence of Title I funds. All other participating schools must operate a targeted assistance programs, which provide extra instruction to those children failing, or most at risk of failing, to meet challenging State academic achievement standards. Targeted assistance schools must ensure that Title I services supplement, and do not supplant, services normally provided with non-Federal funds by local educational agencies. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.564-76.569. For assistance call the Office of the Chief Financial Officer/Indirect Cost Group on (202) 708-7770.

Applicant Eligibility:

State educational agencies (SEAs) including for the Outlying Areas and the Secretary of the Interior. Local educational agencies (LEAs) and Indian tribal schools are subgrantees.

Beneficiary Eligibility:

In a targeted assistance program, children who are failing, or most at risk of failing, to meet challenging State academic standards. In a schoolwide program, all children in the school.

Credentials/Documentation:

2 C.F.R. Part 225 formerly. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. SEAs apply for

funds as part of Title I, Part A, State plans submitted to the Department of Education in accordance with Section 1111 of the ESEA or as part of a consolidated State plan submitted under Section 9302 of the ESEA. The plan remains in effect for the duration of the SEA's participation in Title I, Part A, but must be updated to reflect substantive changes. Participating LEA's must file an approved plan with their SEAs.

Award Procedure:

The Department of Education (ED) makes grants through SEAs to LEAs using four statutory formulas based primarily on Census Bureau estimates of the number of children from low-income families in each LEA and State per pupil expenditures.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Not Applicable.

Appeals:

If an LEA's plan is disapproved by the SEA, the LEA may appeal to the SEA and then to the Department of Education under Section 432 of the General Education Provisions Act (GEPA).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title I, Part A. The statute includes four separate formulas for allocating Title I Grants to LEAs. Under the statute, Basic and Concentration Grants are funded approximately at the 2001 appropriation level. Basic Grants are allocated to almost all LEAs based on each State's per-pupil expenditure for education and the number of school-aged children from low-income families. Concentration Grants are allocated to LEAs having more than 6,500 children from low-income families or a poverty rate of more than 15 percent. In addition, funds appropriated in excess of the fiscal year 2001 level are to be allocated as Targeted Grants, which make higher payments to LEAs with higher numbers or percentages of poor children. The law also includes a separately authorized Education Finance Incentive Grants formula, which incorporates factors designed to measure a State's commitment to provide sufficient education funding, as well as how equitably that funding is distributed across districts. Allocations from all four formulas are combined into a single award to eligible LEAs. Within LEAs, funds are targeted to schools with the greatest percentages of poor children.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details. The maintenance-of-effort requirements in sections 1125A(e) and 9521 of the ESEA apply to Title I, Part A.

Length and Time Phasing of Assistance:

Generally, awards to SEAs are made on July 1 and October 1 of the following fiscal year. In addition, funds remain available to SEAs and LEAs for an additional fiscal year for obligation and expenditure under section 421(b) of GEPA, subject to the carryover limitation of section 1127 of the ESEA. See the following for information on how assistance is awarded/released: Contact program office.

Reports:

SEAs submit annual performance reports. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

In accordance with section 443(a) of the General Education Provisions Act, SEAs and LEAs must maintain certain program records for 3 years.

Account Identification:

91-0900-0-1-501.

Obligations:

(Formula Grants) FY 14 \$14,384,802,000; FY 15 est \$14,409,802,000; and FY 16 est \$14,409,802,000

Range and Average of Financial Assistance:

The range of awards in FY 2014 is \$6,942,204 - \$1,690,050,477. The average award is \$255,056,726. The estimated range of awards in FY 2015 is \$6,595,094 - \$684,976,704. The estimated average award is \$255,546,643. The estimated range of awards in FY 2016 is \$6,595,094 - \$1,684,976,704. The estimated average award is \$255,546,643.

84.011 MIGRANT EDUCATION_STATE GRANT PROGRAM

FEDERAL AGENCY:

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, as amended, Title I, Part C, 20 U.S.C 6391.

OBJECTIVES:

To assist States in ensuring that migratory children have the opportunity to meet the same challenging State content and performance standards that all children are expected to meet.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Program funds are used to support high-quality and comprehensive educational programs that address the needs of migratory children. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.564-76.569.

Applicant Eligibility:

State educational agencies or consortia of State educational agencies.

Beneficiary Eligibility:

Children, ages 0 through 21, of migratory agricultural workers or migratory fishers, including children (i.e. persons age 21 or under) who are agricultural workers or migratory fishers or who are the spouses of migratory workers or migratory fishers, who have moved across school district lines within the past 36 months to obtain temporary or seasonal employment in agriculture or fishing work.

Credentials/Documentation:

States are responsible for ensuring that information documenting a child's eligibility is recorded on a Certificate of Eligibility. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

The State educational agency works closely with local educational agencies, institutions of higher education (IHEs), and public and nonprofit private agencies that serve migratory children. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. State educational agencies submit applications to the Department of Education that meet the requirements of the Elementary and Secondary Education Act and applicable regulations. OMB Circular No. A-87 applies to this program.

Award Procedure:

The Department of Education notifies an approved State educational agency of its award through a Grant Award Notification (GAN).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

The range of approval/disapproval time is approximately 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title I, Part C. Sec 1303, ESEA.
Matching requirements are not applicable to this program.
MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Awards are for a period of twelve months. Unspent funds may be carried over into the next fiscal year. See the following for information on how assistance is awarded/released: Electronic funds transfer.

Reports:

Each SEA receiving funds is required to submit an annual report that provides information on the number of children identified as eligible for the program, characteristics of children served the services provided, staff, and student performance. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

In accordance with the General Education Provisions Act and the Education Department General Administrative Regulations, certain program records must be maintained for 3 years.

Account Identification:

91-0900-0-1-501.

84.013 TITLE I STATE AGENCY PROGRAM FOR NEGLECTED AND DELINQUENT CHILDREN AND YOUTH**FEDERAL AGENCY:**

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, as amended, ESEA, , Title I, Part D.

OBJECTIVES:

To help provide educational continuity for neglected and delinquent children and youth in State-run institutions for juveniles and in adult correctional institutions, so that these youth can make successful transitions to school or employment once they are released.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

The Title I, Part D, Subpart 1, State Agency Neglected and Delinquent program provides formula grants to State educational agencies (SEAs) that then make subgrants to State agencies. State agencies use funds for supplementary education services to help provide education continuity for children and youth in State-operated institutions for children and youth, in community day programs for neglected and delinquent children and youths, and in adult correctional institutions so that these children and youths can make successful transitions to school or employment once they are released. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.564-76.569. For assistance call the Office of the Chief Financial Officer/Indirect Cost Group on (202) 708-7770.

Applicant Eligibility:

SEAs. State agencies responsible for providing free public education for children and youth (1) in institutions for neglected or delinquent children and youth; (2) attending community day programs for neglected or delinquent children and youth; or (3) in adult correctional institutions may apply to their SEA for subgrants.

Beneficiary Eligibility:

Children and youth in institutions for neglected or delinquent children and youth, in community day programs for neglected or delinquent children and youth, and adult correctional institutions.

Credentials/Documentation:

2 CFR 200, Subpart E - Cost Principles applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An SEA may apply for State Agency Neglected and Delinquent funds as (1) part of its Title I, Part D, State plan submitted to the Department under Section 1414 of the ESEA or (2) as part of a consolidated State plan under Section 9302 of the ESEA. To receive funds, State agencies must apply to the SEA and provide the information and assurances required in Section 1414 of the ESEA. 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Contact the program office for additional information.

Award Procedure:

The Department of Education's Office of Elementary and Secondary Education awards grants to State educational agencies, which award subgrants to the State agencies that have submitted applications.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Varies with each State.

Appeals:

Not Applicable.

Renewals:

Although State plans are effective for the duration of Title I's authorization, SEAs are required to update plans to reflect changes. State agencies must update their applications annually to receive funds.

Formula and Matching Requirements:

Statutory Formula: Title I, Part D, Subpart 1.

Matching requirements are not applicable to this program.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Generally, awards to States are made from July 1 to September 30 of the following year. Funds remain available to the State for an additional fiscal year for obligation and expenditure. See the following for information on how assistance is awarded/released: Contact the program office for information on how funding is awarded.

Reports:

Each State agency conducting a Title I, Part D, Subpart 1 program is required to evaluate the program's impact on students served at least once every 3 years. Generally, States report annually on the number of neglected or delinquent students obtaining a secondary school diploma or its recognized equivalent while in the N and D program, the number of neglected or delinquent students earning high school course credits, and the number of long-term neglected or delinquent students who improve mathematics and reading skills as measured through State-approved assessments. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Certain project records must be maintained for 3 years.

Account Identification:

91-0900-0-1-501.

84.015 NATIONAL RESOURCE CENTERS PROGRAM FOR FOREIGN LANGUAGE AND AREA STUDIES OR FOREIGN LANGUAGE AND INTERNATIONAL STUDIES PROGRAM AND FOREIGN LANGUAGE AND AREA STUDIES FELLOWSHIP PROGRAM**FEDERAL AGENCY:**

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title VI, Part A, Section 602.

OBJECTIVES:

Centers: To promote instruction in modern foreign languages and area and international studies that are critical to national needs by supporting the establishment, strengthening and operation of such programs at colleges and universities. Centers may focus on undergraduate training only or may be comprehensive, including undergraduate, graduate, and professional training components. Fellowships: To meet the needs of the United States for experts in modern foreign languages combined with area studies and world affairs by supporting fellowships for undergraduate and graduate study at institutions of

higher education.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Centers: Funds may be used for instructional costs of language and area and international studies programs, administration, lectures, conferences, library resources and staff, outreach, and travel. Fellowships: Funds may be used for academic year and summer fellowships to institutions of higher education (IHEs) in order to assist undergraduate and graduate students in acquiring foreign language and either area or international studies competencies. A fellowship awarded to an undergraduate student may include an allowance for educational programs in the United States or education programs abroad that meet certain criteria.

Applicant Eligibility:

Centers: U.S. institutions of higher education or consortia of institutions of higher education are eligible to apply. Applying institutions provide evidence of existing resources and institutional commitment to language and area and international studies through a curriculum that provides instruction dealing with a particular country or world area and its languages, or with international studies and modern foreign languages, including the international aspects of professional or other fields of study. Fellowships: Accredited U.S. institutions of higher education or consortia of institutions of higher education offering area or international studies programs combined with language study are eligible to apply for allocations of fellowships.

Beneficiary Eligibility:

Centers: U.S. institutions of higher education or consortia of institutions of higher education will benefit. Fellowships: Undergraduate and graduate students enrolled in funded centers and programs will benefit. Student candidates must be U.S. citizens or nationals or permanent residents training in area or international studies and in modern foreign languages programs that have or are developing performance-based language instruction. Undergraduate students must be engaged in intermediate level study or advanced study of a less commonly taught language. Training must be undertaken through an institution that has an allocation of Foreign Language and Area Studies (FLAS) Fellowships.

Credentials/Documentation:

Contact program office. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Eligible institutions may submit proposals for the funding of centers only, fellowships only, or both when the announcement of a new competition is issued in the Federal Register. Application forms and guidelines for the submission of proposals are available from the Office of the International and Foreign Language Education at the Department of Education.

Award Procedure:

Centers: Final recommendations are made to the Secretary following evaluations from panels of experts that evaluate applications according to published selection criteria. Fellowships: The student should contact his/her sponsoring institution for information concerning application forms, deadlines, and related matters. Institutional proposals are approved or disapproved by the Secretary, following the same procedures as for Center applications.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. About 120 days.

Appeals:

Not Applicable.

Renewals:

Higher education institutions receiving funds for four year phased program support must submit annual performance reports for the second, third and fourth year for continuation of such support. Students seeking fellowships apply to their institutions for each summer or academic year award period. Renewals are subject to the availability of funds.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Centers: Grants are awarded for project periods of up to 48 months. Payments are made as stipulated in the grant. Renewals are subject to the availability of funds. Fellowships: Academic year and summer fellowship awards to student recipients are made by the institutions on a competitive basis. If summer fellowships are issued, they will be for a summer session in which the equivalent of an academic year's foreign language study is completed. Payments are made by the grantee institution. See the following for information on how assistance is awarded/released: This information is included in the award document.

Reports:

Centers: Centers submit interim and annual performance reports through the International Resource Information System (IRIS). Centers submit a final performance report 90 days after the project end date. Fellowships: FLAS granting institutions report on fellowship award recipients at the beginning and end of each award period. Institutional final reports (awards lists) and budget reports are required annually. Staff monitor grants drawdown using agency financial reports. Cash reports are not applicable. Contact program office. Expenditure reports are not applicable. Reporting on performance measures is required as part of the submittal of the required annual performance report.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Grantees are subject to audit requirements as described in 34 CFR 74.26.

Records:

All records supporting claims under grant or relating to the accountability for awarded funds must be available upon request: (1) for 3 years after close of the fiscal year in which the grant expired or (2) until the grantee is notified of completion of Federal financial audit, whichever is later. Fellowships: All records bearing on the receipt and expenditure of funds under the program must be available for inspection by the Department: (1) for 3 years after the fiscal year in which grant funds are spent, (2) until audited or for 5 years after grant, or (3) until resolution of any audit questions.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$22,743,107; FY 15 est \$22,743,107; and FY 16 est \$22,743,107 - For Centers. (Project Grants) FY 14 \$30,339,000; FY 15 est \$30,339,000; and FY 16 est \$30,339,000 - For Fellowships.

Range and Average of Financial Assistance:

Varies by competition.

CRITERIA FOR SELECTING PROPOSALS:

34 CFR 655, 656, and 657 apply to the Centers and Fellowships Programs. Selection criteria for evaluating applications and selecting centers are listed in the Title VI, International and Foreign Language Education Program Regulations in 34 CFR 655.31, 656.21 or 656.22. The Secretary will weigh criteria using points indicated in the application package or in a notice published in the Federal Register. 34 CFR 657.21 gives the criteria for selection of institutional awards for fellowship allocations. The Secretary will weigh criteria using points indicated in the application package or in a notice published in the Federal Register.

84.016 UNDERGRADUATE INTERNATIONAL STUDIES AND FOREIGN LANGUAGE PROGRAMS**FEDERAL AGENCY:**

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title VI, Part A, Section 604.

OBJECTIVES:

The Undergraduate International Studies and Foreign Language Program supports awards to institutions of higher education and public and nonprofit private agencies and organizations. The awards assist: (1) institutions of higher education to plan, develop, and carry out a program to strengthen and improve undergraduate instruction in international studies and foreign languages; and (2) associations and organizations to develop projects that will make an especially significant contribution to strengthening and improving undergraduate instruction in international studies and foreign languages.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Each program assisted with Federal funds must primarily enhance the international academic program of the institution. Eligible activities may include but are not limited to: development of a global or international studies program that is interdisciplinary in design; development of a program that focuses on issues or topics, such as international business or international health; development of an area studies program and its corresponding foreign languages; creation of innovative curricula that combine the teaching of international studies with professional and pre-professional studies, such as engineering; research for and development of specialized teaching materials, including language instruction, i.e., business French; establishment of internship opportunities for faculty and students in domestic and overseas settings; and development of study abroad programs. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate, which is referenced under 34 CFR 75.563. For assistance call the Office of the Chief Financial Officer/Indirect Cost Group on (202) 377-3838.

Applicant Eligibility:

Accredited colleges and universities, and public and nonprofit private agencies

and organizations.

Beneficiary Eligibility:

Accredited colleges and universities, and public and nonprofit private agencies and organizations will benefit.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. When funds are available for the support of new programs, announcements are issued in the Federal Register. Application forms and guidelines for submission of proposals are available from the Office of International and Foreign Language Education at the Department of Education.

Award Procedure:

Final recommendations are made to the Secretary of Education following advice from a panel of consultants in accordance with the published criteria.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 120 days.

Appeals:

Not Applicable.

Renewals:

Institutions of higher education and associations and organizations currently receiving funds for two- or three-year phased program support must submit performance reports for continuation funding according to instructions established by the Department. Renewals are subject to the availability of funds.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: The non-Federal share of the cost of the programs assisted may be provided in cash from the private sector corporations or foundations in an amount equal to one-third of the total cost of the programs or may be provided as an in-cash or in-kind contribution from institutional and noninstitutional funds, including State and private sector corporation or foundation contributions, equal to one-half of the total cost of the programs assisted herein. The Secretary may waive or reduce the matching requirement for institutions that are eligible to receive assistance under part A or B of Title III or under Title V of the Higher Education Act of 1965, as amended. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are awarded for 12-month periods, subject to renewals of one or two years. Payments are made as stipulated in the grant. Renewals are subject to the availability of funds. See the following for information on how assistance is awarded/released: The information is included in the grant award documents.

Reports:

All programs must provide final reports upon completion of the program. Staff monitor grants drawdown using agency financial reports. Cash reports are not applicable. Reporting on performance measures is required as part of the submittal of the required annual performance report. Expenditure reports are not applicable. Contact program office.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit

Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grantees are subject to audit requirements as described in 34 CFR 74.26.

Records:

All records supporting claims under a grant or relating to the accountability for awarded funds must be available upon request: (1) For 3 years after close of the fiscal year in which contract was liquidated; or (2) until the grantee is notified of completion of Federal financial audit, whichever is later.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$2,928,430; FY 15 est \$2,928,430; and FY 16 est \$2,928,430

Range and Average of Financial Assistance:

No Data Available.

TAFS Codes:

91-0201.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No Current Data Available. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

34 CFR 655 and 658, and the Education Department General Administrative Regulations.

Regional or Local Office:

None.

Headquarters Office:

Carla White, International and Foreign Language Education, Office of Postsecondary Education, Department of Education, 1990 K Street, NW, Washington, District of Columbia 20006 Email: carla.white@ed.gov Phone: (202) 502-7631.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

In addition to evaluation on the basis of criteria found in the Education Division General Administrative Regulations (EDGAR) in 34 CFR 74, 75, 77, and 78 the Secretary will further evaluate applications for Federal support for international studies programs in accordance with the criteria published in 34 CFR 655, 658, and 45 CFR 86872.

**84.018 OVERSEAS PROGRAMS_SPECIAL BILATERAL PROJECTS
FEDERAL AGENCY:**

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Mutual Educational and Cultural Exchange Act of 1961, as amended, Section 102(b)(6), Public Law 87-256.

OBJECTIVES:

To increase mutual understanding and knowledge between the people of the United States and those in other countries by offering qualified U.S. educators

opportunities to participate in short-term study seminars abroad on topics in the social sciences and the humanities.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Program funds provide round-trip economy airfare, room and board, tuition and fees for seminars. Actual locations may vary from year-to-year. No dependents are to accompany awardees participating in seminars.

Applicant Eligibility:

Applicants must (1) be U.S. citizens or have permanent resident status; (2) hold at least a bachelor's degree from an accredited college or university; (3) have at least 3 years full-time in teaching, administering or supervising in the humanities, the social sciences or social studies subjects; (4) be currently employed full-time in teaching, administering or supervising in the aforementioned areas; (5) meet any language requirements if applicable (see the application booklet for details). If selected, awardees must furnish evidence of good health and emotional maturity.

Beneficiary Eligibility:

(1) Undergraduate faculty members of 4 year colleges/universities and 2-year community colleges in the fields of the humanities and social sciences; (2) supervisors and secondary (grades 9 through 12) and elementary and junior high school (grades K through 8) teachers of social studies and humanities; and (3) curriculum development specialists, administrators of local and State education agencies who have direct responsibility for developing curriculum in the subject areas encompassed by the social sciences and the humanities.

Credentials/Documentation:

Applicants' basic data; education and professional preparation; present and previous employment; specific statement of objectives; plans to utilize the knowledge and experience gained from the seminar; involvement in educational/professional/civic groups, associations/organizations; personal traits; honors/awards/publications, etc. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

International Education Graduate Programs Service, Department of Education, publishes an annual announcement of opportunities and conducts open competition to select participants. Binational commissions or foundations or other appropriate agencies receive funding to conduct the seminars. The standard application forms as furnished by the Federal agency and as required by OMB Circular No. A-102 must be used for this program. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Eligible applicants may submit applications for a position in one of the seminars when the announcement of a new competition is made through journals, newsletters, educational associations, individuals, etc.

Award Procedure:

Recommendations are made to the Secretary of Education following advice from a panel of consultants. All recommended selections are subject to review and final approval by the presidentially appointed J. William Fulbright Foreign Scholarship Board.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Applicants notified in March of selection for seminars.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

From 4 to 6 weeks. See the following for information on how assistance is awarded/released: The information is included in the award documents.

Reports:

Individual curriculum projects, outreach activities and program evaluations from participants are submitted. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Contact program office.

Audits:

No audits are required for this program.

Records:

Retained for one year.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$645,808; FY 15 est \$661,448; and FY 16 est \$601,000

Range and Average of Financial Assistance:

Varies by competition.

TAFS Codes:

91-0201.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No Current Data Available. Fiscal Year 2015: No Current Data Available. Fiscal Year 2016: No Current Data Available.

REGULATIONS, GUIDELINES, AND LITERATURE:

Education Department General Administrative Regulations. Program announcements and related information are available from the Program Officer for International Education, Department of Education.

Regional or Local Office:

None.

84.021 OVERSEAS PROGRAMS - GROUP PROJECTS ABROAD

FEDERAL AGENCY:

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Mutual Educational and Cultural Exchange Act of 1961, as amended, Section 102(b)(6), Public Law 87-256.

OBJECTIVES:

To contribute to the development and improvement of the study of modern foreign languages and area studies in the United States by providing grants to

support overseas projects in training, research, and curriculum development in modern foreign languages and area studies for teachers, students, and faculty engaged in a common endeavor.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

The grant does not provide funds for project-related expenses within the United States. The grant funds may be used in the country of study for the following: maintenance stipend; round-trip international travel; project-related local travel; artifacts; books and other teaching materials; rent for instructional facilities; and clerical and professional services. Projects must focus on the humanities, social sciences and languages, and must focus on one or more of the following areas: Africa, East Asia, South Asia, Southeast Asia and the Pacific, the Western Hemisphere (Central and South America, Mexico, and the Caribbean), East Central Europe and Eurasia, and the Near East. Applications that propose projects focused on Canada or Western Europe will not be funded.

Applicant Eligibility:

Institutions of higher education, State departments of education, private nonprofit educational organizations, and a consortium of institutions, departments, and organizations.

Beneficiary Eligibility:

A participant must be: a citizen, or permanent resident of the United States, currently employed full-time in a United States school system, institution of higher education, local education agency or state education agency (not applicable to students), and at least one of the following:

- A teacher in an elementary or secondary school (please see note below);
- A faculty member who teaches modern foreign languages or area studies;
- An experienced education administrator responsible for planning, conducting, or supervising programs in modern foreign languages or area studies at the elementary, secondary, or postsecondary levels;
- A graduate student or junior or senior in an institution of higher education, who is a prospective teacher in the areas of social sciences, humanities and foreign languages. The student should meet the provisions set by his or her local and state education agencies; or
- For the Advanced Overseas Intensive Language Training project, the participating student, other than those planning a teaching career, should be planning to apply their language skills and knowledge of countries vital to the United States national security in fields outside teaching, including government, the professions, or international development.

Credentials/Documentation:

Cost will be determined in accordance with OMB Circular No. A-87 for State and local governments. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. An institution or organization interested in the program should plan and propose a group project that would significantly improve its program in foreign language and area studies. Specific guidelines for preparation of proposals as published in the Federal Register are available upon request from the International Education Programs Service (IEPS). The institution or organization must give assurance that the individuals it nominates to undertake the projects are appropriately qualified.

Award Procedure:

With the advice of a panel of academic consultants and an assessment of the feasibility and suitability of each proposal by U.S. Embassies and Binational Commissions in the proposed countries of study, the IEPS will make initial selections, and preliminary recommendations of grant recipients to the Secretary. All recommended selections are subject to review and final approval by the presidentially appointed J. William Fulbright Foreign Scholarship Board.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

For short-term seminar, curriculum development, and group research or study, projects range from 5 weeks to 12 months; projects are up to 48 months for advanced intensive language training projects. See the following for information on how assistance is awarded/released: The information is included in the grant award document.

Reports:

Interim progress, terminal program, and financial reports from the grantee are required. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Audit requirements as described in 34 CFR 74.26 do not pertain to this program. All fiscal records are subject to audit at any time within five years after close of the fiscal year in which expenditures are made.

Records:

Documents bearing on receipt and expenditure of grant funds must be made available for inspection by the Department: (1) For three years after the close of the fiscal year in which expenditures are made if departmental audit has occurred by that time; (2) until audit or for five years following the end of budget period in which grant expired, whichever is later; or (3) until resolution of outstanding audit questions.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$3,274,133; FY 15 est \$3,261,000; and FY 16 est \$3,261,000

Range and Average of Financial Assistance:

Varies by competition.

CRITERIA FOR SELECTING PROPOSALS:

The selection criteria for this program are from 34 CFR 664.31 and are as follows: (a) Plan of operation (20 points), (b) quality of key personnel (10 points), (c) budget and cost effectiveness (10 points), (d) evaluation plan (20 points), (e) adequacy of resources (5 points), (f) potential impact of the project on the development of the study of modern foreign languages and area studies in American education (15 points), (g) relevance to the institution's educational goals and its relationship to its program development in modern foreign languages and area studies (5 points), (h) the extent to which direct experience abroad is necessary to achieve the project's objectives and the effectiveness with which relevant host country resources will be utilized (10 points), and (i) the extent to which the proposed project addresses the competitive preference priorities (10 points). Subject to change. Contact program officer for further information.

84.022 OVERSEAS PROGRAMS - DOCTORAL DISSERTATION RESEARCH ABROAD**FEDERAL AGENCY:**

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Mutual Educational and Cultural Exchange Act of 1961, as amended, Section 102(b)(6), Public Law 87-256.

OBJECTIVES:

To provide opportunities for graduate students to engage in full-time dissertation research abroad in modern foreign language and area studies with the exception of Western Europe. This program is designed to contribute to the development and improvement of the study of modern foreign languages and area studies in the United States.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds will be available to enable doctoral candidates to complete field research for their dissertations. Generally awards will not be available for projects focusing primarily on Western Europe or countries where the United States has no diplomatic representation. Financial provisions include basic stipend computed on the cost-of-living in the country where research is to be conducted; cost of international round trip jet economy air fare for fellow only; baggage allowance, dependents allowance for accompanying dependents based on cost-of-living in host country; project allowance to be utilized for the purchase of expendable materials, services, and supplies, tuition payments to foreign institutions, and local travel expenditures; funds to secure health and accident insurance.

Applicant Eligibility:

Institutions of higher education may apply.

Beneficiary Eligibility:

A candidate for Doctoral Dissertation Research Abroad Fellowship must: (1) be a (a) citizen or national of the United States; or (b) permanent resident of the

United States; (2) be a graduate student in good standing at an institution of higher education who, when the fellowship period begins, has been admitted to candidacy in a doctoral degree program in modern foreign languages and area studies at that institution; (3) plan a teaching career in the United States upon graduation; (4) possess adequate skills in the foreign language(s) necessary to carry out the dissertation research project.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

The institutional project director will be responsible for accepting, screening, and forwarding through the Department of Education's Application system to the Advanced Training and Research Team those individual applications which meet the institution's technical and academic criteria and the program's eligibility requirements. Candidates for dissertation research fellowships apply directly to the institutions at which they are enrolled in a Ph.D. program, not to the Department of Education. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Institutions should request application materials from the Advanced Training and Research Team. Students should address requests for application forms institutional project director at the graduate schools at which they are enrolled in a Ph.D. program.

Award Procedure:

The Advanced Training and Research Team will make initial selection and recommendation of fellowship recipients with the advice of a panel of specialists in foreign language and area studies and comments by U.S. embassies and binational commissions in the proposed countries of research. Selections are subject to review and final approval by the presidentially appointed J. William Fulbright Foreign Scholarship Board. The grant covering successful graduate students is made to the applicant, i.e., institutions of higher education.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 180 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Awards are made for at least 6 but not more than 12 months. See the following for information on how assistance is awarded/released: This information is included in the award document.

Reports:

Fellows: Pre-Fellowship reports through the grantee institution are due no later than 30 days prior to travel to begin research. Final reports through the grantee institution are due no later than 90 days after the termination date of the award. Institutions: fiscal reports. No cash reports are required. No progress reports are required. No expenditure reports are required. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a

year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Grantees are subject to audit requirements as described in 34 CFR 74.26.

Records:

Records bearing on receipt and expenditure of funds to be made available for inspection by the Department for 3 years after close of fiscal year in which expenditures are made if departmental audit has occurred by that time, until audit or for five years following the end of the budget period in which the grant expired (whichever is later) or until resolution of any outstanding audit questions.

Account Identification:

CRITERIA FOR SELECTING PROPOSALS:

The selection criteria for this program are from 34 CFR 662.21 and are listed in the following paragraphs. The maximum score for all of the criteria, including the competitive preference priority, is 105 points. The maximum score for each criterion is indicated in parentheses. Quality of proposed project (60 points): In determining the quality of the research project proposed by the applicant, the Secretary considers: (1) The statement of the major hypotheses to be tested or questions to be examined, and the description and justification of the research methods to be used (10 points); (2) the relationship of the research to the literature on the topic and to major theoretical issues in the field, and the project's originality and importance in terms of the concerns of the discipline (10 points); (3) the preliminary research already completed in the United States and overseas or plans for such research prior to going overseas, and the kinds, quality and availability of data for the research in the host country or countries (10 points); (4) the justification for overseas field research and preparations to establish appropriate and sufficient research contacts and affiliations abroad (10 points); (5) the applicant's plans to share the results of the research in progress and a copy of the dissertation with scholars and officials of the host country or

countries (10 points); and (6) the guidance and supervision of the dissertation advisor or committee at all stages of the project, including guidance in developing the project, understanding research conditions abroad, and acquainting the applicant with research in the field (10 points). Qualifications of the applicant (40 points): In determining the qualifications of the applicant, the Secretary considers (1) the overall strength of the applicant's graduate academic record (10 points); (2) the extent to which the applicant's academic record demonstrates strength in area studies relevant to the proposed project (10 points); (3) the applicant's proficiency in one or more of the languages (other than English and the applicant's native language) of the country or countries of research, and the specific measures to be taken to overcome any anticipated language barriers (15 points); and (4) the applicant's ability to conduct research in a foreign cultural context, as evidenced by the applicant's references or previous overseas experience, or both (5 points). Subject to change. Contact program officer for further information.

84.027 SPECIAL EDUCATION_GRANTS TO STATES

FEDERAL AGENCY:

Office of Special Education and Rehabilitative Services, Department of Education

AUTHORIZATION:

Individuals with Disabilities Education Act (IDEA), as amended, Part B, Sections 611-618, 20 U.S.C 1411-1418.

OBJECTIVES:

To provide grants to States to assist them in providing special education and related services to all children with disabilities.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

States must distribute all grant funds that the State does not reserve for administration of the program or other State-level activities to eligible local educational agencies. Funds are used by State and local educational agencies, in accordance with the IDEA, to help provide the special education and related services needed to make a free appropriate public education available to all eligible children and, in some cases, to provide early intervening services.

Applicant Eligibility:

State educational agencies in the 50 States, District of Columbia, Puerto Rico, American Samoa, Commonwealth of the Northern Mariana Islands, Guam and Virgin Islands, the Department of the Interior, and freely associated States. Local educational agencies apply to their State educational agency for subgrants.

Beneficiary Eligibility:

Children with disabilities will benefit.

Credentials/Documentation:

No State or jurisdiction may receive a grant unless the Secretary has approved the annual application and statement of assurances. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. States are eligible to receive funds under this program if the State establishes eligibility for funds under Section 612 of Part B of the IDEA. Local education agencies establish eligibility by meeting local application eligibility requirements of Section 613 of Part B of the IDEA.

Award Procedure:

Once the State application has been approved, a grant award is forwarded to the

State department of education. Notification of the award is made to Chief State School Officer. States make subgrants to eligible local educational agencies from their initial grant award after setting aside funds for administration and state-level activities.

Deadlines:

May 10, 2016: The submission date for State applications is May 10 to expedite funding, but plans or amendments are accepted throughout the fiscal year.

Range of Approval/Disapproval Time:

Within 90 days.

Appeals:

The Department must not take final action to disapprove an application until the State is provided reasonable notice and an opportunity for a hearing. The State must request a hearing no later than 30 days after it receives notice of the proposed final determination that the State is not eligible to receive its award.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Statutory citation: IDEA Part B Sec. 611. Funds are allocated among States, including the District of Columbia and Puerto Rico, in accordance with a variety of factors. First, each State is allocated an amount equal to the amount that it received for fiscal year 1999. If the total program appropriation increases over the prior year, 85 percent of the remaining funds are allocated based on the number of children in the general population, between the ages of 3 through 21, in the age range for which the States guarantee a free appropriate public education (FAPE) to children with disabilities. Fifteen percent of the remaining funds are allocated based on the number of children living in poverty, between the ages of 3 through 21, that are in the age range for which the States guarantee FAPE to children with disabilities. The statute also includes several maximum and minimum allocation requirements when the amount available for distribution to States increases. If the amount available for allocation to States remains the same from one year to the next, States receive the same level of funding as in the prior year. If the amount available for allocation to States decreases from the prior year, any amount available for allocation to States above the 1999 level is allocated based on the relative increases in funding that the States received between 1999 and the prior year. If there is a decrease below the amount allocated for 1999, each States allocation is reduced from the 1999 level.

This program has no matching requirements. However, there are non-supplanting and excess cost requirements. MOE requirements for this program apply to both State Educational Agencies and local educational agencies. Contact the program office for further details.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Grants are issued each fiscal year. The Federal obligation period is a 15-month period from July 1 through September 30. States and local education agencies have an additional 12-month period to obligate funds they receive. See the following for information on how assistance is awarded/released: Contact the program office for this information.

Reports:

State Performance Plans (SPPs) and Annual Performance Reports (APR) are submitted to the Department of Education from the State departments of education. No cash reports are required. No progress reports are required. 34 CFR 80.40. 34 CFR 80.41.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

As required by EDGAR for State administered programs (34 CFR 76.730-731). Generally, the State and its subgrantees must retain records related to grant

funds and compliance for a period of 3 years from the date the grantee or subgrantee submits its final expenditure report for that funding period. 34 CFR 80.42. Also, all records supporting claims for Federal funds or relating to the accountability of the grantee for the expenditure of such funds must be accessible for administrative review.

Account Identification:

91-0300-0-1-501.

Obligations:

(Formula Grants) FY 14 \$11,472,848,000; FY 15 est \$11,497,848,000; and FY 16 est \$11,672,848,000

Range and Average of Financial Assistance:

In FY 2015, regular annual allotments to States, including DC and Puerto Rico, ranged from \$17.6 million to \$1.2 billion, with an average award of \$218 million. Grants to outlying areas ranged from \$4-5 million to \$14 million. The Department of Interior received \$94 million.

TAFS Codes:

91-0300.

PROGRAM ACCOMPLISHMENTS:

Not Applicable.

REGULATIONS, GUIDELINES, AND LITERATURE:

Program regulations are at 34 CFR 300, and 34 CFR 76-77,79,80-82,84-86, and 97-99.

84.031 HIGHER EDUCATION_INSTITUTIONAL AID

FEDERAL AGENCY:

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended (HEA). Title III, Part A and Part F, HEA, Title V.

OBJECTIVES:

To help eligible colleges and universities to strengthen their management and fiscal operations and to assist such institutions to plan, develop, or implement activities including endowment building to strengthen the academic quality of their institutions.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Eligible institutions may apply under Part A, Part B or Part F of Title III of the HEA or Title V of the HEA. Title III Part A includes Strengthening Institutions Program (SIP), American Indian Tribally Controlled Colleges and Universities (TCCUs), Alaska Native and Native Hawaiian serving (ANNH) institutions, Asian American and Native American Pacific Islander-serving Institutions (AANAPISI), Native American-Serving Nontribal Institutions (NASNTI) and Predominantly Black Institutions (PBIs). Title III Part B includes the Historically Black Colleges and Universities (HBCUs) program and the Historically Black Graduate Institutions (HBGIs) program. Title III Part A provides funds to eligible institutions to plan, develop, and implement activities for development of faculty, fund, and administrative management, and improvement of academic programs, acquisition of equipment for use in strengthening academic programs and institutional management, and joint use of facilities such as libraries, laboratories, and student services. Title III Part B provides funds to undergraduate HBCUs and graduate HBGIs. Funds may be used for purchase, rental, or lease of scientific equipment; construction, maintenance, renovation, improvement in classroom, library and other instructional facilities; support of faculty exchanges and fellowships; academic instruction in disciplines in which African Americans are underrepresented, purchase of library books, periodicals, and other educational materials; tutoring, counseling, and student services; funds and administrative management; acquisition of equipment for use in funds management; endowment funds; and joint use of facilities. Title V Part A, Developing Hispanic Serving Institutions (HSIs) program provides funds to eligible HSIs for activities such as: faculty development; funds and administrative management; development and improvement of academic programs; endowment funds; curriculum development; scientific or laboratory equipment for teaching; construction or renovation of instructional facilities; joint use of facilities; academic tutoring; counseling programs; student support services, purchase of educational materials; articulation agreements; creating facilities for distance learning technologies; teacher education programs; K-12 community outreach programs; and the expansion of graduate and professional programs. Title V Part B, Promoting Postbaccalaureate Opportunities for Hispanic Americans program provides funds to eligible HSIs for activities such as: purchase or rental of scientific or laboratory equipment; construction or renovation of instructional facilities; purchase of educational materials; support for low-income postbaccalaureate students; support of academic instruction and faculty and curricular development; creating facilities for distance learning technologies; and collaboration with other institutions of higher education to expand postbaccalaureate offerings. Title III, Part F, Section 371 authorizes funds for Hispanic-serving Institutions STEM and Articulation Programs to support the kinds of activities being supported under the existing Title V program, except that priority is given for applications that propose to increase the number of Hispanic and other low-income students attaining degrees in fields of science, technology, engineering, and mathematics (STEM) and to applications that propose to develop model transfer and articulation agreements between the 2-year and 4-year HSIs in such fields. Funds provided for Title III and Title V may not be used for activities other than those in an approved application, activities that are inconsistent with any applicable State plan of higher education or State plan for desegregation, a school or department of divinity or any religious worship or sectarian activity; general operating and maintenance expenses; indirect costs; or supplanting of other funds available to the institution. These programs are subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.563. For assistance call the Office of Chief Financial Officer/Indirect Cost Group on (202) 377-3838.

Applicant Eligibility:

An institution of higher education (IHE) that qualifies as eligible using criteria as specified in the regulations. Under Part A, specific and basic requirements as stated in the program regulations must be met. Eligible applicants include institutions that have: (1) A low average per full-time equivalent (FTE) educational and general expenditures; (2) a substantial percentage of students having Pell Grants or other Federal need-based financial aid. However, a waiver of the low educational and general expenditure requirement and the needy student enrollment requirement may be granted to institutions meeting the criteria specified in the existing regulations. Under Part B HBCUs, historically Black institutions that were established prior to 1964, whose principal mission was, and is, the education of African Americans are eligible.

A listing of those institutions is published in program regulations; these HBCUs are also eligible under the Endowment Challenge Grant Program. Institutions eligible for PBI program grants are defined in Title III Section 318(b) of the HEA. Institutions eligible for HBGI program grants are specified in Title III Section 326(e)(1) of the HEA. Under the Title V programs, an HSI is defined as an institution that has an enrollment of undergraduate full-time equivalent students that is at least 25 percent Hispanic as specified in Section 502 of the HEA.

Beneficiary Eligibility:

Applicant institutions of higher education, including those in the territories and possessions that meet statutory eligibility requirements will benefit.

Credentials/Documentation:

Institutions must document that they are accredited by a nationally recognized accrediting agency or that they are making satisfactory progress toward such accreditation. A 4-year institution must have authority to award a bachelor's degree. A 2-year institution must offer a program acceptable for full credit towards a bachelor's degree, or a 2-year program in engineering, mathematics, or the physical or biological sciences designed to prepare the student to work as a technician at a semiprofessional level. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications for funding are available from the Institutional Services office at the Department of Education. Application deadlines are published in the Federal Register.

Award Procedure:

Title III Part A applicants in the SIP, ANNH, AANAPISI, and NASNTI programs and Title V applications are evaluated by external reviewers who are experts in postsecondary education. The Department makes final awards based primarily on the scores assigned to the applications by the external reviewers and the recommendations submitted by the staff of the Institutional Service, Office of Postsecondary Education at the Department of Education.

Title III applicants in the TCCUs, PBIs, HBCUs, and HBGIs programs makes final awards based on a statutory formula.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately six months.

Appeals:

Not Applicable.

Renewals:

Under the SIP, priority is given to applicants who are not already receiving a grant. Institutions that received a 5-year individual development grant are not eligible to receive an additional grant until 2 years after the date on which the 5-year terminates. After fulfilling the wait-out requirement, institutions applying for another grant under the SIP must reapply for eligibility.

Formula and Matching Requirements:

Statutory Formula: Funds are allocated to TCCUs, PBIs, HBCUs, and HBGIs based on a statutory formula. Title III, Part A, Section 316(d); Title III Part A, Section 320; Title III, Part B, Sections 324 and 326(f) of the HEA.

Matching Requirements: Under the SIP, TCCUs, HBCUs, and HSIs, institutions of higher education may use no more than 20 percent of grant funds to establish or increase an institution's endowment fund. The endowment funds must be matched at a rate of one non-Federal dollar for each Federal dollar.

Under the HBGIs program, eligible institutions that have project grants over \$1,000,000 must match the entire Federal share on a dollar-for-dollar basis.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Under the SIP, TCCUs, ANNH, AANAPISI and HSIs, planning grants are for a period of up to 1 year, individual development grants are for a period of 5 years. See the following for information on how assistance is awarded/released:

This information is included in the award document.

Reports:

As required by the Special Grant Terms and Conditions. Staff monitor grants drawdown using agency financial reports. No cash reports are required. Progress reports are required. Expenditure reports are not applicable. Reporting on performance measures is required as part of the submittal of the required annual performance report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Subject to a Federal audit any time during the term of the grant and within a period of 3 years after the termination of Federal support.

Records:

Must be retained for 5 years after the end of the fiscal year during which the expenditures were made or until the grantee is notified that the records are no longer needed.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$19,517,000; FY 15 est \$8,992,000; and FY 16 est \$8,992,000 - PPOHA. (Project Grants) FY 14 \$302,663,000; FY 15 est \$306,319,000; and FY 16 est \$306,744,000 - Strengthening HBCUs. (Project Grants) FY 14 \$26,542,000; FY 15 est \$26,813,000; and FY 16 est \$27,833,000 - Strengthening ANNH. (Project Grants) FY 14 \$3,062,000; FY 15 est \$3,113,000; and FY 16 est \$3,113,000 - Strengthening AANAPISI. (Project Grants) FY 14 \$57,872,000; FY 15 est \$58,840,000; and FY 16 est \$58,840,000 - Strengthening HBGIs. (Project Grants) FY 14 \$53,079,000; FY 15 est \$53,472,000; and FY 16 est \$53,622,000 - Strengthening TCCUs. (Project Grants) FY 14 \$3,062,000; FY 15 est \$3,113,000; and FY 16 est \$3,113,000 - Strengthening NASNTI. (Project Grants) FY 14 \$98,583,000; FY 15 est \$100,231,000; and FY 16 est \$100,231,000 - Developing Hispanic-Serving Institutions. (Project Grants) FY 14 \$9,092,000; FY 15 est \$9,244,000; and FY 16 est \$9,244,000 - Strengthening PBIs. (Project Grants) FY 14 \$92,800,000; FY 15 est \$92,700,000; and FY 16 est \$93,200,000 - HSI STEM. (Project Grants) FY 14 \$79,139,000; FY 15 est \$80,462,000; and FY 16 est \$80,462,000 - Strengthening Institutions (Part A).

Range and Average of Financial Assistance:

Varies by competition.

TAFS Codes:

91-0201.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No Current Data Available. Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

REGULATIONS, GUIDELINES, AND LITERATURE:

34 CFR 607, 608, 609, 628, the Education Department General Administrative Regulations.

Regional or Local Office:

None.

Headquarters Office:

Leonard Haynes, Department of Education, Office of Postsecondary Education, Office of Higher Education Programs, Institutional Service, 1990 K. St., N.W., Washington, District of Columbia 20006 Email:

leonard.haynes@ed.gov Phone: (202) 502-7549

Website Address:

<http://www.ed.gov/about/offices/list/ope/idues>.

RELATED PROGRAMS:

Not Applicable.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

(a) Under Title III and Title V, the Department appoints review panels to provide comments and recommend ratings for the applications. The reviewers numerically rate each application assigned and provide the Secretary with comments on each. Criteria are published in the Federal Register along with the point value for each criterion. (b) Under TCCUs, HBCUs, HBGIs, and PBIs, funds are allocated based on a statute-driven formula. For Strengthening TCCUs, applicants are limited to tribal colleges and universities, including institutions qualifying for funding under the Tribally Controlled College or University Assistance Act of 1978 or the Navajo Community College Assistance Act of 1978, or cited in section 532 of the Equity in Educational Land Grant Status Act of 1994. To be eligible to receive a grant under the Strengthening HBCUs program, an institution must be designated by the Secretary of Education as a Historically Black College or University. HBGIs receiving discretionary grants are specified in the program statute. To be eligible to receive a grant under the Strengthening PBIs program, an institution must have an enrollment of undergraduate students that is at least 40 percent Black American students; that is at least 1,000 undergraduate students of which not less than 50 percent of the undergraduate students enrolled at the institution are low-income individuals or first-generation college students (as that term is defined in Section 402A(g)); and of which not less than 50 percent of the undergraduate students are enrolled in an educational program leading to a bachelors or associates degree that the institution is licensed to award by the State in which the institution is located.

84.033 FEDERAL WORK-STUDY PROGRAM

FEDERAL AGENCY:

Office of Federal Student Aid, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title IV, Part C; 42 U.S.C. 2751-2756a.

OBJECTIVES:

To provide part-time employment to eligible postsecondary students to help meet educational expenses and encourage students receiving program assistance to participate in community service activities.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The Federal share of compensation paid to students does not exceed 75 percent for work on campus, or work in a public agency or private nonprofit organization, unless waived by the Secretary. The Federal share of compensation paid to students does not exceed 50 percent for jobs with a private-for-profit organization. No more than 25 percent of an institution's work-study allocation may be used for private-for-profit organizations. If it provides FWS employment to its students in that year, an institution is entitled to an administrative cost allowance for an award year of 5 percent of the first \$2,750,000 of its program expenditures, plus up to 4 percent for expenditures greater than \$2,750,000 but less than \$5,500,000, plus up to 3 percent of expenditures in excess of \$5,500,000. An institution is required to use at least 7 percent of its total FWS allocation to pay the Federal share of wages to students employed in community service jobs unless it receives a waiver.

Applicant Eligibility:

Higher education institutions (public, private nonprofit, postsecondary vocational, and proprietary) meeting eligibility requirements may apply.

Beneficiary Eligibility:

Undergraduate, graduate, or professional students enrolled or accepted for enrollment as regular students; are maintaining satisfactory academic progress in accordance with the standards and practices of the institution; have financial need; do not owe a refund on a Title IV grant; are not in default on a Title IV loan; file a statement of educational purpose; file a statement of registration compliance (Selective Service); and meet citizen/resident requirements may benefit.

Credentials/Documentation:

Institutions must document their eligibility and students must demonstrate financial need. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Representatives of the appropriate ED Regional Office are available for consultation. See listing of ED Regional Offices in Appendix IV of the Catalog. Students should contact the institution(s) they attend or plan to attend. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Participating institutions submit a Fiscal Operations Report/Application to Participate in Federal Student Financial Aid programs (ED Form 646-1) which is mailed to institutions of postsecondary education each summer by the Office of Federal Student Aid. New institutions submit only the application form.

Award Procedure:

The Office of Student Financial Aid determines final awards and notifies participating institutions. Postsecondary institutions determine individual student awards.

Deadlines:

Oct 01, 2015: Deadlines are specified on the application (usually October 1).

Range of Approval/Disapproval Time:

Notices of tentative awards sent by February 1 and final award notifications sent by April 1.

Appeals:

Not Applicable.

Renewals:

Annual.

Formula and Matching Requirements:

Statutory Formula: Title IV, Part C.

Matching Requirements: Under the funding formula, funds are distributed to institutions, first, on the basis of the institution's base guarantee plus the pro rata share received during the 1999-2000 award year under the FWS Program and, then, on the basis of the aggregate need of the eligible students in attendance. Employers of FWS recipients must contribute 25 percent of the funding, (except in the case of private, for-profit organizations, which must match 50 percent) and in the case of established criteria for which the matching requirement is waived.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Funds are awarded for use by participating institutions for one award year at a time following the year of application. See the following for information on how assistance is awarded/released: electronic transfer.

Reports:

A single combined Fiscal Operations Report/Application form for Federal Perkins Loans, FSEOG, and FWS (DE 646-1) is submitted by each institution at the close of each award year (June 30). Cash reports are not applicable. Progress reports are not applicable. A single combined Fiscal Operations Report/Application form for Federal Perkins Loans, FSEOG, and FWS (DE 646-1) is submitted by each institution at the close of each award year (June 30). Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit

Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Institutions must have a nonfederal audit done on at least an annual basis at its own expense. Audits may also be performed at Government expense by the Department of Education's Office of the Inspector General as often as its time schedule will allow or when deemed necessary by the Secretary.

Records:

All records pertaining to activities of a given fiscal year must be retained for a period of 3 years following the institution's submission of its Fiscal Operations Report for an award year or until final resolution of an applicable audit, whichever is later.

Account Identification:

91-0199-0-1-502; 91-0200-0-1-502.

Obligations:

(Direct Payments for Specified Use) FY 14 \$1,158,522,000; FY 15 est \$1,176,350,000; and FY 16 est \$1,176,350,000

Range and Average of Financial Assistance:

The average award in FY 2014 was \$1,673. The average award in FY 2015 and FY 2016 is estimated at \$1,673.

TAFS Codes:

91-0200.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Approximately 692,000 recipients were expected. Fiscal Year 2015: Approximately 703,000 recipients are expected. Fiscal Year 2016: Approximately 703,000 recipients are expected.

REGULATIONS, GUIDELINES, AND LITERATURE:

34 CFR 675. Notification to Members of Congress, list of grantees, published annually or as required, no charge; Student Guide, no charge; Federal Student Aid Handbook, no charge; Federal Needs Analysis Methodology, no charge; Verification Handbook, no charge; Training Materials, no charge.

Regional or Local Office:

See Regional Agency Offices. Students should contact the educational institution(s) they attend or plan to attend. Public and private nonprofit organizations should contact grantee educational institutions in their own State or multi-State areas. Educational institutions should contact the Regional Administrator for Student Financial Assistance in the appropriate ED Regional Office (see Appendix IV of the Catalog).

Headquarters Office:

Federal Student Aid Information Center, Federal Student Aid (FSA), Department of Education, P.O. Box 84, , Washington, District of Columbia 20044-0084 Phone: (800) 433-3243.

CRITERIA FOR SELECTING PROPOSALS:

Not Applicable.

84.040 IMPACT AID_FACILITIES MAINTENANCE

FEDERAL AGENCY:

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Elementary and Secondary Education Act of 1965, as amended, Title VIII,

Section 8008.

OBJECTIVES:

To maintain school facilities used to serve federally connected military dependent students that are owned by the Department of Education and operated by local educational agencies (LEAs), and to transfer those facilities to the LEAs, where appropriate.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

To maintain federally owned school facilities and restore or improve them where appropriate to enable an LEA to accept ownership. The Department directly oversees construction projects, unless the LEA has agreed to accept transfer of the facility, in which case funds may be provided to the LEA to complete the project after the transfer.

Applicant Eligibility:

LEAs that operate school facilities owned by the Department of Education.

Beneficiary Eligibility:

Public elementary and secondary school children benefit.

Credentials/Documentation:

No Credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. There is no application form for Section 8008 grants. Contact the program office for information.

Award Procedure:

The Department of Education makes final decisions to fund projects.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

Contact the program office for this information.

Appeals:

Not Applicable.

Renewals:

Approved construction projects may be revised during construction, subject to appropriate approvals.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

The length and terms of an award will be established prior to the award. See the following for information on how assistance is awarded/released: This information is included in the award document.

Reports:

In accordance with OMB Circular No. A-102 (Attachments H and I) and Education Department General Administrative Regulations (EDGAR) for direct project grant and contract programs, Part 100a, Subpart F. See 34 CFR 74, Subpart H, Standards for Grantees Financial Management Systems. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), Audits of States, Local Governments, and Nonprofit

Organizations, nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Records:

In accordance with OMB Circular No. A-102 (Attachment C) and Education Department General Administrative Regulations, for direct project grant and contract programs, Part 100a, Subpart F. See 34 CFR 74, Subpart H, Standards for Grantees Financial Management Systems.

Account Identification:

91-0102-0-1-501.

Obligations:

(Project Grants) FY 14 \$4,835,000; FY 15 est \$4,835,000; and FY 16 est \$4,835,000

Range and Average of Financial Assistance:

Not available.

TAFS Codes:

RELATED PROGRAMS:

84.041 Impact Aid

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Emergency repairs are funded as needed. Priority for more extensive projects is given to LEAs that agree to accept transfer of the school facility.

84.041 IMPACT AID

FEDERAL AGENCY:

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Elementary and Secondary Education Act (OESE), as amended, Title VIII.

OBJECTIVES:

To provide financial assistance to local educational agencies (LEAs) where affected by Federal activities, i.e., where the tax base of a district is reduced through the Federal acquisition of real property (Section 8002, ESEA), and where the presence of certain children living on Federal property places a financial burden on the LEAs that educate them (Sections 8003 and 8007, ESEA).

TYPES OF ASSISTANCE:

FORMULA GRANTS; Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

Under formula awards, most assistance becomes part of the general operating fund of the LEAs. Districts usually deposit the Federal payment in the general operating funds account in accordance with State laws, together with all State and local funds available for current operating expenses and use this combined

account to finance the school program in the district. Special additional payments made to LEAs related to enrollments of federally connected children with disabilities must be used for programs and projects designed to meet the special educational and related needs of these children. Payments for construction may be used for construction and renovation, debt service, or other capital fund activities. Under discretionary construction awards, funds must be used for the project grant described in the application and grant award notification. The discretionary construction grant program is subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.564-76.569. For assistance call the Office of the Chief Financial Officer/Indirect Cost Group on 202-708-7770.

Applicant Eligibility:

Local educational agencies that provide free public elementary or secondary education may apply. Under Section 8002, generally, assistance is provided to districts where an aggregate of 10 percent or more of the assessed valuation of all real property in the school district as of the time(s) of acquisition has been acquired by the Federal Government since 1938 and the district is not being substantially compensated by revenue from activities on the eligible Federal property. Under Section 8003, assistance is provided to districts where at least three percent or 400 of the total number of eligible federally connected children in average daily attendance (ADA) live on Federal property including Indian lands and/or have a parent who works on Federal property or is on active duty in the uniformed services. Under Section 8007(b), "heavily impacted" LEAs that enroll a high proportion (at least 40 percent) of federally connected children, or have little or no funding capacity, may be eligible for a competitive construction award.

Beneficiary Eligibility:

Public elementary and secondary school children benefit.

Credentials/Documentation:

Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Applications are submitted to the Secretary of Education and a copy is sent to the State educational agency (SEA). Applications become available on the Department's e-Grants web site annually, typically in mid November. Applications must show the membership of federally connected children on the survey date chosen by the school district within the period prescribed by the Secretary.

Award Procedure:

Funds are generally made available when an appropriation is made.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact the Program Office for this information.

Appeals:

An administrative law hearing is available for any LEA or State adversely affected by any action of the Secretary. The hearing must be requested under the time frame included under the program regulations.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title VIII, Sections 8002, 8003, and 8007(a).
Matching Requirements: Under Section 8002, payments are determined under a statutory formula that considers the assessed valuation of the property acquired by the Federal government and the LEA's local tax rate for current

expenditures. Under Section 8003, payments are determined under a statutory formula that considers the average daily attendance of federally connected students for the previous year, the per-pupil expenditure average from the third preceding year, the weight in the statute attached to certain categories of federally connected students, the total current expenditures of the LEA, and the total membership of the LEA. Under Section 8007(a), payments are determined under a statutory formula that considers the average daily attendance of children living on Indian lands and dependents of the military living on and off base. Under Section 8007(b), payments are awarded on a competitive basis to certain eligible LEAs that receive Impact Aid. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Payments are made annually to eligible LEAs. See the following for information on how assistance is awarded/released: This information is included in award documents.

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The program staff conducts mail-in or on-site reviews to verify application data and collect additional required information.

Records:

In accordance with the General Education Provision Act and program regulations, an LEA generally must retain records supporting its payment amount for 3 years after the last payment for a fiscal year.

Account Identification:

91-0102-0-1-501.

Obligations:

(Formula Grants) FY 14 \$66,813,000; FY 15 est \$66,813,000; and FY 16 est \$66,813,000 - This is specific to Section 8002, Federal Property Payments. (Formula Grants) FY 14 \$1,216,955,000; FY 15 est \$1,199,549; and FY 16 est \$1,199,549 - This is specific to Section 8003 & 8007(a). (Project Grants (Discretionary)) FY 14 \$0; FY 15 est \$17,406,000; and FY 16 est \$17,406,000 - This is specific to Section 8007(b).

Range and Average of Financial Assistance:

For FY 2015, the estimated range of awards for Basic Support payments is expected to be between \$100-\$52,700,000 with an average award of \$1,010,000; for Payments for Children With Disabilities, the estimated range of awards is expected to be between \$500-\$1,220,000 with an average award of \$54,000. For Impact Aid Construction (Formula), the estimated number of awards is expected to be between 170 with an average award of approximately \$100,000.

Payments are computed on the basis of the statutory formula. Payments are prorated if appropriations are insufficient.

84.042 TRIO_STUDENT SUPPORT SERVICES

FEDERAL AGENCY:

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title IV, Part A, Subpart 2, Chapter 1, Section 402D.

OBJECTIVES:

To provide supportive services to disadvantaged college students to enhance their potential for successfully completing the postsecondary education programs in which they are enrolled and increase their transfer rates from 2-year to 4-year institutions. To foster an institutional climate supportive of the success of disadvantaged college students.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

All projects must provide academic tutoring, advice on postsecondary course selection, financial aid counseling, services to improve financial and economic literacy, assistance in applying for graduate and professional programs, and activities to help students in 2-year institutions enroll in 4-year programs. Projects may also provide personal and career counseling; exposure to cultural events; mentoring; services to secure temporary housing during academic breaks for students who are homeless; activities for students with disabilities or limited English proficiency, homeless students, and students in foster care; and grant aid (not to exceed 20 percent of a project's funds).

Applicant Eligibility:

Institutions of higher education and combinations of institutions of higher education may apply.

Beneficiary Eligibility:

Low-income, first generation college students or disabled students who are enrolled or accepted for enrollment at the institution that is the recipient of the grant and who are in need of academic support in order to successfully pursue a program of postsecondary education. At least two-thirds of the project participants must be disabled or must be low-income individuals who are first generation college students. The remaining participants must be disabled, low-income individuals, or first generation college students. One-third of the disabled participants must be low-income. Required low-income criteria for participants are stated in application materials.

Credentials/Documentation:

Costs will be determined in accordance with Education Department General Administrative Regulations (EDGAR). This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Develop a proposal in accordance with regulations, applications, and timetables issued by the Secretary of Education; no State Plan is required. Requests for program applications should be made to the Student

Service division at the Office of Postsecondary Education. This program is subject to the provisions of EDGAR.

Award Procedure:

Selected nonfederal field readers evaluate new proposals on the basis of the selection criteria specified in 34 CFR 646.21 and 646.22. Grants are awarded through the Federal TRIO Programs office.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 to 180 days.

Appeals:

Yes. The program statute authorizes a second review of unsuccessful applications. The Department implements the second review process in accordance with the process specified in 34 CFR 646.24. An unsuccessful applicant requesting a second review must provide evidence that the Department, an agent of the Department, or a peer reviewer made a technical, administrative, or scoring error in the processing or review of its application.

Renewals:

The grant period is 5 years. Continuation awards are approved on an annual basis; subject to the availability of funds and evidence that the grantee is meeting the conditions of the grant and making substantial progress towards meeting the project objectives.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Any grantee that uses funds for student grant aid must match the funds, in cash, from non-Federal funds, in an amount that is not less than 33 percent of the total amount of student grant aid funds, unless the grantee is eligible for a waiver to the match.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Five year projects, with annual continuation awards. Continuation awards are subject to the availability of funds and satisfactory progress by the grantee. See the following for information on how assistance is awarded/released: Contact the program office.

Reports:

Performance reports are required on an annual basis. No cash reports are required. Progress reports are required for a project in its first year of funding. Staff monitor grant drawdown using agency financial reports. Reporting on performance measures is required as part of the submittal of the required annual performance report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with Education Department General Administrative Regulations, 34 CFR 75.702 and 74.61.

Records:

In accordance with Education Department General Administrative Regulations, 34 CFR 75.730, 75.731, and 75.732.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$281,666,000; FY 15 est \$297,494,000; and FY 16 est \$297,494,000

Range and Average of Financial Assistance:

Awards in 2014 ranged from \$58,140 to \$1,387,251; the average award was \$281,044.

TAFS Codes:

91-0201.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No Current Data Available. Fiscal Year 2015: No Current Data Available. Fiscal Year 2016: No Current Data Available.

CRITERIA FOR SELECTING PROPOSALS:

Continuation awards are made on the basis of 34 CFR 75.253. For new awards, applicants will be selected under this part on the basis of the criteria set forth in 34 CFR 646.21 and 646.22. Contact the program office for additional information.

84.044 TRIO_TALENT SEARCH

FEDERAL AGENCY:

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title IV, Part A, Subpart 2, Chapter 1, Section 402B, 20 U.S.C. 1070a-12., 20 U.S.C 1070a-12.

OBJECTIVES:

To identify qualified disadvantaged youths with potential for postsecondary education; to encourage them in completing secondary school and in enrolling in programs of postsecondary education; to publicize the availability of, and facilitate the application for, student financial aid; and to increase the number of secondary and postsecondary school dropouts who reenter and complete an educational program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds are awarded to institutions of higher education, public and private agencies and organizations, combinations of such entities, and secondary schools, to identify qualified disadvantaged youths with potential for postsecondary education, encourage them to complete secondary school and undertake postsecondary educational training, and publicize existing forms of student aid. Projects must provide connections to academic tutoring services, advice on and assistance in selecting secondary and college courses, assistance in preparing for college entrance exams and in completing college applications, information on student financial aid and assistance in completing financial aid applications, connections to services designed to improve financial and economic literacy, and guidance and assistance in re-entering and completing secondary school. Projects may also provide academic tutoring personal and career counseling; information on career options, exposure to college campuses, workshops and counseling for families of students served, mentoring programs involving school teachers and counselors; and services specially designed for students with disabilities or limited English proficiency, homeless children and youth, and students in foster care. A grantee may not use the project as a part of its recruitment program.

Applicant Eligibility:

Institutions of higher education (IHEs), public and private agencies and organizations including community-based organizations with experience in serving disadvantaged youth, combinations of such institutions, agencies and organizations, and as appropriate to the purposes of the program, secondary schools.

Beneficiary Eligibility:

Individuals residing in the target area or attending a target school who have potential for education at the postsecondary level and who can benefit from one or more of the services provided by the project. Two-thirds must be low-income individuals who are also potential first generation college students. Project participants must be between 11 and 27 years old (exceptions allowed). Required low-income criteria for participants are stated in application materials.

Credentials/Documentation:

Costs will be determined in accordance with the Education Department General Administrative Regulations (EDGAR). OMB Circular No. A-21 applies to this program. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Develop a proposal in accordance with regulations, applications, and timetables issued by the Secretary of Education; no State plan is required. Requests for program applications should be made to the Federal TRIO Programs. This program is subject to the provisions of the Education Department General Administrative Regulations (EDGAR).

Award Procedure:

Selected nonfederal field readers evaluate new proposals on the basis of the selection criteria specified in 34 CFR 643.21 and 34 CFR 643.22. New regulations are being developed. Consult the program office for details. Grantees will be selected on the basis of satisfactory proposals and availability of funds.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

About 90 to 180 days.

Appeals:

The program statute authorizes a second review of unsuccessful applications. The Department implements the second review process in accordance with the process specified in 34 CFR 643.24. An unsuccessful applicant requesting a second review must provide evidence that the Department, an agent of the Department, or a peer reviewer made a technical, administrative, or scoring error in the processing or review of its application.

Renewals:

Awards are for five year project periods. Continuation awards are approved on an annual basis, subject to the availability of funds and the grantee meeting the conditions of the grant and making substantial progress toward meeting the project objectives.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements. The statute establishes a minimum grant amount.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Five year projects, annual awards. See the following for information on how assistance is awarded/released: Electronic transfer.

Reports:

Grantees must submit an annual performance report. No cash reports are required. Progress reports (form ED 524B) are required for a project in its first year of funding. Staff monitor grantees' drawdowns using agency financial reports. Reporting on performance measures is required as part of the submittal of the required annual performance report.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the Education Department General Administrative Regulations (EDGAR), 34 CFR (74.26, 75.702, 75.910, 74.61.)

Records:

In accordance with EDGAR 34 CFR 75.730, 75.731, and 75.732.

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$134,614,000; FY 15 est \$135,134,000; and FY 16 est \$134,662,000

Range and Average of Financial Assistance:

Varies by competition. In FY 14, awards ranged from approximately \$102,984 to \$681,210; the average award was \$299,142. The statutory minimum is \$200,000, unless the applicant requests a smaller amount.

TAFS Codes:

84.047 TRIO_UPWARD BOUND

FEDERAL AGENCY:

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Subpart 2, Title IV, Part A, Section 402C, 20 U.S.C 1070a-13.

OBJECTIVES:

To generate skills and motivation necessary for success in education beyond high school among low-income and potential first-generation college students and veterans. The goal of the program is to increase the academic performance and motivational levels of eligible enrollees so that such persons may complete secondary school and successfully pursue and complete a postsecondary educational program.

TYPES OF ASSISTANCE:**PROJECT GRANTS****USES AND USE RESTRICTIONS:**

Projects must provide academic tutoring services, advice on and assistance in selecting secondary and college courses, assistance in preparing for college entrance exams and in completing college applications, information on student financial aid and assistance in completing financial aid applications, services designed to improve financial and economic literacy, and guidance and assistance in re-entering and completing secondary school. Projects may also provide exposure to cultural events, academic programs and other activities not usually available to disadvantaged youth; personal and career counseling; information on career options; summer college campus residential programs; services specially designed for students with disabilities or limited English proficiency, homeless children and youth, and students in foster care; and to pay stipends to students, not to exceed \$40 a month during the academic year and \$60 a month during the summer. A grantee may not use the project as part of its recruitment program. Separate projects provide special services for veterans and for students with a special interest in math and science.

Applicant Eligibility:

Institutions of higher education, public and private agencies and organizations including community-based organizations with experience in serving disadvantaged youth, combinations of such institutions, agencies and organizations, and as appropriate to the purposes of the program, secondary schools.

Beneficiary Eligibility:

Low-income individuals and potential first generation college students who have a need for academic support in order to successfully pursue a program of postsecondary education. Two-thirds of the participants must be low-income individuals who are also potential first generation college students. The remaining one-third must be either low-income, first-generation college students, or students who have a high risk for academic failure. Required low-income criteria are stated in application materials. Except for veterans, who can be served regardless of age, project participants must be between 13 and 19 years old and have completed the eighth grade but have not entered the twelfth grade (exceptions allowed).

Credentials/Documentation:

Costs will be determined in accordance with the Education Department General Administrative Regulations (EDGAR). OMB Circular No. A-21 applies to this program. OMB Circular No. A-122 applies to this program (non-profit organization). This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Develop a proposal in accordance with regulations, application and timetables issued by the Secretary of Education. No State plan is required. Requests for program applications should be made to the Federal TRIO Programs, College and University Preparation and Support Team. This program is subject to the Education Department General Administrative Regulations (EDGAR).

Award Procedure:

Selected nonfederal field readers who are not employees of the Federal

Government evaluate new proposals on the basis of the selection criteria specified in 34 CFR 645.31 and 34 CFR 645.32. Grantees will be selected on the basis of rank order of total scores and availability of funds.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 180 days.

Appeals:

The program statute requires a second review of unsuccessful applications. The Department implements the second review process in accordance with the process specified in 34 CFR 645.35. An unsuccessful applicant requesting a second review must provide evidence that the Department, an agent of the Department, or a peer reviewer made a technical, administrative, or scoring error in the processing or review of its application.

Renewals:

Continuation awards for up to 5 years approved on an annual basis; subject to the availability of funds and the grantee is meeting the conditions of the grant and making substantial progress toward meeting the project objectives.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. The statute establishes a minimum grant amount.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Five year projects; annual awards. See the following for information on how assistance is awarded/released: Contact the program office for the information.

Reports:

Performance reports are required on an annual basis. No cash reports are required. Progress reports are required for a project in its first year of funding. Expenditure reports are required. Performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. In accordance with the Education Department General Administrative Regulations (EDGAR), 34 CFR 75.702, 74.61.

Records:

In accordance with (EDGAR) 34 CFR 75.730, 75.731, and 75.732 and 34 CFR 645 43(c).

Account Identification:

91-0201-0-1-502.

Obligations:

(Project Grants) FY 14 \$321,689,000; FY 15 est \$322,292,000; and FY 16 est \$322,292,000

Range and Average of Financial Assistance:

Varies by competition. In FY 2014, the smallest award was \$169,913 and the largest award was \$852,958. The average award was \$313,843.

TAFS Codes:

91-0201.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: No Current Data Available. Fiscal Year 2015: No Current Data Available. Fiscal Year 2016: No Current Data Available.

REGULATIONS, GUIDELINES, AND LITERATURE:

None.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available. Fiscal Year 2015: No Current Data Available. Fiscal Year 2016: No Current Data Available.

CRITERIA FOR SELECTING PROPOSALS:

For new awards, applicants will be selected on the basis of the criteria set forth in 34 CFR 645.31 and 645.32. Contact the program office for additional information.

84.048 CAREER AND TECHNICAL EDUCATION -- BASIC GRANTS TO STATES**FEDERAL AGENCY:**

Office of Vocational and Adult Education, Department of Education

AUTHORIZATION:

Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV), Title I, 20 U.S.C 2321.

OBJECTIVES:

To develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education programs.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds are used by eligible agencies and their eligible recipients (local subgrantees), in accordance with Perkins IV, to provide career and technical education. Each State must distribute at least 85 percent of its award to local agencies to fund secondary and postsecondary institutions that provide career and technical education services, from which the State may choose to award an amount equivalent to 10 percent of its award to make awards to local agencies in rural areas, areas with high percentages of career and technical education students, and areas with high numbers of career and technical education students. Each State may keep up to 5 percent (or \$250,000, whichever is greater) of its award for State administration and up to 10 percent of its award to fund leadership activities (and from that amount, it must reserve an amount equivalent to 1 percent of its award to assist individuals in State institutions and between \$60,000 and \$150,000 to fund services to prepare individuals for non-traditional fields). This program is subject to non-supplanting requirements and must use a restricted indirect cost rate, pursuant to 34 CFR 76-564-76.569. For assistance call the Office of the Chief Financial Officer/Indirect Cost Group on (202) 708-7770.

Applicant Eligibility:

The Department of Education makes formula grants to State boards for career and technical education or the agency responsible for overseeing career and technical education in States. Eligible recipients for subgrants include local educational agencies and postsecondary institutions.

Beneficiary Eligibility:

A wide range of individuals pursuing career and technical education will benefit.

Credentials/Documentation:

The establishment of a State Board for Career and Technical Education is required. Costs will be determined in accordance with OMB Circular No. A-87 for State and local governments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Required in order to develop a 5-year State plan for career and technical

education, which is also subject to public hearings. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. OMB Circular No. A-21 applies to this program. Eligible agencies submit 5-year State plans for career and technical education, and annual revisions, to the Department pursuant to section 122 of Perkins IV. However, the outlying areas, except for Palau, are eligible to submit an application for Perkins IV funding under the Consolidated Grants to Insular Areas Program. See CFDA 84.403. Eligible recipients submit local plans to the eligible agency in their States pursuant to section 134 of Perkins IV.

Award Procedure:

Once the Secretary approves an eligible agency's 5-year State plan or annual revisions, the Department forwards the grant award to the State official designated by the eligible agency and notifies the State director for CTE. States make subgrants to eligible recipients from their grant awards after setting aside funds for State administration and State leadership activities.

Deadlines:

Mar 30, 2014 The submission date for the State plan or annual revisions is generally late March or early April is set in guidance issued annually by the Department.

Range of Approval/Disapproval Time:

Within 90 days.

Appeals:

The Secretary shall not finally disapprove a State plan, except after giving the eligible agency notice and opportunity for a hearing.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Sec. 111 of the Carl D. Perkins Career and Technical Education Act of 2006. The funding formula is based on State per-capita income and population in three age cohorts (15-19, 20-24, and 25-65). The formula provides for a minimum State allocation, and a "hold-harmless" provision in the formula ensures that no State's share of the appropriation is less than its share of the fiscal year 1998 appropriation. A special provision limits the increase a State with an initial allocation of the 0.5 percent minimum may receive, resulting in a number of States that receive an allocation of less than 0.5 percent of the total. If appropriations result in the amount of funds for allocation to States exceeding the amount of funds allocated to States from the FY 2006 appropriation, up to one-third of the additional funds are allotted to States with FY 2006 grants that are less than the minimum 0.5 percent grant amount and the remainder flows to the other States. In addition, the outlying areas (except the Virgin Islands) receive 0.13 percent of the total appropriated for State Grants to operate the same kinds of career and technical education programs as the States. Also, 1.25 percent of the total appropriation for State Grants is set aside for grants to federally recognized Indian tribes and tribal organizations, and 0.25 percent is set aside for competitive grants to organizations that primarily serve and represent Native Hawaiians. The Bureau of the Census supplies the population data; the Department of Labor supplies the per-capita income data.

Matching Requirements: Section 112(b) of the Perkins Acts requires 50/50 matching for State administration, which is also subject to the hold-harmless requirement imposed by section 323. An outlying area that submits an application for its Perkins IV funds under the Consolidated Grants to Insular Areas Program is not required to match. See CFDA 84.403.

Section 311(b) of the Perkins Act describes maintenance-of-effort requirements.

This program has MOE requirements, see funding agency for further details.

Length and Time Phasing of Assistance:

Generally, annual grants to eligible agencies are made from July 1 to September 30 of the following year. In addition, funds remain available to the eligible agencies for an additional fiscal year for obligation and expenditure under section 421(b) of the General Education Provisions Act, as amended (GEPA). Contact the headquarters office for information on how assistance is awarded/released. See the following for information on how assistance is awarded/released: States draw funds as needed under the Electronic Funds Transfer System.

Reports:

OVAE's Consolidated Annual Report (CAR) for Perkins IV requires annual financial status reports, performance data reports, and program narrative reports. Eligible agencies must also submit Office for Civil Rights Compliance Reports. Cash reports are not applicable. Progress reports are not applicable. Expenditure reports are not applicable. Performance monitoring is applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

As required by EDGAR for State-administered programs (34 CFR 76.730-76.731). Generally, the eligible agency and its subgrantees must retain records related to grant funds and compliance for a period of 3 years from the date the grantee or subgrantee submits its final expenditure report for that funding period. 34 CFR 80.42. Also, all records supporting claims for Federal funds or relating to the accountability of the grantee for the expenditure of such funds must be accessible for administrative review. See also section 443 of GEPA.

Account Identification:

91-0400-0-1-501.

Obligations:

(Formula Grants) FY 14 \$1,099,381,153; FY 15 est \$1,099,381,153; and FY 16 est \$1,099,381,153

Range and Average of Financial Assistance:

The range or awards in FY 2014 was \$567,534 to \$120,256,718, including the 50 States, the District of Columbia, Puerto Rico, and the Virgin Islands.

TAFS Codes:

91-0400.

84.051 CAREER AND TECHNICAL EDUCATION -- NATIONAL PROGRAMS**FEDERAL AGENCY:**

Office of Vocational and Adult Education, Department of Education

AUTHORIZATION:

Section 114 of the Carl D. Perkins Career and Technical Education Act of 2006 (Perkins IV), 20 U.S.C 2324.

OBJECTIVES:

To provide support, directly or through grants, contracts, or cooperative agreements, for research, development, demonstration, dissemination, evaluation, assessment, capacity-building, and technical assistance activities aimed at improving the quality and effectiveness of career and technical education (CTE) programs authorized under the Perkins Act IV.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Awards are made to support activities designed to improve career and technical education. Announcements of grant competitions are published in the Federal Register. Contract competitions are announced in the FedBizOps.

Applicant Eligibility:

Depending on the activity to be funded, eligible applicants may include institutions of higher education or consortia of institutions of higher education, public or private nonprofit organizations, or consortia thereof, and State boards designated as the sole State agencies for the administration of State career and technical education, or consortia thereof.

Beneficiary Eligibility:

CTE sole State agencies; local educational agencies; CTE providers, and CTE students.

Credentials/Documentation:

Signature by authorized designated officials on the grant application or contract proposal. For State agencies, allowability of costs is determined in accordance with OMB Circular No. A-87 "Cost Principles for State, Local and Indian Tribal Governments"; For costs incurred by non-profit organizations allowability is determined in accordance with OMB Circular A-122, "Cost Principles for Non-Profit Organizations"; and for costs incurred by institutions of higher education allowability is determined in accordance with OMB Circular A-21, "Cost Principles for Educational Institutions". 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Applications for grants must be prepared in accordance with the regulations in 34 CFR Part 75, the Department's notices inviting applications, and any notices announcing requirements, priorities, and selection criteria that the Department may publish. Proposals for contracts must be prepared in accordance with program announcements published in the FedBizOps.

Award Procedure:

Applications are reviewed in accordance with section 114 of Perkins IV and with the requirements set forth for application notices and any notices announcing requirements, priorities, and selection criteria that the Department may publish in the Federal Register for a given competition and the regulations at 34 CFR Part 75.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 90 to 120 days.

Appeals:

There are no appeal rights for denial of grants funded under section 114 of Perkins IV. For contracts the Federal Procurement Regulations, 41 CFR 1, 2, 407, and 408 apply.

Renewals:

Terms for continuation awards are specified in the Federal Register notices inviting grant applications. Continuation awards are subject to the availability of appropriations and the grant recipient's performance.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Maximum award period varies by activity. Annual continuation awards are subject to the availability of appropriations and contingent on recipient performance. See the following for information on how assistance is awarded/released: Electronic transfer.

Reports:

Specific contract reporting requirements are contained in the Request for Proposals and contract documents. Reporting requirements for grants are required in the regulations at 34 CFR 74 and 75. Reports are required annually. Reports are required annually. Reports are required annually. Reports are required annually.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Under OMB Circular A-133, recipients that are institutions of higher education, other non-profit organizations, or State and local governments, are subject to the audit requirements contained in the Single Audit Act Amendments of 1996 (31 U.S.C. 7501-7507) and revised OMB Circular A-133.

Records:

In accordance with Section 443 of the General Education Provisions Act, grantees must maintain records for 3 years after completion of the activity for which the funds are used.

Account Identification:

91-0400-0-1-501.

Obligations:

(Project Grants) FY 14 \$7,421,000; FY 15 est \$7,421,000; and FY 16 est \$7,421,000

Range and Average of Financial Assistance:

Varies by program competition.

84.048 Career and Technical Education -- Basic Grants to States

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: No Current Data Available Fiscal Year 2016: No Current Data Available

CRITERIA FOR SELECTING PROPOSALS:

Each request for proposal and notice inviting grant applications contains either evaluation criteria or selection criteria, which are applied in the review and selection of contract or grant applications for funding. (See also 34 CFR Part 75 for the menu of the Department's generic selection criteria.)

84.060 INDIAN EDUCATION_ GRANTS TO LOCAL EDUCATIONAL AGENCIES

FEDERAL AGENCY:

Office of Elementary and Secondary Education, Department of Education

AUTHORIZATION:

Elementary and Secondary Education Act of 1965 (ESEA), as amended, Title VII, Part A, Subpart 1.

OBJECTIVES:

To address the unique education and culturally related academic needs of Indian students, including preschool children, so that these students can achieve to the same challenging state performance standards expected of all students. This program is the Department's principal vehicle for addressing the particular needs of Indian children.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Grants supplement the regular school program, helping Indian children sharpen their academic skills, assisting students in becoming proficient in the core content areas, and providing students an opportunity to participate in enrichment programs that would otherwise be unavailable. Funds support such activities as after-school programs, tutoring, and dropout prevention. This program is subject to non-supplanting requirements and must use a restricted indirect cost rate which is referenced under 34 CFR 76.564-76.569. For assistance call the Office of the Chief Financial Officer/Indirect Cost Group on (202) 708-7770.

Applicant Eligibility:

Local educational agencies (LEAs) that enroll at least 10 Indian children or in which Indians constitute at least 25 percent of the total enrollment. These requirements do not apply to LEAs serving Indian children in Alaska, California, and Oklahoma or located on, or in proximity to, an Indian reservation. Schools that receive funding from the Department of Interior (DOI) Bureau of Indian Education (BIE) under Section 1130 of the Education Amendments of 1978, 25 U.S.C. 2001, are eligible to participate in this program. If an eligible LEA does not apply, an Indian tribe that makes up at least half of the LEAs Indian students may apply in lieu of the LEA.

Beneficiary Eligibility:

Eligible Indian children enrolled in eligible local educational agencies, and BIE-funded schools.

Credentials/Documentation:

The applicant must certify the number of eligible Indian children enrolled. The grant award is computed based on this information. An applicant must also assure that it has carried out a number of other required activities, including: holding a public hearing, establishing an Indian parent committee, and making arrangements for an evaluation of the effectiveness of the project. No grant will be made unless the applicant has the written approval of the applicant's Indian parent committee. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

The standard application forms as furnished by the Federal agency must be used for this program. An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The LEA annually submits to the Department of Education an application describing its proposed project. Application forms are available from the headquarters office.

Award Procedure:

Awards are issued annually directly to the LEA. Awards are made to all applicants that meet the applicable requirements of the Act and that have designed a project that the Secretary of Education determines will substantially increase the educational opportunities of the Indian children served by the applicant.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Approximately 160 days.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title ESEA, Title VII, Part A, Subpart 1, Section 7113.
Matching Requirements: The Department calculates the amount of a grant that an LEA receives by multiplying the number of Indian children enrolled in the LEA's schools by the average per-pupil expenditure for the State in which the applicant is located, or 80 percent of the national average per pupil expenditure, whichever is greater. In setting the actual amount of a grant, an applicant's formula amount is adjusted on the basis of available appropriations. Grantees must receive a minimum grant of \$4,000.

Maintenance-of-Effort Requirements:

In order for an LEA to receive a grant, the appropriate State educational agency (SEA) must certify that the combined fiscal effort of that LEA and the State with respect to the provision of free public education by that LEA for the preceding fiscal year was not less than 90 percent of the combined fiscal effort for that purpose for the second preceding fiscal year. If an LEA does not meet this requirement and the Secretary does not grant a waiver for unusual circumstances, the LEA's grant award is reduced in the proportion by which the LEA failed to meet the combined fiscal effort requirement. DOI/Bureau of Indian Education grantees are exempt from the combined fiscal effort requirement.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grants are awarded for up to 60 months and funds must be spent or obligated within the project period. Payments are made by direct deposit upon request by LEAs. See the following for information on how assistance is awarded/released: Contact the program office for this information.

Reports:

Financial and performance reports are due within 90 days of the termination of the project period. No cash reports are required. No progress reports are required. No expenditure reports are required. No performance monitoring is required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Records must be maintained 3 years after the completion of the activity for which grant funds were used.

Account Identification:

91-0101-0-1-501.

Obligations:

(Formula Grants) FY 14 \$100,381,000; FY 15 est \$100,381,000; and FY 16 est \$100,381,000

Range and Average of Financial Assistance:

Range of New Awards: \$4,000-\$2,823,022; Average New Award: \$78,024.

TAFS Codes:

84.063 FEDERAL PELL GRANT PROGRAM

FEDERAL AGENCY:

Office of Federal Student Aid, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, Title IV, Part A, Subpart 1, as amended.

OBJECTIVES:

To provide eligible undergraduate postsecondary students who have demonstrated financial need with grant assistance to help meet educational expenses.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The student must be a U.S. citizen or eligible noncitizen who has been accepted for enrollment in, and is making satisfactory academic progress at an eligible institution of higher education. Eligible schools may be public or private nonprofit institutions of higher education, (such as colleges, universities, vocational-technical schools, hospital schools of nursing), and for-profit institutions (proprietary). Eligible males who are at least 18 years or older and born after December 31, 1959, can receive aid only if they have registered with the Selective Service. Graduate students and students who have already earned

a bachelor's degree are not eligible for assistance, except those enrolled in an eligible program leading to a professional certification in teaching. Applicants must demonstrate need according to Part F of the Higher Education Act of 1965, as amended.

Applicant Eligibility:

Undergraduate students and students pursuing a teaching certificate enrolled as regular students in an eligible program at an eligible institution of higher education and making satisfactory academic progress. The applicants must be U.S. citizens or eligible noncitizens and have a high school diploma (or its equivalent); or, for students enrolled prior to July 1, 2012, a demonstrated ability to benefit from the program offered; or, have successfully completed six credits.

Beneficiary Eligibility:

Undergraduate students and students pursuing a teaching certificate that are U.S. citizens or eligible noncitizens and meet financial need criteria. Students must be: regular students in an eligible program and enrolled in institutions of higher education, making satisfactory academic progress. Incarcerated students, except those incarcerated in local penal facilities, are ineligible. Students must sign a statement of educational purpose, not owe a refund on a Title IV grant, and not be in default on a Title IV loan. Eligible males that are at least 18 years old and born after December 31, 1959, can receive aid only if they have registered with the Selective Service.

Credentials/Documentation:

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Student completes a "Free Application for Federal Student Aid" and submits it to the agency specified on the form. Students may apply using a paper application, an electronic application, or via the Internet. The Department of Education calculates the student's financial eligibility for assistance and the agency to which the student sent the application returns a notification to the student of his or her eligibility for assistance. The student submits this notification to the institution of his or her choice in order to have his or her award calculated.

Award Procedure:

Institutions act as disbursing agents for the Department of Education. The institution that the student attends calculates and disburses the Federal Pell Grant, using a payment schedule developed by the Department of Education that determines the amount of the award based on the student's expected family contribution, cost of attendance, and enrollment status.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 15 to 30 days.

Appeals:

An institution, on the basis of supplemental documentation, may rule that an applicant is self-supporting, even though under the standard criteria, the applicant would normally be considered financially dependent on his or her parents. An institution may adjust on a case-by-case basis a student's data elements used to calculate his or her EFC and cost of attendance due to unusual circumstances documented by the institution.

Renewals:

Students who have applied in the previous award year may be eligible to complete a paper or electronic renewal application which contains preprinted student data and requires students only to update certain information. However, eligibility is still annually determined.

Formula and Matching Requirements:

Statutory Formula: Title IV, Part F.

Matching Requirements: Federal Pell Grant eligibility determinations are based on Part F of the HEA, as amended. This national need analysis formula determines financial eligibility for Federal Pell grants and other Federal student aid and is applied uniformly to all applicants. This formula determines a student's "expected family contribution" (EFC). The fundamental elements of this need analysis formula are the parents' and/or the student's income and assets (excluding home), the family's household size, and the number of family members attending postsecondary institutions. The EFC is determined as the sum of: (1) A percentage assessment of net income (remaining income after subtracting allowances for basic living expenses) and (2) a percentage assessment of net assets other than a home (remaining assets after subtracting an asset protection allowance).

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Students are able to receive one Federal Pell Grant during any award year (July 1 through June 30). Funds for the Federal Pell Grant are usually disbursed at least twice during an award year. Students may only receive a Federal Pell Grant until they have received a bachelor's degree. See the following for information on how assistance is awarded/released: Electronic transfer.

Reports:

Institutions will be required to furnish reports periodically on the disbursement of funds, as well as to furnish any other reports the Secretary requires. No reports are required of students. Cash reports are not applicable. Progress reports are not applicable. Institutions will be required to furnish reports periodically on the disbursement of funds, as well as to furnish any other reports the Secretary requires. No reports are required of students. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

All records pertaining to the eligibility of each Federal Pell Grant recipient and all fiscal management records must be maintained by the institutions for a period of 3 years or until an acceptable audit has been completed, whichever is later. Selected students will have the information on their applications verified.

Account Identification:

91-0199-0-1-502; 91-0200-0-1-502.

Obligations:

(Direct Payments for Specified Use) FY 14 \$30,998,135,000; FY 15 est \$31,326,815,000; and FY 16 est \$32,333,945,000

Range and Average of Financial Assistance:

For FY 2014, grants ranged from \$573-\$5,730; the average grant was estimated at \$3,793.

For FY 2015, grants will range from \$577-\$5,775; the average grant is estimated at \$3,803.

For FY 2016, grants will range from \$591-\$5,915; the average grant is estimated at \$3,844.

TAFS Codes:

91-0200.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Approximately 8,173,000 recipients were expected. Fiscal Year 2015: Approximately 8,237,000 recipients are expected. Fiscal Year 2016: Approximately 8,411,000 recipients are expected.

REGULATIONS, GUIDELINES, AND LITERATURE:

The Federal Pell Grant Expected Family Contribution formula is set forth in Part F of the Higher Education Act of 1965 as amended. Regulations governing administration of the Pell Grant Program are found in 34 CFR 600, 668, and 690. EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

The Expected Family Contribution formula is set forth in Part F of the Higher Education Act of 1965, as amended.

84.066 TRIO EDUCATIONAL OPPORTUNITY CENTERS

FEDERAL AGENCY:

Office of Postsecondary Education, Department of Education

AUTHORIZATION:

Higher Education Act of 1965, as amended, Title IV, Part A, Subpart 2, Chapter 1, Section 402F.

OBJECTIVES:

To provide information on financial and academic assistance available for qualified adults desiring to pursue a program of postsecondary education and to assist them in applying for admission to institutions of postsecondary education.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds are awarded to institutions of higher education, public and private agencies and organizations, and combinations of such entities for the establishment and operation of centers to collect and disseminate information concerning financial aid and academic programs available to participants seeking to pursue postsecondary education and to assist participants in preparing admission and financial aid applications. Centers may also provide, to secondary school dropouts, guidance on secondary school reentry or entry to an alternative education program. Centers may also provide tutoring, mentoring, and counseling services. A grantee may not use the center as a part of its recruitment program.

Applicant Eligibility:

Institutions of Higher Education, public and private agencies and organizations including community-based organizations with experience in serving disadvantaged youth, combinations of such institutions, agencies and organizations, and as appropriate to the purposes of the program; secondary schools.

Beneficiary Eligibility:

Persons residing in the target area who need one or more of the services provided by the project in order to pursue a program of postsecondary education and who desire to pursue or who are pursuing a program of postsecondary education. Two-thirds of the participants must be low-income individuals who are also potential first-generation college students. Project participants must be at least nineteen years old (exceptions allowed). Required low-income criteria for participants are stated in application materials.

Credentials/Documentation:

Costs will be determined in accordance with the Education Department General

Administrative Regulations (EDGAR). OMB Circular A-21 applies. OMB Circular A-122 applies. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Develop a proposal in accordance with regulations, applications, and timetables issued by the Secretary of Education. No State plan is required. Requests for program applications should be made to the Federal TRIO Programs, College and University Preparation and Support Team. This program is subject to the Education Department General Administrative Regulations (EDGAR).

Award Procedure:

Selected non-Federal field readers evaluate new proposals based on the selection criteria established in program regulations 34 CFR 644.21 and 34 CFR 644.22. Grantees will be selected on the basis of satisfactory proposals and availability of funds. Grants are awarded through Federal TRIO Programs office.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

From 90 to 180 days.

Appeals:

The program statute requires a second review of unsuccessful applications. The Department implements the second review process in accordance with the process specified in 34 CFR 644.24. An unsuccessful applicant requesting a second review must provide evidence that the Department, an agent of the Department, or a peer reviewer made a technical, administrative, or scoring error in the processing or review of its application.

Renewals:

Awards are for five years. Continuation awards are approved on an annual basis, subject to the availability of funds and evidence that the grantee is meeting the conditions of the grant and making substantial progress towards meeting the project objectives.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. The statute establishes a minimum grant amount.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Five-year projects, annual awards. Continuation awards are subject to the availability of funds and evidence that the grantee is making satisfactory progress. See the following for information on how assistance is awarded/released: Electronic transfer.

Reports:

Grantees must submit an annual performance report. No cash reports are required. Progress reports are required for a project in its first year of funding. Expenditure reports are required. No performance monitoring is required.

Audits:
