10.665 SCHOOLS AND ROADS - GRANTS TO STATES

Payments to States

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Secure Rural Schools and Community Self Determination Act of 2000, Division C, Section 601(a), 16. U.S.C. 7101-7153; 16 U.S.C. 500.

OBJECTIVES:

To share receipts from the National Forests and supplemental mandatory appropriations with States in which the National Forests are situated.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

For Federal fiscal years 2008 through 2011, reauthorized one year for FY 2012, reauthorized one year for FY 2013, and reauthorized for two years in 2015 to provide for payments in FY 2015 and FY 2016. The Secure Rural Schools Act allows counties in which national forests are situated to elect to share in the State payment (based on a formula in the Act) or to share in the state's 25-percent payment (based on the 7-year rolling average of receipts from national forests in the State). The fiscal year 2014 payment was made to states in May 2015. The 25-percent payments to states are to be used for the benefit of public schools and public roads in the counties in which national forests are situated. An eligible county that elects to receive a share of the State payment (based on the formula in the Act) must under some circumstances allocate a portion of that payment for title II special projects on national forests or title III county projects, or both. The portion of the Secure Rural Schools Act State payments not allocated for these purposes are to be used to benefit public schools and public roads in counties in which national forests are situated. The payments to benefit schools and roads are commonly called title I funds. Funds allocated by counties for title II special projects are reserved in a special account in the General Treasury and may be used by the Secretary of Agriculture for projects that improve the maintenance of existing infrastructure, enhance forest ecosystems, and restore and improve land health and water quality on national forests. Funds allocated by counties for title III county projects may be used only to: (1) carry out activities under the Firewise Communities program to provide homeowners in fire sensitive ecosystems education on, and assistance with implementing, techniques in home siting, home construction, and home landscaping that can increase the protection of people and property from wildfires; (2) reimburse the participating county for search and rescue and other emergency services, including firefighting, that are performed on a national forest after the date on which the use was approved, and paid for by the participating county; and (3) develop community wildfire protection plans in coordination with the Forest Service acting on behalf of the Secretary of Agriculture.

Applicant Eligibility:

Title I payments are made to States or territories of the United States to be allocated to counties in which national forests are situated. Title II project funds are reserved in special account in the U.S. Treasury and may be used by the Secretary of Agriculture for the purpose of entering into and implementing

cooperative agreements with willing Federal agencies, State and local governments, private and nonprofit entities, and landowners. (16 U.S.C 7122). Title III funds are paid to respective states to be passed-through to participating counties.

Beneficiary Eligibility:

A beneficiary of title II special project funds is a person or entity that receives a grant or enters into a cooperative agreement with the Secretary of Agriculture to carry out a project for protection, restoration, and enhancement of fish and wildlife habitat, and other resource objectives consistent with the purposes of the Secure Rural Schools Act on national forests and on non-national forest land where projects would benefit the resources on national forests. (16 U.S.C. 7122)

A beneficiary of title III funds is a participating county in which a national forest is situated that has elected to allocate a portion of its State payments for title III county projects.

Credentials/Documentation:

OMB circulars apply to title II special projects. No Credentials or documentation are required for title I or title III payments. 2 CFR 200, Subpart E - Cost Principles applies to this program.

For title II, within 30 days of a rejection decision the Forest Supervisor shall notify the resource advisory committee in writing of the rejection and the reasons for the rejection.

Appeals:

A decision to reject a title II project is not subject to administrative appeal or judicial review. (16 U.S.C 7124).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Statutory Formula: Statutory Formula: Under title I - Secure Payments for States and Counties Containing Federal Land, each county in an eligible state elected to receive one of the following payments: a share of the states 25- percent rolling average payment, or a share of the State payment calculated using the formula in the Secure Rural Schools Act. The payment to the state under the Secure Rural Schools Act is the sum of the county elections in that state. The 25-percent payments to states, is an amount equal to the annual average of 25-percent of amounts received for the applicable fiscal year and each of the preceding 6 fiscal years from each national forest. This amount is used to calculate a county's share of the states 25-percent payment. The sum of shares for counties that elect to receive this payment is paid to the state under the Secure Rural Schools Act. State payments for fiscal years 2008 through 2014 were calculated using a complex formula with multiple factors, including acres of proclaimed national forest within an eligible county, the average 3 highest 25-percent payments made to each eligible State for each eligible county for the eligibility period 1986 through 1999, and the annual per capita personal income for each county. The sum of shares for counties that elect to receive this payment is paid to the state under the Secure Rural Schools Act.

Matching Requirements: There are no matching requirements for the 25-percent payment to states or for the State payment. Acquisition management regulations

and procedures applicable to the Forest Service for purchases, contracts, grants, and agreements may impose matching requirements on title II projects. MOE requirements are not applicable to this program. Length and Time Phasing of Assistance (102):

Title II funds are not paid to the state but are reserved in a special account in the General Treasury available for projects recommended by a resource advisory committee and approved by the Forest Supervisor acting on behalf of the Secretary of Agriculture. The authority for each resource advisory committee to recommend title II projects was extended by P.L. 114-10 until September 30, 2017. (FLP)

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Cooperative Forestry Assistance Act of 1978, 16 U.S.C. 2101, et. seq., as amended by the 1990 Farm Bill, Section 1217 of Title XII of the Food, Agriculture, Conservation and Trade Act of 1990, Public Law 101-624, 104 Stat. 3359, 16 U.S.C. 2103c; later amended by the 1996 Farm Bill, Federal Agricultural Improvement and Reform Act of 1996; Public Law 104-127; Title III, Conservation; Subtitle G Forestry; Section 374, Optional State Grants for Forest Legacy Program.

OBJECTIVES:

To effectively protect and conserve environmentally important forest areas threatened by conversion to nonforest uses, through conservation easements or fee simple purchase. The Forest Legacy Program (FLP) is a voluntary private land conservation partnership between the Forest Service, participating States, land trusts, private landowners, and others. The Program works with State partners and operates on a willing seller and willing buyer basis and is completely nonregulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this Program.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Landowner participation in the program is voluntary and consists of two components: (1) conveying land or interests in land to achieve land conservation objectives and (2) preparing and periodically updating a Forest Stewardship Management Plan or a multi-resource management plan, when the participation is through conservation easement. State lead agencies must first evaluate and approve projects as Forest Legacy eligible before competing for Forest Service funding.

Applicant Eligibility:

Projects are evaluated and prioritized by State lead agencies, in consultation with the State Forest Stewardship Coordinating Committees. All States and territories participate except North Dakota, the Commonwealth of the Northern Mariana Islands, and Guam.

Beneficiary Eligibility:

An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Award Procedure:

The Forest Service conducts an annual project selection process to arrive at a prioritized national project list for inclusion in the President's budget. The Forest Service then issues grants to states for the project specific Congressional set-aside designated in the Congressional appropriations bills. The Forest Service then issues grants to states based on the amounts provided in Congressional appropriations and the prioritized national project list.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

Matching Requirements: Funding for the Cooperative Forest health Protection program is provided to states to help support a base level of professional forest health expertise for non-federal forest managers. Grants for this program are allocated to states using a formula that is based on the number of acres of non-federal forest land within the states, other factors, and amount of funding available through annual appropriations.

Applicant matching for cooperative Forest Health Protection programs and projects that treat specific forest health problems on non-federal lands is required and is 50%. In cases where it is mutually agreed upon that an applicant will treat federal lands as part of a cooperative project or program, the Forest Service reimbursement is 100% for the federal portion. However, applicant matching rates may be adjusted in emergency or extraordinary situations. Forest Service cost-share rates for activities involving development of new and improved forest health protection methods and technologies, and the conduct of special projects and evaluations are negotiated on a project-by-project basis

with the grantee. Exceptions from the 50% cost-share requirement must be approved by the Deputy Chief for State and Private Forestry. The applicant share of cooperative programs may be in the form of cash, services, or in-kind contributions. If a state elects to consolidate the annual Forest Service financial assistance, in lieu of functional cost sharing mechanisms, the total consolidated payment to any state during any fiscal year may not exceed the total amount of non-federal funds expended to implement its state forest resources program during that year. Treatment funds and activities cannot be a part of the consolidated payment and must stand alone to meet the 50% match requirement (See FSM 3431.22).

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are typically awarded for one or two years and may be extended on request and with the approval of the program manager. See the following for information on how assistance is awarded/released: Payments made based on authorization and negotiation of provisions with cooperator.

10.681 WOOD EDUCATION AND RESOURCE CENTER (WERC) (WERC)

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Public Law 105-277, Div. A, Section 101(e) Title III, Section 343, 112 Stat. 2681-231, 2681-297; Cooperative Forestry Assistance Act of 1978, as amended, 16 USC 2101 et. seq.; Forest and Rangeland Renewable Resources Act of 1978, as amended, 6 USC 1600-1614.

OBJECTIVES:

To provide technical assistance and funds, on a cost-share basis, for projects that enhance opportunities for sustained forest products production for primary and secondary wood industries located in the eastern hardwood forest region of the United States. In order to maintain and improve the health and stewardship of our Nation's forests, local wood-using industries need to be vibrant and able to utilize a wide variety of resources from the forest. Priorities include:

Maintain the economic competitiveness of primary and secondary wood industries. Examples include:

- 1) Encouraging the adoption of new technology to improve competitiveness and profitability,
- 2) Bringing information and technology about processing, marketing, and business-related skills as well as urban wood utilization to existing and emerging businesses, and
- 3) Developing utilization options that improve forest stewardship and health.
- 4) Support activities that maintain or enhance harvesting industry capacity to serve the wood industry.

Increase the knowledge and information about how the wood industry can contribute to the green building movement. Examples include chain of custody certification for sustainable wood products as well as life cycle analysis for a range of wood products.

Increase the knowledge, information, and promotion of how carbon sequestration by wood products can provide a competitive edge to a sustainable forest products industry. An example includes developing specific carbon storage factors for a range of wood products.

Develop technology and markets to address urgent issues on a global or domestic scale, including:

- 1) Sanitizing wood packaging materials, firewood, and similar products to eliminate these pathways for the transport of insect and disease pests, and
- 2) Developing markets for and using unexpected increases in the volume of urban and rural wood due to new pest introductions (for example, emerald ash borer) and weather events such as tornadoes and ice storms.

Increase the sustainable use of woody biomass to meet our Nations needs for energy, raw materials, and reductions of hazardous fuels. Examples include public/private partnerships for using woody biomass in heating and cooling, process energy, cogeneration, district energy systems, and solid and liquid fuel production. Projects may also develop or maintain local markets and forest industry infrastructure by using woody biomass for both energy and value-added products. Provide key information to address the economic, social and ecological aspects of woody biomass production and use: including sustainable supplies, harvesting techniques, forest management, plantation development, and environmental implications.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: The National Fish and Wildlife Foundation (NFWF) is an independent 501(c)(3) charity established by Congress in 1984 that protects, restores, and enhances the Nation's fish, wildlife, plants, and habitats. The Foundation's greatest asset is its position at the nexus of the conservation community. Its myriad conservation partnerships connect it with potentially every federal and state agency, key industry leaders, concerned private citizens, and nonprofit leadership from the international to the local level. Since its establishment, NFWF has awarded more than 11,000 grants to 3,700 organizations in the United States and abroad and leveraged more than \$650 million in federal and private funds into more than \$1.7 billion for on-the-ground conservation.

NFWF began its relationship with the U.S. Department of Agriculture's Forest Service in 1988 with a \$30,000 challenge grant to restore trout habitat ravaged by flooding in the Monongahela National Forest. In 1995, the partnership expanded when Forest Service provided funds to the Foundation to launch a grant program focused on improving the ecological health of our National Forests. To date, NFWF has entered into 27 funding agreements with the Forest Service with a total agreement value of over \$49.2 million. The Foundation has undertaken more than 1,229 projects in partnership with the Forest Service and has leveraged more than \$44 million in Forest Service funds with more than \$251 million for targeted, on-the-ground conservation. Foundation grants have been made in more than 100 National Forests and Research Stations in all nine regions of the Forest Service.

Additionally, NFWF and the FS have entered into a number of new Cooperative Agreements that include the multi-agency Monarch Conservation Fund, Youth Engagement Initiative, the Urban Waters Initiative and Longleaf Pine Restoration Fund. These new collaborations have been extremely successful in leveraging limited federal funds with non-federal funds and performing high-priority conservation work on the ground.

For example, in Fiscal Year 2012, 20 projects were funded representing a FS investment of \$1,762,508, matched by \$20,683,527 of non-federal funds for a leverage of nearly 1:11. Additional projects will be funded with FY2012 funds over the next 4 years until the expiration of the Cooperative Agreement in 2017. Fiscal Year 2015: Projected data not available. EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: No Current Data Available Fiscal Year 2015: Forest Service funding is apportioned between NFWF strategic keystone initiatives, and targeted charter grant programs. Among each program, a handful of high-priority projects are selected for funding each fiscal year. The following

list summarizes the emphasis areas for fiscal years 2014 and 2015

Strategic Keystone Initiatives Starting in 2008, the Foundation realigned its grant making to be more targeted and conservation outcome-based. Keystone Initiatives were designed to achieve a measurable conservation outcome in a five to ten year timeframe. Specific goals and strategies are identified for each initiative through the development of business plans that serve as guides for the types of projects that will be considered for funding by NFWF. Each year, approximately 60% of the Forest Service contributions support these keystone initiatives.

1. Wildlife and Landscape Scale Habitat Keystone: Addresses conservation needs for mammals, reptiles, amphibians, invertebrates, and native plants. The Foundation is currently working with the Forest Service on Sierra Nevada Wet Meadow restoration and Northern Rockies Wildlife Corridors (eastern Idaho and western Montana).

2. Freshwater Fish and Habitat Keystone: Focuses on high-priority species and habitat for freshwater fish and associated aquatic life such as mussels, crayfish, and invertebrates. The Foundation is currently working with the Forest Service on Eastern Brook Trout (Virginia and West Virginia) and Apache Trout (Arizona).

3. Bird and Habitat Keystone: Focuses on migratory and resident bird species and their habitat. The Foundation is currently working with the Forest Service on to promote the conservation of Gunnison Sage Grouse (Colorado and Utah) and a wide variety of Southeastern grassland birds such as bobwhite quail and Bachmans sparrow.

Charter Grant Programs FS Funds (approximately 40% of Forest Service funding) are also awarded through targeted Charter Grant Programs which include:

Bring Back the Natives seeks to implement the National Fish Habitat Initiative Action Plan by supporting on the ground watershed restoration and native fish projects.

Pulling Together Initiative is a unified effort by NFWF and DOI and DOA to fund and implement effective, long-term invasive plant management at the local level.

Sustain Our Great Lakes Grant Program funds organizations working to protect, restore, or enhance the habitat for fish, wildlife, and plants of the Great Lakes watershed.

Chesapeake Bay Small Watershed Grant Program provides grants to organizations and local governments working on a community level to protect and improve watersheds in the Chesapeake Bay basin.

Upper Mississippi River Watershed Fund supports projects benefiting forest stewardship and the restoration of watersheds in the Upper Mississippi River drainage. Fiscal Year 2016: No Current Data Available

10.690 LAKE TAHOE EROSION CONTROL GRANT PROGRAM

FEDERAL AGENCY:

Forest Service, Department of Agriculture

AUTHORIZATION:

Lake Tahoe Restoration Act, Public Law 106-506, as amended by Department of the Interior and Related Agencies Appropriations Act for Fiscal Year 2004, Public Law 108-108.

OBJECTIVES:

To make annual payments to the governing bodies of each of the political subdivisions (including public utilities) located in the Lake Tahoe Basin to be used primarily for erosion control and water quality projects. The goal of the program is to provide federal assistance to address urban stormwater runoff pollution, the primary source of pollutants (fine sediment and nutrients) affecting the clarity of Lake Tahoe. This program addresses urban runoff from public roads and right of ways.

To fund a competitive grant award program for research projects high in technical merit and relevant to land management and regulatory agencies working in the Tahoe Basin. The goal of the program is to promote applied, timely, relevant research that addresses natural resource management needs in the basin. Research funded through this program addresses key management questions, includes input from agencies, produces decision-support tools that are useful and accessible, fosters collaboration and communication, builds on previous research, and ultimately addresses the science needs identified in the Lake Tahoe Environmental Improvement Program. The environmental goals of the Lake Tahoe Environmental Improvement Program are defined using thresholds that were established to protect the natural environment and maintain

public health and safety within the basin. The threshold categories are: 1) water quality, 2) wildlife, 3) soil conservation, 4) scenic resources, 5) air quality, 6) recreation, 7) vegetation, 8) noise, and 9) fisheries.

TYPES OF ASSISTANCE:

Cooperative Agreements; Project Grants

USES AND USE RESTRICTIONS:

Only after water quality and soil conservation thresholds have been achieved, funds may be used to address other environmental threshold categories. Payments shall be used only to carry out a project or proposed project that is part of the environmental improvement program adopted by the Tahoe Regional Planning Agency in 1998.

Applicant Eligibility:

Eligible applicants for National Forest System awards includes State Forestry or equivalent agencies, tribes, non-profits, and municipalities in the local governing bodies of political subdivisions in the Lake Tahoe basin.

Eligible applicants for competitive research awards includes State Agricultural Experiment Stations, universities and colleges, State and local governments, U.S. Territories, nonprofit research institutions or organizations, international organizations, individuals, and for-profit organizations.

Beneficiary Eligibility:

Beneficiary eligibility for National Forest System awards include governing bodies of each of the political subdivisions (including public utilities) located in the Lake Tahoe Basin.

Beneficiary eligibility for competitive research awards include organizations and scientists involved in basic and applied research activities related to forest and rangeland renewable resources.

Credentials/Documentation:

No credentials or documentation are required. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Submittal of an annual list of priority projects, along with written proposals for each of the identified priority projects. The USFS has chosen to adopt the State guidelines for the format of these proposals, since they meet all the needs for project narratives for federal grant considerations, with one additional requirement. That additional requirement is clear identification of sources and amounts of proposed match funding.

Implementation of construction projects under awarded grants are not allowed until a signed project decision under NEPA has been made, allowing the use of federal grant funds for implementation. Local Office monitors grant awards to assure compliance of this restriction. Planning, design, and monitoring grants do not require an environmental impact assessment. An environmental impact assessment is required for this program.

For competitive research awards, applicants must adhere to the requirements of the current Request for Proposals as stipulated by the Pacific Southwest Research Station. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Project narratives submitted through the pre-application process are reviewed by an interagency technical advisory committee convened by the Federal grants program managers. Projects are then identified for award, along with instructions for any needed revisions to the project narratives. At that time, eligible applicants submit revised narratives along with standard application forms and assurances to the Local Office, as furnished by the Federal agency.

For competitive research awards, a complete proposal must be submitted following guidelines provided by the Pacific Southwest Research Station. The proposal must explain in detail the work to be undertaken, the qualifications of key personnel involved in the work, other resources such as equipment, facilities, and services available or needed, and a proposed budget for each

fiscal year during the life of the proposed grant. A short biographical sketch of the principal investigator and a list of his or her principal publications should be included.

Award Procedure:

National Forest System will send an award letter to grantee, with identification of grant requirements, in letter from Local Office.

Research award proposals must compete for priority, showing technical competence and demonstrating the ability to meet regional needs. Research grants cooperative agreements are made only in support of forestry research and monitoring of the Lake Tahoe Basin. Unsolicited proposals can be awarded for innovative or unique approaches to the proposed project.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. For competitive research grants or cooperative agreements contact Pacific Southwest Research Station's Tahoe Science Coordinator.

Appeals:

Contact Research Station for guidance regarding competitive research grants or cooperative agreements.

Renewals:

From 60 to 90 days. Extensions can be made for individual grants as long as end dates do not exceed five years post award date.

For competitive research awards requests for continued support will be considered as equal in importance and in competition with pending proposals. Applications submitted for continued support should be identical to a new proposal, except that a resume of progress to date must be added.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 50%. For National Forest System awards, notwithstanding section 9(b) of Public Law 106 506, funds hereinafter appropriated under Public Law 106506 shall require matching funds from non-Federal sources on the basis of aggregate contribution to the Environmental Improvement Program, as defined in Public Law 106506, rather than on a project-by-project basis, except for those activities provided under section 9(c) of that Act, to which this amendment shall not apply.

For competitive research awards, as authorized by Public Law 106506 section 6(b) and 6(d), the applicant's contribution is negotiated for grants. The proposed budget by fiscal year shows the estimated cost of the complete project from grant funds and value of resources to be contributed by the applicant. Salaries of academic personnel for periods when they receive salary for teaching should not be included for payment from grant funds. The minimum matching contribution for Cooperative Agreements must constitute at least 20-percent of the estimated total cost of the project. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Grants are awarded for a period not to exceed 5 years. Invoices may be submitted no more frequently than monthly. See the following for information on how assistance is awarded/released: Payments made based on authorization and negotiation of provisions with cooperator.

Reports:

Accomplishment reports are required at least annually, but not more than quarterly as detailed in the applicable OMB Circulars and the grant award. A final accomplishment report, financial expenditures report, and final as-built project design drawings are required within 90 days of project completion.

For competitive research awards, in addition to project-specific reports and products, all funded projects are required to submit quarterly project updates in January, April, July, and October and annual accomplishments reports to comply with the requirements of the Tahoe Science Program. Proposals must account for these reports in the project budgets and timelines. A final progress

report showing all tasks complete and a final accomplishments report must be submitted along with the final project report and/or products. The final invoice and the final federal financial report (SF-425) must be submitted within 90 days of the Pacific Southwest Research Station agreement end date. No cash reports are required. No progress reports are required. Financial expenditures reporting is required. SF-425. Performance monitoring is not applicable.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

CRITERIA FOR SELECTING PROPOSALS:

Grants must address planning, construction, or monitoring of projects identified in the Tahoe Regional Planning Agency environmental improvement program (EIP). Projects submitted from this list are selected based on the annual priority list provided by the eligible local governments, and direction provided in the LTRA: 1) The total amounts appropriated for payments under this subsection shall be allocated by the Secretary of Agriculture based on the relative need for and merits of projects proposed for payment under this section. 2) To the maximum extent practicable, for each fiscal year, the Secretary of Agriculture

shall ensure that each political subdivision in the Lake Tahoe basin receives amounts appropriated for payments under this subsection.

The Pacific Southwest Research Station (PSW) will complete an administrative review of all submitted proposals to ensure that proposal specifications as outlined in the Request for Proposals are met. Proposals passing the administrative review will be forwarded to the Tahoe Science Consortium (TSC). The TSC will coordinate technical reviews of the proposals. Proposals passing technical review will be forwarded to Tahoe Basin agency personnel for relevancy reviews. The TSC will coordinate a synthesis of the results from the technical reviews and agency relevancy reviews to create a list of proposals recommended for funding. PSW will review the suite of recommended proposals to finalize funding allocations; proposals recommended for funding are not guaranteed funding due to constraints on funding allocations. Final funding allocations for recommended proposals will be determined by the number of projects recommended for funding and individual project budgets. Some projects may be identified as alternates to receive support should funds become available during the negotiation of awards. PSW reserves the right to negotiate scopes of work, budget amounts, and deliverables with Principal Investigators based upon feedback from the review process and to comply with Forest Service policies. Projects may be required to modify their proposed indirect cost rates and/or demonstrate cost share contributions. Once the recommendations and funding allocations have been finalized, PSW will forward the package of recommended projects to the Tahoe Regional Executive Committee (TRES) and to the Bureau of Land Management (BLM) for final approval.

EXAMPLES OF FUNDED PROJECTS:

Fiscal Year 2014: Arkansas School for Mathematics, Sciences and the Arts: Rural Development funds will be used to purchase servers and video application software that will fortify a high-technology high-capability distance learning hub at the Arkansas School for Mathematics, Sciences and the Arts location in Hot Springs. This server farm will be used to manage and coordinate the distance learning activities between the 16 high schools in the project and the individual academic relationships that each school has with ASMSA teachers and mentors. The servers and their functional software will be specifically applied to support the target high schools of the project, located in the Delta region, with a strong focus on sciences, technologies, engineering,

and mathematics (STEM). The projected end result is to create a high availability environment for STEM instructors and their classes (live or streamed), for content management, and collaboration providing students from the Delta Region with a strong STEM background and experience.

Gonzales Healthcare Systems Foundation

Rural Development funds will be used to update Gonzales Hospitals teleradiological equipment and related data and imaging information management systems. Critical teleradiological services provided by Gonzales Hospital (serving 18,000 patients per year that require radiological diagnostics) have recently come to a halt because of the obsolete functionality of the existing equipment and inoperable data formats for radiological imaging in its various modalities. With the new system in place radiologists (located many hours away) will be able to resume services in reading the hospitals transmitted images. Clinical specialties such as cardiology, endoscopy, mammography, orthopedic, neurology, vascular, gastroenterology and bronchoscopy rely on the hospitals radiological capacity to transmit visual data and accompanying information. The benefits of the upgrade will have a major impact on the hospitals overall level of care and effectiveness in serving its patients. Fiscal Year 2015: Reviews for the current Fiscal Year are ongoing, and we cannot pre-judge who will receive awards. If history is any indication, it will be approximately 60-70 awards with a mixture of Distance Learning and Telemedicine purposes. Fiscal Year 2016: No Current Data Available

AUTHORIZATION:

Healthy Forest Restoration Act of 2003. Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578. , Title V, Section 501, Public Law 108-148, 117 Stat. 1911, 16 U.S.C 6571-6578.

OBJECTIVES:

To assist landowners in restoring and enhancing forest ecosystems to: promote the recovery of threatened and endangered species; improve biodiversity; and enhance carbon sequestration.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

HFRP restoration agreements and easements are designed for working Agricultural lands. HFRP is a voluntary program to assist landowners in restoring, enhancing and maintaining forest ecosystems on private lands through easements, contracts and restoration agreements. Easements, contracts, and restoration agreements shall be maintained in accordance with HFRP goals and objectives for the duration of the restoration agreement and easement including the restoration, protection, enhancement, maintenance, and management of habitat for listed species within a forest ecosystem's functions and values. For the duration of its term, the easement shall require, at a minimum, that the landowner, and the landowner's heirs, successors and assigns, shall cooperate in the restoration, protection, enhancement, maintenance, and management of the land in accordance with the easement and with the terms of the HFRP restoration plan. In addition, the easement shall grant to the United States, through the NRCS: a right of access to the easement area; the right to permit compatible uses of the easement area, if such use is consistent with the long-term protection and enhancement of the purposes for which the easement was established; the right to determine compatible uses on the easement area and specify the amount, method, timing, intensity and duration of the compatible use; the rights, title and interest to the easement area as specified in the conservation easement deed; and the right to perform restoration, protection, enhancement, maintenance, and management activities on the easement area. The landowner shall convey title to the easement which is acceptable to the NRCS. The landowner shall warrant that the easement granted to the United States is superior to the rights of all others, except for exceptions to the title which are deemed acceptable by the NRCS.

Applicant Eligibility:

To be eligible to enroll an easement or restoration agreement in the HFRP, a person must: be the landowner of eligible private land for which enrollment is sought; agree to provide such information to the Natural Resources Conservation Service (NRCS) as the Agency deems necessary or desirable to assist in its determination of eligibility for program benefits and for other program implementation purposes. 2 CFR 200 applies only to the program

activities implemented through a Cooperative Agreement.

Beneficiary Eligibility:

Only landowners.

This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Any owner meeting eligibility criteria may submit an application for participation. Applications are accepted in local USDA Service Center Offices during announced enrollment sign-up periods. USDA will establish criteria to evaluate and rank applications for easement and restoration agreement enrollment, criteria will be detailed in the sign-up notice. NRCS will identify through a sign-up notice process the geographic scope and ranking priorities for that particular sign-up. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Applications can be obtained through local USDA Service Center.

Award Procedure:

NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment which is offered by NRCS. The easement payment may or may not equal the fair market value of the interests and rights to be conveyed by the landowner under the easement. By voluntarily participating in the program, a landowner waives any claim to additional compensation based on fair market value.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 September 30) based on funding availability.

10.924 CONSERVATION STEWARDSHIP PROGRAM

Conservation Stewardship Program (CSP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985
, Public Law 106-224, NA Stat. NA, 16 U.S.C 3838h.

OBJECTIVES:

Through CSP, NRCS will provide financial and technical assistance to eligible producers to conserve and enhance soil, water, air, and related natural resources

on their land. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest lands, agricultural land under the jurisdiction of an Indian tribe, and other private agricultural land (including cropped woodland, marshes, and agricultural land used for the production of livestock) on which resource concerns related to agricultural production could be addressed. Participation in the program is voluntary. CSP encourages land stewards to improve their conservation performance by installing and adopting additional activities, and improving, maintaining, and managing existing activities on agricultural land and nonindustrial private forest land. The NRCS will make CSP available nationwide on a continuous application basis.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

CSP is available on Tribal and private agricultural lands, as well as nonindustrial private forest lands in all 50 States, the District of Columbia, and the Caribbean and Pacific Islands Areas. The entire operation must be enrolled and must include all eligible land that will be under the applicant's control for the term of the proposed contract that is operated substantially separate from other operations. Land enrolled in the Conservation Reserve Program (7 CFR part 1410), a Wetlands Reserve Easement through the Agricultural Conservation Easement Program, and the Conservation Security Program (CFR part 1469) are ineligible for CSP. Eligibility is limited to private agricultural land; as such, land that is owned by a Federal, State, or local unit of government, with the exception of agricultural land under the jurisdiction of an Indian Tribe, is ineligible, regardless of the status of the operator. Additionally, a participant may not receive payment for land used for crop production after February 7, 2014, 2008, that had not been planted, considered to be planted, or devoted to crop production for at least four of the six years preceding that date, unless the land was: previously enrolled in the Conservation Reserve Program; maintained using long-term rotations, such as hayland in rotation; or incidental to the operation but needed for the efficient management of the operation. An example of land considered incidental to the operation that may be eligible for payment is land that had once been used for buildings and is now being used for crop production to square up a cropland field.

Applicant Eligibility:

The program provides equitable access to all producers, regardless of operation size, crops produced, or geographic location. Individual producers, legal entities, corporations, and Indian Tribes may be eligible for the program. Eligible lands include cropland, grassland, prairie land, improved pastureland, rangeland, nonindustrial private forest land, and agricultural land under the jurisdiction of an Indian tribe. As stated in the Federal Register, 1470.6a, Applicants must be the operator of record in the USDA farm records management system for the eligible land being offered for enrollment; have documented control of the land for the term of the proposed contract; include the eligible land in their entire operation as represented for other USDA programs; and be in compliance with the highly erodible land and wetland conservation provisions of 7 CFR Part 12, and adjusted gross income provisions of 7 CFR part 1400. The applicants operation must also meet a stewardship threshold.

Beneficiary Eligibility:

The applicants operation must also meet a stewardship threshold.

Credentials/Documentation:

The participant must have control of the land offered for the length of the contract period. NRCS requires all program payments be made by direct deposit unless the participant requests a waiver as described in 31 CFR Part 208.4, paragraph (a). This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13). An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. A programmatic environmental assessment has been prepared in association with this rulemaking. The analysis has determined that there will not be a significant impact to the human environment and as a result an Environmental Impact Statement is not required to be prepared (40 CFR part 1508.13).

Award Procedure:

Once applicant and land eligibility are determined, the NRCS field office will assist the producer with completing the resource inventory to determine if the stewardship threshold requirement is met, rank applications, and establish payments. Applicants will be ranked relative to other applicants who face similar resource challenges in State-established ranking pools using ranking scores. For approved applicants, NRCS will conduct on-site field verification to substantiate that conservation activity and production system information represented by the applicant was accurate. After the conservation system information is verified, NRCS and the applicant proceed to develop the conservation stewardship plan and contract. Upon approval, the contract will obligate the participant to achieve a higher level of conservation performance by installing additional activities scheduled in their conservation stewardship plan and to maintain the level of existing conservation performance identified at the time of application.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days.

Appeals:

A participant may obtain administrative review in accordance with 7 CFR parts 11 and 614 for an adverse decision. Participants cannot appeal payment rates, payment limits, and cost-share percentages, eligible conservation practices, or other matters of general applicability. Before a participant can seek judicial review, the participant must exhaust all administrative appeal procedures.

Renewals:

At the end of an initial conservation stewardship contract, NRCS will allow a participant to renew the contract to receive payments for one additional five year period, subject to the availability of funds. To be considered for contract renewal, the participant must be in compliance with the terms of their initial contract as determined by NRCS; add any newly acquired eligible land that is part of the agricultural operation and meets minimum treatment criteria as established and determined by NRCS; meet stewardship thresholds for additional priority resource concerns as determined by NRCS; and agree to adopt conservation activities as determined by NRCS.

Formula and Matching Requirements:

Statutory Formula: Subject to the availability of funds, NRCS will offer participants two potential types of payment. As outlined in 1470.24 (a) , an annual payment will be made for installing and adopting additional conservation activities, and improving, maintaining, and managing existing activities. A supplemental payment can also be made to a participant receiving annual payments, who also agrees to adopt a resource-conserving crop rotation. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

NRCS will make payments as soon as practicable after October 1 of each fiscal year for activities carried out in the previous fiscal year. CSP payments to a person or legal entity may not exceed \$40,000 in any year and \$200,000 during any 5-year period. Each CSP contract will be limited to \$200,000 over the term of the initial contract period. The above limitations exclude funding arrangements with federally recognized Indian tribes or Alaska Native corporations. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. The Designated Conservationist will review contract implementation with the participant annually. Annual reviews will be completed early enough in the year to allow for completion of any necessary corrective actions prior to issuance of the annual payment. Expenditure reports are not applicable. Performance monitoring is not applicable.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Recipients are subject to audit by the Office of Inspector General, USDA.

Records:

As stipulated in 1470.6 (a), the applicant must make available to NRCS upon request appropriate records documenting applied conservation activity and production system information. NRCS will request records when conducting field verification with pre-approved applicants. The designated conservationist does not need to collect, store, or re-calculate the data contained in the applicants records, but instead will examine the field conditions and records to determine whether or not they substantiate the resource inventory information provided by the applicant during the application process.

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

The Food Security Act of 1985. This program was repealed by the Agricultural Act of 2014 (2014 Farm Bill), effective February 7, 2014. Therefore, no new enrollments are authorized for this program after that date. , Public Law 99-198.

OBJECTIVES:

The Chesapeake Bay Watershed Program (CBWP) helps agricultural producers improve water quality and quantity, and restore, enhance, and preserve soil, air, and related resources in the Chesapeake Bay Watershed through the implementation of conservation practices. These conservation practices reduce soil erosion and nutrient levels in ground and surface water; improve, restore, and enhance wildlife habitat; and help address air quality and related natural resource concerns. CBWP encompasses all tributaries, backwaters, and side channels, including their watersheds, draining into the Chesapeake Bay.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Natural Resources Conservation Service (NRCS), an agency of the United States Department of Agriculture, uses CBWP funds to enter into contracts with eligible producers to share the costs of the applicable conservation treatment on agricultural lands in the Chesapeake Bay Watershed. NRCS provides payments for approved conservation practices and systems and land use adjustments within a time schedule specified by the conservation plan. The CBWP contracts may be modified to increase funds provided the increased cost is the result of a valid contract modification within the original contract scope and intent. The modification must follow the rules of the conservation program used to apply the conservation treatment.

Applicant Eligibility:

Only agricultural producers owning or operating within the Chesapeake Bay Watershed are eligible to participate in CBWP. In addition, NRCS applies the eligibility requirements of the particular natural resource program used to implement CBWP (e.g., the Environmental Quality Incentives Program (EQIP) (16 U.S.C. 3839aa et seq.), the Wildlife Habitat Incentives Program (WHIP) (16 U.S.C. 3839bb-1)). Limited resource producers, small-scale producers, beginning farmers and ranchers, socially-disadvantaged producers, and federally recognized Indian tribes are encouraged to apply.

Beneficiary Eligibility:

To be eligible, the agricultural producers must be in compliance with highly erodible land and wetland conservation provisions at 7 CFR part 12, and in compliance with the Adjusted Gross Income (AGI) payment limitations at 7 CFR part 1400.

Credentials/Documentation:

Evidence that applicant has control over land to be entered into contract and submits an acceptable conservation plan for the farm or ranch unit of concern that incorporates needed natural resource conservation practices and provide

either a social security number or individual tax identification number of all proposed beneficiaries. Applicants claiming either limited resource producer or beginning farmer classification may be asked to provide documents to justify their claim. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Program participation is voluntary. The applicant applies to NRCS at the local USDA Service Center on Form NRCS-CPA-1200. Applications may be filed at any time during the year. The participant develops a CBWP plan of operations that identifies what conservation practices they are proposing to implement. Technical assistance and conservation payments may be provided to apply needed conservation practices and land use adjustments within a time schedule specified by the conservation CBWP plan of operations. A contract with a participant may apply one or more land management practices or one or more structural practices.

Award Procedure:

NRCS applies the ranking and selection requirements of the particular natural resource program used to implement CBWP (e.g., EQIP, WHIP). NRCS will give special consideration to applicants that address priority natural resource concerns designated. Applications will be periodically ranked and selected for funding based on locally developed ranking process. The ranking criteria of the various Farm Bill program can be found at <http://www.nrcs.usda.gov/programs>.

Limited resource producers, social disadvantaged producers and beginning farmers and ranchers may be eligible for payments up to 90 percent of the approved practice cost. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Obligations for assistance are tied to the schedule for applying conservation practices included in the CBWP plan of operations conservation plan used as the basis for the contract. Payments are made when the participant and NRCS certify that conservation practice is completed in accordance with NRCS standards and specifications. Technical assistance may be provided by a certified Technical Service Provider (TSP) in accordance with 7 CFR part 652. The participant may not engage a TSP prior to contract approval. This assistance will be reimbursed based upon applicable TSP payment rates. These payments will be made after the services of the certified TSP have been provided in accordance with NRCS standards and specifications. Method of awarding/releasing assistance: lump sum.

Project sponsors may use SF 424 Application for Federal Assistance but must ensure that following information is provided: (1) A description of the problems encountered; (2) Assistance needed, including the following: Nature of the problem; Location; Scope of the problem; Commitment by the sponsor to assume the following responsibilities: local cost-share; Land rights; acquisition; Permits; Operations and Maintenance (O and M), A statement indicating that funds have either been exhausted or are insufficient to provide adequate recovery measures from the applicable hazards; A statement identifying any other State or Federal funding received or application submitted. On receipt of a formal request for EWP assistance, the State Conservationist or designee shall immediately investigate the emergency situation to determine whether EWP is applicable and to prepare an initial cost estimation for submission to the NRCS Chief or designee. The cost estimation will be submitted no later than 60 days from receipt of the formal request from the sponsor. NRCS may not commit funds until notified by the Chief, or designee, of the availability of funds. Before the release of financial assistance, NRCS will enter into a Cooperative Agreement with a sponsor that specifies the responsibilities of the sponsor under this part, including any required operation and maintenance responsibilities. NRCS will not provide funding for activities undertaken by a sponsor prior to the signing of the agreement between NRCS and the sponsor.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The EWP program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching Requirements: Percent: 75.%. NRCS may bear up to 75 percent (90 percent within limited resource areas as identified by the US Census data) of the construction cost of emergency measures. The remaining 25 percent (10 percent within limited resource areas) must come from local sources as cash or in-kind services.

MOE requirements are not applicable to this program.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

10.904 Watershed Protection and Flood Prevention; 10.923 Emergency Watershed Protection Program

EXAMPLES OF FUNDED PROJECTS:

Not Applicable.

CRITERIA FOR SELECTING PROPOSALS:

EWP projects are eligible when it is determined that the current condition of the land or watershed impairment poses a threat to life, health and property. Assistance includes EWP practices that provide runoff retardation and soil erosion prevention, safeguard lives and property, and relieve an imminent threat that is a result of a sudden impairment of a watershed due to a natural disaster.

10.928 EMERGENCY WATERSHED PROTECTION PROGRAM - FLOODPLAIN EASEMENTS DISASTER RELIEF APPROPRIATIONS ACT

EWP-FPE Hurricane Sandy

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013, Public Law 113-2, 127 Stat. 4.

OBJECTIVES:

The Emergency Watershed Protection - Floodplain Easement Program (EWP-FPE) provides an alternative measure to traditional EWP recovery where it is determined that acquiring an easement in lieu of recovery measures is the

more economical and prudent approach to reducing a threat to life or property (see 7 CFR Part 624). The easement must be restored to the extent practicable to the natural environment and may include both structural and nonstructural practices to restore the flood storage and flow, erosion control, and improve the practical management of the easement. Structures, including buildings, within the floodplain easement must be demolished and removed, or relocated outside the 100-year floodplain or dam breach inundation area.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

NRCS may bear up to 100 percent of costs related to easement acquisition and related acquisition costs. NRCS will determine easement compensation in accordance with applicable regulation and other law. NRCS will not acquire any easement unless the landowner accepts the amount of the easement payment that is offered by NRCS. NRCS reserves the right not to purchase an easement if the easement compensation for a particular easement would be too expensive, as determined by NRCS. NRCS may provide up to 100 percent of the restoration and enhancement costs of the easement. NRCS may enter into an agreement with the landowner or another third party to ensure that identified practices are implemented. NRCS, the landowner, or other designee may implement identified practices. Restoration and enhancement efforts may include both structural and non-structural practices. An easement acquired under this EWP-Floodplain Easement regulations shall provide NRCS with the full authority to restore, protect, manage, maintain, and enhance the functions and values of the floodplain. EWP-FPE funds from this appropriation can only be spent on eligible Floodplain Easement projects that have suffered damage from Hurricane Sandy and are located within a Stafford ACT Designation. (This means that a certain geographical area was declared a major disaster as a result of a Presidential Declaration). FY 2014, 2015 & 2016 - 100% discretionary funding.

Applicant Eligibility:

For this appropriation, only applicants affected by Hurricane Sandy and only in those areas declared as a major disaster are eligible for assistance through the EWP-FPE program.

Pursuant to 7 CFR 624.10(b)(2), NRCS may determine land is eligible under for EWP-FPE if any of the following apply:

- 1) The floodplain lands were damaged by flooding at least once within the previous calendar year or have been subject to flood damage at least twice within the previous 10 years.
- 2) Other lands within the floodplain are eligible, provided the lands would contribute to the restoration of the flood storage and flow, provide for control of erosion, or that would improve the practical management of the floodplain easement.
- 3) Lands would be inundated or adversely impacted as a result of a dam breach.

NRCS may determine that land is ineligible under this section if any of the following apply:

- 1) Implementation of restoration practices would be futile due to onsite or offsite conditions.
- 2) The land is subject to an existing easement or deed restriction that provides sufficient protection or restoration, as determined by the Chief of NRCS, of the floodplains functions and values.
- 3) The purchase of an easement would not meet the purposes of this part.

Beneficiary Eligibility:

Private and non-federal landowners are eligible for EWP-FPE.

To be eligible for FPE, the NRCS will require participating landowners to

- 1) Comply with the terms of the easement.
- 2) Comply with all terms and conditions of any associated agreement.
- 3) Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

For projects that include parcels with residential dwellings or other structures on nonagricultural lands (such as flood mitigation efforts intended to assist families in moving from flood-prone areas as part of EWP recovery efforts), a local sponsor will be identified and serve as the local cooperating entity for these efforts. A sponsor will be a local or State unit of government (city,

county, conservation district, watershed conservancy district, or State agency) that has a local presence and staff available to assist in the implementation of the program.

Credentials/Documentation:

The landowner must provide a copy of the vesting deed to the land. If the landowner is an entity, the entity must provide a list of the individuals who comprise the entity, including the percent of ownership for each individual, to the Farm Service Agency (FSA). The entity must provide documents to FSA and NRCS that show the entity to be legal and valid in the State and which members have the authority to sign contractual documents on behalf of the entity. If funds are being requested for the purchase of easements on lands with residences or other nonagricultural structures, the State Conservationist (STC) must provide confirmation that the acquisition is part of a strategy that will facilitate the restoration of an entire reach of the floodplain. The relatively high cost of these transactions requires a greater level of documentation that the benefits to the floodplain outweigh the costs. In addition, the STC must provide confirmation that the project sponsor will acquire fee title to the easement area. This program is excluded from coverage under OMB Circular No. A-87. 2 CFR 200 applies only to the program activities implemented through a Cooperative Agreement. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

NRCS state offices in impacted states will submit an assessment of potential level of interest in areas with eligible lands. An environmental impact statement is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Landowners may only enroll land in the Emergency Watershed Protection for Floodplain Easements (EWP-FPE) Program through a permanent easement. Landowners apply for the EWP-FPE using the Application for Long-Term Contracted Assistance.

Award Procedure:

- 1) States receive applications, gather landowner information, rank applications, conduct preliminary investigations, and determine land and landowner eligibility
- 2) The STC will list all applications received during the announced signup period in rank order, beginning with the highest-ranked easement first.
- 3) States will submit an Easement Request Package to NHQ that includes documentation of land eligibility, landowner eligibility, and evidence of damage related to Hurricane Sandy.
- 4) Easement Request Packages will be reviewed and project selection will be conducted by the Deputy Chief for Programs.
- 5) Selected applications will be notified, either through an intent to continue letter for projects that will be individually appraised or through the issuance of Option Agreement to Purchase for projects with easement compensation determined through the Area-wide Market Analysis and Geographic Area Rate Cap process.
- 6) When the OATP has been signed by the applicant and the STC, the acres are considered enrolled in the program. At this time, the funds are obligated to the landowner as the vendor for the easement purchase cost only. The landowner may choose to assign all or a portion of the easement acquisition payment to the closing agent through a properly executed assignment of payment provided to NRCS along with the signed OATP.
- 7) The effective period of the OATP may not exceed 12 months from the date of the STCs signature. The effective period may be extended when necessary using the Option Agreement to Purchase Amendment. The STC may delegate, in writing, the authority to sign the OATP (and amendments) to the State program manager. No further delegation of this authority is allowed.

1) In addition to the above described activities, for EWP-FPE applications on land with residences or other structures, NRCS will enter into a cooperative or project agreement with the project sponsors prior to the commencing of easement acquisition activities. The agreement must specify the reimbursable tasks to be carried out by the sponsor to expedite the easement acquisition process.

2) In order to reduce the administrative burden and easement management cost to NRCS, sponsors are required to purchase the fee simple title from the landowner and enroll properties in a strategic manner that increases the likelihood that the floodplain can be reconnected.

3) The FPE warranty easement deed is closed before the fee simple interest is conveyed to the sponsor, unless a different order of recordation is desired by NRCS and authorized by the Office of the General Counsel.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Timeline is dependent upon when funding is appropriated. The FPE program is not a line-item funded program and is reliant upon emergency supplemental appropriations.

Appeals:

Only NRCS decisions relating to eligibility for the EWP-FPE Program can be appealed. These decisions may be appealed in accordance with 7 CFR Part 614 and 7 CFR 11, as applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

EWP Floodplain easements are a long-term solution and exist for perpetuity. After initial eligibility and project selection, easement acquisition phase requires 12 to 18 months on average. Following easement acquisition phase, restoration implementation phase requires 1 to 3 years until all practices are installed and vegetative practices are considered established. Continues until all EWP-FPE Program measures are installed (relocation or demolition of structures and/or floodplain restoration practices). Maintenance and monitoring of floodplain easements continues in perpetuity. Method of awarding/releasing assistance: lump sum.

Reports:

Program reports are not applicable. Cash reports are not applicable. Easement milestones include enrollment, closing, recording, restoration completion, and monitoring. These milestones are tracked in the National Easement Staging Tool (NEST). NEST reports will be generated quarterly to track milestones. Expenditure reports are not applicable. Convey title to the easement that is acceptable to NRCS and warrant that the easement is superior to the rights of all others, except for exceptions to the title that are deemed acceptable by NRCS.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. The count and condition of closed easements is reported annually in the agency's financial statement pursuant to requirements of the Statements of Federal Financial Accounting Standard 29. 2 CFR 200 applies only to the program activities implemented through a Cooperative Agreement.

10.931 AGRICULTURAL CONSERVATION EASEMENT PROGRAM (ACEP)

FEDERAL AGENCY:

Natural Resources Conservation Service, Department of Agriculture

AUTHORIZATION:

Food Security Act of 1985, Title XII, Part Subtitle D, Section 1237, Public Law 99-198.

OBJECTIVES:

To establish an agricultural conservation easement program for the conservation of eligible land and natural resources through easements or other interests in the land. The Agricultural Conservation Easement Program (ACEP) is comprised of two components Agricultural Land Easements (ALE) and Wetland Reserve Easements (WRE). The ALE component provides funding to eligible entities to purchase conservation easements to protect the agricultural use and future viability, and related conservation values of eligible land by limiting nonagricultural uses of that land; and to protect grazing uses and related conservation values by restoring and conserving eligible land. The WRE component provides funding to eligible landowners to purchase easements to restore, protect, and enhance wetlands on eligible land.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under the ACEP Wetland Reserve Easements (ACEP-WRE) component eligible landowners may offer farmed wetlands, prior converted wetlands, wetlands farmed under natural condition, former or degraded wetlands on lands that have been used or are currently being used for the production of food and fiber, including cropland, rangeland and forest production land, lands substantially altered by flooding, certain riparian areas, along with certain adjacent areas. The goal of ACEP-WRE is to achieve the greatest wetlands functions and values, along with optimum wildlife habitat on every acre enrolled in the program. Enrollment options include permanent easements, 30-year easements, or easements for the maximum duration allowed under State law, and, for acreage owned by Indian Tribes, 30-year contracts. To be eligible for participation, land must be capable of being successfully and cost-effectively restored to wetlands and associated habitats. For easement projects, landowners shall ensure the easement is superior to the rights of all others and shall agree to implement a wetland restoration plan designed to restore and maintain the easement area. Landowners must agree to a permanent retirement of crop acreage bases, allotments, and quotas to the extent that the sum of the crop acreage bases and allotments will not exceed the remaining cropland on the farm.

Participating landowners receive financial assistance for the purchase of the easement and NRCS shall share the cost of carrying out the establishment conservation measures and practices, and the protection of wetland functions and values including necessary maintenance activities to the extent that the Secretary determines that cost-sharing is appropriate and in the public interest. NRCS provides financial and technical assistance to the landowner or a third party as follows:

Permanent easements: Easement duration is in perpetuity; landowners receive up to 100 percent of the cost of the easement. NRCS provides up to 100

percent of the cost for establishment and maintenance of conservation measures and practices.

30-year easements or maximum duration allowed by State law: Easement duration is 30 years or maximum duration allowed by State law; landowners receive the equivalent of 75 percent of the value for a permanent easement and NRCS provides up to 75 percent of the eligible restoration costs.

30-year contracts: Acreage owned by Indian Tribes can be enrolled through the use of a 30-year contract which shall be equivalent in value to a 30-year easement. NRCS provides up to 75 percent of the eligible restoration costs.

States with an approved Exhibit E may enroll easements with reserved grazing rights. The applicable compensation provided to the landowner for these easements will be reduced by 25%.

For both permanent and 30-year easements, ACEP-WRE pays for all the related costs associated with acquiring and recording the easement including recording fees, charges for title abstracts, surveys, appraisal fees, records searches, and title insurance associated with acquiring an easement. These related costs are generally not paid to participants but are provided directly to the vendor performing the service. Therefore, payments appearing on USAspending.gov will be reflective of payments to participants and payments to vendors for services associated with restoration and management activities and administrative costs associated with acquiring and recording an easement.

The Agricultural Lands Easements (ALE) component provides funds to protect the agricultural use, including grazing, and related conservation values of eligible land through cost-share assistance to eligible entities for purchasing agricultural land easements.

The Federal share for ACEP-ALE acquisition is limited to a maximum of 50 of the appraised fair market value of the agricultural land easement. For ACEP-ALE projects of special significance, as determined by the Chief, NRCS may waive a portion of the eligible entity cash contribution requirement, subject to an increase in the private landowner donation that is equal to the amount of the waiver, if the landowner donation is voluntary and the property is in active agricultural production. The Chief can determine lands as Grasslands of Special Environmental Significance which authorizes a federal share of up to 75 percent of the fair market value of the agricultural land easement. An agricultural land easement plan is required for all ACEP-ALE easements and a Grasslands Management Plan must be included with all lands enrolled as Grasslands of Special Environmental Significance. ACEP Agricultural Land Easements are perpetual easements or maximum duration allowed by State law. A right of enforcement is incorporated in the conservation easement deed for the protection of the Federal investment. A failure of title would require the eligible entity to reimburse the United States for the Federal share of the easement value.

Applicant Eligibility:

For ACEP-ALE an eligible entity that is an Indian Tribe, State government, local government, or a nongovernmental organization which has a farmland or grassland protection program that purchases agricultural land easements for the purpose of protecting agriculture use and related conservation values, including grazing uses and related conservation values, by limiting conversion to nonagricultural uses of the land, and that has pending offers may apply for funds. This program is available in all 50 States, Puerto Rico, the Virgin Islands, Guam, American Samoas, the Mariana Islands, and the Trust Territories of the Pacific Islands. Individual landowners must apply through the local agency or organization that handles the farmland or grassland protection program.

For ACEP-WRE, private landowners, including individual landowners, partnerships, associations, corporations, estates, trusts, and other business or legal entities, and Indian tribes are eligible to apply.

This program is excluded from coverage under E.O. 12372.

Beneficiary Eligibility:

All landowners applying for ACEP must be in compliance with the Wetland Compliance (WC) and Highly Erodible Land (HEL) provisions of the Farm Bill and, within the exception of FY2014, meet the Adjusted Gross Income (AGI) limitations in the Farm Bill.

For ACEP-ALE, applications are submitted by an eligible entity who will be the participant in the program.

For ACEP-WRE, only private landowners, partnerships, associations, corporations, estates, trusts, other business or legal entities and, Indian tribes may submit applications for easements.

Credentials/Documentation:

ACEP-WRE - Eligible applicants must be in compliance with the highly erodible land and wetland conservation provisions in 7 CFR part 12 and, except for FY 2014, the Adjusted Gross Income provisions in 7 CFR part 1400. They must be the landowner of the eligible land being offered for participation. For easement applications, the applicant must have owned the land for the 24 month period prior to the time the land is determined eligible for enrollment. Under limited circumstances a waiver of the 24 month ownership period may be granted from the Chief of NRCS.

ACEP-ALE - Eligible entities must provide documents indicating: 1) they have the relevant experience and resources to administer an ALE easement; 2) commitment to long-term conservation of agricultural lands, ranchlands or grassland for grazing or related conservation purposes through legal devices, such as right-to-farm laws, agricultural districts, zoning, or land use planning; 3) use of voluntary approaches to protect farmland from conversion to non-agricultural uses; and 4) their capability to acquire, manage, and enforce conservation easements. NRCS evaluates an entities capacity to acquire, manage and enforce easements; its staffing and the ability of an entity to provide matching funds before entering into a cooperative agreement. If the eligible entity is a nongovernmental organization, they must be: 1) organized for, and at all times since, the formation of the organization and has been operated principally for one or more of the conservation purposes specified in clause (j), (ii), (iii), or (iv) of section 170(h)(4)(A) of the Internal Revenue Code of 1986; 2) an organization described in section 501(c)(3) of that Code that is exempt from taxation under 501(a) of that Code; and 3) described (i) In section 509(a)(1) and (2) of that Code, or (ii) Is described in section 509(a)(3) of that Code and is controlled by an organization described in section 509(a)(2) of that Code. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

All ACEP applicants must submit required documentation as evidence of eligibility. The land itself is evaluated and ranked in accordance with eligibility requirements and ranking criteria developed by NRCS. A programmatic environmental analysis is completed. Individual project selection may be made primarily at the State level by responsible NRCS officials. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. ACEP-ALE - Applications are accepted on a continuous basis by the NRCS State Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant (i.e. permanent easement, 30-year easement or maximum allowed by State law). Applications and supporting information requirements for the application can be obtained from the State Offices of the (NRCS) and USDA NRCS home page. See www.nrcs.usda.gov. Select Programs from the menu.

ACEP-WRE - Applications are accepted on a continuous basis by the NRCS State or local Field Offices. Applicants are required to provide general information about the location of the project, contact information for the applicant, eligibility and ownership documentation, and designate the type of enrollment desired by the applicant.

Award Procedure:

NRCS will rank parcels individually and award funding to the highest-ranked parcels based on ranking criteria established by NRCS in consultation with the State Technical Committee. The ranking factors are developed based on national and state criteria and priorities. NRCS conducts preliminary due

diligence activities on the projects tentatively selected for funding and applicants are provided an offer of enrollment. Projects are enrolled in ACEP through agreements signed by NRCS and the eligible entity under ACEP-ALE or the landowner under ACEP-WRE.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Within a Federal fiscal year (October 1 - September 30), based on funding availability, States establish a single or multiple application batching periods for consideration of current year funding. Eligible entity or landowner applications may remain on sign-up list for subsequent funding consideration.

Appeals:

Applicants or participants may appeal certain determinations regarding this program in accordance with 7 CFR Part 614 and Parts 11 and 780.

Renewals:

The land offered may be re-offered in a future sign-up unless land or landowner is ineligible.

Formula and Matching Requirements:

Statutory formulas are not applicable to this program.

NRCS, in consultation with the State Technical Committee, may place higher priority on certain land types or geographic regions of the State where restoration of wetlands may better achieve State and regional goals and objectives. Priority may also be given to land that is currently enrolled in CRP in a contract that is set to expire within one year from the date of application and is farmed wetland and adjoining land that has the highest wetland functions and values and is likely to return to production after the land leaves CRP.

Wetlands that fall under jurisdiction of the Clean Water Act are not eligible for mitigation through this program.

Applicant Eligibility:

Eligible entities that may submit applications include Tribal Nations, State, and local units of government, and nongovernmental organizations (NGOs), including for profit NGOs. NRCS will accept proposals for the development and establishment of mitigation banks submitted under this notice by eligible applicants from all 50 States, the District of Columbia, the Caribbean Area (Puerto Rico and the U.S. Virgin Islands), and the Pacific Islands Area (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). Applications will also be accepted from existing banks with established credits that meet the described needs of the program.

The statistical data provided in NASS studies and reports is necessary to maintain an objective source to ensure commodity markets operate fairly and efficiently. Every 5 years the Census of Agriculture provides comprehensive national, State, and county data as well as selected data for Puerto Rico, Guam, the U.S. Virgin Islands, and Northern Mariana Islands.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: NASS successfully released the final results of the 2012 Census of Agriculture (COA) in May 2014. NASS successfully rolled out a variety of other agricultural statistics products that are reformulations of data available from the complete 2012 COA. Some of these products include: Puerto Rico COA; State & County Profiles; Congressional District Profiles; Race, Ethnicity & Gender Profiles; American Indian Reservations; 2012 COA Web Mapping; and an Organic Production Tabulation. Fiscal Year 2015: NASS plans to begin three new surveys in 2015 to assess the status of pollinators by collecting colony loss data, stressor data, and cost data. Once the data are collected from these three new NASS surveys additional analyses are planned to examine causes and sequelae of Colony Collapse Disorder (CCD). These three new surveys will enable more analysis of the Colony Loss survey data; determine if a larger sample size is needed for the Colony Loss surveys, discover if and the extent to which pollination costs for any commodities have increase in association with CDD; and enable more analysis of the pollination cost data. Fiscal Year 2016: NASS plans to restore fruit and vegetable surveys to the 2011 level as well as chemical use surveys. The vegetable, fruit and nut surveys support the chemical use program.

To address the growing problem antibiotic resistant bacteria (AMR), NASS plans to add survey questions about antibiotic use to two surveys: feed for cattle, and hogs and pigs. Additionally, NASS will develop a new poultry survey looking at AMR.

Fiscal Year 2014: IOOS executed Data Management and Communications (DMAC)s including functional and useful IOOS data catalog; critical mass of client software; QARTOD manuals published for temp/salinity and quality flags; engaged other Federal agencies and non-Federal partners in their adoption of IOOS recommended standards and protocols. These efforts are aligned with the three National Ocean Service (NOS) priorities: (a) Improve end-to-end Response, Recovery, Restoration and Resiliency; (b) Enhance Coastal Marine Resource Conservation; and (c) Enhance Visibility and Relevance of NOS to the Nation. Fiscal Year 2015: The U.S. IOOS Program Office began accepting applications from qualified organizations to become certified Regional Information Coordination Entities (RICES) under the authority of the Integrated Coastal and Ocean Observation System Act of 2009 (ICOOS Act). Certification will demonstrate that entities integrated into the System are, for the purposes of determining liability arising from the dissemination and use of observation data, considered part of NOAA. IOOS continued to build on the Marine Sensor Innovation Program, expanding to a total of seven funded projects. Fiscal Year 2016: IOOS intends to complete a programmatic environmental assessment (PEA) of the observing activities regularly occurring in the environment as a direct result of cooperative agreements funded by this program. The PEA will demonstrate the programs commitment to fully consider the impacts of NOAAs proposed actions on the quality of the human environment. IOOS will issue cooperative agreements to continue with the development and operation of the regional component of the U.S. IOOS and a national sensor and evaluation program.

The IOOS Marine Sensor Innovation Improvement Program makes competitive, extramural awards available. Resources are targeted to sensor systems that are beyond their research phase, with specific emphasis on transitional and life cycle costs, including data management, overall operations, and maintenance expenses.

Marine Sensor Innovation projects include detection of ice frazils in the Arctic; utilization of environmental sensor processors to detect Harmful Algal Blooms in Juan de Fuca in near-real time; development of an integrated nutrient observatory in Northeastern U.S.; integration of the Imaging Flow Cytobot (IFCB) in the South San Francisco Bay to monitor HABs; and development and testing of new, low-cost ocean acidification sensors in the Pacific Northwest. Fiscal Year 2015: IOOS is working with federal and non-federal partners to launch demonstration projects for the U.S. Marine Biodiversity Observation Network (Marine BON), which is being designed to integrate across existing monitoring programs, fill biodiversity observing gaps, and make biodiversity data more accessible. Successful projects will be supported by NOAA, NASA, BOEM and possibly other partners. Fiscal Year 2016: IOOS expects to make eleven competitively selected awards to continue the implementation and development of regional coastal ocean observing systems. IOOS expects successful awardees to serve as a Regional Association responsible for operating the Regional Coastal Observing System. IOOS expects to make one competitively selected award to continue progress in the area of verification and validation of observing technologies for studying and monitoring coastal and ocean environments.

11.302 ECONOMIC DEVELOPMENT_SUPPORT FOR PLANNING ORGANIZATIONS

Planning Investments and Comprehensive Economic Development Strategies

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

Through the Planning program, EDA provides assistance to eligible recipients to create regional economic development plans in order to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which leverage the unique assets of their respective regions to help create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions.

To facilitate CEDS, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts (EDDs) throughout the Nation. These planning organizations are typically recognized by the State in which they reside as multi-jurisdictional councils of governments, regional commissions, or planning and development centers. Partnership Planning grants enable planning organizations to manage and coordinate the development and implementation of CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help organize and assist with the implementation of economic development activities within their areas. The majority of funding under the Planning program is for Partnership Planning grants for Indian Tribes and EDA-designated EDDs.

The Planning program also helps support planning organizations and other eligible recipients, including District Organizations and Indian Tribes, with Short-Term and State Planning efforts in order to stimulate and guide the creation and/or retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. For example, EDA might provide Short-Term Planning funding to a coalition of Tribal and regional organizations to plan a coordinated response to the sudden loss of a major employer in the affected area(s).

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

EDA Planning investments support the preparation of CEDS that guide EDAs Public Works and Economic Adjustment Assistance implementation investments, including Revolving Loan Funds. Sound local planning also attracts other Federal, state, and local funds plus private sector investments to implement long term development strategies. In this way, EDAs Planning program plays a foundational role in helping communities develop important strategies that inform future economic development decisions.

Comprehensive, market-based, local and regional planning is an essential component of successful economic development. Effective planning creates a road map for community growth and development with a focused approach towards creating higher-skill, higher-wage jobs. The Planning Program provides a foundation for EDAs infrastructure investments, which are designed to stimulate economic growth in distressed regions. The planning process supports an assessment of the regions economic conditions and the development of a CEDS to guide resource allocation and project development. The key value of this process is that it is locally determined and involves participation from all the diverse interests in the community. Planning activities supported by these Investments must be part of a continuous process involving the active participation of Private Sector Representatives, public officials and private citizens, and include:

- (a) Analyzing local economies;
- (b) Defining economic development goals;
- (c) Determining Project opportunities; and
- (d) Formulating and implementing an economic development program that includes systematic efforts to reduce unemployment and increase incomes. All EDA grants are discretionary grants. EDA does not award any formula grants.

Applicant Eligibility:

Pursuant to PWEDA, eligible applicants for and recipients of EDA investment assistance include a(n): (a) District Organization (as defined in 13 CFR 304.2); (b) Indian Tribe or a consortium of Indian Tribes; (c) State, city, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions; (d) institution of higher education or a consortium of institutions of higher education; or (e) public or private non-profit organization or association acting in cooperation with officials of a political subdivision of a State. See section 3 of PWEDA (42 U.S.C. 3122) and 13 CFR 300.3. As used in this paragraph, State includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. See 13 CFR 300.3 and 301.2.

Beneficiary Eligibility:

EDA Planning investments provide support to Planning Organizations for the development, implementation, revision, or replacement of a CEDS. They also may provide support for related short-term planning investments and State plans designed to create and retain higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the nation's most economically distressed regions.

Credentials/Documentation:

To be considered for EDA assistance, applicants must first submit a complete EDA application package. The applicant must provide a list of its proposed Strategy Committee members. The Committee must represent the main economic interests of the Region and must include Private Sector Representatives as a majority of its membership. The applicant should ensure that the Strategy Committee includes public officials, community leaders, representatives of workforce development boards, institutions of higher education, minority and labor groups, and private individuals. The Strategy Committee representing Indian Tribes or States may vary. Applicants must also submit documentation of matching fund availability. Finally, non-profit applicants will be asked to provide additional documentation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not required, but EDA offers applicants assistance in developing applications through its network of field-based Economic Development Representatives (EDRs). Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. For information on the application process you may access the applicable federal funding opportunity (FFO) announcement for Planning investment assistance at www.grants.gov and at www.eda.gov. EDA will review each application for Planning investment assistance in accordance with the evaluation criteria, funding priorities, and selection procedures set forth in the applicable FFO.

Staff in the applicable EDA regional office review applications for eligibility and compatibility with EDAs mission and funding priorities. Applications deemed eligible and at least minimally consistent with EDAs mission and funding priorities are referred to an Investment Review Committee, which recommends applications for funding to the Regional Director. In addition to evaluating applications based on EDA's mission, funding priorities, and the evaluation criteria laid out in the applicable FFO, EDA also considers:

- (1) The proposed scope of work for the development, implementation, revision or replacement of the CEDS, or the relation of the CEDS to the proposed short-term planning activities or the State plan;
- (2) The qualifications of the applicant to implement the goals and objectives resulting from the CEDS, short-term planning activities or the State plan;

11.303 ECONOMIC DEVELOPMENT TECHNICAL ASSISTANCE

National Technical Assistance; Local Technical Assistance; University Centers

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Public Works and Economic Development Act of 1965, as amended (PWEDA) (42 U.S.C. 3121 et seq.).

OBJECTIVES:

EDA oversees three technical assistance programs (National, Local and University Center) that promote economic development and alleviate unemployment, underemployment, and out-migration in distressed regions. These programs provide grants or cooperative agreements to: (1) invest in institutions of higher education to establish and operate University Centers to support initiatives that are focused on advancing: regional commercialization efforts; entrepreneurship; and a high-skilled regional workforce. provide technical assistance to public and private sector organizations with the goal of enhancing local economic development; (2) support innovative approaches to stimulate economic development in distressed regions; (3) disseminate information and studies of economic development issues of national significance; and (4) finance feasibility studies and other projects leading to local economic development. These programs aid the long-range economic development of regions with severe unemployment and low per capita income.

TYPES OF ASSISTANCE:

Project Grants (Cooperative Agreements)

USES AND USE RESTRICTIONS:

Technical assistance is used to provide information, data, resources and toolkits which practitioners and policymakers can utilize when evaluating, shaping and implementing specific projects and programs to promote economic development efforts in their respective economically distressed regions. EDA announces opportunities to compete for funding to support University Centers through its annual Federal Funding Opportunity (FFO) on University Centers,

and the intent to support local technical assistance through its annual FFO on planning and local technical assistance. EDA may identify specific training, research or technical assistance projects it will fund under National Technical Assistance, which will be subject to competition. Ordinarily, these projects are specified in a FFO, which will provide the specific requirements, timelines and the appropriate points of contact and addresses. The EDA-supported University Center (UC) sub-program is specifically designed to marshal the resources located within colleges and universities to support job creation and economic growth in regions experiencing economic distress. UCs, which EDA considers long-term partners in economic development, are required to devote the majority of their funding to respond to technical assistance requests originating from organizations located in the economically distressed portions of their service regions. EDA-sponsored University Centers provide strategic technical assistance to regional partners; including, tribal entities, local governments, and public and private sector organizations; conduct economic impact assessments; support cluster development and conduct cluster studies; facilitate regional collaboration; support commercialization and technology transfer efforts; and undertake other activities with the goal of enhancing regional economic development by promoting a favorable business environment to attract private capital investment and higher-skill, higher-wage jobs. EDA University Center competitions are held once every five years in each EDA Region. The project must be consistent with the CEDS of the region in which it is located, if applicable. At least eighty (80) percent of EDA funding under a University Center Economic Development award must be allocated to direct costs of program delivery; unrecovered indirect costs are not chargeable to the award without EDAs express approval. All EDA grants are competitive: EDA does not award formula grants. The Local Technical Assistance (Local TA) sub-program, one of EDAs smallest programs in terms of funding, is an extremely flexible and useful economic development tool. The most common purpose of a Local TA project has been to analyze the feasibility of a potential economic development project, such as an industrial park or a high-technology business incubator, or to support other critical studies necessary for economic development professionals to make informed business decisions, including economic impact assessments. The National Technical Assistance sub-program is designed to provide economic development professionals with access to tools and resources on cutting edge economic development concepts that can inform their decision-making and help support good decision making which will lead to strong, vibrant economic development and regional prosperity. Through this program, EDA provides a wide array of resources, including a cluster mapping tool (<http://clustermapping.us>), a website to identify innovation index of self-selected communities and compare against other geographies (www.statsamerica.org/innovation/), and a resource to help support best practices among venture development organizations (VDOs) (<http://regionalinnovation.org/>). The project must be consistent with the CEDS of the region in which it is located, if applicable. All EDA grants are discretionary. EDA does not award formula grants.

Applicant Eligibility:

Most technical assistance recipients are private or public nonprofit organizations and educational institutions. As defined in 13 C.F.R. 300.3, 'eligible recipients' include a State, city, county, or other political subdivision of a State, including a special purpose unit of a State or local government engaged in economic or infrastructure development activities, or a consortium of such political subdivision, an institution of higher education or a consortium of institutions of higher education, an Economic Development District organization, a private or public nonprofit organization or association, including a faith-based nonprofit organization, acting in cooperation with officials of a political subdivision of a State, or an Indian Tribe, or a consortium of Indian Tribes. Individuals, companies, corporations, and associations organized for profit are not eligible. As used in this paragraph, 'State' includes the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, the Republic of the Marshall Islands, the Federated States of Micronesia, and the Republic of Palau. Program funds cannot be awarded to individuals and for profit organizations.

Beneficiary Eligibility:

Investments are intended to finance projects that would be useful in alleviating or preventing conditions of excessive unemployment or underemployment.

Credentials/Documentation:

To be considered for EDA investment assistance, applicants must first submit a complete EDA application package, as specified by the applicable Federal Funding Opportunity, which generally includes requirements for project narratives, budget narratives, and the resumes of key personnel. Non-profit applicants applying for technical assistance may be asked to provide additional documentation, including documentation of Good Standing in the State in which they operate. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Except for applications that have a national or multi-regional focus, applications are subject to the requirements of E.O. 12372, Intergovernmental Review of Federal Programs and implementing regulations at 13 CFR 302.9.

Award Procedure:

EDA will award investment assistance in accord with the procedures set forth in the applicable announcement of federal funding opportunity (FFO).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

For National Technical Assistance and University Center competitions, the deadlines are set forth in the applicable FFO. For Local Technical Assistance, regional offices accept applications on a rolling basis. Approval or disapproval of an application is generally made within 4 months; in many cases, the timeline for award announcement is set forth in the applicable FFO.

Appeals:

Not Applicable.

Renewals:

Each fiscal year, two EDA regional offices will provide a five-year project period for each University Center selected for funding under the requisite competition, with the initial award being made for the first year of the project period. Funding beyond the initial year is dependent upon the availability of funds and satisfactory performance, as determined by EDA and expressed in written notice. The servicing EDA regional office will contact current University Center operators regarding the procedures for applying for continuation funding. National and Local Technical Assistance projects are typically funded for a single project period without any pre-set expectation of renewal. Renewal of an award to increase funding or extend the period of performance is at EDA's sole discretion.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Generally, the amount of the EDA award may not exceed 50 percent of the total cost of the project. Projects may receive an additional amount that shall not exceed 30 percent, based on the relative needs of the region in which the project will be located, as determined by EDA. See section 204(a) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(1). The Assistant Secretary of Commerce for Economic Development has the discretion to establish a maximum EDA investment rate of up to one-hundred (100) percent where the project (i) merits and is not otherwise feasible without an increase to the EDA investment rate; or (ii) will be of no or only incidental benefit to the recipient. See section 204(c)(3) of PWEDA (42 U.S.C. 3144) and 13 C.F.R. 301.4(b)(4). In-kind contributions, fairly evaluated by EDA, may provide the non-federal share of the total project cost. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the University Center Program funds applications on a five-year

basis with continuation awards made for each of the three years within a project period. The length of the project period for National and Local Technical Assistance projects varies, but is usually for a period of one to two years. Funds are disbursed as required. See the following for information on how assistance is awarded/released: In accordance with the grant terms and conditions.

Reports:

No program reports are required. No cash reports are required. Project progress and financial reports are required, generally on a quarterly basis, as required by the Special Terms and Conditions governing the award. EDA requires the submission of the SF-425 Federal Financial Report. EDA reviews progress and financial reports for compliance with all award terms and conditions, as well as EDA regulations. EDA reserves the right to conduct site visits on an as-needed basis.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The applicant is reminded that EDA or the Department of Commerce's Office of Inspector General also may conduct an audit of an award at any time.

Records:

All financial and programmatic records, supporting documents, statistical reports, and other records of recipients and sub-recipients are required to be maintained by the terms of the agreement.

11.313 TRADE ADJUSTMENT ASSISTANCE FOR FIRMS

Trade Adjustment Assistance for Firms

FEDERAL AGENCY:

Economic Development Administration, Department of Commerce

AUTHORIZATION:

Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), Public Law 114-27.

OBJECTIVES:

The Trade Adjustment Assistance for Firms (TAAF) program helps economically distressed U.S. business in building strategies to increase exports and thereby create jobs. The program provides technical assistance to U.S. businesses that have lost sales and employment due to increased imports of similar goods and services. Technical assistance is provided through a nationwide network of eleven Economic Development Administration (EDA) funded Trade Adjustment Assistance Centers (TAACs).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Under Chapters 3 and 5 of Title II of Trade Act of 1974, as amended (19 U.S.C. 2341 et seq.), a firm may apply to the applicable TAAC supported by the Economic Development Administration (EDA) of the Department of Commerce for certification of eligibility to apply for trade adjustment assistance (TAA) related technical assistance. Interested firms that believe they meet the requirements set forth in 13 CFR part 315 may contact EDA or one of the EDA-funded TAACs. TAACs will assist firms, at no cost, in completing and submitting a petition (Form ED-840P or any successor form) to EDA. Before a firm receives technical assistance under the program, the firm must have an adjustment proposal approved by EDA. Usually the adjustment proposal, which includes an unbiased diagnostic of the firm's strengths, weaknesses, opportunities and threats, is prepared by the TAAC in cooperation with the certified firm. The adjustment proposal also identifies technical assistance tasks, which when implemented, will guide the firm toward economic recovery. The adjustment proposal must also demonstrate that the implementation of the technical assistance tasks has a reasonable chance helping the firm recover. The firm must pay at least 25 percent of the cost of preparing the adjustment proposal. After a firm's adjustment proposal is accepted by EDA, the firm is authorized to apply for technical assistance to implement the recovery strategy. The technical assistance is usually provided by a private consultant, who is jointly hired by the certified firm and the TAAC. The certified firm and the TAAC each typically pay one half of the consultant's fees. Actual provision of TAA will depend on the feasibility of the firm's adjustment proposal, compliance with the requirements of the Trade Act, EDA's regulations and guidelines, and the availability of funds. Organizations representing trade-injured industries are eligible under the Trade Act to apply to EDA for industry-wide assistance.

Applicant Eligibility:

Section 253 of the Trade Act (19 U.S.C. 2343(b)) provides that grants may be awarded to "intermediary organizations (including Trade Adjustment Assistance Centers)" to provide assistance to trade-injured firms. For an industry association or other organizations to be eligible for industry assistance under section 265 of the Trade Act (19 U.S.C. 2355(a)), the applicant must submit evidence demonstrating that the industry faces import competition and includes a substantial number of Trade Act-certified firms or worker groups.

Beneficiary Eligibility:

Only firms certified by EDA on behalf of the Secretary of Commerce are eligible for assistance under the TAAF program. Industries that can demonstrate they have been injured by imports and have a substantial number of Trade Act certified firm or worker groups may also benefit. The principal benefit is cost-shared technical assistance: the TAA program pays up to one-half of the cost of assistance by private-sector consultants and contractors for operational improvements at certified firms.

Credentials/Documentation:

The TAACs act as intermediaries for this program between EDA and the firm. Entities seeking industry-wide assistance must contact EDA staff to discuss their needs, describe the import injury and determine if funding is available for industry-wide projects. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The nationwide network of TAACs apply to EDA each year for funding for the coming fiscal year. Industry associations or other organizations seeking industry assistance must submit adjustment proposals to the applicable TAAC center.

Award Procedure:

Awards to TAACs are made based upon submitted applications, previous performance under cooperative agreements with EDA, and the availability of funds. Acceptance of an application or amended application for a cooperative agreement does not ensure funding by EDA.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

EDA is statutorily required to review petitions for certification of eligibility under the program within 40 days of petition acceptance; and has 60 days to make a final determination on an adjustment proposal.

Appeals:

Not Applicable.

Renewals:

Generally, the cooperative agreement to the TAAC is to provide one year of services to import-impact firms.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Generally, the cooperative agreement to the TAAC is to provide one year of services to import-impact firms. The TAA program is a nationwide federal program designed to help U.S. firms that have experienced business decline and loss of employment due to imports of like or directly competitive products. See the following for information on how assistance is awarded/released: Generally, grants are awarded annually. Grantees receive awards either in advance or monthly reimbursement.

Reports:

Periodic reporting of operating results and progress, financial statements, and summary of funds spent, consistent with EDAs Government Performance

Results Act (GPRA) reporting requirements. No cash reports are required. TAACs are required to submit quarterly and annual reports on their progress. Other ad-hoc reports may be requested. EDA requires the submission a Form SF-425 Federal Financial Report. EDA reserves the right to conduct site visits.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Records are required to be maintained for at least three years. All financial and programmatic records, supporting documents, statistical reports, and other records of recipients or sub-recipients are required to be maintained by the terms of the agreement. The recipient must retain records for at least three years after submission of the final financial report, and have them readily available for inspection and audit.

AUTHORIZATION:

Commerce and Trade, 15 U.S.C 1540; Coastal Zone Management Act of 1972, 16 U.S.C 1456c; Navigation and Navigable Waters, 33 U.S.C 1442.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Funds provided under this program may be used in the following areas: The Office for Coastal Managements (OCM) goal is to build leadership skills and capabilities to meet the changing needs within the coastal community. OCM manages the Regional Ocean Partnerships (ROP) funding program, which is designed to advance effective coastal and ocean management through regional ocean governance, including the goals for national ocean policy and comprehensive ocean planning set out in the presidents Final Recommendations of Interagency Ocean Policy Task Force, July 19, 2010 (the notice of availability of the Final Recommendations is published in the Federal Register at 75 FR 45606, August 3, 2010). The ROP program supports two categories of activities: 1) implementation of a spectrum of regional ocean partnership priorities, with a focus on marine planning activities and 2) support for development and operations for the ROP program.

With respect to regional ocean partnership priorities, the Office for Coastal Management manages the Gulf of Mexico Alliance (Alliance) grant program to engage in cooperative agreements with entities from Gulf of Mexico States to implement Action Blueprint Steps identified in the Gulf of Mexico Alliance Governors Action Plan. These projects contribute to the beneficial public outcomes associated with the five priority issues including water quality for healthy beaches and shellfish beds; wetland and coastal conservation and restoration; environmental education; identification and characterization of Gulf habitats; and nutrient reduction as well as Coastal Community Resiliency, a priority issue elevated by the Alliance since release of the Plan. The Office for Coastal Management Pacific Islands, located in Honolulu, provides competitive grants through the Bay Watershed Education and Training (B-WET) Hawaii program to foster the development of innovative science programs, partnerships and products throughout the State of Hawaii, as well as support environmental education efforts that align with national and state education standards. B-WET Hawaii projects focus on providing meaningful outdoor experiences for students and professional development opportunities for teachers that target understanding earth system sciences, hazards, community resilience, and climate change. The Office for Coastal Management Pacific Islands manages the Coastal Resilience Networks grant program to implement activities that enhance resilience of coastal communities to natural hazard and climate risks through a regional or national network. Coastal Resilience Networks (CRest) proposals must leverage, enhance, or create a system in which one or more coastal hazard issues can be addressed through partnerships to improve coordination and collaboration throughout the region. Partnerships must include multiple institutions, disciplines, and sectors at the local, state, and federal levels.

Extension requests will be considered by the federal program office only if the recipient has submitted all required performance reports. At least sixty days prior to the end of the award, recipients must discuss with their federal program officer expected reprogramming and extensions requests. After preliminary negotiation on proposed projects and extensions, formal written reprogramming and extension requests should be received by the federal program office 45 days prior to the end date of the award. The federal program office will not recommend approval for any retroactive extension request (received after the end date of the award). Recipients should make every effort to submit one extension request for all projects needing an extension (when possible, multiple extension requests should be avoided). With sufficient justification, the federal program office will recommend approval of a six-month extension for the first extension request. First time or cumulative extension requests for more than six months but less than 12 months, will need more compelling justification as to why the project was not completed on time or could not be completed within the first six-month extension. Although the federal program office discourages extensions of more than 12 months, the federal program office will recommend approval in cases where the funds are already obligated. Renewal of an award to increase funding or extend the period of performance is at the total discretion of the Department.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2013: CSCORs harmful algal bloom (HAB) and hypoxia research has been integrating ocean observing system data with modeling capabilities in order to provide research managers with seasonal HAB and hypoxia forecasts in numerous regions in the US including the Gulf of Mexico and the Gulf of Maine. CSCOR also developed forecasts for ecosystem responses to sea level rise and storms, enabling coastal managers the ability to more effectively assess alternative management strategies for mitigating future impacts of sea level rise. CSCORs regional ecosystem research has been identifying threats to the health of ecosystems in the Great Lakes, Mid-Atlantic, the Gulf of Mexico, and shallow and deep water coral environments in the Pacific and Caribbean. The resulting information supported the development of unique tools to improve ecosystem management capabilities and mitigate impacts on coastal ecosystems. Fiscal Year 2014: CSCORs harmful algal bloom (HAB) and hypoxia research is planning to continue integrating ocean observing system data with modeling capabilities in order to provide research managers with seasonal HAB and hypoxia forecasts in numerous regions in the US including the Gulf of Mexico and the Gulf of Maine. At the nine East Coast facilities that are part of the National Estuarine Research Reserve System (NERRS), ocean observing and coastal monitoring assets damaged or lost by Hurricane Sandy were repaired or replaced.

At the Space Science and Engineering Center (SSEC), funds were provided to upgrade to the National Environmental Satellite, Data, and Information Service Supercomputer for Satellite Simulations and Data Assimilation Studies (S4). The center provides data for Numerical Weather Prediction and Seamless Digital Elevation Models for Hurricane Sandy-impacted areas.

Implemented land-falling identification scheme in ensemble predications of hurricanes, finished operational Prototype Unmanned Aerial System missions, and developed and optimized probabilistic and impact-specific output products for inland flooding.

Developed new technology and software tools for airborne lidar and echo sounder mapping for shoreline change, habitat change, and marine debris location and characterization. Fiscal Year 2014: Funds will support activities that enhance the hazards resilience and recovery of coastal communities impacted by Hurricane Sandy. Projects will leverage, enhance, or create human or technical networks in which one or more coastal hazard and recovery issues can be addressed through enhanced communication, cooperation, coordination, and/or collaboration.

Funds will provide enhanced management of and access to Hurricane Sandy Ocean & Coastal Mapping Data.

Funds will be used to deploy underwater gliders along the East Coast to measure cooling and stratification during storms.

Funds will be used to develop an Atmospheric River (web) Portal for extreme Precipitation events, evaluate Observing System Simulation Experiment (OSSE) system in the Atlantic for hurricanes, and complete initial evaluation of National Multi-Model Ensemble for hurricane forecast applications. Fiscal Year 2015: In the Northeast, the computational capability to deliver data streams from buoys to land-based stations will be hardened so that real-time ocean conditions and forecasts will continue to operate during extreme weather events and power failures.

Marine Debris Research, Prevention, and Reduction Act, 33 U.S.C 1951 - 1958, as amended by Marine Debris Act, Public Law 112-213, 126 Stat. 1576.

OBJECTIVES:

To provide grants and cooperative agreements to help identify, determine sources of, assess, reduce, and prevent marine debris and its adverse impacts on the marine environment and navigation safety within the coastal United States and territories. Awards made under this program will remove marine debris from coastal habitats; explore non-regulatory incentives to reduce the quantity and impacts of derelict fishing gear; support regional coordination among marine debris practitioners, states, and tribes; conduct outreach and education activities aimed at preventing marine debris; develop interagency plans to respond to severe marine debris events; assess debris composition, volume, and trajectory in different marine and coastal ecosystems; conduct research and development on marine debris impacts and distribution; and estimate the potential impacts of marine debris on coastal resources, habitats and economies.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Financial assistance can be used to support the implementation of locally-driven marine debris projects that achieve the objectives of the program listed above. These generally include prevention, identification and assessment, research, and removal projects including reducing and preventing fishing gear loss that will benefit coastal habitat, waterways, and NOAA trust resources. Education and outreach projects directed at stakeholders and the general public are also high priorities for this program. Funds must be spent to carry out the purpose of the program and the award in accordance with the Marine Debris Act.

Applicant Eligibility:

Eligible applicants for assistance include 1) state and local governments including public universities and colleges; 2) U.S. territorial agencies and organizations; 3) federally and State-recognized Indian Tribal governments; 4) private universities and colleges; 5) private / commercial for-profit organizations; and 6) nonprofit research and conservation organizations.

Reports:

No program reports are required. No cash reports are required. The terms and conditions of the financial assistance awarded through these grant programs require regular progress reporting and communication of project accomplishments to MDP. Progress reports contain information related to, among other things, the overall short and long-term goals of the project, project methods and monitoring techniques, actual accomplishments (such as tons of debris removed from an ecosystem, numbers of volunteers participating in a cleanup project, etc.), status of approved activities, challenges or potential roadblocks to future progress, and lessons learned. This information collection enables MDP to monitor and evaluate the activities supported by federal funds to ensure accountability to the public and to ensure that funds are used consistent with the purpose for which they were appropriated. It also ensures that reported information is standardized in such a way that allows for it to be meaningfully synthesized across a diverse set of projects and project types. MDP uses the information collected in a variety of ways to communicate with

federal and non-federal partners and stakeholders on individual project and general program accomplishments. The terms and conditions of the financial assistance awarded through these grant programs require regular financial reporting via federal standard form SF-425. Fiscal Year 2014: None. Fiscal Year 2015: None. Fiscal Year 2016: Derelict Crab Trap Removal Program in Barataria, Pontchartrain and Terrebonne Basins - The Louisiana Department of Wildlife and Fisheries proposes a large-scale multifaceted approach to marine debris removal and outreach in 3

basins that are the most heavily fished and also have the greatest need for a derelict trap removal program. The Barataria-Terrebonne Basins are part of the National Estuary Program (BTNEP) and are a high priority area for the NOAA Marine Debris Removal Grant. Innovative techniques for the removed traps will be implemented along with multiple opportunities for community involvement and education/outreach. This project incorporates multiple components into one large-scale year round debris clean-up event. Derelict traps will be identified both by sight and the use side scan sonar. LDWF will sponsor two large-scale Derelict Crab Trap Rodeos co-hosted by and BTNEP and LPBF in their respective basins. The Rodeos will occur during the closure period set forth by the Louisiana Wildlife and Fisheries Commission and will build upon protocols used in previous years. BTNEP and LPBF will assist LDWF in promoting the events and ensuring high levels of volunteer participation. Field staff will document the GPS coordinates, trap type, mesh size, trap condition (fishable/non-fishable), presence of trap tag and identification, as well as the presence or absence of bycatch. The presence or absence of escape rings and turtle excluder devices will also be documented. Traps containing bycatch will be analyzed for species composition and other characteristics. During derelict crab trap cleanups, gear license numbers will be documented from retrieved crab traps so that LDWF can evaluate the best way to deal with repeat offenders.

CRITERIA FOR SELECTING PROPOSALS:

Applications for marine debris removal projects are funded through competitive solicitations for proposals, non-competitive awards, or unsolicited applications for which no competition exists. Proposals are evaluated by at least three individual technical reviewers and scored according to the criteria and weights described in the specific funding opportunity description. These criteria are: Importance and Applicability; Technical/Scientific Merit; Overall Qualifications of Applicants; Project Costs; and Outreach and Education. Reviewer comments, composite project scores, and a rank order of reviewed proposals are presented to the NOAA Marine Debris Program Selecting Official. The Selecting Official, in consultation with NOAA Marine Debris Program staff, will identify the proposals to be recommended to the NOAA Grants Management Division for funding and will determine the amount of funds available for each approved proposal.

ED annually provides data to DoD that it has collected from LEAs to determine whether the LEA is eligible for Federal Impact Aid under section 20 U.S.C. 7703. The data provided by ED includes the average daily attendance (ADA) figures for students who are military dependent students, and military dependent students with disabilities who are in attendance at each LEA, segregated by whether such students reside on or off Federal property.

1. DoD IMPACT AID FOR CHILDREN WITH SEVERE DISABILITIES PROGRAM

a. DoD sends correspondence to each LEA identified by ED as having military dependents with disabilities, inviting them to complete an application for financial assistance for severely disabled military dependents in accordance with the criteria in 20 U.S.C. 7703a. The correspondence includes SD Form 816 and its continuation sheet, SD Form 816C for the appropriate school year, and guidelines for completing those forms in order to apply for financial assistance for severely disabled military dependents.

b. DoD determines which LEAs are eligible for funds and makes payments to eligible LEAs (based on the information the LEAs submit) and certifies on

forms SD 816 and 816C. An LEA is eligible for assistance if:

- (1) It has two or more military dependent children with severe disabilities, as defined in this regulation, and
- (2) the Secretary of Defense and the Secretary of Education or their respective designees have determined that the eligible LEA will be unable, without this assistance, to provide the students in the schools of the LEA with a level of education that is equivalent to the minimum level of education available in the schools of the other LEAs in the same state.

c. If the amount available for a fiscal year is insufficient to pay the full amount that each LEAs is eligible to receive, DoD shall reduce the amount paid to each LEA by an equal percentage.

d. No LEA may receive more than \$1,000,000.00 in assistance under this subsection for any fiscal year.

2. DoD SUPPLEMENTAL IMPACT AID PROGRAM

a. Under 20 U.S.C. 7703b, DoD identifies an LEA as eligible for the DoD Supplemental Impact Aid Program during a fiscal year if at least 20 percent (as rounded to the nearest whole percent) of the ADA in that LEA qualified for Impact Aid under 20 U.S.C. 7703 during the previous school year.

b. In determining the amount of assistance available to an LEA, DoD employs a formula that weights the value an LEA may receive for its military dependent students described by 20 U.S.C. 7703(a)(1)(B) and (D) based on whether they reside on or off Federal property.

(1) Multiply the number of military dependent children who resided on Federal property by 1.0

(2) Multiply the number of military dependent children who resided on Federal property by 0.35 if the LEA has in excess of 5,000 such children, or an ADA for all children that exceeds 100,000;

(3) Multiply the number of military dependent children who do no reside on Federal property by .20.

c. No LEA may receive more than \$1,000,000.00 in assistance under this subsection for any fiscal year.

d. Eligible LEAs will be notified of the amount of assistance they are eligible to receive, and asked to submit a Standard Form 3881, ACH Vendor/Miscellaneous Payment Enrollment Form in order to receive payment.

e. DoD then distributes to each eligible LEA the funds described in b. above.

3. DoD IMPACT AID PROGRAM FOR LARGE SCALE REBASING*

a. In accordance with 20 U.S.C. 7703b(b), DoD identifies an LEA as eligible for the DoD Impact Aid Program for Large Scale Rebasing during a fiscal year if:

(1) The LEA is eligible for assistance under subsection 3 of this regulation for the same fiscal year or would have been eligible for such assistance if not for the reduction in military dependent students in schools of the LEA.

(2) During the period between the end of the school year preceding the fiscal year for which the assistance is authorized and the beginning of the school year immediately preceding that school year, the LEA has an overall increase or reduction of:

(a) not less than five percent in the ADA of military dependent students in the schools of the LEA, or

(b) not less than 250 military dependent students in ADA in the schools of the local education agency.

(3) The overall increase or reduction in military dependent students in schools of the LEA is the result of one or more of the following:

(a) The global rebasing plan of the DoD.

(b) The official creation or activation of one or more new military units.

(c) The realignment of forces as a result of the base closure process.

(d) A change in the number of housing units on a military installation.

b. Eligible LEAs will be notified of the amount of assistance they are eligible to receive.

c. DoD distributes funds for the DoD Impact Aid Program for Large Scale

Rebasing pursuant to 20 U.S.C. 7703b, equal to the product obtained by multiplying the per-student rate for a fiscal year by the net of the overall increases and reductions in the number of military dependent students of an LEA.

d. 12.610 COMMUNITY ECONOMIC ADJUSTMENT ASSISTANCE FOR COMPATIBLE USE AND JOINT LAND USE STUDIES

FEDERAL AGENCY:

Office of Economic Adjustment, Department of Defense

AUTHORIZATION:

10 U.S.C. 2391.

OBJECTIVES:

Assist State and local governments to mitigate or prevent incompatible civilian land use/activity that is likely to impair the continued operational utility of a Department of Defense (DoD) military installation. Grantees and participating governments are expected to adopt and implement the study recommendations.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Respond to encroachment of the civilian community that is likely to impair the continued operational utility of the military installation through a Compatible Use or Joint Land Use Study. The State and/or local government partners with the military installation to plan and carry out strategies promoting compatible civilian development adjacent to installations, ranges, and military flight corridors. The study includes a strategic plan with specific implementation actions to ensure civilian growth and development are compatible with vital training, testing, and other military missions.

Applicant Eligibility:

Applicants for this assistance are to contact the Office of Economic Adjustment and a Project Manager will be assigned to work with the applicant to determine eligibility for assistance under this program. States, counties, municipalities, other political subdivisions of a State, and special purpose units of a State or local government are eligible for this assistance if the Director, Office of Economic Adjustment determines that the encroachment of the civilian community is likely to impair the continued operational utility of the military installation.

Beneficiary Eligibility:

States and communities, including local property owners, as well as the local military installation.

Credentials/Documentation:

Applicants will be required to provide documentation consistent with the authority under which the assistance is being sought. Applicants must document their intent to work with the Military Department, Federal, State, and local officials, residents, businesses, and landowners to cooperatively participate in the development and implementation of a strategic plan and specific implementation measures to ensure civilian growth and development are compatible with the continued operational utility of the military installation. Applicants also must show evidence that the proposed planning process and

implementation measures will prevent further encroachment on the military installation. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

When in receipt of a Military Department nomination, the Office of Economic Adjustment Director will notify the Installation Commander that an Office of Economic Adjustment Project Manager will schedule a visit to provide a program overview and confirm the Installation Commanders support to engage the affected local governments and/or State in a Joint Land Use Study. The Project Manager also will validate encroachment of the civilian community that is likely to impair the continued operational utility of the military installation. After confirming installation support for the Joint Land Use Study and validating civilian encroachment, the Project Manager then will proceed to engage the affected local governments and/or State to confirm their interest and support to undertake the study and carry out the study recommendations. Once support from the Installation Commander and affected local governments and/or State is confirmed, the Project Manager will work with the local governments and/or State to craft an effective and responsive program of assistance to ensure civilian growth and development are compatible with the continued operational utility of the military installation.

The Office of Economic Adjustment also may provide community planning assistance to help prevent the siting of energy projects from adversely affecting Department of Defense test, training, and military operations. The Office of Economic Adjustment will consider on a continuing basis, subject to available appropriations, proposals for grant assistance to support communities, regions, and states to assist in the siting of energy project investments so they do not impair the continued operational utility of a Department of Defense installation. Commercial development of energy projects may affect unique military activities and readiness, especially when located near installations, ranges, or on lands beneath designated military training routes or special use airspace. State and local governments can support effective collaboration, early engagement and dialog between the Department of Defense and energy developers to ensure proposed energy projects may proceed without compromising the military missions. A proposal must respond to the need to ensure proposed energy projects may proceed without compromising Department of Defense test, training, and military operations, to include radar interference from wind turbines; low-level flight obstructions associated with tall structures such as solar power towers and wind turbine projects; electromagnetic interference from high voltage electrical transmission lines; and glint and glare impacts to flight operations associated with solar photovoltaic arrays or power tower projects near military airfields. 14.218 COMMUNITY DEVELOPMENT BLOCK GRANTS/ENTITLEMENT GRANTS

Community Development Block Grant program for Entitlement Communities.

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Part 24, Section 570, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5321.

OBJECTIVES:

To develop viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low and moderate income.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipient communities may undertake a wide range of community-based activities directed toward neighborhood revitalization, economic development, and community services, facilities, and improvements. Entitlement communities develop their programs and set their funding priorities in conformance with the statutory standards, program regulations, and other federal requirements. Specific activities that can be carried out with Community Development Block Grant (CDBG) funds include acquisition of real property; relocation; clearance and demolition; rehabilitation of residential and nonresidential structures; provision of public facilities and improvements, such as water and sewer facilities (which require reviews by the State single point of contact or a Regional Planning Agency in accordance with Executive Order 12372), streets, and neighborhood centers. Within program limitations, CDBG funds can also pay for public services. Recipients may provide assistance to microenterprises or other for-profit entities when the recipient determines that such assistance is appropriate to carry out an economic development project. Community-based development organizations may carry out neighborhood revitalization, community economic development, or energy conservation activities. Each CDBG eligible activity must meet one of three national objectives: benefit low- and moderate-income persons, aid in the prevention or elimination of slums or blight, or meet other community development needs having a particular urgency that the grantee is unable to finance on its own. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or the statute.

Applicant Eligibility:

Recipients are states; cities in Metropolitan Areas designated by OMB as a central city of the Metropolitan Area; other cities over 50,000 in Metropolitan Areas; and qualified urban counties of at least 200,000 (excluding the population in entitlement cities located within the boundaries of such counties) are eligible to receive CDBG entitlement grants determined by a statutory formula.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD). The recipient must certify that at least 70 percent of the grant funds received during a 1, 2, or 3-year period, that it designates, are expended for activities that will principally

benefit low- and moderate-income persons.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Executive Order 12372 is applicable only where a recipient proposes to use funds for the planning or construction (reconstruction or installation) of water or sewer facilities. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a 5-year Consolidated Plan, an annual action plan, SF Form 424, and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD Community development programs, including CDBG. The annual action plan must include the local community development objectives and show the proposed use of the funds. If the grantee makes a complete submission within the established deadlines, the Department will make a grant award unless a determination is made by HUD that the grantee's performance is unsatisfactory. HUD will approve the submission generally within 45 days of receipt of the annual action plan and required certifications unless a determination has been made that the grantee has failed to carry out its CDBG program in a timely manner or has failed to conform to the requirements of the statute or other applicable laws. Under such circumstances, HUD may take appropriate actions, including a reduction in the amount of the original formula-allocated grant.

Award Procedure:

None.

Deadlines:

Nov 15, 2015 to Aug 15, 2016: See below. For formula grants, action plans associated with the Consolidated Plan must be submitted based on the grantee's program year, but no earlier than November 15 or no later than August 15 of the fiscal year for which the funds are allocated.

Range of Approval/Disapproval Time:

From 60 to 90 days. Generally within 45 days.

Appeals:

Formula and Matching Requirements:

Statutory Formula: Title 24, Part 570.

14.228 COMMUNITY DEVELOPMENT BLOCK GRANTS/STATE'S PROGRAM AND NON-ENTITLEMENT GRANTS IN HAWAII

State CDBG

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Housing and Community Development Act of 1974, Title I, Section 101-122, Public Law 93-383, 88 Stat. 633, 42 U.S.C 5301-5322.

OBJECTIVES:

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and

expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Thirty percent of funds available for distribution under each annual appropriation for the Community Development Block Grant (CDBG) program is allocated among the States and Puerto Rico (which is considered to be a state for the State CDBG program) for use in areas which are not a metropolitan city or part of an urban county (nonentitlement areas). All States except Hawaii have elected to administer these CDBG funds for areas that do not receive CDBG entitlement grants (14.218). HUD awards the formula grants to these States under the CDBG/State Program. In Hawaii, HUD awards the state's share of these funds to the three non-entitlement counties by formula. States must distribute CDBG funds to units of general local government (counties, towns, etc.) in nonentitlement areas. States develop their own programs and funding priorities. Units of general local government then carry out community development activities funded by the State. Eligible activities are directed toward neighborhood revitalization, economic development, or provision of improved community facilities and services. Specific activities that can be carried out with block grant funds include: Acquisition, rehabilitation or construction of certain public works facilities and improvements, such as streets, water and sewer facilities, neighborhood centers, recreation facilities, and other public works; demolition and clearance; rehabilitation of public and private buildings including housing; code enforcement; relocation payments and assistance; economic development; planning activities; certain public services with some restrictions; and administrative expenses. The projected use of funds must be developed to ensure that all activities will meet one of the three national objectives described under "OBJECTIVES". Communities receiving CDBG funds from a state may select subgrantees to carry out approved projects. Such subgrantees may include: Neighborhood-based nonprofit organizations; local development corporations; Small Business Investment Companies; or other nonprofit organizations serving the development needs of nonentitlement areas. Grant recipients may provide assistance to for-profit entities when the recipient determines that the provision of such assistance is appropriate to carry out an economic development project. Communities are restricted from constructing or rehabilitating public facilities for the general conduct of government and from making housing allowances or other income maintenance-type payments. Each State may use a limited portion of its grant, subject to a matching requirement, to administer the program. Each State may also use a limited portion of its grant, with no matching requirement, to provide technical assistance to local governments and nonprofit program recipients. At least seventy percent of the funds received must benefit low and moderate income persons.

Applicant Eligibility:

Forty-nine State governments and the Commonwealth of Puerto Rico receive funds from HUD under this program. The state of Hawaii does not participate and HUD allocates the state's share of funds to the three Hawaii non-entitled counties. Funds are allocated to each state based on a statutory formula. States must distribute the funds to units of general local government in nonentitlement areas.

Beneficiary Eligibility:

The principal beneficiaries of CDBG funds are low- and moderate- income persons. For non-metropolitan areas, low- and moderate- income is generally defined as 80 percent of the median income for non-metropolitan areas of the State or of the county, whichever is higher, adjusted for family size. For eligible localities in metropolitan areas, low- and moderate-income is generally defined as 80 percent of the median income for the metropolitan area, adjusted for family size.

Credentials/Documentation:

Grantees must certify that they will comply with program requirements

specified in 24 CFR Part 91. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. 2 CFR Part 215 applies as implemented at 24 CFR Part 84 for the non-entitled grants in Hawaii and 24 CFR Part 85 also applies to this program. The State program is excluded from coverage under 24 CFR 85, however, the provisions set-forth in the fiscal requirements contained in 24 CFR 570.489 does apply some of the elements of 2 CFR 215. Each state and non-entitled Hawaii county must submit a Consolidated Plan, an annual action plan and certifications to HUD. The Consolidated Plan and annual action plan cover four major formula-distribution HUD community development programs, including CDBG. The annual action plan must contain the method by which the State will distribute its CDBG funds.

Award Procedure:

HUD will provide funds after the State or non-entitled Hawaii county submits its Consolidated Plan, annual action plan and Certifications.

Deadlines:

Nov 15, 2014 to Aug 16, 2015 Consolidated Plans may be submitted between November 15 and August 16 of each fiscal year in which the grantee will administer funds.

Range of Approval/Disapproval Time:

HUD will review plan submissions for completeness and consistency with the purposes of the Act, within 45 days of receipt from a grantee.

Appeals:

The procedure is described in regulations (24 CFR Part 570 Subpart I for states and 24 CFR Part 570 Subpart O for non-entitlement counties in Hawaii).

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter V, Part 570, Subpart A, Public Law 93-383.

Matching Requirements: For state administration of the program, after an initial allowance of \$100,000 with no match, states may take an additional allowance of up to 3% of the grant amount but must match such expenditures on a dollar for dollar basis. There is no matching requirement for the non-entitlement counties in Hawaii.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Assistance is provided to States and non-entitlement counties in Hawaii on an annual basis. Individual States may impose time limitations on the implementation of grants to recipients. Method of awarding/releasing assistance: by letter of credit.

Reports:

Annual performance report covering all programs included in the Consolidated Plan as prescribed at 24 CFR 91.520. For Hawaii counties, SF-425 Federal Cash Transactions Report is required. Annual Performance and Evaluation Report details the state's performance in completing activities undertaken with each allocation of funds. Disbursement reports are a standard feature of the Integrated Disbursement and Information System used to access the grantee's line of credit. Program performance monitoring is conducted by field office staff.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that

year, except as noted in 2 CFR 200.503.

OBJECTIVES:

The ESG program provides funding to: (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families and individuals from becoming homeless.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

ESG funds may be used for five program components: street outreach, emergency shelter, homelessness prevention, rapid re-housing assistance, and HMIS; as well as administrative activities (up to 7.5% of a recipient's allocation can be used for administrative activities). For specific uses and use

restrictions, see 24 CFR part 576, subpart B.

Applicant Eligibility:

Eligible recipients generally consist of metropolitan cities, urban counties, territories, and states, as defined in 24 CFR 576.2. Metropolitan cities, urban counties and territories may subgrant ESG funds to private nonprofit organizations. States must subgrant all of their ESG funds (except for funds for administrative costs and, under certain conditions, HMIS costs) to units of general purpose local government and/or private nonprofit organizations. Each recipient must consult with the Continuum(s) of Care operating within the jurisdiction in determining how to allocate ESG funds.

Beneficiary Eligibility:

The minimum eligibility criteria for ESG beneficiaries are as follows: For essential services related to street outreach, beneficiaries must meet the criteria under paragraph (1)(i) of the homeless definition under 576.2. For emergency shelter, beneficiaries must meet the homeless definition in 24 CFR 576.2. For essential services related to emergency shelter, beneficiaries must be homeless and staying in an emergency shelter (which could include a day shelter). For homelessness prevention assistance, beneficiaries must meet the requirements described in 24 CFR 576.103. For rapid re-housing assistance, beneficiaries must meet requirements described in 24 CFR 576.104. Further eligibility criteria may be established at the local level in accordance with 24 CFR 576.400(e).

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. Government recipients and subrecipients must comply with OMB Circular No. A-87. Subrecipients that are private nonprofit organizations must comply with OMB Circular No. A-122. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. In addition to meeting the application submission requirements in 24 CFR part 5, subpart K, each State, urban county, or metropolitan city must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements in 24 CFR part 91, and each territory must submit a consolidated plan, an annual action plan, and certifications to HUD, in accordance with the requirements that apply to local governments under 24 CFR part 91. The consolidated plan and annual action plan cover four major HUD formula programs, including ESG. The annual action plan must describe how the funds will be used. The uniform administrative requirements at 24 CFR parts 84 and 85 apply as specified in 24 CFR 576.407(c).

Award Procedure:

The HUD field office reviews the grantee's Consolidated Plan and, upon plan approval, notifies the applicant of the award and prepares the grant agreement.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Each jurisdiction should submit its consolidated plan to HUD at least 45 days before the start of its program year. In no event will HUD accept a submission earlier than November 15 or later than August 16 of the federal fiscal year for which the grant funds are appropriated.

The plan will be deemed approved 45 days after HUD receives the plan, unless before that date HUD has notified the jurisdiction that the plan is disapproved. If the plan is disapproved, the jurisdiction may revise or resubmit a plan within 45 days after the first notification of disapproval. HUD must respond to approve or disapprove the plan within 30 days of receiving the revisions or resubmission.

Appeals:

Formula allocations may not be appealed. Disapproved plans may be resubmitted in accordance with 24 CFR 91.500.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: The formula for this program is part statutory and part regulatory (see section 414 of the McKinney-Vento Homeless Assistance Act and 24 CFR 576.3). HUD will set aside for allocation to the territories up to 0.2 percent, but not less than 0.1 percent, of the total amount of each appropriation in any fiscal year. The remainder will be allocated to States, metropolitan cities, and urban counties. The percentage allocated to each State, metropolitan city, and urban county will be equal to the percentage of the total amount available under section 106 of the Housing and Community Development Act of 1974 for the prior fiscal year that was allocated to the State, metropolitan city or urban county. If an allocation to a metropolitan city or urban county would be less than 0.05 percent of the total fiscal year appropriation for ESG, the amount is added to the allocation of the State in which the city or county is located. If the recipient or subrecipient is a unit of general purpose local government, its ESG funds cannot be used to replace funds the local government provided for street outreach and emergency shelter services during the immediately preceding 12-month period, unless HUD determines that the unit of general purpose local government is in a severe financial deficit in accordance with 24 CFR 576.101(c).

Matching Requirements: Metropolitan city and urban county recipients must match grant funds with an equal amount of funds from cash or the following in-kind sources: services contributed by volunteers, the donation of materials and buildings, or the value of any lease on a building. States must match all but \$100,000 of their awards, but must pass on the benefit of that \$100,000 exception to their sub-recipients that are least capable of providing matching amounts. Territories are exempt from the match requirement. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Metropolitan cities, urban counties and territories must obligate all funds, except for the amount for administrative costs, within 180 days after HUD signs the grant agreement. States must obligate all funds, except the amount for administrative costs, to subrecipients within 60 days after the date that HUD signs the grant agreement. Each subrecipient that is a unit of general purpose local government must obligate its grant funds within 120 days after the date the State obligates its funds. All grant funds must be expended within 24 months after HUD signs the grant agreement with the recipient. Method of awarding/releasing assistance: by letter of credit.

Reports:

Each recipient must report its program accomplishments for each program year in the Consolidated Annual Performance and Evaluation Report (CAPER). Each recipient's efficient expenditure of grant funds is evaluated through information provided in the program management's information system, known as the Integrated Disbursement and Information System (IDIS). Each recipient must also comply with the reporting requirements under the Federal Funding Accountability and Transparency Act of 2006, (31 U.S.C. 6101 note), which are set forth in appendix A to 2 CFR part 170. Monitoring is "risk-assessment based" with high-risked grantees receiving priority status for monitoring and review. The performance report shall be submitted to HUD within 90 days after the close of the jurisdiction's program year. Recipients draw down ESG funds from the Integrated Disbursement and Information System (IDIS). This is HUD's primary method of capturing financial and expenditure data from the recipients. Progress reports are not applicable. Through the CAPER and IDIS draw down information, recipients provide reports on expenditures. In accordance with 24 CFR Part 85, recipients are required to monitor their subrecipients for compliance with the ESG requirements.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503.

Records:

Sufficient records must be established and maintained to enable the recipient and HUD to determine whether ESG requirements are being met. All records pertaining to each fiscal year of ESG funds must be retained for the greater of 5 years or the period specified under 24 CFR 576.500(y).

Each jurisdiction must make matching contributions for affordable housing throughout a fiscal year in an amount not less than 25 percent of the HOME funds drawn from the U.S. Treasury during the federal fiscal year for

HOPWA offers two types of awards:

(1) Formula entitlement grants: Eligible states and qualifying cities, as defined in 24 CFR 574.3, qualifying for formula allocation under HOPWA.

(2) Competitive grants: (a) States, units of local governments and nonprofit organizations for special projects of national significance; (b) States and units of local government that do not qualify for HOPWA formula allocations under the category of long-term grants; and (c) Nonprofit organizations are eligible to apply for projects of national significance as a grantee, but may also serve as a project sponsor under any competitive or formula grantees.

Additional applicant eligibility may apply depending on the competitive grant opportunity. As required by the Appropriations Acts, HUD gives priority to the renewal of expiring permanent supportive housing projects. When funding is available for new competitive grants, such as the VAWA/HOPWA Project Demonstration NOFA (FR-5900-N-11), there may be additional requirements for applicant eligibility.

Beneficiary Eligibility:

Eligible beneficiaries are low income (at or below 80% the area median income) persons living with HIV/AIDS and their families.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

(1) Formula entitlement grants: All HOPWA formula grantees must submit a Consolidated Plan and an Annual Action Plan that includes a comprehensive AIDS housing strategy that identifies and outlines how a community has identified local housing needs and how these federal resources will be targeted to address these local priorities. The Consolidated Plan and Annual Action Plan requirements are applicable for each of HUD's Community Planning and Development program, including HOPWA.

(2) Competitive grants:

a. Expiring permanent supportive housing renewal grants are published through a HUD Notice that is issued annually (HUD's Appropriations Acts authorizes the Secretary to renew all expiring contracts for permanent supportive housing that were funded under section 854(c)(3) of AIDS Housing Act that meet all program requirements before awarding funds for new competitive grant applications).

b. Funding announcements for new HOPWA competitive grants are published on grants.gov. Applications may be submitted electronically when new competitive HOPWA funding opportunities become available. The most recent competitive announcement was the VAWA/HOPWA Project Demonstration NOFA (FR-5900-N-11) published August 24, 2015. The HUD General Section and published NOFA detail submission requirements.

Award Procedure:

(1) Formula entitlement grants: The HUD field office reviews the grantee's Consolidated Plan and Annual Action Plan and, upon plan approval, notifies the applicant of the award and prepares the grant agreement. (2) Competitive grants: Based upon the requirements published in the Renewal Notice or NOFA, respondents are notified of acceptance or rejection.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

(1) Formula entitlement grants: Each jurisdiction should submit its consolidated plan to HUD at least 45 days before the start of its program year. In no event will HUD accept a submission earlier than November 15 or later than August 16 of the federal fiscal year for which the grant funds are appropriated. The plan will be deemed approved 45 days after HUD receives the plan, unless before that date HUD has notified the jurisdiction that the plan is disapproved. If the plan is disapproved, the jurisdiction may revise or resubmit a plan within 45 days after the first notification of disapproval. HUD must respond to approve or disapprove the plan within 30 days of receiving the revisions or resubmission. (2) Competitive Grants: Depending on the published Renewal Notice or NOFA, from 30 to 120 days.

Appeals:

Not Applicable.

Renewals:

HUD issues an annual Notice that solicits applications for expiring permanent supportive housing renewal grant applications. Application deadlines vary during the fiscal year.

Formula and Matching Requirements:

Statutory Formula: Chapter 24, Part 574.

This program has no matching requirements.

This program does not have MOE requirements.

Length and Time Phasing of Assistance:

Grant funds should be expended in a timely manner or may be subject to deobligation. Grant funding should be expended within a three-year period from the date of the executed grant agreement. Program requirements provide competitive grants with the allowance of a one year extension, if approved by HUD. Method of awarding/releasing assistance: lump sum.

Reports:

HOPWA formula and competitive grantees are required to submit annual performance reports. Formula grantees are required to submit a Consolidated Plan and an Annual Action Plan that outlines how HOPWA program resources are to be targeted to address the housing needs of individuals and their families living with HIV/AIDS. The Consolidated Annual Performance and Evaluation Report (CAPER) is required of formula grantees and provides annual performance reporting on households served that enables an assessment of grantee performance in promoting the housing stability of program beneficiaries. The CAPER, in conjunction with the Integrated Disbursement Information System (IDIS), fulfills statutory and regulatory program reporting requirements. No cash reports are required. The Annual Progress Report (APR) is required of competitive grantees and provides more detailed annual reporting on households served that enables an assessment of grantee performance in promoting the housing stability of program beneficiaries. In FY2015, all competitive grantees will use IDIS for financial transactions and reporting program activities. Competitive grantees will continue dual reporting in both IDIS for financial transactions, and submit a paper based APR. Expenditure reports are not applicable. HUD field offices conduct annual risk assessments of all program grantees to identify and target program compliance monitoring to be conducted during the federal fiscal year.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. 14.269 HURRICANE SANDY COMMUNITY DEVELOPMENT BLOCK GRANT DISASTER RECOVERY GRANTS (CDBG-DR)

Community Development Block Grant Disaster Recovery program for Hurricane Sandy and other qualifying disasters occurring in 2011, 2012 and 2013

FEDERAL AGENCY:

Office of Community Planning and Development, Department of Housing and Urban Development

AUTHORIZATION:

Disaster Relief Appropriations Act, 2013 Public Law 113-2, Public Law 113-2.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. CDBG DR program funds appropriated by P.L. 113-2 are for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declaration due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Recipients may undertake a wide range of activities directed toward addressing unmet needs of disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by other sources of funds, such as those made available by the Federal Emergency Management Agency, the Army Corps of Engineers, or private insurance. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG Disaster Recovery funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made

available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. At least 50 percent of each grantee's CDBG-DR grant award must be used for activities that benefit low- and moderate-income (LMI) persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. Grantees must meet the 50 percent LMI expenditure requirement unless a waiver has been requested by the grantee and approved by HUD.

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 225, Cost Principles for State, Local, and Indian Tribal Governments (previously OMB Circular A-87) applies to this program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. An environmental impact assessment is required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit an Action Plan for Disaster Recovery, SF Form 424, and certifications to HUD. In the Action Plan for Disaster Recovery, grantees must describe uses and activities that are authorized under Title I of the Housing and Community Development Act of 1974 (42 U.S.C. 5301 et seq.) (HCD Act) or allowed by a waiver or alternative requirement published in the federal register notice covering the grant funds and also respond to a disaster-related impact. HUD reviews grantee Action Plans within 45 days of receipt and approves the Plan according to criteria identified in the federal register notice covering the grant funds.

Award Procedure:

P.L. 113-2 provides that funds shall be awarded directly to a State or unit of general local government (UGLG) at the discretion of the Secretary. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, the Department computed direct allocations to eligible grantees totaling \$14,181,892,000 based on the best available data that cover all the eligible affected areas. States and local governments receiving a CDBG DR allocation may carry out programs and/or activities directly or through subrecipients, including local governments, governmental agencies, and non-profit entities. The remaining \$999,108,000 appropriated under P.L. 113-2 will be awarded to eligible grantees based on a competition. These funds will be allocated under a separate CFDA number (14.272).

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

After a grantee receives an allocation under a published Federal Register notice, it must submit an initial Action Plan for Disaster Recovery within a time frame specified in the specific applicable Federal Register Notice.

Appeals:

Administrative appeals process followed if grant funds are withheld or reduced, or repayment proposed for non-compliance or non-performance.

Renewals:

Not Applicable.

Formula and Matching Requirements:

Statutory Formula: Title 24, Chapter 570. To comply with statutory direction that funds be used for disaster-related expenses in the most impacted and distressed areas, HUD computed allocations based on the best available data that cover all the eligible affected areas. P.L. 113-2 specifies that the CDBG DR funds be used for necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster and further specifies that the funds are not to be used for activities reimbursable by other available forces of funds such as FEMA, the Corps of Engineers, or private insurance.

For this allocation, similar to prior CDBG DR allocations, the Department makes a determination of unmet needs by estimating unmet needs related to the main intended uses of the funds, including restoration of housing, economic revitalization, and restoration of infrastructure. These estimated needs are then summed together and an allocation is made among the grantee universe based on their proportional share of unmet needs.

This program has no matching requirements. This program has no matching requirements.

This program does not have MOE requirements. This program does not have MOE requirements.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUDs signing of the grantees CDBG DR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. Method of awarding/releasing assistance: by letter of credit.

Reports:

HUD requires grantees to enter information in HUDs Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Departments review of grantee performance. No cash reports are required. Each grantee must submit a Quarterly Performance Report (QPR) through the DRGR system not later than 30 days following the end of each calendar quarter. Quarterly reports include information on obligations, expenditures, drawdowns, and accomplishments for all grantee activities. HUD reviews these quarterly reports to assess grantee compliance and performance. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system includes information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all headquarter-held grants under this appropriation, HUD conducts at least two on-site monitoring reviews each year.

The Office of Community Planning and Developments CPD Notice CPD-12-02, Implementing risk Analysis for Monitoring Community Planning and Development Grant Programs describes the Departments risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUDs Community Planning and Development (CPD) Grantee Monitoring Handbook.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. CDBG DR grantees shall make reviews and audits, including onsite reviews of any subrecipients, designated public agencies, and UGLGs, as may be necessary or appropriate to meet the requirements of 42 U.S.C. 5304(e)(2), as amended, and

as modified by the federal notice covering grant funds. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBG DR award.

Records:

Grantees must maintain records with regard to eligibility, national objectives, financial management, citizen participation, relocation, other resources, acquisition, housing assistance to dwelling units and households, equal opportunity, environmental impact, labor standards and other requirements set forth in the program regulations. Records shall be retained for a period of three years from closeout of the grant, except as otherwise prescribed in the regulations.

OBJECTIVES:

The overall CDBG program objective is to develop viable urban communities, by providing decent housing and a suitable living environment, and by expanding economic opportunities, principally for persons of low and moderate income. The National Resilient Disaster Competition program funds appropriated by P.L. 113-2 are available for resilient recovery projects and necessary expenses related to disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization in the most impacted and distressed areas resulting from a major disaster declared pursuant to the due to Hurricane Sandy and other eligible events in calendar years 2011, 2012, and 2013.

TYPES OF ASSISTANCE:

Project Grants (Discretionary)

USES AND USE RESTRICTIONS:

The competition will support innovative resilience projects at the local level while encouraging communities to adopt policy changes and activities that plan for the impacts of extreme weather and rebuild affected areas to be better prepared for the future. It will allow them to engage local stakeholders, nongovernmental organizations and the philanthropic sector to protect their own communities from the impacts of climate change by enhancing resilient infrastructure, building on sound science, and deploying innovative approaches to investments. These funds will enable eligible communities to access resources that help both recover from the previous disaster and make plans, decisions, and investments that make them more resilient to the next disaster. Recipients may undertake a wide range of activities directed toward disaster relief, long-term recovery, restoration of infrastructure and housing, and economic revitalization. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers. Grantees must conduct an assessment of community impacts and unmet needs to guide the development and prioritization of planned recovery activities and develop their own programs and funding priorities as long as programs/activities conform to the statutory standards and program regulations. Some of the specific activities that can be carried out with Community Development Block Grant Disaster recovery (CDBG DR) funds include buying damaged properties in a flood plain and relocating residents to safer areas; relocation payments for people and businesses displaced by the disaster; debris removal not covered by FEMA; rehabilitation of homes and buildings damaged by the disaster; buying, constructing, or rehabilitating public facilities such as streets, neighborhood centers, and water, sewer and drainage systems; code enforcement; homeownership activities such as down payment assistance, interest rate subsidies and loan guarantees for disaster victims; public services (generally limited to no more than 15 percent of the grant); helping businesses retain or create jobs in disaster impacted areas; and planning and administration costs (limited to no more than 20 percent of the grant). Eligible activities must meet at least one of three program national objectives: benefit persons of low and moderate income, aid in the prevention or elimination of slums or blight, or meet other urgent community development needs because existing conditions pose a serious and immediate threat to the health and welfare of the community where other financial resources are not available. CDBG Disaster Recovery grants primarily benefit low-income residents in and around communities that have experienced a natural disaster. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low-and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need." Recipients may contract with other local agencies or nonprofit organizations to carry out components of their programs. Recipients may only carry out eligible activities as listed in 24 CFR 570.201-207 or for which a waiver or alternative requirement has been granted by the Secretary, based upon a determination that good cause exists and that the waiver or alternative requirement is not inconsistent with the overall purposes of Title I of the HCD Act.

Applicant Eligibility:

CDBG DR competitive funds are made available to States and units of general local governments designated by the President of the United States as disaster areas. These communities must have significant unmet recovery needs and the capacity to carry out a disaster recovery program (usually these are governments that already receive HOME or Community Development Block Grant allocations). Grantees may use CDBG Disaster Recovery funds for recovery efforts involving housing, economic development, infrastructure and prevention of further damage to affected areas. However, CDBG DR funds may not be used for activities reimbursable by or for which funds are made available by the Federal Emergency Management Agency or the Army Corps of Engineers.

Beneficiary Eligibility:

The principal beneficiaries of CDBG DR funds are low- and moderate-income persons (generally defined as a member of a family having an income equal to or less than the Section 8 low income limit established by HUD) in communities that have experienced a disaster event. Generally, grantees must use at least half of Disaster Recovery funds for activities that principally benefit low- and moderate-income persons. These can be either activities in which all or the majority of people who benefit have low or moderate incomes or activities that benefit an area or service group in which at least 51 percent of the populous are of low- and moderate-income. HUD can only waive this requirement on a showing of compelling need."

Credentials/Documentation:

Recipients must certify they will meet program requirements and applicable federal requirements. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

As a condition of making any grant under this appropriation, the Secretary is required to certify in advance that grantees have in place proficient financial controls and procurement processes and have established adequate procedures to prevent any duplication of benefits as defined by section 312 of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5155), to ensure timely expenditure of funds, to maintain comprehensive websites regarding all disaster recovery activities assisted with these funds, and to detect and prevent waste, fraud, and abuse of funds. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Recipients submit a comprehensive application to be considered for funding, SF Form 424, and certifications to HUD. The Application must meet the criteria of the NOFA and must identify the proposed use(s) of the grantees allocation, including criteria for eligibility, and how the uses address long-term recovery needs. Application for CDBG-RDR waiver and alternative requirement. The requirements for CDBG actions plans, located at 42 U.S.C. 12705(a)(2), 42 U.S.C. 5304(a)(1), 42 U.S.C. 5304(m), 42 U.S.C. 5306(d)(2)(C)(iii), 24 CFR 91.220, and 91.320 are waived for funds provided under the Appropriations Act. Instead, each grantee must submit to HUD an Application for CDBG-RDR. During the course of the grant, HUD will monitor the grantees actions and use of funds for consistency with the application, and meeting the performance and timeliness objectives therein and in this Attachment A. Per the Appropriations Act, and in addition to the requirements at 24 CFR 91.500, the Secretary may disapprove an amendment to an application if it is determined that the amended application does not satisfy all of the required elements identified in this NOFA.

Length and Time Phasing of Assistance:

To ensure the timely expenditure of funds, section 904(c) under Title IX of P.L. 113-2 requires that all funds be expended within two years of the date HUD obligates funds to a grantee (funds are obligated to a grantee upon HUDs

signing of the grantees CDBGDR grant agreement). Action Plans must demonstrate how funds will be fully expended within two years of obligation. For any funds that the grantee believes will not be expended by the deadline, it must submit a letter to HUD justifying why it is necessary to extend the deadline for a specific portion of funds. Additionally, P.L. 113-2 requires that HUD obligate all funds provided under Chapter 9, Community Development Fund, not later than September 30, 2017. Reports:

HUD requires grantees to enter information in HUDs Disaster Recovery Grant Reporting (DRGR) system in sufficient detail to permit the Departments review of grantee performance on a quarterly basis through a Quarterly Performance Report (QPR). HUD reviews these quarterly reports to assess grantee compliance and performance. Quarterly reports include information on obligation, expenditures, drawdowns, and accomplishments for all grantee activities. Each grantee must submit a QPR through the DRGR system no later than 30 days following the end of each calendar quarter. Cash reports are not applicable. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system include information on expenditures for all their activities. The Quarterly Performance Report (QPR), submitted by grantees on a quarterly basis through HUD's Disaster Recovery Grant Reporting (DRGR) system include information on expenditures for all their activities. The Department performs regular performance monitoring of grantees both remotely and through annual on-site reviews. The Department determines on-site monitoring priorities based on a risk-analysis of the grantees portfolio of activities or known high-risk areas. For all Headquarters-held grants under this appropriation, HUD staff will conduct at least one annual on-site monitoring review.

The Office of Community Planning and Development's CPD Notice CPD -12-02, 'Implementing Risk Analyses for Monitoring Community Planning and Development Grant Programs' describes the Department's risk analysis process. Monitoring exhibits can be found in Chapter 6 of HUD's Community Planning and Development (CPD) Grantee Monitoring Handbook.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. The auditee may elect to have a program-specific audit conducted under certain limited circumstances. CDBG DR grantees shall make reviews and audits, including onsite reviews of any subrecipients, designated public agencies, and UGLGs, as may be necessary or appropriate to meet the requirements of 42 U.S.C. 5304(e)(2), as amended, and as modified by the federal notice covering grant funds. Additionally, grantees must have an internal audit function in place for the detection of fraud, waste, and abuse where the responsible audit staff report independently to the chief officer or board of the organization designated to administer the CDBGDR award.

Records:

Grantees must maintain records with regard to eligibility, national objectives, financial management, citizen participation, relocation, other resources, acquisition, housing assistance to dwelling units and households, equal opportunity, environmental impact, labor standards and other requirements set forth in the program regulations. USES AND USE RESTRICTIONS:

The Single Family Property Disposition Program is the marketing and sale of

Information for each of these programs is covered separately. The majority of foreclosed one to four unit properties are sold through the general disposition program. HUD contracts with private companies to manage and market the properties. Properties are listed at HUD's website located at <http://hudhomestore.com/Home/Index.aspx>, where links are provided to the listings for each state. The listings provide the list price of the property, the property address, a brief description of the property and access to a Property Condition Report prepared by the contractor. Complete information explaining the sales process and earnest money requirements is also available. Bids must be submitted electronically by a real estate broker. An earnest money deposit is required with each bid submitted. Special opportunities are available for bidders who intend to occupy purchased properties as their principal residence. 14.314 ASSISTED LIVING CONVERSION FOR ELIGIBLE MULTIFAMILY HOUSING PROJECTS

(ALCP)

FEDERAL AGENCY:

Office of Housing-Federal Housing Commissioner, Department of Housing and Urban Development

AUTHORIZATION:

Section 202b of the Housing Act of 1959, as amended by the Section 202 Supportive Housing for the Elderly Act of 2010 (Public Law 111-372), 12 U.S.C 1701q-2.

OBJECTIVES:

To preserve the current elderly housing stock by converting units with a grant into Assisted Living Facilities (ALFs) or Service-Enriched Housing (SEH) for the frail elderly aging in place, as defined in Section 232(B)(6) of the National Housing Act and 202(k). The program is expected to promote aging in place and prevent premature institutionalization of the target population.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Assisted living facilities (ALFs) are designed to accommodate frail elderly persons and people with disabilities who can live independently but need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities.) ALFs must provide support services such as personal care, transportation, meals, housekeeping, and laundry. Service-Enriched Housing (SEH) is housing that is designed to accommodate frail elderly persons or elderly persons with service needs who are aging in place. Residents are able to live independently but need assistance with activities of daily living comparable to services typically provided in a

licensed assisted living facility, such as healthcare-related services. These supportive services must be available through a licensed or certified third party service provider. Typical funding will cover basic physical conversion of existing project units, as well as related common and services space. The ALCP provides funding for the physical costs of converting some or all of the units of an eligible development into an ALF or SEH, including unit configuration, common and services space and any necessary remodeling, consistent with HUD or the State's statute/regulations (whichever is more stringent). There must be sufficient community space to accommodate a central kitchen or dining facility, lounges, recreation and other multiple-areas available to all residents of the project, or office/staff spaces in the ALF or SEH. Funding for the supportive services must be provided by the owners, either directly or through a third party.

Applicant Eligibility:

Only private nonprofit owners of eligible multifamily assisted housing developments specified in Section 683(2)(B), (C), (D), (E), and (F) (Section 202 projects for the elderly, Rural Housing Section 515 projects receiving Section 8 rental assistance, projects receiving project-based rental assistance under Section 8, projects financed by a below-market interest rate loan or mortgage insured under Section 221(d)(3) of the Housing Act, or housing financed under Section 236 of the National Housing Act) that have been in occupancy for at least five years are eligible for funding. To be eligible, owners must meet the following criteria: (1) Must be in compliance with Loan Agreement, Capital Advance Agreement, Regulatory Agreement, Housing Assistance Payment Contract, Project Rental Assistance Contract, Rent Supplement or LMSA Contract, or any other HUD grant or contract document; (2) Must be in compliance with all fair housing and civil rights laws, statutes, regulations, and executive orders as enumerated in 24 CFR 5.105(a).

Beneficiary Eligibility:

Eligible residents who meet the admissions/discharge requirements as established for assisted living by State and local licensing, or HUD frailty requirements under 24 CFR 891.205 if more stringent. The residents must be able to live independently but may need assistance with activities of daily living (that is, assistance with eating, bathing, grooming, dressing and home management activities).

Service-Enriched Housing is designed to accommodate elderly persons and people with disabilities with a functional limitation, meaning residents who are unable to perform at least one activity of daily living.

Credentials/Documentation:

14.534 STRONG CITIES STRONG COMMUNITIES (SC2) NATIONAL RESOURCE NETWORK

FEDERAL AGENCY:

Office of Policy Development and Research, Department of Housing and Urban Development

AUTHORIZATION:

Consolidated and Further Continuing Appropriations Act, 2012: This program is approved by HUDs authority and administered under the Transformation

Initiative (TI) account. , Public Law 112-55.

OBJECTIVES:

The purpose of the SC2 National Resource Network is to help strengthen local communities and spur economic growth. The SC2 Network will provide economically distressed communities with short-term technical assistance in basic operational areas as well as programmatic issues, dictated by local need. In addition, the SC2 Network will aggregate public and private resources to serve a wide range of governments and connect them through a peer-to-peer learning network.

The objectives of the programs are as follows:

Provide communities facing long-term economic challenges with easily accessible and comprehensive technical assistance that can help retool them for future economic growth;

Build capacity in distressed communities by connecting them with philanthropic organizations, non profits, public and private sector entities to facilitate long-term partnerships and economic investments;

Develop a set of best practices and policy recommendations that can be disseminated and shared across all communities facing similar economic challenges;

Improve the alignment of federal resources as well as strengthen federal and local partnerships.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Eligible costs include: salaries for program staff and technical experts, traveling expenses, expenses related to the eligible activities in the NOFA such as providing operational assessments, developing the clearinghouse and Peer to Peer network, tracking performance metrics, building Local Resource Networks, and evaluating the program. 1) Funding will only be provided to applicants who meet the standards for eligible applicants.

2) Funds will not be used to pay for activities outside the scope of the NOFA.

3) Grant funds awarded under this program may not be used to pay for computer hardware.

4) Honorariums cannot be charged against awards under this program.

5) An organization may not provide assistance to itself.

6) An organization may not provide assistance to another organization with which it contracts or sub-awards funds to carry out activities under this award.

7) No fee or profit may be paid to any recipient or contractor of an award under this NOFA.

8) Contractors providing technical assistance/capacity building services/products are not consultants and thus are not subject to the salary provisions applicable to consultants in the FY2012 General Section. HUD will determine whether the salary rates are reasonable and customary for the skill set provided and the area(s) being served.

Applicant Eligibility:

The grantee of the SC2 Network, will have five categories of eligible activities:

1. Structure Development: Develop the SC2 Network structure that would include a team of expert technical service providers (pro bono or paid) that represent the breadth of relevant expertise needed to address the long-term economic challenges of communities. This responsibility also includes developing a Peer-to-Peer network to share lessons learned and best practices.

2. Engagement: Develop the engagement strategy for how the network will assist economically-distressed cities. This responsibility also includes systematizing how cities are engaged, prioritizing the level of assistance for each city, and matching the level of assistance based on the needs of each city.

3. Capacity building: Increase the capacity of participating governments in the area of intervention, not just to provide a one-time service that they cannot replicate. This responsibility might also include establishing a Local Resource Network (LRN) for communities with potential private and philanthropic resources to sustain local capacity building over a longer term.

4. Evaluation: Carefully document and evaluate interventions to build a series of best practice strategies that can benefit places with similar challenges, and develop forums for sharing this knowledge.

5. Policy Recommendation: Identify for the SC2 Council how federal policy changes could help local governments better achieve their economic development visions, and other policies, systems, and practices that support holistic and sustainable economic development.

In addition to these five categories, the Administrator will also work with the other three components of SC2 (described under I.A.1. SC2 Components), as well as the SC2 Council (described under I.A.2 Executive Order) to meet the broad goals and objectives of the initiative.

Beneficiary Eligibility:

The grantee must also have a demonstrated ability to obtain other community, private sector, and federal resources that can be combined with HUDs program resources to achieve program objectives. In general, an ideal Administrator will have most or all of the following characteristics:

Place-based: The selected applicant, buoyed by support of agencies and the philanthropic community, will have experience working in many distressed communities, and will be able to match these communities to relevant technical experts quickly and efficiently.

Resource-maximizing: The selected applicant will have a national scope and will be well-accustomed to the challenge of distributing scarce resources across communities with distinct needs. The ability to effectively evaluate requests for service will be paramount to using the SC2 Networks resources to their greatest potential.

Nimble, responsive, and service-oriented: The SC2 Network will be designed to provide very timely assistance that can thoroughly understand and adapt to needs on the ground. Therefore, the selected applicant will have, or can quickly pull together a deep team of technical experts, and, when necessary, develop partnerships between experts on issues that require multiple skill sets and excellent customer service skills.

Objective: In some cases, procedures or regulations may be a barrier to local capacity building. The selected applicant will facilitate local partnering and provide honest feedback to HUD and the other SC2 agencies for relieving burdens on local governments, while retaining accountability for results.

Sustainable: The selected Administrator will have the nonprofit management expertise required to make the SC2 Network financially sustainable, and as an outside entity, can attract philanthropic funding and leverage HUDs investment several times over.
