The North Cascades Environmental Learning Center (NCELC) is a residential education facility located on the shore of Diablo Lake in North Cascades National Park. The Learning Center is one of the central

elements of the 1995 federal relicensing of Seattle City Light's Skagit River dams. This project and others are designed to mitigate the impact of hydroelectric projects on the Skagit River environment. Seattle City Light, the National Park Service and North Cascades Institute each have unique responsibilities in this partnership:

- Seattle City Light funded the design and the construction of the facility, own the buildings, and are leasing them to North Cascades Institute.
- The National Park Service dedicated land for the Learning Center within the Ross Lake National Recreation Area of North Cascades National Park Service Complex. The National Park Service also provides services such as water, sewer, fire management and educational support.
- North Cascades Institute is a non-profit organization based in Sedro-Woolley, Washington. It operates the Learning Center and provide environmental education programs for all ages and backgrounds.

OBJECTIVES:

The environmental programs offered help people of all ages learn, enjoy and understand more about Skagit River and the North Cascades. The primary objectives include field-based environmental education (focusing on natural and cultural history), providing programs of public education, involvement in conservation, natural science, history and related fields of study, and conducting interpretive activities. All of these activities are to foster and enhance understanding and appreciation of the North Cascades bioregion. North Cascades Institute (operating the Learning Center under an agreement with Seattle City Light, provides all of the Learning Center's environmental education programs, serving children and adults from Skagit and Methow Valleys, the Puget Sound region and beyond. The Learning Center reaches more than 10,000 people each year in a wide variety of field-based and overnight programs. Scholarships are available. Programs include:

- Natural and cultural history seminars for adults
- Professional development experiences for teachers
- Mountain School for elementary school students

North Cascades Institute operates the residential North Cascades Environmental Learning Center, an 11.6 million dollar facility which is imbedded within NOCA as required by a Federal Energy Regulatory Commission (FERC) agreement with Seattle City Light, operator of three hydroelectric dams within NOCA. The Learning Center is one of the required mitigation elements for Seattle City Light's federal FERC license for continued operation of three hydroelectric reservoirs on the Skagit River. The NPS has, or is able to obtain, qualified personnel to conduct interpretive training, participate in related programs with a public purpose of support or stimulation of outdoor recreation, resource preservation, and appreciation, and recognizes the Institute as an educational organization. National Historic Preservation Act, as amended, 16 U.S.C. 470(e) and (h), Establishment of Historic Preservation Fund

National Historic Preservation Act, as amended, 16 U.S.C. 470a(j). Develop and implement a comprehensive preservation education and training program.

OBJECTIVES:

The purpose of this supplemental funding is to provide technical assistance and emergency repairs to historic and archeological resources impacted by Hurricane Sandy. Only hurricane-related damage is eligible for grant

Using the FEMA major disaster declarations as a starting point for determining the method of apportioning the \$47.5 million, the NPS will divide the appropriation into two groups. Group 1 includes \$38 million and will be apportioned to the four States containing counties that FEMA designated as eligible to receive both Individual and Public Assistance Connecticut, New Jersey, New York, and Rhode Island. The remaining funds will comprise Group 2, and will be awarded to the remaining eight States, the District of Columbia, and any Federally-recognized Indian Tribes located in those States, through an application process and based on need as described in proposals submitted by the States and Tribes to the NPS. In apportioning the \$38 million from Group 1 that will be assigned to CT, NJ, NY, and RI, because State Historic Preservation Offices (SHPO) in those States have not yet completed damage assessments to historic properties, there is no single best method of determining need. Funds will be distributed using a formula that takes into account three evaluation factors, each having equal weight: 1) population of counties eligible for both IA and PA, 2) land area of counties eligible for both IA and PA, and 3) the number of properties listed in the National Register of Historic Places in counties eligible for both IA and PA.

FEDERAL AGENCY:**

Office of Juvenile Justice and Delinquency Prevention, Department of Justice

AUTHORIZATION:

FY15 (OJJDP CBVP) Pub. L. No. 113-235; 128 Stat. 2130, 2195.

OBJECTIVES:

To support and enhance the coordination of existing community-based violence prevention and intervention programs and strategies that are attempting to replicate models and strategies which have been proven to have a positive impact on the reduction of violence in target communities. The Community-Based Violence Prevention Program has three main goals: to change community norms regarding violence; to provide alternatives to violence when gangs and individuals in the community are making risky behavior decisions; and, to increase the perceived risks and costs of involvement in violence among high-risk young people. This Program will work with community-based organizations to develop and implement strategies to reduce and prevent violence, particularly shootings and killings. This will be accomplished by relying on outreach workers, clergy, and other community leaders to intervene in conflicts or potential conflicts and promote alternatives to violence. The Community-Based Violence Prevention Program will also involve law enforcement in its efforts and depends heavily on a strong public education campaign to instill in people the message that shootings and violence are not acceptable. Finally, the model calls for the strengthening of communities so they have the capacity to exercise informal social controls and to respond to issues that affect them, including community violence. These

activities are organized into five core components that address both the community and those individuals who are most at risk of involvement in a shooting or killing: community mobilization, outreach, faith leader involvement, police participation and public education.

16.309 LAW ENFORCEMENT ASSISTANCE NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM

(NICS)

FEDERAL AGENCY:

Federal Bureau of Investigation, Department of Justice

AUTHORIZATION:

TYPES OF ASSISTANCE:

PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The NICS Operations Center conducts NICS background checks by analyzing and evaluating criminal history records to determine whether the transfer of a firearm to an individual may violate State or Federal law. The staff at the Operations Center provides technical and operational support to users, provides customer service to FFLs and State Point of Contacts (POCs), processes appeals of denied transactions, and prepares management and statistical reports on the operation of the NICS.

Applicant Eligibility:

All persons purchasing firearms.

Credentials/Documentation:

Initial request for services must be from a licensed and enrolled FFL. For checks performed by the FBI, FFLs may contact the NICS Section by telephone

via a toll-free number or, electronically by the NICS E-Check via the Internet. The FFLs will provide the required descriptive information requested on the Bureau of Alcohol, Tobacco, Firearms and Explosives Form 4473 and each background check is assigned a unique NICS Transaction Number. If a NICS background check results in no matching records, the transfer will be a proceed.

If one or more matching records are found, a NICS Legal Instruments Examiner (Examiner) will review the record(s) to determine if the subject of the record may be identical with the prospective purchaser and to determine if the record contains state and/or federal firearm prohibitive criteria which may prohibit the transfer of the firearm. If it is determined that prohibitive criteria exists, the NICS Examiner will advise the FFL to deny the firearm transaction. If potentially prohibitive criteria exists and more information is required in order to make the determination, the NICS Examiner will advise the FFL to delay the firearm transaction. When a transaction is delayed, the NICS Examiner begins extensive research on the potential prohibitor. The NICS Examiner will contact local, state, and federal law enforcement agencies and courts to resolve questions about an individual who appears to be prohibited from purchasing or possessing a firearm, as well as to request clarification regarding information in a prior record or disposition. When the research is complete, the NICS Examiner calls the FFL and gives a decision on the firearm transaction. Individuals who are denied the purchase of a firearm will be advised by the FFL of the process for appealing the denial decision if he/she believes it is incorrect. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

**16.321 ANTITERRORISM EMERGENCY RESERVE
FEDERAL AGENCY:**

Office for Victims of Crime, Department of Justice

AUTHORIZATION:

42 U.S.C. 10601(d)(5), 42 U.S.C. 10603b(b), 42 U.S.C. 10603c.

OBJECTIVES:

Encompasses two programs for victims of terrorism and/or mass violence: (1) Antiterrorism and Emergency Assistance Program (AEAP) and (2) The International Terrorism Victim Expense Reimbursement Program (ITVERP). The AEAP provides assistance and compensation services for victims of domestic terrorism and intentional mass criminal violence and assistance for victims of international terrorism. ITVERP provides reimbursement for victims of acts of international terrorism that occur outside the United States for expenses associated with that victimization.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

AEAP funds are available specifically for services to victims of terrorism and/or intentional mass criminal violence. Funded activities may include compensation, emergency relief, including crisis response efforts, assistance, and ongoing assistance, including during any investigation or prosecution to victims of terrorist acts or mass violence occurring within and outside the United States. Nonmonetary assistance is available for training and technical assistance. ITVERP provides direct reimbursement for out-of-pocket expenses to victims of international terrorism. Claimants may seek reimbursement for expenses incurred for medical, mental health, funeral and burial, property loss, and other miscellaneous costs (including emergency travel, temporary lodging, and telephone costs).

Applicant Eligibility:

AEAP: Criteria will vary depending on the grant. For terrorism or mass violence occurring within or outside the U.S., eligible applicants for funding under VOCA, Title II, 42 U.S.C. 10603b, 1404B, include states, victim service organizations, and public agencies (including federal, State and local governments) and non-governmental organizations that provide assistance to victims of crime. With the exception of ITVERP, OVC does not provide

funding directly to individual crime victims. ITVERP: For an applicant to be eligible to receive reimbursement under ITVERP as authorized under VOCA, Title II, 42 U.S.C. 10603c, 1404C, an individual must be a national of the United States or an officer or employee of the U.S. Government, as of the date on which the act of terrorism occurred. In addition, the individual must have suffered direct physical or emotional injury or death as a result of an act of international terrorism occurring on or after October 23, 1983, with respect to which an investigation or prosecution was ongoing after April 24, 1996.

Beneficiary Eligibility:

AEAP: Public and private nonprofit victim assistance agencies; victims of domestic and international terrorism. Eligibility depends on the nature of the grant. ITVERP: The law requires that the individual victim must have suffered direct physical or emotional injury or death as a result of an act of international terrorism occurring on or after October 23, 1983, with respect to which an investigation or prosecution was ongoing or was commenced after April 24, 1996. In the case of a victim who is a minor, incompetent, incapacitated, or is killed, a family member or legally designated representative of the victim may receive expense reimbursement on behalf of the victim. In addition to the victim, claimants may include the following: Spouse of the victim, Parents of the victim, Children of the victim, Siblings of the victim, Legally designated victim representative.

Credentials/Documentation:

All potential applicants shall submit a written proposal along with a budget and budget narrative to the OVC Director for consideration. Proposals submitted by State crime victim compensation program administrators should include the following: (1) a description of the qualifying crime; (2) the projected number of claims to be paid and the projected number of claimants to receive payments; (3) the state's maximum award amount by category, such as medical, mental health, lost wages, funeral, etc.; and (4) a description of the range of expenses covered by the program and the amount of state funding available to cover victim claims. Proposals submitted by State crime victim assistance administrators, and all other applicants seeking crime victim assistance, should include the following: (1) type of crime and description of the criminal event; (2) identification of the lead law enforcement agency conducting the investigation; (3) estimated number of victims affected by the crime; (4) description of the applicant's role in responding to the victim population since the date of the incident; (5) description of services that this funding will support and how these efforts will complement services already in place or will respond to an unmet need; (6) the amount of funding requested and the time frame for support; and (7) description of outreach and coordination with other public and private entities during the process of preparing the request for assistance. Once approved for applying, an AEAP solicitation, with detailed instructions on applying as well as reporting requirements, will be posted on the OJP electronic Grants Management System (GMS). Applicants, except Federal agencies, must submit through GMS (1) SF-424, Application for Federal Funding and applicable assurances and forms; and (2) Budget and budget narrative including a description of all other federal and nonfederal contributions (cash or in-kind). Applications for the AEAP must be submitted to the OVC Director as soon as practical following a terrorist or mass violence event by the appropriate State or federal official or private victim service and non-governmental organizations. ITVERP: All potential applicants shall submit a written application along with all supporting documentation to OVC for consideration. Claimants may apply for itemized, interim emergency, or supplemental reimbursement. An Itemized application should be used by those eligible claimants who are making a first-time request for reimbursement of out-of-pocket expenses that were paid following an international terrorism event. An Interim Emergency application should be used by eligible claimants seeking funds for an immediate need such as medical treatment, short-term lodging, or emergency transportation. A Supplemental application should be used by eligible claimants whose expenses have changed since they submitted an initial application. The supplemental application is for bills that may have been received late, or for new services that were not originally thought necessary or included in the original application. OMB Circular No. A-87 applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372. Environmental impact information is not required for this program.

This program is excluded from coverage under E.O. 12372.

Application Procedures:

OMB Circular No. A-102 applies to this program. OMB Circular No. A-110 applies to this program. AEAP: Whereas the previously submitted proposal letter, budget, and budget narrative were key factors in determining eligibility for funding, they were submitted prior to the posting of a solicitation. Application materials submitted electronically through GMS in response to either the assistance or compensation solicitation become permanent parts of the award file. Thus, it will be necessary to resubmit the proposal letter, budget, and budget narrative documents as part of the application package. Applications will be accepted following an incident of terrorism or mass violence in accordance with the timetable set forth in the AEAP Guidelines. There are two factors that determine the application submission requirements for the AEAP: (1) the applicant status, i.e., government agency (Federal, State, or local), non-governmental organization, or victim service organization; and (2) the type of support requested, i.e., crisis response, consequence management, criminal justice, victim compensation, technical assistance (nonmonetary assistance). Application requirements are listed below. Application requirements for State crime victim compensation programs - Funding will be made available to State crime victim compensation programs in response to an incident of terrorism or intentional mass criminal violence within the United States in the form of a grant. Requests for funding from State crime victim compensation programs may be made at any time in the aftermath of an incident and should include: (1) Responses to the questions or issues raised in the AEAP Compensation Solicitation ; (2) Proposal letter ; (3) Budget.; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms.. Application requirements for all other recipients of funds -All other applicants seeking Antiterrorism Emergency Reserve support are required to submit: (1) Responses to the questions or issues raised in the AEAP Assistance Solicitation; (2) Proposal letter; (3) Budget; (4) Budget narrative; and (5) SF-424, Application for Federal Assistance and applicable assurances and forms. While no direct funding is available, OVC may provide its own consultants to meet the training and technical assistance needs of applicants. Training and technical assistance may be requested by submitting a letter describing the nature of the problem; the type of expertise or assistance needed; the duration of assistance; and the projected outcomes of the technical assistance or training. See OVC guidelines published in the Federal Register (Vol. 67, No. 21, Thursday, January 31, 2002) for additional information on application requirements for the AEAP. ITVERP: Step 1: Identify the type of application you are applying for by marking the appropriate type at the top of the application form. In addition, a supplemental sheet must be filled out by applicants. Sections B, F and H should be answered by all applicants; section G should be answered by Itemized and Supplemental applicants only. Detailed instructions are included. Step 2: If you believe that you are an eligible victim of a "designated" international terrorism event, please use the following forms and information to prepare your application for reimbursement. Required Documentation: A victim is required to submit documentation that provides proof of identity, citizenship, employment, and damage/injury sustained during the international terrorism event. A victim's family member or representative is required to submit documentation of his/her relationship to the victim plus medical information or a death certificate as appropriate, in addition to the items named above. In all cases, receipts for expenses incurred in the recovery process will be required. If any of the required documents have been destroyed and are unavailable from any other source, you must provide and certify a list of destroyed documents and how each would apply to your ITVERP application.

Award Procedure:

AEAP: Upon receipt and internal review of a complete application, it is the intention of OVC to notify applicants of funding decision within 5 business days or as soon as practicable. The applicant may be notified by telephone, Internet or facsimile. ITVERP: After review of each application, the Director shall determine the eligibility of the victim or representative and the amount, if any, eligible for reimbursement, specifying the reasons for such determination and the findings of fact and conclusions of law supporting it. A copy of the determination shall be mailed to the claimant at his last known address.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

AEAP: It is OVC's intention to make a funding decision within 5 business days of receipt of a complete application or as soon as practicable. ITVERP: It is OVCs intention to review and process payments as soon as practicable. For itemized and supplemental claims, range of approval/disapproval is dependant upon receipt of an official determination of a reasonable indication of an act of international terrorism from the Assistant Attorney General of National Security for a particular event. Processing time is also dependant upon timely response by claimants of any outstanding documents or information required to process claim applications. Claimants may apply for an interim emergency payment, prior to a determination under Section 94.21(a). If the Director determines that such payment is necessary to avoid or mitigate substantial hardship that may result from delaying reimbursement until complete and final consideration of an application, such payment may be made to cover immediate expenses such as those of medical care, funeral and burial, short-term lodging, and emergency transportation.

Appeals:

For both programs, hearing by the Assistant Attorney General, Office of Justice Programs.

Renewals:

AEAP: See OVC guidelines for Antiterrorism and Emergency Assistance Program for Terrorism and Mass Violence Crimes published in the Federal Register, Vol. 67, No. 21, Thursday, January 31, 2002. ITVERP: Not applicable.

Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. AEAP: All organizations that expend financial assistance of \$500,000 or more in any fiscal year must have a single audit for that year in accordance with OMB Circular No. A-133, as amended, unless the audit condition on the award says otherwise. OVW's Technical Assistance Program was created to provide grantees with the expertise and support they need to develop and implement successful local projects, increase victim safety, and bolster offender accountability. 16.576 CRIME VICTIM COMPENSATION

Office for Victims of Crime, Department of Justice

AUTHORIZATION:

42 U.S.C. 10602 (a); and an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The Office for Victims of Crime (OVC), Department of Justice, administers the Crime Victim Compensation formula grant program. These programs help pay for some of the expenses resulting from crimes involving violence or abuse.

TYPES OF ASSISTANCE:

FORMULA GRANTS

USES AND USE RESTRICTIONS:

Funds under this program shall be used by the States for awards of compensation benefits to crime victims, with the following exception: States may retain up to 5 percent of their total grant for administrative and training purposes. As provided in recent VOCA amendments, formula grant funds to an eligible State crime victim compensation program is based on 60 percent of the amounts States expended during the fiscal year preceding the year of collections for the Crime Victims Fund, other than amounts awarded for property damage. If the sums available in the Fund for grants under this program are insufficient to provide grants of 60 percent as provided above, grants from the sums available will be made to each eligible crime victim compensation program so that all such programs receive the same percentage of the amounts awarded by such programs during the preceding fiscal year, other than amounts awarded for property damage. A crime victim compensation program is an eligible crime victim compensation program if (1) such program is operated by a State and offers compensation to victims and survivors of victims of criminal violence, including drunk driving and domestic violence for: (A) medical expenses attributable to a physical injury resulting from a compensable crime, including expenses for mental health counseling and care; (B) loss of wages attributable to a physical injury resulting from a compensable crime; and (C) funeral expenses attributable to a death resulting from a compensable crime; (2) such program promotes victim cooperation with the reasonable requests of law enforcement authorities; (3) such State, possession or territory certifies that grants received under this program will not be used to supplant funds otherwise available to provide crime victim compensation; (4) such program, as to compensable crimes occurring within the State, possession or territory, makes compensation awards to victims who are nonresidents of the State, possession or territory on the basis of the same criteria used to make awards to victims who are residents of the State, possession or territory; (5) such program provides compensation to victims of Federal crimes occurring within the State on the same basis that such program provides compensation to victims of State crimes; (6) such program does not, except pursuant to rules issued by the program to prevent unjust enrichment of the offender, deny compensation to any victim because of that victim's familial relationship to the offender, or because of the sharing of a residence by the victim and the offender; (7) such program does not provide compensation to any person who has been convicted of an offense under Federal law with respect to any time period during which the person is delinquent in paying a fine, other monetary penalty, or restitution imposed for the offense; and (8) such program provides such other information and assurances related to the purposes of this section as the Director may reasonably require. Section 1403(c), any amount of crime victim compensation that the applicant receives through a crime victim compensation program under this section shall not be included in the income of the applicant until the total amount of assistance that the applicant receives from all such programs is sufficient to fully compensate the applicant for losses suffered as a result of the crime. As used in this section; (1) the term "property damage" does not include damage to prosthetic devices, eyeglasses or other corrective lenses, or dental devices; (2) the term "medical expenses" includes, to the extent provided under the eligible crime victim compensation program, expenses for eyeglasses and other corrective lenses, for dental services and devices and prosthetic devices, and for services rendered in accordance with a method of healing recognized by the law of the State; (3) the term "compensable crime" means a crime the victims of which are eligible for compensation under the eligible crime victim compensation program, and includes crimes involving driving while intoxicated and domestic violence; and (4) the term "State" includes the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, and any other possession or territory of the United States.

Applicant Eligibility:

States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, and any other possession or territory of the United States who have an established eligible crime victim compensation program, and who meet the eligibility requirements discussed above.

Formula and Matching Requirements:

Statutory Formula: Title 28, Part 90, Subpart B.

The Federal share of these grants may not exceed 75 percent of the total costs of the projects described in the applications. Projects to victim service providers for victim services or for tribes do not count towards the total costs of the projects for purposes of calculating match. States may satisfy this 25 percent match through in-kind services. All funds designated as match are restricted to the same uses as the Office on Violence Against Women funds and must be expended within the grant period. 16.606 STATE CRIMINAL ALIEN ASSISTANCE PROGRAM (SCAAP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Omnibus Appropriations Act, Public Law 106-113, Division B, Section 1000(a); Immigration and Nationality Act, 8 U.S.C. 1252, Section 242 as Amended; Title II, subtitle C, Section 20301; Violent Crime Control and Law Enforcement Act of 1994, Public Law 103-322; and an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The State Criminal Alien Assistance Program (SCAAP) is a payment program

designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local convictions. The Bureau of Justice Assistance (BJA) administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Department of Justice Reauthorization Act of 2005 (Public Law 109-162, Title XI) included the following requirement regarding the use of SCAAP funds: "Amounts appropriated pursuant to the authorization of appropriations in paragraph (5) that are distributed to a State or political subdivision of a State, including a municipality, may be used only for correctional purposes." All funds must be used for correctional purposes only. To be eligible for reporting, inmates must have been convicted of a felony or second misdemeanor for violations of state or local law, and housed in the applicant's state or local correctional facility for 4 or more consecutive days during the reporting period. Once a person meets these criteria, all pre-trial and post-conviction time served may be included in the application. Salary information reported in the SCAAP application must reflect the total salaries and wages paid to full and part-time correctional officers and others who meet the SCAAP definition. See the SCAAP Guidelines at <http://www.ojp.usdoj.gov/BJA/>. Funds may be used only for correctional purposes. BJA may further define the eligible uses of funds. For further information, see <http://www.ojp.usdoj.gov/BJA/grant/scaap.html>.

Applicant Eligibility:

Eligible applicants include States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions exercising authority with respect to the incarceration of an undocumented criminal alien. This covers state prison facilities (including those housing juveniles convicted as adults of felony offenses or two or more misdemeanors) and local jails, whether operated by counties or cities. Applicants are generally States and units of local government. Note: Only one application is accepted from each separate political division (i.e., State, county, city).

Beneficiary Eligibility:

States, the District of Columbia, Puerto Rico, Guam, the Virgin Islands and localities or local jurisdictions.

Credentials/Documentation:

Applicants who are seeking funding must complete an electronic application form via the Office of Justice Programs Grants Management System (GMS). Inmate data, including the proper inmate identifiers, will either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of the applicants inmate databases. The authorized official certifies compliance with all SCAAP requirements, including that the applicant has been authorized by the Chief Executive Officer of the applicable unit of government; the inmate identifiers required have been submitted to BJA in the proper format(s) for Immigration and Customs Enforcement (ICE) verification within the prescribed deadlines; all inmates counted by the applicant have been convicted of either a felony or two misdemeanor offenses under the applicant's law; and, only salary costs for corrections officers were included in the Total Salary Costs. By certifying on-line, the authorizing signing official is also assuring that all federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. SCAAP applications are administered via the Office of Justice Programs Internet-based Grants Management System. Inmate data, including the proper inmate identifiers, may either be manually key-stroked into the on-line application system, or submitted on-line by electronically attaching the applicable portions of their inmate databases. Awards are announced after the ICE inmate verification process is done. Technical assistance is available to applicants for preparation of the on-line application process by calling the OJP Grants Management System Hotline at 1-888-549-9901.

Award Procedure:

The final payment process requires that all applications and all data be fully processed and verified before any payments are made. Inmate data will be verified by the ICE, who will attempt to match the inmate data records provided to records in its databases to obtain the maximum number of confirmed matches. These matches are expected to include three categories: 1) those positively identified (matched) as qualifying undocumented criminal aliens; 2) those unknowns and 3) those positively identified as non- criminal aliens. Applicants will be given credit for a percentage of inmates whose eligibility cannot be determined through positive identification or "match," but have valid foreign countries of birth. Payments will be based on the days of incarceration for the verified number of aliens incarcerated by each applicant. Payments are granted by the Director of the Bureau of Justice Assistance, Office of Justice Programs, Department of Justice. The payment must be accepted on-line and the acceptance will effect a simultaneous assurance of compliance with conditions. Acceptance of the payment on-line initiates the automatic electronic transfer of funds from OJP to the recipient.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Contact BJA.

Appeals:

Not Applicable.

Renewals:

Applications may be submitted annually, subject to availability of funding.

Formula and Matching Requirements:

This program has no statutory formula.
This program has no matching requirements.
This program does not have MOE requirements.

Length and Time Phasing of Assistance:

SCAAP awards are usually obligated and announced by the end of September and released for drawdown by mid-October. There are no restrictions placed on the time permitted to spend the money awarded because SCAAP funds are considered no year funds. Beginning with FY 2007 SCAAP awards, SCAAP funds must be used for correctional purposes only. Jurisdictions receiving SCAAP awards will be asked to report the projected use of these funds at the time the award is accepted. See the following for information on how assistance is awarded/released: SCAAP payments are calculated simultaneously, with applicants receiving a prorated payment based on the appropriation; costs submitted, and inmates as determined by DHS. All SCAAP payments are made electronically to the applicant's bank account of record identified during the application process. All SCAAP payments must go to the jurisdiction's general fund. Please use the jurisdiction's EIN (tax identification) and vendor number when applying for SCAAP funds.

Once SCAAP data has been validated and analyzed, applicants will receive e-mail notification that awards are ready for online acceptance and drawdown. Formal acceptance of an award via GMS is necessary for the electronic transfer of funds into the applicants bank account of record. Applicants have 45 calendar days to accept awards through GMS once notice is provided. SCAAP payments must go to the jurisdictions general fund.

Reports:

No reports are required.

Audits:

In accordance with the provisions of 2 CFR 200, Subpart F - Audit Requirements, non-Federal entities that expend financial assistance of \$750,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Non-Federal entities that expend less than \$750,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in 2 CFR 200.503. Recipients who expend \$750,000 or more of Federal funds during their fiscal year are required to submit an organization-wide financial and compliance audit report in accordance with 2 CFR 200, Subpart F - Audit Requirements, and as stated in the on-line payment process. Receipt of SCAAP payments is considered in establishing the requirement for an audit under the Single Audit Act.

Records:

Financial records, supporting documents, statistical records, a copy of the inmate records submission, and all other records pertinent to a grant shall be retained for a period of at least three (3) years following the closeout of the grant.

16.607 BULLETPROOF VEST PARTNERSHIP PROGRAM

(BVP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Bulletproof Vest Partnership Grant Act of 1998, Public Law 105-181, June 16, 1998, and Bulletproof Vest Program Act of 2000, Public Law 106-517. And, an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

To protect the lives of law enforcement officers by helping State, local, and tribal law enforcement agencies provide officers with armored vests.

TYPES OF ASSISTANCE:

DIRECT PAYMENTS FOR A SPECIFIED USE

USES AND USE RESTRICTIONS:

The program pays up to 50 percent of the total cost of each vest order. Total cost includes the cost of the vests, vest carriers, attachments, inserts, and covers considered integral or essential for its proper care, use, and wearability, shipping, handling, fitting charges, and applicable taxes. The total invoiced price, after all vendor and prompt payment discounts have been deducted, is what the Bureau of Justice Assistance (BJA) uses to determine the Federal match. This program only allows the purchase of body armor that has been tested and found to comply with applicable ballistic and stab standards promulgated by the National Institute of Justice's (NIJ) Standard 0101.06 Ballistic Resistance of Police Body Armor. In FY 2001, stab-resistant body armor was also included in the program as an allowable purchase.

Applicant Eligibility:

Only chief executives of jurisdictions (or their designees) may apply for funds. Jurisdictions are defined as general purpose units of local government (e.g., cities, towns, townships, boroughs, counties, etc.), Federally-recognized Indian tribes, the 50 State governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The chief executive of the jurisdiction registers on-line, submits the jurisdiction application, and requests payment for completed vest orders.

Beneficiary Eligibility:

Only law enforcement officers may receive vests through this program. According to the Act, "law enforcement officer" means any officer, agent, or employee of a State, unit of local government, or an Indian tribe authorized by law or by a government agency to engage in or supervise the prevention, detection, or investigation of any violation of criminal law, or authorized by law to supervise sentenced criminal offenders. Eligible officers may be full-time, part-time, paid or volunteer.

Credentials/Documentation:

Eligible jurisdictions must be general purpose units of local government, Federally-recognized Indian tribes, the 50 state governments, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, American Samoa, Guam, and the Northern Mariana Islands. The validity of the on-line registration process is verified through independent reviews which may include certification by the banking institutions serving the jurisdiction, the U.S. Census Bureau, and agencies within the U.S. Department of Justice. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

Preapplication Coordination:

This is an Internet-based program. The jurisdiction is required to complete and submit an on-line registration form, providing information about the jurisdiction's chief executive officer, program contact person, and electronic banking information. The registration process is handled through the program's web site <http://ojp.gov/bvpbasi/home.html>. Only those jurisdictions with approved registrations are permitted to make application. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under 2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. The jurisdiction submits the application to BJA via the Internet web site <http://vests.ojp.gov>. On-line instructions guide the jurisdiction through the application process. Law enforcement agencies or agencies with law enforcement functions which meet the Act's definition, will assist in completing the jurisdiction's on-line application by indicating the types, numbers, and costs

of vests they intend to order. Only those jurisdictions that complete and submit applications will be eligible for matching funds from BJA.

Award Procedure:

Applications received by BJA are reviewed for completeness, accuracy, and compliance with all program requirements. Each application is then checked against the availability of funds to cover up to 50 percent of the application's total cost, in keeping with established criteria for program fund allocation. When all checks are complete and the application approved, the jurisdiction is notified through e-mail that the necessary funds have been obligated.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

A minimum of 15 working days may be required for complete registration validation, although jurisdictions and law enforcement agencies will have immediate access to certain program components during this validation process.

A minimum of 60 working days may be required after the program closes for approval of the jurisdiction's application for funding. A minimum of 25 working days may be required for the electronic transfer of funds from the U.S. Treasury to the jurisdiction's bank account, once the request for funds has been received, reviewed, and approved by the Office of Justice Programs.

Appeals:

Not Applicable.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

Matching Requirements: Percent: 50%. The program requires that each applicant jurisdiction be responsible for providing at least 50 percent of the cost of each vest purchased. Tribal governments may use Federal funds to provide this match; all other jurisdictions must use nonfederal match funds. Nonfederal fund sources include State and/or local jurisdiction revenues, private or personal funds, and contributions from insurance or workman's compensation consortiums. Asset forfeiture funds may also be used to meet the jurisdiction's matching requirement. Beginning in FY 2002, changes (Bulletproof Vest Partnership Act of 2000; Public Law 106-517) gives preference to small jurisdictions (those populations below 100,000) guaranteeing them the full 50 percent match payment before payments are calculated and approved for larger jurisdictions.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Jurisdictions with approved applications must request the federal match no later than August 31st of the second federal fiscal year following the end of the federal fiscal year in which their application was approved. In other words, the jurisdiction has two years beyond the year of their application to request payments for vests contained in that application. Payments of the federal match will be made whenever the jurisdiction indicates that at least part of the approved vest order was received and invoiced. See the following for information on how assistance is awarded/released: Funds will be available approximately three to four months after the application deadline. Applicants will be notified, via email, when the award is made and the funds are available. Please see the main BVP web site for more details:

<http://ojp.gov/bvpbasi/home.html>.

Reports:

No reports are required.

Audits:

This program is excluded from coverage under 2 CFR 200, Subpart F - Audit Requirements. Payments and transactions are subject to audits by the General Accounting Office, Department of Justice's Office of the Inspector General, state or local government auditors, and auditors from independent public accounting firms. Jurisdictions must follow their local procurement policies and procedures, including maintenance of reliable and accurate accounting systems, record keeping, and systems of internal control.

Records:

In accordance with the requirement set forth in 2 CFR 200, Subpart F, grantees must maintain all financial records, supporting documents, statistical records, and all other records pertinent to the award for at least 3 years following the close of the most recent audit.

Since then, the program has trained more than 140,900 law enforcement professionals in 1,381 separate events. SLATT has delivered training in every state in the country.

SLATTs most recent accomplishments include:

In FY 2014, training was provided to 5,937 law enforcement professionals in 40 separate training events.

SLATTs Train-the-Trainer workshop has trained 3,414 individuals, who in turn have provided training to 258,757 individuals.

In FY 2014, SLATT developed and pilot-tested two new instructional training blocks Protecting Soft Targets and Social Media and Terrorism.

Since January 2014, SLATT has distributed more than 28,000 publications to requesting law enforcement agencies and workshop participants.

Renewals:

Subject to annual appropriations.

Formula and Matching Requirements:

Statutory Formula: Title I, Chapter Subchapter V, Part A, Subpart 42 USC 3756. Statutory Formula: Once each fiscal years overall JAG Program funding level is determined, BJA partners with the Bureau of Justice Statistics (BJS) to begin a four-step grant award calculation process which consists of:

1. Computing an initial JAG allocation for each state and territory, based on their share of violent crime and population (weighted equally).
2. Reviewing the initial JAG allocation amount to determine if the state or territory allocation is less than the minimum (de minimus) award amount defined in the JAG legislation (0.25 percent of the total). If this is the case, the state or territory is funded at the minimum level, and the funds required for this are deducted from the overall pool of JAG funds. Each of the remaining states receives the minimum award plus an additional amount based on their share of violent crime and population.
3. Dividing each states final award amount (except for the territories and District of Columbia) between state and local governments at a rate of 60 and 40 percent, respectively.
4. Determining local unit of government award allocations, which are based on their proportion of the states three-year violent crime average. If a local eligible award amount is less than \$10,000, the funds are returned to the state to be awarded to these local units of government through the state agency. If the eligible award amount is \$10,000 or more, then the local government is eligible to apply for a JAG award directly from BJA. Matching requirements are not applicable to this program. MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Awards of at least \$25,000 or more begin October 1 of the FY and are four years in length. Awards that are less than \$25,000 begin October 1 of the FY and are two years in length. Requests for up to two additional years to complete performance of the award will be granted automatically. Extensions beyond a four- year period for all JAG awards may be approved on a case-by-case basis at the discretion of BJA. See the following for information on how assistance is awarded/released: Reimbursement.

16.740 STATEWIDE AUTOMATED VICTIM INFORMATION NOTIFICATION (SAVIN) PROGRAM

(SAVIN)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Pub. L. 110-5, emb. secs. 101-104; Pub. L. No. 109-108, 119 Stat. 2290, 2299; 28 U.S.C. 530C(a)(1); and, an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

The SAVIN Program, administered by the Bureau of Justice Assistance (BJA), helps protect victims and survivors of crime from further victimization and ensures their rights are secured by providing registered individuals with timely and accurate information about any important dates and developments relating to the criminal proceedings at issue in their case (e.g., trial dates, times, or changes; probation hearings; inmate relocation; and offender release). This program allows victims and survivors to discretely receive information that can help them make informed decisions about their level of participation in the legal process. Effective SAVIN programs require broad multiagency support, increased victim safety, compliance with legislative requirements, and minimization of costs associated with keeping registered participants informed throughout the criminal justice process. SAVIN programs provide a single point of shared services for victims located anywhere in a state to learn about the status of their offenders case.

Key SAVIN components include:

Governance: An authorized statewide agency to oversee the planning and implementation of the SAVIN program. The administering agency should establish a governance process that includes representatives of criminal justice and law enforcement agencies, technology staff, and victim advocates, including direct participation of a cross-section of victims of crime to guide the development and delivery of SAVIN services. The governance committee or board should meet (in person or via conference call) on a regular basis to discuss help inform the progress of the grant goals and objectives and the overall SAVIN program.

Technology: The use of technology solutions designed to collect, manage, and share critical information to and from victims that provide these services in a timely, confidential, and cost-effective manner.

Program Management: An organizational structure that will execute the program as directed by the established governance process and will enable the state to establish or expand existing notification capabilities based upon measures of the effectiveness of the program by collecting data on victims and survivors served and cost effectiveness. For example, conducting surveys with victims and survivors to ensure that the system is meeting their needs.

TYPES OF ASSISTANCE:

PROJECT GRANTS

USES AND USE RESTRICTIONS:

Technology improvement programs. SAVIN grantees are required to use the National Information Exchange Model (NIEM) (www.niem.gov), follow associated SAVIN implementation guidelines, and adopt the guidelines as part of their SAVIN program planning. Funds may not be used to supplant State and local funds.

Applicant Eligibility:

Applicants are limited to state-approved agencies that are authorized to manage the SAVIN program. State-approved agencies must be authorized either through state legislation or identified through the Governors office to manage

the planning and implementation of a SAVIN program. Federally recognized Indian tribes (as determined by the Secretary of the Interior) are also eligible to receive grant funding for the planning and implementation of an automated victim notification program.

In order to apply for SAVIN program funding, eligible applicant agencies must include the state legislation designating authority to manage the SAVIN program for their state. If there is no authorizing state legislation, a letter from the Governor must be attached as part of the application. The letter must designate the applicant as the approved SAVIN program manager on behalf of the state.

States, Territories and Tribal governments.

16.746 CAPITAL CASE LITIGATION INITIATIVE (CCLI)**FEDERAL AGENCY:**

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

42 U.S.C. Section 14163 and 14163a., 42 U.S.C 14163, 14163a.

OBJECTIVES:

Capital Case Litigation Initiative (CCLI) - In an effort to improve the quality of legal representation and to ensure reliable jury verdicts in state capital cases, the CCLI seeks to improve the quality and effectiveness of representation in death penalty cases through training for both the prosecutors who represent the public and the defense attorneys who represent indigent defendants in state capital cases. Wrongful Conviction Review Program - The objective of the Wrongful Conviction Review Program is to provide high quality and efficient representation for defendants in post-conviction claims of innocence. Post-conviction innocence claims are likely to include complex challenges to the reliability or accuracy of evidence presented at trial that fall mainly into three categories: 1) eyewitness identification evidence; 2) confession evidence; and 3) forensic evidence. In some cases, post-conviction DNA testing alone can establish innocence, but the majority of cases will rely on other forms of evidence, and many will involve DNA testing together with additional sources of proof and/or expert testimony, which may be extremely costly.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Capital Case Litigation Initiative (CCLI): Funds are given to States that currently enforce their death penalty statutes or to a national organization capable of providing training and technical assistance. CCLI funds may not be used to fund, either directly or indirectly, representation in, or prosecution of, specific capital cases. Wrongful Conviction Review Program: Funds are awarded to institutions of higher education, non-profit organizations with missions dedicated (in whole or in part) to exonerating the innocent, to state or local public defender offices, to public and nonprofit organizations that have experience and expertise in providing representation to wrongfully convicted defendants in post-conviction claims of innocence cases, as well as providing training and technical assistance on the subject. Funds may not be used to supplant State and local funds.

Applicant Eligibility:

Capital Case Litigation Initiative: Applicants are limited to state agencies in states that authorize capital punishment and that conduct, or will conduct prosecutions in which capital punishment is sought. For the state agency to be eligible, its state must have an effective system for providing competent legal representation for indigent defendants in capital cases. An effective system is defined in 42 U.S.C. 14163(e) as a system that invests the responsibility for appointing qualified attorneys to represent indigent defendants in capital cases either: (A) In a public defender program that relies on staff attorneys, members of the private bar, or both, to provide representation in capital cases; (B) In an entity established by statute or by the highest state court with jurisdiction in criminal cases, which is composed of individuals with demonstrated knowledge and expertise in capital cases, except for individuals employed as prosecutors; or (C) Pursuant to a statutory procedure enacted before the date of the enactment of the CCLI Act [October 30, 2002] under which the trial judge is required to appoint qualified attorneys from a roster maintained by a state or regional selection committee or similar entity. Wrongful Conviction Review Program - Eligible applicants are limited to institutions of higher education, non-profit organizations with missions dedicated (in whole or in part) to exonerating the innocent, to state or local public defender offices, as well as to public and nonprofit organizations that have experience and expertise in providing representation to wrongfully convicted defendants in post-conviction claims of innocence cases.

Beneficiary Eligibility:

Capital Case Litigation Initiative: Defense counsel, prosecutors and judges in the States, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, America Samoa, Guam, and the Northern Mariana Islands that currently enforce their death penalty statutes. Wrongful Conviction Review Program: State or local government public defenders and non-profit organizations dedicated to exonerating the innocent.

Credentials/Documentation:

The applicant must submit a completed Application for Federal Assistance (Standard Form 424), including signed assurances that it will comply with statutory and administrative requirements. By certifying on-line, the authorizing signing official is also assuring that all Federal certifications and assurances are being met. The certification and assurance forms (Assurances, OJP Form 4000/3 and Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements, OJP Form 4061/6) are provided on-line to allow applicants to review and accept them electronically.

Regarding the question below relating to the applicability of 2 CFR 200, Subpart E - Cost Principles: The cost principles are generally applicable, except with respect to for-profit entities or to organizations listed at Appendix VIII to 2 CFR Part 200. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

No formal preapplication coordination is required. While informal preapplication coordination is not required, it is encouraged that applicants coordinate with any facilities for which they have responsibility to detain or incarcerate undocumented criminal aliens.

The application of E.O. 12372 is contingent upon whether the state has designated an entity to coordinate and review proposed federal financial assistance. See list of states that require this at:

https://www.whitehouse.gov/omb/grants_spoc. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

16.754 HAROLD ROGERS PRESCRIPTION DRUG MONITORING PROGRAM

(PDMP)

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Prescription Drug Monitoring Program was created by the FY 2002 U.S. Department of Justice Appropriations Act (Public Law 107-77) and, an act appropriating funds for the Department of Justice in the current fiscal year.

OBJECTIVES:

To enhance the capacity of regulatory and law enforcement agencies to collect and analyze controlled substance prescription data through a centralized database administered by an authorized state agency and federally recognized Indian tribal governments.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

The Harold Rogers Prescription Drug Monitoring Program (PDMP) allows for states discretion as they plan, implement, or enhance a PDMP to accommodate local decision-making based on state laws and preferences, while encouraging the replication of promising practices.

In FY 2012, the program expanded to provide funding to federally recognized Indian tribal governments for the specific purpose of enabling tribal health care

providers to provide data to and access data contained within state PDMPs. In FY 2013, the program expanded again to enable applications for data-driven, multidisciplinary approaches to reducing prescription drug abuse, encouraging greater utilization of the PDMPs and their data. In FY 2015 the program added a fourth funding category to promote practitioner and researcher partnerships and contribute to the larger body of knowledge on PDMP best practices.

Grant funds under this program can be used to:

Build a state-level data collection and analysis system to enhance the capacity of regulatory and law enforcement agencies and public health officials for future prevention efforts.

Enhance existing programs abilities to analyze and use collected data to identify drug abuse trends, identify and address sources of diversion, and increase the number of users of the PDMP.

Promote the use of data from the PDMP and other sources to measure drug abuse trends, identify and address sources of diversion, and better inform decision making by prescribers and dispensers.

Facilitate and participate in national evaluation efforts to assess efficiency and effectiveness of potential best practices.

Encourage and implement the exchange of information under the PMIX Architecture among states to prevent cross-border diversion.

Contribute to state level opioid abuse prevention plans and determine methodologies to encourage replication of strategies that are proven to be effective.

Assess the efficiency and effectiveness of state-level programs to make improvements and encourage additional states to implement programs.

Enhance collaborations with law enforcement, prosecutors, treatment professionals, the medical community, pharmacies, and regulatory boards to establish a comprehensive PDMP strategy.

Enable federally recognized Indian tribal governments to establish the policy, legal, and technological infrastructure to share PDMP data from health care facilities with the appropriate state PDMP.

Establish multidisciplinary action groups consisting of county, state, and federal criminal justice professionals; state and local health authorities; and treatment providers to determine best practices for sharing data, regulatory schemes, deconfliction strategies, intelligence gathering, targeted regulatory and enforcement activity, and prioritization of treatment and prevention efforts for at-risk individuals and communities.

Applicant Eligibility:

None.

Beneficiary Eligibility:

Category 1: Implementation and Enhancement: Applicants are limited to state governments that have a pending or enacted enabling statute or regulation requiring the submission of controlled substance prescription data to an authorized state agency.

Category 2: Tribal PDMP Data Sharing Grants: Applicants are limited to federally recognized tribal governments as defined under the Indian Self Determination Act, 25 U.S.C. 450b(e).

Category 3: Data-Driven Multidisciplinary Approaches to Reducing Rx Abuse Grants: Applicants are limited to state agencies (health departments, law enforcement authorities, etc.) and units of county government located in states with existing and operational prescription drug monitoring programs.

Credentials/Documentation:

The applicant must submit a completed Application for Federal Assistance (Standard Form 424), including signed assurances that it will comply with statutory and administrative requirements. 16.804 RECOVERY ACT - EDWARD BYRNE MEMORIAL JUSTICE**ASSISTANCE GRANT (JAG) PROGRAM / GRANTS TO UNITS OF LOCAL GOVERNMENT****FEDERAL AGENCY:**

Department of Justice

AUTHORIZATION:

The American Recovery and Reinvestment Act of 2009, Public Law 111-5, (the Recovery Act); Subpart 1 of Part E of title I of the Omnibus Crime Control and Safe Streets Act of 1968 (42 U.S.C. 3750-3758).

OBJECTIVES:

The Recovery Act JAG programs allow states and local governments to support a broad range of activities to prevent and control crime and to improve the criminal justice system. The Recovery Act JAG program will solicit applications from eligible States, territories, tribes, and units of local government for state and local initiatives, technical assistance, training, personnel, equipment, supplies, contractual support, and information systems for criminal justice, as well as research and evaluation activities that will improve or enhance law enforcement programs related to criminal justice such as: prosecution and court programs; prevention and education programs; corrections and community corrections programs; drug treatment and enforcement programs; planning, evaluation, and technology improvement programs; and crime victim and witness programs (other than compensation).

JAG funds cannot be used directly or indirectly for security enhancements or equipment for nongovernmental entities not engaged in criminal justice or public safety. Additional government-wide guidance that applies to Recovery Act programs may become available that could affect proposal narratives, time lines, budget requests, certifications and other matters, including appropriate uses of funds and restrictions on uses of funds. Interested applicants are encouraged to regularly check the OJP website for further information and updates. All recipients of any funding under the Recovery Act will be required to follow any and all applicable provisions of government-wide guidance that may be issued pursuant to the Recovery Act, even if that guidance is not reflected in this CFDA posting.

Renewals:

Formula and Matching Requirements:

This program has no statutory formula. Matching Requirements: The funding for states is allocated based on the number of violent crimes reported by the state from 2005 through 2007 to the FBI's UCR, and the population as provided by the U.S. Census Bureau for 2008.

For purposes of Recovery Act Byrne/JAG, by statute, the initial allocation to each state and Puerto Rico (excluding the remaining territories) is divided between the state and the local jurisdictions at a rate of 60 and 40 percent, respectively.

For the local jurisdictions, the allocation process begins by determining which of the local jurisdictions are eligible to receive an award. To be eligible, a jurisdiction must provide to the FBI's UCR a count of the number of violent crimes reported each year for a minimum of three years in the last ten years. By statute, jurisdictions that have not reported any data for at least three years in the last ten years for which UCR data is available do not receive an award.

For each eligible jurisdiction, BJS computes the average number of violent crimes committed for the three most recent years in which they reported data. Next, BJS uses the sum of these averages to determine the jurisdictions share of the local award they may receive. Finally, BJS examines the initial amount of the award, and jurisdictions that were allocated an initial award that is greater than or equal to \$10,000 receive a direct award from BJA for their own use. If the initial allocation is less than \$10,000, the statute provides that the allocation is given to the state, rather than to the local jurisdiction.

There is no match required at the Federal level. However, matching is an effective strategy for states and local units of government to expand justice funds and build buy-in for local criminal justice initiatives. This program does not have MOE requirements.

The period of formula grant awards under this program is 4 years. See the following for information on how assistance is awarded/released: No information provided.

OBJECTIVES:

There are currently over 2.2 million individuals serving time in federal and state prisons, and millions of people cycle through local jails every year. Of those in state and federal prison, approximately 95 percent will be released and return to communities across the nation. A majority of these individuals have needs that, if unaddressed in prison, during the reentry process, and after release, will negatively impact their ability to live productive, pro-social, crime-free lives in the community. These needs include housing and employment challenges, relationship and family issues, and substance abuse and mental health problems.

The Second Chance Act of 2007 (Pub. L. 110-199) helps to address these significant challenges by providing comprehensive responses to the significant number of incarcerated adults who are returning to communities from prison, jail, and juvenile residential facilities. Programs funded under the Second Chance Act help to promote public safety by ensuring that the transition individuals make from prison and jail to the community is successful.

Please see the BJA website at <https://www.bja.gov/> for more information on Second Chance Act programs.

16.813 NICS ACT RECORD IMPROVEMENT PROGRAM

(NARIP)

FEDERAL AGENCY:

Bureau of Justice Statistics, Department of Justice

AUTHORIZATION:

Omnibus Crime Control and Safe Streets Act of 1968, as amended; 42 U.S.C. 3732 the NICS Improvement Amendments Act Public Law 110-180 and an act appropriating funds for the Department of Justice in the current fiscal year , Public Law 110-180, 42 U.S.C 3732.

OBJECTIVES:

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 (the Brady Act) (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Acts record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent

completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

The Act outlines the allowable uses of grant funds:

Grants to States:

Section 103 of the NICS Improvement Act, regarding implementation assistance to the states, provides that the grants "shall be used by the States and Indian tribal governments, in conjunction with units of local government and State and local courts, to establish or upgrade information and identification technologies for firearms eligibility determinations." In accordance with the Act, a grant to a state, territory or Indian tribes may only be used to:

Create electronic systems, which provide accurate and up-to-date information which is directly related to checks under the NICS, including court disposition and corrections records;

Assist states in establishing or enhancing their own capacities to perform NICS background checks;

Supply accurate and timely information to the Attorney General concerning final dispositions of criminal records to databases accessed by NICS;

Supply accurate and timely information to the Attorney General concerning the identity of persons who have a federally prohibiting mental health adjudication or commitment;

Supply accurate and timely court orders and records of misdemeanor crimes of domestic violence for inclusion in federal and state law enforcement databases used to conduct NICS background checks;

Collect and analyze data needed to demonstrate levels of state compliance with the Act; and

Maintain the required relief from disabilities program in accordance with the Act however, not less than 3 percent and no more than 10 percent of each grant shall be used for this purpose.

State Court Grants

Section 301 of the Act provides that grants shall be made to each state and territory, consistent with the states plans for the integration, automation, and accessibility of criminal history records, for use by the court systems to improve automation and transmittal to federal and state repositories of: (1) criminal history dispositions; (2) records relevant to determining whether a person has been convicted of a misdemeanor crime of domestic violence or a prohibiting domestic violence protection order; and (3) prohibiting mental adjudications and commitments. Further, the law provides that the amounts granted shall be used by the state court system only to:

Carry out, as necessary, assessments of the capabilities of state courts to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories; and

Implement policies, systems, procedures to automate and transmit arrest and conviction records, court orders, and mental health adjudications or commitments to federal and state record repositories.

Applicant Eligibility:

Applications must be submitted by (a) the agency designated by the Governor to administer the National Criminal History Improvement Program (NCHIP); (b) the state or territory central administrative office or similar entity designated by statute or regulation to administer federal grant funds on behalf of the jurisdiction's court system; or (c) a federally recognized Indian tribal government.

Beneficiary Eligibility:

In accordance with the NICS Improvement Amendments Act (see 18 U.S.C. 922 note), there are two specific conditions that each state must satisfy before being eligible to receive grants:

1. First, each State shall provide the Attorney General with a reasonable estimate, as calculated by a method determined by the Attorney General of the

number of the records subject to the NIAA completeness requirements. (Id.)
2. Second, to be eligible for a grant under this [program], a State shall certify, to the satisfaction of the Attorney General, that the State has implemented a relief from disabilities program. (Id.)

For the purpose of this solicitation, a relief from disabilities program is a program that permits persons who have been adjudicated a mental defective or committed to a mental institution to obtain relief from the firearms disabilities imposed by law as a result of such adjudication or commitment. This relief must be based on a finding, in accordance with principles of due process, by a state court, board, commission, or other lawful authority, that the circumstances of the disability and the persons record and reputation are such that the person will not be likely to act in a manner dangerous to the public safety and that the granting of relief would not be contrary to the public interest. The certification form is available on the ATF website at www.atf.gov/forms/download/atf-f-3210-12.pdf. For further information, please visit NICS Improvement Act Questions and Answers on the BJS website.

Further, applications submitted on behalf of state court systems must specifically assure that: (1) the court system has the capability to contribute and will transmit pertinent information to the NICS established under section 103(b) of the Brady Handgun Violence Prevention Act (18 U.S.C. 922 note), and (2) that it will coordinate the programs proposed for NARIP funding with other federally funded information technology programs, including directly funded local programs.

The applicant must furnish all documentation required by the program solicitation, along with the application for an award, including; a detailed budget, a budget narrative, and a program narrative describing how funds would be utilized. Applicants must also furnish a NICS Record Improvement Plan as part of the application which reflects (a) the formation of a NICS Record Improvement Task Force, an assessment of the quality and availability of qualifying NICS records in the State, obstacles preventing full and complete transmission to the NICS of the available records, and strategies planned to address such challenges and achieve completeness goals.

FEDERAL AGENCY:

Office of Juvenile Justice and Delinquency Prevention, Department of Justice

AUTHORIZATION:

Pub. L. No. 113-235; 128 Stat. 2130, 2193.

Every year, millions of children and adolescents in the United States are victimized and exposed to violence in their homes, schools, and neighborhoods. Child victims of or witnesses to violence may suffer devastating consequences beyond physical harm, which may include attachment difficulties, regressive behavior, anxiety, depression, and aggression. When these problems go unaddressed, children are at greater risk for school failure, substance abuse, repeat victimization, delinquency, gang involvement, and criminal behavior during adulthood. In short, mitigating children's exposure to violence is central to breaking the cycle of violence.

The Children Exposed to Violence program builds on and incorporates the knowledge gained through research, programs, and demonstration initiatives that have addressed the problem of children exposed to violence over the past decade. The Program features a comprehensive effort to identify successful policies and practices that address the trauma and harm that children exposed to violence experience in their homes, communities, and schools. The Program supports prevention, intervention, treatment, and community organizing strategies to implement a comprehensive continuum of care for children and teens, from birth through age 17, which have been exposed to violence. The ultimate goals of the Children Exposed to Violence Program is to reduce the severity of violence, reduce the frequency of violence, reduce the short- and long-term traumatic impact of violence, increase community safety and accountability, improve the response to children exposed to violence, improve the safety and well-being of children, and create a national dialogue on the issue of children exposed to violence.

16.820 POSTCONVICTION TESTING OF DNA EVIDENCE TO EXONERATE THE INNOCENT

Kirk Bloodsworth Program

FEDERAL AGENCY:

National Institute of Justice, Department of Justice

AUTHORIZATION:

An act appropriating funds for the Department of Justice in the current fiscal year. , Public Law 112-55.

OBJECTIVES:

This program offers assistance to States to help defray the costs associated with postconviction DNA testing of cases of violent felony offenses where actual innocence might be demonstrated. Specifically, funding may be used to review postconviction cases of violent felony offenses (as defined by State law), and to locate and analyze biological evidence samples associated with these cases. Where a strong justification is provided, a small percentage of Federal award funds (not to exceed 15 percent) may be used for permissible case identification activities. For the purposes of this program Case identification means performing outreach and/or initial screening activities, other than case review as defined below, designed to identify postconviction cases of violent felony offenses (as defined by State law) where DNA analysis might demonstrate actual innocence. Permissible outreach and initial screening mechanisms are face-to-face meetings, closed-circuit television meetings, eligibility letters/questionnaires/applications, telephone calls, and computerized searches of state court records. Case review means review of files or documentation of postconviction cases of violent felony offenses (as defined by State law) by appropriate persons (e.g., prosecutors, public defenders, law enforcement personnel, and medical examiners) to determine whether biological evidence exists that might, through DNA analysis, demonstrate the actual innocence of the person previously convicted. Locate evidence means seeking to locate, following a case review, biological evidence that, through DNA analysis, might demonstrate actual innocence, through activities such as the searching of files, storage facilities, and evidence rooms. DNA analysis of biological evidence includes the handling, screening, and DNA analysis of biological evidence located in connection with a case review. States receiving Postconviction DNA Testing Assistance funds are expected to--1. Review appropriate postconviction cases to identify those in which DNA testing could prove the actual innocence of a person convicted of a violent felony offense(s) as defined by State law. 2. Locate biological evidence associated with such postconviction cases. 3. Perform DNA analysis of appropriate biological evidence.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: Established the National Center as the first comprehensive, centralized resource for issues related to campus safety, security and emergency management. Fiscal Year 2015: The first pilot offering of developing the Trauma-Informed Sexual Assault Investigations and Adjudications (TISA) training program for campus officials was held at Virginia Commonwealth University (VCU) in Richmond during November 2014. Thirty-nine people attended the VCU pilot representing 11 institutions of higher education from Virginia, Maryland, Delaware and Connecticut. A second pilot was held at the University of California Berkley in January 2015 with 43 people attending, representing 8 institutions and the University of California Office of the President. A third pilot was held in April 2015 at Lincoln University (a HBCU) in Jefferson Missouri with 45 participants representing 10 institutions attended this pilot. A fourth pilot is scheduled with a revised curriculum for August 11-14, 2015 at University of Washington.

The National Center partnered with the International Association of Chiefs of Police and International Association of Campus Law Enforcement Administrators to survey campuses regarding community policing initiatives. The findings were included in a report submitted to the Presidents Task Force on 21st Century Policing, along with written testimony regarding community collaboration, technology, and social media.

The National Center worked in partnership with IACP, IACLEA, and the University of WisconsinMadison to support a national summit entitled, Practitioners Discussion of Implementing Clery/Title IX. Over three dozen

campus officials from across the country convened to consider how best to enhance compliance with Title IX, the Clery Act, and the Violence Against Women Act.

The National Center created a web-based resource center that currently has links to 143 government, professional, and nonprofit organizations that provide informational materials.

The National Centers official website (www.nccpsafety.org) was launched. It replaced the temporary website located at the same URL and contains a growing library of resources, as well as upcoming training opportunities and conferences from affiliate organizations. The National Center has also developed a comprehensive communications plan, which incorporates three leading social media channels: LinkedIn, Facebook, and Twitter.

The National Center disseminated over a thousand resource materials to public safety executives including toolkits, guidebooks, news articles, conference listings, and professional development opportunities. Numerous officials from higher education institutions requested informational resources to help them address topics, such as campus security master planning, active threat training for employees and students, suicide prevention for online students, long-gun selection for campus public safety officers, and body-worn camera use. National Center staff members are responding to information requests by identifying, compiling, and disseminating available resources to individuals that seek assistance, thereby developing a growing pool of resources for future reference.

The National Center initiated several other important efforts that will extend the organizations reach. Sub-grants were issued to the Clery Center to update their training curriculum and the VTV Family Outreach Foundation to assist with the development of a campus safety assessment tool. 16.825 SMART PROSECUTION INITIATIVE

Smart Prosecution

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

Consolidated Appropriations Act, 2014

Pub. L. No. 113-76, 128 Stat. 5, 61; and, an act appropriating funds for the Department of Justice in the current fiscal year., Public Law 113-76, 128 Stat. 5, 61.

OBJECTIVES:

The Smart Prosecution Initiative builds off of the lessons learned from BJAs other SMART Suite programs and seeks to pair action researchers with prosecutor offices to develop solutions such as hot spot strategies, sophisticated crime analysis, offender-based policies, and risk and needs assessment that create prosecution strategies in an effort to break down information silos, advance communities, improve public trust and confidence in the justice system, and increase public safety.

As prosecutors implement innovative, best practices or evidenced-based approaches to address the goals listed below, there is a need to evaluate their efforts. The Smart Prosecution Initiative seeks to encourage exploration of new solutions to public safety concerns, as well as internal operations and

organizational structure, while employing research partners at the problem definition stage through assessment of strategies and solutions. Some creative solutions developed by prosecutors around the country include changing how their organizations prioritize cases, using zone/geographic prosecution, using crime analysis tools to reduce gun violence, nuisance abatement, crime prevention through environmental design, drug-free and prostitute-free zones, restorative justice, community courts, truancy abatement, diversion programs, crime analysis, and cyber-crime strategies to improve public safety. Prosecutors are becoming partnership builders who bring the police, the community, and other criminal justice and local agencies together to find ways they can work together to solve problems in their jurisdictions.

The goal of Smart Prosecution is to develop a body of knowledge about data-driven strategies innovative, best practice, or evidenced-based as they are implemented by prosecutors. BJA sought applications from state, local, or tribal prosecutor agencies interested in testing data-driven approaches that address one or more of the following three goals:

- Promoting fair, impartial, and expeditious pursuit of justice;
- Ensuring safe communities; and
- Promoting integrity in the prosecution profession and effective coordination in the criminal justice system.

Project Grants (Discretionary)

16.827 JUSTICE REINVESTMENT INITIATIVE

JRI

FEDERAL AGENCY:

Bureau of Justice Assistance, Department of Justice

AUTHORIZATION:

An act appropriating funds for the Department of Justice in the current fiscal year., Public Law 113-76, 128 Stat. 5, 61.

OBJECTIVES:

The Justice Reinvestment Initiative employs a data-driven approach to improve public safety, reduce corrections and related criminal justice spending, and reinvest savings in strategies that can decrease crime and strengthen neighborhoods. JRI provides technical assistance and competitive financial support to states, counties, cities, and tribal authorities that are either currently engaged in justice reinvestment or are well positioned to undertake such work.

JRI technical assistance supports states justice system stakeholders and policy leaders as they devise and implement data-driven approaches to criminal justice reform. Under the JRI model, a governmental working group with bipartisan and inter-branch representation analyzes the correctional population and its costs, develops cost-effective policy options, and implements reforms to manage correctional populations while enhancing public safety. JRI jurisdictions reinvest these cost savings into high-performing initiatives that make communities safer. In addition to reducing prison populations, justice reinvestment encourages states to embrace a culture of greater collaboration, data-driven decision-making, and increased use of evidence-based practices.

States may also compete for direct funding through the Justice Reinvestment Initiative: Maximizing State Reforms program which is designed to cement or amplify the goals of states justice reinvestment reform efforts, deepening their

investment in and commitment to and use of data-driven decisionmaking and evidence-based practices and programs. The objectives of the Maximizing State Reforms program are the following:

Increase corrections costs saved or avoided by reducing unnecessary confinement.

Increase reinvestment in evidence-based practices that reduce recidivism.

Support justice reinvestment reform efforts by promoting and increasing collaboration among agencies and officials who work in criminal justice, including state and local policymakers, law enforcement, prosecution, defense, pretrial, courts, probation, treatment, corrections, reentry, and parole.

Enhance the translation of evidence into practice by supporting the use of data analysis results to inform policy decisions.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Engagement of stakeholders across branches of government, political parties, and key special interest groups such as victim advocates, prosecutors, etc.

Analysis of data to identify criminal justice population and cost drivers.

Development of policy framework that leads to enacted JRI legislation at the state level.

Implementation of JRI legislation through high-performing programs and strategies to reduce incarceration costs and increase public safety.

Measurement of implementation of JRI strategy and reinvestment.

Renewals:

From 90 to 120 days. Yes, a grant can be supplemented or granted a no-cost extension, subject to BJA policy and contingent upon available appropriation.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. If a state has measured and reinvested savings (either projected or actual costs saved or avoided) into evidence-based strategies to reduce recidivism and make communities safer (see Selection Criteria outlined in the Solicitation for specifics), this solicitation does not require a match. If such a state proposes a voluntary match amount, however, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

If a state has not measured and reinvested savings (see Selection Criteria outlined in the Solicitation for specifics), a match is required, and the following requirements apply:

The amount of the match must equal the amount of federal funds being sought.

Match funds are subject to the same regulations and restrictions as the federal funds for this program.

Applicants must identify the source of the non-federal funds and how they will use the funds. If a successful applicants proposed match exceeds the required match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

Applicants may satisfy this match requirement with cash, in-kind services, or a combination of the two.

Match funds must be used for one or more of the states reinvestment strategies identified in the justice reinvestment process. For example, match funding can be used to expand or improve community-based treatment only if the JRI legislation or task force identified community-based treatment as a reinvestment priority. As another example, match funding could be used for skills-based trainings for probation officers if the states reinvestment strategies included more effective community supervision.

Applicants must identify the target(s) of the reinvestment match with specificity, including, if applicable, names of agencies, service providers, or staff positions to be funded; a description of the kind of service to be provided or functions to be performed; what period of time will be covered; and amounts of funding. Applicants must document these commitments by including relevant attachments to the application. Example: For a federal award amount of \$1,750,000, the required reinvestment match is \$1,750,000.

MOE requirements are not applicable to this program.

16.922 EQUITABLE SHARING PROGRAM

FEDERAL AGENCY:

Criminal Division, Department of Justice

AUTHORIZATION:

Civil Asset Forfeiture Reform Act (CAFRA), 18 U.S.C 981(e)(2); The Controlled Substances Act, 21 U.S.C 881(e).

OBJECTIVES:

The Department of Justice Asset Forfeiture Program is a nationwide law enforcement initiative that removes the tools of crime from criminal organizations, deters crime and deprives wrongdoers of their criminal proceeds, and recovers property that may be used to compensate victims. Equitable sharing further enhances the law enforcement mission by fostering cooperation among federal, state, and local law enforcement agencies. Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case.

TYPES OF ASSISTANCE:

Direct Payments for Specified Use

USES AND USE RESTRICTIONS:

The Comprehensive Crime Control Act of 1984 authorized federal officials to implement a national asset forfeiture program. One ancillary benefit of asset forfeiture is the authorization to share federal forfeiture proceeds with cooperating state and local law enforcement agencies, which provides agencies with valuable additional resources without burdening tax payer dollars. The Guide to Equitable Sharing for State and Local Law Enforcement Agencies

(Guide) outlines the policies and procedures governing the receipt, use, maintenance and reporting of forfeited funds received through the Department of Justice Equitable Sharing Program (Program). The Guide is supplemented with the National Code of Professional Conduct for Asset Forfeiture and all Program participants must ensure compliance with the Code. Except as noted in the Guide, equitably shared funds must be used by law enforcement agencies for law enforcement purposes only. Permitted expenditures listed in the Guide are pre-approved uses of shared funds and property, subject to policies and statutes governing the use of public funds. The fact that shared property was forfeited as a result of a particular federal violation does not limit its use.

Applicant Eligibility:

A state or local law enforcement agency meeting eligibility requirements set forth in the Guide and that directly participates in an investigation or prosecution resulting in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture. For purposes of equitable sharing, the Department of Justice defines a law enforcement agency as a state or local government organization authorized to engage in, as its primary function, the investigation and apprehension, or the prosecution of individuals suspected or convicted of offenses against the criminal laws of the United States or of any state, county, municipality, or territory of the United States. A state National Guard generally does not meet the law enforcement agency criteria for participation in the Program because its primary mission is a military or other non-law enforcement purpose. However, a National Guard Counterdrug unit may qualify for sharing if: (1) It is a distinct unit of a state National Guard that has counterdrug activities as its primary mission and receives funding solely for this purpose; or (2) It is a military police or similar state National Guard unit that provides support to federal law enforcement agencies in counterdrug activities.

Beneficiary Eligibility:

A state or local law enforcement agency meeting eligibility requirements set forth in the Guide and that directly participates in an investigation or prosecution that results in a federal forfeiture may request an equitable share of the net proceeds of the forfeiture.

Credentials/Documentation:

The federal deciding authority must approve all sharing requests and recommendations, including sharing percentages negotiated in a task force or other agreement, before sharing occurs. Sharing will only be awarded to agencies that are compliant Program participants in good standing with the policies set forth in the Guide. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. After the seizure or forfeiture of an identified asset, a participating state or local agency meeting all requirements set forth in the Guide may request a share of the property by submitting a Form DAG-71, Equitable Sharing Request Form, to the federal seizing agency. A separate Form DAG-71 must be completed for each asset to be shared.

Award Procedure:

Federal law authorizes the Attorney General to share federally forfeited property with participating state and local law enforcement agencies. The exercise of this authority is discretionary and limited by statute. The Attorney General is not required to share property in any case. No sharing request or recommendation is final until approved by the federal deciding authority. The equitable sharing deciding authority levels are specified in the Guide.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 120 to 180 days. The DAG-71 form must be submitted within 60 days of seizure of the asset. Late submissions will be accepted and reviewed on a case

by case basis.

Sharing determinations are generally made 120 to 180 days after forfeiture. However, longer periods may be required in complex cases.

Appeals:

The exercise of this authority is discretionary and limited by statute. It is not subject to appeal or court review.

Renewals:

Not Applicable.

Formula and Matching Requirements:

This program has no statutory formula.

This program has no matching requirements. Equitable sharing funds are eligible to cover the costs associated with paying a state or local law enforcement agency's matching contribution or share in a grant program, provided that the grant permits use of other federal funds to cover the match and the grant funds are used for a permissible law enforcement purpose in accordance with the Guide. Equitable sharing awards have non-supplanting requirements.

MOE requirements are not applicable to this program.

Length and Time Phasing of Assistance:

Not Applicable. See the following for information on how assistance is awarded/released: Funds are disbursed to participating agencies upon approval of individual asset sharing decisions.

Reports:

To ensure effective management, promote public confidence in the integrity of the Program, and protect the Program against potential waste, fraud, and abuse, participating agencies must follow reporting requirements in order to receive any distribution of money or property through the Program. To maintain compliance, a state or local law enforcement agency must annually submit to the Department of Justice Asset Forfeiture and Money Laundering Section (AFMLS) a signed Equitable Sharing Agreement and Certification form within 60 days after the end of the agency's fiscal year, regardless of whether funds were received or maintained during the fiscal year. The form must be signed by the heads of both the law enforcement agency and the governing body. By signing the forms Affidavit, the signatories agree to be bound by the policies that govern the Program, including but not limited to supplantation, the use, maintenance, and reporting of funds. Please see description under "Program Report". Please see description under "Program Report". Please see description under "Program Report". Performance monitoring is not applicable.

Audits:

In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance of \$500,000 or more in Federal awards will have a single or a program-specific audit conducted for that year. Nonfederal entities that expend less than \$500,000 a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133. In accordance with the provisions of OMB Circular No. A-133 (Revised, June 27, 2003), "Audits of States, Local Governments, and Non-Profit Organizations," nonfederal entities that expend financial assistance in excess of the applicable threshold in Federal awards will have a single or a program-specific audit conducted for that year. Non-federal entities that expend less than the applicable threshold in a year in Federal awards are exempt from Federal audit requirements for that year, except as noted in Circular No. A-133.

Fiscal Year 2014: During FY 2014, EBSA will continue efforts to implement newly expanded authority provided to the Secretary in health care reform laws. These laws include a number of provisions that will result in an increased number of civil and criminal multiple employer welfare arrangement (MEWA) investigations. A MEWA is an entity that offers or provides coverage for medical care to the employees of two or more employers. New health reform laws include provisions that will require MEWA entities to register with DOL and expands enforcement authority to include ex parte cease and desist and summary seizure orders. Included in the national Health Benefits Security Project, these types of investigations are among the most resource-intensive and will require EBSA to allocate additional resources to effectively enforce the new health care provisions and other ERISA provisions such as fiduciary duties. EBSA will continue to develop materials and conduct compliance workshops across the country to educate industry professionals about the new MEWA provisions and will enhance the MEWA Registration Form to facilitate targeting entities for investigation that may not have sufficient reserves to pay legitimate health care claims. Health and Human Services (HHS) will also identify areas where more enforcement action is necessary and share the information with EBSA for use in enforcement activities. 17.201 REGISTERED APPRENTICESHIP

Fitzgerald Act

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

National Apprenticeship Act of 1937 (Fitzgerald Act);

Unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register., Title 29, Part 29, Public Law 075-75-308, 29 U.S.C 1-4.

OBJECTIVES:

To promote, engage, and assist industry in the development, expansion, and improvement of Registered Apprenticeship. This program is designed to: provide skilled workers required by U.S. employers, ensure equal employment opportunities, and ensure the quality of all new and existing Registered Apprenticeship programs.

TYPES OF ASSISTANCE:

Advisory Services and Counseling; Project Grants (for specified projects); Training

USES AND USE RESTRICTIONS:

The Registered Apprenticeship system has been utilized to meet the needs of America's skilled workforce for more than 75 years. It is a unique, flexible training system that combines job-related-technical instruction with structured on-the-job learning experiences. Registered Apprenticeship is a leader in preparing American workers compete in a global 21st Century economy because the system keeps pace with advancing technologies and innovations in training and human resource development. Under the Office of Apprenticeship (OA), apprenticeship training programs and apprentices are registered in 25 States. OA also provides technical assistance and works closely with State Apprenticeship Agencies (SAAs) in the remaining 25 States, the District of Columbia, Guam, and two territories that register programs and apprentices in accordance with Federal standards. OA provides information on existing and recommended standards of training in Registered Apprenticeship. The wage rates of apprentices in registered programs (Federal and State) are exempt from the prevailing wage requirements of the Davis-Bacon Act and the Service Contract Act.

Registered programs are driven directly by the demands of the labor market.

The training is industry-recognized, voluntarily sponsored by an individual business or an employer association, and may be partnered with a labor organization through a collective bargaining agreement. OA brings these entities together, as appropriate, to formulate Registered Apprenticeship training programs which meet the federal standards. There are no grant funds available to employers for construction of training facilities, curricula development, and apprentices' subsidies. Apprentices start working from day one with incremental wage increases as they become more proficient on the job. Apprenticeships range from one to six years

The "Earn and Learn" training model of Registered Apprenticeship provides an assigned mentor for the on-the-job learning. The related instruction, technical training, or other certified training is provided by training centers, technical schools, community colleges and/or institutions employing distance and computer-based learning approaches. The goal is to provide workers with advanced skill sets that meet the specific needs of employers. Upon completion of a Registered Apprenticeship program, participants receive an industry issued, nationally-recognized credential that certifies occupational proficiency, is portable, and can provide a pathway to the middle class. In many cases, these programs provide apprentices with the opportunity to simultaneously obtain secondary and post-secondary degrees. Registered Apprenticeship is highly active in traditional industries such as construction and manufacturing but it is also instrumental in training and development in high-growth industries such as advanced manufacturing, energy, health care, homeland security, information technology, telecommunications, and more. The Registered Apprenticeship system provides the opportunity for workers seeking high-skilled, high-paying jobs and for employers seeking to build a quality workforce. In this regard, the Registered Apprenticeship system meets the needs of both workers and employers.

Applicant Eligibility:

Employers, unions, and other workforce intermediaries can be eligible to start and maintain Registered Apprenticeship programs. The vast majority of programs are not funded by Federal grant funds. The OA and SAAs provide technical assistance.

OA also administers two grant programs, as follows:

I. American Apprenticeship Grants (AAGs)

Approximately \$100 million in 25 grants ranging from \$2.5 million to \$5 million each will be awarded during the fall of Calendar Year 2015 to public and private partnerships consisting of employers, business associations, joint labor-management organizations, labor organizations, community colleges, local and state governments, and other non-profit organizations. Projects funded under the AAG will identify key innovations that seek to train significant numbers of new apprentices and scale apprenticeship programs at a statewide, multi-state, regional, or national level and play a catalytic role in ApprenticeshipUSA expansion. The grant performance period is 60 months. See <http://www.dol.gov/apprenticeship/grants.htm>

II. Women in Apprenticeship and Non-Traditional Occupations (WANTO) grants fund innovative projects to community-based organizations (CBOs) that are designed to improve women's participation in Registered Apprenticeship programs for nontraditional occupations in a broad range of industries. WANTO grants will not be awarded for Program Year (PY) 2015. PY 2013 and PY 2014 funds were awarded to three CBOs to establish regional/multi-state Technical Resource Centers to assist Registered Apprenticeship program sponsors to improve the recruitment, hiring, training, employment, and retention of women in apprenticeships. These grants which will expire in PY 2016 are jointly administered by the Department of Labor's Women's Bureau and the Employment and Training Administration. See http://www.doleta.gov/grants/grants_awarded.cfm.

Beneficiary Eligibility:

17.245 TRADE ADJUSTMENT ASSISTANCE**FEDERAL AGENCY:**

Employment Training Administration, Department of Labor

AUTHORIZATION:

The Trade Adjustment Assistance Reauthorization Act of 2015 (TAARA 2015), title IV of the Trade Preferences Extension Act of 2015 (Public Law 114-27), was signed into law by President Barack Obama on June 29, 2015.

Unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register.

, Public Law 114-27.

OBJECTIVES:

The Trade Adjustment Assistance (TAA) for Workers Program is a federal entitlement program that assists workers impacted by foreign trade. Through the provision of a number of employment-related benefits and services, the TAA Program provides trade-affected workers with opportunities to obtain the support, resources, skills, and credentials they need to return to the workforce in a good job in an in-demand industry. The program services include training, employment and case management services, job search allowances, relocation allowances, wage supplements for workers aged 50 and older, and Trade Readjustment Allowances (TRA).

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

State Workforce Agencies (SWAs) serve as agents of the United States and administer the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through their American Job Centers (AJC), formerly known as One-Stop Career Centers or by a different name, and other local offices, provide assessments, employment counseling, and job placement services; job search and relocation assistance; and training.

The weekly subsistence payments and wage supplements of TRA and A/RTAA are administered under the Unemployment Insurance program (see CFDA 17.225). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

Applicant Eligibility:**a. Applicant Eligibility (081):**

The TAARA 2015 maintains the expansions to the program made by the TAAEA, which were not operational under the TAAEA sunset provisions (the Reversion 2014 Program) : and provide TAA coverage to more workers and firms, including workers and firms in the service sector; made benefits available to workers whose jobs have been off-shored to any country (as opposed to covering a more limited set of shifts in production), improved workers training options, and increased the affordability of health insurance coverage (the Health Coverage Tax Credit). TAARA 2015 maintains the TAAEA's expansion in the scope of the program to better assist adversely affected workers in finding new employment. It reauthorizes funding for employment and case management services, and encourages the type of long-term training necessary for jobs in the 21st century economy through an extension of income support, and access to training for adversely affected incumbent workers.

b. Applicant Eligibility (081)

Under TARRA 2015, the more expansive TAAEA Group Eligibility requirements, including petition investigation criteria, apply to petitions filed on or after June 29, 2015, and retroactively apply to all petitions filed between January 1, 2014, and June 29, 2015.

Beneficiary Eligibility:

For a worker to be eligible to apply for TAA, the worker must be part of a group of workers that are the subject of a petition filed with the Department. Three workers of a company, a company official, a union or other duly authorized representative, or an AJC operator or partner may file that petition with the Department. In response to the filing, the Department initiates an investigation to determine whether foreign trade was an important cause of the workers job loss or threat of job loss. If the Department determines that the workers meet the statutory criteria for group certification of eligibility for the workers in the group to apply for TAA, the Department grants the petition and issues a certification.

Once covered by a certification, individual workers apply for benefits and services through the AJCs. Most benefits and services have specific individual eligibility criteria that must be met, such as previous work history, unemployment insurance eligibility, and individual skill levels.

The TAA program currently offers the following benefits and services to eligible individuals: training, weekly income support in the form of TRA, out-of-area job search and relocation allowances, case management and employment services, and wage supplement for qualified older workers through RTAA.

No Credentials or documentation are required. This program is excluded from coverage under 2 CFR 200, Subpart E - Cost Principles.

AUTHORIZATION:

The Workforce Innovation and Opportunity Act (WIOA)

The Workforce Innovation and Opportunity Act (WIOA) was passed on July 22, 2014. It supersedes titles I and II of the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. The law went into effect on July 1, 2015. Also, unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register., Public Law 113-128; The Workforce Investment Act, Public Law 105-220.

OBJECTIVES:

To prepare workers -- particularly individuals with barriers to employment -- for good jobs by providing job search assistance and training. The Adult Program provides an emphasis on serving public assistance recipients, other low-income individuals, and individuals who are low-skilled. Program performance is measured by entry into unsubsidized employment and earnings. The program serves individuals and helps employers meet their workforce needs. The employment goals will be measured using the Unemployment Insurance Wage Records Information System.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The new Act specifies that most services for adults will be provided through the American Job Centers, also known as One Stop Career Centers. The Act authorizes that funds be used to provide career services. These services include: a determination that the individual is eligible to receive assistance, outreach, intake and orientation to the information and other services available through the one-stop delivery system; initial assessment of skill levels, aptitudes, abilities, and supportive service needs. If deemed eligible, the individual may receive training services. These training services will be linked to job opportunities in their communities, including occupational training, work-based training and basic skills training. To promote customer choice and involvement in career decisions, most participants use an "Individual Training Account (ITA)" to select an appropriate training program from an eligible training provider. WIOA also authorizes the provision of supportive services

(e.g. transportation and child care assistance) to enable an individual to participate in the program. Consistent with the allowable activities in the statute.

Applicant Eligibility:

Under WIOA, the organizations eligible to receive funding from the Department are the 50 States, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula. The states in turn allocate funds to local workforce development boards who are responsible for operating American Job Centers (approximately 2,500 nationwide). WIOA requires allotments for the outlying areas to be competitively distributed rather than based on a formula determined by the Secretary of Labor as had occurred under the Workforce Investment Act. For PY 2015, which is considered a transitional year, the Secretary will continue to fund the outlying areas by formula.

Beneficiary Eligibility:

All adults 18 years and older are eligible to receive career services. Priority for career and training services must be given to public assistance recipients other low income populations, and low-skilled individuals. Priority of service is given to veterans and other covered persons. States and local areas are responsible for establishing procedures for applying the priority requirements.

Credentials/Documentation:

Formula-funded programs are subject to Governor/Secretary Agreement and State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Governor must submit a single WIOA Unified or Combined State Plan in accordance with planning guidance issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan, and provides a framework for collaboration across programs and integration of services including the WIOA Title I programs and Wagner-Peyser Activities, as well as WIOA Titles II and IV programs housed with the Department of Education. States may also submit a Combined State Plan which includes the programs mentioned above as well as other workforce development programs administered by DOL, Department of Education, Health and Human Services, the Department of Agriculture, and the Department of Housing and Urban Development. The Unified or Combined State Plan is submitted to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

Award Procedure:

Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the states based on a statutory formula provided in the authorizing legislation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the State Plan is inconsistent with the provisions of Title I of WIA or the WIA regulations, including 29 CFR Part 37; or (2) the portion of the State Plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for

The Workforce Innovation and Opportunity Act (WIOA)

The Workforce Innovation and Opportunity Act (WIOA) was passed on July 22, 2014. It supersedes titles I and II of the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. The law went into effect on July 1, 2015. Also, unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register, Title I, Part Subtitle B, Section Chapter 2, Public Law 113-128; The Workforce Investment Act, Public Law 105-220.

OBJECTIVES:

To help low income youth, between the ages of 14 and 24, acquire the educational and occupational skills, training, and support needed to achieve academic and employment success and successfully transition into careers and productive adulthood.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

Title I of the Act authorizes the Workforce Innovation and Opportunity Act System and establishes state workforce development boards with oversight responsibility by the governors for local workforce development boards; and establishes the process by which eligible providers of training and youth activities are identified. The Act authorizes the use of funds for youth employment and training activities that will provide eligible youth assistance in achieving careers and academic and employment success; ensures ongoing mentoring opportunities; provides opportunities for training; provides continued supportive services; and provides opportunities for leadership, youth development, financial literacy, entrepreneurship, and community service. Funds must be used in accordance with the rules and regulations. Section 129(C)(4)(A) increases the minimum Out-of-School Youth expenditure rate for youth formula funded programs to 75 percent. Additionally, Section 129(c)(4) prioritizes work experiences with the requirement that local areas must spend a minimum of 20 percent of non-administrative local area funds on work experience. Funds must be used in accordance with the rules and regulations.

Applicant Eligibility:

Under WIOA, 50 states, Puerto Rico, the District of Columbia, and the outlying areas are identified as the recipients of youth training activities funds. For a state to be eligible to receive youth funds, the governor of the state will submit a Unified or Combined State Plan to the Secretary of DOL that outlines a 4-year strategy for the States workforce development system.

Beneficiary Eligibility:

To be eligible to participate in the WIOA youth program, an individual must be

an Out-of-School Youth or an In-School Youth.

Under WIOA, an out-of-school youth is an individual who is:

- (a) Not attending any school (as defined under State law);
- (b) Not younger than 16 or older than age 24 at time of enrollment. Because age eligibility is based on age at enrollment, participants may continue to receive services beyond the age of 24 once they are enrolled in the program; and
- (c) One or more of the following:
 - (1) A school dropout;
 - (2) A youth who is within the age of compulsory school attendance, but has not attended school for at least the most recent complete school year calendar quarter. School year calendar quarter is based on how a local school district defines its school year quarters;
 - (3) A recipient of a secondary school diploma or its recognized equivalent who is a low-income individual and is either basic skills deficient or an English language learner;
 - (4) An individual who is subject to the juvenile or adult justice system;
 - (5) A homeless individual, a runaway, an individual who is in foster care or has aged out of the foster care system, a child eligible for assistance under section 477 of the Social Security Act, or an individual who is in an out-of-home placement;
 - (6) An individual who is pregnant or parenting;
 - (7) An individual with a disability;
 - (8) A low-income individual who requires additional assistance to enter or complete an educational program or to secure or hold employment. (WIOA sections 3(46) and 129(a)(1)(B).)

Under WIOA, An in-school youth (ISY) is an individual who is:

- (a) Attending school (as defined by State law), including secondary and post-secondary school;
- (b) Not younger than age 14 or (unless an individual with a disability who is attending school under State law) older than age 21 at time of enrollment. Because age eligibility is based on age at enrollment, participants may continue to receive services beyond the age of 21 once they are enrolled in the program;
- (c) A low-income individual; and
- (d) One or more of the following:
 - (1) Basic skills deficient;
 - (2) An English language learner;
 - (3) An offender;
 - (4) A homeless individual, a homeless child or youth, a runaway, in foster care or has aged out of the foster care system, a child eligible for assistance under sec. 477 of the Social Security Act, or in an out-of-home placement;
 - (5) An individual who is pregnant or parenting;
 - (6) An individual with a disability;
 - (7) An individual who requires additional assistance to enter or complete an educational program or to secure or hold employment. (WIOA secs. 3(27) and 129(a)(1)(C)).

Credentials/Documentation:

, Section 414(c), Public Law 105-227.

OBJECTIVES:

The H-1B Job Training Grant Program funds projects that provide training and related activities to workers to assist them in gaining the skills and competencies needed to obtain or upgrade employment in high-growth industries or economic sectors. A very small percentage of funds will be used by the Department of Labor for grants administration, technical assistance, and performance reporting.

Applicant Eligibility:

Grants may be awarded to a partnership of private and public sector entities as defined in the American Competitiveness and Workforce Improvement Act (ACWIA). Applicants may generally be public and non-profit organizations. See the Solicitation for Grant Applications (SGAs) for specific requirements.

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. Grants for projects are awarded on a competitive basis, announced in Solicitation for Grant Applications (SGAs) in the Federal Register and also on ETA's Internet Web site at <http://www.doleta.gov>. To compete for a grant, organizations develop a proposal and budget that demonstrate how the organization will provide services to a targeted population. The SGAs provide all of the necessary information for applying for federal assistance.

Award Procedure:

Procedures for each project are specified in the applicable request for proposals.

Generally, the procedure is as follows: A technical review panel composed of staff from ETA program offices as well as peer reviewers evaluates eligible submitted applications. The panel prepares a report for the ETA Grant Officer identifying the strengths and weaknesses of the application and the cumulative rating. Selections are made based on the best rated proposals, as well as other factors cited in the SGA. Once selections are made by the Grant Officer, an Award Notification is sent through the appropriate congressional channels for notification. After awardees are notified, the list of awardees is posted on the ETA website at www.doleta.gov. If an application is rejected, a letter is sent to the applicant as notification that they were not selected as a recipient of the grant.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 90 to 120 days. ETA announces grant recipients once the paneling process is complete, generally 90 to 120 days after the application deadline.

For applicants that do not include incumbent worker training activities, cost sharing or matching funds are

not required as a condition for application.

17.273 TEMPORARY LABOR CERTIFICATION FOR FOREIGN WORKERS**FEDERAL AGENCY:**

Employment Training Administration, Department of Labor

AUTHORIZATION:

Immigration and Nationality Act of 1952, as amended, Sections 101(a)(15)(H), 212(n), 214(c) and 214(i), Section 101, 212, 214, Public Law 82-414, 66 Stat. 163, 8 U.S.C 1101 et seq; Omnibus Insular Areas Act of 1991, Public Law 102-232, 105 Stat. 1733, 8 U.S.C 1182; Immigration Act of 1990, Public Law 101-649, 104 Stat. 4978, 8 U.S.C 1182(n), 1184; Immigration Reform and Control Act of 1986, Public Law 99-603, 100 Stat. 3359, 8 U.S.C 1186.

OBJECTIVES:

To provide greater protection for U.S. and foreign workers while assisting U.S. employers to obtain temporary foreign workers, when needed. Also, to enable agricultural and other employers to obtain foreign workers for temporary or seasonal jobs when domestic workers are not available; and to assure adequate working and living conditions for domestic and foreign workers employed in similar tasks.

TYPES OF ASSISTANCE:

Federal Employment; Formula Grants; PROVISION OF SPECIALIZED SERVICES

USES AND USE RESTRICTIONS:

The Department of Labor issues labor certifications for temporary employment under several programs: H-1B Specialty (Professional) Worker Program, H-1B1 Specialty Worker Program (professionals from Chile or Singapore working in specialty occupations), E-3 Specialty Worker Program (professionals from Australia working in specialty occupations), H-2A Temporary Employment Certification (Agricultural), H-2B Temporary Employment Certification (Non-Agricultural), and D-1 Crewmember Program.

Applicant Eligibility:

H-2A Program: An agricultural employer who anticipates a shortage of U.S. workers needed to perform agricultural labor or services of a temporary or seasonal nature. The employer may be an individual proprietorship, a partnership or a corporation. An association of agricultural producers may file as a sole employer, a joint employer with its members, or as an agent of its members. An authorized agent or attorney, whether an individual or an entity (e.g., an association), may file an application on behalf of an employer. Associations may file master applications on behalf of their members. H-2B Program: The job and the employer's need must be one time, seasonal, peak load or intermittent; the job must be for less than one year; and there must be no qualified and willing U.S. workers available for the job. An employer must file an application for employment certification with the Chicago National Processing Center of the Employment and Training Administration. State Workforce Agencies are federally funded to issue prevailing wage determinations for foreign labor certification programs.

Beneficiary Eligibility:

Grants support state activities to help employers recruit U.S. workers before seeking to hire a foreign worker. These labor conditional applications and foreign labor certification programs govern employers who have a need for workers in specialty occupations, or as fashion models of distinguished merit and ability, or in temporary agricultural or non-agricultural employment.

Credentials/Documentation:

In the major temporary employment certification programs, employers sponsoring foreign workers to fill a temporary need file the certification from the Department of Labor as documentation in support of their respective I-129 nonimmigrant worker petitions with the Department of Homeland Security, United States Citizenship and Immigration Services (USCIS). In the H-1B1 and

E-3 programs, a USCIS petition is not needed for initial visa issuance, and the foreign national may use proof of labor condition application certification in support of the visa application. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is not applicable. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. States and U.S. territories receive these to support federal foreign labor certification activities. They submit work plans each year to obtain continued eligibility for the grant. Employers who participate in foreign labor certification programs do not receive funding from these grants, but do benefit from the services offered by these state agencies to recruit U.S. workers for positions before they apply to hire a foreign worker. Employers contact the appropriate office of the Employment and Training Administration. Also see <http://www.doleta.gov/business/gw/guestwkr/> for additional details on specific programs.

Award Procedure:

State Workforce Agencies receive notification of grant award after federal approval of their workplans. Employers must prove they qualify for foreign labor certification before they can move to the next step of the employment-based immigration process. Certifications are sent to the employer in support of the petition to be filed with the U.S. Citizenship and Immigration Services which determines admissibility and Visa classification. The employer, via the ETA Form 9142, advises as to the type of visa which is supported by the application. Certified copies of accepted attestations for the D-1 Crewmember program are returned to the employer and the USCIS is notified of the filing in writing. Grants: State Workforce Agencies receive funds upon acceptance of their work plans.

Deadlines:

Not Applicable.

Range of Approval/Disapproval Time:

H-1B: From one to seven days. H-2A: Statute requires an initial acceptance by ETA within seven days of filing, and a final determination 30 days prior to the employer's date of need. 8 U.S.C. Section 1188(c).

Appeals:

There is no procedure for appealing Employment and Training Administration determination to accept or reject a Labor Condition Application submitted for the H-1B, H1-B1, and E3 Programs. Complaints regarding misrepresentation in the attestation or failure of the employer to carry out the terms of the attestation may be filed with the Wage and Hour Division at the Department of Labor.

17.276 HEALTH CARE TAX CREDIT (HCTC) NATIONAL EMERGENCY GRANTS (NEGS)

The legislation that authorized this HCTC program expired on January 1, 2014; however, the reauthorized Trade Act also reauthorized HCTC. Funds have not yet been provided for this program, but the CFDA will be updated once those funds become available.

FEDERAL AGENCY:

Employment Training Administration, Department of Labor

AUTHORIZATION:

American Recovery and Reinvestment Act of 2009 (Public Law 111-5), Trade Act of 1974 (Public Law 93-618), as amended; Trade Adjustment Assistance (TAA) Reform Act of 2002 (Public Law 107-210), as reauthorized by the TAA Extension Act of 2011; Workforce Investment Act Section 173(g)(29 U.S.C. 2918), Public Law 111-5.

OBJECTIVES:

To provide health insurance coverage assistance and support related services to individuals eligible for Trade Adjustment Assistance (TAA), alternative TAA, or a PBGC pension, as authorized under the Trade Adjustment Assistance Reform Act of 2002, and reauthorized under the TAA Extension Act of 2011.

TYPES OF ASSISTANCE:

Project Grants

USES AND USE RESTRICTIONS:

Please Note: The legislation that authorizes the HCTC program expires on January 1, 2014 and the tax credit will no longer be available. With the expiration of the IRS HCTC program, ETA will no longer accept applications or award HCTC NEG's.

There are two types of HCTC NEG's: infrastructure and Gapfiller. Infrastructure NEG funds can be used to help states establish the systems and procedures needed to make healthcare benefits available for eligible individuals. Gapfiller NEG's can be used to provide assistance and support services, including qualifying health insurance coverage, transportation, child care, dependent care and income assistance, to eligible individuals waiting to receive payments through the HCTC. The HCTC is equal to 72.5 percent of the amount paid by an eligible individual for qualified health coverage. Monthly payments are made directly to a health plan administrator on behalf of participants, allowing them to receive the benefit of the tax credit at the time of need. States may request HCTC NEG funds to cover up to three months of gap payments to support 72.5 percent of the qualified premium for eligible individuals. The gap period is defined as the period after the state determines a candidate's eligibility for HCTC until the IRS enrolls, processes, and pays a candidate's first payment under the HCTC program. This period is usually one month, but depending on the timing and other factors can take up to three months, and sometimes slightly longer in rare instances. NEG funding for gap periods is predicated on the fact that the individual remains eligible for the HCTC for all gap months. NEG's funds are discretionary.

AUTHORIZATION:

The Workforce Innovation and Opportunity Act (WIOA)

The Workforce Innovation and Opportunity Act (WIOA) was passed on July 22, 2014. It supersedes titles I and II of the Workforce Investment Act of 1998, and amends the Wagner-Peyser Act and the Rehabilitation Act of 1973. The law went into effect on July 1, 2015. Also, unless otherwise stipulated, recipients are subject to Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Final Rule on December 26, 2013 and found at 2 CFR Part 200 along with the OMB approved exceptions for DOL at 2 CFR Part 2900 published on December 19, 2014 in the Federal Register., Public Law 113-128; The Workforce Investment Act, Public Law 105-220.

OBJECTIVES:

The purpose of the WIA Dislocated Worker program is to help dislocated workers become reemployed through job search assistance and/or training that builds their occupational skills to meet labor market needs. This program's success is measured by participants' entry and retention into unsubsidized employment, and average earnings. As a result with the WIOA repealing the Workforce Investment Act, the program will now measure median earnings in lieu of average earnings.

TYPES OF ASSISTANCE:

Formula Grants

USES AND USE RESTRICTIONS:

The Act specifies that most services for adult and dislocated workers will be provided through the American Job Centers (AJCs) also known as One-Stop Career Centers. The Act authorizes that funds be used to provide career services. These services include: a determination that the individual is eligible to receive assistance, outreach, intake and orientation to the information and other services available through the one-stop delivery system; initial assessment of skill levels, aptitudes, abilities, and supportive service needs. Other services include more comprehensive assessments, development of individual employment plans, counseling, and career planning. Participants will also receive "training" services linked to job opportunities in their communities. To promote customer choice and involvement in career decisions, participants use an "Individual Training Account" (ITA) to select an appropriate training program from an eligible training provider. WIOA also authorizes the provision of supportive services (e.g. transportation and child care assistance) to enable an individual to participate in the program. Funds reserved by the Secretary are also used for technical assistance and training and demonstration programs. Consistent with the allowable activities in the statute. Funds must be used in accordance with the statute and regulations.

Applicant Eligibility:

Under WIOA, the organizations eligible to receive formula-based funding from the Department are the 50 states, Puerto Rico, the District of Columbia and the outlying areas. Funds are allotted based on a statutory formula and states, in turn, allocate funds to local workforce investment boards (approximately 600), by formula prescribed by the governor. WIOA requires allotments for the outlying areas to be competitively distributed rather than based on a formula determined by the Secretary of Labor as had occurred under the Workforce Investment Act. For PY 2015, which is considered a transitional year, the Secretary will continue to fund the outlying areas by formula.

Beneficiary Eligibility:

Individuals eligible for assistance through the Act include workers who have lost their jobs, including those dislocated as a result of plant closings or mass layoffs, and are unlikely to return to their previous industry or occupation; formerly self-employed individuals; and displaced homemakers who depend on income of another family member, but are no longer supported by that income. Priority of Service is given to veterans and other covered persons.

Credentials/Documentation:

Formula-funded programs are subject to an agreement between the Governor and Secretary and an approved State Plan. States sign a grant document agreeing to comply with the Act and regulations for the formula-allotted program. 2 CFR 200, Subpart E - Cost Principles applies to this program.

Preapplication Coordination:

Preapplication coordination is required. Environmental impact information is

not required for this program. This program is eligible for coverage under E.O. 12372, "Intergovernmental Review of Federal Programs." An applicant should consult the office or official designated as the single point of contact in his or her State for more information on the process the State requires to be followed in applying for assistance, if the State has selected the program for review.

Application Procedures:

2 CFR 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards applies to this program. The Governor must submit a single WIOA Unified or Combined State Plan in accordance with planning guidance issued through the Federal Register. The planning guidance provides detailed instruction on what must be included in the State Plan, and provides a framework for collaboration across programs and integration of services including the WIOA Title I programs and Wagner-Peyser Activities, as well as WIOA Titles II and IV programs housed with the Department of Education. States may also submit a Combined State Plan which includes the programs mentioned above as well as other workforce development programs administered by DOL, Department of Education, Health and Human Services, the Department of Agriculture, and the Department of Housing and Urban Development. The Unified or Combined State Plan is submitted to the Federal Coordinator for Plan Review and Approval (currently Heather Fleck), Division of WIOA Adult Services and Workforce System, Office of Workforce Investment, Employment and Training Administration, Department of Labor, 200 Constitution Avenue, NW, Room S-4209, Washington, DC 20210.

Award Procedure:

Those portions of the State Plan over which the Assistant Secretary for Employment and Training exercises authority are reviewed and approved by the Employment and Training Administration. Formula funds are awarded to the states based on a statutory formula provided in the authorizing legislation.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

From 60 to 90 days. State plans will be reviewed in accordance with 20 CFR 661.220(e), which provides that the Secretary must approve all state plans within 90 days of their submission, unless the Secretary determines in writing that: (1) the state plan is inconsistent with the provisions of Title I of WIA or the WIA regulations, including 29 CFR Part 37; or (2) the portion of the state plan impacting the Wagner-Peyser Act plan does not satisfy the criteria for approval in section 8(d) of the Wagner-Peyser Act or the Wagner-Peyser Act regulations at 20 CFR Part 652.

PROGRAM ACCOMPLISHMENTS:

Fiscal Year 2014: In FY 2014, the Women's Bureau worked to maintain and develop projects in its effort to promote an environment responsive to the demands and challenges of the 21st Century workforce. As it has for more than 90 years, the Women's Bureau continued efforts to meet its mandate by identifying, researching and analyzing the topics working women care about most; pioneering innovative policies and programs to address them; and enhancing public education and outreach efforts to raise awareness on key issues and developments affecting women in the workforce. The Bureau has worked to level the playing field for all women in the labor force, recognizing that true equal opportunity would have a positive impact not only on women's own financial stability, but also on the broader economic security of their families and on the well-being of our nation.

In cooperation with numerous women's, Federal, state, community, and faith-based organizations, the Bureau worked to conduct research, projects, and outreach on issues of importance to working women, and provide information about women in the labor force to stakeholders and customers. Specifically, the Bureau's goals focused on reducing barriers that inhibit or prevent women's access to and retention in better jobs; and ensuring women's fair treatment in the workplace through the following strategies: **IMPROVING WORKPLACE PRACTICES AND SUPPORTS** In the spring of 2014, the White House, the Department of Labor and the Center for American Progress hosted a Summit on Working Families to focus on creating a 21st century workplace that works for all Americans. Leading up to that event, the Women's Bureau convened forums and roundtables in cities across the United States. The events brought together high-ranking Administration officials; researchers; advocates; businesses; unions; and federal, state and local elected officials and generated conversations about the challenges working families face, successful business practices, and the Administration's goals for addressing these issues. The Bureau is working with stakeholders to address the issues that face families at all stages of their work lives. **PROMOTING GREATER ACCESS TO AND PREPARATION FOR BETTER JOBS FOR WOMEN** Women's Bureau, through various outreach and research efforts, continued to help women prepare for, participate and advance in, and retain non-traditional, high-growth, and higher-paying jobs. Female-dominated occupations have been found to pay less than male-dominated occupations with the same skill levels, and women have relatively low shares of employment in high-paying jobs such as those in transportation, construction, and science, technology, engineering, and math (STEM) fields. **PROMOTING FAIR COMPENSATION AND EQUAL OPPORTUNITY** Women's Bureau seeks to educate workers on their rights and employers on their legal obligations to ensure fair compensation. Although women earn less than men for reasons such as the lower-paying jobs they

traditionally perform, around 40% of the difference in wages remains unexplained. The Bureau is conducting research to identify additional factors that contribute to the wage gap and how to overcome them, as well as look for ways to improve compensation for lower-wage jobs that employ large numbers of women.

PUBLICATIONS In FY 14, the Women's Bureau updated its Overview, and published versions of its publication, *The Economic Status of Women in Color* in Spanish, Vietnamese, and Traditional as well as Simplified Chinese. A publication on the workplace outlook for older women, titled *Older Women and Economic Security*, as well as infographics on the progress of women in the workforce over the past 50 years and working mothers were produced. The Bureau also continued web updates of key statistics on women workers and maintained an active social media presence with regular blog posts and tweets on issues relating to women and work. **Fiscal Year 2015:** In FY 2015, the Women's Bureau celebrated 95 years of efforts authorized by Public Law 66-259, to formulate standards and policies which shall promote the welfare of wage-earning women, improve their working conditions, increase their efficiency, and advance their opportunities for profitable employment.

The mission of the Bureau is to develop policies and standards and conduct inquiries to safeguard the interests of working women, advocate for their equality and economic security for themselves and their families, and promote quality work environments. This mission is critical to addressing the workplace challenges faced by working women as well as advancing the Department's vision of promoting and protecting opportunity in an economy that includes workplaces free of discrimination, equal pay for equal work, and fair and equitable working environments. In FY 15, the Bureau focused on three policy goals: women's increased participation in demand and non-traditional occupations, fair treatment of women in the workplace, and workplace policies that support working women and their families.

WOMENS INCREASED PARTICIPATION IN DEMAND AND NON-TRADITIONAL OCCUPATIONS --

Women's Bureau research in FY 14 identified the transportation industry as an occupation offering high-growth, high-tech, and higher-paying opportunities for women; however a significant barrier in the industry is the lack of family-friendly policies. In FY 15, the Bureau developed a toolkit targeted to transportation organizations, technical schools, community colleges, 4-year colleges and graduate schools. The toolkit was designed to provide women with information about transportation career paths, benefits of working in the transportation industry including flexible work arrangements, and information to help promote the career advancement of women.

The Bureau also created a digital clearinghouse to support a repository of information on access to non-traditional occupations, promising industry practices, job and training opportunities, relevant federal and state legislation, projects, and important research and data. A webinar on women in construction provided information on ongoing approaches and strategies for leveraging federal programs for expanding women's access to jobs in the construction industry.

Focusing on other underrepresented segments of the population of working women, the Bureau also conducted research on immigrant women workers, older women workers, women with disabilities, and women veterans.

FAIR TREATMENT OF WOMEN IN THE WORKPLACE The Women's Bureau continued its role as a leading advocate for equal pay for women. In collaboration at both national and local levels with member agencies of the Equal Pay Task Force (including the Department of Labor's Office of Federal Contract Compliance Programs (OFCCP) and Wage and Hour Division (WHD) and the Department of Justice), the Bureau worked to heighten awareness of the prevalence of the equal pay problem and its adverse effects on individuals, groups, and the national economy. A fact sheet on pay secrecy was also produced, focusing on workplace policies prohibiting employees from discussing how much money they make. The publication explains a 2014 executive order that keeps federal contractors from retaliating against employees who discuss salaries or compensation information and a federal labor law from 1935 that protects employees who talk about their salaries at work.

WORKPLACE POLICIES THAT SUPPORT WORKING WOMEN AND THEIR FAMILIES Building on the 2014 White House Summit on Working Families and the National Dialogue on Workplace Flexibility in 2011, the Bureau continued its support of flexible leave policies in FY15. Collaborating with other Department of Labor agencies, the Bureau supported research on the effects of paid leave policies in states through the administration of a Paid Leave Analysis Grant Program. The small grants program was designed to allow states to undertake paid leave research and analysis studies that will allow them to develop and/or implement state leave funds. The Bureau also built on a comprehensive list of federal and state laws providing employment protections for workers who are pregnant or nursing, developing an online map that shows which U.S. states have laws, statutes, and/or interpretive case law that specifically prohibit pregnancy discrimination and/or mandate support of nursing mothers expressing milk in the workplace. A supporting publication was developed to educate employees and employers about low or no cost accommodations for pregnant and/or nursing women workers.

The Womens Bureau continued work on its survey of working women, which will identify womens current employment issues and challenges and barriers to economic security. The survey focuses on womens reason(s) for choosing to exit or not exit the workplace, based on its ramifications for future earnings, leadership opportunities, benefits, etc. The survey results will provide the Bureau with information that will be used to develop a research and policy agenda to better serve working women.

PUBLICATIONS In FY15, the Womens Bureau produced infographics providing at-a-glance information on First Time Mothers at Work, Black Women in the Labor Force, Asian-American and Pacific Islander Women in the Labor Force, and Equal Pay. Also produced were publications focusing on pay secrecy and women veterans, including a profile on women veterans, a women veterans resource directory, and a women veterans employment toolkit. Research for publications on worker rights, workplace flexibility, and a handbook on women workers developed in FY14, were completed. The Bureau also continued web updates of key statistics on women workers and maintained an active social media presence with regular blog posts and tweets on issues relating to women and work. 17.806 VETERAN'S PREFERENCE IN FEDERAL EMPLOYMENT**FEDERAL AGENCY:**

Veteran's Employment and Training Service, Department of Labor

AUTHORIZATION:

Veterans Preference Act of 1944, Public Laws 78-359, 93-508, 94-502, 95-520, 95-454, 97-72, 97-306, 98-543, 99-576, 101-237, 102-16, 102-568, 105-339, and 106-117; 109-163; Executive Order 11521, March 26, 1970.

OBJECTIVES:

To provide assistance to preference eligible individuals who believe that their rights under veterans' preference statutes and regulations have been violated. Recognizing their sacrifice, Congress enacted laws to prevent veterans seeking Federal employment from being penalized for their time in military service. Veterans' preference recognizes the economic loss suffered by citizens who have served their country in uniform, restores veterans to a favorable competitive position for Government employment, and acknowledges the larger obligation owed to disabled veterans. Veterans' preference is not so much a reward for being in uniform as it is a way to help make up for the economic loss suffered by those who answered the nation's call to arms. Historically, preference has been reserved by Congress for those who were either disabled or who served in combat areas. Eligible veterans receive many advantages in Federal employment, including preference for initial employment and a higher retention standing in the event of layoffs. However, the veterans' preference laws do not guarantee the veteran a job, nor do they give veterans' preference in internal agency actions such as promotion, transfer, reassignment, and reinstatement. By law, veterans who are disabled or who served on active duty

in the Armed Forces during certain specified time periods or in military campaigns are entitled to preference over others in hiring from competitive lists of eligibles and also in retention during reductions-in-force. Preference applies in hiring for virtually all Federal jobs, whether in the competitive or excepted service. In addition to receiving preference in competitive appointments, veterans may be considered for special noncompetitive appointments for which only they are eligible.

TYPES OF ASSISTANCE:

FEDERAL EMPLOYMENT

USES AND USE RESTRICTIONS:

To assist persons who perform service in the uniformed services to secure Federal employment and to ensure a higher retention standing in the event of a reduction-in-force. To provide information and assistance to veterans, employers, labor organizations, and other elements of the community concerned with veterans' preference in Federal employment and retention. The Department of Labor - Veterans' Employment and Training Service investigates complaints with the goal of voluntary resolution of veterans' preference problems. Unresolved complaints can be pursued by the complainant veteran to the Merit Systems Protection Board.

Applicant Eligibility:

(1) Five-point preference is given to those honorably separated veterans (this means an honorable or general discharge) who served on active duty (not active duty for training) in the Armed Forces: During any war (this means a war declared by Congress, the last of which was World War II); during the period April 28, 1952, through July 1, 1955; for more than 180 consecutive days, any part of which occurred after January 31, 1955, and before October 15, 1976; during the Gulf War period beginning August 2, 1990, and ending January 2, 1992; for more than 180 consecutive days, any part of which occurred during the period beginning on September 11, 2001, and ending on the date prescribed by Presidential proclamation or by law as the last date of Operation Iraqi Freedom; or in a campaign or expedition for which a campaign medal has been authorized, such as El Salvador, Lebanon, Granada, Panama, Southwest Asia, Somalia, and Haiti. Medal holders and Gulf War veterans who originally enlisted after September 7, 1980, or entered on active duty on or after October 14, 1982, without having previously completed 24 months of continuous active duty, must have served continuously for 24 months or the full period called or ordered to active duty. Effective on October 1, 1980, military retirees at or above the rank of major or equivalent, are not entitled to preference unless they qualify as disabled veterans. Ten-point preference is given to those honorably separated veterans who: (1) Qualify as disabled veterans because they have served on active duty in the Armed Forces at any time and have a present service-connected disability or are receiving compensation, disability retirement benefits, or pension from the military or the Department of Veterans Affairs; or (2) are Purple Heart recipients; the spouse of a veteran unable to work because of a service-connected disability; the unmarried widow of certain deceased veterans; and the mother of a veteran who died in service or who is permanently and totally disabled. When applying for Federal jobs, eligible veterans should claim preference on their application or resume. Applicants claiming 10-point preference must complete form SF- 15, Application for 10-Point Veteran Preference. Veterans who are still in the service may be granted 5 points tentative preference on the basis of information contained in their applications, but they must produce a DD Form 214 prior to appointment to document entitlement to preference. Note: Reservists who are retired from the Reserves but are not receiving retired pay are not considered "retired military" for purposes of veterans' preference. (2) Veterans who have been separated from the armed forces under honorable conditions shortly before completion of 3 years, or completion of 3 years or more of active duty military service are eligible to compete for vacant Federal positions for which the agency making the announcement will accept applications from individuals outside its own workforce under merit promotion procedures. This does not make them preference eligible, but allows access to certain Federal job openings for which they would otherwise not be entitled to apply. (3) Public Law 94-502 authorizes Federal agencies to provide unpaid training or work experience, as a part of the Department of Veterans Affairs vocational rehabilitation for a disabled veteran. Such training may be designed to provide noncompetitive appointment.

Beneficiary Eligibility:

Non-disabled veterans, disabled veterans and certain wives or husbands, widows, widowers, and mothers of veterans.

Credentials/Documentation:

For veterans' preference, general proof of honorable separation such as discharge certificate or DD Form 214. In addition, for 10-point preference, a letter from the Department of Veterans Affairs or military department certifying existence of service-connected disability. When the 10-point preference is based on the award of a Purple Heart, official documentation of the award is sufficient. This program is excluded from coverage under OMB Circular No. A-87.

Preapplication Coordination:

None. Environmental impact information is not required for this program. This program is excluded from coverage under E.O. 12372.

Application Procedures:

This program is excluded from coverage under OMB Circular No. A-102. This program is excluded from coverage under OMB Circular No. A-110. Application forms are available from Service Centers of the Office of Personnel Management and from Federal agency personnel offices. Veterans eligible for noncompetitive appointment should make personal contact with the Federal agency where they would like to be considered for employment. Veterans who believe that they have not been properly accorded their rights have several different avenues of complaint, depending upon the nature of the complaint and the individual's veteran status: The Veterans Employment Opportunities Act of 1998 allows preference and other eligibles to file a complaint with the Department of Labor's Veterans' Employment and Training Service (VETS) when the person believes an agency has violated his or her rights under any statute or regulation relating to veterans' preference. Eligible veterans seeking employment who believe that an agency has not properly accorded them their veterans' preference, or failed to provide special placement consideration noted above, may file a complaint with the local Department of Labor VETS representative (located at State employment service offices). To be eligible to file a complaint a veteran must: Have served on active duty for more than 180 days and have other than a dishonorable discharge; have a service-connected disability; or served on active duty during a period of war, or received a campaign badge or expeditionary medal (e.g., the Southwest Asia Service Medal). The Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) prohibits discrimination in employment, retention, promotion, or any benefit of employment on the basis of a person's service in the uniformed services. Complaints under this law should also be filed with the local Department of Labor VETS representative (located at State employment service offices). Since a willful violation of a provision of law or regulation pertaining to veterans' preference is a Prohibited Personnel Practice, a preference eligible who believes his or her veterans' preference rights have been violated may file a complaint with the local department of Labor VETS representative, as noted above. A disabled veteran who believes he or she has been discriminated against in employment because of his or her disability may file a handicapped discrimination complaint with the offending agency under regulations administered by the Equal Employment Opportunity Commission.

Award Procedure:

None.

Deadlines:

Contact the headquarters or regional office, as appropriate, for application deadlines.

Range of Approval/Disapproval Time:

Under Public Law 95-454, retired members of the armed forces will no longer be considered preference eligible as of October 1, 1980, unless they are disabled veterans or retired below the rank of Major or the equivalent. Under Public Law 97-306, enacted October 14, 1982, a 2-year minimum active duty service condition for those entering military service after September 7, 1980, or the full period for which called or ordered to active duty, must be met, unless they are disabled veterans.

FEDERAL AGENCY:

Bureau of Educational and Cultural Affairs, Department of State

AUTHORIZATION:

The Fulbright-Hays Act of 1961, as amended, Public Law 87-256, 22 U.S.C 2451.

OBJECTIVES:

As authorized by the Fulbright-Hays Act, the Bureau of Educational and Cultural Affairs (ECA) seeks to increase mutual understanding between the people of the United States and the people of other countries by means of educational and cultural exchange programs, including the exchange of scholars, researchers, professionals, students, and educators. ECA programs foster engagement and encourage dialogue with citizens around the world. Educational and cultural engagement is premised on the knowledge that mutual understanding, the development of future leaders, and the benefits of education programs influence societies and affect official decision-making almost everywhere in the world today. ECA programs inform, engage, and influence participants across strategic sectors of society including young people, women, teachers, scholars, journalists, and other professionals increasing the number of foreign individuals who have first-hand experience with Americans and with the values of freedom, representative government, rule of law, economic choice, and individual dignity, while building international knowledge and capacity among Americans. The purpose of Undergraduate Programs is to provide targeted support for American students to pursue intensive language study abroad and for foreign students to gain a better understanding of the United States, while developing new generations of world leaders.

TYPES OF ASSISTANCE:

Cooperative Agreements

USES AND USE RESTRICTIONS:

Funding is provided to non-profit organizations, colleges, and universities to support their work in designing and administering programs as well as coordinating program logistics. Funding supports publicity and recruitment, screening of applications, communication with participants, payment of

participant costs, and the provision of enrichment activities. The Global Undergraduate Exchange Program provides one semester scholarships to outstanding undergraduate students from underrepresented sectors in Central Asia, East Asia and the Pacific, Europe, Eurasia, the Near East, South Asia, Sub-Saharan Africa, and the Western Hemisphere for non-degree full-time study combined with community service, internships, and cultural enrichment.

The Study of the U.S. Institutes for Student Leaders are five- to six-week academic programs focusing on topics in U.S. studies for groups of foreign undergraduates. Hosted by universities, colleges, and NGOs throughout the United States, the Institutes include an intensive academic residency, an educational study tour, leadership development, community service activities, and opportunities for participants to engage with American peers. The Institutes aim to increase the undergraduates understanding of U.S. history, government, culture, society, and institutions with the overall goal of increasing mutual understanding between the people of the United States and the people of other countries. This model includes the Young Southeast Asian Leaders (YSEALI) Academic Fellowship, which aims to build the leadership capacity of youth in Asia, to strengthen ties between the United States and Asia, and to nurture an ASEAN identity. YSEALI Academic Fellows take part in five-week programs in the themes of Civic Engagement, Environmental Issues, and Social Entrepreneurship and Economic Development. The Mandela Washington Fellowship for Young African Leaders also follows the SUSI model but targets young professionals from throughout Sub-Saharan Africa. The Mandela Washington Fellowship is the flagship program of President Obamas Young African Leaders Initiative. The Fellowship aims to empower young people through academic coursework, leadership training, and networking. Fellows take part in a six-week intensive academic and leadership program focused in one of three tracks: business and entrepreneurship, civic leadership, or public management followed by a three-day Presidential Summit. Some fellows also take part in six-week professional development experiences at a U.S. workplace.

The Community College Initiative Program (CCIP) provides participants from underserved and underrepresented groups with a one-year non-degree academic program at a U.S. community college in the fields of agriculture; applied engineering; business management and administration; early childhood education; information technology; media; public safety; and tourism and hospitality management. Participants increase their employment-related skills and knowledge of English, increase their ability to contribute to the economic development of their countries, and promote mutual understanding. Please refer to the Grants.gov or the GrantSolutions.gov announcement for further information.

The Critical Language Scholarship (CLS) Program provides fully-funded, group-based intensive language instruction and structured cultural enrichment experiences to U.S. undergraduate and graduate students through overseas summer institutes. CLS Program languages include Arabic, Bangla, Chinese, Hindi, Indonesian, Japanese, Korean, Persian, Punjabi, Russian, Swahili, Turkish, and Urdu, with institutes held in countries where the target languages are spoken. The CLS Program includes twenty hours a week of formal language instruction for 8-10 weeks (equivalent to one full year of language study). Students also participate in activities that are specifically designed and organized to increase language acquisition and cultural knowledge. CLS students engage with the local host community by living with host families, meeting weekly with local language partners and engaging in volunteer activities while using the host language. The CLS program plays a critical role in preparing U.S. students for the 21st century's globalized workforce and increasing American competitiveness.

The TSP, a Congressionally-mandated program, began in 1988 with the goal of fostering mutual understanding and building the capacity of participants to engage and impact their communities when they return home. Student enrichment activities include U.S.-based arrival orientations, mid-year and re-entry, professional development workshops and a mentoring component to support students during and after their exchanges.

The United States-Timor-Leste Scholarship Program provides educational opportunities for academically talented future leaders from Timor-Leste to pursue bachelors degrees at U.S. institutions in priority fields that are directly relevant to development needs in Timor-Leste. Bureau of Educational and Cultural Affairs, Department of State

AUTHORIZATION:

The Fulbright-Hays Act of 1961, as amended., Title 87, Part 256.

OBJECTIVES:

As authorized by the Fulbright-Hays Act, the Bureau of Educational and Cultural Affairs (ECA) seeks to increase mutual understanding between the people of the United States and the people of other countries by means of educational and cultural exchange programs, including the exchange of scholars, researchers, professionals, students, and educators. ECA programs foster engagement and encourage dialogue with citizens around the world. Educational and cultural engagement is premised on the knowledge that mutual understanding, the development of future leaders, and the benefits of education programs influence societies and affect official decision-making almost everywhere in the world today. ECA programs inform, engage, and influence participants across strategic sectors of society including young people, women, teachers, scholars, journalists, and other professionals increasing the number of foreign individuals who have first-hand experience with Americans and with the values of freedom, representative government, rule of law, economic choice, and individual dignity, while building international knowledge and capacity among Americans.

The purpose of International Exchange Alumni Programs is to advance U.S. foreign policy by maintaining relationships with current and future leaders who have participated in international exchanges. Alumni engagement is an integral component of the U.S. Department of State's public diplomacy that generates maximum return on the U.S. government's investment in exchange programs. Alumni programs aim to unite alumni communities around the globe and to foster post-exchange opportunities through follow-on activities, virtual engagement and regional programs.

TYPES OF ASSISTANCE:

To best address those objectives, ECA focuses alumni programs on topics relating to civic engagement, social inclusion, education diplomacy, English language learning, environmental security, entrepreneurship, conflict resolution, and good governance.

In addition to providing expertise, training, and support for on-the-ground alumni activities led by U.S. embassies and consulates around the world, ECA maintains a robust, targeted virtual engagement system. One of the key ways the Office currently unites and engages the alumni community virtually is through the International Exchange Alumni website (alumni.state.gov), an exclusive, password-protected online global community, which serves as the U.S. Department of State's official website for U.S. government-sponsored exchange alumni. The site offers alumni a place to network and connect with other alumni, share news, and access resources such as grants and research databases.
